Miscellaneous food products—Continued	*Group I*	*Group II*	*Group III*		
212. Mayonnaise (including salad dressing and other related products)				1.50	1.50
3-gallon cans and larger		100			
All other sizes			90		
213. Mincemeat				1.50	1.50
No. 10 cans		100			
Smaller than No. 10 cans			90		
214. Mushroom sauce (from fresh mushrooms)			90	1.25	.25
215. Oils, edible:					
5-gallon square cans		100		.50	.50
No. 10, 1-gallon cans and up to 5-gallon cans		100		.25	.25
All other sizes			90	.25	.25
216. Onions, french fried			90	.25	CMQ
217. Peanut and other edible nut butters		100		.25	CMQ
218. Potatoes, french fried, shoestring, sticks			90	.25	CMQ
219. Puddings, fruit, including spiced pudding			90	1.25	1.25
220. Ravioli		100		1.25	.25
221. Rice, processed			90	.50	.50
222. Rice, Spanish (including rice dinner)			10	1.25	.25
223. Sauces, including cream, Newburg and enchilada			10	.25	.25
224. Soups and soup bases, dehydrated, 9-ounce and larger cans only	Unlimited			.25	.25
225. Soups, liquid:					
Seasonal from fresh vegetables only	Unlimited				
Asparagus, cream of celery, cream of mushroom, tomato, and vegetarian vegetable				1.25	.25
All other seasonal				.50	.50
Nonseasonal	Unlimited				
Black bean, bean with bacon, and beef				1.25	.25
Chicken broth and chicken with noodles or rice				.50	.50
All other nonseasonal				.75	.50
226. Soybean milk (liquid, or dry powdered)	Unlimited			.25	.25
227. Spices and condiments		100			
Prepared				1.50	1.50
Dry				.25	CMQ
Dredges and sifter top					.50
228. Steak sauce with mushrooms (from fresh mushrooms)			10	1.25	.25
229. Syrups (including the following syrups and blends—cane, corn, molasses, malt, maple, and sorghum):					
All seams soldered (No. 10 cans and larger)		100		1.25	1.25
All seams soldered (smaller than No. 10 cans)			10	1.25	1.25
Double-seamed oblong (1-gallon and larger)		100		1.25	.25
Double-seamed oblong (smaller than 1-gallon)			90	1.25	.25
Double-seamed round (No. 10 cans and larger)		100		.25	.25
Double-seamed round (smaller than No. 10 cans)			90	.25	.25
Irregular shaped			90	.25	.25
230. Spaghetti with meat balls	Unlimited				
Enameled cans				1.25	1.25
Plain bodies				1.25	.25
231. Tea, dry			90	.25	CMQ
232. Tortillas		100		.25	.25
233. Welsh rarebit			90	.25	.25
234. Yeast, dry, edible				.25	CMQ
Nonactive		100			
Active			90		
235. All other nonprocessed foods			90	.25	CMQ
236. All other processed foods			90	.25	.25
Nonfood products					
237. Aerosol and other pressure-propelled nonfood products	Same as product involved		specified for		
Water- and/or alcohol-base products				.50	.50
Other products:					
Bodies				.25	
Bottoms					CMQ
Tops with soldered valves or with drawn cones or drawn fittings					
238. Abrasives, grinding and buffing compounds, wet		100		.50	.50
239. Acid, nitro-hydrochloric (outer container)		100		.25	.25
240. Aircraft supplies for aircraft use only:				.25	CMQ
Hydraulic oil		100			
Hydraulic preservative oil		100		1.25	1.25
Compass fluid		100		1.25	1.25
Grease, low temperature		100		.25	.25
Antisieze compound for oxygen system		100		.25	.25
241. Aniline		100		.25	.25
242. Antifreeze (all types)				1.25	1.25
Gallon cans	Unlimited			.25	.25
All other sizes		100			
243. Artists' and school supplies (including water color boxes, trays, pans, cups, chalk and crayon boxes, and all other)			90	.25	CMQ
244. Asphalt, pitch, and tar		100		.25	CMQ
245. Auto supplies:					
Liquid radiator antirust compounds		100		.50	.50
Radiator stop leaks		100		.50	.50
Hydraulic brake fluid		100		.25	.25
Shock absorber fluid		100		.25	.25
Tire preserver			50	.25	.25
Top dressing paste and liquid			50	.25	.25
Carbon removers		100		.25	.25
Gasoline additives		100		.25	.25
Rubber lubricants		100		.50	.50
All others			90	.25	CMQ
246. Bee feeder cans		100		.25	.25
247. Belt dressing		100		.25	CMQ
248. Benzol, toluene, naphtha, xylene, gasoline, and kerosene		100		.25	.25
249. Blood and blood plasma, including extenders and substitutes (outer container)	Unlimited			.25	.25
250. Cements:					
Water-base linoleum		100		1.25	1.25
Rubber, latex-type		100		1.25	1.25
Rubber, neoprene		100		1.25	1.25
Solvent-base linoleum		100		.25	.25
Rubber-base liquid and paste		100		.25	.25
All others			90	.25	CMQ

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter J—Procurement Procedures

PART 1000—GENERAL PROVISIONS

REPORT OF PROFIT UNDER THE VINSON-TRAMMELL ACT

Section 1000.1 (15 F. R. 8970; 32 CFR 1000.01) is amended to read as follows:

§ 1000.1 *Report of profit under the Vinson-Trammell Act*—(a) *Requirement.* Prime contractors and subcontractors performing Air Force contracts which are subject to the provisions of the Vinson-Trammell Act (sec. 3, 48 Stat. 505, as amended; 34 U. S. C. 496, 10 U. S. C. 311) are required to file a report of profit with the Secretary of the Air Force within 90 days after completion of the contract.

(b) *Responsibility.* The report covering an Air Force prime contract which is subject to the terms of the act must be filed by the prime contractor as a condition precedent to final payment under such contract. Finance officers are required to withhold final payment on a prime contract which is subject to the Vinson-Trammell Act, until advised that the report covering the contract has been filed. Processing of reports will be expedited so that payment to prime contractors will not be unduly delayed.

(c) *Forms.* The form prescribed for use is DD Form 147, Report of Profit on Army, Navy, or Air Force Contract. Forms may be obtained from the Commanding Officer, Wilkins Air Force Specialized Depot, Shelby, Ohio; or, Commanding Officer, Cheli Air Force Specialized Depot, Atlantic and Pandini Boulevards, Maywood, Los Angeles County, California.

(d) *Use of report.* The data contained in the reports will not be disclosed to any unauthorized person. A prime contractor with whom negotiations are being conducted will not be furnished data obtained from a report previously filed by a subcontractor. However, where such a report indicates an unreasonable profit on a previous subcontract, the buyer may question the reasonableness of the subcontractor's prices in negotiations between the prime contractor and the Government, provided that the specific data contained in such subcontractor's report will not be revealed to the prime contractor.

[AFR 70-11] (Sec. 3, 48 Stat. 505, as amended; 34 U. S. C. 496, 10 U. S. C. 311)

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 975]

[Docket No. AO-179-A9]

HANDLING OF MILK IN CLEVELAND, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order, regulating the handling of milk in the Cleveland, Ohio, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Cleveland, Ohio on June 25–27, 1952, pursuant to notice thereof which was issued on June 13, 1952 (17 F. R. 5469).

The material issues presented on the record of the hearing were whether the order should be amended to provide for:

1. Increasing the level of the Class I price differential and introducing a factor which would automatically raise or lower the differential in response to undersupply or oversupply of milk in the market;

2. Substituting a cheese price formula for the butter-cheese formula as one of the basic formula prices;

3. Reducing the level of Class II and Class III prices, providing for a variable reduction in the price of the skim milk component of these classes when there is a specified oversupply of milk for the market, and eliminating special pricing for Class II butterfat in ice cream, Class III butterfat in butter and shrinkage, Class III skim milk in evaporated milk, and skim milk and butterfat sold during the flush production months to manufacturers of soup, candy, or bakery products;

4. Increasing the rate of location adjustments allowed to handlers and readjusting the schedule applicable to deliveries by producers;

5. Altering the pool plant disqualification provisions to give credit to the country plants originating shipments of milk destined for delivery to a city plant rather than crediting only the country plant from which shipment is finally made, and extending the credit to butterfat in the form of cream instead of confining it to shipments of whole milk;

6. Classifying as Class III the skim milk and butterfat content of any dairy products dumped or disposed of for livestock feeding;

7. Extending the pro rata allocation of other source milk to September and February instead of only the intervening months, and to apply in any of the specified months in which producer receipts are less than 120 percent;

8. Adding fluid cream to the schedule of fluid milk items on which handlers operating nonpool plants are subject to obligation;

9. Assessing payments on receipts of milk subject to other Federal orders when the prices under such other order are less than those applicable under the Cleveland order; and

10. Changes to clarify the language of certain provisions.

Findings and conclusions. The following findings and conclusions on the issues herein are hereby made upon the basis of the record of the hearing:

1. The Class I price differentials should be increased by an annual average of 30 cents per hundredweight and a supply-demand adjustment should be provided as a means of automatically adjusting prices to changes in the relationship between supply and market requirements.

Producers proposed that the annual level of the fixed Class I price differentials be increased by 35 cents per hundredweight. This increase was distributed seasonally at the rate of 25 cents during May and June bringing the total differential for those months to $1.10, 35 cents during March, April, July and August to a total of $1.45, and 40 cents during the months of January, February, September, October, November, and December to a total of $1.90.

The principal evidence advanced in support of the 35-cent increase in the average Class I premium was the fact that handlers have paid substantial premiums over order prices in every month since August, 1950. Handlers have apparently found it necessary to pay these premiums in order to attract and maintain sufficient supplies of producer milk to fill market requirements. The premiums were generally paid as an addition to the blend, or uniform prices payable to producers. However, such payments can be converted to the amount which it would be necessary to add to the Class I price in order to achieve the corresponding increase in blended prices. On this basis the premiums paid averaged 33.5 cents during the calendar year 1951 and 36.7 cents during the 16-month period January 1951–April, 1952. Producers took the position that the proposed 35-cent increase was amply justified by this history of the actual prices, inclusive of premiums, paid for milk over a considerable number of months and that they were more nearly in line with prices in the other markets with which Cleveland competes actively for milk supplies.

As noted above, a greater increase was requested during the months of lowest production and a lesser increase during the two flush production months of May and June. Producers recognized in their proposals for amendment that flush season production in this market was unduly large in relation to short season production. The proposed schedule of differentials provides for an 80-cent higher premium during the short season than in the flush months as compared with the 65-cent difference contained in the present order. It was testified that the higher rates of payment during the fall and winter months would more adequately compensate producers for the extra costs incurred in producing milk during these months and would encourage them to increase their production at this season.

Producers further proposed that the modified schedule of Class I price differentials be supplemented by a supply-demand adjustment which would increase the price whenever market supplies became less than normal and lower the price whenever an oversupply developed. The proposed adjustment was based upon the premise that receipts of milk from producers in November, the months of normally shortest supply, should be equal to 120 percent of gross sales of Class I milk. The normal or standard supply for months other than November was computed by applying the average seasonal distribution of producer receipts and gross Class I sales over the three year period 1949 through 1951 to the November base of 120. The supply-demand adjustment would be computed each month by comparing the actual relationship between receipts and sales in the preceding month with the standard supply-demand relationship, adding 2 cents for each percentage point that current supplies were less than normal and subtracting 2 cents for each percentage point above normal, with a limit of plus or minus 20 cents.

Handlers proposed that the Class I price differential be entirely dependent upon the proportion of producer milk utilized as Class I in the current month, without reference to fixed pattern of differentials. Their reference point or "normal" Class I differential was $1.85 per hundredweight, to be effective when producer receipts were 120 percent of the Class I utilization of producer milk. It was explained that this would be the normal situation in the month of shortest supply. In any month when receipts were less than 120 percent of sales, 3 cents would be added per percentage point deficit. In any month when receipts were more than 120 percent of sales, and this would normally include all months except November, the $1.85 differential would be reduced by 2 cents per percentage point of overage multiplied by the percentage of producer milk classified as Class I. For example, during 1951 producer receipts reached a peak of 167 percent of Class I utilization of producer milk, with 59.75 percent of the total producer receipts being in Class I. The supply percentage was 47 points above normal and the Class I differential would have been 56 cents per hundredweight below the standard of $1.85, a net of $1.29. In November receipts were only 112 percent of sales, a deficit of 8 points from standard, and the differential would have been $2.09, or 24 cents over normal. This device would automatically reward producers for any improvement in the seasonality of their production by making a lesser reduction of the $1.85 during the flush months and discourage any additional flush season production by providing a still lower price. It is also designed to correct year-to-year conditions of oversupply or shortage by appropriate reductions or increases, respectively, in the price differential.

The handlers' proposal appears to have several shortcomings. One fundamental difficulty is that it places too great a reliance on the current relationship between the supply of producer milk and Class I utilization. The utilization percentage in any given month may vary quite widely from normal as a result of storms, drought conditions, an early pasture season, interruptions in the distribution process as a result of strike, or other contingencies. In fact no two seasons are exactly alike, either as to supplies or sales. A pricing system which depends so largely upon one variable element does not meet the needs of dairy farmers. Dairying is a long-term venture characterized by large investments in relation to the average annual income. Changes in output are dependent upon natural phenomena and cannot be modified quickly. It follows that producers' plans will be facilitated

by as much definite assurance as possible of the level of prices which can be expected some months hence. Instead of allowing the entire Class I differential to depend upon the utilization percentage of a single month, it is more in line with dairymen's requirements to provide a fixed schedule of Class I price differentials, and a supply-demand adjustment which plays only a subordinate role in the adjustment of the stated prices.

A second difficulty is that the particular supply-demand relationship advocated by handlers is not computed until the following month, when complete data on receipts and utilization during the pricing month have become available. This, of course, is too late for a producer to respond to a price increase or decrease either by way of altering his feeding practices or shifting his market outlets. Handlers also cannot revise their procurement or sales policies in response to the price changes unless there is a prospect that a given change will continue for several months.

A third shortcoming is that the 2-cent per point adjustment provides only a comparatively small seasonal difference in the Class I price differential. Over the past three years the average variation in supplies and sales has been such that a utilization percentage of 180 in May would have coincided with the proposed goal of 120 in November. The May figure is 60 points over normal, or a gross deduction of $1.20, but only 55.6 percent of producer milk would be in Class I, so the net deduction is only 67 cents, having a Class I differential of $1.18. The present order has a seasonal difference of 65 cents between the flush and short months and this was widely regarded as much too small a difference to encourage more level production.

Upon consideration of both points of view and analysis of the data, it is recommended that the Class I price differential be established at $1.90 during the period August through January, $1.45 in February, March and July, and $1.00 in April, May and June. The short-season premium of $1.90 was proposed by producers, concurred in by one of the largest handlers in the market, and is 5 cents in excess of the normal short-season price proposed by the handlers as a group. This short-season differential reflects the average premiums which have been paid in this market over the twenty-month period preceding the hearing and is designed to achieve a price level under the order which will make it generally unnecessary for handlers to continue to pay premiums over order prices in order to obtain adequate supplies of pure and wholesome milk. The principle of establishing order prices at levels which will make it unnecessary to pay premiums was strongly endorsed by both producers and handlers.

The seasonal aspect of the pricing problem results from the fact that Cleveland producers have been supplying far greater quantities of milk during the spring months than are needed by the market. Sales requirements, of course, are essentially the same during all seasons of the year. Production, on the other hand, is normally greatest during the spring months when pasturage is available, but fluid milk markets are best served by as nearly constant milk production as natural factors will allow. In 1949 daily average receipts of milk from producers during May, the month of highest production, were 44 percent over those during the low month, November, in 1950 the June receipts were 48 percent over December, and in 1951 the June receipts were 53 percent over November. Over the three-year period peak receipts were averaged 48 percent over receipts during the shortest month. It is evident that the summer excess is of burdensome proportions and is growing progressively greater rather than being reduced.

Two measures are recommended to help remedy this situation. One is a 10-cent lower premium than that proposed by producers to be effective during the peak production months. There was, in fact, testimony that the differential of 85 cents now specified by the order should not be raised. However, it is clear that premiums continued to be paid during the late spring months in order to keep on a competitive procurement basis with adjacent markets. The recommended differential of $1.00 per hundredweight will help bring order prices to more competitive levels, yet leave producers a considerable incentive to shift from spring to fall production.

The differential of $1.45 during the intermediate months is the same as that recommended by producers and appears to represent an appropriate level to maintain supplies at adequate levels.

The second measure recommended to induce a more even seasonality of production consists of a re-grouping of the months to which the various rates of Class I differentials apply. Producers are not paid for milk until the 20th of the month following that in which milk was delivered. To some extent, therefore, their reaction to seasonally lower or seasonally higher prices is delayed beyond the time when the changes actually become effective. Accordingly, the maximum differential has been applied to the months of August through January instead of September through February. The flush-season differential has been made effective during April, May and June instead of only during the latter two months. The intermediate price differentials should be made effective during the months of February, March and July.

The supply-demand adjustment should be based on a normal supply of producer milk equal to 115 percent of gross Class I sales during November, the month of usually shortest supplies.

Proposals by both producers and handlers were based on a short-season normal supply equal to 120 percent of Class I utilization. It was testified that a monthly average reserve of 20 percent over requirements is needed to assure adequate supplies during days of peak demand. This is an unusually high reserve, however, especially since it constitutes a reserve over combined needs for fluid milk and cream instead of only over the former. The recommended standard utilization of 115 percent compares with an actual low of 111 in December 1950 and one of 106 in November 1951.

The standard utilization percentages for the other months should reflect a somewhat more even pattern of production than the market has experienced in recent years. In comparison with the average seasonality of the receipts-sales ratio in the years 1949–51, the standard has been reduced 4 points in April and 2 points in May. With slight improvement in seasonality of production in these months no adverse effect upon early summer differential would result. Off-setting increases have been made in August, September and October of 1, 3, and 2 points, respectively, which will tend also to encourage a more even seasonality of production. The monthly relationships between receipts of milk from producers and Class I sales which were considered desirable are as follows:

Month:	Percent	Month:	Percent
January	123	July	147
February	127	August	135
March	137	September	130
April	146	October	125
May	170	November	115
June	166	December	119

The most probable supply-demand relationship for the current month should be predicted on the basis of the average utilization during the first and second preceding months. When the current utilization percentages are below the corresponding standard percentages, the Class I price differential will be increased and when utilization is above normal there will be a corresponding decrease in the Class I price. The rates of increase and decrease should be varied seasonally. Fall production should be encouraged with a 3-cent price increase per percentage point when the market is undersupplied, and summer production should be discouraged by a 3-cent decrease whenever the market is oversupplied. On the other hand, any increase in supplies during the late fall months would not be burdensome except as an indication of a general oversupply, and the rate of discount should be only 2 cents. Similarly, any evidence of undersupply during the flush months should result in only a 2-cent per point increase. During the intermediate months, increases and decreases of 2 cents per point are appropriate. The amounts of the supply-demand adjustment have been tabulated to correspond to bracketed changes in the "deviation percentages" or the departure of the current utilization percentage from the standard. Bracketing the deviation percentages removes some of the random fluctuations which are inevitable in the use of recent supply-demand relationships to forecast a prospective situation. The maximum amount of the supply-demand adjustment has been limited to 55 cents. Any greater departure from normal than 18 percentage points is probable evidence of fundamental changes in the market and would indicate a need for complete review of the price structure.

Historical data cannot provide a complete test of the probable results of a supply-demand adjustment since it would have changed prices and thereby affected both receipts and sales. However, it is of interest to note that during

1949 the recommended schedule of adjustments would have raised Class I prices by 7 cents in March, April, May, August and September and would have lowered them 10 cents in June and July and 7 cents in December. In 1950 there would have been 10- to 13-cent decreases in January through May and 7- to 19-cent increases during the last 7 months, the average increase for the year being 2 cents. In 1951 increases would have been effective every month, averaging 16 cents for the year. In the first half of 1952 there would have been increases of 19 cents in January and February and of 7 cents in March and decreases of 10 cents in April, 28 cents in May, and 46 cents in June. The change from shortage to excess reflects the addition of pool plants in February and March and favorable production conditions in April and May.

2. A cheese price formula should be substituted for the butter-cheese formula which is now included in the order as one of the three alternative methods of determining the basic formula price.

The present butter-cheese formula was designed some years ago to measure the value of milk for all manufacturing purposes rather than the value of milk used for making cheese. Also it reflects a much higher proportion of butter relative to cheese than is currently being produced, and the prices developed by the formula are usually considerably below the other basic formula prices.

The cheese price formula presented for consideration at the hearing was developed by a multiple correlation analysis, using butter and cheese prices to account for changes in prices paid for 3.5 percent milk by Wisconsin cheese factories. The factors discovered by this analysis were closely related to yields and manufacturing costs. This indicates that considerable future reliance can be placed upon the operation of the formula; during the years 1948 through 1951 formula prices were within 6 cents per hundred pounds of the monthly average prices actually paid for 3.5 milk at the cheese factories in over 80 percent of the cases, and 16 cents was the maximum difference.

To determine the value per hundred pounds of 3.5 milk the average price per pound of cheddar cheese, as reported in the Wisconsin primary markets, is multiplied by 8.53, the price per pound of 92-score creamery butter at Chicago is multiplied by 0.902, and 34.3 cents is added to the sum of these products.

3. The price of butterfat used in all Class II products should be reduced to the same level as that used to produce ice cream, the prices of skim milk in Class II and of butterfat in Class III should remain unchanged, the price of skim milk in Class III should remain unchanged except for the elimination of the special pricing of skim milk used in evaporated or condensed milk in hermetically sealed cans, and the special credit applicable during the flush months to sales of milk and cream for manufacturing purposes to manufacturers of candy, soup or bakery products should be eliminated.

Handlers presented two sets of proposals for the pricing of milk used for Class II and Class III purposes. The proposal which they indicated they preferred would have continued to price butterfat in these two classes at a market price for butter multiplied by a fixed factor. However, they proposed to reduce the Class II and Class III prices of skim milk during any month when producer receipts were more than 140 percent of the Class I utilization of producer milk. Since handlers take the position that the supply in the normally shortest month should not be less than 120 percent of Class I utilization, it is apparent from market history that the supply percentage in the flush season would normally exceed 140 percent.

The fundamental difficulty with this proposal is that the prices it would establish for seasonally excess milk do not reflect returns obtainable for the products manufactured from this milk. That surplus prices should reflect these values was implicitly recognized in the handlers' proposal that Class II and Class III butterfat prices continued to be based upon market prices of butter and was explicitly recognized in testimony to that effect. Skim milk values should also be related to the value of the manufactured product. The milk processing facilities operated by handlers or available to them are not so limited in this area as to require distress pricing of the seasonal excess. The proposal should not, therefore, be adopted.

The alternative proposals which handlers offered in the event of unfavorable consideration of their primary pricing proposal involved changes in the formulas used in establishing Class II and Class III prices on the basis of market quotations for manufactured dairy products. They proposed that all butterfat utilized for Class II purposes be priced at 120 times the Chicago price of 92-score butter. It was brought out that ice cream is the principal outlet for Class II butterfat, and that cream used for creaming cottage cheese is the only other sizable category of Class II butterfat. It was testified that the quality standards of cream for these two purposes are identical and that the same sources of open market cream are available for use in cottage cheese as in ice cream. The present order uses a multiplier of 125, except that butterfat used to produce ice cream or ice cream mix is priced at 120 times the butter price. Since a multiplier of 120 has proved appropriate for ice cream and since other Class II products are on essentially the same competitive basis as ice cream, the price per hundred pounds of all butterfat utilized for Class II purposes should be established at 120 times the price per pound of 92-score butter at Chicago.

The notice of hearing contained a proposal by handlers altering the pricing of skim milk in Class II. However, no testimony was offered in support of this proposal and no change should be made in this provision of the order.

It was proposed by handlers that the value per hundred pounds of butterfat utilized in Class III be reduced to 110 times the price of 32-score butter at Chicago. The order currently provides a valuation of 120 times the butter price, except for butterfat used in the manufacture of butter which is priced at $5.00 per hundred pounds of butterfat below the specified price. There was very little specific information advanced in support of this change. Butter is by far the largest single outlet for Class III butterfat, and evaporated milk is the only other significant use. Deducting the $5.00 per hundredweight allowance on butterfat used in butter reduces the multiplier to 113 when butter is valued 70 cents per pound, and it appears that this valuation is very close to competitive levels.

With respect to the pricing of skim milk in Class III, handlers proposed a reduction of 20 cents per hundredweight during the months of April, May, June and July. The supporting testimony was principally devoted to the difficulties encountered by those handlers whose plants are located in or near Cleveland and who depend entirely upon direct-delivered milk. During the flush production months receipts from producers are commonly greater than can be handled at these plants, and considerable quantities of milk must be hauled to manufacturing plants. It must be recognized, however, that even in the absence of a milk marketing order, those handlers having only city plant facilities would still be in direct competition with those having country plants. They would be faced with the same volume of surplus milk and would have to choose whether to install sufficient facilities to manufacture the peak volumes or be prepared to transport the milk to specialized manufacturing plants.

Some further basis for judging the adequacy of the Class III price can be obtained by comparing the price per hundredweight of Class III milk containing 3.5 percent butterfat with prices paid for similar milk in markets comparably situated. These comparisons are perhaps more useful than comparisons of the component skim and fat values, since competition is primarily in terms of whole milk as delivered by producers, and the assignment of values to skim and to butterfat are somewhat arbitrary. Producers introduced a tabulation of comparative prices of milk used for butter and for other products generally corresponding to those classified in Class III under the Cleveland order. The markets for which prices are tabulated include all the Federal order markets in Ohio and those in Chicago, Illinois, and South Bend and Fort Wayne, Indiana. All these markets except Chicago are directly competitive with Cleveland for milk supplies. It was pointed out that the prices payable under the Cleveland order for 3.5 milk used in the manufacture of butter were lower than those in any of the markets listed except for the months of January and March 1952 when the Chicago Class IV price was slightly below the Cleveland butter price. The Cleveland Class III price for milk used in products other than butter was also generally lower than corresponding prices in all other markets except Fort Wayne, Toledo, and Lima. The fact that the Cleveland order prices for milk used for butter and other Class III products are generally below the corresponding prices in markets having a wide variety of operating conditions, supports the conclusion that neither the fat or skim components of the Class III prices should be reduced.

The Class III pricing provisions proposed by handlers omit any special provision relating to milk used for evaporated or condensed whole milk or skim milk in hermetically sealed cans. The present order prices 3.5 milk for such uses at the 18-condensery pay price less 8 cents, assigning the fat content a value based upon butter prices and leaving a residual price for the skim milk component. With regard to 3.5 milk so processed, the effect of this order provision is to provide a special price based on condenseries rather than on butter-powder values, the special price generally being lower than the Class III price. The value of skim milk so utilized, however, fluctuates erratically depending upon the level of prices paid by condenseries as compared with market values of butter and nonfat dry milk solids. In the circumstances, the special pricing for these items should be eliminated.

Handlers specifically proposed the elimination of the special provision reducing the price on milk or cream sold during the months of April through July to manufacturers of soup, candy and bakery products. They testified that they had been unable to develop any such outlets during these months. Since the provision has served no useful purpose, it should be deleted.

4. Location differentials to handlers and producers should be retained at present levels for distances up to 75 miles, the rate in the 75 to 90 mile zone should be increased one cent to a total of 18 cents per hundredweight, and the differential should increase thereafter at the rate of 2 cents per 15 miles.

Handlers originally proposed that the location adjustment at all distances be increased by 10 cents per hundredweight. However, testimony by contract haulers and others at the hearing demonstrated that the present schedule of differentials was more nearly in conformity with the hauling rates in the nearest zones and least adequate at the most distant locations. The proposal was therefore altered to call for raising the location adjustment rates progressively with increases in the distance from the market.

The recommended rate results in location adjustments which are generally equal to current hauling costs. There was testimony by one hauler that further increases in rates are in prospect, but the record provided no means of determining whether competitive conditions would permit such increases to become fully effective.

With respect to location adjustments to producers, handlers proposed that the same schedule of rates apply as in the handler adjustment, but that the amount of such adjustment be limited on a percentage basis to the actual amount of the adjustment allowed to handlers. This proposal results from the fact that the handler location differentials apply only to the actual quantity of Class I milk moved to the marketing area from a given location, whereas the producer differential applies on the total quantity of milk delivered to a plant at a given location. During the fall months when substantially all of the milk delivered to country plants is shipped into the marketing area, virtually the full amount of the producer differential would become effective. However, during the flush production months when large quantities of milk are processed at country plants instead of being shipped to market, the entire schedule of producer location differential rates would be reduced.

Location differentials have been a persistent problem since the inception of the order in Cleveland. Basically this results from the exceptionally keen competition for milk at the periphery of the milkshed with a less evident need to maintain prices for direct-delivered milk. The demands of the market have made necessary a continual expansion of the milkshed. This expansion has involved direct competition with numerous other markets, and handlers have been obliged to pay the local competitive price at such points and incur the cost of hauling such milk to Cleveland. Handlers therefore feel that they could compete more effectively for milk supplies at such points if the order would allow them to deduct somewhat lower location adjustments from producers.

The producer location differential is primarily a matter of distributing pool returns to producers and does not directly affect handlers' costs for milk. The Cleveland handlers point out, however, that the price of milk delivered directly by producers to city plants can be lowered and prices at country stations correspondingly raised by the proposed limitation on the producer location differentials. Fundamentally, however, the only condition consistent with long run stability and maximum efficiency in the marketing of milk at order prices is for the price of milk delivered to the city to be at such levels as will meet the competition for milk at the periphery of the milkshed and cover the transportation costs incurred in moving such milk to the city. The recommended pricing provisions and location adjustments are designed to accomplish this purpose and the proposed percentage limitation on the producer location adjustment has not been adopted.

5. The pool plant disqualification provisions should not be altered.

One proposed change would give credit to a country pool plant originating a given shipment or portion thereof instead of crediting only the country pool plant from which shipment is ultimately made to a city plant. This proposal was advanced as a means of allowing credit to each of several individual plants combining shipments into a full tank load, and to permit a given country plant to obtain supplemental supplies from more distant country plants without depriving the latter of the credits which would accrue if the milk was shipped directly to the city. It appears, however, that shipments of partial tank truckloads from a country plant would seldom be a problem at times when the maintenance of pool plant status would be a factor and that the shipment of supplementary milk is more a matter of business arrangements than of efficient shipment of milk to market. The disadvantage of the proposal is that it would tend to encourage the arbitrary allocation of shipments of milk among pool plants for the sole purpose of maintaining pool status, without regard to market requirements.

It was also proposed that the shipping requirements for continuance of pool plant status be in terms of either butterfat or milk, thereby crediting cream shipments instead of only milk shipments as at present. This would constitute a major revision of the requirements for maintaining pool plant status without altering those for initially acquiring status. For example, Cleveland has regularly obtained large quantities of cream from sources other than producers. The plants supplying such cream could maintain status as pool plants (if they could initially acquire such status) without making any fluid milk supplies available for the primary fluid milk needs of the market. There was no indication that the presently qualified pool plants are faced with a difficult problem in maintaining status during the next several months. It therefore appears preferable to keep the requirements in terms of milk until a more thorough review of all pool plant requirements can be made.

6. The Class III definition should be broadened to include homogenized milk and flavored milk and milk drinks disposed of for livestock feed and milk or skim milk dumped after suitable notice to the market administrator.

Handlers proposed that skim milk and butterfat in any milk product dumped or disposed of for livestock feed be classified as Class III. This proposal is not administratively feasible. Equitable treatment of all parties in the market requires that receipt and utilization be verifiable by audit or equivalent evidence. Any dumping which may be necessary must follow notice to the market administrator so that he can have it witnessed or verified by any other means he deems appropriate. This process is not applicable to the disposal of daily route returns which must necessarily be handled within the limits of the shrinkage allowance. With regard to livestock feeding, the addition of homogenized milk and flavored milk and milk drinks to skim milk and buttermilk encompasses virtually all the products which cannot be disposed in more remunerative outlets than as livestock feed.

7. The conditions under which other source milk should be prorated with the utilization of producer milk should not be changed.

The order now allows other source milk to be prorated during any of the months of October through January by any handler whose receipts of butterfat in milk from producers and pool plants is less than 110 percent of the butterfat

in Class I sales. Handlers proposed that 120 percent was a more appropriate measure of the type of short supply situation in which pro rata allocation of other source milk should be permitted and that the provision be extended to September and February. It was particularly urged that the producers' proposal to use 120 percent as the standard supply in November for Class I pricing purposes constituted an endorsement of the proposed allocation percentage. It must be recognized, however, that the supply-demand price adjustment is based upon average utilization in the entire market, that the proposed ratio of 120 percent applies only in one month, and that it constitutes a pricing normal above or below which corrective pricing only begins to become effective. The allocation standard applies to each handler individually and makes a complete change in the relative position of producer and other source milk. Moreover, the addition of 4 pool plants in February and March 1952 has provided a supply of producer milk which appears likely to maintain an adequate supply during the entire year. Thus, there now appears to be less need than in recent years for the type of action proposed.

8. Fluid cream should not be added to the list of products on which compensatory payments must be made by nonpool plants distributing such products in the marketing area.

The proponents of this change maintained that much of the fluid cream business in the marketing area had been captured by nonpool plants. It was charged that sanitary requirements for cream from such sources were sufficiently below those applicable to Grade A milk from Cleveland producers to give the nonpool plants a cost advantage. Such differences, however, are recognized in the lower price for cream than for other Class I products. The cream price was designed specifically to be competitive with nonpool sources of cream under prevailing inspection requirements, whereas no testimony was offered in support of the Class III price as reflecting cream values at nonpool plants.

9. The order should not be changed with respect to milk subject to the pricing provisions of other Federal orders.

The Cleveland order currently considers milk from other Federal markets as "other source" milk for allocation purposes, but exempts it entirely from pricing and payment provisions. It was proposed that such milk not be considered as other source milk for allocation purposes but should, rather, be allocated as the handler sees fit. This aspect of the proposal should not be adopted. From the viewpoint of the producers who regularly supply milk to Cleveland, such milk is as much other source as milk from State-regulated or unregulated sources. It should not be used to displace producer milk in Class I except under the same conditions as specified for all other source milk.

It was further proposed that on milk from other Federal order markets sold as Class I in the Cleveland market handlers be obligated to pay into the Cleveland producer-settlement fund any amount by which the value of the milk under the other order is below the Class I value under the Cleveland order. However, no need for such a provision was demonstrated. In fact there are no similar charges on other source milk acquired by a pool plant unless such acquisitions constitute more than 50 percent of its total receipts of producer milk. In the absence of such a charge on milk from unregulated sources, there is no basis for assessing a charge on milk from another Federal order market.

10. Paragraphs (a), (b), and (c) of § 975.53 should be amended to delete the phrase "and as Class II milk if transferred as cream" since cream is no longer a Class II product. Also the parenthetical phrase "(other than butterfat in butter)" should be deleted from § 975.56 (a) because the price applicable to the butterfat in shrinkage is the same as that applicable to butterfat used in the manufacture of butter.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and certain handlers. The briefs contained proposed findings of fact, conclusions and argument with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended marketing agreement and order as amended. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed to be further amended:

1. In § 975.51 (c) (1) delete the phrase "and skim milk or buttermilk disposed of for livestock feed;" and substitute therefor the following: "or accounted for as dumped milk or skim milk or as homogenized milk, flavored milk and milk drinks, skim milk, or buttermilk disposed of for livestock feed;"

2. Delete from each of paragraphs (a), (b), and (c) of § 975.53 the phrase "and as Class II milk if transferred as cream,"

3. Delete from paragraphs (a) and (e) of § 975.56 the phrase "(other than butterfat in butter)".

4. Delete § 975.60 (b) and substitute therefor the following:

(b) The price per hundredweight resulting from the following formula:

(1) Multiply by 0.902 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month; and

(2) Add 8.53 times the average of the daily prices per pound of cheese at Wisconsin Primary Markets ("Cheddars", f. o. b. Wisconsin assembling points, cars or truckloads) as reported by the Department of Agriculture during the month; and

(3) Subtract 34.3 cents.

5. Delete § 975.61 (a) and substitute therefor the following:

(a) (1) Add to the basic formula price the following amount for the delivery period indicated:

Delivery period:	*Amount*
April, May, and June	$1.00
February, March, and July	1.45
All others	1.90

and add or subtract a "supply-demand adjustment" computed as follows:

(i) Divide the total quantity of milk received from producers during the first and second months preceding the delivery period by the gross quantity of milk utilized as Class I in the same two months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the "current utilization percentage".

(ii) Compute a "deviation percentage" by subtracting from the current utilization percentage as computed in subdivision (i) of this subparagraph, the "standard utilization percentage" shown below:

Month for which the price is being computed:	*Standard utilization percentage*
January	117
February	121
March	125
April	132
May	142
June	158
July	168
August	156
September	141
October	132
November	128
December	120

(iii) Determine the amount of the supply-demand adjustment from the following schedule:

If deviation percentage is—	Supply-demand adjustment for specified months is—		
	Jan., Feb., Mar., Aug., and Sept.	April, May, June, and July	Oct., Nov., and Dec.
	Cents	*Cents*	*Cents*
+18 or over	−37	−55	−37
+15 or +16	−31	−46	−31
+12 or +13	−25	−37	−25
+9 or +10	−19	−28	−19
+6 or +7	−13	−19	−13
+3 or +4	−7	−10	−7
+1 or −1	0	0	0
−3 or −4	+7	+7	+10
−6 or −7	+13	+13	+19
−9 or −10	+19	+19	+28
−12 or −13	+25	+25	+37
−15 or −16	+31	+31	+46
−18 or below	+37	+37	+55

(2) When the deviation percentage does not fall within the tabulated brackets the adjustment shall be determined by the adjacent bracket which is the same as or nearest to the bracket used in the previous month: *Provided*, That with respect to Class I milk in sweet or sour cream for fluid consumption, the amount added to the basic formula price shall be the amount set forth above in this paragraph less 45 cents.

6. Delete § 975.62 (a) and substitute therefor the following:

(a) The price of butterfat shall be the average price of butter as computed pursuant to paragraph (b) (1) of § 975.60 multiplied by 120.

7. In § 975.63 (b) replace the colon preceding the word "*Provided*" with a period and delete all language appearing thereafter.

8. In § 975.70 replace the colon preceding the phrase "*And provided also*" with a period and delete all language appearing thereafter.

9. In § 975.71 change "17 cents per hundredweight" to read "18 cents per hundredweight", and change "an additional 1 cent for each additional 15 mile zone" to read "2 cents additional for each additional 15 mile zone".

Filed at Washington, D. C., this 30th day of September 1952.

[SEAL] GEORGE R. DICE,
Acting Assistant Administrator.

[F. R. Doc. 52-10726; Filed, Oct. 2, 1952; 8:51 a. m.]

[7 CFR Part 982]

[Docket No. AO 238]

HANDLING OF MILK IN CENTRAL WEST TEXAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Abilene, Texas, February 11–15, 1952, pursuant to notice thereof which was issued on January 16, 1952 (17 F. R. 661).

Upon the basis of the evidence introduced at the hearing and the record thereof the Acting Assistant Administrator, Production and Marketing Administration, on July 2, 1952, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. This decision and notice of opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on July 8, 1952, (17 F. R. 6116).

The material issues of record related to:

1. Whether the handling of milk produced for the marketing area is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products;

2. Whether marketing conditions justify the issuance of a milk marketing agreement or order;

3. The extent of the marketing area;

4. Scope of regulation;

5. The classification and allocation of milk;

6. The determination and level of class prices;

7. Payments to producers; and

8. Administrative provisions.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof, it is hereby found and concluded that:

1. *Character of commerce.* The handling of milk in the Central West Texas marketing area is in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in the handling of milk and its products.

Substantial quantities of milk produced in states other than Texas are imported regularly to supply the needs of handlers in the Central West Texas area. Since the production area within the state does not furnish a sufficient supply, the importation of milk for fluid use is a normal part of the operations of several handlers in this area. One handler whose plant is located in Midland, Texas, is currently importing 3,000 gallons per day of milk produced in Missouri, which represents approximately 60 percent of his receipts. Another handler whose plant is located in San Angelo, Texas, imports from Missouri from 12 to 20 percent of his total receipts, or approximately 5,600 gallons per week. Other handlers also import milk from Wisconsin and Missouri.

Substantial volumes of milk are sold in Central West Texas by Dallas handlers subject to the North Texas milk marketing order. These handlers also receive milk from producers in states other than Texas. Such milk is sold in competition with that of handlers with plants located in cities of the Central West Texas area. There is also competition for sales between handlers of the Central West Texas area and handlers who receive milk from producers whose farms are located in New Mexico. The plant of one such handler is located in New Mexico.

2. *Need for regulation.* Marketing conditions in the Central West Texas marketing area justify the issuance of a marketing agreement and order.

The Central West Texas area is an extensive area in which the population of the principal cities has increased rapidly in recent years. At the same time the production of milk has declined, particularly under severe drought conditions of the past two years. As a consequence major handlers of the area have imported substantial quantities of milk throughout all months of the year. Local producers have nevertheless at times been paid surplus prices for their milk at the same time that handlers have been importing outside milk.

Producers delivering milk to the same plant are frequently paid different prices. The prices paid by handlers with plants located in the same city also differ from each other. One of the larger handlers operates five bottling plants located in five different cities of the area, and a receiving station at a sixth location. At his largest plant in Abilene, nearby producers who deliver their own milk are paid one price, while more distant producers, whose milk is picked up in cans at a collection point, are quoted a lower price at the collection point and also pay the hauling charge from the collection point to the Abilene plant. Thus, the milk picked up at the collection point actually costs the handler less than the direct delivered milk. As a result, some producers whose milk moves in their own cans to the Abilene plant receive 40 to 50 cents less per hundredweight for their milk, as delivered at Abilene, than do other producers delivering to the same plant. Inequitable costs to handlers for milk for fluid use also has resulted from this arrangement, since other handlers receiving milk at Abilene have paid prices equal to those paid by this handler for milk delivered direct to his plant. The same handler quotes prices for milk delivered to his Brownwood and Comanche plants which are less than his prices for milk delivered to his Midland, Abilene and San Angelo plants, and makes further deductions from payments to producers delivering milk to Brownwood and Comanche for movement of milk to such other plants. A San Angelo handler also is paying different prices for milk received at his plant to producers from different areas.

Handlers have refused to bargain with a cooperative association representing a substantial majority of the milk producers of the area with respect to the prices and conditions under which producers market their milk. With some few exceptions, handlers have not permitted the association to render to its members check testing and weighing services. For some time after the association was first organized in 1949, handlers by coercion and intimidation attempted to keep producers from joining the association. Handlers will not allow the association access to records to verify the use made of producer milk, and producers are not permitted to participate in the price-making functions of the market. They often learn of changes in price only at the time of payment for milk. This situation has prevented the development of an orderly system of establishing prices for milk produced for fluid consumption in this area. Such a system is needed to as-

sure producers of fair and equitable prices, and equal costs of milk to handlers.

There is need for market-wide information concerning production and sales in order that producers may plan their production and marketing programs intelligently. The adoption of a classified price plan based on the audited utilization of handlers, and market-wide pooling of returns among producers, will provide, respectively, equal costs to handlers for milk used for like purposes, and a fair division among all producers of the returns from fluid sales in the market.

3. *Extent of the marketing area.* The Central West Texas marketing area should be defined to include the cities of Abilene, Ballinger, Big Spring, Breckenridge, Brownwood, Cisco, Coleman, Colorado City, Comanche, Eastland, Lamesa, Midland, Odessa, Ranger, San Angelo, Snyder, Stamford, Sweetwater, and Winters, all in the State of Texas.

It was proposed that the marketing area be defined to include all the area within 27 counties in Texas. The 19 cities herein decided as the marketing area comprise the principal centers of urban population of this area. These cities have a total population of approximately 220,000, ranging in size from 2,500 to 52,000 population. Defining the marketing area by city boundaries rather than by county boundaries will simplify administration of the order and provide equally effective regulation for the area. Population in the rural areas is widely scattered, and the smaller towns not included in the area are completely served by handlers of the named cities. Because of the relatively small volume of sales which may be expected in such smaller towns, and the distances separating them, unregulated handlers would find it impractical to establish business in the counties proposed without sales within the defined marketing area.

Exceptions were received to the inclusion of the city of Lamesa in the marketing area and to the failure to include a number of other smaller cities. The exception to the inclusion of Lamesa was from a Lubbock handler who apparently will not be subject to full regulation of the order and was not concurred in by the handler with a plant located in that city. The exceptions to failure to include additional smaller cities in the marketing area appear to be based largely upon the possibility that outside handlers may start selling milk in these cities. This possibility presently appears somewhat remote. Since amendment hearings provide opportunity for further and more detailed consideration of the marketing situation in these cities, it is concluded that the marketing area defined in the recommended decision should be adopted at this time.

All milk sold for fluid consumption in the Central West Texas area is sold as Grade A milk. To be labeled "Grade A", milk must be produced and handled under the supervision of local health officers in accordance with the standards of the United States Public Health Service Milk Ordinance. These standards have been adopted by the Texas State Department of Health and are contained in the ordinances of the cities. Sanitarians of city-county health units enforce these standards with respect to milk received from producers by plants located in the area. These sanitarians accept the certification of each other and of other health authorities enforcing similar standards with respect to the quality of milk.

Milk moves freely within the defined area. Milk received and bottled at Abilene is sold in Breckenridge, Cisco, Eastland, Ranger, Snyder, Stamford and Winters. Milk received at Brownwood is sold in Comanche and Coleman in bottled form and is moved to Abilene, San Angelo and Midland for bottling. Milk received at Sweetwater is sold in Snyder. Milk received at a receiving station at Comanche is moved to Midland, where it is commingled with milk received at Midland and Big Spring and is sold in Midland and Odessa in competition with milk received from producers at another Midland plant. Such milk is also sold in Lamesa. Milk received at Big Spring is sold in Colorado City in competition with milk received at Midland and Sweetwater. Milk received at San Angelo is sold at Ballinger, Coleman, Big Spring, and at other points outside the marketing area in competition with milk received at plants in other cities of the area herein decided.

Milk is sold in these 19 cities from plants of handlers located in the cities of Abilene, Big Spring, Breckenridge, Brownwood, Lamesa, Midland, San Angelo, Stamford and Sweetwater, and by handlers whose plants are located in Dallas, Lubbock and Wichita Falls. The Dallas handlers are regulated under the North Texas marketing order. The Lubbock handler sells only a small portion of his total Class I sales in the cities of Lamesa and Snyder, and sells less milk in these cities than do handlers with plants in the marketing area. The sales by a Wichita Falls handler are in Stamford and are likewise not a large percentage of either his total sales or the total sales in that city. Provision is made in the proposed order to exempt from full regulation such outside handlers with relatively small sales in the area.

The Midland handler who imports 60 percent of his supplies from Missouri proposed that six counties which include Big Spring, Colorado City, Midland and Odessa be excluded from the proposed marketing area. The basis of his contention is that this is a separate deficit area for which both he and his competitor with two local plants in Big Spring and Midland must import a substantial portion of their milk supplies. The imports of this competitor are from his plants in Brownwood and Comanche. In fact all receipts at a Comanche plant are moved to Midland for processing, and this plant in fact serves as a receiving station for a Midland plant, although the producers supplying it hold Brownwood permits. It is doubtful if effective regulation of the milk received at Comanche would be provided unless the western towns are included in the marketing area, and the record shows conclusively that such milk should be subject to regulation. Should it be possible to devise effective regulation of this milk without including the western cities in the marketing area, milk would not be priced uniformly to handlers doing business there. Milk from a San Angelo plant is distributed there and the volume of milk sold there which is priced under the North Texas order is quite substantial. If these cities were excluded, and the Comanche milk priced under the order, then somewhat over half of the milk sold there would be priced under either the Central West Texas order or the North Texas order, and the handler proposing exclusion of these cities would be the only handler who would not have a substantial portion of his receipts priced under these two orders. These cities should be included in the marketing area so that effective regulation will be possible and producer receipts of all handlers will be priced uniformly.

4. *Scope of regulation.* The minimum class prices of the order should apply to Grade A milk produced under the regular inspection of the health authorities of the municipalities comprising the marketing area, which is received at milk bottling plants distributing milk in the marketing area, or at receiving stations supplying such bottling plants. The class prices should also apply to Grade A milk produced under the inspection of other health authorities whose certification is accepted by the appropriate health authorities of the marketing area, if such milk is received at a bottling plant from which a significant portion of the total Class I sales is on routes in the marketing area.

Milk sold in the marketing area is exclusively Grade A milk. The health authorities of the cities of the marketing area in which processing plants are located inspect the farms of and issue permits to those eligible producers whose milk is received at such plants. Health authorities of the marketing area also inspect farms and issue permits to producers whose milk is received at two receiving and cooling plants from which milk is regularly moved to bottling plants in the area. In addition, the farm and plant inspections of other authorities enforcing Grade A standards and requirements are recognized for both regular distribution and supplementary supplies.

In order to distinguish clearly what milk is to be subject to the order, which processors and distributors are to be subject to regulation, and which dairy farmers will participate in the market pool, it is necessary to include in the order definitions of "approved plant," "handler," "producer" and "other source milk."

"Approved plant" should be defined to include those Grade A milk plants under the routine inspection of health authorities of the marketing area from which Class I milk (fluid milk items specifically named elsewhere in the order) is disposed of on routes in the marketing area, or which serve as receiving stations for plants with route disposition in the marketing area. "Approved plant" should also include those Grade A milk plants under the routine inspection of other health authorities

from which at least 15 percent of the total disposition of Class I business is on routes operated wholly or partially in the marketing area. The definition thus will not include outside plants which furnish supplementary supplies to plants regularly supplying the area, nor will it include plants under the routine inspection of other health authorities whose route disposition in the area is a minor portion of their total Class I business. To include such plants would involve pricing milk that is not primarily associated with the Central West Texas market.

Provision must be made to insure that milk disposed of as Class I milk in the marketing area from sources other than producers will not underline the pricing and pooling requirements of this order. It is concluded that regulation in this respect should take the form of a payment into the producer-settlement fund on the amount of milk disposed of as Class I milk on routes wholly or partially within the marketing area from a plant from which Class I disposition on routes wholly or partially within the area is less than 15 percent of the total Class I sales inside and outside the area from such plant. The use of 15 percent of a plant's total Class I disposition as the standard for determining whether the receipts of milk at outside plants should be priced and pooled was proposed at the hearing by one of the handlers so affected. Plants with less than this percentage of their Class I business on routes in the marketing area cannot be considered to have their primary business in the marketing area, nor can their receipts of milk be considered to be produced primarily for sale in the marketing area.

Milk and milk products from sources other than producers are received in bulk, e. g. in tank trucks or in cans, at plants supplying the marketing area from plants located considerable distances from the marketing area. Milk and milk products also enter the market in bulk and in consumer containers from nearby distributors subject to other Federal orders. Finally, some milk and milk products in Class I are distributed on routes wholly or partially within the area from plants whose main Class I business is outside of the marketing area.

Because of the extreme deficit nature of the Central West Texas area, and because of the distances over which supplementary supplies must be transported, payments on the first two categories of outside milk and milk products, i. e. the bulk shipments from remote points and the receipts from plants subject to other Federal orders, are not necessary to protect the pricing and pooling plan of the order. There is little or no possibility of obtaining such supplies at substantially less than the minimum order prices, or of the marketing area becoming a dumping ground for surplus milk from these other areas. This market is in the center of a large area where the production of milk of Grade A quality is less on a year-around basis than is the consumption of such milk. The coordinated pricing of milk in the Federal order markets in the vicinity of the Central West Texas area can be relied upon to provide the necessary assurance that milk and milk products received from distributors under these other Federal orders will not undermine the pricing and pooling provisions of the Central West Texas order. Under these circumstances it appears that neither milk or milk products from distant unregulated sources nor from other Federal order markets will endanger the pricing and pooling provisions of this order, and therefore no special payments thereon need be required under present conditions.

It is only in connection with Class I milk distributed on routes in the marketing area by operators of unapproved plants not subject to other Federal orders whose principal Class I sales outlets are outside the area that a payment is necessary. The record shows that there are plants located at Lubbock and Wichita Falls, outside the marketing area, which have their principal Class I business in those cities but also dispose of some milk and milk products in Class I on routes which extend into the marketing area. With respect to each such plant, the evidence indicates that Class I disposition on routes wholly or partially within the marketing area is less than 15 percent of such plant's total sales of milk and milk products in Class I, inside and outside the area. The milk and milk products distributed from these unapproved plants is of the same Grade A quality as that distributed in the marketing area by wholly regulated handlers.

To price and pool the milk received from dairy farmers at plants such as these Lubbock and Wichita Falls plants would place the operators of such plants under full regulation of the order, while those with whom they compete in their respective primary markets would remain wholly unregulated. Further, such action would include in the market-wide pool under this order considerable volumes of milk produced primarily for those outside markets. The order should not regulate the prices paid to dairy farmers by such plants. On the other hand, it is essential that there be assurance that no competitive advantage accrues to these plant operators with respect to their sales of milk and milk products in Class I on routes in the area, as against wholly regulated handlers.

An equitable solution to the problem is to provide for the payment into the producer-settlement fund of the difference between the Class I price which would be payable under the order for an approved plant at the location of the unapproved plant and the lowest f. o. b. plant price actually paid to dairy farmers by the unapproved plant for a volume of milk equivalent to that disposed of from such plant as milk and milk products in Class I on routes wholly or partially within the marketing area. This difference can be ascertained from the operators of these unapproved plants, who, by virtue of their Class I sales in the marketing area, are handlers under the order, and will be required to report regularly to the market administrator with respect to their purchases of milk from dairy farmers and their disposition of milk and milk products, both within and outside of the marketing area. These reports will be subject to verification through audit by the market administrator.

"Handler" to whom the regulatory provisions of the order apply, should be defined as the operator of an approved plant in his capacity as such, the operator of an unapproved plant from which route disposition of Class I milk is made in the marketing area, or a cooperative association with respect to milk or producers diverted from an approved plant to an unapproved plant for the account of such cooperative association.

The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and for paying producers minimum prices. The operator of the unapproved plant from which route disposition of Class I milk is made in the marketing area should be defined as a handler in order that the status of his plant may be established and that the obligations described above may be imposed upon him. A cooperative association may need for short periods to divert producer milk from approved plants to unapproved plants. If the association is permitted to act as a handler for such milk, even though it may have no plant, the producers whose milk is so diverted will receive the uniform price of the order and their milk will be available for Class I use when needed.

"Producer" should be defined as any person, other than a producer-handler, who produces "approved milk" which is received at an approved plant or is diverted from an approved plant to an unapproved plant for the account of a handler. The definition should specify "approved milk" as that produced under a Grade A permit or rating issued by a health authority having jurisdiction in the marketing area, if such milk is received at (or diverted from) an approved plant under the regular inspection of such health authority, or that produced under a health authority whose certification is accepted by the local health authority if such milk is received at an outside bottling plant with route disposition in the marketing area equal to or in excess of 15 percent of total Class I sales. Provision should be made that any person whose milk is received by a handler subject to another Federal order will not be defined as a producer, since this would result in such person's milk being included in two pools.

The order does not propose to pool the Class I sales of a producer-handler, who is a person operating an approved plant who produces milk but receives milk only from his own production and from the approved plants of other handlers. Any milk they sell to handlers is normally surplus to their own operations; to pool such milk without also pooling the Class I sales producer-handlers make directly would result in a preferential market to producer-handlers as compared with regular producers. Producer-handlers should therefore be excluded from the definition of producers, and the milk they deliver to buying handlers be treated as other source milk.

"Other source milk" should be defined to include all skim milk and butterfat other than that contained in producer milk. When received at an approved plant, such milk would be from dairy farmers not approved by health authorities in the marketing area for producing Grade A milk, or from a plant which has not qualified as an approved plant. Other source milk would not be priced under the order, but would be allocated to the lowest valued use in the handler's plant, to prevent its displacing from Class I producer milk, which constitutes the regular supply of the market.

5. *Classification of milk.* Milk should be classified in two classes. Class I milk should include all skim milk and butterfat disposed of as Grade A milk or milk products, and unaccounted for milk except for an allowance for plant loss or shrinkage. Class II milk should include all skim milk and butterfat used to produce products not required to be from Grade A milk, disposed of for livestock feed, allowable shrinkage, and closing inventory of Class I products (later adjusted by allocation of operating inventory to the same class). The provisions adopted specify as Class I milk those products which the record shows are currently required to be from Grade A milk. A proposal to include products which may hereafter be required to be from Grade A milk should not be adopted, as the diversity of health authorities with jurisdiction in the marketing area makes it improbable that such requirements will be adopted simultaneously in all parts of the area.

Unaccounted for producer milk in excess of a reasonable allowance for plant loss should be Class I milk in order to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance, except with respect to receipts of skim milk in the months of April, May and June, for which the maximum allowance should be increased to 5 percent. There is evidence that during these months some handlers may have no economical outlet for small volumes of skim milk. Verification of the volumes of skim milk dumped is administratively impracticable in this marketing area. An increase in the plant loss allowance will provide a practical means of providing classification at Class II for such small quantities of skim milk for which the handler receives no return. No limit need be placed on shrinkage of other source milk as Class II milk since such milk is deducted from the lowest use class under the allocation provisions. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts.

To prevent other source milk, which is unpriced, from displacing from Class I the producer milk regularly supplying the market, other source milk should be allocated to the lowest use in a handler's plant. In establishing the classification of milk, responsibility should be placed upon the handler who first receives milk from producers to account for all milk and milk products received, and to prove to the market administrator his claim that such receipts should be classified other than as Class I. The handler who first receives milk from producers is the person who is in position to satisfy this primary need of a class price plan. Such a handler must be held responsible for reporting the proper utilization of such milk and making full payment for it. He must, therefore, maintain records to establish unquestionable proof of the utilization of all milk he receives.

Provision should be made to cover the classification of milk, skim milk and cream transferred to other milk plants. Transfers to approved plants of other handlers may be at classification agreed upon between the handlers, provided the transferee plant has use in the agreed class and the prior claim of producer milk over other source milk on Class I utilization is maintained. Transfers to a producer-handler should be Class I milk, since producer-handlers normally purchase from handlers only for fluid use. Transfers from approved plants to fluid milk plants within 300 miles should be Class I milk, unless it can be shown that the receiving plant did not have Class I use in excess of its receipts from the dairy farmers constituting its regular source of supply. Transfers to milk manufacturing plants within 300 miles should be Class II milk. Transfers to plants beyond 300 miles should be Class I if the milk so transferred is in the form of milk or skim milk. Transfers of cream to such plants should be Class I if under Grade A certification, and Class II if without such certification. Milk and skim milk cannot economically be transferred long distances for manufacturing use. The limit of 300 miles is established as an area within which there are manufacturing facilities sufficient to dispose of any prospective excess of producer milk. Cream often moves long distances for use in ice cream. Grade A certification is considered a reasonably accurate criterion for distinguishing that cream moved for fluid uses from that moved for manufacturing purposes.

6. *The determination and level of class prices.* The Class I milk price should be based on the Class I price established under Federal Order No. 43 regulating the handling of milk in the North Texas marketing area, to which should be added 35 cents per hundredweight. The Class I price should be further adjusted for the location of approved plants, both within and without the marketing area, at which milk is received from producers.

A substantial volume of milk priced under the North Texas milk order is distributed on routes operated in almost every city of the Central West Texas marketing area. Between 15 and 25 percent of the total fluid milk sales in the area are from the plants of North Texas handlers in Dallas who distribute through vendors in this area. Cities of the Central West Texas marketing area are at distances from Dallas varying from 131 miles to either Breckenridge or Comanche up to 350 miles to Odessa. Distribution at such distances in competition with plants receiving milk within the area is feasible because production conditions in the Central West Texas area are difficult and farmers in this area cannot produce milk except at relatively high prices. The increase in population and decline in milk production in the area have created a demand for milk which could not be supplied from local production. As a consequence one North Texas handler in particular has established sales which are a significant factor in the milk trade of the area. There are also areas in which there is competition for producers between the Central West Texas area and the North Texas area, since the milksheds of the two areas overlap to some extent. North Texas handlers buy milk from producers in Erath, Eastland and Hamilton Counties. Central West Texas handlers also have producers in these counties. A handler from Abilene until recently purchased milk from producers in Parker County, which is included in the North Texas marketing area.

Under these circumstances, there is a very close relationship between prices in the North Texas area and those in the Central West Texas area. The level of prices in the Central West Texas area has changed at about the same time as that of the North Texas area, and in approximately the same amounts in the same direction. The competition for sales and production requires integration of changes in price for the two markets.

Proponents of the order proposed to accomplish this result by basing the Class I price upon a basic formula identical with that of the North Texas order plus differentials to bring about the proper difference in the Class I price. The North Texas order, however, provides for adjustment of the Class I price by the ratio of producer supplies to Class I sales. The evidence received at the hearing indicates the necessity for maintaining a constant difference between the prices of the orders. This may be accomplished by specific reference in the Central West Texas order to the Class I price of the North Texas order. Official notice is taken of the fact that since the hearing amendments have been made to the Class I pricing provisions of the North Texas order.

It is further necessary that the Class I price vary for locations in the marketing area. Production conditions, influenced largely by rainfall, vary considerably throughout the milkshed. The cities of the marketing area are separated by considerable distances, and the population is not distributed in proportion to the milk production. The most favorable production conditions are in counties nearer to Brownwood and Comanche than to other cities in which there are plants that receive milk from producers. Approximately 25 percent of the receipts of producer milk are at plants in Brownwood and Comanche, but less than 10 percent of the sales in the area are from these plants. Plants in Abilene and San Angelo receive milk from producers who could deliver their milk to Brownwood and Comanche at less cost. Abilene and San Angelo plants have customarily paid prices higher than those at Brownwood and Comanche in order to secure supplies. A majority of both producer receipts and sales from plants in the area are from plants in Abilene, San Angelo and Sweetwater, at which locations producer prices have usually been approximately the same. At Big Spring and Midland plants, however, producer receipts are less than 15 percent of the total for the area while sales are in excess of 30 percent of the total sales of the area. Milk received at Brownwood and Comanche in excess of the needs for fluid sales in that area is regularly moved to a Midland plant by tank truck. Another Midland plant requires outside supplementary supplies for approximately 60 percent of its sales. Milk received at a receiving station operated by a cooperative association at Windthorst, 125 or more miles from Abilene, is produced under permits of Abilene health authorities and moved regularly to the plants of Abilene handlers. Prices established for producer milk received at plants in different parts of the marketing area and without the area must be adjusted so as to permit milk to move to the plants at which it is needed for Class I sales.

The general trend of movement of milk is westward. Proponents of the order proposed that the Class I price for milk be established at 23 cents over the North Texas order price for milk received in certain counties in the eastern portion of the proposed 27-county area, that this be increased to 46 cents for milk received in a large group of counties in the central portion of the area, and to 69 cents for milk received in the far western counties proposed. The handler operating plants in each of these proposed districts proposed that these amounts should be 10, 33, or 35, and 63 or 65 cents respectively. An analysis of the past relationships between Dallas-Fort Worth prices and those for Abilene, San Angelo and Sweetwater indicates that the prices paid for milk received at these Central West Texas cities have generally ranged from 30 to 45 cents above the Dallas-Fort Worth prices. Prices at Midland are currently at about the same level but there is general agreement that they should be higher than the Abilene price.

It is concluded that the appropriate relationships to the North Texas order price should be 15 cents, 35 cents and 55 cents, respectively, more than such price, and that provision should be made that the Class I price applicable for milk received at Windthorst, and plants in the North Texas marketing area should be the North Texas order price. This is accomplished by establishing the Class I price as that applicable in the Abilene-San Angelo-Sweetwater area, and providing location adjustments of (1) an additional 20 cents for milk received within 70 miles of Midland, and (2) a reduction of 20 cents for milk received at points east of the 103rd principal meridian that are both more than 180 miles from Midland and also more than 70 miles from Abilene, with a further reduction of 15 cents for milk received at such points more than 105 miles from Abilene. This system of location adjustments will provide the same relative system of zoning for all plants within the areas as was proposed, with the exception of one small plant at Breckenridge at which the Abilene rather than the Brownwood price will apply. The record shows that there is little milk production in this area, and that milk received at Abilene is regularly sold there, while no milk received at Brownwood is sold in Breckenridge.

The Class II price should be based on 92-score butter prices in Chicago, and the average of the prices for spray and roller process nonfat dry milk solids f. o. b. Chicago area plants. Ice cream and cottage cheese are the primary uses made of Class II milk solids by Central West Texas milk dealers. Health authorities in the area permit use of ungraded milk in the manufacture of these products, for which most ingredients must be imported. A butter-powder formula price appears to provide the best available estimate of cost to handlers of obtaining suitable alternative butterfat and nonfat solids for use in ice cream and cottage cheese. Three cents should be subtracted from the butter quotation and 5.5 cents from the nonfat solids quotation as a reflection of the manufacturing and marketing margin. Yields of 1.2 and 8.16 should be applied respectively. An overrun of at least 20 percent is commonly experienced in churning butter. Also a yield of 8.5 pounds or more of powder can be expected from 100 pounds of skim milk in a reasonably efficient plant. Since 100 pounds of whole milk testing 4.0 percent contain 96 pounds of skim, a yield of 8.16 per 100 pounds of whole milk is provided. These yield factors are in line with general market experience, and are closely comparable with those used in many other federally regulated markets.

The recommended Class II pricing formula is the same as that used as an alternative price for Class II milk in the North Texas order. This record does not provide a basis for an alternative Class II price determined from the paying prices of Texas manufacturing plants for ungraded milk such as is used in the North Texas order.

The minimum prices which handlers would be required to pay are for milk testing 4.0 percent butterfat. These should be adjusted upward or downward in accordance with variations from 4 percent in the butterfat content of the milk. The rate of adjustment for each class should be aligned with the respective class prices in order to properly apportion the value of butterfat and nonfat solids in these classes. This adjustment does not affect the class prices for milk of standard test.

It is concluded that extra butterfat above 4.0 percent in Class II milk should be priced at 1.15 times the Chicago 92-score butter price, and that such butterfat in Class I milk should be priced at 1.25 times such butter price. These figures should be converted and payment made on the basis of tenths of a pound. Deductions should be made at the same rate for milk testing less than 4.0 percent butterfat. These butterfat differentials are identical with those of the North Texas order and their use will preserve the comparability of prices in the two orders that is established by the class prices for milk of 4.0 percent butterfat content.

The parity price of all milk sold at wholesale in the United States, which is the applicable parity price under present legislation, was $4.84 per hundredweight as of March 15, 1952. Such price does not reflect what the record shows to be the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply and demand for milk or its products in the marketing area; nor would it insure a sufficient quantity of pure and wholesome milk for the marketing area, or be in the public interest.

7. *Payments to producers.* The "market-wide" type of pool with base-rating plan should be established in this order for the purpose of distributing among producers returns from the sale of their milk. Under this plan all producers receive the same uniform price for their milk (or when bases are applicable, a uniform price for base milk and a uniform price for milk in excess of base) irrespective of the utilization made of such milk by individual handlers.

The alternative to the market-wide pool is the individual-handler pool. Under this latter system producers delivering to each handler receive a uniform price based on each handler's utilization of milk. Because different handlers utilize different proportions of their milk as Class I and Class II, the uniform prices of individual handlers would vary one from the other. This might facilitate the distribution of the available supply of milk in accordance with handlers' needs in a marketing area of this size. On the other hand, the record shows that a cooperative association will be a handler for milk it receives from producer members at a receiving station and regularly moves to the plants of proprietary handlers. Another cooperative association representing the majority of all producers has proposed that the order be so written as to enable it to become a handler when necessary to market any milk of its members in excess of the needs for Class I milk. Under these circumstances an individual handler pool would result in an unequal sharing of the market among producers and would not be conducive to orderly marketing. The use of a market-wide pool will also facilitate the distribution among producers of any payments that may be required from handlers relieved from full regulation of the order because of minor distribution in the area or because they are subject to other milk orders.

A Midland handler advocated an individual handler pool on the basis that deliveries of producer milk at Midland plants are less than Class I sales from such plants, and producers delivering to these plants have not historically borne any of the burden of carrying reserve milk for the market. The class prices and location adjustments provided in the order should result in equitable returns to producers variously situated, when all such producers share proportionably in the total Class I sales of the market. The other handler receiving milk at Midland operates plants in other cities, and under an individual handler pool his payments to producers would be computed on the basis of receipts and utilization of milk at all such plants. The necessity for premium payments by this handler under a handler pool ap-

pears more probable than does the necessity for his competitor to make such payments under a market-wide pool.

In the computation of the value of producer milk, provision should be made for the inclusion of the value of milk classified in excess of reported receipts from producers, other handlers, and other sources. This provision is found in other milk orders and is necessary to account for differences between the reported and actual weights and tests of milk received from producers.

The butterfat differential to be used in making payments to producers should be fixed at one-tenth of the price of Grade A (92-score) butter on the Chicago market multiplied by 1.2. This differential is the same as that established under the North Texas order. The producer butterfat differential merely affects the proration of returns among producers, and it in no way affects handlers' costs for milk.

The distribution among producers of the returns from the sales of milk in the months of April, May, and June should be made through the medium of a base-rating plan. The proposal for a base-rating plan is supported by both the producers association and handlers in the market. Producers have become accustomed to the use of bases under the marketing plans in effect in the area.

The purpose of a base-rating plan is to encourage producers to level out seasonal variations in their milk deliveries and thus avoid seasonal shortages and surpluses. This is accomplished by assigning each producer a base equal to his average delivery during the months of short production (October through January) and making prior assignment of Class I sales of the market during the months of greatest production (April through June) to the deliveries that producers make within such bases. A uniform price for base milk is thus computed which is enhanced above the average for the market and a uniform price for excess milk (deliveries in excess of base milk) which is below the average for the market. The lower price applicable to excess milk tends to limit deliveries of such milk during the months of surplus production. Conversely, the value of a large base gives impetus to the delivery of milk in the season of short production. The influence of these two forces tends to cause a more even seasonal pattern of milk deliveries than if payments are made during all months of the year on a straight uniform price basis.

The record does not show clearly the seasonal pattern of milk deliveries for the entire area, nor have there been seasonal surpluses within the past year. If there is a deficit supply of milk in the months of April through June the uniform price for excess milk will be practically equal to that of base milk. The data available are, however, those for a period of severe drought and consequently cannot be considered representative of normal conditions. Seasonal surpluses are to be avoided in this area in view of the lack of adequate manufacturing facilities. The order for the North Texas market, with which the Central West Texas market is closely related, incorporates a base-rating plan. It is concluded that a base-rating plan similar to that of the North Texas order should be included even though the record indicates that there have been supply conditions under which such a plan is not normally effective.

Uniform prices to producers should vary with the locations of the approved plants at which their milk is received. With respect to the uniform prices for all milk and for base milk, the rate of adjustment should be identical with the rate of adjustment made with respect to the price for Class I milk to handlers. The uniform price for excess milk should be adjusted at such rates in proportion to the total volume of excess milk classified as Class I milk.

Although uniform prices are computed once a month, provision should be made to pay producers on a semi-monthly basis. The majority of producers on the market have customarily been paid twice a month and it concluded that this practice should be continued. The advance payment to be made on or before the 25th day of the month and covering receipts of producer milk during the first 15 days of the month should be at not less than the Class II price for the preceding month. Payment at this rate will largely eliminate the possibility of handlers making over-payments to producers who may leave the market before the end of the month. Final payment for milk received during each month should be made on or before the 15th day after the end of the month.

In the case of a qualified cooperative association, which so requests, the handler should make the advance and final payments sufficiently in advance of the date for payment to other producers to enable the cooperative association to pay its members at that date. The dates which have been provided for these various payments are so spaced that ample time is provided the handlers and the market administrator for the filing of reports, the computation of the various prices and the writing and mailing of checks.

8. *Administrative provisions.* Certain other provisions should be adopted to enable proper and efficient administration of the order.

(a) *Administrative assessment.* Each handler should be required to pay to the market administrator, as his pro rata share of the cost of administration of the order, 4 cents per hundredweight, or such lesser sum as the Secretary may from time to time prescribe, on all receipts at his approved plants within the delivery period of (1) milk from producers (including such handler's own production) and (2) other source milk which is classified as Class I.

The market administrator must have sufficient funds to enable him to administer properly the terms of the order and the act provides that the administration of the order be financed through assessment against handlers. In view of the anticipated volume of milk on which the rate would apply it is concluded that a maximum rate of 4 cents per hundredweight is necessary at this time to guarantee sufficient administrative funds. In the event at a later date a lesser amount proves to be sufficient for proper administration, provision is made to enable the Secretary to reduce the assessment accordingly.

(b) *Deductions for marketing services.* Provision should be made for the dissemination of market information to producers and for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. This provision, including the assessing of producers in payment thereof, is specifically authorized by the act. Five cents per hundredweight or such lesser rate as the Secretary may determine should be deducted by handlers from the payment to producers and turned over to the market administrator to finance such services. This rate was proposed by producer groups who have had experience with check sampling, weighing, and testing programs in the marketing area. In the event any qualified cooperative association is determined to be performing such services for any producer, handlers should pay to the cooperative association such deductions as are authorized by such producer in lieu of the payment to the market administrator.

(c) *Other administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of the market administrator, define his powers and duties, prescribe the information to be reported by handlers each month and the length of time that records must be retained. A plan for liquidation of the order in the event of its suspension or termination should be provided.

Producer-handlers should be exempt from the regulatory provisions of the order except that they should be required to file reports as requested by the market administrator. Since a producer-handler may change his status from time to time, it is necessary that the market administrator have authority to require such reports as will enable him to verify the current status of a producer-handler and to supplement other market information.

A handler who operates a plant which is subject to the regulatory provisions of another milk marketing agreement or order issued pursuant to the act, and from which the Secretary determines that a greater volume of Class I milk is disposed of in such other marketing area than in this marketing area should be partially exempt from the provisions of this order. It would be impractical to attempt to regulate a handler under two separate orders with respect to the same milk. It appears reasonable that the effective regulation should be that of the area in which such a handler makes the greater portion of his sales. Such a handler should be required to report to the market administrator regularly so that he may ascertain the amount of milk disposed of by such persons within the area. It was proposed that if the price such handler is required to pay for Class I milk under the other order to which he is subject is less than the price provided in this order, he should pay to the producer-settlement fund an amount equal to the difference between the two prices on all Class I milk disposed of within the area. The Class I price of this order applicable to plants receiving milk in the North Texas marketing area is the same as that of the North Texas order, so that no payments would be required on the milk priced under the North Texas order that is marketed in the Central West Texas marketing area. There is no present prospect that a handler subject to any order other than the North Texas order will engage in route distributions of milk in the Central West Texas area. It has therefore been concluded that the proposal for such payments need not be included in the order at this time.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444), covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

General findings. (a) The proposed marketing agreement and the order and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Ruling on exceptions. Within the period reserved therefor, exceptions were filed to certain of the findings, conclusions and actions recommended by the Acting Assistant Administrator. In arriving at the findings, conclusions and regulatory provisions of this decision, such exceptions were carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions, are overruled.

Determination of representative period. The month of July 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order to regulate the handling of milk in the Central West Texas marketing area in the manner set forth in the attached order is approved or favored by producers, who during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Central West Texas Marketing Area," and "Order Regulating the Handling of Milk in the Central West Texas Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 30th day of September 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the Central West Texas Marketing Area

Sec.
982.0 Findings and determinations.

DEFINITIONS

982.1 Act.
982.2 Secretary.
982.3 Department.
982.4 Person.
982.5 Cooperative association.
982.6 Central West Texas marketing area.
982.7 Approved plant.
982.8 Unapproved plant.
982.9 Handler.
982.10 Producer.
982.11 Producer milk.
982.12 Other source milk.
982.13 Producer-handler.
982.14 Route.
982.15 Base milk.
982.16 Excess milk.

MARKET ADMINISTRATOR

982.20 Designation.
982.21 Powers.
982.22 Duties.

REPORTS, RECORDS AND FACILITIES

982.30 Reports of receipts and utilization.
982.31 Reports of payments to producers.
982.32 Other reports.
982.33 Records and facilities.
982.34 Retention of records.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

CLASSIFICATION

Sec.
982.40 Skim milk and butterfat to be classified.
982.41 Classes of utilization.
982.42 Shrinkage.
982.43 Responsibility of handlers and reclassification of milk.
982.44 Transfers.
982.45 Computation of the skim milk and butterfat in each class.
982.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

982.50 Class I milk.
982.51 Class II milk.
982.52 Butterfat differential to handlers.
982.53 Location adjustment to handlers.

APPLICATION OF PROVISIONS

982.60 Producer-handlers.
982.61 Handlers subject to other orders.
982.62 Handlers operating unapproved plants from which Class I milk is disposed of in the marketing area.

DETERMINATION OF UNIFORM PRICE

982.70 Computation of value of milk.
982.71 Computation of aggregate value used to determine price(s).
982.72 Computation of uniform price.
982.73 Computation of uniform prices for base milk and excess milk.

DETERMINATION OF BASE

982.80 Computation of daily average base for each producer.
982.81 Base rules.

PAYMENTS

982.90 Time and method of payment.
982.91 Location adjustments to producers.
982.92 Producer butterfat differential.
982.93 Producer-settlement fund.
982.94 Payments to the producer-settlement fund.
982.95 Payments out of the producer-settlement fund.
982.96 Adjustment of accounts.
982.97 Marketing services.
982.98 Expense administration.
982.99 Termination of obligation.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

982.100 Effective time.
982.101 Suspension or termination.
982.102 Continuing power and duty of the market administrator.
982.103 Liquidation.

MISCELLANEOUS PROVISIONS

982.110 Agents.
982.111 Separability of provisions.

AUTHORITY: §§ 982.0 to 982.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 982.0 *Findings and determinations.* (a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Central West Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the months of (i) other source milk which is classified as Class I milk, and (ii) milk from producers including such handler's own production.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the following terms and conditions as set forth below:

DEFINITIONS

§ 982.1 *Act.* "Act" means Public Act No. 10, 73rd Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 982.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 982.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 982.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 982.5 *Cooperative Association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 982.6 *Central West Texas marketing area.* "Central West Texas Marketing Area" called the marketing area in this subpart means all territory within the corporate limits of the following cities, all in the state of Texas:

Abilene.	Lamesa.
Ballinger.	Midland.
Big Spring.	Odessa.
Breckenridge.	Ranger.
Brownwood.	San Angelo.
Cisco.	Snyder.
Coleman.	Stamford.
Colorado City.	Sweetwater.
Comanche.	Winters.
Eastland.	

§ 982.7 *Approved plant.* "Approved plant" means:

(a) A milk plant approved by and under the routine inspection of the health authority of any municipality in the marketing area:

(1) From which Class I milk labeled Grade A in consumer packages is disposed of in the marketing area on routes, or

(2) Which receives milk from producers as defined in § 982.10 (a) which serves as a receiving station by receiving, weighing and commingling producer milk, and from which milk or skim milk (i) is moved to a plant specified in subparagraph (1) of this paragraph during the month, or (ii) was moved to plant(s) specified in subparagraph (1) of this paragraph in an amount equal to 60 percent or more of total receipts of producer milk during the months of October through January immediately preceding any month of April, May or June during which no milk was moved to such a plant; or

(b) A milk plant approved by and under the routine inspection of a health authority other than that of a municipality in the marketing area from which Class I milk labeled Grade A in consumer packages is disposed of in the marketing area on a route operated wholly or partially in the marketing area in an amount equal to 15 percent or more of the total disposition of Class I milk from such plant during the month.

§ 982.8 *Unapproved plant.* "Unapproved plant" means any milk processing or distributing plant which is not an approved plant.

§ 982.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant;

(b) Any person in his capacity as the operator of an unapproved plant from which Class I milk is disposed of during the month on a route in the marketing area; or

(c) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 982.10 *Producer.* "Producer" means any person other than a producer-handler:

(a) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by the health authority of any municipality in the marketing area, which milk is received at an approved plant described in § 982.7 (a); or

(b) Who produces milk under a dairy farm permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by a health authority whose certification is accepted by the appropriate health authority of a municipality in the marketing area, which milk is received at an approved plant described in § 982.7 (b).

(c) "Producer" shall include any such person whose milk is regularly received at an approved plant, but whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include any person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this order pursuant to § 982.61.

§ 982.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by producers which is received by a handler, either directly from producers or from other handlers.

§ 982.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 982.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk other than from his own production and from approved plants.

§ 982.14 *Route.* "Route" means any delivery (including any delivery by a vendor or at a plant store) of milk, skim milk, buttermilk or flavored milk drink other than to a milk processing plant.

§ 982.15 *Base milk.* "Base milk" means milk received from a producer by a handler during any of the months of April through June which is not in excess of such producer's daily average base computed pursuant to § 982.80 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 982.16 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of April through June which is in excess of base milk received from such producer during such month, and it shall include all milk received from producers for whom no daily average base can be computed pursuant to § 982.80.

MARKET ADMINISTRATOR

§ 982.20 *Designation.* The agency for the administration of this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 982.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 982.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 982.98 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 982.97) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and such other means as he deems appropriate, the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to § 982.30 to § 982.32, inclusive; or

(2) Made payments pursuant to § 982.90 to § 982.99, inclusive.

(i) On or before the 12th day after the end of each month, report to each cooperative association, which so requests, the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk pursuant to § 982.50 and the Class I butterfat differential pursuant to § 982.52 (a), both for the current month, and the minimum price for Class II milk pursuant to § 982.51 and the Class II butterfat differential pursuant to § 982.52 (b), both for the preceding month; and

(2) On or before the 12th day of each month, the uniform prices computed pursuant to § 982.72 or § 982.73 as applicable and the butterfat differential computed pursuant to § 982.92, both applicable to milk delivered during the preceding month;

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information; and

(l) Furnish to a cooperative association upon request the data furnished to the market administrator pursuant to § 982.31 (a) with respect to milk of its members.

REPORTS, RECORDS AND FACILITIES

§ 982.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator as follows for each approved plant operated by him, or, in the case of a cooperative association, for producer milk diverted by it;

(a) The quantities of skim milk and butterfat contained in milk received from producers, and for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The quantities of skim milk and butterfat contained in or represented by all milk, skim milk, cream and products specified as Class I milk pursuant to § 982.41 (a) on hand at the beginning and the end of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(f) The pounds of milk received from producers at each approved plant and the pounds of Class I milk disposed of from each such plant, if the handler operates more than one approved plant;

(g) The disposition of Class I products on routes wholly outside the marketing area; and

(h) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 982.31 *Reports of payments to producers.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds and the average butterfat test of milk received from each producer and cooperative association, the number of days, if less than the entire month, for which milk was received from each such producer, and, for the months of April through June, such producer's deliveries of base milk and excess milk;

(b) The amount of payment to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 982.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 982.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representatives during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 982.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the

litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 982.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 982.30 shall be classified by the market administrator pursuant to the provisions of §§ 982.41 to 982.46, inclusive.

§ 982.41 *Classes of utilization.* Subject to the conditions set forth in §§ 982.43 and 982.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog, aerated cream products and mixes for ice cream or other frozen dairy products) of cream and milk or skim milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section; and

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent (5 percent, with respect to receipts of skim milk during the months of April, May, and June) of receipts from producers;

(4) In shrinkage of other source milk; and

(5) In inventory at the end of the month as skim milk, cream or any product specified in paragraph (a) of this section.

§ 982.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and in other source milk.

§ 982.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if later disposed of (whether in original or other form) as Class I milk.

§ 982.44 *Transfers.* Skim milk or butterfat disposed of by a handler by either transfer or diversion from an approved plant shall be classified:

(a) At the class mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred, otherwise as Class I milk, if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of another handler (except a producer-handler) subject in either event to the following conditions:

(1) The receiving handler has utilization in such class of an equivalent amount of skim milk and butterfat, respectively; and

(2) Such skim milk or butterfat shall be classified so as to allocate to producer milk the greatest possible Class I utilization in the two plants.

(b. As Class I milk, if transferred to a producer-handler in the form of milk, skim milk or cream.

(c) As Class I milk, if transferred or diverted in the form of milk or skim milk to an unapproved plant more than 300 miles distance by the shortest highway distance, as determined by the market administrator.

(d) As Class I milk if transferred in the form of cream under Grade A certification to an unapproved plant located more than 300 miles distant and as Class II milk if so transferred without Grade A certification.

(e) As Class I milk if transferred or diverted in the form of bulk milk, skim milk or cream to an unapproved plant located not more than 300 miles distant by the shortest highway distance and from which fluid milk is disposed of on wholesale or retail routes, unless the conditions in subparagraphs (1) and (2) of this paragraph are met:

(1) The market administrator is permitted to audit the records of such unapproved plant; and

(2) Such unapproved plant receives milk from dairy farmers who the market administrator determines constitutes its regular source of supply for Class I milk.

(3) If these conditions are met, the market administrator shall classify such milk as reported by the handler, subject to verification as follows:

(i) Determine the use of all skim milk and butterfat at such unapproved plant; and

(ii) Allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting in series beginning with the highest use classification, the skim milk and butterfat in milk received at the unapproved plant direct from dairy farmers.

(f) As Class II milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 300 miles distant by the shortest highway distance from which fluid milk is not disposed of on wholesale or retail routes.

§ 982.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I and Class II milk for such handler.

§ 982.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 982.45, the market administrator shall determine the classification of milk received by each handler from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 982.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 982.41;

(3) Subtract from the remaining pounds of skim milk in Class I the pounds of skim milk received as Class I products in consumer packages from an unapproved plant which are not in excess of the pounds of skim milk transferred to such unapproved plant as Class I milk;

(4) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk in other source milk;

(5) Subtract from the remaining pounds of skim milk, in series beginning with Class II, the pounds of skim milk contained in the Class I items in inventory at the beginning of the month;

(6) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 982.44 (a);

(7) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I milk and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 982.50 *Class I milk.* Subject to the provisions of §§ 982.52 and 982.53 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class I milk shall be the price for Class I milk established under Federal Order No. 43 regulating the handling of milk in the North Texas marketing area, plus 35 cents.

§ 982.51 *Class II milk.* Subject to the provisions of § 982.52 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class II milk shall be computed by adding together the plus values pursuant to paragraphs (a) and (b) of this section:

(a) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the mid-point of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department

during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(b) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for non-fat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and multiply by 0.96.

§ 982.52 *Butterfat differential to handlers* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 982.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to §§ 982.50 and 982.51, for each one-tenth of one percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department during the appropriate month, by the applicable factor listed below and dividing the result by 10:

(a) Class I milk: Multiply such price for the preceding month by 1.25; and

(b) Class II milk: Multiply such price for the current month by 1.15.

§ 982.53 *Location adjustment to handlers.* For milk classified as Class I milk the price set forth in § 982.50 shall be subject to the following adjustments:

(a) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, such price shall be increased 20 cents;

(b) For milk received from producers at an approved plant located (1) east of the 103d principal meridian, (2) more than 180 highway miles from the United States Post Office in Midland, Texas, and also (3) at the following highway distances from the United States Post Office in Abilene, Texas, such price shall be reduced as follows:

	Cents
More than 70 miles but less than 105 miles	20
105 miles or more	35

(c) If a handler operates two or more approved plants at which different Class I prices apply, the total milk received by such handler from producers and classified as Class I milk shall be assigned to the milk received from producers at each such plant in the following sequence:

(1) The Class I milk disposed of from each such plant shall be assigned to receipts from producers at such plant to the extent of such receipts;

(2) Class I milk disposed of from any such plant in excess of receipts from producers at such plant shall be assigned to milk received from producers at other approved plants of such handler pro rata to the volumes of producer milk moved to such plant from each such other plant to the extent that milk was so moved; and

(3) Any remaining milk received from producers and classified as Class I milk shall be assigned pro rata to receipts from producers to which Class I milk is not otherwise assigned.

DETERMINATION OF UNIFORM PRICE

§ 982.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices and adding together the resulting amounts: *Provided*, That if the handler had overage of either skim milk or butterfat, there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 982.46 by the applicable class prices.

§ 982.71 *Computation of aggregate value used to determine price(s).* For each month the market administrator shall compute an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 982.70 for all handlers who made the reports prescribed in § 982.30 and who made payments pursuant to §§ 982.90 and 982.94 for the preceding month;

(b) Subtract the aggregate of the values of all plus location adjustments to producers pursuant to § 982.91, and add the aggregate of the values of all such minus adjustments;

(c) Add not less than one-half of the unobligated cash balance on hand in the producer-settlement fund; and

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 982.92 and multiplying the resulting figures by the total hundredweight of such milk.

§ 982.72 *Computation of uniform price.* For each of the months of July through March the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received at an approved plant as follows:

(a) Divide the aggregate value computed pursuant to § 982.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 982.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices for hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, received from producers at an approved plant as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by (1) multiplying the hundredweight of such milk by the price for Class II milk of 4.0 percent butterfat content, and (2) adding to the result the amount, if any by which the value computed pursuant to paragraph (c) (1) of this section exceeds the value computed pursuant to paragraph (c) (2) of this section;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) The total value of base milk included in these computations shall be the lesser of:

(1) The aggregate value computed pursuant to § 982.71 less the value computed pursuant to paragraph (a) (1) of this section, or

(2) The hundredweight of such base milk multiplied by the price for Class I milk of 4.0 percent butterfat content plus 4 cents;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations;

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

DETERMINATION OF BASE

§ 982.80 *Computation of daily average base for each producer.* For the months of April through June of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 982.81:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of October through January immediately preceding by the number of days, not to be less than ninety, of such producer's delivery in such period.

§ 982.81 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred only by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

PAYMENTS

§ 982.90 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to §§ 982.72 or 982.73, adjusted by the butterfat differential computed pursuant to § 982.92, subject to location adjustments to producers pursuant to § 982.91, and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided,* That if by such date such handler has not received full payment pursuant to § 982.95, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month, to each producer for whom payment is not made pursuant to paragraph (c) of this section for milk received during the first 15 days of such month at not less than the Class II price of the preceding month.

(c) On or before the 13th and 23d days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producer. Such payment shall be accompanied by a statement showing for each producer the items required to be reported pursuant to § 982.31.

§ 982.91 *Location adjustments to producers.* (a) In making payments to producers pursuant to § 982.90 the following adjustments shall apply to the uniform price for all milk computed pursuant to § 982.72 or to the uniform price for base milk computed pursuant to § 982.73 (e):

(1) For milk received from producers at an approved plant located within 70 highway miles of the United States Post Office in Midland, Texas, each handler shall add 20 cents;

(2) For milk received from producers at an approved plant located (i) east of the 103d principal meridian, (ii) more than 180 highway miles from the United States post office in Midland, Texas, and, also (iii) at the following distances from the United States post office in Abilene, Texas, each handler may deduct the applicable amounts set forth below:

	Cents
More than 70 miles but less than 105 miles	20
105 miles or more	35

(b) The location adjustment applicable with respect to excess milk shall be computed as follows:

(1) Subtract from the total volume of Class I milk allocated to producer milk pursuant to § 982.46 the total volume of base milk received by all handlers;

(2) Divide the result by the total volume of excess milk received by all handlers; and

(3) Multiply by the rate of location adjustment applicable for base milk received at the same location and round to the nearest cent.

§ 982.92 *Producer butterfat differential.* In making payments pursuant to § 982.90 (a), there shall be added to or subtracted from the uniform price for each one-tenth of one percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average, as computed by the market administrator of the daily wholesale selling prices per pound (using the mid-point of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month when such milk was received, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 982.93 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 982.62 (b), 982.94 and 982.96, and out of which he shall make all payments to handlers pursuant to §§ 982.95 and 982.96.

§ 982.94 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 982.70 is greater than the amount required to be paid producers by such handler pursuant to § 982.90:

§ 982.95 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 982.70 is less than the amount required to be paid producers by such handler pursuant to § 982.90: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 982.96 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due;

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 982.97 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 982.90 (a), shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services, accompanied by a statement showing the quantity of milk for which such deduction was computed for each such producer.

§ 982.98 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers, including such handler's own production.

§ 982.99 *Termination of obligation.* The provisions of this section shall apply to any obligation under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to 8 (c) 15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 932.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 932.101.

§ 932.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 982.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 982.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 982.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 982.111 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart to other persons or circumstances, shall not be affected thereby.

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk to the Central West Texas Marketing Area, and Designation of an Agent To Conduct Such Referendum

Pursuant to section 8c(19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Central West Texas marketing area) who, during the month of July 1952 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of July 1952 is hereby determined to be the representative period for the conduct of such referendum.

Hobart E. Crone is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 25th day from the date this referendum order is issued.

Wage and Hour Division

[29 CFR Part 526]

APPLICATION FOR FINDING THAT BALING AND STORAGE OF FLAX STRAW CONSTITUTE AN INDUSTRY OF A SEASONAL NATURE

NOTICE OF HEARING

An application has been filed by Peter J. Schweitzer, Inc. for a determination that the baling and storage of flax straw for use in paper making constitute an industry or branch of an industry of a seasonal nature within the meaning of section 7(b)(3) of the Fair Labor Standards Act of 1938 and the regulations contained in this part.

Notice is hereby given pursuant to §§ 526.5 and 526.6 of the regulations of a public hearing to be held in Room 617 Metropolitan Building, Second Avenue South and Third Street, Minneapolis, Minnesota, on October 23, 1952, at 10:00 a. m. before an authorized representative of the Administrator, for the purpose of receiving evidence and arguments on the questions:

1. Whether baling and storing of flax straw for use in paper making constitute an industry or branch of an industry of a seasonal nature within the meaning of section 7(b)(3) of the Fair Labor Standards Act and Part 526, as amended, of the regulation issued thereunder.

2. What is the scope of the industry.

Any interested person may appear at the hearing to offer evidence, provided that not later than October 16, 1952, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, Fourteenth and Constitution Avenue NW., Washington 25, D. C., a notice of intention to appear which should contain the following information:

1. The name and address of the person appearing.

2. If he is appearing in a representative capacity, the names and addresses of the persons or organizations which he is representing.

3. Whether he is appearing in support of or in opposition to the application for exemption.

Such notice may be mailed to the Administrator and shall be considered filed upon receipt. Written statements in lieu of personal appearance may be mailed to the Administrator at any time prior to the date of hearing or may be filed with the presiding officer at the hearing.

Signed at Washington, D. C., this 30th day of September 1952.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Treasury Department Order 150–8]

BUREAU OF INTERNAL REVENUE REORGANIZATION

ABOLITION AND ESTABLISHMENT OF CERTAIN OFFICES

Bureau of Internal Revenue reorganization. Abolition of offices of Collectors and Deputy Collectors of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont Collection Districts; establishment of offices of District Commissioner and Directors of Internal Revenue.

By virtue of the authority vested in me as Secretary of the Treasury by Reorganization Plan No. 26 of 1950 and Reorganization Plan No. 1 of 1952 it is ordered as follows:

1. *Abolition of existing offices.* The abolition of the offices of Collector of Internal Revenue and Deputy Collector for the Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont Collection Districts shall become effective as of 12 o'clock midnight, October 5, 1952.

2. *Establishment of District Commissioner.* Effective as of 12:01 a. m., October 6, 1952, there is hereby established an office of District Commissioner of Internal Revenue, which shall be known as the Boston District, and which shall be comprised of the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

3. *Location of headquarters.* The headquarters office shall be located in the City of Boston, Massachusetts.

4. *Establishment of offices of Director of Internal Revenue.* Effective as of 12:01 a. m., October 6, 1952, there are hereby created the following offices within the Boston District:

(a) Director of Internal Revenue for the Collection District of Connecticut (as presently constituted). The headquarters of such office shall be located in Hartford, Connecticut and the office shall have the operating title of Director of Internal Revenue, Hartford.

(b) Director of Internal Revenue for the Collection District of Maine (as presently constituted). The headquarters of such office shall be located in Augusta, Maine and the office shall have the operating title of Director of Internal Revenue, Augusta.

(c) Director of Internal Revenue for the Collection District of Massachusetts (as presently constituted). The headquarters of such office shall be located in Boston, Massachusetts and the office shall have the operating title of Director of Internal Revenue, Boston.

(d) Director of Internal Revenue for the Collection District of New Hampshire (as presently constituted). The headquarters of such office shall be located in Portsmouth, New Hampshire and the office shall have the operating title of Director of Internal Revenue, Portsmouth.

(e) Director of Internal Revenue for the Collection District of Rhode Island (as presently constituted). The headquarters of such office shall be located in Providence, Rhode Island and the office shall have the operating title of Director of Internal Revenue, Providence.

(f) Director of Internal Revenue for the Collection District of Vermont (as presently constituted). The headquarters of such office shall be located in Burlington, Vermont and the office shall have the operating title of Director of Internal Revenue, Burlington.

Dated: September 29, 1952.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

DEPARTMENT OF COMMERCE

National Production Authority

[Suspension Order 31; Docket No. 49]

SUNLIGHT METAL PRODUCTS CO.

SUSPENSION ORDER

A hearing was held in the above-entitled matter on September 2, 1952, before Stanley H. Johnson, a hearing commissioner of the National Production Authority, designated to hear the case by Walter H. Foster, Chief Hearing Commissioner, by a letter dated August 15, 1952. The cause was heard upon charges made by the General Counsel of the National Production Authority in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to General Administrative Order 16–06 (16 F. R. 8799). There were three charges: Charge No. 1 alleged that respondent company, which is engaged in the manufacture of metal doors and window frames, used 32,662 pounds of aluminum controlled material, being 16,962 pounds in excess of the amount required to fill its authorized production schedule and the related allotment made to it, during the calendar quarter commencing October 1, 1951, in violation of sections 17 (a), subsequently amended to read section 17 (b), and 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860). Charge No. 2 alleged that respondent violated sections 17 (a) and 19 (f) during the calendar quarter commencing January 1, 1952, by using 23,709 pounds of aluminum controlled material, being 1,595 pounds in excess of the amount required to fill its authorized production schedule and related allotment. Charge No. 3 alleged that respondent had failed to keep proper records, but this charge was not pressed, because the respondent at the time of the hearing had already remedied such defects as existed. No facts were produced in support of Charge No. 3.

Respondent by its counsel, Graham Susman, on August 25, 1952, filed five copies of its answer in which it denied the charges, and made affirmative allegations explaining why the materials were used in excess of the allocation orders, and requested dismissal of the charges.

The National Production Authority appeared at the hearing by its Regional Attorney, John L. Cleary of Kansas City, Missouri, assisted by Mr. Paul Ruston, formerly Regional Attorney for Denver, Colorado; and the respondent appeared through its attorney, Graham Susman of Denver, Colorado.

A stipulation dated September 2, 1952, and signed by counsel for both parties was filed with the hearing commissioner at the time of the hearing, containing a statement of facts to be considered by the hearing commissioner in lieu of the presentation of other evidence in support of or in opposition to the statement of charges.

Findings of fact. The commissioner finds:

1. During the calendar quarter commencing October 1, 1951, Sunlight Metal Products Company committed acts in violation of sections 17 (b) and 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860), in that said Sunlight Metal Products Company, having received an authorized production schedule for the manufacture of metal doors and window frames and a related allotment, placed controlled material orders for, obtained, and used 32,662 pounds of aluminum controlled material, such quantity being 16,962 pounds in excess of the amount required to fulfill its authorized production schedule and the related allotment made to Sunlight Metal Products Company.

2. During the calendar quarter commencing January 1, 1952, Sunlight Metal Products Company committed acts in violation of sections 17 (b) and 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860); in that said Sunlight Metal Products Company, having received an authorized production schedule for the manufacture of metal doors and window frames and a related allotment, placed controlled material orders for, obtained, and used 23,709 pounds of aluminum controlled material, such quantity being 1,595 pounds in excess of the amount required to fulfill its authorized production schedule and related allotment made to Sunlight Metal Products Company.

3. No evidence was submitted in support of Charge No. 3 in the charging letter.

4. No evidence was submitted that the violations by the respondent were wilful, or done with intent to violate the act or defeat its purposes, but on the other hand the allegations of respondent's answer and statements made in explanation of its actions by officers of the respondent and by respondent's counsel indicated that the violation by respondent arose through a misinterpretation by it of its right to make use of materials allocated to it in the third quarter of the year 1951, which it was unable to use because of a delay in receipt of the allocation order, and because of its misinterpretation of a reduction order received by it on October 2, 1951, which it construed to authorize the use as an allotment for the fourth quarter of 1951, of 28,886 pounds of aluminum, whereas the intent of the order was to reduce the actual allotment of 40,571 pounds by 28,886 pounds giving the respondent a net allotment of only 11,685 pounds. Respondent appealed from the reduction order to the Appeal Board, but its appeal was denied.

Conclusions. During the period beginning October 1, 1951, and ending March 31, 1952, the respondent herein, although not wilfully, violated the provisions of National Production Authority regulations, orders, and directives as hereinabove found by obtaining and using in the production and manufacture of metal doors and window frames 18,557 pounds of aluminum controlled material in excess of the amount which it was authorized or permitted to use by the provisions.

In order to correct the unauthorized use of aluminum occasioned by the violations of the respondent found herein,

It is accordingly ordered:

1. That all allocations and allotments of aluminum which have been or may be granted to respondent Sunlight Metal Products Company, its successors and assigns, whether such allocation or allotment be by self-authorization or otherwise for the calendar quarter commencing October 1, 1952, and ending December 31, 1952, be reduced by 9,500 pounds.

2. That all allocations and allotments of aluminum which have been or may be granted to respondent Sunlight Metal Products Company, its successors and assigns, whether such allocation or allotment be by self-authorization or otherwise for the calendar quarter commencing January 1, 1953, and ending March 31, 1953, be reduced by 9,500 pounds.

3. Charge No. 3 contained in the charging letter is hereby dismissed.

4. The Sunlight Metal Products Company, its successors and assigns, is hereby prohibited during each of such periods from acquiring any items of aluminum in excess of its aluminum allocations and allotments as so reduced, but this order shall not be construed to prevent the right of the respondent to use any increases which may be made in its allocation by reason of increased supplies of aluminum controlled material which may be available during the 6-month period, less the 19,000 pounds withheld from it by this order.

A signed copy of this order shall be served upon the respondent by mail on September 8, 1952.

Issued this 2d day of September 1952.

NATIONAL PRODUCTION AUTHORITY,
By STANLEY H. JOHNSON,
Hearing Commissioner.

[F. R. Doc. 52-10845; Filed, Oct. 2, 1952; 11:42 a. m.]

[Suspension Order 32; Docket No. 34]

WOOLDRIDGE MANUFACTURING CO.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 15th day of September 1952, before William B. Owens, Esquire, a hearing commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628), dated July 21, 1951, and Implementation 1 to National Production Authority General Administrative Order 16–06 (16 F. R. 8799), dated August 30, 1951, and Delegation of Authority under NPA–GAO 16–06 (17 F. R. 2098); and

The respondents, Wooldridge Manufacturing Company, Henry Gusman, Hugo Fox, J. D. Gusman, and A. M. Routh, having been duly apprised of the specific violations charged and having appeared in these proceedings by their attorney, J. W. Jackson, an Attorney at Law, 220 Montgomery Street, San Francisco, California, and an answer having been filed by the corporate and individual respondents herein on August 9, 1952; and

The National Production Authority being represented by E. J. Spielman, Regional Attorney, and the respondents being represented by their attorney, J. W. Jackson; and

The respondents by their attorney, J. W. Jackson, Esquire, having entered into a stipulation dated September 12, 1952, withdrawing their answers and stipulating that said stipulation be filed in lieu of the presentation of other evidence in support of and in opposition to the statement of charges; and

The name of J. D. Gusman having by said stipulation been withdrawn as one of the respondents named in this proceeding and from each of the charges contained therein, it is hereby determined:

Findings of fact. 1. That Wooldridge Manufacturing Company is a corporation organized and existing under the laws of the State of Nevada having its principal plant and office at Hendry Avenue, Sunnyvale, California, for the manufacture of earth-moving equipment and machinery; that Henry Gusman is president of said corporation; that Hugo Fox is secretary-treasurer of said corporation, and A. M. Routh is purchasing agent for said corporation.

2. During the period beginning on or about August 21, 1951, and ending on or about February 8, 1952, the corporate respondent, Wooldridge Manufacturing Company, committed acts prohibited by section 3 (c) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6300), and as amended November 23, 1951 (16 F. R. 11860), in that the said Wooldridge Manufacturing Company, having received authorized production schedules and related allotments of controlled material, did, of the quantity of carbon steel plate set forth in Charge 1, acquire 300 tons thereof by the use of the allotment symbol A–4 1Q52 which it was otherwise entitled to procure under the allotment symbol L–1 1Q52.

3. I find that there is no evidence to indicate that this violation was wilful, or that respondents have not acted openly and in good faith, and it is clear that as a result of the use of the wrong symbol respondents did not obtain any more controlled materials than they were authorized to obtain. This violation, technical in nature, was due to misinterpretation of regulations at a time when a conversion of rated orders made such confusion understandable. This charge should be dismissed.

4. During the period beginning on or about July 6, 1951, and ending on or about October 16, 1951, Wooldridge Manufacturing Company committed acts prohibited by section 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), in that the said Wooldridge Manufacturing Company, having received authorized production schedules and related allotments of carbon steel plate for use during the fourth quarter, 1951, placed orders for 363 tons of carbon steel plate more than it was authorized, to wit: 1,773 tons of carbon steel plate while lawfully authorized to place orders for not more than 1,410 tons.

5. Respondents stated that this was due to two errors in the keeping of their allotment record cards, in that one order for 117 tons was not entered and one item of 295 tons, though entered was improperly added, so that from their records it appeared their orders were below their authorized tonnage. I find that there is nothing to indicate any wilfulness in the placing of the excess orders which appears to have resulted from such errors and the adjustment hereinafter provided by this order is deemed sufficiently adequate to correct the dislocation.

6. During the period beginning on or about January 21, 1952, and ending on or about February 28, 1952, Wooldridge Manufacturing Company committed acts prohibited by section 17 (b) of CMP Regulation No. 1, as amended November 23, 1951 (16 F. R. 11860), in that the said Wooldridge Manufacturing Company, having received authorized production schedules and related allotments of carbon steel plate for use in the production of construction machinery and equipment, used the said allotments to obtain and use 452 tons of carbon steel plate for purposes other than those authorized by the said sections of CMP Regulation No. 1.

7. I find that there is no evidence to indicate that this violation was committed wilfully or that any of the materials involved were diverted into unauthorized channels, though as a result a situation was created in which such diversion might have occurred. There was, however, in fact a disruption of the priorities and allocation program which should be corrected.

8. During the period beginning on or about July 6, 1951, and ending on or about February 28, 1952, Henry Gusman and Hugo Fox to the extent of being officers of Wooldridge Manufacturing Company committed acts prohibited by National Production Authority CMP Regulation No. 1, section 3 (c) dated

May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), and as amended November 23, 1951 (16 F. R. 11860), and section 19 (f) dated May 3, 1951 (16 F. R. 4127), and section 17 (b) as amended November 23, 1951 (16 F. R. 11860), as found in findings of fact numbers 2, 4, and 6.

9. During the period beginning on or about July 6, 1951, and ending on or about February 28, 1952, A. M. Routh committed acts prohibited by National Production Authority CMP Regulation No. 1, section 3 dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800) and as amended November 23, 1951 (16 F. R. 11860), and section 19 (f) dated May 3, 1951 (16 F. R. 4127), and section 17 (b) as amended November 23, 1951 (16 F. R. 11860), to the extent of his participation in the commission of the acts set forth in findings of fact numbers 2, 4, and 6.

Conclusions. During the period beginning July 6, 1951, and ending on or about February 28, 1952, Wooldridge Manufacturing Company, Hugo Fox, and A. M. Routh violated the provisions of National Production Authority regulations, orders, and directives as hereinabove cited by disposing of 452 tons of carbon steel plate contrary to the provisions of the orders and regulations hereinabove cited. The special findings numbers 3, 5, and 7 constitute conclusions.

In order to correct the unauthorized use and disposition of carbon steel plate occasioned by the violations found herein, by the respondents:

It is accordingly ordered:

1. That all allocations and allotments of carbon steel plate which may be granted to Wooldridge Manufacturing Company, a Nevada corporation, its successors and assigns, and Henry Gusman, Hugo Fox, and A. M. Routh, individually, for use during the period commencing October 1, 1952, and ending June 30, 1953, be reduced as follows:

(a) By 150 tons during the fourth quarter, commencing October 1, 1952, and ending December 31, 1952.

(b) By 150 tons during the first quarter 1953, commencing January 1, 1953, and ending March 31, 1953.

(c) By 152 tons during the second quarter 1953, commencing April 1, 1953, and ending June 30, 1953.

2. That the respondents, Wooldridge Manufacturing Company, a Nevada corporation, its successors and assigns, and Henry Gusman, Hugo Fox, and A. M. Routh individually, be and each of them are hereby prohibited during each of the foregoing periods from acquiring any items of carbon steel plate in excess of their carbon steel plate allocations and allotments as so reduced, but shall not in any way be prohibited from making application to the National Production Authority for exceptions or adjustments in accordance with existing regulations.

3. Subject to the foregoing deductions to be made from allocations and allotments which may otherwise be granted to the Wooldridge Manufacturing Company during the period commencing October 1, 1952, and ending June 30, 1953, nothing herein contained shall be construed to prohibit Wooldridge Manufacturing Company, its successors and assigns, from applying for and obtaining its usual and necessary allotments of carbon steel plate in accordance with regulations then in force and effect.

To the extent necessary to carry out the provisions of this order, all allocations and allotments of carbon steel plate which may be acquired under the privileges of self-certification, self-authorization, or automatic allotment procedure are withdrawn and withheld from Wooldridge Manufacturing Company, its successors and assigns, and Henry Gusman, Hugo Fox, and A. M. Routh individually during the periods prescribed in paragraph 1 of this order.

Issued this 15th day of September 1952 at San Francisco, Calif.

NATIONAL PRODUCTION AUTHORITY,
By WILLIAM B. OWENS,
Hearing Commissioner.

[F. R. Doc. 52-10846; Filed, Oct. 2, 1952; 11:42 a. m.]

[NPA Delegation 14, as amended October 3, 1952]

ADMINISTRATOR OF FEDERAL SECURITY AGENCY ET AL.

DELEGATION OF AUTHORITY TO MAKE ALLOTMENTS AND ASSIGN RATINGS UNDER REVISED CMP REGULATION NO. 6

NPA Delegation 14, as last amended March 6, 1952, is hereby further amended to read as follows:

1. Pursuant to the authority under the Defense Production Act of 1950 as amended, Executive Orders 10161 (15 F. R. 6105) and 10200 (16 F. R. 61), and Defense Production Administration Delegation 1 (16 F. R. 738), the following functions to be performed pursuant to Revised CMP Regulation No. 6 are delegated to each of the persons named in Table I of this delegation with power to delegate and to authorize successive delegations with respect to the categories of construction set forth in Table I opposite his name: To authorize construction schedules of owners in accordance with the provisions of Revised CMP Regulation No. 6; to make allotments of controlled materials for construction; to apply or to assign to others the right to apply DO ratings and allotment numbers and symbols for procurement of building materials (other than controlled materials), building equipment, production machinery, and production equipment, which are required for construction under an approved construction program as provided by Revised CMP Regulation No. 6. Power is further delegated to process applications for adjustment or exception under the provisions of Revised CMP Regulation No. 6, and to take final appellate action under that regulation.

2. The authority delegated by paragraph 1 of this delegation shall be exercised within such construction program determinations or other quantitative restrictions as may be established by the Defense Production Administration, and in accordance with such instructions, record-keeping and reporting requirements, policy statements, memoranda, and directives, as may be issued from time to time by the National Production Authority. Such delegated authority shall also be exercised in conformity with the regulations and orders of the National Production Authority, and in conformity with the provisions of Revised CMP Regulation No. 6, and as contained in the instructions applicable to forms to be made use of in connection with Revised CMP Regulation No. 6, or such other forms as have been or will be approved by the National Production Authority.

3. Any adjustment or exception under Revised CMP Regulation No. 6 issued by any delegate pursuant to this delegation must be correlated with the delegate's activities under the Controlled Materials Plan of the National Production Authority; and all projects approved by each delegate, and the allotment of controlled materials made therefor, will be charged against the total construction program and allotments approved for such delegate by the Defense Production Administration.

4. As used in this delegation, the terms "petroleum," "gas," "solid fuels," "electric power," "metals and minerals," "food," "domestic transportation," "storage," and "port facilities," have the same meanings as are set forth in Executive Order 10161, as amended, and other applicable interagency agreements.

5. All actions taken pursuant to this delegation shall be in the name of the delegate or other official to whom like authority has been delegated by the delegate, and shall be authenticated by the signature and title of the individual authorized to take such actions.

This amended delegation shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
R. A. McDONALD,
Administrator.

TABLE I OF NPA DELEGATION 14

Delegate	*Category of construction*
The Petroleum Administrator for Defense.	Facilities for the production, processing, refining, and distribution of petroleum and gas; and facilities for the production, processing, and distribution of the products listed in Appendix A of NPA Delegation No. 9 (but not filling stations); construction of residential structures if such construction is required as an integral part of a program of the Petroleum Administration for Defense.
The Secretary of Commerce.	Bureau of Public Roads programs for highway construction and maintenance of all rural and urban highways, streets, highway equipment, repair shops, bridges, tunnels, toll road facilities, and appurtenant installations, publicly owned parking facilities incident to a highway or street, regardless of financing, but not garages, filling stations, restaurants, or other commercial facilities; air navigation facilities, civil airports; shipyards.
The Administrator of the Defense Transport Administration.	Facilities for domestic transportation, storage, and port facilities, as defined in E. O. 10161, as amended.
The Atomic Energy Commission	All construction by, or for the account of, the Atomic Energy Commission; industrial construction sponsored by the Atomic Energy Commission; federally owned housing on federally owned property under the control of the Atomic Energy Commission.
The Secretary of Defense	Construction by, or for the account of, the Department of Defense. Navy construction, Army construction, Air Force construction, including but not limited to projects of an industrial nature financed by the military departments; housing on military reservations, and military housing under Public Law 211, 81st Congress (Wherry Act); Military Command construction; and construction for National Advisory Committee for Aeronautics.
The Administrator of the General Services Administration.	Federal buildings and facilities, except as otherwise specifically designated on this table, including buildings and facilities constructed by private interests and capital, where a predominant portion of the premises is designed and intended to be used under lease for extended periods by Federal Government agencies.
The Secretary of the Army	Civil Works Corps of Engineers projects; the Panama Canal Company; Domiciliary Building, Old Soldiers' Home (except projects having electric power generating facilities not specifically exempted by the Administrator of the Defense Electric Power Administration).
The Administrator of the Defense Materials Procurement Administration.	Facilities for production and processing of metals and minerals (except solid fuels, oil, and gas); construction of residential structures if such construction is required as an integral part of a program of the Defense Materials Procurement Administration.
The Administrator of the Housing and Home Finance Agency.	All public and private housing not specifically covered above.
The Administrator of the Federal Civil Defense Administration.	Buildings, structures, or projects which are to be used exclusively for civil defense purposes.

NOTE: If a water well is an integral part of a residential structure, jurisdiction of which is herein delegated to a specific claimant agency, jurisdiction over the water well shall be with the claimant agency having jurisdiction over the structure of which it is an integral part. (For example, communications about a water well to be constructed on a farm shall be filed with the Department of Agriculture.) Further, the jurisdiction of certain of the claimant agencies over residential construction projects, specified in this table, does not include jurisdiction over any commercial or other facilities intended, or which might be construed, as supplemental to residential construction. (For example, jurisdiction over a shopping center proposed to service a residential development is with NPA, and not with the claimant agencies named in this table as having jurisdiction over categories of residential construction projects.)

Delegate	*Category of construction*
The Administrator of Veterans' Affairs.	All school, museum, and library construction; hospital and health facility housing; college and educational institutional housing; all hospital and health facility construction other than the Veterans' Administration and military hospitals; all other health and sanitation programs including refuse disposal systems and free-standing incinerators (but not water supply and sewer construction programs), and excluding such types of construction which are federally owned on federally owned property under the control of the Atomic Energy Commission, and such types of construction on military reservations; recreational, entertainment, and amusement construction projects which are required as part of an integrated educational program or an integrated hospital program.
The Administrator of Veterans' Affairs.	The hospital program of the Veterans' Administration; recreational, entertainment, and amusement construction projects which are required as part of an integrated hospital program.
The Secretary of Agriculture.	Farm housing; facilities for production of food including on-farm and off-farm construction; wholesale food distribution and handling; canning, freezing, or otherwise processing or preparing food for marketing and distribution; tobacco auction warehouses; public cold storage food lockers and storage facilities owned or operated in whole or in major part as an integral part of such handling, processing, and wholesaling. (With respect to food having industrial uses, facilities for the specified purposes are included only to the point where responsibility for such food ceases to be exercised by Production and Marketing Administration under the agreement between Production and Marketing Administration and NPA (16 F. R. 3410), as from time to time amended.)
The Secretary of the Interior.	Facilities for departmental programs of the Department of the Interior; facilities for the production, preparation, and processing of solid fuels; facilities for the production and processing of fishery products; construction of residential structures if such construction is required as an integral part of a program of the Department of the Interior, the Defense Solid Fuels Administration, or the Defense Fisheries Administration.

NOTE: *The following construction programs will be administered by the National Production Authority:*

Delegate	Category of construction
Communications Division, National Production Authority.	Operating construction in connection with communications facilities, but not including air navigation facilities.
Water Resources Division, National Production Authority.	Facilities for ground and surface water supply, transmission, pumping, treatment, storage, and distribution for domestic and industrial use; storm water control and drainage of flooded areas (including storm sewers); collection, treatment, and disposal of domestic and industrial liquid wastes; sewage collection, transmission, pumping, treatment, and disposal; water wells not within the area of responsibility specified in this table or note for any other claimant agency. (Excluded are the works and their operations for navigation, reclamation projects, hydroelectric generation of power, irrigation, recreation, and fish and wildlife. Also excluded are those facilities for storm water control and drainage of flooded areas (including storm sewers) the responsibility for which is delegated in this table or note to a claimant agency other than the NPA Water Resources Division, e. g., flood control projects of the Department of the Army or the Department of the Interior.)
Industrial Expansion Division, National Production Authority.	Industrial construction not listed above in this table or note.
Construction Controls Division, National Production Authority.	All other construction not specifically listed above in this table or note (including all categories of recreational, entertainment, and amusement construction projects, other than those specified in this table for the Federal Security Agency and the Veterans' Administration, or such projects where constructed by or for the account of the Department of Defense or the Atomic Energy Commission).

FEDERAL COMMUNICATIONS COMMISSION

NEW TELEVISION STATIONS

PROCESSING OF MUTUALLY EXCLUSIVE APPLICATIONS TO BE SUSPENDED COMMENCING OCT. 15, 1952, UNTIL FURTHER ORDER OF COMMISSION

SEPTEMBER 18, 1952.

The Commission, by order, amended its Temporary Processing Procedure for television broadcast applications so that, beginning October 15, 1952, and until further notice, it will suspend the processing of mutually exclusive applications (i. e., those which compete for the same channel in the same community or require comparative hearing for other reasons). This is being done to enable the Commission to concentrate, for the time being, on the processing of many pending non-competitive applications.

The Temporary Processing Procedure adopted by the Commission in the Sixth Report and Order (FCC 52-294) was designed to make television service available to the greatest number of people in the shortest period of time. Under this procedure, applications are grouped within categories based on the present lack of television service in the communities for which they are filed. On July 1, 1952, the Commission commenced the processing of the "post freeze" applications for new television broadcast stations. Since that time, 65 mutually exclusive applications were designated for hearing and 168 additional applicants were advised that their applications could not be granted because they were mutually exclusive with other applications.

Because of the limited number of Commission hearing examiners and other staff members engaged in hearing work it would not be possible to try such cases until the present backlog is removed, and therefore no useful purpose would be served by designating additional applications for hearing at this time. For this reason the interests of parties who have filed or who will file mutually exclusive applications will not be adversely affected by the processing only of non-competitive applications at this time. It is anticipated that the hearings in the cases now designated for hearing and those additional mutually exclusive applications already processed by the Commission will not be concluded for a considerable period. Accordingly, in order to bring television service as quickly as possible to as many people as possible, the Commission feels that the public interest will be served by processing, for a limited time, non-competitive applications only.

The Commission will continue to process non-competitive applications in the order of priorities set forth in its Temporary Processing Procedure. Where mutually exclusive applications are filed, the Commission will pass such applications and will issue public announcements weekly of the applications that were passed. If mutually exclusive applications are amended so as to remove the conflict, the Commission will consider such applications at that time. The Commission will reexamine its backlog of hearing cases from time to time. When it appears the Commission personnel engaged in hearing work will be available for the handling of additional cases, the Commission will resume the processing of mutually exclusive applications.

Adopted: September 17, 1952.

[SEAL] T. J. SLOWIE, *Secretary.*

FEDERAL POWER COMMISSION

[Docket Nos. G-1741, G-1764, G-1944]

TENNESSEE GAS TRANSMISSION CO., AND FREDERICK GAS CO., INC.

NOTICE OF FINAL DECISIONS

SEPTEMBER 29, 1952.

Notice is hereby given that the Presiding Examiner's Decisions in the above-designated matters were issued and served upon all parties on August 26, 1952. No exceptions thereto having been filed or review initiated by the Commission, in conformity with the Commission's rules of practice and procedure said Decisions became effective on September 25, 1952, as the final decisions and orders of the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-10682; Filed, Oct. 2, 1952; 8:45 a. m.]

[Docket Nos. G-1810, G-1938, G-1939]

TEXAS-OHIO GAS CO.

ORDER FIXING DATE OF ORAL ARGUMENT AND TIME FOR FILING BRIEFS OR PROPOSED FINDINGS AND CONCLUSIONS

SEPTEMBER 26, 1952.

On September 8, 1952, the taking of evidence in support of the applications filed by Texas-Ohio Gas Company (Applicant) at Docket Nos. G-1810, G-1938 and G-1939, was concluded, and further hearings recessed subject to the further order of the Commission. With the close of Applicant's testimony-in-chief on September 8, 1952, and the subsequent service of the exhibits for which exhibit numbers were reserved, Applicant's case-in-chief is now concluded.

On September 23, 1952, counsel for National Coal Association et al., interveners in these proceedings, filed a motion to deny said applications.

The Commission finds: It is appropriate for carrying out the provisions of the Natural Gas Act that oral argument be had before the Commission respecting the matters involved and the issues presented by said motion to deny, prior to any further hearings in these proceedings.

The Commission orders:

(A) Oral Argument be had before the Commission on October 20, 1952, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and the issues presented by the motion to deny, filed on September 23, 1952.

(B) Parties to these proceedings including Staff Counsel, in addition to filing an answer to said motion to deny as provided by § 1.12 (c) of the Commission's rules of practice and procedure, may file briefs or proposed findings and conclusions, on or before October 16, 1952. Movants may similarly file a brief or proposed findings and conclusions.

(C) Parties to the proceeding desiring to be heard at the oral argument shall notify the Secretary of the Commission on or before October 14, 1952, of the length of time requested for argument.

Date of issuance: September 29, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

COMMISSIONER, COMMUNITY FACILITIES AND SPECIAL OPERATIONS, AND DIRECTOR, SPECIAL OPERATIONS BRANCH

DELEGATIONS OF AUTHORITY WITH RESPECT TO THE ALASKA HOUSING PROGRAM

The Commissioner, Community Facilities and Special Operations, and the Director, Special Operations Branch, and each of them is hereby authorized, on behalf of the Housing and Home Finance Administrator, to take the following actions relating to purchase of obligations of the Alaska Housing Authority for the purpose of financing programs and making loans authorized under the Alaska Housing Act, as amended (63 Stat. 58 (1949), as amended, 48 U. S. C. Sup. V, 484), or as it may be amended:

a. Approve disbursements of funds for purchases authorized by the Administrator of obligations of the Alaska Housing Authority;

b. Execute, on behalf of the Housing and Home Finance Administrator, any and all documents and instruments in connection with bond issues of the Alaska Housing Authority required under any loan authorization, or in connection therewith, or relating thereto;

c. Amend or modify loan authorizations, or any requirement or condition therein (except to increase the amount thereof): *Provided*, That the said Commissioner or Director determines that such action will not materially affect adversely the interests of the Administrator; and

d. Consent to the release or substitution of any collateral and execute documents evidencing such consent: *Provided*, That the said Commissioner or Director determines that such action will not materially affect adversely the interests of the Administrator.

(Reorg. Plan No. 3 of 1947, 61 Stat. 954 (1947); 62 Stat. 1268, 1283-85 (1948), as amended, 12 U. S. C. Sup. V 1701c; 63 Stat. 440 (1949), 12 U. S. C. Sup. V 1701d-1; 63 Stat. 58 (1949), as amended, 48 U. S. C. Sup. V 484)

Effective as of the 3d day of October, 1952.

RAYMOND M. FOLEY, *Housing and Home Finance Administrator.*

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-11, 59-17, 54-25]

UNITED LIGHT AND RAILWAYS CO. AND AMERICAN NATURAL GAS CO.

ORDER POSTPONING HEARING

SEPTEMBER 29, 1952.

In the matter of United Light and Railways Company, American Light & Traction Company (now American Natural Gas Company).

The Commission having by order dated September 3, 1952, designated October 6, 1952, as the date for the commencement of a reconvened hearing in the above proceeding for the purpose of taking testimony upon the retainability by the American Natural Gas Company system of Milwaukee Solvay Coke Company, a non-utility subsidiary, in accordance with the jurisdiction thereto reserved by the order of the Commission dated December 30, 1947; and

American Natural Gas Company having requested that the hearing be postponed until November 10, 1952; and the Commission deeming it appropriate under the circumstances to grant such request:

It is ordered, That the hearing in this matter previously scheduled for October 6, 1952, at 10:00 a. m., e. s. t., in the offices of the Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C., be, and hereby is, postponed to November 10, 1952, at the same hour and place.

It is further ordered, That said postponed reconvened hearing shall be before William W. Swift, hearing officer heretofore designated by the Commission to preside at such reconvened hearing, and that he shall have and exercise the same powers and duties authorized by the order of September 3, 1952.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10684; Filed, Oct. 2, 1952; 8:46 a. m.]

[File No. 70-2934]

SOUTHWESTERN DEVELOPMENT CO. AND WEST TEXAS GAS CO.

NOTICE OF FILING OF DECLARATION IN RESPECT OF PROPOSED SALE BY PUBLIC UTILITY COMPANY OF CERTAIN GAS TRANSMISSION FACILITIES

SEPTEMBER 29, 1952.

Notice is hereby given that Southwestern Development Company ("Southwestern"), a registered holding company, and its public utility company subsidiary, West Texas Gas Company ("West Texas"), have filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), a joint declaration in respect of a proposed sale by West Texas of certain gas transmission facilities. Declarants designate section 12 (d) of the act and Rule U-44 promulgated thereunder as applicable to the proposed transaction.

Notice is hereby further given that any interested person may, not later than October 14, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held in respect of the proposed transactions, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said declaration which it is proposed to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after October 14, 1952, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions proposed, which are summarized as follows:

Pursuant to the terms of a contract dated June 14, 1952, West Texas proposes to sell to El Paso Natural Gas Company ("El Paso"), a non-affiliate, at depreciated net book cost at the date of transfer, the gas transmission lines and appurtenances, including the Hereford compressor station, owned by West Texas, in Texas, and lying west of the points near Amherst and Dawn, Texas at which El Paso's 24 inch gas pipeline intersects the lines of West Texas, excepting the Hereford-Dimmitt lateral. The purchase price (approximately $290,000 at June 30, 1952) is to be paid 10 percent in cash at the date of transfer, and the balance is to be evidenced by a note payable in nine equal annual installments, with interest on the unpaid balance at 3 percent per annum, payable annually. El Paso may elect to pay the entire purchase price at the date of transfer, or to prepay the unpaid balance at any time prior to the due date of the final installment. El Paso, as a part of the transaction, is to assume the existing contract obligations of West Texas to sell natural gas to Southern Union Gas Company ("Southern Union"), a non-affiliate.

It is stated that:

For a period of more than 2 years, El Paso Natural Gas Company has provided all of the gas which is served from that portion of West Texas' facilities which are here proposed to be sold. During such period of time West Texas has been wholly dependent upon El Paso for a gas supply to enable it to adequately meet the demands of Southern Union Gas Company's Clovis (New Mexico) District. In the event the sale of the facilities as proposed is not consummated, West Texas would continue to occupy the position of "middle man" and would only be able to guarantee a supply of gas to Southern Union Gas Company of such quantities as it receives from El Paso Natural Gas Company. West Texas' current contract with El Paso Natural Gas Company for these gas purchases and its existing Service Agreement with Southern Union Gas Company expire June 30, 1956. If El Paso Natural Gas Company acquires the facilities proposed to be sold hereunder, it will be in a position to execute a long term service agreement with Southern Union Gas Company.

West Texas' distribution systems in towns now connected to, and receiving gas supplies from, the transmission facilities proposed to be sold will be retained by West Texas, and such towns will continue to be supplied from said transmission facilities as heretofore.

It is further stated that the proposed abandonment by West Texas by sale to El Paso, the acquisition and operation of the facilities by El Paso, and the substitution of El Paso for West Texas as the supplier of natural gas to Southern Union are subject to the jurisdiction of the Federal Power Commission and that the requisite approval of that Commission is to be obtained. It is also stated that no state commission has jurisdiction over the proposed transaction.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at not to exceed $500.

It is requested that the Commission enter an order to become effective upon its issuance, on the 30th day after the filing of the declaration.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10685; Filed, Oct. 2, 1952; 8:46 a. m.]

[File No. 70-2935]

CONSOLIDATED NATURAL GAS CO.

NOTICE REGARDING PROPOSED NONINTEREST BEARING LOANS TO SUBSIDIARIES

SEPTEMBER 29, 1952.

Notice is hereby given that Consolidated Natural Gas Company ("Consolidated"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and has designated section 12 (b) thereof and Rule U-45 thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than October 8, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after October 8, 1952, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Consolidated proposes to make short-term open account extensions of credit, without interest, to four of its subsidiaries, in the following amounts:

Hope Natural Gas Co	$3,000,000
The East Ohio Gas Co	1,000,000
The Peoples Natural Gas Co	2,000,000
New York State Natural Gas Corp	1,500,000
	7,500,000

Such extensions of credit will be made from time to time as required by the subsidiaries during the balance of 1952 to replenish their cash used in the building up of inventories of gas in underground storage to meet wintertime demands of customers. It is expected that the subsidiaries will repay to Consolidated the amounts of money so advanced during the early part of 1953 as the requisite cash is produced from sales during the winter months.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27430]

COPPER RODS FROM ST. LOUIS, MO., AND EAST ST. LOUIS, ILL., TO CARROLLTON, GA.

APPLICATION FOR RELIEF

SEPTEMBER 30, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1062, pursuant to fourth-section order No. 16101.

Commodities involved: Copper rods, unfinished, in coils, carloads.

From: St. Louis, Mo., and East St. Louis, Ill.

To: Carrollton, Ga.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Dissolution Order 97]

ROYAL SAXON CO., INC.

Whereas, by Vesting Order No. 596, dated December 30, 1942 (8 F. R. 2449) and by Supplemental Vesting Order 1992, dated August 18, 1943 (8 F. R. 11699) there were vested an aggregate of one hundred (100) shares of $50 par value common stock of Royal Saxon Company, Inc., a corporation organized under the laws of the State of New Jersey (hereinafter referred to as the Company), comprising all of the issued and outstanding capital stock of the Company; and the direction, management, supervision and control of the Company were undertaken by said Vesting Order 596; and,

Whereas, by Vesting Order 3784, dated June 8, 1944 (9 F. R. 7277) there were vested certain interests and rights, including royalties and other monies payable, created in certain nationals of Germany by virtue of agreements entered into by and between such nationals of Germany and the Company; and,

Whereas, by Vesting Order 3955, dated July 17, 1944 (9 F. R. 9031) there was vested an account payable of the Company to a national of Germany; and,

Whereas, the Company has been substantially liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors of the Company have been paid, except (a) such claims as the Attorney General of the United States may have for monies advanced or services rendered to or on behalf of the Company, (b) the claim of Alfred H. Posselt for unpaid salary in the amount of $1,000.86 and (c) the claims of the Attorney General of the United States arising out of the obligations of the Company vested by the aforesaid Vesting Orders 3784 and 3955, in the amounts of $23,529.83 and $4,554.22, respectively; and,

2. Finding that the known assets of the Company consist of cash in the amount of $1,980.74 as of June 30, 1951; and,

3. Having determined (a) that it is in the national interest of the United States that the Company be dissolved and its assets distributed and (b) that a Certificate of Dissolution of the Company was issued by the Secretary of State of State of New Jersey on April 10, 1950;

hereby orders that the officers and directors of the Company (to wit: Francis J. Carmody, President and Director; Robert Kramer, Treasurer and Director; and Stanley B. Reid, Secretary and Director, and their successors, or any of them) continue the proceedings for the dissolution of said Company; and, further orders that the officers and directors of the Company wind up the affairs of the Company and distribute the assets thereof coming into their possession as follows:

1. They shall first pay the current expenses and necessary charges of winding up the affairs of the Company and effecting the dissolution thereof; and

2. They shall then pay all known Federal, State and local taxes and fees owed by or accruing against the Company; and

3. They shall then pay to the Attorney General of the United States (a) the amount of the claims he may have for monies advanced to or on behalf of the Company for payment of real estate taxes, (b) the amount of the claims he may have for monies advanced to or on behalf of the Company on or after April 10, 1950, in connection with the dissolution and winding up of the affairs of the Company and (c) the amount of the claims he may have for services rendered to or on behalf of the Company on or after April 10, 1950, in connection with the dissolution and winding up of the affairs of the Company; and

4. They shall then apply the funds, if any, remaining in their hands after the payments as aforesaid pro rata to the following claims: (a) The claim of Alfred H. Posselt in the amount of $1,000.86, (b) the claims of the Attorney General of the United States arising out of the obligations vested by Vesting Orders 3784 and 3955 and (c) the claims of the Attorney General of the United States for monies advanced or services rendered to or on behalf of the Company in addition to those claims of the Attorney General of the United States described in the preceding subparagraph hereof; and

Further orders, that nothing herein set forth shall be construed as prejudicing the rights, under the Trading with the Enemy Act, as amended, of any person who may have a claim against the Company to file such claim with the Attorney General of the United States against any funds or property received by him hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person: *Provided, further,* That any such claim against the Company shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of the Company, pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) of subdivision (b) of section 5 of the Trading with the Enemy Act, as amended, and the acquittance and exculpation provided therein.

Executed at Washington D. C., September 26, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Export and Diversion Programs

[Amdt. 3]

PART 524—HONEY

SUBPART B—HONEY EXPORT PROGRAM (1952 MARKETING SEASON)

The "Honey Export Program (1952 Marketing Season)" 17 F. R. 3397, 5385, 6838, is hereby further amended in the manner provided below:

1. Section 524.251 *General statement* is hereby amended by deleting the entire section and inserting in lieu thereof the following:

§ 524.251 *General statement.* In order to encourage the exportation of honey produced in the continental United States, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, offers to make payments to United States exporters upon the terms and conditions stated in this subpart. Exporters are hereby put on notice that funds appropriated under Chapter XI, entitled "Mutual Security," of the Supplemental Appropriation Act, 1953, Public Law 547, 82d Congress, may not be used to finance foreign purchases on which export payments are made pursuant to section 32 of the Act of August 24, 1935 (Pub. Law 320, 74th Cong.), as amended. The exporter at the time of negotiating a sale, in order to protect himself against the use of such funds in making payment for honey sold under this program, shall in every instance receive assurance from the buyer that such funds are not being used, or will not be used, in consummating the transaction, and shall support his claim for payment with a warranty, as set forth in § 524.260 (d), that no such funds have been, or will be, used in payment for honey sold under this program. The exporter and the buyer may, of course, outside of this program and without benefit of payments hereunder, agree upon the sale of honey at the prevailing market price with the total amount of such sales price to be

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directed to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

paid by the buyer in whole or in part out of such funds.

2. Section 524.252 *Eligibility for payment* is hereby revised with respect to paragraph (d) as of July 26, 1952, and is hereby amended by deleting paragraph (e) so that the section reads as follows:

§ 524.252 *Eligibility for payment.* Payments will be made to any individual, partnership, corporation or association located in the continental United States (except as provided in § 524.267), (a) who executes an application in quadruplicate, on the form attached hereto; (b) whose application has been approved by the Director; (c) who enters into a sales contract covering the sale and exportation of honey produced within the continental United States to an eligible destination (see § 524.255), who delivers honey pursuant to such contract, and who furnishes evidence of exportation of such honey as required by § 524.260; (d) who certifies, with respect to honey exported hereunder which is eligible under the 1952 Honey Price Support Program and which is sold by the producer during the period April 1, 1952, to March 31, 1953, inclusive, that the producer of such honey has received from the purchaser or exporter not less than the applicable prices as specified in § 524.271; and (e) who otherwise complies with all the terms and conditions of this program. Applications must be based on sales contracts and must be approved before exportation of the honey. Approval of applications will be in the order in which they are submitted (see § 524.253), and as long as funds are available. Applicants may make their sales contracts under this program subject to the condition that the Department of Agriculture will make an export payment on such sales.

3. Section 524.260 *Filing of claim* is hereby amended by deleting paragraph (d) and inserting in lieu thereof the following:

§ 524.260 *Filing of claim.* • • •

(d) The exporter shall file with each claim for payment submitted hereunder the original or a true copy of a warranty obtained from the buyer stating that no part of the purchase price for the honey covered by the sales contract attached to the claim for export payment has been, or will be, paid from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953. If the sales contract contains such a warranty, an additional document is not required.

Effective date. This amendment shall be effective at 12:01 a. m., e. s. t., September 30, 1952. Exporters whose applications have been approved subsequent to 12:01 a. m., e. s. t., July 26, 1952, and prior to the effective date of this amendment shall have the election of complying either with this amendment or with Amendment No. 2, 17 F. R. 6838, with respect to warranty or certification requirements pertaining to the use of funds made available under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953.

(Sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c; Pub. Law 547, 82d Cong.)

Dated this 30th day of September 1952.

[SEAL] S. R. SMITH,
Representative of the Secretary of Agriculture.

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

PROCLAMATION OF NATIONAL MARKETING QUOTAS FOR CIGAR-FILLER TOBACCO AND CIGAR-FILLER AND CIGAR-BINDER TOBACCO FOR 1953–54 MARKETING YEAR AND APPORTIONMENT OF QUOTAS AMONG THE SEVERAL STATES

Sec.
723.401 Basis and purpose.
723.402 Findings and determinations with respect to the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1953.
723.403 Findings and determinations with respect to the national marketing quota for cigar-filler and cigar-binder tobacco for the marketing year beginning October 1, 1953.

AUTHORITY: §§ 723.401 to 723.403 issued under Sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313.

§ 723.401 *Basis and purpose.* (a) Sections 723.401 to 723.403 are issued to announce the reserve supply level and the total supply of cigar-filler tobacco and cigar-filler and cigar-binder tobacco (exclusive of type 46 which has been designated (15 F. R. 8214) as a separate kind of tobacco) for the marketing year beginning October 1, 1952, to establish the amounts of the national marketing quotas for cigar-filler tobacco and cigar-filler and cigar-binder tobacco for the marketing year beginning October 1, 1953, and to apportion the quotas among the several States. The findings and determinations by the Secretary contained in §§ 723.402 and 723.403 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from cigar-filler tobacco and cigar-filler and cigar-binder tobacco producers and others as provided in a notice (17 F. R. 8078) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of tobacco producers within 30 days after the issuance of a proclamation of the national marketing quota to determine whether such producers favor marketing quotas and requires, insofar as practical, the mailing of notices of farm acreage allotments to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the proclamation and apportionment of the national marketing quotas contained herein shall become effective upon the date of filing with the FEDERAL REGISTER.

§ 723.402 *Findings and determinations with respect to the national marketing quota for cigar-filler tobacco for the marketing year beginning October 1, 1953.*[1]—(a) *Reserve supply level.* The reserve supply level for cigar-filler tobacco is 154,500,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 52,000,000 pounds and a normal year's exports of 2,500,000 pounds.

(b) *Total supply.* The total supply of cigar-filler tobacco for the marketing year beginning October 1, 1952, is 169,300,000 pounds consisting of carry-over of 131,000,000 pounds and estimated 1952 production of 38,300,000 pounds.

(c) *Carry-over.* The estimated carry-over of cigar-filler tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1953, is 114,100,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1952, of 55,200,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of cigar-filler tobacco which will make available during the marketing year beginning October 1, 1953, a supply of cigar-filler tobacco equal to the reserve supply level of such tobacco is 40,400,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 40,400,000 pounds would be inadequate to meet market demands during the 1953–54 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for cigar-filler tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1953, is 48,500,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Kentucky	24
Maryland	5
Pennsylvania	31,394
Reserve[1]	317

[1] Acreage reserved for establishing allotments for farms upon which no cigar-filler tobacco has been grown during the past five years.

§ 723.403 *Findings and determinations with respect to the national marketing quota for cigar-filler and cigar-binder tobacco for the marketing year beginning October 1, 1953.*[1]—(a) *Reserve supply level.* The reserve supply level for cigar-filler and cigar-binder tobacco (exclusive of type 46 which has been designated (15 F. R. 8214) as a separate kind of tobacco) is 207,400,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 70,000,000 pounds and a normal year's exports of 3,000,000 pounds.

(b) *Total supply.* The total supply of cigar-filler and cigar-binder tobacco (exclusive of type 46) for the marketing year beginning October 1, 1952, is 217,200,000 pounds consisting of carry-over of 161,500,000 pounds and estimated 1952 production of 55,700,000 pounds.

(c) *Carry-over.* The estimated carry-over of cigar-filler and cigar-binder tobacco (exclusive of type 46) at the beginning of the marketing year for such tobacco beginning October 1, 1953, is 143,200,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1952, of 74,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of cigar-filler and cigar-binder tobacco (exclusive of type 46) which will make available during the marketing year beginning October 1, 1953, a supply of cigar-filler and cigar-binder tobacco equal to the reserve supply level of such tobacco is 64,200,000 pounds, and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 64,200,000 pounds would be inadequate to meet market demands during the 1953–54 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for cigar-filler and cigar-binder tobacco (exclusive of type 46) in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1953, is 77,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Connecticut	12,096
Illinois	10
Indiana	3
Iowa	10
Massachusetts	5,948
Minnesota	406
New Hampshire	10
New York	444
Ohio	7,317
Pennsylvania	572
Vermont	13
Wisconsin	23,148
Reserve[1]	505

[1] Acreage reserved for establishing allotments for farms upon which no cigar-filler and cigar-binder tobacco has been grown during the past five years.

Done at Washington, D. C., this 1st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10822; Filed, Oct. 3, 1952; 8:59 a. m.]

[1] Rounded to the nearest tenth of a million pounds.

[1023 (Cigar-Leaf-53)-3, Amdt. 1]

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

CIGAR-FILLER AND BINDER TOBACCO MARKETING QUOTA REGULATIONS, 1953–54 MARKETING YEAR

The amendment herein is based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to tobacco (7 U. S. C. 1311–1314), and is made for the purpose of amending § 723.418 of the Cigar-filler and Binder tobacco marketing quota regulations, 1953–54 marketing year, relating to adjustments of acreage allotments for old farms. The amendment increases the acreage available for making such upward adjustments from one percent to four percent of the total acreage allotted to all tobacco farms in the State for the 1952–53 marketing year. Since the amount of acreage so used will affect the size of farm tobacco acreage allotments and since it is imperative that farmers be notified of their farm tobacco acreage allotments at a very early date, it is necessary that the amendment become effective at the earliest possible date. Therefore, it is hereby found and determined that compliance with the provisions of the Administrative Procedure Act with respect to notice, public procedure, and effective date is impracticable and contrary to the public interest, and that the amendment made herein shall become effective upon the date it is filed with the FEDERAL REGISTER.

The Cigar-filler and Binder Tobacco Marketing Quota Regulations, 1953–54 Marketing Year, are amended by changing the last sentence of § 723.418 to read as follows: "The acreage available for increasing allotments under this section shall not exceed four percent of the total acreage allotted to all tobacco farms in the State for the 1952–53 marketing year."

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interprets or applies sec. 313, 52 Stat. 47, as amended; 7 U. S. C. 1313)

Done at Washington, D. C., this 1st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10790; Filed, Oct. 3, 1952; 8:55 a. m.]

[1023 (Maryland-53)-1]

PART 727—MARYLAND TOBACCO

PROCLAMATION OF NATIONAL MARKETING QUOTA FOR MARYLAND TOBACCO FOR 1953–54 MARKETING YEAR AND APPORTIONMENT OF QUOTA AMONG THE SEVERAL STATES

Sec.
727.401 Basis and purpose.
727.402 Findings and determinations with respect to the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1953.

AUTHORITY: §§ 727.401 and 727.402 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; Pub. Law 464, 82d Cong., 7 U. S. C. 1301, 1312, 1313.

§ 727.401 *Basis and purpose.* (a) Sections 727.401 and 727.402 are issued to announce the reserve supply level and the total supply of Maryland tobacco for the marketing year beginning October 1, 1952, to establish the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1953, and to apportion the quota among the several States.

The findings and determinations by the Secretary contained in § 727.402 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from Maryland tobacco producers and others as provided in a notice (17 F. R. 8078) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of tobacco producers within 30 days after the issuance of the proclamation of the national marketing quota to determine whether such producers favor marketing quotas and requires, insofar as practicable, the mailing of notices of farm acreage allotments to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore, the proclamation and apportionment of the quota contained herein shall become effective upon the date of filing with the FEDERAL REGISTER.

§ 727.402 *Findings and determinations with respect to the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1953.*[1]—(a) *Reserve supply level.* The reserve supply level for Maryland tobacco is 100,500,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 30,000,000 pounds and a normal year's exports of 8,000,000 pounds.

(b) *Total supply.* The total supply of Maryland tobacco for the marketing year beginning October 1, 1952, is 101,000,000 pounds consisting of carry-over of 63,000,000 pounds and estimated 1952 production of 38,000,000 pounds.

(c) *Carry-over.* The estimated carry-over of Maryland tobacco on January 1, 1954, is 63,000,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1952, of 38,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Maryland tobacco which will make available during the marketing year, beginning October 1, 1953, a supply of Maryland tobacco equal to the reserve supply level of such tobacco is 37,500,000 pounds, and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 37,500,000 pounds would result in undue restriction of marketings during the 1953–54 marketing year and such amount is hereby increased by 12 percent. Therefore, the amount of the national marketing quota for Maryland tobacco in terms of the total quantity of tobacco which may be marketed during the marketing year beginning October 1, 1953, is 42,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Maryland	52,267
Virginia	21
Kentucky	55
North Carolina	5
Tennessee	19
Reserve[1]	529

[1] Acreage reserved for establishing allotments for farms upon which no Maryland tobacco has been grown during the past five years.

Done at Washington, D. C., this 1st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10789; Filed, Oct. 3, 1952; 8:55 a. m.]

[1] Rounded to the nearest tenth of a million pounds.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Grapefruit Reg. 167]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.590 *Grapefruit Regulation 167*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as provided in this section, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat.

237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than October 6, 1952. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 6, 1952; the recommendation and supporting information for continued regulation subsequent to October 5, 1952, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 30; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 6, 1952, and ending at 12:01 a. m., e. s. t., October 20, 1952, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nalled box;

(iii) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "variety," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (7 CFR 51.193; 17 F. R. 7408).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 1st day of October 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-10792; Filed, Oct. 3, 1952; 8:55 a. m.]

[Orange Reg. 222]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.589 *Orange Regulation 222*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as provided in this section will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than October 6, 1952. Shipments of oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 6, 1952; the recommendation and supporting information for continued regulation subsequent to October 5 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 30; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 6, 1952, and ending at 12:01 a. m., e. s. t., October 20, 1952, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida which are of a size smaller than 2 $^{10}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida oranges (7 CFR 51.302; 17 F. R. 7879): *Provided,* That in determining the percentage of oranges in any lot which are smaller than 2 $^{10}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 3 inches in diameter and smaller.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 1 Russet" shall have the same meaning as when used in the revised United States Standards for Florida oranges (7 CFR 51.302; 17 F. R. 7879).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 1st day of October 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-10793; Filed, Oct. 3, 1952; 8:55 a. m.]

[Tokay Grape Order 1, Amdt. 2]

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

REGULATION BY GRADES AND SIZES

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 51, as amended (7 CFR Part 951; 17 F. R. 7417), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in the State of California, effective under the applicable

provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Industry Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Tokay grapes, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 4, 1952. Shipments of Tokay grapes of the current crop have been subject to regulation by grades and sizes pursuant to Tokay Grape Order 1, as amended (§ 951.313; 17 F. R. 7774, 8611), which has been in effect since August 26, 1952, and is to continue until January 1, 1953; a reasonable determination as to the need for continued regulation of the shipments of Tokay grapes by grades and sizes must await the availability of information relative to the probable supply and demand conditions for such grapes; information available to the committee on September 30, 1952, was to the effect that, without the further tightening of the tolerances permitted under such grade and size regulation, as amended, for variations incident to proper grading and handling provided for U. S. No. 1 Table Grapes, and without increasing the percentage of fairly well colored berries which each bunch of such grapes shall have, the supply thereof during the period October 4, 1952 to January 1, 1953, will exceed the demand therefor, and recommendation and supporting information for the reduction of such tolerances set forth in Tokay Grape Order 1, Amendment 1 (17 F. R. 8611), and increasing of the percentage of fairly well colored berries in each bunch as set forth in Tokay Grape Order 1 (17 F. R. 7774), was forwarded promptly to the Department and made available to handlers and producers of Tokay grapes; the provisions of this amended regulation are the same as the aforesaid recommendation of the committee; and compliance with the provisions of this amended regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

Delete the provisions of paragraph (b) (1) of Tokay Grape Order 1, as amended (§ 951.313; 17 F. R. 7774, 8611), and insert, in lieu thereof, the following:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., October 4, 1952, and ending at 12:01 a. m., P. s. t., January 1, 1953, no shipper shall ship any Tokay grapes which do not meet the grade and size specifications of U. S. No. 1 Table Grapes and the following additional requirements:

(i) Each bunch of such grapes shall have at least 65 percent, by count, of fairly well colored berries; and

(ii) In lieu of the tolerance of ten (10) percent for variations incident to proper grading and handling provided for U. S. No. 1 Table Grapes, not more than a total of six (6) percent, by weight, of the Tokay grapes contained in any container may fail to meet the requirements of U. S. No. 1 Table Grapes: *Provided,* That with respect to Tokay grapes produced in the Florin District, there shall be allowed, in addition to the tolerances provided for U. S. No. 1 Table Grapes, for each container of such grapes an aggregate tolerance of two (2) percent, by weight, for defects not considered serious damage, for bunches smaller than the minimum size specified for U. S. No. 1 Table Grapes, and for bunches which are not fairly well colored.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 2d day of October 1952, to become effective at 12:01 a. m., P. s. t., October 4, 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-10850; Filed, Oct. 3, 1952; 8:49 a. m.]

[Lemon Reg. 455]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.562 *Lemon Regulation 455.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on October 1, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 5, 1952, and ending at 12:01 a. m., P. s. t., October 12, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 200 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR Part 953; 14 F. R. 3612)

Done at Washington, D. C. this 2d day of October 1952.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 309, Amdt. 14]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASE

CHANGES IN AREAS QUARANTINED BECAUSE OF VESICULAR EXANTHEMA

Pursuant to the authority conferred by sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123 and 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111 and 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.10 in Part 76 of Title 9, Code of Federal Regulations, containing a notice of the existence in certain areas of the swine disease known as vesicular exanthema and establishing a quarantine because of such disease, is hereby amended to read as follows:

§ 76.10 *Notice and quarantine.* (a) Notice is hereby given that the contagious, infectious and communicable disease of swine known as vesicular exanthema exists in the following areas:

Pulaski County in Arkansas;

The State of California;

Talbot and Meriwether Counties in Georgia;

Sr. Clair County, Jarvis Township in Madison County and Aurora Township in Kane County in Illinois;

City of Baltimore in Maryland;

Egan, Inver Grove, Mendota, and West St. Paul Townships in Dakota County in Minnesota;

Burlington, Gloucester, Hudson, Morris, and Ocean Counties in New Jersey;

New York County and Clarkstown Township in Rockland County, in New York;

Oklahoma County in Oklahoma;

City of Seattle, City of Spokane, and City of Tacoma, and Section 24, Delta Township in Whatcom County in Washington.

(b) The Secretary of Agriculture, having determined that swine in the States named in paragraph (a) of this section are affected with the contagious, infectious and communicable disease known as vesicular exanthema and that it is necessary to quarantine the areas specified in paragraph (a) of this section and the following additional areas in such States, in order to prevent the spread of said disease from such States, hereby quarantines the areas specified in paragraph (a) of this section and in addition Bergen, Essex, Hunterdon, and Union Counties in New Jersey.

Effective date. This amendment shall become effective upon issuance. This amendment includes within the areas in which vesicular exanthema has been found to exist, and in which a quarantine has been established:

Pulaski County in Arkansas;

Meriwether County in Georgia;

Jarvis Township in Madison County and Aurora Township in Kane County in Illinois;

Egan, Inver Grove, Mendota and West St. Paul Townships in Dakota County in Minnesota;

City of Seattle, City of Spokane, City of Takoma and Section 24, Delta Township in Whatcom County in Washington.

Hereafter, all of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 7070, 8653) apply with respect to shipments of swine and carcasses, parts and offal of swine from these localities.

This amendment excludes from the areas in which vesicular exanthema has been found to exist, and in which a quarantine has been established:

Cook County and Oswego Township in Kendall County in Illinois;

Townships 1 and 2 North, Range 1 East of Willamette Meridian, in Multnomah County in Oregon.

Hereafter, none of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 7070, 8653) apply with respect to shipments of swine, and carcasses, parts and offal of swine from these localities.

The foregoing amendment in part relieves restrictions presently imposed and must be made effective immediately to be of maximum benefit to persons subject to such restrictions. In part the amendment imposes further restrictions necessary to prevent the spread of vesicular exanthema, a communicable disease of swine, and to this extent it must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication hereof in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 30th day of September 1952.

CHICAGO NOVELTY SALES CO. AND MARTIN KORS

Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling;* § 3.2880 *In merchandising.* I. Selling or distributing in commerce, push cards, punchboards, or other lottery devices which are to be used or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme; and, II, in connection with the offering for sale, sale and distribution in commerce, of watches, jewelry, fountain pens, knives, novelties, or other merchandise.

(1) supplying to or placing in the hands of others push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards, or other lottery devices are to be used or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public; (2) selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise, or lottery scheme; or, (3) selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C 45) [Cease and desist order, Martin Kors d. b. a. Chicago Novelty Sales Company, Portland, Oreg., Docket 5660, July 9, 1952]

In the Matter of Martin Kors, an Individual Trading and Doing Business as Chicago Novelty Sales Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on June 1, 1949, issued and subsequently served its complaint in this proceeding upon the respondent, Martin Kors, an individual, charging him with the use of unfair acts and practices in commerce in violation of the provisions of that act. No answer having been filed to said complaint within the time permitted under the Commission's rules of practice, a hearing was held at which testimony and other evidence in support of the allegations of the complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it. Thereafter, upon motion of counsel for respondent, the hearing examiner permitted respondent to file his answer to said complaint. Said answer, which was filed subject to the condition that the Commission take no action herein until its final determination of the matter of Superior Products Company, Inc., Docket No. 5561, admits all of the material allegations of fact in said complaint, waives all intervening procedure, including the filing of a recommended decision by the hearing examiner, but specifically reserves the right of appeal from any decision entered by the Commission herein. Upon a joint motion of counsel supporting the complaint and counsel for respondent, all of the testimony taken herein was stricken from the record by the hearing examiner. Thereafter, this proceeding regularly came on for final hearing before the Commission upon the aforesaid complaint and answer (the Commission in the meantime having issued its order to cease and desist in the matter of Superior Products Company, Inc.); and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts[1] and its conclusion drawn therefrom.[1]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and respondent's answer admitting all of the material allegations of fact therein and waiving all intervening procedure, and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Martin Kors, individually, and trading under the name Chicago Novelty Sales Company or trading under any other name, and his agents, representatives and employees, directly or through any corporate or other device, do forthwith cease and desist from:

Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are to be used or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme:

It is further ordered, That said respondent and his agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of watches, jewelry, fountain pens, knives, novelties, or other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards, or other lottery devices are to be used or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public.

2. Selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise, or lottery scheme.

3. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme:

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: July 9, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[Docket 5662]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ASA ARNSBERG ET AL.

Subpart—*Using or selling lottery devices:* § 3.2475 *Devices for lottery selling;* § 3.2880 *In merchandising.* I. Selling or distributing in commerce, push cards, punchboards, or other lottery devices which are to be used or which, due to their design, are suitable for use in the sale and distribution of merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme; and, II, in connection with the offering for sale, sale and distribution in commerce, of watches, jewelry, novelties, or other merchandise, (1) supplying to or placing in the hands of others, push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards, or other lottery devices are to be used or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public; (2) selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise, or lottery scheme; or, (3) selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Asa Arnsberg et al, t. a. Premier Sales Company, Portland, Oreg., Docket 5662, July 9, 1952]

In the Matter of Asa Arnsberg, Harry C. Arnsberg, and Dorothy Schubach, Individuals and Copartners Trading as Premier Sales Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on June 1, 1949, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereof charging them with the use of unfair acts and practices in commerce in violation of the provisions of that act. Thereafter, on December 5, 1949, respondents filed their answer to said complaint, permission to file after time allowed by the Commission's rules of practice having been granted by a hearing examiner of the Commission duly designated by it. Said answer, which was filed subject to the condition that any order entered in this matter be held in abeyance pending the final determination by the Commission of the matter of Superior Products, Inc., et al., Docket No. 5561, admits all of the material allegations of fact in said complaint and waives all intervening procedure herein. Thereafter, this proceeding regularly came on for final hearing before the Commission upon the aforesaid complaint and answer (the Commission in the meantime having issued an order to cease and desist in the matter of Superior Products, Inc.); and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts[1] and its conclusion drawn therefrom.[1]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and respondents' answer admitting all of the material allegations of fact therein and

[1] Filed as part of the original document.

waiving all intervening procedure, and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Asa Arnsberg, Harry C. Arnsberg and Dorothy Schubach, individually or as copartners trading under the name Premier Sales Company or trading under any other name, and their agents, representatives and employees, directly or through any corporate or other device, do forthwith cease and desist from:

Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are to be used, or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme:

It is further ordered, That said respondents and their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of watches, jewelry, novelties or other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards, or other lottery devices are to be used, or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public.

2. Selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise or lottery scheme.

3. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: July 9, 1952.

By the Commission.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

DEFINITIONS OF TERMS; FORM AND CONTENT OF PROSPECTUSES

On July 10, 1952, the Commission published notice that it had under consideration the adoption of a rule designated as § 230.132 (Rule 132) under the Securities Act of 1933, the amendment of § 230.431 (Rule 431) under that act, and the adoption of certain related policies having to do with acceleration of the effective date of registration statements pursuant to section 8 (a) of the act. The Commission has considered all of the comments and suggestions received and has determined that the proposals should be adopted, with certain modifications as set forth below. The Commission's action is designed generally (1) to provide a means, consistent with the statutory prohibition against selling effort before the effective date of the registration statement, for achieving more widespread dissemination of information during that period and (2) to further the aim of achieving prospectuses which are reasonably concise and readable.

I. *Statement of purpose.* In the absence of an exemption, the Securities Act prohibits the use of the mails or interstate facilities to make any sale or attempt to dispose of a security prior to the effective date of a registration statement, and requires the inclusion of material information in prospectuses used after that date. However, it does not prohibit the dissemination of information as such. Indeed, the provision for a waiting period before the effective date is based on the premise that information will in fact be disseminated.

Section 230.132 is designed to permit the use of a brief "identifying statement" which is intended for use as a screening device to locate persons who might be interested in receiving the proposed form of prospectus pursuant to § 230.131 (the "red herring prospectus") or the final prospectus. The identifying statement is not intended to be a selling document.

The rule is in the form of a definition of the terms "sale" and "offer" for purposes of section 5 only. The anti-fraud provisions are not affected.

Among other things, the identifying statement sets forth "the general type of business of the issuer"; it is contemplated that this statement regarding the nature of the business will not exceed a line or two. The identifying statement must state from whom copies of the prospectus or proposed prospectus may be obtained, and may include the name of an individual in the firm publishing the statement as well as the name of the firm.

Section 230.132 and the policy here announced are designed to encourage the publication of identifying statements by issuers, underwriters and dealers both before and after the effective date of a registration statement. It is recognized that dealers may not wish to publish identifying statements regarding a security until they have some reason to believe that they will participate in its distribution, and also that a dealer may have to have some idea as to the amount of his possible participation in order to determine the extent of his use of identifying statements and the number of proposed prospectuses that he should obtain and distribute. In view of the policy of the act to encourage the dissemination of information, the Commission feels that communications between underwriters and dealers, before the effective date, related to the question of publishing identifying statements and distributing proposed prospectuses do not violate section 5 and it has so provided in paragraph (a) of Rule 132.

The adoption of this rule does not modify the opinions of the General Counsel published in Securities Act Releases 464 and 802 [17 CFR 231.464 and 231.802; 11 F. R. 10953 and 10957], regarding the use of summaries of information contained in registration statements; and the restriction in Rule 132 against using the identifying statement until ten days after it is filed as a part of the registration statement is not intended to preclude making the entire registration statement, including the identifying statement, available for informational purposes at an earlier date.

Statutory basis. Section 230.132 is adopted pursuant to the Securities Act of 1933, particularly sections 2 (3) and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

The text of § 230.132 is as follows:

§ 230.132 *Definition of "offer to sell," "offer for sale," "attempt or offer to dispose of," and "solicitation of an offer to buy" as used in section 2 (3) in connection with certain identifying statements*—(a) *General provision.* For purposes of section 5 only, sending or giving to any person or publishing an identifying statement, and communications between underwriters and dealers reasonably related to the contemplated use and distribution of an identifying statement and proposed form of prospectus, shall not constitute an "offer to sell," "offer for sale," "attempt or offer to dispose of," or "solicitation of an offer to buy" as used in section 2 (3) of the act: *Provided*, That the identifying statement is not used until ten days after it has been filed as a part of a registration statement under the Securities Act of 1933, unless the Commission notifies the issuer that it may be used earlier.

(b) *Definition of "identifying statement" and "proposed form of prospectus."* For the purposes of this section, the term "identifying statement" means a written communication or advertisement meeting the requirements set forth in paragraph (c) of this section; the term "proposed form of prospectus" means a document meeting the requirements of § 230.131.

(c) *Required information.* (1) The identifying statement shall contain the following legend in type as large as that used generally in the body thereof:

This is not an offer to sell these securities. They are subject to the registration and prospectus requirements of the Federal Securities Act. Information about the issuer, the securities, and the circumstances of the offering is contained in the prospectus which must be given to the buyer.

(2) The identifying statement shall indicate from whom copies of the prospectus or proposed form of prospectus may be obtained and shall include a detachable form for use in requesting such copies: *Provided*, That this information need not be included in the identifying statement as filed, in which event it must be added by the person who sends, gives or publishes the statement. The detachable form shall be substantially as follows:

Please send me a copy of the prospectus [or proposed form of prospectus] relating to
---

Name ---
Address ---

(d) *Optional information.* The identifying statement as used may briefly state any or all of the following items of information, which need not follow the numerical sequence of this paragraph.

(1) The title of the security;

(2) The name of the issuer;

(3) The general type of business of the issuer;

(4) The price of the security;

(5) The yield, in the case of a debt security with a fixed interest provision;

(6) The price at which, the conditions upon which, and the time when, the security may be redeemed or converted or exchanged or, if the security is a right or warrant or is offered by means of a right or warrant, the terms of such right or warrant with respect to price and the conditions and time of exercise;

(7) Whether the security is being offered in connection with a distribution by the issuer or in connection with a distribution by a security holder or both;

(8) Whether the security is traded over the counter or is, or is reasonably expected to be, listed or admitted to unlisted trading privileges on specified exchanges;

(9) Whether, in the opinion of counsel, the security is a legal investment for savings banks, fiduciaries, insurance companies, or other similar investors under the laws of any State or Territory or the District of Columbia;

(10) Whether, in the opinion of counsel, the security is exempt from specified taxes;

(11) The extent to which the issuer has agreed to pay any tax with respect to the security or measured by the income therefrom;

(12) Whether the issue represents new financing or a refunding operation or both;

(13) The title and number of shares or other units or (in the case of debt securities) principal amount of each class of outstanding securities;

(14) The amount of securities being offered;

(15) A legend in substantially the following form (or any part thereof):

The registration statement covering these securities is not yet effective. No offer to buy or sell the securities should be made and no offer to purchase the securities will be accepted until the registration statement has become effective. The publication of this notice is no assurance that the proposed offering will be made or as to the amount of securities, if any, that will be available for distribution by this firm.

(16) Any legend required by law of a state in which the identifying statement is to be used.

(e) *Prohibited statements.* The identifying statement shall not contain any information other than that specified in paragraph (d) of this section.

(f) *Variance between identifying statement as filed and as used.* The identifying statement as used shall be a copy of the identifying statement as filed with the Commission, provided:

(1) The identifying statement as used shall include the statement and form specified in paragraph (c) (2) of this section and may include the legends specified in paragraphs (d) (15) and (16) of this section, even though such statements, legends and forms are not included in the identifying statement as filed with the Commission;

(2) Any person using the identifying statement may omit any item of information specified in paragraph (d) of this section, even though such information is contained in the identifying statement as filed with the Commission;

(3) Where an amendment to the identifying statement is filed with the Commission, any person using the identifying statement shall incorporate the amendment as promptly as practicable, except as otherwise provided in subparagraph (2) of this paragraph;

(4) After the effective date of the registration statement, any person using the identifying statement shall make such corrections in the information contained therein as, to his knowledge, may be necessary to prevent it from being misleading.

(g) *Proceedings under section 8.* This section shall not apply when the registration statement is the subject of public proceedings which are pending under section 8 (b), (d), or (e) of the act, or of a public order entered under any of such sections.

II. *Statement of purpose.* In publishing these proposals for comment, the Commission indicated that it might amend its various registration forms under the Securities Act to require that each registration statement be accompanied by a form of identifying statement, in order to make certain that the identifying statement would be available for use by dealers. As a matter of simplicity, the Commission is incorporating this requirement in a new rule, which will be applicable to all registration statements.

Statutory basis. Section 230.414 is adopted pursuant to the Securities Act of 1933, particularly sections 7 and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

The text of § 230.414 (Rule 414) is as follows:

§ 230.414 *Identifying statements.* Every registration statement shall include as an exhibit a form of identifying statement which states briefly such of the information listed in paragraph (d) of § 230.132 (Rule 132) as is available elsewhere in the registration statement, together with the legend specified in paragraph (c) (1) of that section.

III. *Purpose of amendment.* In order to facilitate the wider use of proposed prospectuses prior to the effective date of a registration statement under the Securities Act of 1933 and to avoid the necessity of duplicating the information contained in them at a later date, § 230.431 under the act is amended to provide generally that a final prospectus meeting the requirements of the act may consist of the latest proposed prospectus under § 230.131 plus a document containing such additional information that both together contain all the information required by the act. The amendment broadens a rule previously limited to offerings by an issuer to its existing stockholders.

Statutory basis. The amendment to § 230.431 is adopted pursuant to the Securities Act of 1933, particularly sections 10 and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

The text of § 230.431, as amended, is as follows:

§ 230.431 *Prospectuses supplementing preliminary material supplied previously.* A prospectus meeting the requirements of section 10 may consist of a copy of the latest proposed form of prospectus meeting the requirements of § 230.131 and a document containing such additional information that both together contain all of the information required to be included in a prospectus for registered securities: *Provided*, That—

(1) The proposed form of prospectus is incorporated by reference into and made a part of the document;

(2) Where the proposed form of prospectus has been sent or given before the effective date of the registration statement, the document is sent or given not more than 20 days later; and

(3) Where the proposed form of prospectus is sent or given after the effective date of the registration statement, the document is attached thereto.

Statement of Acceleration Policy With Respect to Dissemination of Identifying Statements and Proposed Prospectuses Pursuant to Rules 131 and 132

The Commission is adopting the following general policy regarding acceleration of the effective date of registration statements and amendments pursuant to section 8 (a) of the Securities Act of 1933 and the dissemination of information contained in such statements. This statement supplants the statements of policy contained in Securities Act Releases 3061 and 3177 (17 CFR Part 231).

Section 8 (a), in outlining the conditions under which the Commission may accelerate the effectiveness of registration statements, requires the Commission to consider whether adequate information respecting the issuer has been available to the public. The Commission, in ruling upon requests for acceleration, will consider whether the person making the offering has taken reasonable steps to make information contained in the registration statement con-

veniently available to underwriters and dealers who may be invited to participate in the distribution of the security.

The determination of what constitutes reasonable steps to make such information available must, of course, remain a question of fact in each case after consideration of all pertinent factors. Ordinarily such steps would involve as a minimum (1) the timely distribution of a copy of the identifying statement to each underwriter and dealer who may be invited to participate in the distribution of the security, and (2) the distribution to each such underwriter and dealer, a reasonable time in advance of the anticipated effective date of the registration statement, of as many copies of the proposed form of prospectus pursuant to § 230.131 as appear to be reasonable in the light of the Commission's aim to encourage the wider distribution of proposed prospectuses to prospective investors.

In the case of offerings at competitive bidding, the Commission because of mechanical problems normally will not require the distribution of identifying statements or proposed prospectuses as a condition of acceleration. However, the Commission will continue, as it has in the past, to take into consideration the adequacy of the distribution of the so-called bidding prospectus to underwriters and dealers in determining when to declare effective the post-effective amendment relating to price. Moreover, a form of identifying statement will have to be filed with the registration statement so that it will be available for use by dealers after the effective date.

So far as rights offerings to stockholders are concerned, the variety of techniques which may be employed does not lend itself to any categorical treatment. For that reason § 230.414 has been drafted to require the filing of an identifying statement, but the Commission will modify its acceleration policy here announced in accordance with the circumstances of the particular case. Any registrant or underwriter, before distributing copies of the identifying statement and proposed form of prospectus, may obtain from the Commission an opinion whether the proposed distribution of copies would be deemed adequate.

The granting of acceleration will not be conditioned upon the distribution of the identifying statement or the proposed form of prospectus in any state where their distribution would be illegal.

In the event that a proposed form of prospectus or identifying statement which has bene distributed by the issuer or an underwriter is found to be inaccurate or inadequate in material respects, the Commission considers that the person making the offering has the obligation to send correcting material to all underwriters and dealers to whom he has previously sent the inaccurate material. Accordingly, the Commission will not grant acceleration in such a case until it has received satisfactory assurance that appropriate correcting material has been sent to all such underwriters and dealers in quantity sufficient for their information and the information of others to whom they have circulated the inaccurate or inadequate material.

Statement of Acceleration Policy Where There Has Been No Bona Fide Effort To Prepare a Reasonably Concise and Readable Prospectus

Section 8 (a) of the Securities Act, in outlining the conditions under which the Commission may accelerate the effectiveness of registration statements, requires the Commission to consider the facility with which the nature of the securities and related matters can be understood. The Commission will refuse to accelerate the effective date of a statement where it is satisfied that there has been no bona fide effort to make the prospectus reasonably concise and readable, so as to facilitate an understanding of the information required to be contained in it.

The action announced herein will apply to registration statements filed on or after October 27, 1952.

(Sec. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s. Interprets or applies secs. 7, 10, 48 Stat. 78, 81; 15 U. S. C. 77g, 77j)

By the Commission.

SEPTEMBER 26, 1952.

[F. R. Doc. 52-10736; Filed, Oct. 3, 1952; 8:46 a. m.]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

REPORTS OF DIRECTORS, OFFICERS, AND PRINCIPAL STOCKHOLDERS; EXEMPTION OF CERTAIN TRANSACTIONS FROM SECTION 16 (b)

On June 18, 1952, the Commission published notice that it had under consideration proposals for the adoption of a new § 240.16a-8 (Rule X-16A-8) and amendments to §§ 240.16a-1, 240.16a-3, 240.16a-4, 240.16b-2, and § 240.16b-5 (Rules X-16A-1, X-16A-3, X-16A-4, X-16B-2, and X-16B-5). It invited all interested persons to comment upon the proposals. The notice of Rules X-16A-1, X-16A-3 and X-16A-4 was published in Securities Exchange Act Release No. 4718. The notice of Rules X-16B-2 and X-16B-5 was published in Securities Exchange Act Release No. 4719. The notice of Rule X-16A-8 was published in Securities Exchange Act Release No. 4720. The amendment to Rule X-16B-3 was suggested by comments received upon the proposed amendment to Rule X-16A-1. The Commission has considered all comments and suggestions received in connection with the proposed rules and has determined that Rules X-16A-1, X-16A-3, X-16A-4, X-16B-2, X-16B-3, and X-16B-5 should be adopted in the forms set forth below. The new Rule X-16A-8 is still under consideration.

The amendments clarify and enlarge the reporting requirements and exemptions provided by section 16 (a) and section 16 (b) of the Securities Exchange Act. Section 16 (a) requires beneficial owners of more than 10 percent of any class of equity registered on a national securities exchange and officers and directors of the issuers of such a security to file reports with the exchange and with the Commission indicating the extent of their beneficial ownership and any changes in such ownership which occur. Section 16 (b) provides, in general, for the recovery of profits realized by such persons when they effect purchases and sales or sales and purchases of such equity securities within any period of less than six months.

The new Rule X-16A-1 requires the holders of options, puts, calls, spreads and straddles to file the reports required by section 16 (a). The new Rule X-16A-3 requires any person who is a member of a partnership which owns securities of an issuer of which he is an officer, director, or ten percent stockholder to report all holdings and all changes in the beneficial ownership of equity securities of that issuer held by the partnership. It is not intended as a modification of the principles governing liability for short-swing transactions under Section 16 (b) as set forth in the case of Rattner v. Lehman, 193 F. 2d 564. But it is based upon the belief that full disclosure requires a report of all partnership transactions when an officer, director or ten percent stockholder of the issuer is a partner. The new Rule X-16A-4 clarifies the prior rule by indicating that the exemption provided in the rule is applicable only when the securities were held by the persons enumerated in the rule. It also reduces the period of time during which the exemption is effective from two years to one year.

The new Rule X-16B-2 broadens the prior rule by providing that the exemption is available for transactions of purchase and sale of securities in the course of a distribution of a block of securities on behalf of a security holder not standing in a control relationship to the issuer, as well as to other public distributions where the transactions are in the course of a public distribution of an issue

of securities on behalf of an issuer, or a person who does stand in a control relationship to the issuer. The amendment to Rule X-16B-3 broadens the exemption hitherto provided by the rule by making it applicable to acquisitions of nontransferable options, as well as to acquisitions of shares of stock. The new Rule X-16B-5 merely clarifies the prior rule, and does not change its effect.

The Commission has concluded not to adopt the proposed revision of Rule X-3B-2 as set forth in its notice, dated June 18, 1952 (Securities Exchange Act Release No. 4718, June 18, 1952). The comment received upon this proposal has convinced the Commission that adoption of the proposed revision would lead to undue uncertainties as to just what persons are to be treated as "officers" for purposes of sections 16 (a) and 16 (b), as well as sections 12, 13 and 14 of the act. It has concluded that it should adhere to the definition in Rule X-3B-2 as presently in effect, despite the intimations in the opinion of the Court in Colby v. Klune, 178 F. 2d 872, that the existing definition may be too narrow. The Commission is advised that that case is still awaiting trial upon remand to the district court. See also Lockheed Aircraft Corporation v. Rathman, F. Supp. (S. D. Cal.) decided July 21, 1952.

Although the Commission is continuing in effect the existing rule X-3B-2 as the Commission's definition of "officer," it is recognized that the ultimate determination of what constitutes an "officer" must be made by the courts and that the opinion in Colby v. Klune, 178 F. 2d 872, indicates the possibility that the provisions of the act applicable to officers may be held to reach a broader class of persons than might otherwise appear from the definition contained in Rule X-3B-2. Persons inquiring as to their statutory responsibilities will continue to be advised of this possibility.

Statutory basis. The new rules are adopted pursuant to the authority vested in the Commission by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 3 (b), 16 (b), and 23 (a).

The texts of the rules hereby adopted are as follows:

1. Section 240.16a-1 is amended by adding a new paragraph (h) thereto as follows:

§ 240.16a-1 *Reports under section 16 (a).* • • •

(h) *Report required for change in beneficial ownership.* For the purposes of this section the acquisition or disposition of any transferable option, put, call, spread, or straddle shall be deemed such a change in the beneficial ownership of the security to which such privilege relates as to require the filing of a report reflecting the acquisition or disposition of such privilege. Nothing in this paragraph, however, shall exempt any person from filing the reports required upon the exercise of such option, put, call, spread, or straddle.

2. Paragraph (b) of § 240.16a-3 is amended to read as follows:

§ 240.16a-3 *Manner of reporting holdings and changes in ownership under Rule X-16A-1.* • • •

(b) A partner who is required under § 240.16a-1 to report in respect of any equity security owned by the partnership shall include in his report the entire amount of such equity security owned by the partnership. He may, if he so elects, disclose the extent of his interest in the partnership and the partnership transactions.

• • • • •

3. Paragraphs (a) and (b) of § 240.16a-4 are amended to read as follows:

§ 240.16a-4 *Exemptions from sections 16 (a) and 16 (b).* (a) During the period of twelve months following their appointment and qualification, securities held by the following persons shall be exempt from sections 16 (a) and (b):

(1) Executors or administrators of the estate of a decedent;

(2) Guardians or Committees for an incompetent; and

(3) Receivers, trustees in bankruptcy, assignees for the benefit of creditors, conservators, liquidating agents, and other similar persons duly authorized by law to administer the estate or assets of other persons.

After the twelve month period following their appointment or qualification the foregoing persons shall be required to file reports with respect to the securities held by the estates which they administer under section 16 (a) and shall be liable for profits realized from trading in such securities pursuant to section 16 (b) only when the estate being administered is a beneficial owner of more than 10 percent of any class of equity security (other than an otherwise exempted security) which is listed on a national securities exchange.

(b) Securities reacquired by or for the account of an issuer and held by it for its account shall be exempt from sections 16 (a) and (b) during the time they are held by the issuer.

• • • • •

4. Paragraphs (a) and (b) of § 240.16b-2 are amended to read as follows:

§ 240.16b-2 *Exemption from section 16 (b) of certain distributing transactions.* (a) Any transaction of purchase and sale of a security which is effected in the distribution of a substantial block of securities of the same class shall be exempt from the provisions of section 16 (b) of the act, to the extent specified in this section, as not comprehended within the purpose of said section, upon the following conditions:

(1) The person effecting the transaction is engaged in the business of distributing securities and is participating in good faith, in the ordinary course of such business, in the distribution of such block of securities;

(2) The security involved in the transaction is a part of such block of securities and is acquired by the person effecting the transaction, with a view to the distribution thereof, from the issuer or other person on whose behalf such securities are being distributed or from a person who is participating in good faith in the distribution of such block of securities; and

(3) Other persons not within the purview of section 16 (b) of the act are participating in the distribution of such block of securities on terms at least as favorable as those on which the person effecting the transaction is participating and to an extent at least equal to the aggregate participation of all persons exempted from the provisions of section 16 (b) of the act by this section. However, the performance of the functions of manager of a distributing group and the receipt of a bona fide payment for performing such functions shall not preclude an exemption which would otherwise be available under this section.

(b) The exemption of a transaction pursuant to this section with respect to the participation therein of one party thereto shall not render such transaction exempt with respect to participation of any other party therein unless such other party also meets the conditions of this section.

• • • • •

5. Section 240.16b-3 is amended to read as follows:

§ 240.16b-3. *Exemption from section 16 (b) of certain acquisitions of securities under stock bonus or similar plans.* Any acquisition of shares of stock or nontransferable options (other than convertible stock or stock acquired pursuant to a transferable option, warrant or right) by a director or officer of the issuer of such stock shall be exempt from the operation of section 16 (b) of the act if the stock or option was acquired pursuant to a bonus, profit-sharing, retirement or similar plan meeting all of the following conditions:

(a) The plan has been approved specifically, or through the approval of a charter amendment authorizing stock for issuance pursuant to the plan, by the security holders of the issuer at a meeting for which proxies were solicited in accordance with such rules and regulations, if any, as were then in effect under section 14 (a) of the act.

(b) If the selection of the persons who may receive funds or securities pursuant to the plan, or the determination of the amount of funds or securities which may be so received by any such person is subject to the discretion of any person, such discretion shall be exercised by (1) a committee of three or more persons having full and final authority in the matter, or (2) the board of directors of the issuer, provided the members of such committee, or a majority of the directors acting in the matter, are not entitled to participate in such plan or in any other similar plan provided by the issuer or any of its affiliates.

(c) The plan effectively limits the aggregate amount of funds or securities which may be allocated with respect to each fiscal year pursuant to the plan, either by limiting the maximum amount which may be allocated to each participant in the plan or by limiting the maximum amount which may be so allocated to all such participants.

(d) The acquisition of the securities pursuant to the plan does not involve the payment of any cash other than the application of funds currently received pursuant to the plan or payable

pursuant to the option contract) directly or indirectly, to the issuer of any of its affiliates.

6. Section 240.16b–5 is amended to read as follows:

§ 240.16b–5 *Exemption from section 16 (b) of certain transactions in which securities are received by redeeming other securities.* Any acquisition of an equity security (other than a convertible security or right to purchase a security) by a director or officer of the issuer of such security shall be exempt from the operation of section 16 (b) upon condition that:

(a) The equity security is acquired by way of redemption of another security of an issuer substantially all of whose assets other than cash (or government bonds) consist of securities of the issuer of the equity security so acquired, and which—

(1) Represented substantially and in practical effect a stated or readily ascertainable amount of such equity security;

(2) Had a value which was substantially determined by the value of such equity security; and

(3) Conferred upon the holder the right to receive such equity security without the payment of any consideration other than the security redeemed;

(b) No security of the same class as the security redeemed was acquired by the director or officer within six months prior to such redemption or is acquired within six months after such redemption;

(c) The issuer of the equity security acquired has recognized the applicability of paragraph (a) of this section by appropriate corporate action.

The foregoing rules shall become effective November 1, 1952.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w. Interprets or applies sec. 16, 48 Stat. 896; 15 U. S. C. 78p)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SEPTEMBER 24, 1952.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order No. 6, Amdt. 6]

DMO 6—CREATING INTERAGENCY REGIONAL COMMITTEES ON DEFENSE MOBILIZATION

PROVIDING FOR ESTABLISHMENT OF PROGRAM AND PROCEDURE TO COORDINATE MAKING OF COMMUNITY SURVEYS

1. Defense Mobilization Order No. 6, issued by this office under date of February 9, 1951, creating Interagency Regional Committees on Defense Mobilization, is hereby amended by renumbering paragraph 3 to be paragraph 4 and inserting therein a new paragraph numbered 3 as follows:

3. In order to ensure that special surveys of production capacity, labor requirements and supply, housing, community facilities, and similar resources are conducted with a minimum of cost, staff time and duplication, and of inconvenience to local officials and community organizations, and further to ensure that information available in the Federal agencies is utilized to the fullest extent possible, any Federal agency which proposes to initiate a community survey not subject to the Federal Reports Act of 1942 shall first so advise the Executive Secretary of the appropriate Regional Defense Mobilization Committee. Upon receipt of this advice, which shall include the nature and extent of the survey, the Executive Secretary of the Regional Defense Mobilization Committee, in collaboration with its membership, shall

a. Ascertain the extent of pertinent information that can be readily supplied through existing channels, and

b. Arrange for the release of information to the requesting agency. Full consideration shall be given by the requesting agency to the availability of such existing information in determining the need for the specific survey, and, if the survey is needed, in planning its scope and content.

2. This order is to take effect on October 4, 1952.

OFFICE OF DEFENSE MOBILIZATION,
HENRY H. FOWLER,
Director.

[F. R. Doc. 52–10848; Filed, Oct. 2, 1952; 3:59 p. m.]

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 4, Amdt. 5]

CPR 4—ANTHRACITE DELIVERED FROM MINE OR PREPARATION PLANT

ADJUSTMENTS ON ALL SIZES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 5 to Ceiling Price Regulation 4 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment increases the ceiling prices on all sizes of anthracite by 20 cents per net ton f. o. b. the mines. The increase has been requested by the anthracite industry because of the interim agreement reached between the International Union of United Mine Workers of America, and the anthracite producers increasing the amount which the producers must pay to the Anthracite Health and Welfare Fund from 30 cents to 50 cents per net ton. The Wage Stabilization Board has advised the Union and the industry that "prior Board approval is not required before the affected employers may increase their contributions to the Anthracite Health and Welfare Fund from 30¢ per ton to 50¢ per ton, provided that such increase in contributions is necessary to maintain the level of benefits prevailing on January 25, 1951. Any increase in benefit levels or the institution of additional benefits requires Board approval."

Increases in the ceiling prices for some sizes of anthracite were recently authorized by the Office of Price Stabilization in Amendment 4. The increase authorized by that amendment was intended to permit the industry to recover substantially the amount to which it was entitled under the Industry Earnings Standard. On the basis of the industry earnings survey, and information received for the period January–July, 1952, this industry has demonstrated that the need for relief is immediate. So as not to delay this relief, the Agency is permitting an increase generally sufficient to cover the amount of increase in the welfare fund agreement. If the anthracite industry demonstrates that there is need for further relief so as to bring the level of the earnings of the industry up to the 85% level warranted by the Industry Standard, the Agency will take whatever action is deemed appropriate.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the judgment of the Director of Price Stabilization this amendment is generally fair and equitable and is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. The ceiling prices in Appendix A, provision 1, as amended, are further amended by an increase of 20 cents per net ton on all sizes so that provision 1 to Appendix A will read as follows:

1. The following ceiling prices, subject to the exceptions set forth in this regulation, are established for Anthracite f. o. b. mine:

	Per net ton
Broken	$14.40
Egg coal	14.65
Stove	14.90
Chestnut	14.80
Pea	11.60
No. 1 Buckwheat	8.95
Rice	7.35
Barley	6.05
Buckwheat No. 4 and smaller	5.05

2. The ceiling prices for "sub-standard" anthracite in Appendix A, provision 3, as amended, are further amended by an increase of 20 cents per net ton on all sizes so that provision 3 of Appendix A will read as follows:

3. The ceiling prices for anthracite (including anthracite for which a ceiling price has been established by any special order issued under this regulation, or otherwise), which does not meet the quality standards and price specifications set forth in Appendix B hereof, shall be the applicable ceiling price set forth below:

	Per net ton
Broken	$13.25
Egg coal	13.50
Stove	13.75
Chestnut	13.65
Pea	10.60
No. 1 Buckwheat	8.25
Rice	6.75
Barley	5.55
Buckwheat No. 4 and smaller	4.65

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Supp. 2154)

Effective date. This Amendment 5 to CPR 4 shall become effective as of October 1, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 3, 1952.

[F. R. Doc. 52–10868; Filed, Oct. 3, 1952; 2:00 p. m.]

Chapter VI—National Production Authority, Department of Commerce

[Revised CMP Regulation No. 6 as amended October 3, 1952]

REVISED CMP REG. 6—CONSTRUCTION

This revised regulation as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this revised regulation as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

Revised CMP Regulation No. 6 of March 6, 1952, as last amended by Amendment 3 of August 4, 1952, is hereby further amended to accomplish the following changes:

(1) Included in Revised CMP Regulation No. 6 are the rules with respect to construction of residential structures. These rules were set forth formerly in NPA Order M–100. To the extent that NPA Order M–100 was inconsistent with Revised CMP Regulation No. 6, insofar as the use of pre-October 1, 1951, inventory is concerned, this amendment modifies the rules relating to construction of residential structures to conform them to the provisions of Revised CMP Regulation No. 6.

(2) Sections 9 and 23 are amended to remove certain of the limitations on the use of DO ratings. These amended sections leave unchanged the rules relating to placing of DO-rated orders for construction machinery and for metalworking machines.

(3) Use of the allotment number T–9 is authorized for construction projects within the jurisdiction of the NPA Water Resources Division (section 22).

(4) Jurisdiction over certain recreational construction projects is given to the Federal Security Agency and the Veterans' Administration (section 33, and Table IV).

(5) The language of sections 4, 17, 20, 21, 25, 28, 33, and 34, and of Tables IV and V, is clarified, or is conformed to the other changes referred to above.

(6) The substance of Amendments 1 (17 F. R. 5559), 2 (17 F. R. 6763), and 3 (17 F. R. 7115) has been incorporated in this regulation as amended. Directions 2, 4, 5, 6, and 7 to this regulation are to remain in full force and effect.

REGULATORY PROVISIONS

ARTICLE I—EXPLANATORY PROVISIONS

Sec.
1. What this regulation does.
2. Definitions.

ARTICLE II—COMMENCEMENT OR CONTINUANCE OF CONSTRUCTION

3. Categories of construction specified in Table I of this regulation.
4. All other categories of construction.

ARTICLE III—CONSTRUCTION UNDER THE CONTROLLED MATERIALS PLAN (CMP)

5. Claimant agencies.
6. Applications for authorized construction or production schedules and allotments.
7. Authorization of construction and production schedules.
8. How allotments are made.
9. Authorization of DO ratings.
10. Allotment numbers (controlled material orders).
11. Designation of DO orders.
12. Certification of orders.
13. Use of allotments.
14. Cancellation or reduction of allotments.
15. Prohibition of transfer of allotments.
16. Alternative procedure for simultaneous allotments.
17. Restrictions on placing authorized controlled material orders, and on use of allotments and materials.
18. Adjustments for changes in requirements.
19. Placing of orders.

ARTICLE IV—SMALL CONSTRUCTION PROJECTS

20. Self-authorization for small construction projects.
21. Who may self-authorize.
22. Self-authorization; allotment numbers.
23. DO ratings.

ARTICLE V—CONSERVATION

24. Limitations on the use of controlled materials.

ARTICLE VI—USE OF FOREIGN AND USED STEEL IN CONSTRUCTION

25. Definitions.
26. Use of foreign and used steel.
27. Hardship.

ARTICLE VII—GENERAL PROVISIONS

28. Exemptions.
29. Prohibited deliveries.
30. Scope of this regulation.
31. Communications.
32. Records and reports.
33. Applications for adjustment or exception.
34. Violations.

Table
I—Recreational, entertainment and amusement construction.
II—Categories of construction and quantities of controlled materials for which purchase orders may be self-authorized.
III—Controlled materials.
IV—Jurisdiction of claimant agencies.
V—Items of metal-working machines.

AUTHORITY: Sections 1 to 34 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

ARTICLE I—EXPLANATORY PROVISIONS

SECTION 1. *What this regulation does.* This revised regulation, as amended, supersedes Revised CMP Regulation No. 6 as last amended by Amendment 3 of August 4, 1952, and NPA Order M–100 as last amended August 4, 1952. The provisions formerly in NPA Order M–100 with respect to residential construction, modified to conform them to the restrictions affecting most other types of construction, are set forth now in this regulation.

(a) Article I of this regulation contains definitions of terms used in this regulation.

(b) Article II of this regulation explains the rules limiting the right to commence or continue construction.

(c) Article III of this regulation explains:

(1) How to obtain an authorized construction schedule; and

(2) How to obtain an allotment of controlled materials for construction.

(d) Article IV of this regulation explains the self-authorization procedure for obtaining controlled materials, which may be used in connection with small construction jobs.

(e) Article V of this regulation explains the rules limiting the use of controlled materials in construction.

(f) Article VI of this regulation explains the procedure to be followed to use foreign or used steel in construction.

(g) Article VII of this regulation sets forth the general provisions applicable to construction.

NOTE: Certain exemptions from the provisions of this regulation are specified in section 28.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "NPA" means the National Production Authority.

(c) "Allotment" means an authorization of the amount of controlled materials which a claimant agency may receive or allot during a specified period, or an authorization by a claimant agency or other person of the amount of controlled materials which may be received or allotted by an owner, contractor, subcontractor, or a person manufacturing Class A products.

(d) "Authorized construction schedule" means a construction schedule specifically approved by a claimant agency with respect to an owner, or specifically approved by an owner or a contractor with respect to a prime contractor or a subcontractor.

(e) "Authorized controlled material order" means any order for any con-

trolled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment as provided in this regulation, or any such order which is placed pursuant to the self-authorization procedures specified in Article IV of this regulation, or which is specifically designated to be such an order by any regulation or order of NPA.

(f) "Authorized production schedule" means any production schedule specifically approved by a claimant agency or other person specifically mentioned in section 7 of this regulation, with respect to a producer of Class A products.

(g) "Class A product" means any product which is not a Class B product (as defined in paragraph (h) of this section), and which contains any controlled material fabricated or assembled beyond the forms and shapes specified in Table III of this regulation, other than any controlled material which may be contained in Class B products incorporated in it.

(h) "Class B product" means any product designated as such in the "Official CMP Class B Product List" issued by NPA, as the same may be modified from time to time, and which contains any controlled material other than any controlled material which may be contained in other Class B products incorporated in it.

(i) "Commence construction" means to incorporate into a building, structure, or project, a substantial quantity of materials which are to be an integral and permanent part of such building, structure, or project (for example, the pouring or placing of footings or other foundations). Fabrication, production, or processing of prefabricated buildings, building equipment, or personal property to be installed does not constitute commencement of construction.

(j) "Construction" means the erection of any building, structure, or project, or addition or extension thereto, or alteration thereof, through the incorporation-in-place on the site of materials which are to be an integral and permanent part of the building, structure, or project, but it does not include maintenance and repair.

(k) "Contractor" means the person who does the actual construction of any building, structure, or project. A person who performs such work by virtue of an agreement directly with the owner is a prime contractor. A person who does such work as the result of an agreement with a prime contractor or a subcontractor is a subcontractor.

(l) "Controlled material" means domestic and imported steel, copper, and aluminum, in the forms and shapes indicated in Table III of this regulation, whether new, remelted, rerolled, or redrawn, including used and second quality materials, shearings, and material sorted or salvaged from scrap which are sold for other than remelting, rerolling, or redrawing purposes.

(m) (1) "Industrial plant, factory, or facility" means a building, structure, or project designed or intended for use in the production, manufacture, assembly, or processing of products or articles, and the following types of buildings, structures, or projects when an integral part of any such operation; generating plant, railroad siding, loading platform, storage warehouse, or repair shop, provided such buildings, structures, or projects are designed and intended for, and maintained and operated in connection with, such operations, and are located on the industrial site. The term specifically includes, but is not limited to: facilities for food and fibre processing, mining, extractive, forestry, logging, or lumber operations; warehouses used or to be used by a public carrier for the storage of goods in its custody as such carrier, or used or to be used by the public for the storage of goods incident to their concentration for shipment in volume, or while in transit or awaiting transshipment, or incident to their distribution following shipment; grain elevators; feed mills; printing and publishing establishments; facilities for radio and television broadcasting, including community antennae receiving systems.

(2) The term "industrial plant, factory, or facility" does not include the following: commercial buildings, such as wholesale and retail establishments for the storage, distribution, display, or sale of products or articles; administration buildings for any enterprise (without regard to location); office buildings; lofts, warehouses other than those specified in subparagraph (1); garages; service stations; gasoline filling stations; buildings, structures, or projects designed for furnishing services to those who may be either producers or consumers, other than those specified in subparagraph (1); fishing, agricultural, or dairy operations (excluding the processing of fish, food, and dairy products); farms; highways, roads, and bridges and similar construction; buildings, structures, or projects designed or intended for use in connection with transportation operations, including railroad switch tracks or spurs, bridges, transportation, or passenger or freight carrier terminals (other than those warehouses specified in subparagraph (1)); piers or wharves used in the transshipment of persons or property; water and sewage systems; and public utility systems. These listings are illustrative and not all inclusive.

(n) "Owner" means the person who owns the building, structure, or project being constructed, or who will own it upon its completion. If a claimant agency will have title to a completed project, then the person under a direct contract with that claimant agency covering construction of that particular project shall also be considered the owner for the purposes of this regulation.

(o) "Project" means a construction plan contemplated for execution, irrespective of the time when it is to be carried into effect in full or in part, involving all or portions of a single building or structure, or involving two or more buildings or structures, or portions thereof, which are physically contiguous, or are parts of an integrated design or plan, so that each is an element of a single operation. In addition, a project also means a type of construction which is not a building or structure, but which requires a construction operation for its completion, such as a freight yard or a golf course. A project shall not be subdivided for the purpose of coming within the self-authorization provisions of this regulation.

(p) "Residential structure" means any structure in which at least 50 percent of the floor space (excluding floor space devoted to stairways, halls, and other common space) is used or designed for dwelling purposes for other than transient occupancy. Separate buildings or construction on the residential site where used to service residential structures, such as private garages, tool sheds, and greenhouses, and electric utility, water, gas, or oil lines or pipes which are or will be the property of the owner, are part of the residential structure. The term does not include such buildings or structures as hotels, motels, or tourist camps primarily used for transient occupancy.

(q) "Steel, copper, and aluminum" means steel, copper, and aluminum in the forms and shapes indicated in Table III of this regulation.

(r) "Structural shapes" means those rolled flanged steel sections having at least one dimension of their cross-section 3 inches or greater, commonly referred to as angles, channels, beams, and wide flanged sections. (This means that any standard rolled section, from a 3 x 2½ inch angle, 3 inch "T" beam, or 3 inch channel up, are structural shapes.) Wide flanged sections are steel beams or columns having parallel face flanges rolled on a universal structural mill or Grey mill, in sizes ranging in depth from 4 to 36 inches.

(s) "Multiunit residential structure or project" means any residential structure or project such as an elevator-type apartment house, a dormitory, or a walk-up housing development, which includes more than four dwelling units in any single structure, whether or not such dwelling units are self-contained. A dwelling unit includes, but is not limited to, an apartment; or a room or group of rooms in a rooming or boarding house, or dormitory, used as individual living quarters by a single person or a group of persons. Houses connected by common walls, with individual heating and utility units and connections, and commonly known as "row" houses, are not considered multiunit residential structures. Separate buildings, even though they contain four or less dwelling units, which have common utility or heating systems constitute a multiunit residential project within the meaning of this regulation, if the total number of dwelling units in all such buildings is more than four. Separate buildings or construction on the residential site where used to service a multiunit residential structure or project, such as a heating or incinerator plant, a garage for use of tenants only, or electric utility, water, gas, or oil lines or pipes which are or will be the property of the owner, are part of the multiunit residential structure or project.

(t) "Completion of construction" means the stage of construction at which, and the date on which, a building, structure, or project is first suitable for occupancy for dwelling purposes or for its intended use, and all planned utility and service connections have been made.

(u) "Alteration" means the renovation, remodeling, or replacement of, or structural change in, a building, structure, or project, or a part thereof, or the improvement of any building, structure, or project, or a part thereof, by replacing parts or materials which are in sound working condition with parts or materials of a new or different kind, quality, or design. "Alteration" does not include maintenance and repair. "Maintenance" means the minimum upkeep necessary to continue any building, structure, or project, or part thereof, in sound habitable or usable condition. "Repair" means, with respect to any person, the restoration of a building, structure, or project, or part thereof, to sound habitable or usable condition when it has been rendered unsafe or unfit for use by wear and tear, damage, or the like.

ARTICLE II—COMMENCEMENT OR CONTINUANCE OF CONSTRUCTION

NOTE: See section 28 of this regulation for exemptions from this article.

SEC. 3. *Categories of construction specified in Table I of this regulation.* (a) (1) After March 5, 1952, no person shall commence the construction of any building, structure, or project of a type specified in Table I of this regulation (recreational, entertainment, or amusement construction) without receiving an adjustment or exception under section 33 of this regulation, unless the total quantity of controlled material to be installed on the site after March 5, 1952, for completion of such construction, including material for the manufacture of Class A products which are to be used in the construction project, does not exceed the following quantities:

Carbon steel including structural shapes (but not including wide-flange beam sections or columns)—2 tons.

Wide-flange beam sections or columns—none.

Alloy steel and stainless steel—none.

Copper and copper base alloys—200 pounds, or aluminum—100 pounds (as provided in section 24 of this regulation).

(2) After March 5, 1952, no person shall continue the construction of a building, structure, or project of a type specified in Table I of this regulation (recreational, entertainment, or amusement construction) which was properly commenced prior to March 6, 1952, without receiving an adjustment or exception under section 33 of this regulation, unless the total quantity of controlled material installed and to be installed on the site after September 30, 1951, for completion of such construction, including material for the manufacture of Class A products which are to be used in the construction project, does not exceed the following quantities:

Carbon steel (including all types of structural shapes)—2 tons.

Alloy steel and stainless steel—none.

Copper and copper base alloys—200 pounds, or aluminum—100 pounds (as provided in section 24 of this regulation).

(b) The self-authorization procedures specified in Article IV of this regulation do not apply to construction of any category of construction specified in Table I of this regulation.

(c) Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission is exempt from the provisions of this section.

SEC. 4. *All other categories of construction.* (a) Except as otherwise specified in this section, no person shall commence or continue the construction of any building, structure, or project, construction of which is subject to this regulation, including but not limited to all residential construction projects (see section 28 for list of exemptions), other than a category of construction specified in Table I of this regulation (recreational, entertainment, or amusement construction) without receiving an authorized construction schedule and related allotment (as provided for in Article III of this regulation) unless, for completion of the construction, he will not require delivery after September 30, 1951, of any quantity of controlled material, including material for the manufacture of Class A products which are to be used in the construction project, in excess of the quantity for which he is permitted to self-authorize his purchase orders (as provided for in Article IV of this regulation), and he will not require authorization to use a DO rating to procure delivery of any item described in section 23 (b) of this regulation, and he will not require authorization to use a DO rating to procure delivery of building equipment, building materials (other than controlled materials), production equipment, and production machinery, in dollar amounts exceeding those specified in section 23 of this regulation.

(b) No person shall commence construction of a multiunit residential structure or project, or any housing on military reservations and all military housing on or off military bases and reservations under P. L. 211, 81st Congress (Wherry Act), or any federally owned housing on federally owned property under the control of the Atomic Energy Commission, or any other construction by, or for the account of the Department of Defense, or the Atomic Energy Commission, without receiving an authorized construction schedule, and related allotment (as provided for in Article III of this regulation), unless he does not, or did not, require delivery after September 30, 1951, of any controlled material, including controlled material for the manufacture of Class A products which are to be used in the construction project.

(c) If a construction project, including, but not limited to, construction of residential structures other than multiunit residential structures, and other than construction by or for the account of the Department of Defense or the Atomic Energy Commission (but not including a recreational, entertainment, or amusement construction project—see section 3 and Table I of this regulation), was properly commenced prior to March 6, 1952, it may be continued without authorization, if, for completion, the owner will not require delivery after September 30, 1951, of controlled materials, including materials for the manufacture of Class A products, in excess of the quantities specified in Table II of this regulation for the appropriate category of construction. If delivery of more than these quantities is required, construction cannot be continued unless an authorized construction schedule and related allotment is made for the project.

(d) If the construction project is a "small construction project" (see section 20 of this regulation), construction may be commenced or continued under the self-authorization procedure specified in Article IV of this regulation, without receiving authorization pursuant to section 7 of this regulation.

(e) Except where otherwise provided by NPA, no person who has received an authorized construction schedule (whether pursuant to section 7 or of Article IV of this regulation) shall acquire controlled materials to fulfill such schedule except by use of the related allotment, or by charging the related allotment with the quantity of material acquired.

(f) See also Article VI of this regulation for the right to commence or continue construction when the owner uses foreign or used steel.

(g) (1) Except as specified in subparagraph (2) of this paragraph, no person shall commence or continue the alteration or extension of, or the addition to, a residential structure, without receiving an adjustment or exception from this regulation, unless such person has already received authorization under NPA Order M-100, if for completion of such alteration, extension, or addition, more than 50 percent of the appropriate quantity of controlled materials specified in Table II of this regulation (including controlled materials in Class A products) will be used.

(2) With respect to federally owned housing on federally owned property under the control of the Atomic Energy Commission, or any residential structures under the control of the Department of Defense, no person shall commence or continue any alteration, extension, or addition without receiving authorization therefor, as specified in Article III of this regulation.

(h) The rules respecting commencement or continuance of construction of the type specified in Table I of this regulation (recreational, entertainment, and amusement construction) are set forth in section 3 of this regulation, and not in this section.

ARTICLE III—CONSTRUCTION UNDER THE CONTROLLED MATERIALS PLAN (CMP)

SEC. 5. *Claimant agencies.* (a) NPA has granted to a number of Government agencies and NPA divisions the authority to process applications filed under this regulation. These agencies and NPA divisions are the claimant agencies. The categories of construction over which each claimant agency has jurisdiction

are set forth (for convenience) in Table IV of this regulation (Jurisdiction of Claimant Agencies).

(b) Any application filed pursuant to this regulation shall be filed with the claimant agency having jurisdiction over the particular category of construction. (For example, an application covering a steel plant should be filed with the NPA Industrial Expansion Division; an application covering a shopping center should be filed with NPA Construction Controls Division; and an application covering a fruit-canning factory should be filed with the Department of Agriculture.)

SEC. 6. *Applications for authorized construction or production schedules and allotments.* (a) To apply for an authorized construction schedule and allotment, Form CMP–4C or such other form as may be prescribed in the orders listed in section 28 of this regulation (for example, re electric utility construction, Form DEPA–9) shall be submitted. The application shall be made by the owner of the construction project, or his duly authorized agent. If the application is made by an agent, the agent shall submit written proof of his authority.

(b) The application shall state the actual controlled material requirements of the owner for that particular construction project. In computing such requirements:

(1) The owner shall include the controlled material requirements of all contractors, and producers of Class A products, who are to provide materials, equipment, or services for that construction project.

(2) To the extent required by CMP Regulation No. 2, inventories of controlled materials shall be taken into account.

(3) In determining his inventory, a person shall include all items of controlled material in his possession and all such items held for his account by another person, but not items of controlled material held by him for the account of another person.

NOTE: The inventory of the owner does not include items in the possession of his contractors or of any other persons, unless his contractors or such other persons are actually holding such items for the account of the owner and have earmarked them to the owner's account.

(c) Upon the request of the appropriate claimant agency, or upon the request of the owner or the person for whom the contractor or producer is to provide materials, equipment, or services for a construction project, any contractor, or producer of Class A products, who is to furnish such materials, equipment, or services shall furnish a statement of his actual controlled material requirements to the agency or person making the request.

(d) (1) If at any time the owner learns that the actual requirements of controlled materials for a construction project have been overstated, he shall report such fact at once to the claimant agency where his application is filed.

(2) Any contractor, or producer of Class A products, who has overstated his actual requirements of controlled materials for a construction project shall report such fact at once to the person to whom he originally stated his requirements.

(e) Upon the request of a person for whom he is producing Class A products for use in construction, the person who is producing such Class A products shall furnish the information called for in Form CMP–4A to the person making the request. The producer of Class A products shall receive an authorized production schedule and allotment under this regulation. All the provisions of CMP Regulation No. 1 and the directions to and amendments of that regulation are applicable to producers of Class A products.

(f) If any person receives any statement of requirements of controlled materials for a construction project which he knows or has reason to believe is substantially in excess of the actual requirements, he shall withhold any allotment based thereon in a quantity sufficient to correct such excess, and shall report all facts immediately to the appropriate claimant agency (see Table IV).

SEC. 7. *Authorization of construction and production schedules.* (a) A construction schedule for the owner of a construction project may be authorized by the appropriate claimant agency designated in Table IV of this regulation which has jurisdiction over the particular category of construction.

(b) An owner who has received an authorized construction schedule shall, pursuant thereto, authorize a construction schedule for his contractors; and each contractor who has received an authorized construction schedule shall, pursuant thereto, authorize construction schedules for his subcontractors. Likewise, each subcontractor who has received an authorized construction schedule shall, pursuant thereto, authorize construction schedules for his subcontractors.

(c) (1) An owner or a contractor who has received an authorized construction schedule shall authorize a production schedule pursuant thereto for each person who is to produce a Class A product for him for use in the construction project. Likewise, each person who has received an authorized production schedule under this regulation shall, pursuant thereto, authorize a production schedule for each person who is to produce a Class A product for him.

(2) Any person having several authorized construction schedules bearing the same allotment number, or several production schedules authorized under this regulation bearing the same allotment number, may authorize, pursuant thereto, a single production schedule for a person who is to produce Class A products for him.

(d) Except as may be otherwise specifically provided by a claimant agency, no person shall authorize a construction schedule or a production schedule pursuant to this regulation unless at the same time he makes an allotment of controlled materials as provided in section 8 of this regulation; and no person shall make an allotment of controlled materials pursuant to this regulation unless at the same time he authorizes a related construction schedule or a related production schedule as provided in this section.

SEC. 8. *How allotments are made.* (a) Each claimant agency mentioned in Table IV of this regulation will receive an allotment of controlled materials from the Defense Production Administration for construction programs under its jurisdiction.

(b) When a claimant agency or other person authorizes a construction schedule or production schedule pursuant to section 7 of this regulation, it or he shall make an allotment of controlled materials so that such schedule can be fulfilled, unless an exception is granted pursuant to section 7 (d) of this regulation.

(1) The allotment by the claimant agency shall be made to the owner of the construction project.

(2) The owner shall make allotments to his prime contractors.

(3) Each prime contractor shall make allotments to his subcontractors, or to any person who is to produce Class A products for him for use in the construction project.

(4) Each subcontractor, or person who is to produce Class A products for him for the construction project, shall make allotments to his subcontractor, or to persons who are to produce Class A products for him.

(c) The allotment shall specify the types and quantities of controlled materials needed for delivery in specified calendar quarters to complete the related authorized construction schedule or the related authorized production schedule.

(d) Except where a further breakdown is made by the Defense Production Administration, or by NPA, allotments shall be made in each case in specified quantities of:

(1) Carbon steel (including wrought iron);

(2) Alloy steel (not including stainless steel);

(3) Stainless steel;

(4) Copper and copper-base alloy brass mill products;

(5) Copper wire mill products;

(6) Copper and copper-base alloy foundry products and powder; and

(7) Aluminum.

(e) Each allotment of controlled materials shall be identified by an allotment number. (See section 10 of this regulation.)

(f) Within such limits as may be specified by the Defense Production Administration, a claimant agency may make an advance allotment to the owner of a construction project.

(g) An advance allotment may be made in the same manner as specified in paragraph (b) of this section.

(h) The right to make an allotment provided for in paragraphs (b) and (g) of this section is subject to the restriction that no person shall make any allotment before he first shall have received his own allotment.

SEC. 9. *Authorization of DO ratings.* (a) In order that a construction or production schedule authorized under section 7 of this regulation may be fulfilled, the claimant agency or other person authorizing such schedule shall authorize the use of a DO rating on purchase orders. The DO rating shall only be used on purchase orders for the following purposes, and subject to the limitations specified in this section:

(1) To acquire building equipment and building materials (other than controlled materials) in the minimum practicable amounts required, and on a date or dates no earlier than required, to fulfill such schedule.

(2) Except as provided in paragraphs (b), (c), and (d) of this section, to acquire production machinery and production equipment for operation of the completed construction project covered by the authorized construction schedule to which such DO rating relates, in the minimum practicable amounts required, and on a date or dates not earlier than required.

(3) Except as provided in paragraphs (b), (c), and (d) of this section, to replace in inventory products and materials (other than controlled materials) used to fulfill authorized construction schedules. Action taken under this subparagraph is not an element of hardship, if an application for adjustment or exception is made under section 33 of this regulation.

(b) The DO rating authorized pursuant to this section shall not be used on any purchase order for appliances such as cooking stoves or refrigerators, office machinery (including, but not limited to, business machines), office equipment, office furniture, or any other type of furniture. This limitation in this paragraph shall not apply to construction by, or for the account of, the Department of Defense or the Atomic Energy Commission, or to construction of schools or hospitals.

(c) The DO rating authorized pursuant to this section shall not be used to acquire any item of new metalworking machines as specified in Table V of this regulation, unless its use for that purpose has been specifically approved by the appropriate claimant agency. A person whose construction project falls within the jurisdiction of the NPA Industrial Expansion Division (see Table IV of this regulation), and who requires a DO rating to procure any item of such metalworking machines, shall comply with the procedures specified in Direction 5 to this regulation.

(d) The DO rating authorized pursuant to this section shall not be used on purchase orders for any item of construction machinery or equipment of a type listed on Part 1 of List A of NPA Order M–43: *Provided, however,* That this limitation in this paragraph shall not restrict any right of the Department of Defense or the Atomic Energy Commission to authorize DO ratings with the program identifications A, B, C, or E, for such machinery or equipment.

SEC. 10. *Allotment numbers (controlled material orders).* (a) Allotments shall be identified by an allotment number consisting of a claimant agency letter symbol and one digit designating the authorized construction program of such claimant agency.

(b) Authorized controlled material orders shall show the related allotment number and the calendar quarter for which the allotment is valid. For example, a purchase order for controlled materials placed pursuant to an allotment identified by allotment number U–4 which is valid for the fourth quarter of 1952 shall be designated as follows: U–4–4Q52. The date or dates on which delivery is required must also be specified on such purchase order.

(c) An authorized controlled material order shall be certified in the manner prescribed in section 12 of this regulation.

SEC. 11. *Designation of DO orders.* (a) Purchase orders for products and materials other than controlled materials required for completion of an authorized construction or production schedule shall show the DO rating and the related allotment number, for example, DO–U–4. The date or dates on which delivery is required must also be specified on such purchase order.

(b) The purchase order shall be certified in the manner prescribed in section 12 of this regulation.

SEC. 12. *Certification of orders.* (a) This section sets forth the procedure to be used by an owner or contractor for certifying either an authorized controlled material order, or a purchase order with a DO rating, authorized under any section of this regulation.

(b) Such a controlled material order, or DO rated order shall contain a certification in the following form:

Certified under Revised CMP Regulation No. 6

(c) The certification must be signed by the person placing the order, or by a responsible individual who is duly authorized by such person to sign for that purpose. The signature must be either by hand or in the form of a rubber stamp or other facsimile reproduction of a handwritten signature. If a facsimile signature is used, the individual who uses it must be duly authorized in writing to use it for this purpose by the person whose signature it is, and a written authorization must be kept.

(d) When such order is placed by telegram, the allotment number and/or the rating identification and the certification must be set out in full in the telegram. It will be sufficient if the file copy of the telegram is signed in the manner required for certification by paragraphs (b) and (c) of this section.

(e) On such orders requiring shipment within 7 days, the substance of the certification may be stated verbally or by telephone. However, the following rules must be complied with: The person making the statement for the buyer must be a person duly authorized to make the certification. Both the buyer and the seller must promptly make a written record of the fact that the certification was given orally and the record must be signed by the buyer in the same way as a certification.

(f) The person who places an authorized controlled material order, or a DO rated order as provided for in section 9 or 23 of this regulation, the individual whose signature is used, and the individual who approves the use of the signature, will each be considered making a representation to the claimant agency having jurisdiction over the particular category of construction and also to NPA that the statements contained in the certification are true to the best of his knowledge and belief. The person receiving the certification shall be entitled to rely on it as a representation of the buyer of the truth thereof, unless he knows or has reason to believe that it is false.

(g) In addition to the representation referred to in paragraph (f) of this section, the certification of an authorized controlled material order or a DO rated order shall constitute a representation that, subject to the criminal penalties provided for in applicable United States statutes:

(1) the purchaser has received an allotment of controlled material authorizing him, in accordance with the provisions of this regulation to place such order, and that the amount ordered is within the related allotment received by him, after he has deducted from such allotment all allotments made by him to any other person and all orders for controlled material placed by him and accepted by suppliers pursuant to the same allotment; or

(2) The purchaser is authorized to place a DO-rated order for the items covered by the order, in the amount for which the order is placed.

SEC. 13. *Use of allotments.* (a) Each person who receives an allotment of controlled materials may use only such portion of the allotment which he requires to obtain quantities of controlled materials as is needed for his own authorized construction schedule. He may allot the balance of such allotment to the contractors, subcontractors, or persons who are to produce Class A products for him for such construction, to cover their respective requirements of controlled materials for their related construction schedules or production schedules.

(b) No person shall make any allotment of controlled materials in any quantity in excess of the quantity thereof which may remain after he has deducted from the allotment which he has received, the total quantity of controlled material for which he has placed orders and for which he has already made allotments to others. Further, no person shall make any allotment of controlled materials to any other person in excess of the quantity required by such other person, to fulfill the related construction or production schedule authorized for the person to whom such allotment is made. However, in determining the quantity so required, quantities required by subcontractors or by persons who are to make Class A products for him for the construction project may be taken into consideration.

(c) Allotments shall be made on such forms as may be prescribed. Allotments may be made by telegraphing or tele-

phoning the information required by the prescribed form, if such information is confirmed on the prescribed form within 15 days thereafter.

SEC. 14. *Cancellation or reduction of allotments.* (a) A person who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made.

(b) A person who has received an allotment may cancel or reduce the same by making an appropriate notation thereon and notifying the person from whom he received it.

(c) In either case, if an allotment received by a person is cancelled, he must cancel all allotments which he has made, and cancel all authorized controlled material orders which he has placed on the basis of the allotment; and, if an allotment received by a person is reduced, he must cancel or reduce allotments which he has made or cancel or reduce authorized controlled material orders which he has placed, to the extent that the same exceed his allotment as so reduced. If and to the extent that cancellation or reduction of an allotment is impracticable because of shipments already made pursuant to such allotment, he may use or dispose of the controlled materials or the Class A products which he gets with such allotment in the manner provided in section 17 of this regulation.

SEC. 15. *Prohibition of transfer of allotments.* No person except a claimant agency shall transfer any allotment (as distinct from making an allotment, see section 8 of this regulation).

SEC. 16. *Alternative procedure for simultaneous allotments.* A person who has received an authorized construction schedule and a related allotment of controlled materials, and who, in connection with such construction project, has several contractors or several persons producing Class A products for him which are to be used in the construction project, who are in different degrees of remoteness, may, at his option, authorize individual construction and/or production schedules and may, out of the quantities of controlled materials allotted to him for such project make direct allotments to all such persons of all degrees of remoteness. The person who is to make the allotment under this alternative procedure may request each such person of all degrees of remoteness, to furnish him directly with information regarding such person's requirements of controlled materials, and each such person shall comply with such request. If this procedure is followed, each such person shall include in the information he furnishes to the person requesting the same only his own requirements for controlled materials and not those of his suppliers. In no event shall a person who uses this alternative procedure make an allotment of more controlled materials than he has received. All the provisions of this regulation regarding authorized construction schedules, authorized production schedules, and allotments, shall apply to the alternative procedure for simultaneous allotments, except as specifically provided in this section.

SEC. 17. *Restrictions on placing authorized controlled material orders, and on use of allotments and materials.* (a) No person shall request that delivery of any controlled material be made in a greater amount or on an earlier date than required to fulfill his authorized construction schedule or his authorized production schedule.

(b) No person shall request that delivery of any controlled material be made which would result in his having in inventory controlled materials in excess of the limitations prescribed in CMP Regulation No. 2, or provided in any other regulation or order of NPA.

(c) Without regard to the provisions of paragraphs (a) and (b) of this section, if the quantity of any controlled material required is less than the minimum mill quantity specified in CMP Regulation No. 1, and if such less than minimum mill quantity cannot be procured from a distributor, the person placing the order may accept delivery of the full minimum shown in CMP Regulation No. 1 (see paragraph (f) of this section).

(d) No person shall use an allotment, or any controlled material or Class A product obtained pursuant to an allotment, for any purpose except: (1) to fulfill the related authorized construction or production schedule; (2) to fulfill any of his other authorized construction or production schedules which bear the same allotment number, but, in such event, not to use for any single schedule more than the quantity actually allotted therefor; or (3) to replace in inventory controlled materials or Class A products used to fulfill any of such authorized construction schedules, subject to the provisions of CMP Regulation No. 2, or any other applicable regulation or order of NPA. (Action taken under (3) is not an element of hardship, if an application for adjustment or exception is made under section 33 of this regulation.) Where an allotment made for one schedule is used in filling another schedule as provided in this paragraph, no charge need be made against the allotment account of the second schedule, but an appropriate record must be made of the allotment accounts or otherwise, describing the circumstances.

(e) If a person's needs for a controlled material or Class A products are reduced before he has ordered or received delivery of them, he must immediately return the allotment as explained in section 14 of this regulation unless he uses the allotment for the purposes permitted in paragraph (d) of this section. If he has already placed authorized controlled material orders or purchase orders for Class A products, he must cancel them. If cancellation of such orders is impracticable because of shipments already made, he may accept delivery of the controlled materials and Class A products, in which case his use of them is covered by paragraphs (f) and (g) of this section.

(f) Unless otherwise provided by NPA, if it develops, after a person has received delivery of controlled materials or Class A products pursuant to an allotment, that he cannot use them for a purpose permitted under paragraph (d) of this section, he shall not use or dispose of them except as provided in this paragraph: (1) He may hold the controlled materials or Class A products in his inventory for use in connection with future authorized construction schedules; (2) he may sell or otherwise transfer title to such controlled materials to his original supplier of such controlled materials; (3) he may sell or otherwise transfer title to such steel controlled materials to a steel distributor who has a base tonnage within the meaning of, and who operates under, the provisions of NPA Order M-6A; (4) he may sell or otherwise transfer title to such controlled materials to a person who places an authorized controlled material order with him (including, but not limited to, sales of brass mill products to distributors of brass mill products who place orders in accordance with the provisions of NPA Order M-82, sales of copper wire mill products to distributors of copper wire mill products who place orders in accordance with the provisions of NPA Order M-86, and sales of aluminum to distributors of aluminum who place orders in accordance with the provisions of NPA Order M-88), in which event he (the seller) shall not extend the allotment number identifying such order; or (5) he shall request authorization from NPA or the appropriate claimant agency as to any other use or disposition of such controlled materials or Class A products.

(g) If, before using or disposing of controlled materials or Class A products in a way permitted by this section, the person to whom they were delivered receives instructions from NPA as to disposition or use of them, he must comply with such instructions. Also, he must comply with any instructions he receives from a claimant agency with respect to his use of controlled materials or Class A products which he obtained by use of an allotment from that claimant agency, in any construction program of the same claimant agency, or with respect to their sale to any other person for use in a program of the same claimant agency, subject always to whatever rights he may have to reimbursement.

(h) Each person shall maintain separate records of inventories of controlled materials or Class A products which he obtained by use of his allotments, for each individual construction schedule (see section 32 of this regulation), but he need not segregate the physical inventories.

SEC. 18. *Adjustments for changes in requirements.* (a) If a person's requirements for controlled materials or Class A products needed to fulfill an authorized construction or production schedule are increased after he receives his allotment, he may apply for an additional allotment to the person who made the allotment for that schedule.

(b) If a person finds that he has been allotted substantially more controlled materials than he needs, he must return the excess. As of the first of each month, each person must check up on his anticipated requirements for the quarter and determine whether he has been allotted a greater quantity than he anticipates he needs. If he has any excess allotted he must return such excess by the tenth of the month. He need not take a physical inventory for this purpose, but must merely check up on the effect of known changes in his requirements or errors which he has discovered in his statement of requirements.

(c) The return of an unneeded allotment must be made to the person from whom the allotment was received on such form as may be prescribed. If it is impracticable to obtain the prescribed form, the return may be made by letter setting forth the facts.

(d) In those cases where it is impracticable for a person to return an allotment to the person from whom he received it, he may make the return directly to the appropriate claimant agency.

SEC. 19. *Placing of orders.* (a) A purchase order shall be deemed an authorized controlled material order only if it contains an allotment number and the calendar quarter for which the allotment is valid, as provided in sections 10 and 22 of this regulation and if it is certified as provided in section 12 of this regulation, or if it is specifically designated as an authorized controlled material order by any regulation or order of NPA.

(b) Unless otherwise specifically provided, a person who has received an allotment may place an authorized controlled material order with any person. However, if an allotment made under section 8 of this regulation designates the source from which the controlled materials shall be obtained, then a person who receives an allotment pursuant to such grant shall use that allotment only to obtain controlled materials from the designated source.

(c) An authorized controlled material order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer within the lead time specified in CMP Regulation No. 1, or at such later time as the controlled materials producer may find practicable to accept the same. No controlled material producer shall discriminate between customers in rejecting or accepting orders placed after such lead time.

(d) No person shall place an authorized controlled material order unless the amount of controlled material ordered is within the related allotment received by him, after deducting all allotments made by him and all orders for controlled material placed by him pursuant to the same allotment, or unless he is expressly authorized to place such an order by any applicable regulation or order of NPA.

(e) A controlled materials producer shall make shipment on each authorized controlled material order as close to the requested delivery date as is practicable. He may make shipment during the 15 days prior to the requested delivery month, but not before then, provided such shipment does not interfere with shipment on other authorized controlled material orders, and provided production to meet such shipment would not violate any production directive. If a producer, after accepting an order, finds that, due to contingencies which he could not reasonably have forseen, he is obliged to postpone the shipment date, he must promptly advise his customer of the approximate date when shipment can be scheduled, and keep his customer advised of any changes in that date. Shipment of any such carry-over order must be scheduled and made in preference to any order originally scheduled for such later date. When the new date for shipment on a carry-over order, originally scheduled for delivery in any calendar quarter, falls within a later quarter than that indicated on the original order, the producer must make shipment on the basis of the original order even if that order shows that the allotment was valid for a quarter earlier than the one in which shipment is actually made, and the customer is not required to charge his allotment for the quarter during which shipment on such carry-over order is actually made.

ARTICLE IV—SMALL CONSTRUCTION PROJECTS

NOTE: See section 28 of this regulation for exemptions from this article.

SEC. 20. *Self-authorization for small construction projects.* (a) A "small construction project" is one (1) which the owner can complete without requiring authorization to use a DO rating to procure delivery of any item described in section 23 (b) of this regulation, and without requiring authorization to use a DO rating to procure delivery of building equipment, building materials (other than controlled materials), production equipment and production machinery, in dollar amounts exceeding those specified in section 23 of this regulation, and (2) which the owner can complete without receiving delivery after September 30, 1951, of controlled materials, including controlled materials for the manufacture of Class A products which are to be used in the construction project, in excess of the appropriate quantities specified in Table II of this regulation for the particular category of construction; or (3) which the owner can complete without receiving delivery after September 30, 1951, of any controlled materials.

(b) Materials required for completion of a "small construction project" may be obtained by self-authorizing purchase orders for controlled materials, or by self authorizing a DO rating in the manner provided in sections 21, 22, and 23 of this regulation. The owner shall not file an application for an authorized construction schedule.

(c) (1) Article IV of this regulation does not apply to, and the term "small construction project" does not include:

(i) Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission (see section 4 of this regulation).

(ii) Construction of multiunit residential structures (see section 4 of this regulation).

(iii) Recreational, entertainment, and amusement construction (see section 3, and Table I of this regulation).

(2) The self-authorization procedure may not be used to obtain controlled materials for use in the alteration of, or the construction of an addition or extension to, any residential structure, completed after March 5, 1952, within a period of 1 year after the completion of construction of such residential structure.

(d) See also Article VI of this regulation for the right to self-authorize orders where the owner uses foreign or used steel.

SEC. 21. *Who may self-authorize.* (a) The owner of a "small construction project" may self-authorize his purchase orders for controlled materials, including controlled materials for the manufacture of Class A products which are to be used in the construction project, if, in order to complete such construction, he will not require delivery after September 30, 1951, of quantities of controlled materials greater than those specified in Table II of this regulation for the appropriate category of construction, and if he will not require authorization to use a DO rating to procure delivery of any item described in section 23 (b) of this regulation, and if he will not require authorization to use a DO rating to procure delivery of building equipment, building materials (other than controlled materials), production equipment, and production machinery in dollar amounts exceeding those specified in section 23 of this regulation.

(b) The owner of a construction project which may be continued pursuant to section 4 (c) of this regulation may self-authorize his purchase orders for controlled materials, including controlled materials for the manufacture of Class A products which are to be used in the construction project if, in order to complete such construction, he will not require delivery after September 30, 1951, of quantities of controlled materials greater than those specified in Table II of this regulation for the appropriate category of construction.

SEC. 22. *Self-authorization: allotment numbers.* (a) An owner who may self-authorize purchase orders pursuant to sections 21 and 23 of this regulation is authorized to use the following allotment numbers on his purchase orders:

T-9 for water wells, water and sewage systems, and plants, under the jurisdiction of the NPA Water Resources Division (see Table IV of this regulation).

U-6 for industrial plants, factories, and facilities.

U-7 for residential structures other than multiunit residential structures.

U-8 for all other categories of construction other than those categories exempt from this article, as specified in sections 20 and 28 of this regulation.

(b) A purchase order for controlled materials bearing the appropriate allotment number and certified in the manner described in section 12 of this regulation shall constitute an authorized controlled material order.

(c) A "small construction project," or a project covered by section 4 (c) of this regulation, erected with controlled materials which are obtained either by the self-authorization procedure, or with materials properly contained in the owner's inventory (see CMP Regulation No. 2) prior to October 1, 1951, shall be considered to be constructed pursuant to an authorized construction schedule for the purpose of all CMP regulations.

SEC. 23. *DO ratings.* (a) The owner of a "small construction project," or a project covered by section 4 (c) of this regulation, is authorized to use the rating DO (with the appropriate allotment number specified in section 22 of this regulation) on his purchase orders calling for delivery after September 30, 1951, of building materials other than controlled materials and building equipment which are required for such construction, and for production machinery and production equipment which are necessary for the operation of the completed construction project.

(b) The authority to use the DO rating granted by paragraph (a) of this section shall not be deemed to authorize the use of such rating on purchase orders for:

(1) Metalworking machines (as specified in Table V of this regulation).

(2) Any item of construction machinery or equipment of a type listed on Part 1 of List A of NPA Order M–43.

(3) Appliances such as cooking stoves or refrigerators, office machinery (including, but not limited to, business machines), office equipment, office furniture, and any other type of furniture. This subparagraph shall not apply to construction of schools and hospitals.

(c) Further, a DO rating authorized pursuant to this section may not be used for any entire single construction project in dollar amounts in excess of the following:

Category of construction	Building equipment and building materials (other than controlled materials)	Production equipment and production machinery
Industrial plant, factory, or facility	$100,000	$200,000
Residential construction	No dollar limit	None
All other "small construction projects"	15,000	5,000

(d) Purchase orders bearing DO ratings, authorized under paragraph (a) of this section, shall be certified under section 12 of this regulation.

ARTICLE V—CONSERVATION

SEC. 24. *Limitations on the use of controlled materials.* (a) Except as permitted in paragraph (c) of this section, no person shall use aluminum controlled material (as defined in Table III of this regulation) in, or in connection with, the construction of any building, structure, or project of a type specified in Table I of this regulation (recreational, entertainment, and amusement construction).

(b) Aluminum controlled material may be used for any purpose in all construction other than the categories specified in Table I of this regulation (Recreational, entertainment, and amusement construction).

(c) In any construction project of the type specified in Table I of this regulation (Recreational, entertainment, and amusement construction), aluminum may be used, but only as a conductor of electric current.

ARTICLE VI—USE OF FOREIGN AND USED STEEL IN CONSTRUCTION

NOTE: See section 28 of this regulation for exemptions from this article.

SEC. 25. *Definitions.* (a) When used in this article:

(1) "Foreign steel" means steel in the forms and shapes indicated in Table III of this regulation, produced in foreign countries other than Canada, which can be positively identified as of such foreign origin through physical characteristics or markings or through adequate documentation.

(2) "Used steel" means steel in the forms and shapes indicated in Table III of this regulation, which has been utilized in production or construction, including but not limited to offal and steel salvaged from scrap.

(b) This article is not applicable to categories of construction specified in Table I of this regulation (recreational, entertainment, or amusement construction).

SEC. 26. *Use of foreign and used steel.* (a) If the owner of a construction project has received an authorized construction schedule and related allotment under sections 7 and 8 of this regulation, he may use foreign or used steel in his construction project in addition to the quantity of steel controlled material for which he has received an allotment, provided he will not require delivery of a greater quantity of copper or aluminum controlled material than the quantity for which he has received an allotment.

(b) If the owner of a construction project has not received an authorized construction schedule and related allotment under sections 7 and 8 of this regulation, he may nevertheless commence or continue construction, and he may use foreign and used steel in his construction project, in addition to the quantity of steel specified in Table II of this regulation for the particular category of construction, provided that:

(1) He will not require delivery, for completion of the construction project, of a greater quantity of copper and aluminum controlled material, including material required for the manufacture of Class A products to be used in the construction project, than is specified in Table II of this regulation for the particular category of construction; and

(2) He will not require authorization to use or apply a DO rating for any items specified in section 23 (b) of this regulation; and he will not require authorization to use or apply a DO rating to procure delivery of building equipment or building materials (other than controlled materials), production equipment and production machinery in dollar amounts exceeding those specified in section 23 of this regulation.

(c) If construction is commenced or continued pursuant to paragraph (b) of this section, the owner shall comply with the self-authorization rules and procedures specified in Article IV of this regulation.

SEC. 27. *Hardship.* No action taken by any person, as a result of the permission to use foreign or used steel under section 26 of this regulation, shall be considered as creating a condition of hardship if any application is made under section 33 of this regulation for an adjustment or exception to any provision of this regulation, or of any other regulation or order of NPA.

ARTICLE VII—GENERAL PROVISIONS

SEC. 28. *Exemptions.* (a) The following categories of construction are not subject to the provisions of Articles II and IV of this regulation:

(1) Construction of facilities for the generation, transmission, and distribution of electric power by electric utilities, which is subject to NPA Order M–50.

(2) Construction of facilities for the production, processing, refining, and distribution of petroleum and gas, which is subject to NPA Order M–46B.

(3) Operating construction in connection with communication facilities, which is subject to NPA Order M–77.

(b) Insofar as the provisions of Direction 4 to Revised CMP Regulation No. 6 are inconsistent with this regulation, that direction will supersede this regulation with respect to the construction of water wells.

(c) Article IV of this regulation does not apply to the following categories of construction:

(1) Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission.

(2) Construction of multiunit residential structures.

(3) Recreational, entertainment, and amusement construction (see Table I of this regulation).

(d) Article VI of this regulation does not apply to recreational, entertainment, and amusement construction.

SEC. 29. *Prohibited deliveries.* No person shall accept an order for, or sell, deliver, or cause to be delivered, any material, equipment, or supplies which he knows, or has reason to believe, will be used in violation of the provisions of this regulation.

SEC. 30. *Scope of this regulation.* This regulation shall apply to construction in the 48 States, the District of Columbia, and in the territories and insular possessions of the United States. However, where construction is being performed by contract with the Department of Defense outside the confines of the area just described, and it is necessary to get materials from the United States or its territories to complete the project, DO ratings and allotments of controlled materials may be issued in accordance with the provisions of this regulation.

SEC. 31. *Communications.* All communications concerning this regulation shall be addressed to the claimant agency having jurisdiction over the particular category of construction, as specified in Table IV of this regulation.

SEC. 32. *Records and reports.* (a) Each person making or receiving any allotment of controlled materials shall maintain at his regular place of business accurate records of all allotments received, of procurement pursuant to all allotments, and of the subdivision of all allotments among his contractors and among persons producing Class A products for him. Such records shall be kept separately by allotment numbers, and shall include separate entries under each number of each person or claimant agency from whom allotments are received under such number, except as otherwise specifically provided in this regulation.

(b) Each person shall retain for at least 3 years at his regular place of business all documents on which he relies as entitling him to make or receive an allotment or to accept delivery of controlled materials or Class A products, segregated and available for inspection by representatives of NPA, or claimant agencies authorized by NPA, or filed in such manner that they can be readily segregated and made available for such inspection.

(c) The provisions of this regulation do not require any particular accounting method, provided the records maintained supply the information specified by this regulation and furnish an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(d) Persons subject to this regulation shall maintain such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942.

SEC. 33. *Applications for adjustment or exception.* (a) Any person subject to any provision of this regulation may file a request for adjustment, exception, or other relief upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests claiming that the public interest is prejudiced, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, submitted in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

(b) To apply for an adjustment or exception from section 3 of this regulation, both Form NPAF–24A and Form CMP–4C shall be filed. To apply for an adjustment or exception from section 24 of this regulation, Form NPAF–24A shall be filed.

(c) In determining whether an adjustment or exception should be granted under paragraph (b) of this section, the agency processing the application will consider whether the applicant has properly contained in his inventory, as provided for in CMP Regulation No. 2, controlled materials in a quantity sufficient to complete the proposed building, structure, or project.

(d) Each request for adjustment or exception shall be filed with the claimant agency having jurisdiction over the particular category of construction, as specified in Table IV of this regulation.

SEC. 34. *Violations.* (a) Any person who wilfully violates any provision of this regulation or any other order or regulation of the National Production Authority, or who wilfully conceals a material fact, or furnishes false information in the course of operation under this regulation, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of receiving further deliveries of products or materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

(b) The omission from this amended regulation of certain provisions formerly in NPA Order M–4A, CMP Regulation No. 6, Direction 1 to CMP Regulation No. 6, Revised CMP Regulation No. 6 as last amended by amendment 3 of August 4, 1952, or NPA Order M–100 as last amended August 4, 1952, does not affect any liabilities for violation of those orders, regulations, or directions, as amended from time to time, or for violation of any adjustments, exceptions, directions, directives, or other actions taken under them, nor deprive any person of any right received thereunder.

NOTE: All record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

This revised regulation as amended shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

TABLE I—RECREATIONAL, ENTERTAINMENT, AND AMUSEMENT CONSTRUCTION

All buildings, structures or projects to be used for, or in connection with, any recreational, amusement, or entertainment purpose, whether public or private, including, but not limited to:

Amphitheater.
Amusement arcade.
Amusement device built into place on the site, such as a roller coaster, merry-go-round, or similar device or kind. (This shall not include demountable or portable equipment.)
Amusement park.
Arena.
Assembly hall used primarily for recreation or amusement.
Athletic field house.
Band stand.
Bars and buildings or structures where the predominant business carried out therein or in connection therewith shall be the sale for consumption on the premises of alcoholic liquors.
Baseball park.
Bathhouse.
Billiard or pool parlor.
Bleachers and similar seating arrangements when they are built in place as a permanent part of the building, structure, or project.
Boardwalk used primarily for recreation or amusement.
Boat or canoe club.
Bowling alley establishment.
Cabana.
Camp (except for public or social welfare).
Carnival.
Club building except for social welfare purposes.
Country club.
Dance hall.
Dance studio.
Dude ranch used primarily for recreation or amusement.
Exposition or exhibition building or structure for recreational, amusement, or entertainment displays or purposes.
Flood lighting (including piers, poles, towers, framework, or foundation with fixed equipment) in connection with any recreational, amusement, or entertainment purpose.
Gambling establishment.
Golf course.
Golf club.
Golf driving range.
Grandstand.
Gymnasium.
Lodge hall.
Music shell.
Night club.
Pier used primarily for recreation or amusement.
Race track, any kind.
Riding academy.
Rodeo.
Shooting gallery.
Skating rink.
Ski lodge.
Slot-machine establishment.
Stadium.
Swimming pool.
Theater, any kind (including drive-in theater).
Yacht basin or marine railway primarily for the use of pleasure craft.

TABLE II—CATEGORIES OF CONSTRUCTION AND QUANTITIES OF CONTROLLED MATERIALS FOR WHICH PURCHASE ORDERS MAY BE SELF-AUTHORIZED

A. ONE- THROUGH FOUR-FAMILY RESIDENTIAL STRUCTURES

1. *Residential structure using steel pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	2,300
Carbon steel (structural shapes)	None
Alloy steel and stainless steel	None
Aluminum	275
Copper and copper-base alloys	200

2. *Residential structure using copper pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	1,950
Carbon steel (structural shapes)	None
Alloy steel and stainless steel	None
Aluminum	275
Copper and copper-base alloys	400

NOTES

If a forced hot water heating system is installed, the owner may use and self-authorize purchase orders for an additional 200 pounds of copper and copper-base alloys; and if a radiant heating system is installed, he may use and self-authorize purchase orders for an additional 500 pounds of copper and copper-base alloys.

For alterations, additions, or extensions, not more than 50 percent of the quantities specified above.

Part A of this table does not apply to residential construction by, or for the account of, the Department of Defense, or to construction of federally owned housing on

federally owned property under the control of the Atomic Energy Commission. No self-authorization is permitted for such construction.

B. MULTIUNIT RESIDENTIAL STRUCTURES

No self-authorization is permitted.

C. CONSTRUCTION OTHER THAN RESIDENTIAL CONSTRUCTION

1. *Construction of industrial plants, factories, or facilities:*

NOTE: These quantities are per project, per quarter.

25 tons of carbon steel and alloy steel, including all types of structural shapes (not to include more than 2½ tons of alloy steel and no stainless steel).
5,000 pounds of copper and copper-base alloys.
4,000 pounds of aluminum.

2. *Construction and maintenance of all rural and urban highways, etc., under the jurisdiction of the Bureau of Public Roads (see Table IV of this regulation):*

NOTE: These quantities are per project, and not per quarter.

25 tons of carbon steel (not to include more than 2 tons of all types of structural shapes).
No stainless steel or alloy steel.
500 pounds of copper and copper-base alloys.
500 pounds of aluminum.

3. *Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission; and recreational, entertainment, and amusement construction (see Table I of this regulation):*

No self-authorization is permitted.

4. *All other construction (see section 28 of this regulation for exemptions from this regulation):*

NOTE: These quantities are per project, per quarter.

5 tons of carbon steel (not to include more than 2 tons of structural shapes but no wide-flange beam sections or columns).
No stainless steel or alloy steel.
1,000 pounds of copper and copper-base alloys.
2,000 pounds of aluminum.

TABLE III—CONTROLLED MATERIALS

("Controlled material" means domestic and imported steel, copper, and aluminum, in the forms and shapes indicated in this schedule, whether new, remelted, rerolled, or redrawn, including used and second-quality materials, shearings, and material sorted or salvaged from scrap which are sold for other than remelting, rerolling, or redrawing purposes.)

CARBON STEEL (INCLUDING WROUGHT IRON) [1]

(a) Bar, bar shapes.
Includes:
Bar, hot-rolled projectile and shell quality.[2]
(a) Bar, bar shapes—Continued
Includes—Continued
Bar, hot-rolled, other (including light shapes).
Bar, reinforcing (straight lengths—as rolled).
Bar, cold-finished.
(b) Sheet, strip (uncoated and coated).
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Sheet, galvanized.
Sheet, all other coated.
Sheet, enameling.
Roofing, galvanized, corrugated, V-crimped channel drains.
Ridge roll, valley, and flashing.
Siding, corrugated and brick.
Strip, hot-rolled.
Strip, cold-rolled.
Strip, galvanized.
Electrical sheet and strip.
Tin mill black plate.
Tin plate, hot-dipped.
Ternes, special coated manufacturing.
Tin plate, electrolytic.
(c) Plate.[3]
(d) Structural shapes,[4] piling.
(e) Pipe, tubing.
Includes:
Standard pipe (including type of couplings furnished by mill).[5]
Oil country goods (casings, tubular goods, type of couplings furnished by mill).
Line pipe (including type of couplings furnished by mill).
Pressure tubing—seamless and welded.
Mechanical tubing—seamless and welded.
(f) Wire, wire products.
Includes:
Wire—drawn.
Nails—bright steel wire, steel cut, galvanized, cement-coated, and painted.
Spikes and brads—steel wire, galvanized, and cement-coated.
Staples, bright and galvanized (farm and poultry).
Wire rope and strand.
Welded wire mesh and woven wire netting.
(f) Wire, wire products—Continued
Includes—Continued
Barbed and twisted wire.
Wire fence, woven and welded (farm and poultry).
Bale ties.
Coiled automatic baler wire.
(g) Tool steel (including die blocks and tool steel forgings).
(h) Other mill forms and products (not including forgings except for wheels).
Includes:
Ingots.
Billets, shell quality for body stock only.[6]
Billets, shell quality for component parts.
Blooms, slabs, other billets, tube rounds, sheet bars.
Skelp.
Wire rod.
Rails.
Joint bars (track).
Tie plates (track).
Track spikes.
Wheels, rolled or forged (railroad).
Axles (railroad).
(i) Castings (not including cast iron).

ALLOY STEEL [7] (EXCEPT STAINLESS STEEL)

(a) Bar, bar shapes.
Includes:
Bar, hot-rolled projectile and shell quality.
Bar, hot-rolled, other (including light shapes).
Bar, cold-finished.
(b) Sheet, strip.
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Sheet, galvanized.
Strip, hot-rolled.
Strip, cold-rolled.
(c) Plate.[8]
Includes:
Rolled armor.
Other.
(d) Structural shapes.
(e) Pipe, tubing.
Includes:
Oil country goods.
Pressure tubing—seamless and welded.
Mechanical tubing—seamless and welded.
(f) Wire.
(g) Tool steel (including die blocks and tool steel forgings).

[1] For the purpose of this table "carbon steel (including wrought iron)" means any steel customarily so classified and also includes: (1) all grades of electrical sheet and strip; (2) low-alloy, high-strength steels; and (3) clad and coated carbon steels not included with alloy steels, e. g., galvanized, tin, terne, copper (excluding copper wire mill products) or aluminum clad and/or coated carbon steels. "Low-alloy, high-strength steels" means only the proprietary grades promoted and sold for this purpose.

[2] Includes projectile body stock, sizes under 3 inches and component parts, all sizes.

[3] Carbon plates not only include the following minimum size specifications, but also floor plates of any thickness:
0.180 inch or thicker, over 48 inches wide.
0.230 inch or thicker, over 6 inches wide.
7.53 pounds per square foot or heavier, over 48 inches wide.
9.62 pounds per square foot or heavier, over 6 inches wide.

[4] "Structural shapes" means those rolled flanged sections having at least one dimension of their cross section 3 inches or greater, commonly referred to as angles, channels, beams, and wide-flanged sections.

[5] Standard pipe includes the following:
Ammonia pipe.
Bedstead tubing.
Driven well pipe.
Drive pipe.
Dry kiln pipe.
Dry pipe for locomotives.
English gas and steam pipe.
Furniture pipe.
Ice machine pipe.
Mechanical service pipe.
Nipple pipe.
Pipe for piling.
Pipe for plating and enameling.
Pump pipe.
Signal pipe.
Standard pipe coupling stock.
Structural pipe.
Turbine pump pipe.
Water main pipe.
Water well casing.
Water well reamed and drifted pipe.

[6] Includes only projectile body stock, sizes 3 inches and larger, rounds, and round-cornered squares.

[7] For purposes of this schedule "alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheets and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium, cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. Clad steels which have an alloy steel base or carbon steel for which nickel and/or chromium is contained in the coating or cladding material (e. g., inconel, monel, or stainless) are alloy steels.

[8] Alloy steel plates include the following size specifications:
0.180 inch or thicker, over 48 inches wide.
0.230 inch or thicker, over 12 inches wide.
7.53 pounds per square foot or heavier, over 48 inches wide.
9.62 pounds per square foot or heavier, over 12 inches wide.

(h) Other mill forms and products (not including forgings except for wheels).
Includes:
Ingots.
Billets, projectile and shell quality.
Blooms, slabs, other billets, tube rounds, sheet bars.
Wire rods.
Rails.
Wheels, rolled or forged (railroad).
Axles (railroad).
(i) Castings.

STAINLESS STEEL [9]

(a) Seamless tubing.
(b) Other mill forms and products (not including forgings).
Includes:
Bar, bar shapes (including light shapes).
Includes:
Bar, hot-rolled (including light shapes).
Bar, cold-finished.
Sheet, strip.
Includes:
Sheet, hot-rolled.
Sheet, cold-rolled.
Strip, hot-rolled.
Strip, cold-rolled.
Plate.[10]
Structural shapes.
Tubing (except seamless).
Wire, drawn.
Ingots, blooms, billets, tube rounds, sheet bars, wire rods.
(c) Castings.[11]

COPPER AND COPPER-BASE ALLOY BRASS MILL PRODUCTS [12]

Copper (unalloyed):
(a) Bar, rod, shapes, wire (except electrical wire).
(b) Sheet, strip, plate, rolls.
(c) Pipe, tubing (seamless).
Copper-base alloy: [13]
(d) Bar, rod, wire, shapes.
(e) Sheet, strip, plate, rolls.
(f) Pipe, tubing (seamless).

COPPER WIRE MILL PRODUCTS

All copper wire and cable for electrical conduction including but not limited to:
Bare and tinned.
Weatherproof.
Magnet wire.
Insulated building wire.
Paper and lead power cable.
Paper and lead telephone cable.
Asbestos cable.
Portable and flexible cord and cable.
Communication wire and cable.
Shipboard cable.
All copper wire and cable for electrical conduction including but not limited to—Continued
Automotive and aircraft wire and cable.
Insulated power cable.
Signal and control cable.
Coaxial cable.
Copper-clad steel wire containing over 20 percent copper by weight regardless of end use.

COPPER AND COPPER-BASE ALLOY FOUNDRY PRODUCTS AND POWDER

Includes:
Copper, brass, and bronze castings.[14]
Copper, brass, and bronze powder.

ALUMINUM [15]

Rolled bar, rod, wire (including drawn wire), structural shapes.
Aluminum cable steel reinforced (ACSR) and bare aluminum cable.
Insulated or covered wire or cable.
Extruded bar, rod, shapes, tubing (including drawn or welded tubing).
Sheet, strip, plate.
Pig or ingot, granular or shot.

[9] "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements. However, stainless steel containing less than 1 percent nickel is not a controlled material.

[10] Stainless steel plates include the following size specifications: 3/16 inch (0.1875) or thicker, over 10 inches wide.

[11] "Stainless steel castings" means any steel casting which is heat-, corrosion-, or abrasion-resistant, containing 8 percent or more of chromium with or without nickel, molybdenum, or other alloying elements.

[12] Includes anodes—rolled or forged.

[13] "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U. S. Commercial Standard CS 67-38.

[14] Cast copper and copper-base alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding, or forging. (The process of casting includes the removal of gates, risers, and sprues, and sandblasting, tumbling, and dipping, but does not include any further machining or processing. For centrifugal castings the process includes the removal of the rough cut in the inner and/or outer diameter before delivery to a customer). Castings include anodes cast in a foundry or by an ingot maker.

[15] Aluminum foil and aluminum powder (atomized or flake, including paste) are neither Class A nor Class B products.

TABLE IV—JURISDICTION OF CLAIMANT AGENCIES

Category of construction*	Agency	Address where communications shall be filed
All school, museum, and library construction; hospital and health facility housing; college and educational institutional housing; all hospital and health facility construction other than the Veterans' Administration and military hospitals; all other health and sanitation programs, including refuse disposal systems and free-standing incinerators (but not water supply and sewer construction programs), and excluding such types of construction which are federally owned on federally owned property under the control of the Atomic Energy Commission, and such types of construction on military reservations; recreational, entertainment, and amusement construction projects which are required as part of an integrated educational program or an integrated hospital program.	Federal Security Agency	Schools, museums, and libraries: Office of Education, Federal Security Agency, Washington 25, D. C. Ref: Revised CMP Regulation No. 6. Hospitals and health projects: Public Health Service, Federal Security Agency, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
The hospital program of the Veterans' Administration, recreational, entertainment, and amusement construction projects which are required as part of an integrated hospital program.	Veterans' Administration	Assistant Administrator for Construction, Supply and Real Estate, Veterans' Administration, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Farm housing; facilities for production of food including on-farm and off-farm construction; wholesale food distribution and handling; canning, freezing, or otherwise processing or preparing food for marketing and distribution; tobacco auction warehouses; public cold storage food lockers and storage facilities owned or operated in whole or in major part as an integral part of such handling, processing, and wholesaling. (With respect to food having industrial uses, facilities for the specified purposes are included only to the point where responsibility for such food ceases to be exercised by Production and Marketing Administration under the agreement between Production and Marketing Administration and NPA (16 F. R. 3410), as from time to time amended.)	Department of Agriculture	State offices, Production and Marketing Administration, Department of Agriculture. Ref: Revised CMP Regulation No. 6. Re on-farm construction, County offices, Production and Marketing Administration, Department of Agriculture. Ref: Revised CMP Regulation No. 6.
Facilities for departmental programs of the Department of the Interior; facilities for the production, preparation, and processing of solid fuels; facilities for the production and processing of fishery products (including construction of residential structures if such structures are required as an integral part of a program or project).	Department of the Interior	Department of the Interior, Washington 25, D. C. Ref: Revised CMP Regulation No. 6. Defense Solid Fuels Administration, Department of the Interior, Washington 25, D. C. Ref: Revised CMP Regulation No. 6. Defense Fisheries Administration, Department of the Interior Washington 25, D. C. Ref: Revised CMP Regulation No. 6

*If a water well, office building, or other facility is an integral part of a facility, jurisdiction of which is herein delegated to a specific claimant agency, jurisdiction over the water well, office building, or other facility shall be with the claimant agency having jurisdiction over the facility of which it is an integral part. (For example, communications about a water well to be constructed on a farm or to serve a farmstead shall be filed with the Department of Agriculture; communications about an administration building to be used exclusively by an industrial enterprise, and which is to be located on the factory or industrial site, shall be filed with the claimant agency having jurisdiction over such industrial construction.) However, the fact that jurisdiction over such water well, office building, or other facility is as herein described does not change the classification of the water well, office building, or other facility being constructed; and in determining the right to self-authorize orders for such construction, the definition in section 2 (m) of Revised CMP Regulation No. 6 shall be controlling.

The jurisdiction over residential construction of the claimant agencies specified in this table does not include jurisdiction over any commercial or other facilities intended, or which might be construed, as supplemental to residential construction. (For example, jurisdiction over a shopping center proposed to service a residential development is with the National Production Authority, and not with the claimant agencies for housing named in this table.)

TABLE IV—JURISDICTION OF CLAIMANT AGENCIES—Continued

Category of construction*	Agency	Address where communications shall be filed
Facilities for the production, processing, refining, and distribution of petroleum and gas; and facilities for the production, processing, and distribution of the products listed in Appendix A of NPA Delegation No. 9 (but not filling stations), including construction of residential structures if such structures are required as an integral part of a program or project.	Department of the Interior	Petroleum Administration for Defense, Department of the Interior, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Bureau of Public Roads programs for highway construction and maintenance of all rural and urban highways, streets, highway equipment, repair shops, bridges, tunnels, toll road facilities, and appurtenant installations, publicly owned parking facilities incident to a highway or street, regardless of financing, but not garages, filling stations, restaurants, or other commercial facilities; air navigation facilities; civil airports; shipyards.	Department of Commerce	Bureau of Public Roads, District Engineer, field offices (through State Highway Department). Ref: Revised CMP Regulation No. 6. Civil Aeronautics Administration, Attention: W-30, Washington 25, D. C. Ref: Revised CMP Regulation No. 6. Maritime Administration, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Facilities for domestic transportation, storage, and port facilities, as defined in E. O. 10161, as amended.	Defense Transport Administration	Defense Transport Administration, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
All construction by, or for the account of the Atomic Energy Commission; industrial construction sponsored by the Atomic Energy Commission; federally owned housing on federally owned property under the control of the Atomic Energy Commission.	Atomic Energy Commission	Appropriate operations offices of the Atomic Energy Commission. Ref: Revised CMP Regulation No. 6.
Construction by or for the account of the Department of Defense, Navy construction, Army construction, Air Force construction, including but not limited to projects of an industrial nature financed by the military departments; housing on military reservations, and all military housing under Public Law 211, 81st Congress (Wherry Act), whether on or off military bases and reservations; military command construction; and construction for the National Advisory Committee for Aeronautics.	Department of Defense	Department of the Navy, Bureau of Yards and Docks, B-620, Washington 25, D. C. Army, Air Force, and Associated Agencies of the Department of Defense: Local representative of the military department or associated agency concerned, see Department of Defense Instruction Sheet CMP-4C-3.
Federal buildings and facilities, except as otherwise specifically designated on this table, including buildings and facilities constructed by private interests and capital, where a predominant portion of the premises is designed and intended to be used under lease for extended periods by Federal Government agencies.	General Services Administration	Controlled Materials Division, General Services Administration, Room G-125, GSA Building, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Civil works Corps of Engineers projects; the Panama Canal Company; Domiciliary Building, Old Soldiers' Home (except projects having electric power generating facilities not specifically exempted by the Administrator of the Defense Electric Power Administration).	Department of the Army	Department of the Army, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
All public and private housing not specifically covered above in this table, including housing under Public Law 211, 81st Congress (Wherry Act) for the Atomic Energy Commission.	Housing and Home Finance Agency	Public multiunit housing: Public Housing Administration field offices. Ref: Revised CMP Regulation No. 6. Private multiunit housing: Federal Housing Administration field offices; 1- through 4-family housing: Defense Liaison Staff, Office of the Administrator, HHFA, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Facilities for the production and processing of metals and minerals (except solid fuels, oil, and gas), including construction of residential structures if such structures are required as an integral part of a program or project.	Defense Materials Procurement Administration	Defense Materials Procurement Administration, Mining Requirements Division, GSA Building, Washington 25 D. C. Ref: Revised CMP Regulation No. 6.
Buildings, structures, or projects which are to be used exclusively for civil defense purposes, except such structures which are federally owned on Federal property under the control of the Atomic Energy Commission.	Federal Civil Defense Administration	Federal Civil Defense Administration, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Operating construction in connection with communications facilities, but not including air navigation facilities.	National Production Authority. See NPA Order M-77.	Communications Equipment Division, National Production Authority, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Facilities for ground and surface water supply, transmission, pumping, treatment, storage, and distribution for domestic and industrial use; storm water control and drainage of flooded areas (including storm sewers); collection, treatment, and disposal of domestic and industrial liquid wastes; sewage collection, transmission, pumping, treatment, and disposal; water wells not within the area of responsibility specified in this table, or the notes thereto, for any other claimant agency. (Excluded are the works and their operations for navigation, reclamation projects, hydroelectric generation of power, irrigation, recreation, and fish and wild life. Also excluded are those facilities for storm water control and drainage of flooded areas (including storm sewers) the responsibility for which is delegated in this table, or the notes thereto, to a claimant agency other than the NPA Water Resources Division, e.g., flood control projects of the Department of the Army or the Department of the Interior.)	National Production Authority. See Dir. 4 to Revised CMP Regulation No. 6 re water wells.	Water Resources Division, National Production Authority, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
Industrial construction not listed above in this table	National Production Authority	Industrial Expansion Division, National Production Authority, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.
All other construction not specifically listed above in this table (including all categories of recreational, entertainment, and amusement construction projects, other than those specified in this table for the Federal Security Agency and the Veterans' Administration, or such projects where constructed by or for the account of the Department of Defense or the Atomic Energy Commission).	National Production Authority	Construction Controls Division, National Production Authority, Washington 25, D. C. Ref: Revised CMP Regulation No. 6.

TABLE V—ITEMS OF METALWORKING MACHINES

Ammunition machinery.
Beading machines.
Boring machines.
Brakes.
Broaching machines.
Buffing machines.
Centering machines.
Chamfering machines.
Cut-off machines.
Die-sinking machines.
Drilling machines.
Duplicating machines.
Extruding machines.
Filing machines.
Forging machines.
Forging rolls.
Gear-cutting machines.
Gear-finishing machines.
Grinding machines.
Hammers.
Headers.
Key-seating machines.
Lapping machines.
Lathes.
Levelers.
Marking machines.
Measuring and testing machines, except physical property test equipment.
Milling machines.
Nibbling machines.
Oil-grooving machines.
Pipe flanging-expanding machines.
Planers.
Polishing and buffing machines.
Presses.
Profiling machines.
Punching machines.
Reaming machines.
Rifle and gun working machines.
Riveting machines.
Rolling machines.
Sawing machines.
Screw and bar machines.
Shapers.
Swagers.
Tapping machines.
Threading machines.
Upsetters.
Shearing machines.
Slotters.

[Revised CMP Regulation No. 6, Direction 2 as amended Oct. 3, 1952]

REVISED CMP REG. 6—CONSTRUCTION

DIR. 2—MATERIALS FOR RECONSTRUCTION OR REPAIR OF DISASTER DAMAGE

This amended direction under Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

Direction 2, as last amended April 17, 1952, under Revised CMP Regulation No. 6, is further amended by revising the statement in section 3 of quantities of controlled materials for which purchase orders bearing the allotment number "X-4" may be self-authorized. As so amended, Direction 2 under Revised CMP Regulation No. 6 reads as follows:

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definitions.
3. Use of allotment number and rating.
4. Certification.
5. Reports.
6. Filing applications.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction authorizes any owner of a building, structure, or project, located in any area which has been or is hereafter designated by the President under Pub. Law 875, 81st Cong., as a major disaster area, to obtain material for the reconstruction or repair of damage caused by any such disaster to any building, structure, or project. It permits the limited placing of authorized controlled material orders and DO rated orders for such purposes, notwithstanding certain restrictions established by CMP Regulation No. 5, Revised CMP Regulation No. 6, and other NPA regulations and orders. It does not apply to repair or replacement of equipment or supplies, since such repair or replacement is covered by Direction 2 to CMP Regulation No. 5.

SEC. 2. *Definitions.* As used in this direction:

(a) "Reconstruction" means restoring to substantially the same size and condition, on the same site, any building, structure, or project which has been damaged by storm, fire, flood, or other disaster, or by act of God.

(b) "Repair" means such work as is necessary to rehabilitate a building, structure, or project, or any portion thereof, when the same has been rendered unsafe or unfit for service by storm, fire, flood, or other disaster, or by act of God.

(c) "Project" has the meaning specified in section 2 of Revised CMP Regulation No. 6.

(d) "Owner" means the person who owns the building, structure, or project being constructed, or who will own it upon its completion. If a claimant agency will have title to a completed project, then the person under a direct contract with that claimant agency covering construction of that particular project shall also be considered the owner for the purposes of this direction.

SEC. 3. *Use of allotment number and rating.* (a) Any owner of a building, structure, or project, located in any area which, as the result of a disaster has been or is hereafter designated by the President under Pub. Law 875, 81st Cong., as a major disaster area, may use the allotment number X4 on delivery orders for controlled materials including materials for Class A products, and the rating DO-X4 on delivery orders for building equipment, building materials other than controlled materials, production machinery, and production equipment required as a result of damage caused by such disaster, in order to reconstruct or repair any building, structure, or project destroyed in whole or in part through such a disaster. However, such allotment number shall not be used to procure more than the following quantities of controlled materials (including materials for Class A products):

Multiunit residential structures	Carbon steel, 25 tons. Copper and copper-base alloys, 4,000 pounds. Aluminum, 4,000 pounds. No stainless steel or alloy steel.
1- through 4-family residential structures.	No more than the quantities and types of controlled materials specified in Table II of Revised CMP Regulation No. 6 for the appropriate category of construction.
All other buildings, structures, or projects.	Carbon steel, 25 tons. Copper and copper-base alloys, 4,000 pounds. Aluminum, 4,000 pounds. No stainless steel or alloy steel.

Further, no person shall use the rating DO-X4 except as permitted by section 9 of Revised CMP Regulation No. 6.

(b) Such allotment number or DO rating may be used only on purchase orders placed within 180 days after the occurrence of the damage necessitating the reconstruction or repair.

(c) A purchase order bearing the allotment number X4 and certified as provided in section 4 of this direction shall constitute an authorized controlled material order for the purpose of all NPA regulations and orders. A delivery order bearing the rating DO-X4 and certified as provided in section 4 of this direction shall constitute a rated order with an allotment number for the purpose of all NPA regulations and orders.

(d) Any person who obtains materials or products pursuant to this direction may do so in addition to any materials or products obtained pursuant to CMP Regulation No. 5, and Revised CMP Regulation No. 6, and the directions thereunder.

(e) Except as provided in paragraph (d) of this section, any person who is entitled under any other NPA order (such as, but not limited to: M-46, M-46B, M-50, M-70, M-73, M-77, and M-78) to obtain materials and products for MRO or construction, shall obtain such materials and products under the provisions of such order or by applying to the appropriate claimant agency or to NPA, as the case may be, and shall not use the allotment number X4 or the rating DO-X4.

(f) Any product or material obtained with the use of the allotment number X4 or the rating DO-X4 may be used only for the purposes and subject to the conditions specified in this direction.

SEC. 4. *Certification.* Every purchase order bearing the allotment number X4 or the rating DO-X4 must contain a certification in the following form:

Certified under Direction 2 to Revised CMP Regulation No. 6

Such certification shall be signed as provided in section 12 of Revised CMP Regulation No. 6. Further, the provisions of paragraphs (f) and (g) of section 12 of Revised CMP Regulation No. 6 shall apply to all persons who certify purchase orders under this section.

SEC. 5. *Reports.* Any person who uses the allotment number X4 or the rating DO-X4 to place purchase orders for materials or products in any one calendar month exceeding a total cost of $1,000 to him, must inform NPA by letter of such purchase orders, specifying separately the total cost of controlled materials ordered and the total cost of products and materials other than controlled materials ordered. In addition, reports on purchase orders for controlled materials, including materials for Class A products, shall show quantities of (a) carbon steel (including wrought iron), (b) alloy steel (except stainless steel), (c) stainless steel, (d) copper and copper-base alloy brass mill products, (e) copper wire mill products, (f) copper and copper-base alloy foundry products and powder, and (g) aluminum, in each case without further breakdown. Reports on all purchase orders placed within any one calendar month must be mailed within 10 days after the end of that month. All such letters, as well as other communications concerning this direction, shall be addressed to the National Production Authority, Washington 25, D. C., Ref: Dir. 2 to Revised CMP Regulation No. 6.

SEC. 6. *Filing applications.* If any person requires controlled materials for reconstruction or repair in quantities greater than permitted herein, he shall apply on Form CMP-4C and file his application with the appropriate claimant agency at the address indicated in Table IV of Revised CMP Regulation No. 6.

NOTE: All record-keeping and reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

This direction as amended shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-10861; Filed, Oct. 3, 1952; 10:42 a. m.]

[Revised CMP Regulation No. 6, Direction 5 as amended October 3, 1952]

REVISED CMP REG. 6—CONSTRUCTION

DIR. 5—PROCEDURE FOR USE OF RATINGS IN ACQUISITION OF METALWORKING MACHINES

This amended direction to Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense, and is issued pursuant to authority granted by the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

Direction 5 to Revised CMP Regulation No. 6 is hereby amended to effect certain additions, deletions, and other changes in sections 2, 4, 5, and 6. As amended, Direction 5 to Revised CMP Regulation No. 6 reads as follows:

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definition.
3. Use of DO–U4 ratings restricted.
4. Applications for ratings for metalworking machines.
5. Revalidation of DO–U4 rating where allotments of controlled materials have been made.
6. Revalidation of DO–U4 ratings where no allotment of controlled materials was made.
7. No increase in rating authority.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction modifies the authority granted in Revised CMP Regulation No. 6 for the use of ratings to acquire production machinery and production equipment insofar as it relates to the use of ratings for the acquisition of metalworking machines by persons who have received or have applied for authorized construction schedules from the NPA Industrial Expansion Division.

SEC. 2. *Definition.* "Metalworking machine" as used in this direction means any item of plant equipment as listed on Table V of Revised CMP Regulation No. 6 as the same may be amended from time to time.

SEC. 3. *Use of DO–U4 ratings restricted.* Notwithstanding the provisions of Revised CMP Regulation No. 6, on and after March 6, 1952, no person shall apply a DO–U4 rating to a delivery order for a metalworking machine. No DO–U4 rating which has been applied to a purchase order for a metalworking machine prior to March 6, 1952, shall be valid for the delivery of such metalworking machine on or after April 15, 1952, unless the same has been revalidated and converted into a Z3 rating as hereinafter provided.

SEC. 4. *Applications for ratings for metalworking machines.* On and after March 6, 1952, a person who applies to the NPA Industrial Expansion Division for an authorized construction schedule and a related allotment on Form CMP–4C, and who requires a DO rating for a metalworking machine necessary in connection with the operation of the project permitted by such authorized construction schedule, shall file with his original CMP–4C application an application for such a rating on Form NPAF–138 (Revised). If the application for a rating for a metalworking machine is granted by the NPA Industrial Expansion Division, the rating symbol Z3 shall be assigned.

SEC. 5. *Revalidation of DO–U4 rating where allotments of controlled materials have been made.* A person who, on or before March 6, 1952, has received an authorized construction schedule and a related allotment of controlled materials, and who has applied or has been authorized to apply a DO–U4 rating in connection therewith on a purchase order for a metalworking machine, may convert the DO–U4 rating into a DO–Z3 rating by furnishing to the supplier the following certification, clearly identifying such certification with the purchase order to which it applies:

The undersigned certifies that he is entitled, pursuant to Revised CMP Regulation No. 6, to convert the rating DO–U4 to DO–Z3 for the metalworking machines covered by the purchase order herein identified.

Such certification shall be signed as provided in section 12 of Revised CMP Regulation No. 6. A purchase order covered by the above certification shall be deemed a valid rated order with rating symbol Z3, and shall retain the position on the order board of the supplier of the metalworking machine which it occupied pursuant to the original application of the DO–U4 rating.

SEC. 6. *Revalidation of DO–U4 rating where no allotment of controlled materials was made.* A person who, on or before March 6, 1952, has received an authorized construction schedule but who in connection therewith did not receive a related allotment of controlled materials, and who has applied or has been authorized to apply a DO–U4 rating in connection therewith on a purchase order for a metalworking machine, must apply to the NPA Industrial Expansion Division, if he desires to revalidate any such rating. Such application shall be made by filing with NPA Form NPAF–138 (Revised), identifying such application with the related Form CMP–4C. If NPA grants such application, such person shall certify to the supplier in the form set forth in section 5 of this direction. A purchase order covered by such certification shall be deemed a valid rated order with rating symbol Z3, and shall retain the position on the order board of the supplier of the metalworking machine which it occupied pursuant to the original application of the DO–U4 rating.

SEC. 7. *No increase in rating authority.* The provisions of this direction providing for the use of DO–Z3 ratings shall not be construed to authorize an increase in the dollar amount of rating authority for production equipment and machinery granted in connection with an authorized construction schedule.

This amended direction shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-10862; Filed, Oct. 3, 1952; 10:42 a. m.]

[Revised CMP Regulation No. 6, Direction 8 of October 3, 1952]

REVISED CMP REG. 6—CONSTRUCTION

DIR. 8—REVISIONS OF RESTRICTIONS ON ACQUISITION AND USE OF MATERIALS AND PRODUCTS, EFFECTIVE MAY 1, 1953

This direction under Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. "Small construction projects".
3. Recreational, entertainment, and amusement construction projects.
4. Construction of multiunit residential structures.
5. Dollar limitation on DO-rated orders.
6. Self-authorization quantities of controlled materials.
7. Placing of purchase orders.
8. Effect of this direction.
Appendix A—Categories of construction and quantities of controlled materials for which purchase orders may be self-authorized.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* It has been determined that substantial revision and liberalization of the rules relating to construction of recreational, entertainment, and amusement construction projects, to construction of multiunit residential structures, and to self-authorization of purchase orders for materials and products to be used in construction may be permitted. This direction is issued, therefore, to enable persons to go forward with the planning necessarily preliminary to the commencement of construction (as defined in Revised CMP Regulation No. 6) and to place orders for delivery after May 1, 1953, so that actual construction work can proceed in the second quarter of 1953, and the quarters subsequent thereto, with the minimum possible delay. The revisions consist of the following:

(a) Provision for the right to self-authorize purchase orders up to the quantities specified in this direction, in connection with recreational, entertainment, and amusement construction projects (see sections 3, 5, and 6, and Appendix A of this direction).

(b) Provision that foreign and used steel may be used in recreational, entertainment, and amusement construction projects in the same manner as in all other construction (see section 4 of this direction).

(c) Provision for the right to self-authorize purchase orders up to the quantities specified in this direction, in connection with construction of multiunit residential structures (see sections 4, 5, and 6, and Appendix A of this direction).

(d) Elimination of the distinction made in section 2 and Table II of Revised CMP Regulation No. 6 between "industrial construction" and the category "all other construction"; and reclassification of construction projects into the following categories: (1) Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission; (2) residential construction; (3) highway construction; (4) recreational, entertainment, and amusement construction; and (5) "all other construction." This new category "all other construction," referred to in the preceding sentence, includes both industrial and commercial construction, and the construction of schools and hospitals, public utility systems, water and sewage projects, transportation facilities, and public buildings and facilities (other than highway construction) (see sections 5 and 6, and Appendix A of this direction).

(e) Restatement of the quantities of materials and products for which purchase orders may be self-authorized, and elimination of the restriction on self-authorization of purchase orders for carbon steel wide-flange beam sections or columns (see sections 5 and 6, and Appendix A of this direction).

SEC. 2. *"Small construction project".* A project shall be considered a "small construction project" for the purposes of this direction if, after April 30, 1953, the owner will be able to complete the project: (a) Without requiring delivery of more controlled materials than the appropriate quantities specified in Appendix A of this direction for the particular category of construction; and (b) without requiring authorization to use a DO rating to procure delivery of building equipment and building materials (other than controlled materials), production equipment and production machinery, in dollar amounts exceeding those specified in section 4 of this direction; and (c) without requiring authorization to use a DO rating to procure any item described in section 23 (b) of Revised CMP Regulation No. 6.

SEC. 3. *Recreational, entertainment, and amusement construction projects.* (a) Effective May 1, 1953, the rules with respect to the commencement or continuance of recreational, entertainment, and amusement construction projects shall be the rules with respect to the right to commence or continue construction set forth in paragraphs (a), (d), and (e) of section 4 of Revised CMP Regulation No. 6. Further, effective May 1, 1953, the self-authorization procedures described in Article IV of Revised CMP Regulation No. 6 shall be applicable to, and the term "small construction project" shall include, construction of recreational, entertainment, and amusement construction projects.

(b) Effective May 1, 1953, the provisions of Article VI of Revised CMP Regulation No. 6 (Use of foreign and used steel) shall be applicable to recreational, entertainment, and amusement construction projects.

SEC. 4. *Construction of multiunit residential structures.* Effective May 1, 1953, the rules with respect to the commencement or continuance of multiunit residential structures shall be the rules with respect to the right to commence or continue construction set forth in paragraphs (a), (d), and (e) of section 4 of Revised CMP Regulation No. 6. Further, effective May 1, 1953, the self-authorization procedures described in Article IV of Revised CMP Regulation No. 6 shall be applicable to, and the term "small construction project" shall include, construction of multiunit residential structures.

SEC. 5. *Dollar limitation on DO-rated orders.* (a) Effective May 1, 1953, the following limitation shall be applicable to the placing of DO-rated purchase orders with respect to any "small construction project" where construction is or was commenced after March 5, 1952: A DO rating authorized pursuant to Article IV of Revised CMP Regulation No. 6 may not be used for any entire single construction project in dollar amounts in excess of the following:

Category of construction	Building equipment and building materials (other than controlled materials)	Production equipment and production machinery
Recreational, entertainment, and amusement construction projects	$15,000	$5,000
Residential construction projects other than multiunit residential structures	No dollar limit	None
All other "small construction projects"	100,000	200,000

(b) The provisions of paragraphs (a) and (b) of section 23 of Revised CMP Regulation No. 6 shall continue to be applicable to all construction projects covered by Article IV of Revised CMP Regulation No. 6 (see section 28 of Revised CMP Regulation No. 6 for exemptions).

SEC. 6. *Self-authorization quantities of controlled materials.* Effective May 1, 1953, the quantities of controlled materials for which the owner of a "small construction project" may self-authorize purchase orders, in connection with construction projects covered by Revised CMP Regulation No. 6, shall be the quantities specified in Appendix A of this direction.

SEC. 7. *Placing of purchase orders.* An owner of a "small construction project" may place his purchase orders, in accordance with the provisions of Article IV of Revised CMP Regulation No. 6, up to the amounts specified in section 5 and Appendix A of this direction at any time: *Provided, however,* That such orders shall not call for delivery, prior to May 1, 1953, of materials or products in excess of the quantities specified in section 23 and Table II of Revised CMP Regulation No. 6.

SEC. 8. *Effect of this direction.* To the extent that the provisions of this direction are inconsistent therewith, this direction supersedes the provisions of Revised CMP Regulation No. 6.

This direction shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

APPENDIX A TO DIRECTION 8 UNDER REVISED CMP REGULATION NO. 6

CATEGORIES OF CONSTRUCTION AND QUANTITIES OF CONTROLLED MATERIALS FOR WHICH PURCHASE ORDERS MAY BE SELF-AUTHORIZED [1]

A. RESIDENTIAL CONSTRUCTION [2]

1. *One- through four-family residential structures:*

(i) *Residential structure using steel pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	2,300
Carbon steel (structural shapes)	1,500
Stainless steel and alloy steel	None
Aluminum	275
Copper and copper-base alloys	200

(ii) *Residential structure using copper pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	1,950
Carbon steel (structural shapes)	1,500
Stainless steel and alloy steel	None
Aluminum	275
Copper and copper-base alloys	400

NOTES: If a forced hot water heating system is installed, the owner may use and self-authorize purchase orders for an additional 200 pounds of copper and copper-base alloys; and if a radiant heating system is installed, he may use and self-authorize purchase orders for an additional 500 pounds of copper and copper-base alloys.

[1] Note that an owner of a "small construction project" may self-authorize his purchase orders, in accordance with section 22 of Revised CMP Regulation No. 6, up to the amounts specified in this appendix at any time: *Provided, however,* That such orders shall not call for delivery, prior to May 1, 1953, of controlled materials in excess of the quantities specified in Table II of Revised CMP Regulation No. 6.

[2] Part A of this appendix does not apply to residential construction by, or for the account of, the Department of Defense, or to construction of federally owned housing on federally owned property under the control of the Atomic Energy Commission. No self-authorization is permitted for such construction.

For alterations, additions, or extensions, not more than 50 percent of the quantities specified above.

2. *Multiunit residential structures:*

(i) *Walk-up structures, per dwelling unit:*
- 2 tons of carbon steel (not to include more than 500 pounds of all types of structural shapes).
- 200 pounds of copper and copper-base alloys.
- 275 pounds of aluminum.
- No stainless steel or alloy steel.

(ii) *Elevator structures, per dwelling unit:*
- 3 tons of carbon steel (not to include more than 600 pounds of all types of structural shapes).
- 225 pounds of copper and copper-base alloys.
- 275 pounds of aluminum.
- No stainless steel or alloy steel.

B. CONSTRUCTION OTHER THAN RESIDENTIAL CONSTRUCTION

1. *Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission.*

No self-authorization is permitted.

2. *Construction and maintenance of all rural and urban highways, etc., under the jurisdiction of the Bureau of Public Roads (see Table IV of Revised CMP Regulation No. 6):*

NOTE: These quantities are per project, and not per quarter.

- 25 tons of carbon steel (not to include more than 12 tons of all types of structural shapes).
- 500 pounds of copper and copper-base alloys.
- 500 pounds of aluminum.
- No stainless steel or alloy steel.

3. *Recreational, entertainment, and amusement construction (see Table I of Revised CMP Regulation No. 6):*

NOTE: These quantities are per project, per quarter.

- 5 tons of carbon steel (not to include more than 2 tons of all types of structural shapes).
- 500 pounds of copper and copper-base alloys.
- 300 pounds of aluminum.
- No stainless steel or alloy steel.

4. *All other construction (see section 28 of Revised CMP Regulation No. 6 for exemptions):*

NOTE: These quantities are per project, per quarter.

- 25 tons of carbon steel and alloy steel, including all types of structural shapes (not to include more than 2½ tons of alloy steel and no stainless steel)[3].
- 5,000 pounds of copper and copper-base alloys.
- 4,000 pounds of aluminum.

[F. R. Doc. 52-10863; Filed, Oct. 3, 1952; 10:42 a. m.]

[Direction 1 to NPA Order M-80 and to Schedules 1, 2, 3, 4, and 5]

M-80—IRON AND STEEL—ALLOYING MATERIALS AND ALLOY PRODUCTS

DIR. 1—MODIFICATION OF FILING REQUIREMENTS FOR ALLOCATION APPLICATIONS

This direction to NPA Order M-80 and to Schedules 1, 2, 3, 4, and 5 of that order is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Sec.
1. Purpose of this direction.
2. Applications for allocations.
3. Effect on other provisions of M-80.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Purpose of this direction.* In order to alleviate the administrative burden involved in the reviewing of applications for allocations of restricted alloying materials and the issuing of authorizations on a monthly basis, NPA has made allocations to melters and processors on a quarterly basis for the fourth quarter of 1952. This direction will continue this method of allocation by requiring melters and processors to file Form NPAF-114 on a quarterly basis, rather than on a monthly basis.

SEC. 2 *Applications for allocations.* Each melter or processor who requires delivery of and authorization to use any restricted alloying material during the first calendar quarter of 1953 shall file an application on Form NPAF-114 with NPA on or before the seventh day of December 1952. Thereafter, such applications may be made on or before the seventh day of the month next preceding the commencement of any subsequent calendar quarter. A separate application shall be submitted covering the applicant's total purchase and use requirements for each restricted alloying material for the calendar quarter for which the Form NPAF-114 is filed. Notwithstanding sections 4 and 7 of NPA Order M-80 and section 3 of Schedules 1 through 5 to that order, applications for allocation authorizations of restricted alloying materials shall no longer be filed monthly, but shall be filed quarterly as provided for in the first sentence of this section.

SEC. 3. *Effect on other provisions of M-80.* This direction shall not be deemed to alter any reporting requirement of NPA Order M-80 other than the filing of Form NPAF-114 on a quarterly basis rather than on a monthly basis as set out in section 2 of this direction. All other reporting requirements provided for by the order remain in full force and effect.

This direction shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-10864; Filed, Oct. 3, 1952; 10:43 a. m.]

[NPA Order M-80, Schedule 2, as Amended October 3, 1952]

M-80—IRON AND STEEL—ALLOYING MATERIALS AND ALLOY PRODUCTS

SCHEDULE 2—COBALT

This schedule, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended schedule, there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations. This amended schedule is issued under NPA Order M-80 and is made a part of that order.

EXPLANATORY

This schedule, as hereby amended, affects Schedule 2 to NPA Order M-80 as amended May 7, 1952, by deleting paragraph (b) of section 5 in order to permit the use of cobalt in manufacturing and coloring enameled metal signs.

As so amended, Schedule 2 to NPA Order M-80 reads as follows:

REGULATORY PROVISIONS

Sec.
1. Definitions.
2. Cobalt subject to allocation.
3. Applications for allocations.
4. Exceptions to allocation requirements.
5. Uses prohibited.
6. Communications.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Definitions.* All definitions contained in NPA Order M-80 are applicable to this schedule. "Cobalt" means and includes cobalt metal, cobalt fines, cobalt oxide, cobalt powder, and all other cobalt compounds produced from ores, metals, concentrates, and/or refinery residues, as well as scrap containing more than 5 percent cobalt, which are used as sources of cobalt in commercial manufacture and processing.

SEC. 2. *Cobalt subject to allocation.* Cobalt is subject to complete allocation.

SEC. 3. *Applications for allocations.* Section 10 of NPA Order M-80 forbids deliveries or use of any alloying material made subject to complete allocation, except in accordance with an allocation authorization. Persons desiring to apply for an allocation authorization shall make application on Form NPAF-114 on or before the seventh day of any month for delivery in the succeeding month.

SEC. 4. *Exceptions to allocation requirements.* The provisions of sections 2 and 3 of this schedule shall not apply to:

(a) Delivery to and use by any person whose total receipts from all sources during any calendar month are not thereby made to exceed 25 pounds of contained cobalt, and who delivers a signed certificate to his supplier as follows:

The undersigned, subject to statutory penalties, certifies that acceptance of delivery and use by the undersigned of the cobalt herein ordered will not be in violation of NPA Order M-80 or of Schedule 2 of that order.

This certification constitutes a representation by the purchaser to the seller and to NPA that delivery of such cobalt ordered may be accepted by the purchaser under NPA Order M-80 and this schedule, and that such cobalt will not be used by the purchaser in violation of that order or this schedule.

(b) Delivery and use of cobalt-bearing scrap or cobalt ores and concentrates: *Provided*, That the use of such scrap, ores, and concentrates shall be subject to the provisions of section 5 of this schedule.

SEC. 5. *Uses prohibited.* No person shall use cobalt or its derivatives for:

(a) Coloring glazes, glass batches, or porcelain enamels, or for the manufacture of ceramic body stains, porcelain enamel color oxides including blacks, glaze stains, glass batch colors, or paint or plastic pigments (except where used for optical or signal glass, decolorizers for glass and white ware, artists' colors, and color stabilizers in white pigment manufacture).

(b) Fertilizers of any type.

(c) Manufactured feeds for poultry, dogs, and cats.

(d) Magnets used in the following:

(1) Appliances, toys, games, musical instruments, model electric trains, and novelties.

(2) Coin rejecters for juke boxes, pinball games, or gambling devices.

(e) Magnet steels containing more than 20 percent cobalt (except where required by rated orders bearing a program identification consisting of the letter A, B, C, or E, and one digit, or the program identification Z-2).

(f) Cast magnets containing more than 30 percent cobalt (except where required by rated orders bearing a program identification consisting of the letter A, B, C, or E, and one digit, or the program identification Z-2).

(g) Paint driers for use in exterior house paints.

SEC. 6. *Communications.* All communications concerning this schedule shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-80, Schedule 2.

This schedule, as amended, shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[NPA Order M-100, Revocation]

M-100—RESIDENTIAL CONSTRUCTION

REVOCATION

NPA Order M-100, as last amended by amendment 2 of August 4, 1952 (17 F. R. 7118), is hereby revoked. This revocation does not relieve any person of any obligation or liability incurred under NPA Order M-100, as originally issued or as thereafter amended, nor deprive any person of any rights received or accrued under said order prior to the effective date of this revocation.

Residential construction is now subject to the provisions of Revised CMP Regulation No. 6.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation shall take effect October 3, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-10866; Filed, Oct. 3, 1952; 10:43 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 12—AMATEUR RADIO SERVICE

WAIVER WITH RESPECT TO APPLICATIONS FOR RENEWAL OF AMATEUR OPERATOR LICENSE

In the matter of amendment of § 12.27 of the Commission's rules to provide for waiver, in the case of amateurs serving in the armed forces of the United States and those employed by agencies of the Federal Government who are assigned to duty in a foreign country, of the requirement that applications for renewal of amateur operator licenses be accompanied by a showing of actual operation of an amateur station during the last 3 or 12 months of the license period.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration the provisions of § 12.27 of Part 12 of its rules, which require that an application for renewal of an amateur operator license be accompanied by a showing that the applicant operated an amateur radio station (licensed by the Federal Communications Commission) for at least two hours in the last three months or five hours in the last twelve months of the license period, and the footnote of § 12.27 of Part 12, which exempts persons serving in the armed forces of the United States from the foregoing showing; and

It appearing, that, in addition to military personnel, certain employees of the Federal Government assigned to foreign duty are deprived of the opportunity of conducting the operation required for renewal of an amateur operator license and that they also should be included among persons exempt from the showing of operation required for renewal of an amateur operator license by the foregoing footnote and amendment; and

It further appearing, that the effective date of the aforementioned order and footnote extends only to December 31, 1952, and that approximately the same circumstances which made it necessary to adopt that order still prevail and are expected to continue for some time in the future; and

It further appearing, that, because the amendment herein ordered is minor in nature, compliance with the public notice and procedure set forth in section 4 (a) of the Administrative Procedure Act is unnecessary, and since the amendment will relieve a restriction it can be made effective in less than thirty days in accordance with the provisions of section 4 (c) of the same act; and

It further appearing, that authority for the aforesaid order and amendment of § 12.27 of Part 12 is contained in sections 4 (i) and 303 (l) and (r) of the Communications Act of 1934, as amended:

It is ordered, That, effective immediately, the footnote 6 appended to § 12.27 of Part 12 is amended to read as follows:

[6] Until further order of the Commission, the showing that the applicant actually operated an amateur radio station or stations for the periods of time specified in § 12.27 will not be required in cases where it is shown that the applicant was unable to conduct such operation because he was on active duty in the armed forces of the United States or was duly enrolled as an employee of an agency of the Federal Government and in the course of such employment was on duty in a foreign country continuously during the last year of the license term: *Provided*, That any such employee of the Federal Government shall submit with his application for renewal of license a statement signed by his agency head, or the chief of the Bureau or Division in which he is employed, attesting to such employment.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-10739; Filed, Oct. 3, 1952; 8:47 a. m.]

[3] In the construction of chemical plants, the owner may self-authorize 1 ton of stainless steel, per project, per quarter, in addition to the quantities specified.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 52]

UNITED STATES STANDARDS FOR GRADES OF CANNED GRAPEFRUIT [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of the current United States Standards for Grades of Canned Grapefruit pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952). This revision, if made effective, will be the fourth issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 15 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

§ 52.363 *Canned grapefruit.* Canned grapefruit, commonly known as canned grapefruit sections, is prepared from sound, mature grapefruit (Citrus paradisi) which have been properly washed; the segments thereof have been separated; and the core, seeds, and major portions of membrane have been removed. The product is packed with or without the addition of water, grapefruit juice, or sweetening ingredients and is sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

(a) *Grades of canned grapefruit.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of canned grapefruit that possesses a drained weight or average drained weight, as the case may be, of not less than 58 percent of the capacity of the container in containers smaller than the equivalent of No. 2 cans and of not less than 60 percent of the capacity of the container in containers the equivalent of No. 2 cans and larger; that consists of not less than 75 percent by weight of the drained grapefruit which is in whole segments or almost whole segments; that possesses a good color; that is practically free from defects; that possesses a good character; that possesses a good flavor and odor; and that scores not less than 90 points when scored in accordance with the scoring system outlined in this section.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(2) "U. S. Grade B" or "U. S. Choice" is the quality of canned grapefruit that possesses a drained weight or average drained weight, as the case may be, of not less than 55 percent of the capacity of the container regardless of the size of the container; that consists of not less than 50 percent by weight of the drained grapefruit which is in whole segments or almost whole segments; that possesses a reasonably good color; that is reasonably free from defects; that possesses a reasonably good character; that possesses a fairly good flavor and odor; and that scores not less than 80 points when scored in accordance with the scoring system outlined in this section.

(3) "U. S. Broken" is the quality of canned grapefruit that possesses a drained weight or average drained weight, as the case may be, of not less than 55 percent of the capacity of the container; that consists of less than 50 percent by weight of the drained grapefruit which is in whole or almost whole segments; that possesses a reasonably good color; that is reasonably free from defects; that possesses a reasonably good character; that possesses a fairly good flavor and odor; and that scores not less than 70 points when scored in accordance with the scoring system outlined in this section.

(4) "Substandard" is the quality of canned grapefruit that fails to meet the requirements of U. S. Grade B or U. S. Choice and U. S. Broken.

(b) *Recommended designations of liquid media and Brix measurements.* "Cut-out" requirements for liquid media in canned grapefruit are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. It is recommended that canned grapefruit have the following indicated "cut-out" Brix measurement for the respective designation, which designations include, but are not limited to, the following:

Designation of liquid media:	*Brix measurement*
Heavy sirup	18° or more.
Light sirup	16° or more, but less than 18°.
Slightly sweet	12° or more, but less than 16°.

(c) *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of canned grapefruit be filled with grapefruit as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the volume of the container.

(d) *Ascertaining the grade.* The grade of canned grapefruit is ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of drained weight, wholeness, color, absence of defects, and character. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	*Points*
(1) Drained weight	20
(2) Wholeness	20
(3) Color	20
(4) Absence of defects	20
(5) Character	20
Total score	100

(e) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

(1) *Drained weight.* The drained weight of canned grapefruit is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch, ±3 percent, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and the grapefruit less the weight of the dry sieve. The grapefruit thus drained is referred to in this section as "drained grapefruit" or "drained weight." A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can. "Capacity of the container" means the weight of distilled water at 68° Fahrenheit which the sealed container will hold.

(i) Canned grapefruit in containers smaller than the equivalent of No. 2 cans that possesses a drained weight of not less than 58 percent of the capacity of the container may be given a score of 18 to 20 points for the respective containers as outlined in Table I; canned grapefruit in containers the equivalent of No. 2 cans and larger that possesses a drained weight of not less than 60 percent of the capacity of the container may be given a score of 18 to 20 points for the respective containers as outlined in Table II. Whenever more than 1 container of the product is being graded, the score for drained weight of each container is determined by averaging the drained weights of the containers. If the average drained weight indicates a score of 18 to 20 points (in accordance with Table I or II) such score will be assigned to each container: *Provided*, That the drained weight of no individual container indicates a score of less than 16 points. However, if any individual container scores less than 16 points, each container will be assigned the score for its own drained weight.

(ii) If the drained weight of the canned grapefruit in containers smaller than the equivalent of No. 2 cans is less than 58 percent of the capacity of the container, or if the drained weight of the canned grapefruit in containers the equivalent of No. 2 cans and larger is less than 60 percent of the capacity of the container but in either case the drained weight is not less than 55 percent of the capacity of the container, a score of 16 or 17 points may be given for the respective containers as outlined in Table I or II. Whenever more than 1 container of the product is being graded, the score for drained weight of each container is determined by averaging the drained weights of the containers. If the average drained weight indicates a score of 16 or 17 points (in accordance with Table I or II) such score will be assigned to each container: *Provided*, That the drained weight of no individual container indicates a score of less than 14 points. However, if any individual container scores less than 14 points, each container will be assigned the score for its own drained weight. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule).

(iii) Canned grapefruit that fails to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I—SCORE FOR DRAINED WEIGHTS OF CANNED GRAPEFRUIT

Grade classification	Score points	Percentage that drained weight is of capacity of container	Drained weight on basis of container designation and size	
			3 Tall ($2^{11}/_{16}$ x $3^{4}/_{16}$ inches)	No. 303 ($3^{3}/_{16}$ x $4^{7}/_{16}$ inches)
			Ounces	*Ounces*
U. S. Grade A or U. S. Fancy	20	61 percent or more	5.28 or more	10.28 or more.
	19	59½ to 61 percent	5.15 to 5.27, inclusive	10.03 to 10.27, inclusive.
	18	58 to 59½ percent	5.02 to 5.14, inclusive	9.77 to 10.02, inclusive.
U. S. Grade B or U. S. Choice or U. S. Broken	17	56½ to 58 percent	4.89 to 5.01, inclusive	9.52 to 9.76, inclusive.
	16	55 to 56½ percent	4.76 to 4.88, inclusive	9.27 to 9.51, inclusive.
	15	52½ to 55 percent	4.54 to 4.75, inclusive	8.85 to 9.26, inclusive.
	14	50 to 52½ percent	4.33 to 4.53, inclusive	8.43 to 8.84, inclusive.
Substandard	13 or less	Less than 50 percent	Less than foregoing drained weights	

TABLE II—SCORE FOR DRAINED WEIGHTS OF CANNED GRAPEFRUIT

Grade classification	Score points	Percentage that drained weight is of capacity of container	Drained weight on basis of container designation and size		
			No. 2 ($3^{7}/_{16}$ x $4^{3}/_{16}$ inches)	No. 3 Cyl. ($4^{1}/_{16}$ x 7 inches)	No. 5 ($5^{1}/_{16}$ x $5^{10}/_{16}$ inches)
			Ounces	*Ounces*	*Ounces*
U. S. Grade A or U. S. Fancy	20	65 percent or more	13.33 or more	33.56 or more	38.42 or more.
	19	62½ to 65 percent	12.84 to 13.32 inclusive.	32.27 to 33.55, inclusive.	36.94 to 38.41, inclusive.
	18	60 to 62½ percent	12.33 to 12.83, inclusive.	30.95 to 32.26, inclusive.	35.46 to 36.93, inclusive.
U. S. Grade B or U. S. Choice or U. S. Broken	17	57½ to 60 percent	11.79 to 12.32, inclusive.	29.69 to 30.97, inclusive.	33.99 to 35.45, inclusive.
	16	55 to 57½ percent	11.28 to 11.78, inclusive.	28.40 to 29.68, inclusive.	32.51 to 33.98, inclusive.
Substandard	15	52½ to 55 percent	10.77 to 11.27, inclusive.	27.10 to 28.39, inclusive.	31.03 to 32.50, inclusive.
	14	50 to 52½ percent	10.25 to 10.76, inclusive.	25.81 to 27.09, inclusive.	29.55 to 31.02, inclusive.
	13 or less	Less than 50 percent.	Less than foregoing drained weights		

(2) *Wholeness.* (i) "Whole" or "Whole segment" means any grapefruit segment that retains its apparent original conformation and is not excessively trimmed.

(ii) "Almost whole" or "almost whole segment" means any portion of a grapefruit segment that is not less than 75 percent of the apparent original segment size.

(iii) "Broken" or "broken segment" means (*a*) any portion of a grapefruit segment that is less than 75 percent of the apparent original segment size, (*b*) a "whole segment" or "almost whole segment" that is excessively trimmed, and (*c*) portions of segments that are joined together only by a "thread" or membrane.

(iv) Canned grapefruit that consists of not less than 75 percent by weight of the drained grapefruit in whole segments or almost whole segments may be given a score of 18 to 20 points.

(v) If the canned grapefruit consists of not less than 50 percent by weight of the drained grapefruit in whole segments or almost whole segments, a score of 16 or 17 points may be given. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule).

(vi) If less than 50 percent by weight of the drained grapefruit is in whole segments or almost whole segments, a score of 0 to 15 points may be given. Canned grapefruit that falls into this classification shall not be graded above U. S. Broken, regardless of the total score for the product (this is a limiting rule).

(3) *Color.* (i) Canned grapefruit that possesses a good color may be given a score of 18 to 20 points. "Good color" means a practically uniform, bright, typical color free from any noticeable tinge of amber.

(ii) If the canned grapefruit possesses a reasonably good color, a score of 16 or 17 points may be given. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means a fairly bright color which may be variable in color but is not off color for any reason.

(iii) Canned grapefruit that fails to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(4) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from harmless extraneous material, from seeds, from portions of albedo, from portions of tough membrane, and from damaged units.

(i) "Harmless extraneous material" means leaves, portions of leaves, small pieces of peel, and other similar material that is harmless.

(ii) "Seed" means any seed or any portion thereof, whether or not fully developed, that measures more than $^{3}/_{16}$ inch in any dimension. A "large seed" is one that may be plump and measures more than $^{3}/_{8}$ inch in any dimension.

(iii) "Damaged unit" means any grapefruit segment or portion thereof that is damaged by pathological injury, by lye peeling, by discoloration, or by similar injury or that is damaged to such an extent that the appearance or eating quality of the unit is seriously affected.

(iv) Canned grapefruit that is practically free from defects may be given a score of 18 to 20 points. "Practically free from defects" means that no harmless extraneous material is present; that not more than 5 percent by weight of the drained grapefruit may be damaged units; and that for each 20 ounces of net weight there may be present:

(*a*) Not more than 4 seeds including not more than one large seed; and

(*b*) Not more than an aggregate area of 2 square inches on the units covered by tough membrane or albedo.

(v) If the canned grapefruit is reasonably free from defects, a score of 16 or 17 points may be given. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that not more than 15 percent by weight of the drained grapefruit may be damaged units; and that for each 20 ounces of net weight there may be present:

(*a*) Not more than 1 small piece of harmless extraneous material;

(*b*) Not more than 12 seeds including not more than 3 large seeds; and

(*c*) Not more than an aggregate area of 3 square inches on the units covered by tough membrane or albedo.

(vi) Canned grapefruit that fails to meet the requirements of subdivision (v) of this subparagraph may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of

the total score for the product (this is a limiting rule).

(5) *Character.* The factor of character refers to the structure and condition of the cells of the grapefruit and reflects the maturity of the grapefruit.

(i) Canned grapefruit that possesses a good character may be given a score of 18 to 20 points. "Good character" means that the grapefruit is moderately firm and fleshy; that the segments or portions thereof possess a juicy, cellular structure free from dry cells or "ricey" cells that materially affect the appearance or eating quality of the product; and that the product is reasonably free from loose floating cells.

(ii) If the canned grapefruit possesses a reasonably good character, a score of 16 or 17 points may be given. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the grapefruit may be affected, but not seriously affected, by dry cells, "ricey" cells, or fibrous cells that materially affect the appearance or eating quality of the product.

(iii) Canned grapefruit that fails to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(f) *Explanation of terms.* (1) "Good flavor and odor" means that the product has a distinct and normal flavor and odor typical of canned grapefruit and is free from objectionable odors and objectionable flavors of any kind.

(2) "Fairly good flavor and odor" means that the product may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

(3) "Brix" means the degrees Brix of the liquid media surrounding the canned grapefruit when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If the liquid media is tested at a temperature other than 20 degrees C. (68 degrees F.) the applicable temperature correction shall be made to the reading of the scale as prescribed in the "Official Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of the liquid media may be determined by any other method which gives equivalent results.

(g) *Tolerances for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of canned grapefruit, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(i) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

(h) *Score sheet for canned grapefruit.*

Size and kind of container		----
Container mark or identification		----

[7 CFR Parts 725, 726]

BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO TOBACCO MARKETING QUOTAS FOR THE 1953–54 MARKETING YEAR

Pursuant to the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is preparing to proclaim national marketing quotas for Burley tobacco, fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco, for the 1953–54 marketing year, determine the amount of the national marketing quota for each such kind of tobacco, apportion the national marketing quotas among the several States, and convert the State marketing quotas into State acreage allotments.

The Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1312 (a)), provides that the Secretary of Agriculture shall proclaim a national marketing quota for each marketing year for each kind of tobacco for which a national marketing quota was proclaimed for the immediately preceding marketing year. The act (7 U. S. C. 1301 (b) (15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (7 CFR Part 30) of the Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13, and 14;
Fire-cured tobacco, comprising types 21, 22, 23, and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37;
Burley tobacco, comprising type 31;
Maryland tobacco, comprising type 32;
Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55;
Cigar-filler tobacco, comprising type 41.

The act provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of this act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand.

The act (7 U. S. C. 1313 (i)) provides that notwithstanding any other provision of the act, whenever after investigation the Secretary determines with respect to any kind of tobacco that a substantial difference exists in the usage or market outlets for any one or more of the types comprising such kind of tobacco and that the quantity of tobacco of such type or types to be produced under the marketing quotas and acreage allotments established pursuant to this section would not be sufficient to provide an adequate supply for estimated market demands and carry-over requirements for such type or types of tobacco, the Secretary shall increase the marketing quotas and acreage allotments for farms producing such type or types of tobacco in the preceding year to the extent necessary to make available a supply of such type or types of tobacco adequate to meet such demands and carry-over requirements. The increases in farm marketing quotas and acreage allotments shall be made on the basis of the production of such type or types of tobacco during the period of years considered in establishing farm marketing quotas and acreage allotments for such kind of tobacco. The additional production authorized by this subsection shall be in addition to the national marketing quota established for such kind of tobacco pursuant to section 312 of this act. The increase in acreage under this subsection shall not be considered in establishing future State or farm acreage allotments.

National marketing quotas were proclaimed for the 1952–53 marketing year as follows:

Kind of tobacco:	*Federal Register*
Burley	16 F. R. 12169
Fire-cured	16 F. R. 11535
Dark air-cured	16 F. R. 11535
Virginia sun-cured	16 F. R. 11535

The act (7 U. S. C. 1312 (a)) provides that the Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. The act provides further that the amount of the 1953–54 national marketing quota may, not later than March 1, 1953, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet marketing demands or to avoid undue restriction of marketings in adjusting the total supply to the reserve supply level. The act (7 U. S. C. 1301 (b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The act (7 U. S. C. 1312 (b)) requires that within 30 days after a national marketing quota is proclaimed for the 1953–54 marketing year for Burley tobacco, or Virginia sun-cured tobacco, the Secretary shall conduct a referendum of farmers who are engaged in the production of the 1952 crop of each of such kinds of tobacco to determine whether such farmers are in favor of or opposed to such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the quota shall not be effective thereafter. The Secretary is also required to submit to such farmers the question of whether they favor marketing quotas for a period of three years beginning with the 1953–54 marketing year. If two-thirds of the farmers voting on this question favor quotas for such three-year period, the Secretary is required to proclaim marketing quotas for such period. A separate referendum will be held for each of such kinds of tobacco and the results of any referendum will not affect the results of any other referendum.

Fire-cured and dark air-cured tobacco growers favored marketing quotas for the 1953–54 marketing year in a referendum held December 7, 1951 (16 F. R. 13119).

The act (7 U. S. C. 1313 (a)) requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 1313 (small farms and "new" farms), among the several States on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such five-year period. The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the five years last preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

In making the determinations of the amounts of the national marketing quotas, the apportionment of the quotas among the several States, and the conversion of State marketing quotas into State acreage allotments, consideration will be given to any data; views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 1st day of October 1952.

[SEAL] HAROLD K. HILL,
Acting Administrator.

[Docket No. AO 237-A1]

HANDLING OF MILK IN THE FORT SMITH, ARKANSAS, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Community Room, First Floor, Sebastion County Court House, Fort Smith, Arkansas, beginning at 10:00 a. m., c. s. t., October 8, 1952, for the purpose of receiving evidence with respect to emergency and other economic conditions which relate to the handling of milk in the Fort Smith, Arkansas, marketing area and to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order regulating the handling of milk in the Fort Smith, Arkansas, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order for the Fort Smith, Arkansas, marketing area have been proposed as follows:

By the Farm Bureau Milk Producers Association, Fort Smith, Arkansas:

1. Provide that for a limited period of time the price for Class I milk be increased 40 cents per hundredweight.

By the Dairy Branch, Production and Marketing Administration:

2. Make such changes as may be required to make the entire order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing, and the order now in effect, may be procured from the Market Administrator, 2635 East Eleventh Street, Tulsa, Oklahoma, or the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C., or may be there inspected.

Dated: October 8, 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator.

[7 CFR Part 978]

[Docket No. AO 184-A 9)

HANDLING OF MILK IN NASHVILLE, TENNESSEE, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Davidson County Court House, Nashville, Tennessee, beginning at 10:00 a. m., c. s. t., October 10, 1952, for the purpose of receiving evidence with respect to emergency, and other economic conditions which relate to the handling of milk in the Nashville, Tennessee, marketing area and to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area (7 CFR 978 et seq.). These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, milk marketing area were proposed, as follows:

By the Nashville Milk Producers, Incorporated:

1. In § 978.51 (a), the differential shall be $1.75 instead of $1.25 for the

months of October 1952 through March 1953, and for this period the supply-demand adjustment shall remain unchanged from the September 1952 level.

2. Amend § 978.51 (a) (3) by eliminating the ceiling on the present supply-demand adjustment schedule.

By Dairy Branch, Production and Marketing Administration:

3. Make such changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the Market Administrator, Presbyterian Building, 152 Fourth Avenue North, Nashville, Tennessee, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be inspected there.

Dated: October 2, 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator.

[Docket No. AO 238]

HANDLING OF MILK IN CENTRAL WEST TEXAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Correction

In F. R. Doc. 52-10727, appearing at page 8867 of the issue for Friday, October 3, 1952, the following sections should appear after § 982.53:

APPLICATION OF PROVISIONS

§ 982.60 *Producer-handlers.* Sections 982.40 through 982.46, 982.50 through 982.53, 982.70 through 982.75, 982.80, 982.81 and 982.90 through 982.99 shall not apply to a producer-handler.

§ 982.61 *Handlers subject to other orders.* In the case of any handler who operates a plant which the Secretary determines disposes of a greater quantity of milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act than in this marketing area, the provisions of this subpart shall not apply with respect to the operations of such plant, except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 982.62 *Handlers operating unapproved plants from which Class I milk is disposed of in the marketing area.* In the case of any handler described in § 982.9 (b) who is not subject to the provisions of § 982.61, the reporting, pricing and payment provisions of this subpart shall apply only as follows:

(a) The handler shall report as required pursuant to §§ 982.30 and 982.31, reporting receipts from and payments to dairy farmers in lieu of such information with respect to producers, and shall allow verification of such reports pursuant to § 982.33;

(b) The handler shall pay to the market administrator, on or before the 25th day after the end of the month, with respect to all skim milk and butterfat disposed of as Class I milk during the month on routes operated wholly or partially within the marketing area, any plus difference between

(1) The value of such skim milk or butterfat at the Class I price which would be applicable at an approved plant thus located, and

(2) The value of such skim milk and butterfat at the price paid dairy farmers by such handler for milk received at the unapproved plant from them during the month, adjusted by the method used in computing payments to such dairy farmers to the average butterfat test of Class I milk disposed of in the marketing area: *Provided,* That if such handler has paid more than one such price, the lowest price(s) paid for an equivalent volume of milk shall be used in this computation; and

(c) As his pro rata share of the expense of administration hereof, the handler shall pay to the market administrator, with respect to all Class I milk disposed of on routes in the marketing area, an amount per hundredweight and in the manner specified in § 982.98.

NOTICES

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

CIGAR-FILLER (TYPE 41) AND CIGAR-FILLER AND BINDER (TYPES 42-55) TOBACCO

MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, a national marketing quota for cigar-filler tobacco and a national marketing quota for cigar-filler and binder tobacco for the marketing year beginning October 1, 1953.[1] A referendum of farmers who were engaged in the production of the 1952 crop of cigar-filler tobacco and a referendum of farmers who were engaged in the production of the 1952 crop of cigar-filler and binder tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations, to determine whether such farmers are in favor of or opposed to such quotas and to determine whether such farmers are in favor of or opposed to cigar-filler and cigar-filler and binder tobacco marketing quotas for the three-year period beginning October 1, 1953.

Registration. The operator on each farm on which cigar-filler or cigar-filler and binder tobacco was produced in 1952 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1952 crop of cigar-filler tobacco are eligible to vote in the cigar-filler tobacco marketing quota referendum and farmers who were engaged in the production of the 1952 crop of cigar-filler and binder tobacco are eligible to vote in the cigar-filler and binder tobacco marketing quota referendum. Any person who shares in the proceeds of the 1952 crop of cigar-filler or cigar-filler and binder tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1952.

2. If several members of the same family participate in the production of the 1952 crop of cigar-filler or cigar-filler and binder tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1952 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of cigar-filler or cigar-filler and binder tobacco in 1952.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of cigar-filler or cigar-filler and binder tobacco in 1952 may obtain a ballot at the most conveniently located polling place and may cast his ballot by signing his name thereto and mailing it to the office of the county committee in which he is engaged in the production of tobacco in 1952 not later than the date of the referendum.

4. There shall be no voting by mail (except as provided in par. 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity, or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1952 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1952 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1952.

7. In the event two or more persons were engaged in producing tobacco in 1952 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The Cigar-filler tobacco and the Cigar-filler and binder tobacco marketing quota referenda will be held on Wednesday, October 29, 1952. The place of voting and the hours which the polls will be open for voting in each community will be announced by the County PMA Committee.

Done at Washington, D. C., this 1st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10823; Filed, Oct. 3, 1952; 8:59 a. m.]

MARYLAND TOBACCO

MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, a national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1953.[1] A referendum of farmers who were engaged in the production of the 1952 crop of Maryland tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations, to determine whether such farmers are in favor of or opposed to such quota and to determine whether such farmers are in favor of or opposed to Maryland tobacco marketing quotas for the 3-year period beginning October 1, 1953.

Registration. The operator on each farm on which Maryland tobacco was produced in 1952 should inform a county or community committeeman of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1952 crop of Maryland tobacco are eligible to vote in the referendum. Any person who shall be regarded as engaged in the production of tobacco in 1952 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1952.

7. In the event two or more persons were engaged in producing tobacco in 1952 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

8. The referendum will be held on Wednesday, October 29, 1952. The place of voting and the hours which the polls will be open for voting in each community will be announced by the County PMA Committee.

Done at Washington, D. C., this 1st day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

DEPARTMENT OF LABOR

Division of Public Contracts

SMALL BUSINESS PRODUCTION POOLS

EXEMPTION FROM PROVISIONS OF PUBLIC CONTRACTS ACT; AMENDMENT

On June 19, 1951, under authority vested in me by section 6 of the Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35-45) I granted an exemption, from the requirement of section 1 (a) of this act, for all contracts entered into between contracting agencies of the United States and Defense Production Pools approved by the Administrator of the Defense Production Administration pursuant to section 708 of the Defense Production Act of 1950 (16 F. R. 5847-5848).

By Executive Order 10370 (17 F. R. 6141), dated July 7, 1952, the President of the United States delegated to the Administrator of the Small Defense Plants Administration authority to approve small-business production pools as qualified contractors pursuant to section 708 of the Defense Production Act. In order to carry out the purposes of Executive Order 10370, I find it in the public interest to amend the exemption order of June 19, 1951, to include small-business production pools approved by the Administrator of the Small Defense Plants Administration.

Notice is hereby given that the exemption order of June 19, 1951, referred to above, is amended as follows:

1. The title is changed to read "Small Business Production Pools".

2. The third paragraph is amended to read as follows:

In view of the fact that such Small Business Production Pools may not come within the terms "manufacturer" or "regular dealer" as those terms are used in section 1 (a) of the Public Contracts Act, the Departments of Army, Navy and Air Force have requested that an exception be granted to section 1 (a) of the act so as to permit the award of contracts subject to the act to Small Business Production Pools which have been approved by either the Administrator of the Defense Production Administration or the Administrator of the Small Defense Plants Administration pursuant to section 708 of the Defense Production Act of 1950, as amended. This request was based upon a finding by the Heads of the Departments of Army, Navy and Air Force that contracting with such pools will be in the public interest and beneficial to the defense effort, and that the conduct of Government business will be seriously impaired unless the requested exception is granted.

3. The last paragraph is amended to read as follows:

Accordingly, pursuant to authority vested in me by section 6 of the Public Contracts Act, I hereby exempt from the requirement of section 1 (a) of the act, all contracts en-

tered into between contracting agencies of the United States and Small Business Production Pools approved by either the Administrator of the Defense Production Administration or the Administrator of the Small Defense Plants Administration pursuant to section 708 of the Defense Production Act of 1950, as amended, and Executive Order 10370, dated July 7, 1952. This action shall not in any way be construed as exempting such contracts from other requirements of section 1 or any other provisions of the act; nor shall this action be construed as exempting contracts entered into by individual members of Small Business Production Pools when such contracts are not on behalf of such pools.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 1st day of October 1952.

MAURICE J. TOBIN,
Secretary of Labor.

[Docket No. G-2059]

MANUFACTURERS LIGHT AND HEAT CO. ET AL.

NOTICE OF APPLICATION

SEPTEMBER 29, 1952.

Take notice that the Manufacturers Light and Heat Company (Manufacturers), a Pennsylvania corporation, Natural Gas Company of West Virginia (Natural Gas), a West Virginia corporation, Cumberland and Allegheny Gas Company (Cumberland), a West Virginia corporation and Home Gas Company (Home), a New York corporation, each having its address at Pittsburgh, Pennsylvania (all hereinafter sometimes referred to as "Applicants"), filed on September 12, 1952, a joint application for certificates of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipeline facilities and for orders pursuant to section 7 (b) of the Natural Gas Act, authorizing and approving abandonment and retirement of certain natural-gas facilities, as hereinafter described.

Manufacturers proposes to construct and operate approximately 24 miles of 26-inch, 21.29 miles of 16-inch, 33.14 miles of 12-inch, 33.38 miles of 10-inch, 92.11 miles of 8-inch, 2.79 miles of 6-inch, 4.58 miles of 4-inch, and 1.23 miles of 3-inch natural-gas transmission pipelines at various points on its system in Pennsylvania, West Virginia, and Ohio, and in connection therewith, to abandon or retire and sell or salvage, approximately 24 miles of 20-inch, 22.11 miles of 12-inch, 11.657 miles of 10-inch, 47.269 miles of 8-inch, 57.454 miles of 6-inch, 0.76 miles of 3-inch, 6.70 miles of 2-inch, and 0.88 mile of 1-inch existing pipeline. Manufacturers also proposes to abandon, retire and remove 440 horsepower in compressor units together with equipment and structures at its Rider Compressor Station in Fayette County, Pennsylvania.

Natural Gas proposes to construct and operate approximately 7.46 miles of 4-inch transmission pipeline in Columbiana County, Ohio, and in connection therewith to abandon in place and retire 7.46 miles of existing 8-inch transmission pipeline.

Cumberland proposes to construct and operate approximately 31.2 miles of 12-inch transmission pipeline, 24 miles of which is to extend from Garrett County, Maryland, to a point near Keyser, West Virginia, and 7.2 miles of which is to extend from near Cumberland, Maryland, to a point on the Maryland-Pennsylvania State Line, and to abandon, retire and remove 75 horsepower in compressor units with equipment and structures at its Rowlesburg Compressor Station in Preston County, West Virginia.

Home proposes to construct and operate approximately 46.7 miles of 12-inch transmission pipeline in Tioga and Broome Counties in New York, and to abandon, retire and remove 180 horsepower in compressor units with structure and equipment at its Hinman Corners Compressor Station in Broome County, New York.

Applicants state that through the means of the additional facilities they propose to improve and increase the deliverability of their transmission systems in the interest of flexibility, continuity of delivery, and adequacy of facilities, and that the retirement of facilities no longer used or useful in the public service, as proposed, will eliminate expenses in connection therewith. Applicants state that in no instance are any of the proposed facilities designed to serve new markets.

The total estimated net cost of retirement of existing facilities and of construction of additional facilities for Manufacturers is $8,250,079, for Natural Gas is $77,068, for Cumberland is $1,104,900, and for Home is $1,708,400. Such cost is proposed to be paid for through financing to be provided by the parent company of Applicants, the Columbia Gas System, Inc. The nature and terms of such financing according to Applicants will be subject to the jurisdiction of the Securities and Exchange Commission.

Manufacturers requests authority to construct, operate, abandon, retire, and remove the facilities for which such authorization is requested by Cumberland when and if Manufacturers is authorized to acquire and operate the property of Cumberland pursuant to its application filed concurrently with the application herein.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2060]

MANUFACTURERS LIGHT AND HEAT CO. AND CUMBERLAND AND ALLEGHENY GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 29, 1952.

Take notice that the Manufacturers Light and Heat Company (Manufacturers), a Pennsylvania corporation, and Cumberland and Allegheny Gas Company (Cumberland), a West Virginia corporation, hereinafter sometimes referred to as "Applicants", both of which have their principal place of business at Pittsburgh, Pennsylvania, jointly filed on September 12, 1952, an application pursuant to section 7 of the Natural Gas Act, seeking authorization, as hereinafter described, for Manufacturers to acquire and operate all the property and facilities of Cumberland for the transmission of natural-gas in interstate commerce, and for Cumberland to abandon its property and facilities and the service rendered thereby by transferring the same to Manufacturers.

Manufacturers and Cumberland are affiliated companies and are subsidiaries of the Columbia Gas System, Inc. Cumberland owns and operates a main transmission pipeline system extending approximately 113 miles between Cumberland, Maryland, and Thomas Compressor Station, Lewis County, West Virginia, and consisting mostly of a single 12-inch, partly 10-inch and partly parallel 10-inch and 6-inch lines. Cumberland also owns and operates, as a part of its system numerous lateral pipelines consisting of 10-inch, 8-inch, 6-inch, and 4-inch pipe, and three compressor stations aggregating 2,150 horsepower. In addition to the foregoing transmission facilities for which authorization to abandon is requested, Cumberland owns and operates other properties consisting of real estate, leases, wells and gathering lines, meters, regulators, fittings, tools and various distribution systems, all of which it proposes to transfer to Manufacturers.

The proposed acquisition is to be consummated by the contribution by the Columbia Gas System, Inc., of all the capital stock of Cumberland to Manufacturers, and the forgiveness of all outstanding funded debt of Cumberland held by its parent. Cumberland will then dissolve, and Manufacturers, as sole stockholder will acquire all the property and rights of Cumberland and assume its remaining liabilities and obligations.

Upon completion of the proposed acquisition, Manufacturers proposes to operate the production, transmission, and distribution facilities of Cumberland and to serve the communities in West Virginia, and Maryland presently being served by Cumberland. Manufacturers does not propose to serve any new communities as a result of the proposed acquisition.

Applicants state that no financing will be required to complete the proposed transfer of properties.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10774; Filed, Oct. 3, 1952; 8:52 a. m.]

[Docket No. G-2061]

UNITED FUEL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 29, 1952.

Take notice that United Fuel Gas Company (Applicant), a West Virginia corporation, address, Charleston, West Virginia, filed on September 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 50.5 miles of natural-gas transmission pipeline consisting of 32.5 miles of 24-inch and 18 miles of 20-inch pipe, and extending from Applicant's Lanham Compressor Station to its proposed Compressor Station X-58, and the construction and operation of said Compressor Station X-58 consisting of three 880 horsepower compressor units together with necessary auxiliary equipment and piping, to be located at Applicant's Storage Pool X-58 in Wood and Wirt Counties, West Virginia.

Applicant proposes the construction and operation of said facilities in connection with the expansion of its underground storage operations which it states are necessary for the adequacy and continuity of service to present markets. No new markets are proposed to be served by means of the proposed facilities.

In conjunction with the operation of Storage Pool X-58, Applicant proposes to activate an additional pool designated as X-59 with an estimated ultimate maximum daily withdrawal rate of 70,000 Mcf at minimum storage pressure of 550 pounds. At a maximum storage pressure of 1,200 pounds, this daily withdrawal rate is expected to be 180,000 Mcf.

The estimated cost of the proposed facilities is $6,088,890. Applicant estimates the cost of acquiring and activating its proposed Storage Pool X-59 to be $1,885,800. The proposed construction and activation will be financed by issuance and sale of securities of Applicant to its parent company, the Columbia Gas System, Inc.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10775; Filed, Oct. 3, 1952; 8:52 a. m.]

[Docket No. G-2062]

ATLANTIC SEABOARD CORP. AND VIRGINIA GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

SEPTEMBER 29, 1952.

Take notice that Atlantic Seaboard Corporation (Atlantic Seaboard), a Delaware corporation, and Virginia Gas Transmission Corporation (Virginia Gas), a Virginia corporation, sometimes, hereinafter referred to as "Applicants," both of which have their principal place of business at Charleston, West Virginia, jointly filed on September 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, author-

izing the construction and operation of three compressor stations as follows: (1) At a point on Applicants' 26-inch pipeline approximately 31.5 miles from United Fuel Gas Company's Cobb Compressor Station, to be known as Frametown Station, consisting of one 5,000 horsepower compressor unit, auxiliary equipment and piping, (2) at a point on said 26-inch pipeline approximately 64.6 miles from Cobb Station, to be known as Cleveland Station, consisting of six 1,100 horsepower compressor units, auxiliary equipment and piping, and (3) at a point on said 26-inch pipeline approximately 194.4 miles from Cobb Station, to be known as Station "E", consisting of one 5,000 horsepower compressor unit, auxiliary equipment and piping; and the supercharging of three existing units from 880 horsepower to 1,100 horsepower and the installation of one additional 1,100 horsepower compressor unit in Atlantic Seaboard's existing Compressor Station "D", known as Lost River Station.

Applicants propose the construction and operation of said facilities to compress, when necessary, and to increase the pressure of natural gas delivered into the western or suction side of the compressor stations on said 26-inch pipeline to a line pressure of 750 pounds per square inch for transportation eastward. Applicants state that existing facilities are not adequate to meet estimated maximum day requirements of their wholesale customers during the winter period of 1953–54. Applicants expect the proposed facilities to supply approximately 86,200 Mcf of additional natural gas transmission capacity on a peak day during 1953–54 at an estimated load factor of 48 percent.

The estimated capital cost of the proposed facilties is approximately $6,885,600. Such cost is proposed to be provided for out of funds to be realized from the sale of securities to Applicants' parent company, the Columbia Gas System, Inc.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of October 1952. The joint application is on file with the Commission for public inspection.

[Project No. 2107]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE (MAJOR)

SEPTEMBER 30, 1952.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for a license for proposed water power Project No. 2107 (to be known as the Poe Project) to be located on North Fork Feather River in Butte County, in the vicinity of Quincy and Oroville, and consisting of a reinforced concrete, gated diversion dam, in North Fork Feather River, about 60 feet in height above the stream bed; a reservoir, formed by the dam, with an effective capacity of about 470 acre-feet between normal operating water surface (elevation 1,380) and minimum operating water level (elevation 1,370); and intake structure; a concrete-lined tunnel about 33,700 feet long between the intake and the penstocks; a differential surge chamber with inside diameter of 90 feet; two penstocks each about 780 feet long; Poe powerhouse to contain two vertical turbine-generator units each of 73,000 hp.-63,000 kva. installed capacity; two short 220 kv. tap lines from the high tension switch and bus structure, at the proposed plant, to applicant's interconnected transmission system; substation and switchyard; and miscellaneous hydraulic, mechanical and electrical appurtenances.

Any protest against the approval of this application or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted before November 6, 1952, to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

[Project No. 2108]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE (MAJOR)

SEPTEMBER 30, 1952.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for a license for proposed water-power Project No. 2108 (to be known as the Belden Project) to be located on the North Fork Feather River and on Yellow Creek, one of its tributaries, in Plumas County, California, in the vicinity of Quincy and Oroville, and consisting of a gated diversion dam, across North Fork Feather River, about 150 feet in height above stream bed, with spillway crest at elevation 2958 and the normal operating water surface at elevation 2,975; a reservoir to extend upstream to applicant's existing Caribou powerhouse and having an effective reservoir capacity of about 900 acre-feet between normal operating water surface (elevation 2,975) and minimum operating water level (elevation 2,950) and a gross capacity of about 2,500 acre-feet at elevation 2,975; a wheel-gate equipped intake structure; two pressure tunnels aggregating 33,700 feet in length, one on each side of the North Fork Feather River siphon and forming therewith a uni-linear conduit from the intake to the beginning of penstock, and a siphon about 1,750 feet long crossing North Fork Feather River; a penstock about 1,700 feet long, wye-branching into two pipes, each about 180 feet long, to the powerhouse; a differential surge chamber with inside diameter of 65 feet; Belden Powerhouse, on left bank of Yellow Creek, to house two vertical turbine-generator units each of 65,000 kva. capacity; substation and switchyard; three short 220-kv. tap lines from the high tension switch and bus structure at the plant to connect with the applicant's interconnected transmission system; and miscellaneous hydraulic, mechanical, and electrical appurtenances.

Any protest against the approval of this application or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted before November 6, 1952, to the Federal Power Commission, Washington 25, D. C.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10195]

MT. PLEASANT BROADCASTING CO. (KIMP)

ORDER SCHEDULING HEARING

In re application of Winston O. Ward, d/b as Mt. Pleasant Broadcasting Company (KIMP), Mt. Pleasant, Texas, Docket No. 10195, File No. BP–8039; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of September 1952;

The Commission having under consideration a petition filed on July 7, 1952, by Winston O. Ward, d/b as Mt. Pleasant Broadcasting Company requesting reconsideration and grant without hearing of the above-entitled application requesting a construction permit to change hours from daytime only to unlimited using 500 watts nighttime and to install a directional antenna for nighttime use at Station KIMP, Mt. Pleasant, Texas;

It appearing, that the petition for reconsideration and grant and the supporting engineering affidavit merely describe the area and population of the city of Mt. Pleasant outside the nighttime interference-free contour and do not modify the proposed operation of Station KIMP to improve coverage or reduce interference and therefore the deficiencies of the petitioner's proposal with reference to coverage of the city of Mt. Pleasant and ratio of population losing service within the normally protected contour to population actually served remain unchanged:

It is ordered, That the said petition of Winston O. Ward, d/b as Mt. Pleasant Broadcasting Company requesting reconsideration and grant without hearing of the above-entitled application is denied:

It is further ordered, That hearing in the above-entitled matter is scheduled to commence at 10:00 a. m. on the 3d day of November 1952, at Washington, D. C.

By the Commission: Commissioner Bartley dissenting; Commissioners Sterling and Hennock not participating.

Released: September 26, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary,

[F. R. Doc. 52–10742; Filed, Oct. 3, 1952; 8:47 a. m.]

[Docket Nos. 10245, 9138, 10319]

PORTLAND TELEVISION, INC. ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Portland Television, Inc., Portland, Oregon, Docket No. 10245, File No. BPCT–956; Westinghouse Radio Stations, Inc., Portland, Oregon, Docket No. 9138, File No. BPCT–494; North Pacific Television, Inc., Portland, Oregon, Docket No. 10319, File No. BPCT–1138; for construction permits for new commercial television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of September 1952;

The Commission having under consideration the above-captioned application of North Pacific Television, Inc., requesting a construction permit for a new television broadcast station to operate on Channel 8 in Portland, Oregon; and

It appearing, that the said application is mutually exclusive with the above-captioned applications of Portland Television, Inc., and Westinghouse Radio Stations, Inc., which request construction permits for television broadcast stations to operate on Channel 8 in Portland, Oregon, in that operation by all of the above applicants, as proposed, would result in mutually destructive interference; and

It further appearing, that the applicant North Pacific Television, Inc., was advised on September 3, 1952, that its proposal was mutually exclusive with the other above-captioned applications and was requested to file any reply within ten days, and that the said conflict has not been resolved:

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the application of North Pacific Television, Inc. be designated for hearing in the same consolidated proceeding with the other above-captioned applications to commence at 10:00 a. m. on October 1, 1952, in Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicants to construct and operate the proposed stations.

2. To determine the type and character of the program services proposed to be rendered and whether they would meet the needs of the communities and areas within the Grade A and Grade B field intensity contours.

3. To determine whether the construction and operation of the proposed stations would be in compliance with the Commission's rules and regulations governing television broadcast stations.

4. To determine whether the installation and operation of any of the stations proposed in the above-captioned applications would constitute a hazard to air navigation.

5. To determine on a comparative basis which, if any, of the above-captioned applications should be granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 10245, 9138, 10319, 10324]

PORTLAND TELEVISION, INC., ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Portland Television, Inc., Portland, Oregon, Docket No. 10245, File No. BPCT–956; Westinghouse Radio Stations, Inc., Portland, Oregon, Docket No. 9138, File No. BPCT–494; North Pacific Television, Inc., Portland, Oregon, Docket No. 10319, File No. BPCT–1138; Cascade Television Company, Portland, Oregon, Docket No. 10324, File No. BPCT–1235; for construction permits for new commercial television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of September 1952;

The Commission having under consideration the above-captioned application of Cascade Television Company requesting a construction permit for a new television broadcast station to operate on Channel 8 in Portland, Oregon; and

It appearing, that said application is mutually exclusive with the above-captioned applications of Portland Television, Inc., Westinghouse Radio Stations, Inc., and North Pacific Television, Inc., all of which request construction permits for television stations to operate on Channel 8 in Portland, Oregon; and

It further appearing, that the applicant Cascade Television Company was advised on September 10, 1952, that its proposal was mutually exclusive with the other above-captioned applications and was requested to file any reply within ten days, and that the said conflict has not been resolved:

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the application of Cascade Television Company be designated for hearing in the same consolidated proceeding with the other above-captioned applications to commence at 10:00 a. m. on October 1, 1952, in Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicants to construct and operate the proposed stations.

2. To determine the type and character of the program services proposed to be rendered and whether they would meet the needs of the communities and areas within the Grade A and Grade B field intensity contours.

3. To determine whether the construction and operation of the proposed stations would be in compliance with the Commission's rules and regulations governing television broadcast stations.

4. To determine whether the installation and operation of any of the stations proposed in the above-captioned applications would constitute a hazard to air navigation.

5. To determine on a comparative basis which, if any, of the above-captioned applications should be granted.

FEDERAL SECURITY AGENCY

Office of Education

NATIONALLY RECOGNIZED ACCREDITING AGENCIES AND ASSOCIATIONS

CRITERIA AND LIST

The Commissioner of Education is required under section 253 of the Veterans' Readjustment Assistance Act of 1952 (66 Stat. 663, 675), known as Public Law 550 of the 82d Congress, to publish a list of nationally recognized accrediting agencies and associations which he determines to be reliable authority as to the quality of training offered by an educational institution. The following criteria for determining nationally recognized accrediting agencies and associations have been evolved after consultation with an advisory group of educators. These criteria are presently effective but may nevertheless be modified as necessary or appropriate. For this purpose and in accordance with accepted procedures, interested accrediting agencies and associations are invited to submit suggestions and criticisms to the Com-

missioner of Education not later than forty-five (45) days from the publication of this notice in the FEDERAL REGISTER.

CRITERIA

The agency or association

1. Is regional or national in the scope of its operations. (Regional as here used means several States);

2. Serves a definite need for accreditation in the field in which it operates;

3. Performs no functions that might prejudge its independent judgment of the quality of an educational program;

4. Makes available to the public current information covering: (a) criteria or standards for accreditation, (b) reports of its operations, (c) a list of accredited institutions, courses or educational programs;

5. Has an adequate organization and effective procedures to maintain its operations on a professional basis. Among the factors to be considered in this connection are that the agency or association:

(a) Secures sufficient and pertinent data concerning the qualitative and quantitative aspects of the work of an institution, including data on such items as the educational objectives, educational programs, admission practices, training and experience of teachers, financial stability, laboratory and library resources.

(b) Uses qualified examiners to visit institutions and inspect courses, programs and facilities and who prepare written reports and recommendations for the use of the reviewing body—and causes such examination to be conducted under conditions that assure an impartial and objective judgment.

(c) Re-evalues at reasonable intervals the accredited institutions, programs and courses of study.

(d) Has financial resources as shown by its current financial statements, necessary to maintain accrediting operations in accordance with published policies and procedures.

6. Accredits only institutions which are found upon such examination to meet specific standards for accreditation, established in advance in terms that include the factors above described.

7. Has had not less than two years' experience as an accrediting agency, or in the alternative demonstrates to the satisfaction of the Commissioner that it has been organized under conditions that reasonably assure stability and permanence and that it has gained the acceptance required under 8 below during such shorter period.

8. Has gained acceptance of its criteria, methods of evaluation, and decisions, by educational institutions, practitioners, licensing bodies and employers throughout the United States;

9. Assurance is given that accreditation for the purposes of the act will not be conditioned on the payment of any sums of money: *Provided, however,* That a reasonable charge may be made by the agency or association for its services hereunder not exceeding the actual cost of the accreditation.

(LIST 1)

The following list of nationally recognized accrediting agencies and associations which have been determined to be reliable authority, in the field which each represents, as to the quality of training offered by an educational institution is issued as required by section 253 of the Veterans' Readjustment Assistance Act of 1952. This list supersedes the provisional list dated August 8, 1952, distributed to State Approving agencies on August 12, 1952.

Regional Accrediting Associations

Middle States Association of Colleges and Secondary Schools.

New England Association of Colleges and Secondary Schools.[1]

North Central Association of Colleges and Secondary Schools.

Northwest Association of Secondary and Higher Schools.

Southern Association of Colleges and Secondary Schools.

Western College Association.

National Professional Accrediting Agencies and Associations

Accrediting Association of Bible Institutes and Bible Colleges.

American Association of Colleges for Teacher Education.

American Association of Collegiate Schools of Business.

American Association of Theological Schools.

American Bar Association.

American Council on Education for Journalism.

American Council on Pharmaceutical Education.

American Osteopathic Association.

American Public Health Association.

Board of Education for Librarianship of the American Library Association.

Commission on Accreditation of the Council on Social Work Education.

Committee on Professional Training of the American Chemical Society.

Council on Dental Education of the American Dental Association.

Council on Education and Professional Guidance of the American Optometric Association.

Council on Education of the American Veterinary Medical Association.

Council on Education of the National Association of Chiropodists.

Council on Medical Education and Hospitals of the American Medical Association.

Engineers Council for Professional Development.

National Architectural Accrediting Board.

National Association of Schools of Music.

National Nursing Accrediting Service of the Division of Nursing Education of the National League for Nursing.

Society of American Foresters.

Additions to and deletions from the list will be made from time to time as conditions warrant. Any agency or association not included on the list which desires to be so included may be added to the list if, in the judgment of the Commissioner it meets the established criteria. Such organization should request inclusion in writing, accompanying such request with evidence establishing its compliance with the criteria. Upon receipt of any such application the Commissioner will make his determination on the basis of the evidence presented and any further or additional evidence including in the discretion of the Commissioner a field inspection. No adverse decision will be made without affording opportunity for a hearing.

Dated: September 17, 1952.

EARL J. MCGRATH,
U. S. Commissioner of Education.

[F. R. Doc. 52-10732; Filed, Oct. 3, 1952; 8:45 a. m.]

[1] Membership in the Association means that institutions have satisfied standards for membership similar to those required by regional accrediting agencies. The Association is represented on the National Committee of Regional Accrediting Agencies.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

FIELD ORGANIZATION

MISCELLANEOUS AMENDMENTS

The following entries in section 22 (b) (5) are amended as indicated:

1. Opposite "Birmingham, Alabama," delete "Social Security Bldg." The correct address will then read "2111-13 Seventh Avenue, North."

2. Opposite "San Diego, California," delete the address "Room 200, San Diego Federal Savings Bldg., 601 'A' St." and in lieu thereof insert "San Diego Federal Savings and Loan Bldg."

3. Opposite "New Orleans, Louisiana," delete the address "Farm Credit Administration Bldg." and in lieu thereof insert "860 St. Charles Avenue."

4. Opposite "Kansas City, Missouri," delete the address "Federal Office Bldg." and in lieu thereof insert "Room 1100 Federal Bldg."

5. Opposite "Newark, New Jersey," delete the address "Raymond Commerce Bldg." and in lieu thereof insert "151 Washington Street."

6. Opposite "Albany, New York," the word "County" should be inserted. The correct address will then read "City and County Savings Bank Bldg."

7. Opposite "Cincinnati, Ohio," delete the address "Fifth-Third Union Trust Bldg." and in lieu thereof insert "Union Trust Bldg., 40 East 40th St."

8. Opposite "Cleveland, Ohio," delete the address "1510 Euclid Avenue" and in lieu thereof insert "WJW Bldg., 1375 Euclid Avenue."

9. Opposite "Pittsburgh, Pennsylvania," delete the address "Henry W. Oliver Bldg." and in lieu thereof insert "New Post Office Bldg."

10. Opposite "Beaumont, Texas," delete the address "Federal Bldg." and in lieu thereof insert "Post Office Bldg."

OSBORNE KOERNER,
Director, Administrative Services.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27435]

FRESH MEATS AND PACKING HOUSE PRODUCTS FROM TEXAS TO LOUISIANA

APPLICATION FOR RELIEF

OCTOBER 1, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff I. C. C. No. 3588.

Commodities involved: Fresh meats and packinghouse products, in straight or mixed carloads or in mixed carloads with butter, cheese, eggs, canned goods, peanut butter, etc.

From: Dallas, Fort Worth, Greenville, and Miller, Tex.

To: Alexandria, Baton Rouge, and New Orleans, La.

Grounds for relief: Rail and motor competition and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3588, Supp. 172.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27436]

IMPREGNATED PAPER FROM MUNISING, MICH., TO TROY, N. Y.

APPLICATION FOR RELIEF

OCTOBER 1, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to his tariff I. C. C. No. A-3940.

Commodities involved: Paper, resin impregnated, not laminated, coated with latex, in rolls, not decorated, carloads.

From: Munising, Mich.

To: Troy, N. Y.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: L. E. Kipp, Agent, I. C. C. No. A-3940, Supp. 10.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

OFFICE OF DEFENSE MOBILIZATION

[RC 82]

NEW CASTLE, PENNSYLVANIA, AREA

DETERMINATION AND CERTIFICATION OF A CRITICAL DEFENSE HOUSING AREA

OCTOBER 3, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, exist in the area designated as

New Castle, Pennsylvania, area. (The area consists of Lawrence County; and that portion of the borough of Ellwood City located within Beaver County; all in Pennsylvania.)

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is a critical defense housing area.

WILLIAM C. FOSTER, *Acting Secretary of Defense.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1250]

PENNSYLVANIA EDISON CO. ET AL.

ORDER APPROVING POST-EFFECTIVE AMENDMENT EXTENDING TIME FOR FINAL PAYMENT ON PREFERRED STOCK

SEPTEMBER 30, 1952.

In the matter of Pennsylvania Edison Company, Pennsylvania Electric Company, Associated Electric Company; File No. 70-1250.

On July 2, 1946, Associated Electric Company ("Aelec"), a registered holding company, and two of its public-utility subsidiary companies, Pennsylvania Electric Company ("Penelec") and Pennsylvania Edison Company ("Pened"), consumated a plan, filed under section 11 (e) of the Public Utility Holding Company Act of 1935 pursuant to which, among other things, (1) Pened was merged into Penelec and Pened was dissolved, (2) the holders of Pened's $5 series and $2.80 series preferred stock received the liquidation value of their preferred stocks provided they transmitted their stock certificates to a named paying agent prior to July 2, 1952, and (3) upon such payment, the paying agent overstamped the stock certificates with a legend indicating that payment of the liquidation value had been made and that holders of the overstamped certificates were entitled to receive such additional amounts, if any, as might thereafter be finally determined, provided such overstamped certificates were transmitted to the paying agent for payment within three years after such final determination; and

It having been finally determined on September 15, 1949, that the holders of

certificates of Pened's $5 series and $2.80 series preferred stock were entitled to receive certain payments in addition to the liquidation value of their preferred stocks; and

Aelec and Penelec having filed a post-effective amendment to the section 11 (e) plan wherein it is proposed that the time be extended to November 30, 1952, within which holders of the stock certificates and the overprinted stock certificates of Pened's $5 series and $2.80 series preferred stock may surrender such certificates to the paying agent and receive final payment thereon; and

The Commission having considered such post-effective amendment and deeming it appropriate in the public interest and in the interest of investors that such post-effective amendment be approved:

It is ordered, That the said post-effective amendment be, and hereby is approved:

It is further ordered, That jurisdiction be, and hereby is, reserved to take such further action as the Commission might deem appropriate in connection with the consummation of the plan.

By the Commission.

ECONOMIC STABILIZATION AGENCY

Office of the Administrator

[Determination No. 125]

PUEBLO, COLORADO, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Director of Defense Mobilization, dated September 30, 1952, that the Pueblo, Colorado, area (this area consists of Pueblo County, Colorado), is a critical defense housing area, and in view of the suspension of Regulation X on September 16, 1952, by the Board of Governors of the Federal Reserve System and announcement of a period of residential credit control relaxation by such Board, with the concurrence of the Housing and Home Finance Administrator, effective on that same date (17 F. R. 8350), it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Pueblo, Colorado, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

[Determination No. 129]

DENVER, COLORADO, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Director of Defense Mobilization, dated September 29, 1952, that the Denver, Colorado, area (this area consists of the counties of Denver, Adams, Arapahoe, and Jefferson, Colorado) is a critical defense housing area, and in view of the suspension of Regulation X on September 16, 1952, by the Board of Governors of the Federal Reserve System and announcement of a period of residential credit control relaxation by such Board, with the concurrence of the Housing and Home Finance Administrator, effective on that same date (17 F. R. 8350), it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Denver, Colorado, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

ROGER L. PUTNAM,
Administrator.

[Determination No. 130]

PORTSMOUTH-CHILLICOTHE, OHIO, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Pub. Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Director of Defense Mobilization, dated September 26, 1952, that the Portsmouth-Chillicothe, Ohio, area (the area consists of all of Scioto, Pike, Ross, and Jackson Counties, Ohio) is a critical defense housing area, and in view of the suspension of Regulation X on September 16, 1952, by the Board of Governors of the Federal Reserve System and announcement of a period of residential credit control relaxation by such Board, with the concurrence of the Housing and Home Finance Administrator, effective on that same date (17 F. R. 8350), it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Portsmouth-Chillicothe, Ohio, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

[Determination No. 131]

GREAT LAKES-NORTH CHICAGO-WAUKEGAN, ILLINOIS, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69 and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950, and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Director of Defense Mobilization, dated September 26, 1952, that the Great Lakes-North Chicago-Waukegan, Illinois, area (this area consists of all of Lake County, Illinois) is a critical defense housing area, and in view of the suspension of Regulation X on September 16, 1952, by the Board of Governors of the Federal Reserve System and announcement of a period of residential credit control relaxation by such Board, with the concurrence of the Housing and Home Finance Administrator, effective on that same date (17 F. R. 8350), it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the Great Lakes-North Chicago-Waukegan, Illinois, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Charlotte Luise Margarete Allert (Seibert), whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of Charlotte Luise Margarete Allert (Seibert) in and to the Estate of Rudolf Allert, deceased, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by the Treasurer of the City of New York, as Depositary, acting under the judicial supervision of the Surrogate's Court of Kings County, New York;

and it is hereby determined:

4. That the national interest of the United States requires that the person identified in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 30, 1952.

For the Attorney General

FEDERAL REGISTER

VOLUME 17 NUMBER 196

Washington, Tuesday, October 7, 1952

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 939—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU PEARS GROWN IN OREGON, WASHINGTON AND CALIFORNIA

DETERMINATION RELATIVE TO EXPENSES AND RATE OF ASSESSMENT FOR 1952–53 FISCAL PERIOD

On September 10, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 8160) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1952-53 fiscal period under Marketing Agreement No. 89, as amended, and Order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre d'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 939.205 *Expenses and rate of assessment for the 1952–53 fiscal period*—(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Control Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning July 1, 1952, will amount to $21,748.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles pears shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order, is hereby fixed at six mills ($0.006) per standard western pear box of pears, or its equivalent of pears in other containers or in bulk.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) in accordance with the provisions of said amended marketing agreement and order, the rate of asessment is applicable to all pears shipped during the 1952–53 fiscal period; (2) shipments of such pears are now being made and are subject to the regulatory provisions of pear Order 5 (7 CFR 939.305, 17 F. R. 7274, 7919); (3) the provisions hereof do not impose any obligation on a handler until such handler ships pears; and (4) it is essential that the specification of the assessment rate be issued immediately so that the aforesaid assessments may be collected and thereby enable said Control Committee to perform its duties and functions in accordance with said amended marketing agreement and order.

Nothwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supplementary order, directive, or regulation pursuant thereto.

As used in this section, the terms "handler," "handles," "shipments," "shipped," "pears," "standard western pear box," and "fiscal period" shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 2d day of October 1952.

C. J. MCCORMICK,
Acting Secretary of Agriculture.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

[B. A. I. Orders 368, 378]

PART 91—INSPECTION AND HANDLING OF LIVESTOCK FOR EXPORTATION

PART 93—SPECIAL REGULATIONS GOVERNING EXPORT AND IMPORT OF LIVESTOCK, OTHER ANIMALS, AND POULTRY TO AND FROM MEXICO

MISCELLANEOUS AMENDMENTS

On August 22, 1952, there was published in the FEDERAL REGISTER (17 F. R. 7700) a notice of proposed intention to amend the regulations governing the inspection and handling of livestock for exportation. After due consideration of all relevant material submitted in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by sections 4 and 5 of the act of Congress approved May 29, 1884, as amended (secs. 4, 5, 23 Stat. 32, as amended; 21 U. S. C. 112, 113), section 10 of the act of Congress approved August 30, 1890 (sec. 10, 26 Stat. 417; 21 U. S. C. 105), section 1 of the act of Congress approved May 3, 1891, as amended (sec. 1, 26 Stat. 833, as amended; 46 U. S. C. 466a), section 1 of the act of Congress approved February 2, 1903, as amended (sec. 1, 32 Stat. 791, as amended; 21 U. S. C. 112, 113, 120, 121), the act of Congress approved March 4, 1907 (34 Stat. 1263; 21 U. S. C. 80, 81, 82, 86), and the act of Congress approved July 24, 1919 (41 Stat. 241; 21 U. S. C. 96), revokes the special regulations governing the exportation of livestock to Mexico now contained in §§ 93.13 to 93.17, Part 93, Subchapter D, Chapter I, Title 9, Code of Federal Regulations, and amends Part 91 of said Title 9 in the following respects:

1. The headnote of Part 91 is amended to read as set forth above.

2. Section 91.1 is amended to read:

§ 91.1 *Definitions.* Whenever in the regulations in this part the following words, names, or terms are used they shall be construed as follows:

(a) *Department.* The United States Department of Agriculture.

(b) *Bureau.* The Bureau of Animal Industry of the Department.

(c) *Chief of Bureau.* Chief of the Bureau.

(d) *Inspector.* An inspector of the Bureau.

(e) *Animals.* Horses, cattle, sheep, swine, and goats.

(f) *Horses.* Horses, mules, and asses.

(g) *Roofing paper.* Any saturated roofing paper of a grade known to the trade as 30-pound roofing paper.

(h) *Stanchion.* Post or other fixed upright support.

3. Section 91.3 is amended to read:

§ 91.3 *Ports of export.* The following are designated ports of export for animals at which inspection will be maintained: Portland, Maine; Boston, Massachusetts; New York, New York; Philadelphia, Pennsylvania; Baltimore, Maryland; Newport News and Norfolk, Virginia; Jacksonville, Port Everglades, and Miami, Florida; Mobile, Alabama; New Orleans, Louisiana; Galveston and Houston, Texas; San Diego, Los Angeles, and San Francisco, California; Portland, Oregon; Seattle and Tacoma, Washington; Brownsville, Hidalgo, Rio Grande, Roma, Laredo, Eagle Pass, Del Rio, and El Paso, Texas; Douglas, Naco, and Nogales, Arizona; and Calexico and San Ysidro, California. Other ports may be designated in special cases by the Chief of Bureau.

4. Section 91.5 is amended to read:

§ 91.5 *Diagnostic tests for dairy and breeding cattle.* (a) No dairy or breeding cattle shall be exported to a foreign country unless they are shown by proper certificate to have passed a negative test for tuberculosis and, if they are more than 6 months old, a negative blood test for brucellosis (Bang's disease) within 30 days of the date of shipment: *Provided, however,* That the test for brucellosis may be waived in respect to animals that have been officially vaccinated as calves within the previous 12 months: *And provided further,* That either or both of these tests may be waived upon presentation by the exporter to the inspector at the port of embarkation of a written permit by an authorized representative of the foreign government to ship a specified lot of cattle to that particular country without said tests.

(b) The tuberculin test may be applied by a Bureau inspector or by a veterinarian accredited by the Bureau, in which case the certificate shall be endorsed by the inspector in charge of disease-eradication work in the State of origin. Blood tests for brucellosis shall be made in laboratories recognized by the Bureau and State authorities for that purpose, and the certificate shall be issued or endorsed by the inspector in charge of disease-eradication work in the State of origin. Test charts and certificates shall include descriptions of the cattle with ages and markings.

The foregoing amendments revoke the special regulations governing the exportation of livestock to Mexico (9 CFR 93.13–93.17), make the provisions of 9 CFR, Part 91, applicable to such exportation to Mexico, and provide that the test charts and certificates required by 9 CFR 91.5 include descriptions of the cattle with ages and markings.

The foregoing amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 10, 26 Stat. 417, sec. 1, 26 Stat. 833, as amended, sec. 1, 32 Stat. 791, as amended, 34 Stat. 1263, 41 Stat. 241; 21 U. S. C. 80–82, 86, 96, 105, 112–113, 120–121, 46 U. S. C. 466a)

Done at Washington, D. C., this 1st day of October 1952.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5640]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

FLORIDA CITRUS CANNERS COOPERATIVE ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended—Price discrimination under 2 (a):* § 3.715 *Charges and price differentials.* In connection with the sale of citrus fruit juice products in commerce, discriminating, directly or indirectly, in the price of such products of like grade and quality (1) by selling such products to some purchasers thereof at prices lower than the prices charged other purchasers who in fact compete with the favored purchasers in the sale and distribution of such products; and (2) by selling such products, directly or through brokers, to any purchaser at prices lower than the prices charged other purchasers when such other purchasers buy from the respondents directly or through the respondents' agents or representatives, including brokers, and in fact compete in the sale and distribution of such products with said favored purchaser; prohibited, it being specified that for the purpose of comparison the term "price" as used in the order takes into account discounts, rebates, allowances and other terms or conditions of sale, but excepting C. O. D. and other terms or conditions requiring payment before or upon delivery when shown by the respondents to have been used in a particular instance solely be-

cause poor or bad credit risk was involved.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Florida Citrus Canners Cooperative et al., Lake Wales, Fla., Docket 5640, July 14, 1952]

In the Matter of Florida Citrus Canners Cooperative, a Corporate Cooperative Association, and Its Officers, Directors, and Members

Pursuant to the provisions of an act of Congress entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (the Clayton Act), as amended by an act of Congress approved June 19, 1936 (the Robinson-Patman Act) (15 U. S. C. sec. 13), the Federal Trade Commission on February 18, 1949, issued and subsequently served its complaint in this proceeding upon the respondent, Florida Citrus Canners Cooperative, a corporate cooperative association, and upon its officers and directors and upon certain members of said cooperative association as representative of all the members of the association as a class, charging said Florida Citrus Canners Cooperative, its officers, directors, and members with having violated the provisions of subsection (a) of section 2 of said Clayton Act, as amended by the Robinson-Patman Act.

After the issuance of said complaint and the filing of the respondents' answer thereto, the respondents, pursuant to leave granted, withdrew said answer and filed in lieu thereof a substitute answer in which for the purpose of this proceeding the respondents admitted all of the material allegations of fact set forth in said complaint and waived all intervening procedure and further hearings as to said facts, but reserved to themselves the right of a hearing with oral argument and the filing of briefs before the Commission as to what order, if any, should be issued upon the facts admitted. Subsequently, counsel for the respondents waived oral argument and consented to submission of the matter to the Commission on the record as then constituted. Thereafter, the proceeding regularly came on for final hearing before the Commission upon the complaint, the respondents' substitute answer, a memorandum for disposition of the case filed by counsel in support of the complaint, attached to which was a proposed form of order to cease and desist, and brief filed by counsel for the respondents in which it was contended that no order to cease and desist should be issued herein, but that if an order is to be issued the order proposed was "probably as fair and reasonable to all parties concerned in its terms and provisions as any that could be issued".

The Commission, being of the opinion that the proposed form of order to cease and desist should be altered in certain material respects, declined to dispose of the proceeding by the entry of an order in the form recommended and, on September 24, 1951, issued a tentative order which the Commission proposed to enter after making appropriate findings as to the facts and conclusion based upon and fully consistent with the facts alleged in the complaint and admitted in the substitute answer thereto, and gave the respondents leave to show cause why said tentative order should not be entered herein as the Commission's order to cease and desist. The respondents on October 8, 1951, filed their "Objection to Tentative Order Issued September 24, 1951"; and the Commission, having duly considered said objection and the matter as a whole and being now fully advised in the premises, makes this its findings as to the facts [1] and its conclusion drawn therefrom: [1]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the substitute answer of the respondents, in which answer said respondents, for the purpose of this proceeding, admitted all of the material allegations of fact set forth in the complaint and waived all intervening procedure and further hearings as to said facts, a memorandum of counsel in support of the complaint proposing disposition of the case, attached to which was a proposed form of order to cease and desist, and briefs in support of and in opposition to the complaint and in opposition to the tentative order to cease and desist included in the Commission's order of September 24, 1951, rejecting the form of order to cease and desist proposed by counsel in support of the complaint and affording the respondents an opportunity to show cause why said tentative order should not be entered as the Commission's order to cease and desist; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of subsection (a) of section 2 of an act of Congress entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (the Clayton Act), as amended by an act of Congress approved June 19, 1936 (the Robinson-Patman Act):

It is ordered, That the respondents, Florida Citrus Canners Cooperative, a corporate cooperative association, and its officers, members, agents, representatives, and any other parties acting for or on its behalf, directly or through any corporate or other device, in connection with the sale of citrus fruit juice products in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from discriminating, directly or indirectly, in the price of such products of like grade and quality:

1. By selling such products to some purchasers thereof at prices lower than the prices charged other purchasers who in fact compete with the favored purchasers in the sale and distribution of such products.

2. By selling such products, directly or through brokers, to any purchaser at prices lower than the prices charged other purchasers when such other purchasers buy from the respondents directly or through the respondents' agents or representatives, including brokers, and in fact compete in the sale and distribution of such products with said favored purchaser.

For the purpose of comparison the term "price" as used in this order takes into account discounts, rebates, allowances and other terms or conditions of sale (excepting C. O. D. and other terms or conditions requiring payment before or upon delivery when shown by the respondents to have been used in a particular instance solely because poor or bad credit risk was involved).

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: July 14, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 535—PAYMENT OF BILLS AND ACCOUNTS

PAYMENT OF TRANSPORTATION ACCOUNTS

Sections 535.22 to 535.27 are rescinded and the following §§ 535.22 to 535.34 substituted therefor:

Sec.
535.22 By whom paid.
535.23 Action when transportation appears to have been furnished improperly.
535.24 Payment when documents covering personal transportation are lost or destroyed.
535.25 Payment of bills of lading.
535.26 Advance payment.
535.27 Responsibility and action in case of loss, destruction, or damage.
535.28 Goods accepted after rejection.
535.29 Settlement of claims of vendors for prepaid transportations costs.
535.30 Assignment of claims.
535.31 Savings in freight charges.
535.32 Increased freight charge liability.
535.33 Overpayments.
535.34 Adjustments by General Accounting Office.

AUTHORITY: §§ 535.22 to 535.34 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 54 Stat. 954, as amended; 49 U. S. C. 65.

DERIVATION: SR 35-3200-1, Sept. 8, 1952.

§ 535.22 *By whom paid*—(a) *Within continental limits of United States and Alaska*—(1) *Finance Office, U. S. Army, Washington 25, D. C.* (i) All transportation accounts for Department of the Army bills of lading and transportation requests issued for service to and from and within the continental limits of the United States and Alaska (except those payable from appropriations for civil functions of the Corps of Engineers and transoceanic shipments from and to foreign countries moving by water) will be paid by the disbursing officer of the Finance Office, U. S. Army, Transportation Division, Washington 25, D. C.

(ii) Bills for miscellaneous charges such as demurrage, icing, salting, switching, reweighing, storage, etc., accruing in connection with shipments under Department of the Army bills of lading and transportation requests will be paid by the disbursing officer of the Finance Office, U. S. Army, Transportation Division, Washington 25, D. C.

(2) *Local disbursing officer.* Bills for miscellaneous charges, such as demurrage, icing, salting, switching, reweighing, storage, etc., accruing on shipments under prepaid commercial bills of lading or where no bill of lading or actual transportation movement is involved will be paid by the local disbursing officer without the necessity of obtaining a purchase order or other contractual instrument. Carrier's bill certified by the transportation officer or other authorized official of the Government as to performance of service and citing the appropriation chargeable will be accepted in lieu of purchase order or other contractual instrument.

(b) *Outside continental limits of United States.* (1) Accounts pertaining to Department of the Army bills of lading issued for service within the Caribbean or Pacific area, Philippine Islands, and in foreign countries covering ocean transportation services (except Government bills of lading covering ocean transportation from one point in the European Theater to another point in the European Theater), will be paid by the Disbursing Officer, Military Sea Transportation Service, Department of the Navy, Washington 25, D. C. Such transportation accounts will be forwarded to Commander, Military Sea Transportation Service, Department of the Navy, Washington 25, D. C.

(2) Transportation requests issued for service within the Caribbean or Pacific area, Philippine Islands, and in foreign countries will be paid by a disbursing officer in the area concerned except Canada and Mexico which will be paid by the disbursing officer of the Finance Office, U. S. Army, Transportation Division, Washington 25, D. C.

(c) *Officers of the Army detailed to the Air Force, Navy, Marine Corps, or Coast Guard and officers of those services detailed to the Army for duty.* Payment of transportation accounts for packing, crating, drayage, unpacking, uncrating, and shipment of authorized household goods, reimbursement therefor, for officers of the Army detailed to the Air Force, Navy, Marine Corps, or Coast Guard and officers of those services detailed to the Army for duty, will be made by the designated disbursing officer or agent of the service issuing the orders. (Example: Upon initial detail of a Navy officer (under Navy orders) to the Army, payment of transportation accounts will be made by the Navy. Upon future movements of this detailed Navy officer, including relief from duty with the Army (under Army orders), payment of transportation accounts will be made by the designated Army disbursing officer.) The amount will be chargeable to the appropriation of the service issuing the orders and no transfer of funds is necessary.

(d) *Civil functions of the Corps of Engineers.* Accounts covering transportation payable from appropriations for civil functions of the Corps of Engineers will be paid by district officers of the Corps of Engineers specially designated to settle the accounts for the specific project.

§ 535.23 *Action when transportation appears to have been furnished improperly.* If it appears to the paying officer that transportation has been furnished improperly by the issuing officer, he will make payment to the carrier for the service actually rendered, and will call upon the issuing officer for the authority upon which such transportation was furnished.

§ 535.24 *Payment when documents covering personal transportation are lost or destroyed*—(a) *Lost or destroyed request.* Payment of transportation charges, where the original transportation request has been lost or destroyed may be made only when the provisions of SR 55-110-1 (Department of the Army special regulations pertaining to transportation request) have been accomplished.

(b) *Lost or destroyed ticket.* Where the passenger has lost or destroyed the ticket issued on a transportation request, no refund can be secured from the carrier and a new transportation request cannot be issued for the same journey except as provided in SR 55-110-1.

§ 535.25 *Payment on bills of lading*—(a) *On original only.* Payment of transportation charges ordinarily will be made on the original accomplished Government bill of lading and never on memorandum copies or shipping orders.

(b) *When original lost.* Payment of transportation charges where the original bill of lading has been lost will be made on Standard Form 1108 (Certificate in Lieu of Lost U. S. Government Bill of Lading).

§ 535.26 *Advance payment.* Advance payment for movement of household goods for members of the uniformed services is not authorized. The purchase on behalf of the Government of coupon books to be used in the procurement of gasoline and oil incident to the operation of an automobile under Government control is not authorized, as such purchase involves the payment for supplies in advance of delivery in contravention of section 3648, Revised Statutes. See 8 Comp. Gen. 454.

§ 535.27 *Responsibility and action in case of loss, destruction, or damage*—(a) *General.* Payment for transportation of freight or express will be made to the last carrier, unless otherwise provided in the bill of lading, and only for the quantity of property delivered at destination, except that in case of loss of weight by natural shrinkage en route, the weight shipped as shown in the bill of lading, will be paid for, provided the packages are delivered intact.

(b) *Responsibility of carrier.* The carrier will be held responsible for loss, destruction, or damage to property while in transit in accordance with discrepancy notations on bills of lading, unless the cancellation of any such notation is authorized by the consignee who made it or the carrier is relieved of such responsibility by a report of survey. Reports of survey submitted and approved are the final authority under which common carriers are held responsible or relieved from responsibility.

(c) *Charges against carrier to be deducted from settlement.* Loss, destruction, or damage for which the carrier is held responsible will be deducted in making settlement for services.

§ 535.28 *Goods accepted after rejection*—(a) *Chargeable to contractor.* When goods have been rejected at destination by reason of the goods not being in accordance with the terms of the contract or purchase order, and are subsequently accepted by the Government under a reduced price or other adjustment, they may be accepted only under the terms of new or amended contract entered into by and between the contracting officer and the contractor. The payment to the contractor in this latter case would depend upon the terms of that contract and, in arriving at the price to be paid for the goods, consideration will be given to whatever charges may have been incurred or may have accrued at destination because of the prior rejection of the goods. While the new contract may provide for a total consideration without mentioning these charges specifically, it will refer to them in order to obviate any misunderstanding as to whether or not they are included in the consideration for the new agreement. In these cases all bills covering such charges will be certified by the destination transportation officer to show that payment will be made by the Government and adjustment thereof will be made by the contracting officer in entering into the new contract. The destination transportation officer will furnish to the contracting officer, with copies to the disbursing officer concerned, a statement showing the character and amounts of such bills, together with the name of the disbursing officer by whom the bills will be settled. When adjustment has been made, the contracting officer will advise the disbursing officer concerned in order that he may take action toward crediting the appropriation from which payments are made.

(b) *Chargeable to the Government.* If, through error on the part of the Government, goods are rejected at destination and are subsequently accepted, they can be accepted under the original contract only, in which case the Government becomes liable for all charges.

§ 535.29 *Settlement of claims of vendors for prepaid transportation costs.* The disbursing officer of the Finance Office, U. S. Army, Transportation Division, Washington 25, D. C., is designated as the paying officer for transportation accounts only in those cases where shipment moves on Government bill of lading, or there is a conversion to Government bill of lading prior to payment and a properly certified bill supported by such document is submitted by a carrier. It is not the function of the Finance Office, U. S. Army, Washington 25, D. C., to make reimbursement, either in the full amount, or in part, of a claim arising out of prepayment for transportation costs by a commercial concern under

a procurement instrument which provides directly or indirectly for shipment at the expense of the United States. Such reimbursement may be made by the disbursing officer designated to make payment under the procurement instrument in question to the extent of the constructive transportation cost for shipment on Government bill of lading, which cost may be ascertained from the Finance Office, U. S. Army, Transportation Division, Washington 25, D. C. In doubtful cases, such claims may be prepared for transmission to the General Accounting Office and submitted to the Chief of Finance, Washington 25, D. C., Attention: Receipts and Disbursements Division, for consideration. In no event will the disbursing officer forward, or instruct a vendor to forward, such a claim to the Finance Office, U. S. Army, Washington 25, D. C., for settlement.

§ 535.30 *Assignment of claims.* (a) A Government bill of lading constitutes a contract for transportation of the goods involved and as such comes within the authority in the Assignment of Claims Act of 1940, as amended, to assign moneys due or to become due "under a contract providing for payments aggregating $1,000 or more." See 21 Comp. Gen. 265.

(b) Where a carrier has assigned to a bank all moneys due for freights on the outward voyage of a vessel, and the Government bills of lading representing numerous shipments on the vessel constitute the only contract for the transportation, the assignment may be recognized, under the Assignment of Claims Act of 1940, as amended, as authorizing payment in the name of the assignee only with respect to each such bill of lading which involves a payment of $1,000 or more, but where the amount involved is less than $1,000, payment should be made in the name of the transportation company and the check mailed in care of the assignee. See 21 Comp. Gen. 265.

(c) Where an indefinite-quantity master contract with a particular carrier for hauling services to be entered into by the Department of the Army under its war powers authority as facilitating the prosecution of the war, would obligate the Government to order services for which payments would aggregate at least $1,000 during a given period, although each individual service would be covered by a separate bill of lading which might involve a payment of less than $1,000, payments under the contract are assignable pursuant to the Assignment of Claims Act of 1940, as amended, as "aggregating $1,000 or more" within the meaning of the act. 21 Comp. Gen. 365, amplified. See 23 Comp. Gen. 989.

(d) Where the quantity of hauling service to be ordered by the Government under a proposed contract with a carrier would be stated only as an estimate, which estimate would be not less than $1,000, but with the right reserved to the Government to order "more or less" than said estimated amount, the contract would not be one "providing for payments aggregating $1,000 or more" within the meaning of the Assignment of Claims Act of 1940, as amended, so that the payments under the contract could be assigned. See 23 Comp. Gen. 989.

(e) Where payments for hauling services under a master contract with a particular carrier are assigned pursuant to the Assignment of Claims Act of 1940, as amended, the bill of lading and voucher covering each individual hauling service should indicate that payments thereon are to be made to the designated assignee, with appropriate reference being made to the master contract. See 23 Comp. Gen. 989.

(f) A transportation request constitutes a contract for transportation of persons and as such comes within the authority in the Assignment of Claims Act of 1940, as amended, to assign moneys due or to become due "under a contract providing for payments aggregating $1,000 or more."

§ 535.31 *Savings in freight charges.* Shipment to the designated destination from a point nearer than the f. o. b. point does not entitle the contractor to the savings in freight charges over what the Government would have had to pay had shipment been from the f. o. b. point, even though the supplies cost the contractor more at the shipping point than they would have cost at the f. o. b. point. See 3 Comp. Gen. 56; 18 id. 953.

§ 535.32 *Increased freight charge liability.* The issuance of a change order at the request, and for the convenience, of the contractor, authorizing the shipment of certain materials on Government bill of lading from a place other than the f. o. b. shipping point designated in the contract with the stipulation that all other terms and conditions of the contract remain unchanged, is not to be regarded as imposing a liability on the Government for the additional freight costs resulting therefrom, notwithstanding the fact that the destination point was undetermined at the time of the issuance of the change order. See 28 Comp. Gen. 653.

§ 535.33 *Overpayments.* (a) Carriers may be paid in full and in due course for the transportation on Government bills of lading of the household effects, etc., including that in excess of the authorized weight allowances of Army officers upon change of station, without regard to whether any reimbursement has been or is to be collected from the officers for such excess, but such authority to pay carriers does not preclude a determination by the proper authority that the finance officer or other Department of the Army officer is pecuniarily responsible for failure to collect the required reimbursement. See 21 Comp. Gen. 559.

(b) Where the shipment of the household effects of a service member on change of station is made on a Government bill of lading, the carrier is entitled to payment pursuant to section 322 of the Transportation Act of 1940 (54 Stat. 955; 49 U. S. C. 66) prior to audit or settlement by the General Accounting Office, and the certifying officer will not be held financially liable for payments so made to the carrier, even though the member be primarily liable for a portion thereof due to excess weight, etc. 21 Comp. Gen. 559, distinguished. See 25 Comp. Gen. 360.

(c) Overpayments reported to administrative offices and disbursing officers in connection with the post audit of transportation payments generally should be recovered administratively from amounts otherwise payable on subsequent vouchers, and only in cases where the disbursing officer or administrative office concerned does not have, and is not likely to have, a subsequent voucher on which collection may be effected should the overpayment be reported to the General Accounting Office for collection as a claim by the United States against the payee. See 20 Comp. Gen. 347.

(d) Where it is determined that overpayments have been made to a transportation company as a result of overcharges made by such transportation company to a cost-plus-a-fixed-fee contractor who, in turn, has been reimbursed by the Government, the General Accounting Office will send notices of such overpayments to the disbursing officer of the Finance Office, U. S. Army Transportation Division, Washington 25, D. C., who will make the deductions from subsequent carrier bills and advise the sender in the General Accounting Office and the carrier of the deductions made. From that point on the matter of correctness of the original deductions will be a matter for settlement between the carrier involved and the General Accounting Office. All questions received from carriers as to the correctness of the original deductions should be referred to the Freight Transportation Section, Claims Division, General Accounting Office, Washington 25, D. C.

§ 535.34 *Adjustments by General Accounting Office.* Where a contract requires the contractor to deliver at a point f. o. b. and provides that the Government may direct delivery to be made at other points, with an adjustment in the contract price corresponding to the resulting increase or decrease in the amount of the freight, a disbursing officer will not attempt to adjust the matter if the contractor refuses to accept payment on the usual basis and contends that he has paid transportation expenses which the Government was obligated to pay or that the deduction from the contract price sought to be made on account of freight paid by the Government is excessive. Such cases will be transmitted to the General Accounting Office for direct settlement as claims. See 8 Comp. Gen. 500.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army.
The Adjutant General.

PART 536—CLAIMS AGAINST THE UNITED STATES

PART 537—CLAIMS ON BEHALF OF THE UNITED STATES

MARITIME CLAIMS

The following amendments to Subchapter B are issued:

1. Part 536 is amended by adding a new § 536.45, as follows:

§ 536.45 *Martime claims under Public Law 186, 82d Congress*—(a) *Scope.* Set forth in this section are the policies pertaining to section 1 of the act which provides for the settlement or compromise of claims for damage to, or loss or destruction of property, or personal injury or death caused by vessels of, or in the service of, the Department of the Army, and compensation for towage and salvage services, including contract salvage, rendered to such vessels, where the net amount payable by the United States, as settled or compromised, does not exceed $500,000.

(b) *Amounts exceeding $500,000.* Claims against the United States, settled or compromised at a net amount exceeding $500,000, are not payable hereunder, but will be investigated and processed under this section, and, if approved by the Secretary of the Army, will be certified by him to the Congress.

(c) *Claims not payable under this section.* Claims of the following categories are not payable under this section.

(1) Claims for damage to, or loss or destruction of property, or for personal injury or death, resulting from action by the enemy, or resulting directly or indirectly from any act by armed forces engaged in combat.

(2) Claims on account of personal injury or death of mmebers of the Armed Forces of the United States incurred incident to their service.

(3) Claims on account of personal injury or death of civilian employees of the United States, to whom the Federal Employees' Compensation Act of September 7, 1916 (39 Stat. 742), as amended (5 U. S. C. 751 et seq.) is applicable.

(4) Claims for damage to or loss or destruction of property, or for personal injury or death, caused other than by vessels of or in the service of the Department of the Army.

(5) Claims as to which a suit has been filed by or against the United States and which is pending. (46 U. S. C. 786.)

(d) *Claims cognizable under other claims regulations.* (1) Claims which are within the scope of this section and also within the scope of §§ 536.12 to 536.23 normally will be processed under this section but may be processed under the provisions of §§ 536.12 to 536.23 where specific authority to do so has been obtained from The Judge Advocate General.

(2) Claims of military personnel and civilian employees of the Department of the Army for damage to, or loss, or destruction of personal property, occurring incident to their service, will be processed under the provisions of § 536.27. Claims of civilian crew members of Army vessels arising out of the war-risk benefit provisions of section 12, Maritime Personnel Regulations, Transportation Corps Pamphlet 4, November 5, 1947, will be settled under that regulation. (5 U. S. C. 946.)

(3) Claims which are within the scope of this section and also within the scope of § 536.26 may be processed under the provisions of § 536.26 where specific authority to do so has been obtained from The Judge Advocate General.

(e) *Claims of subrogees.* (1) An insurance carrier will be recognized as a claimant under this section to the extent that it has become subrogated by payment to, or in behalf of its insured, pursuant to a contract of insurance in force at the time of the accident, or incident from which the claim arises. An insurance carrier and its insured may file a claim either jointly or separately. Joint claims must be asserted in the names of, and must be signed by, all parties; payment then will be made jointly. If separate claims are filed, payment to each party will be limited to the extent of such party's undisputed interest.

(2) For the purpose of determining authority to settle or compromise a claim, the payable interests of the insurance carrier (or carriers) and the insured represent merely separable interests, which interests in the aggregate, must not exceed the amount authorized for administrative settlement or compromise.

(3) The policies set forth in subparagraphs (1) and (2) of this paragraph with respect to subrogation arising from insurance contracts are applicable to all other types of subrogation.

(f) *Statute of limitations.* No claim against the United States will be considered under this section unless it is presented in writing within 2 years after the cause of action arises. The presentation of a claim under this section does not toll the statute of limitations. See § 752.2 of this title.

(g) *Responsibility.* Claims within the purview of this section may be disapproved if asserted in an amount not exceeding $1,000, or settled or compromised at a net amount not exceeding $1,000 by The Judge Advocate General or such other officers or persons as the Secretary of the Army may designate for that purpose.

2. Part 537 is amended by adding a new § 537.7, as follows:

§ 537.7 *Maritime claims under Public Law 186, 82d Congress*—(a) *Scope.* Set forth in this section are the policies pertaining to sections 2 and 3 of the act which provide for the settlement or compromise of claims for damages cognizable in admiralty in a district court of the United States, and all claims for damage caused by a vessel or floating object to property of the United States under the jurisdiction of the Department of the Army, or property for which the Department of the Army may have assumed, by contract or otherwise, any obligation to respond for damage thereto, where the net amount payable to the United States does not exceed $500,000, and claims in any amount for salvage services (including towage) rendered by the Department of the Army to any vessel.

(b) *Amounts exceeding $500,000.* Claims in favor of the United States, except claims for salvage service, may not be settled or compromised under this section at a net amount exceeding $500,000 payable to the United States. However, all such claims otherwise within the scope of this section will be investigated and reported to the Judge Advocate General.

(c) *Civil works activities.* Rights of the United States or penalties created by any statute and to liens, forfeitures, or other special remedies, by virtue of the provisions of the Rivers and Harbors Act, March 3, 1899, as amended (30 Stat. 1151; 33 U. S. C. 401–534), are not dealt with in this section. However, claims in favor of the United States for money damages, which are civil in nature, arising out of civil works activities of the Corps of Engineers, with respect to which an adequate remedy, in the discretion of the Chief of Engineers, is not afforded under the above-cited statute, may be processed under this section.

(d) *Responsibility.* Claims under this section, except claims for salvage services, may be settled or compromised at a net amount not exceeding $1,000 by The Judge Advocate General or such other officers or persons as the Secretary of the Army may designate for that purpose.

(e) *Demands.* Demands for the payment of claims in favor of the United States under this section may be made by The Judge Advocate General or other designees named in paragraph (d) of this section.

[AR 25-60, Sept. 18, 1952] (Secs. 1-6, 65 Stat. 573; 10 U. S. C. 1861-1866)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 52-10796; Filed, Oct. 6, 1952; 8:45 a. m.]

Chapter VII—Department of the Air Force

Subchapter C—Claims and Accounts

PART 836—CLAIMS AGAINST THE UNITED STATES

Sections 836.141 to 836.148 are added to Part 836 as follows:

MARITIME CLAIMS

Sec.
836.141 Scope.
836.142 Amounts exceeding $500,000.
836.143 Claims not payable.
836.144 Claims cognizable under other claims regulations.
836.145 Claims of subrogees.
836.146 Statute of limitations.
836.147 Delegation of authority.
836.148 Investigation procedure.

AUTHORITY: §§ 836.141 to 836.148 issued under secs. 1-6, 65 Stat. 572; 10 U. S. C. 1861-1866.

DERIVATION: AFR 112-12.

MARITIME CLAIMS

§ 836.141 *Purpose and scope.* (a) The regulations contained in §§ 836.141 to 836.148, which are issued with the prior approval of the Secretary of Defense, set forth the policies of the Department of the Air Force relative to the settlement or compromise, under the act of October 20, 1951 (65 Stat. 572; 10 U. S. C. 1861–1866) of all claims against the United States not the subject of pending litigation, which arise from marine accidents and incidents.

(b) Included in §§ 836.141 to 836.148 are the policies pertaining to section 1 of the act (65 Stat. 572; 10 U. S. C. 1861), which provides for the settlement or compromise of claims for damage to, or loss or destruction of property, or personal injury or death caused by vessels of, or in the service of, the Department of the Air Force, and compensation for towage and salvage services, including contract salvage, rendered to such vessels, where the net amount payable by the United States, as settled or compromised, does not exceed $500,000.

NOTE: The act of October 20, 1951 (65 Stat. 572; 10 U. S. C. 1861–1866) merely supplements the following statutes and authorizes the administrative settlement or compromise of such of those claims as are within its scope: The Tucker Act of March 3, 1887 (24 Stat. 505), as amended and codified in Title 28 U. S. C. by the Act of June 25, 1948 (62 Stat. 869); the Suits in Admiralty Act of March 9, 1920, as amended (41 Stat. 525, as amended; 46 U. S. C. 741–752); the Public Vessels Act of March 3, 1925 (43 Stat. 1112; 46 U. S. C. 781–790); as amended by the Act of June 19, 1948 (62 Stat. 496; 46 U. S. C. 740); and the Rivers and Harbors Act of March 3, 1899, as amended (30 Stat. 1151, as amended; 33 U. S. C. 401–534).

§ 836.142 *Amounts exceeding $500,000.* Claims against the United States, settled or compromised at a net amount exceeding $500,000 are not payable hereunder, but will be investigated and processed under §§ 836.141 to 836.148, and, if approved by the Secretary of the Air Force, will be certified by him to the Congress.

§ 836.143 *Claims not payable.* Claims of the following categories are not payable under §§ 836.141 to 836.148:

(a) Claims for damage to, or loss or destruction of property, or for personal injury or death, resulting from action by the enemy, or resulting directly or indirectly from any act by armed forces engaged in combat.

(b) Claims on account of personal injury or death of members of the Armed Forces of the United States incurred incident to their service.

(c) Claims on account of personal injury or death of civilian employees of the United States, to whom the Federal Employees' Compensation Act of September 7, 1916 (39 Stat. 742, as amended; 5 U. S. C. 751, et. seq.) is applicable.

(d) Claims for damage to or loss or destruction of property, or for personal injury or death, caused other than by vessels of or in the service of the Department of the Air Force.

(e) Claims as to which a suit has been filed by or against the United States and which is pending (43 Stat. 1113; 46 U. S. C. 786).

§ 836.144 *Claims cognizable under other claims regulations.* (a) Claims which are within the scope of §§ 836.141 to 836.148 and also within the scope of §§ 836.11 to 836.24 (17 F. R. 3320) will normally be processed under §§ 836.141 to 836.148, but may be processed under the provisions of §§ 836.11 to 836.24 where specific authority to do so has been obtained from The Judge Advocate General, United States Air Force.

(b) Claims of military personnel and civilian employees of the Department of the Air Force for damage to, or loss, or destruction of personal property, occurring incident to their service, will be processed under the provisions of §§ 836.90 to 836.108 (15 F. R. 1511).

(c) Claims which are within the scope of §§ 836.141 to 836.148 and also within the scope of §§ 836.61 to 836.83 (15 F. R. 867) may be processed under the provisions of §§ 836.61 to 836.83 where specific authority to do so has been obtained from The Judge Advocate General, United States Air Force.

§ 836.145 *Claims of subrogees.* (a) An insurance carrier will be recognized as a claimant under §§ 836.141 to 836.148 to the extent that it has become subrogated by payment to, or in behalf of its insured, pursuant to a contract of insurance in force at the time of the accident, or incident from which the claim arises. An insurance carrier and its insured may file a claim either jointly or separately. Joint claims must be asserted in the names of, and must be signed by, all parties; payment will then be made jointly. If separate claims are filed, payment to each party will be limited to the extent of such party's undisputed interest.

(b) For the purpose of determining authority to settle or compromise a claim, the payable interests of the insurance carrier (or carriers) and the insured represent merely separable interests, which interests in the aggregate, must not exceed the amount authorized for administrative settlement or compromise.

(c) The policies set forth in paragraphs (a) and (b) of this section with respect to subrogation arising from insurance contracts are applicable to all other types of subrogation.

§ 836.146 *Statute of limitations.* No claim against the United States will be considered under §§ 836.141 to 836.148 unless it is presented in writing within two years after the cause of action arises. The presentation of a claim under §§ 836.141 to 836.148 does not toll the statute of limitations. (See § 752.2 of this title).

§ 836.147 *Delegation of authority.* Claims within the purview of §§ 836.141 to 836.148 may be disapproved if asserted in an amount not exceeding $1,000 or settled or compromised at a net amount not exceeding $1,000 by The Judge Advocate General, Assistant Judge Advocate General (Civil Law), Chief, Claims Division, Office of the Judge Advocate General, or Assistant Chief, Claims Division, Office of The Judge Advocate General, United States Air Force, or such other officers or persons as the Secretary of the Air Force may designate for that purpose.

§ 836.148 *Investigation procedure.* Claims arising within the purview of §§ 836.141 to 836.148 will be investigated and processed in accordance with the provisions of §§ 836.1 to 836.6 (17 F. R. 3320) or other applicable regulations.

PART 837—CLAIMS IN FAVOR OF THE UNITED STATES

1. "General Provisions" is hereby designated the center head for §§ 837.1 to 837.7 (15 F. R. 690; 32 CFR 837.1–837.7).

2. The following §§ 837.11 to 837.15 are added to Part 837.

MARITIME CLAIMS

Sec.
837.11 Scope.
837.12 Amounts exceeding $500,000.
837.13 Delegation of authority.
837.14 Demands.
837.15 Investigation procedure.

AUTHORITY: §§ 837.11 to 837.15 issued under secs. 1–6, 65 Stat. 572; 10 U. S. C. 1861–1866.

DERIVATION: AFR 112–12.

MARITIME CLAIMS

§ 837.11 *Purpose and scope.* (a) The regulations contained in §§ 837.11 to 837.15, which are issued with the prior approval of the Secretary of Defense, set forth the policies of the Department of the Air Force relative to the settlement or compromise, under the act of October 20, 1951 (65 Stat. 572; 10 U. S. C. 1861–1866) of all claims in favor of the United States not the subject of pending litigation, which arise from marine accidents or incidents.

(b) Included in §§ 837.11 to 837.15 are the policies pertaining to sections 2 and 3 of the act (65 Stat. 572; 10 U. S. C. 1862, 1863), which provide for the settlement or compromise of claims for damages cognizable in admiralty in a district court of the United States, and all claims for damage caused by a vessel or floating object to property of the United States under the jurisdiction of the Department of the Air Force, or property for which the Department of the Air Force may have assumed, by contract or otherwise, any obligation to respond for damage thereto, where the net amount payable to the United States does not exceed $500,000, and claims in any amount for salvage services (including towage) rendered by the Department of the Air Force to any vessel.

§ 837.12 *Amounts exceeding $500,000.* Claims in favor of the United States, except claims for salvage services, may not be settled or compromised under §§ 837.11 to 837.15 at a net amount exceeding $500,000 payable to the United States. However, all such claims otherwise within the scope of § 837.11 to 837.15, will be investigated and reported to The Judge Advocate General, United States Air Force.

§ 837.13 *Delegation of authority.* Claims under §§ 837.11 to 837.15 except claims for salvage services, may be settled or compromised at a net amount not exceeding $1,000 by The Judge Advocate General, Assistant Judge Advocate General (Civil Law), Chief, Claims Division, Office of The Judge Advocate General, Assistant Chief, Claims Division, Office of The Judge Advocate General, United States Air Force, or such other officers or persons as the Secretary of the Air Force may designate for that purpose.

§ 837.14 *Demands.* Demands for the payment of claims in favor of the United States under §§ 837.11 to 837.15 may be made by The Judge Advocate General or other designees named in § 837.13.

§ 837.15 *Investigation procedure.* Claims arising within the purview of §§ 837.11 to 837.15 will be investigated and processed in accordance with the provisions of §§ 836.1 to 836.6 (17 F. R. 3320) or other applicable regulations.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

[F. R. Doc. 52–10801; Filed, Oct. 6, 1952; 8:46 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 9, Revision 1, Amdt. 1]

CPR 9—TERRITORIES AND POSSESSIONS

USE OF COMPARISON COMMODITIES IN DETERMINING MARKUPS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 9, Revision 1, is hereby issued

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 9, Revision 1, establishes ceiling prices on the basis of markups. Several methods are provided for a seller to determine the markup to use in computing his ceiling prices.

Section 3 (a) provides that the markup for a commodity delivered in the base period is the difference between the last direct cost incurred by the seller during the base period on which the selling price was figured, and the selling price. If a seller did not deliver the commodity in the base period, he determines his markup under section 3 (b) on the basis of his offering price in the base period. If he did not deliver or offer his commodity in base period he computes his markup under section 3 (c) (1) on the basis of his selling prices in the calendar year 1950. For new commodities, and as an alternative method for determining his markup for commodities not delivered or offered for delivery during the base period, section 3 (c) (2) provides that the seller may use the markup of a comparison commodity which has the same direct cost. This section of the regulation has proved satisfactory for those instances where a seller had a commodity with the same direct cost. In a great many cases, however, there is no comparison commodity with the same direct cost. This has made it necessary for a seller to make formal written application to the Office of Price Stabilization for a ceiling price under section 3 (d).

With a greatly reduced staff in the field offices due to the curtailment of the Office of Price Stabilization budget, an inordinately heavy work load has been imposed by these applications. It is therefore desirable that a method be devised for determining the markup under section 3 (c) (2) which would provide somewhat greater latitude to sellers in the use of comparison commodities.

This amendment changes section 3 (c) (2) to provide that the markup for a commodity which a seller did not deliver or offer to deliver in the base period and for which he cannot, or does not choose to, determine his markup under subparagraph (1) of section 3 (c) is to be the average of the dollar and cents markup of commodities in the same category with the same direct cost, or if there is no commodity in the same category with the same direct cost, it is to be the markup of the most nearly similar commodity in the same category with a direct cost not more than ten percent lower, or in the event the seller is not able to use either of these two methods for determining his markup he will be permitted to take, as his markup, the markup of the most nearly similar commodity in the same category which has a direct cost not more than ten percent higher than the direct cost of the commodity for which he seeks to determine his markup.

The Office of Price Stabilization feels that these provisions will give sufficient latitude to sellers to greatly reduce the workload of processing applications under section 3 (d). It will also relieve sellers of the considerable burden of making application for ceiling prices for a multitude of new commodities.

In the formulation of this amendment, no formal consultations have been held with the industry. Formal conferences which would embrace such widely separated areas as the territories and possessions of the United States would not be practicable. However, a great deal of correspondence on this subject has been received from sellers in the territories, from Chambers of Commerce and similar organizations, and full consideration has been given to the recommendations of these persons and groups. In the opinion of the Director, this amendment is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 3 (c) (2) is amended to read as follows:

(2) *Customarily sold by you (alternative method) or new commodities.* Your markup for a commodity which you did not deliver or offer to deliver in the base period and for which you cannot or do not choose to determine your markup under subparagraph (1) of this paragraph, is:

(i) The average of the dollar and cents markup, established under paragraphs (a), (b), or (d) of this section for sales by you, of all commodities in the same category having the same direct cost, or if you have no commodities in the same category with the same direct cost,

(ii) The markup of the most nearly similar commodity in the same category with a direct cost not more than ten per cent lower, or if you have no similar commodity with the same direct cost or a direct cost not more than ten per cent lower,

(iii) The markup of the most nearly similar commodity in the same category with a higher direct cost, provided that the direct cost of that commodity is not more than ten per cent higher than the direct cost of the commodity for which you seek to determine your markup.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 9, Revision 1, is effective October 11, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

[F. R. Doc. 52–10925; Filed, Oct. 6, 1952; 10:47 a. m.]

[Ceiling Price Regulation 92, Amdt. 10]

CPR 92—LAMB, YEARLING AND MUTTON PRODUCTS SOLD AT WHOLESALE

YEARLING AND MUTTON

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 10 to Ceiling Price Regulation 92 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation (CPR) 92 authorizes the sale of ungraded yearling and mutton and provides one ceiling price for all carcasses and cuts of yearling and mutton.

1. Distribution Regulation 2, Revision 1 explains why grading and grademarking of yearling mutton and mutton are no longer required. Therefore, Distribution Regulation 2, Revision 1 is incorporated herein.

2. Yearling mutton and mutton carcasses and cuts are currently selling substantially below the ceiling prices established by CPR 92 and it is not expected that they will be sold at or close to those prices in the reasonably foreseeable future. For these reasons, it would be appropriate to suspend price controls on these commodities. It is recognized, however, that because of the similarity of top grades of lamb to meat of other ovine species, complete suspension of controls might enable sellers of prime, choice and good lamb carcasses and cuts to pass them off as yearling and thus evade the ceiling prices on lamb if there were no ceilings established on yearling mutton and mutton. Accordingly, this amendment provides that no carcass or cut of yearling or mutton may be sold at a price higher than the ceiling price for a prime yearling carcass or the corresponding cut of prime yearling. Thus this amendment substantially suspends ceiling prices on yearling mutton and mutton while retaining an over-riding ceiling to prevent evasion.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Titles I and IV of the Defense Production Act of 1950, as amended, are appropriate to promote the national defense, and comply with all the applicable standards of the act. In the formulation of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Ceiling Price Regulation 92 is amended in the following respects:

1. A new section 17 is added, reading as follows:

SEC. 17. *Yearling and Mutton Ceiling Prices and Grades.* Notwithstanding any of the provisions of this regulation or of Distribution Regulation 2, you may sell a carcass or cut of yearling or mutton that is ungraded and you may sell a carcass or cut of yearling or mutton at a price not in excess of the ceiling price provided in this regulation for a carcass or the corresponding cut of prime grade yearling.

2. Section 50 is amended by deleting the definition of "lamb, yearling or mutton product" and substituting the following therefor:

"Lamb product" means meat graded as lamb under the provisions of Distribution Regulation 2 and in accordance with the "Official U. S. Standard for Grades of Lamb, Yearling Mutton and Mutton Carcasses" of the United States Department of Agriculture, or any product produced in whole or in substantial part from lamb, except sausage and canned meats.

"Yearling or mutton product" means carcasses and meat derived from carcasses defined as yearling mutton or mutton by the "Official U. S. Standard for Grades of Lamb, Yearling Mutton and Mutton Carcasses" of the United States Department of Agriculture, or any product produced in whole or in substantial part from yearling mutton or mutton (or any combination of these), except sausage and canned meats.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective on October 6, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

[F. R. Doc. 52-10026; Filed, Oct. 6, 1952; 10:47 a. m.]

[Ceiling Price Regulation 167, Amdt. 1]

CPR 167—CEILING PRICES FOR PRODUCERS AND DISTRIBUTORS OF COTTONSEED FEED PRODUCTS

CERTAIN FEED MIXES CONTAINING COTTONSEED FEED PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 167 is hereby issued.

STATEMENT OF CONSIDERATIONS

There has been a growing practice recently among persons who process agricultural commodities into feeds and feed ingredients, of adding other ingredients, thereby creating a new mixture. Generally, the straight feed normally produced by such processors constitutes at least 80 percent of the weight of the mixture. Processors engaging in this practice have established ceiling prices under the General Ceiling Price Regulation (GCPR) which range substantially above ceiling prices for the straight feed or feed ingredient which constitutes the bulk (frequently as high as 95–98 percent) of the mixture.

Even where the added ingredients are less costly than the straight feed product they replace—and this has usually been the case—the ceiling prices so established for the mixtures have been markedly higher than those of the basic feed products.

The increased prices established for the feeds so mixed have not been justified by their production cost, nor is there justification for the higher prices formula fed manufacturers and feeders are obliged to pay.

Moreover, there is widespread complaint against the distortions caused by the increasing substitution of such mixtures for the straight feed products customarily produced and sold.

It has become increasingly apparent that action is necessary to prevent serious dislocations in the price structure of feedstuffs and to avoid the inflationary effects of this new practice. The Director has given careful consideration to a number of alternative methods of dealing with the problem. The method used in this amendment with respect to mixes based on cottonseed feed products has been found to be the only practicable one taking into account all the interests involved, including the growers of the agricultural commodities, the processors who have adopted or propose to adopt the practice, the manufacturers of formula feeds, the livestock, poultry and cattle feeders, and the ultimate consumers of beef, pork, poultry, eggs, milk, and other related food commodities.

Due account has been taken, not only of the excessive levels attained in establishing ceiling prices for the mixes under the GCPR but also of the dislocations caused by the substitution of the new mixes for the straight feed product customarily processed and sold.

Ceiling prices for mixtures which are sold in lieu of the straight feed customarily produced will no longer be established under the GCPR. They will instead be based on the ceiling price of the basic ingredient—in this case, cottonseed feed products—plus the cost of the other ingredients and a one dollar mixing allowance. Prices so calculated which do not exceed the processor's ceiling price per ton for the basic ingredient may be taken by the processor as his ceiling price for the mixture without application to OPS. This will normally be the case, since the ingredients added to the basic feed product have in most instances been cheaper than the ceiling prices for the basic feed.

When the mix price calculated under this method exceeds the ceiling price for the basic feed, the processor may apply to OPS for a ceiling price, but until the Director establishes a different ceiling price, the processor may not sell the mix at prices higher than his ceiling price for the basic feed included in the mix. In reviewing such applications under this amendment, the Director will give particular attention to the submission of cost figures for the ingredients.

The Director has recognized that the formula for establishing ceiling prices for mixes generally would not be appropriate in the case of mixes which may have been produced and sold prior to the time when the practice of substituting mixes for the straight meal began. Accordingly, it has been provided that processors who sold such mixes during the base crop year (August 1950 to July 1951) may continue to use ceiling prices established under the GCPR. However, such GCPR ceiling prices will apply only to deliveries in any quarter of the current crop year (August 1952 to July 1953) which do not exceed 110 percent of the quantities of such product delivered during the same quarter of the base crop year. The 10 percent increase thus allowed is estimated to cover any normal volume increases, but sales during any quarter exceeding this volume must be made at the lower ceiling prices established for the mixes generally.

Provision is also made for limiting the volume of toll crushing to the volume of cottonseed toll-crushed during the base crop year. This provision is deemed necessary, in the light of experience, to prevent the use of toll crushing as an evasive device. In any event, toll crushing of cottonseed has not customarily been engaged in on an extensive scale, and this limitation is not expected to interfere with normal toll crushing operations.

This amendment applies the new policy on mixes to those based on cottonseed feed products. Similar action is being taken currently on mixes based on flaxseed feed products and soybean feed products.

In view of the necessity for prompt action on this amendment, in order to apply the new mix policy simultaneously to cottonseed mixes when such action was taken with respect to mixes based on other oilseed feeds, it was not practicable in the formulation of this amendment to have formal consultation with industry representatives or with trade association representatives. There has been informal consultation with industry members to the extent practicable.

Every effort has been made to conform this amendment to existing industry practices. Insofar as any provisions of this amendment may operate to compel changes in those practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this amendment.

In the judgment of the Director of Price Stabilization, the ceiling prices established by this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 167 is amended in the following respects:

1. Section 2 of the regulation is amended by adding paragraph (c) which reads as follows:

(c) Deliveries of mixes made no later than October 31, 1952, under "firm contracts" entered into prior to October 3, 1952, for delivery before November 1, 1952. A "firm contract" means a contract which is not subject to adjustment or renegotiation of price or month of delivery.

2. The regulation is amended by adding a new section, Section 21, which reads as follows:

SEC. 21. *Mixes.* (a) As used in this regulation, (1) "Mix" means any mixture at least 80 percent of the weight of which consists of any domestic or imported cottonseed feed product.

(2) "Base crop year" means the period August 1, 1950 to July 31, 1951.

(3) "Current crop year" means the period August 1, 1952 to July 31, 1953.

(4) "Processor" with respect to a lot of a mix, means the person who produced that lot.

(b) If you are a processor of a mix which you did not deliver during the base crop year your ceiling price per ton, bulk, in a carload lot or pool carlot, f. o. b. your plant, is your "f. o. b. mix price" as determined under paragraph (c) of this section.

(c) Ascertain your "f. o. b. mix price" as follows:

(1) Make the following determinations:

Step 1. Determine for each ingredient in the mix, other than cottonseed feed products, the cost to you of the quantity of such ingredient in one ton of the mix. Such cost may not exceed your supplier's ceiling price to you if you buy such ingredient, and may not exceed your cost of production if you produce it.

Step 2. Ascertain your ceiling price, per ton, bulk, in carload lots or pool carlots, f. o. b. your plant, of the cottonseed feed product included in the mix. For this purpose use the same ceiling price you would have if you guaranteed the actual protein content of the product included in the mix.

If you include more than one cottonseed feed product in the mix use the average of the ceiling prices of such cottonseed feed products, per ton bulk, f. o. b. your plant, weighted in accordance with the proportionate weight of each such product to the total weight of all cottonseed feed products in the mix.

If you include in your mix any domestic or imported cottonseed feed product of which you are not the processor, use under this Step 2 the per ton bulk carlot f. o. b. ceiling price you would have if you were the processor of that cottonseed feed product.

Step 3. Multiply the ceiling price determined under Step 2 by the fraction representing the proportion which the weight of the cottonseed feed product(s) in the mix bears to one ton.

Step 4. Add the results under Steps 1 and 3.

Step 5. Add a $1.00 mixing allowance to the result under Step 4.

(2) The result under Step 5 is your "f. o. b. mix price" if it does not exceed the price established under Step 2. If the result obtained under Step 5 exceeds the price established under Step 2, the Step 2 price is your "f. o. b. mix price" for the mix.

(3) If the result under Step 5 exceeds the price established under Step 2, you may file an application for a different "f. o. b. mix price". You may not, in determining your ceiling price for the mix, use an "f. o. b. mix price" different from that established under paragraph (c) (2) of this section unless and until the Director of Price Stabilization notifies you in writing that you are authorized to do so. Your signed application should be addressed to the Grains and Related Products Branch, Food and Restaurant Division, Office of Price Stabilization, Washington 25, D. C., and must include:

(i) The name and address of your company.

(ii) The location of the plants at which you will produce the mix.

(iii) A list of all the ingredients in the mix, and the quantity of each such ingredient, by weight, per ton of the mix.

(iv) A statement of the cost to you (calculated under paragraph (c) (1) of this section) of the quantity of each ingredient other than cottonseed feed products per ton of the mix and an explanation of the method and calculations by which you arrived at such cost.

(v) Your ceiling price per ton, bulk, f. o. b. your plant and the protein content of each cottonseed feed product contained in the mix, or (if you are not the processor), what such ceiling price would be if you were the processor of each such cottonseed feed product.

(4) If you are required to establish your ceiling price for sales and deliveries of the mix in accordance with paragraphs (b) and (c) of this section you must make and keep for inspection by the Office of Price Stabilization for a period of two years the following records in addition to those required by section 17:

(i) Worksheets showing in detail the method and calculations you used in determining the cost to you of the ingredients in the mix under Step 1, paragraph (c) (1) of this section.

(ii) All invoices covering ingredients included in the mix other than cottonseed feed products with identification of those invoices used in calculating your ceiling prices for mixes.

(iii) All other material you used in making the determinations under Step 1, paragraph (c) (1) of this section.

(iv) Original and revised ceiling prices established for each mix and the periods during which they applied.

(d) (1) If you are a processor of a mix which you delivered during the base crop year your ceiling prices are as follows:

(i) For deliveries during any quarter of the current crop year not in excess of the amount of such mix which you delivered during the same quarter of the base crop year multiplied by 1.10 your ceiling price is the same ceiling price as you establish in accordance with the GCPR and SR 7 to the GCPR.

(ii) For deliveries during any quarter of the current crop year in excess of the amount of such mix which you delivered during the same quarter of the base crop year multiplied by 1.10 your ceiling price is the same as the price you establish in accordance with paragraphs (b) and (c) of this section.

(2) You may not sell the mix until you have mailed by registered mail, return receipt requested, to the Office of Price Stabilization, Grains and Related Products Branch, Washington 25, D. C., a report of the number of tons of such mix which you delivered during each quarter of the base crop year.

(3) If you establish your ceiling price for a mix under subparagraph (1) (i) of this paragraph then, in addition to the records required under Section 17, you must make and keep for inspection by the Office of Price Stabilization for a period of two years the records required under the GCPR and SR 7 to the GCPR. If you establish a ceiling price for deliveries under subparagraph (1) (ii) of this paragraph, you must, in addition, keep the records required under paragraph (c) (4) of this section.

(e) The Director of Price Stabilization may at any time request further information or disapprove or revise ceiling prices established, reported or proposed under this section for the purpose of bringing them in line with the level of ceiling prices otherwise established under this regulation.

(f) In sections 1, 4, 5, 6, 8, 9, 10, 11, and 17 the term "cottonseed feed product", "cottonseed feed products", and "all other cottonseed feed products", will be deemed to include mixes.

3. The regulation is amended by adding a new section, Section 22, which reads as follows:

SEC. 22. *Toll crushing.* (a) You may not perform any toll crushing until you have mailed by registered mail, return receipt requested, to the Office of Price Stabilization, Grains and Related Products Branch, Washington 25, D. C. a report of the quantity of cottonseed you toll crushed during each quarter of the base crop year. Thereafter, you may not during any calendar quarter of the current crop year toll crush a greater volume of cottonseed than you toll crushed during the same quarter of the base crop year.

(b) "Toll crush" means to perform the service of processing cottonseed into any cottonseed feed product and/or cottonseed oil.

(c) If you toll crush you must, in addition to the records required under section 18 of Ceiling Price Regulation 34, keep a record of each sale of your toll crushing service containing the following information:

(1) The name and address of the person to whom you rendered the service;

(2) The date on which you performed the toll crushing;

(3) The quantity of cottonseed which you toll crushed.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 7, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

[F. R. Doc. 52-10930; Filed, Oct. 6, 1952; 4:00 p. m.]

[Distribution Regulation 2, Revision 1]

DR 2—ALLOCATION RECORDS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, Economic Stabilization Agency General Order 2 and Economic Stabilization Agency General Order 5, Revision, this Distribution Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This revised regulation collates Distribution Regulation (DR) 2 and the amendments thereto into one document and eliminates the requirements concerning the grading and grademarking of yearling mutton and mutton.

Insofar as this regulation merely restates without substantial change the former provisions of DR 2, as amended, the statements and statements of consideration accompanying DR 2 and its amendments apply equally to this revised regulation and therefore those statements are incorporated herein.

Yearling mutton and mutton together account for only an insignificant portion of all meat consumed in this country. So small is the total production and consumption of yearling mutton and mutton that even were it necessary to allocate meat, it is unlikely that there would be allocation of either of these two types of meat in the foreseeable future. Accordingly, there is no present reason to require the grading and grademarking of these meats for possible future allocation.

While the Office of Price Stabilization has the authority to require grading and grademarking for price control purposes, for the reasons stated in Amendment 10 to Ceiling Price Regulation 92, which are incorporated herein it has been decided not to continue different ceiling prices on each grade of yearling mutton and mutton but, instead, overriding ceiling prices applicable to all grades have been imposed.

Since grading and grademarking of yearling mutton and mutton is no longer appropriate to carry out the Office of Price Stabilization's authority under Title I of the act and is not necessary to price control at this time this revised regulation omits the requirements for grading and grademarking of yearling mutton and mutton.

In the formulation of this revised regulation special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

In the judgment of the Director of Price Stabilization the provisions of this revised regulation are generally fair and equitable, are necessary to effectuate the purposes of Title I and Title IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the national defense and comply with all of the applicable standards of the act.

REGULATORY PROVISIONS

Sec.
1. What this Revised regulation does.
2. Where this Revised regulation applies.
3. Records and inspection.
4. Deliveries required by the Director of the Office of Price Stabilization.
5. Grading and grade marking.
6. Additional prohibitions.
7. Penalties.
8. Definitions.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title I and Title IV, 64 Stat. 798, 809, as amended; 50 U. S. C. App. Sup. 2061, 2071–2073, 2101, 2110, E. O. 10161, Sup. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this Revised regulation does.* This Revised regulation takes the following initial steps necessary for a detailed allocation program:

(a) First, it establishes a system of record-keeping with respect to deliveries of meat by sellers of meat at wholesale.

(b) Second, it provides for uniform grading of carcasses and wholesale cuts of beef, veal, calf and lamb in conformity with the standard grading system of the United States Department of Agriculture and requires that such carcasses and wholesale cuts be graded and grade marked.

SEC. 2. *Where this Revised regulation applies.* The provisions of this Revised regulation shall be effective in each of the 48 States of the United States and in the District of Columbia.

SEC. 3. *Records and inspection—(a) Invoices.* If you are a seller of meat at wholesale you must make for each sale, delivery or transfer of meat to a civilian buyer who is not an ultimate consumer, an invoice, sales slip or memorandum of sale setting forth the following information:

(1) The date of the sale, delivery, shipment or transfer to the buyer.

(2) Your name and address and the name and address of the buyer.

(3) The type, kind and cut of all meat sold, delivered or transferred, the grade of each cut if it is beef, veal, calf or lamb, the class of each such cut if it is beef and the weight range of each such cut if it is pork.

(4) The price paid, charged or received for each cut of meat and the weight of each such cut.

You must deliver a copy of such invoice, memorandum of sale or sales slip to the buyer and you and the buyer must each keep a copy.

(b) *Records of production and deliveries.* (1) If you are a seller of meat and meat products at wholesale you must keep records from which you can readily derive for each accounting period the total dollar volume of your deliveries to all civilian buyers, of all meat and meat products (including variety meats, semi-sterile canned meat and sausage but not including sterile canned meat).

(2) If you are a seller of meat at wholesale you must keep delivery records from which you can readily derive for each accounting period the weight of your total deliveries to all civilian buyers of beef, veal, calf and lamb, respectively, by grade, and of pork by the following cut classifications; loins, shoulders (including picnics, boneless butts, and Boston butts), hams, bellies, trimmings, and all other pork (except offal).

(3) If you are a seller of meat at wholesale you may keep, in lieu of the records required by section 3 (b) (2), records from which you can readily derive for each accounting period, by the use of conversion factors or otherwise, the following information:

(i) The dressed weight of your total slaughter of beef, veal, calf and lamb, respectively, by grade, and of your total slaughter of pork;

(ii) The weight of your total purchases of beef, veal, calf and lamb, respectively, by grade, and of pork by the following cut classifications: Loins, shoulders (including picnics, boneless butts, and Boston butts), hams, bellies, trimmings, and all other pork (except offal);

(iii) The weight of your opening and closing inventories of each of the following: Unprocessed utility beef, unprocessed cutter and canner beef, and unprocessed bull beef, and of pork by the following cut classifications: Loins, shoulders (including picnics, boneless butts, and Boston butts), hams, bellies, trimmings, and all other pork (except offal);

(iv) The weight of your total deliveries to the United States or any agency thereof of beef, veal, calf and lamb, respectively, by grade, and of pork, by the following cut classifications: Loins, shoulders (including picnics, boneless butts, and Boston butts), hams, bellies, trimmings, and all other pork (except offal).

(c) *1950 records.* If you are a seller of meat at wholesale you must keep all your records for the year 1950 relating to the purchase, sale or delivery of meat.

(d) *Meat grade certificates.* You must keep the certificates furnished you by official graders of the United States Department of Agriculture in accordance with section 5 (b) of this regulation.

(e) *Preservation of records.* You must keep all records required under this revised regulation and under Distribution Regulation 2 for a period of two years after the effective date of this revised regulation.

(f) *Inspection.* All records kept by you under this regulation may be inspected by the Office of Price Stabilization through any authorized representative. The inspection may be made at your place of business during regular business hours. If you are required to keep records under this regulation you must keep them available for such inspection.

(g) *Disclosure.* Information and documents obtained from you under this regulation will not be disclosed, whether in response to a subpoena or in any other way, unless the Director of the Office of Price Stabilization (or a representative of the Office of Price Stabilization designated by him) finds that the requested disclosure is necessary under the Defense Production Act of 1950, as amended.

SEC. 4. *Deliveries required by the Director of the Office of Price Stabilization.* Upon a finding and certification by the Secretary of Agriculture to the President that the over-all supply of meat and meat products is inadequate to meet the civilian or military needs therefor, the Director of the Office of Price Stabilization may from time to time, upon a finding that there is a critical shortage of meat in a certain area require you by order if you are a seller of meat at wholesale to deliver meat to such areas in such amounts up to ten percent of your total available supply and upon such reasonable terms and conditions as he may determine.

SEC. 5. *Grading and grade marking—(a) Requirement of grading.* (1) Each carcass and wholesale cut of beef, veal, calf and lamb, with the exceptions specified in section 5 (a) (3) must be graded and grademarked in accordance with the requirements of this section and the grademark must be preserved on each such carcass and wholesale cut. This requirement applies, with the specified exceptions, to each veal or calf carcass with skin on and, upon removal of the skin, to each veal or calf carcass and wholesale cut derived therefrom. For the purpose of this section, ribbing shall not constitute breaking.

(2) You may not sell, offer for sale, ship, deliver or break, and you may not, in the course of trade or business, buy or receive any carcass or wholesale cut of beef, veal, calf or lamb unless each such carcass and wholesale cut has been graded and grademarked in accordance with the requirements of this section and unless the grademark has been preserved on each such carcass and wholesale cut. In addition, you may not agree, offer, attempt or solicit another to do any act in violation of this section.

(3) However, if you are a resident operator of a farm or a livestock raiser who qualifies under Distribution Regulation 1, Revision 1, as amended, you may ship, deliver, break or receive an ungraded or ungrademarked carcass or wholesale cut derived from livestock slaughtered by you or by a registered Class 1 or Class 2 slaughterer for consumption in your own household or on a farm which you operate. If you are a person other than a resident operator of a farm or a livestock raiser who qualifies under Distribution Regulation 1, Revision 1, as amended, you may ship, deliver, break or receive an ungraded or ungrademarked carcass or wholesale cut derived from livestock slaughtered pursuant to Distribution Regulation 1, Revision 1, as amended, if you have received from the owner of the carcass or wholesale cut a statement that either: (i) He operates a farm on which he resides for more than six months a year; or (ii) he actually superintended the raising of the livestock from which the carcass or wholesale cut was derived and it was raised on his own premises for at least 90 days immediately before slaughter, or, if the livestock was less than 90 days old at the time of slaughter, then that it was raised on his own premises from the time of its birth, and (iii) the carcass or wholesale cut is intended for consumption in his own household or on a farm which he operates. A statement furnished pursuant to Distribution Regulation 1, Revision 1, as amended, by the owner of the livestock from which the carcass or wholesale cut is derived, as a prerequisite to its slaughter, will be deemed sufficient to meet the requirements of the preceding sentence.

(b) *Grading by official graders.* Grading and grade marking shall, except in the cases covered in paragraphs (c), (d), and (e) of this section be performed by official graders of the Federal Meat Grading Service of the United States Department of Agriculture. Grades shall be determined and grade marks shall be applied in accordance with the provisions of Appendices A, B and C. The official grader will furnish you with a certificate covering products graded by him. You must pay the regularly established rates for the services of official graders.

(c) *Grading by non-official graders—(1) General authority to self-grade.* You may grade a carcass or wholesale cut of beef, "Cutter" or "Canner" and may grade mark such carcass or wholesale cut "60" or "70", yourself. You may grade a carcass or wholesale cut of veal, calf or lamb, "Cull" and may grade mark such carcass or wholesale cut "60", yourself. If you wish to have beef graded higher than "Cutter", or veal, calf or lamb graded higher than "Cull", you must, unless paragraph (d) or (e) is applicable, apply for the services of an official grader.

(2) *When services of official grader are not available.* If, after application for the services of an official grader pursuant to the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, Prepared Meats and Meat Products; and Administrator's Instructions thereunder" (Code of Federal Regulations, Title 7, Chapter 1, Subchapter C, Part 53, §§ 53.1 to 53.42) you have received from a duly authorized representative of the Department of Agriculture a letter advising you that until further notice the services of an official grader will not be available you may perform the grading and grade marking of carcasses and wholesale cuts of beef, veal, calf or lamb yourself subject to the limitations set forth in section 5 (g), until such time as you have been advised thereafter that the services of an official grader will be available. The letter may, notwithstanding the provisions of paragraph (a) of this section, authorize you, if you do not wish to perform the grading and grade marking yourself, to ship such carcass and wholesale cuts to a place specified therein for grading and grade marking by an official grader.

(d) *Grading for Class 3 slaughterers.* If you are a Class 3 slaughterer you may (1) perform the grading and grade marking of beef, veal, calf or lamb carcasses and wholesale cuts yourself, or (2) deliver such carcasses to a commercial freezer or cooler plant, and have the owner or operator of such plant perform the grading and grade marking of the carcasses which you deliver to him. Grading and grade marking by you or by such owner or operator shall be performed in accordance with the provisions of Appendices A, B and C.

(e) *Grading of veal and calf carcasses.* If a veal or calf carcass has been graded and grade marked with skin on by an official grader you may, if an official grader is not available, upon removal of the skin, grade mark the carcass and each wholesale cut. In such case, numeral grade marks must be applied in the manner specified in Appendix B.

(f) *Familiarity with standards.* If you perform the grading of any beef, veal, calf or lamb carcass, or wholesale cut, yourself, you must apply the provisions of this section, the provisions of Appendices A, B, and C, and the applicable official standards of the Department of Agriculture for the grading of carcasses of the type which you are grading.

(g) *Limitation on nonofficial graders.* If you perform the grading and grade marking of any beef, veal, or calf carcass or wholesale cut, yourself, under section 5 (c) (2) or section 5 (d), you may not grade any such carcass or wholesale cut better than "Commercial" and you may not grade mark it better than "40" except that you may in the cases covered in section 5 (e) grade mark a veal or calf carcass or wholesale cut upon removal of the skin in accordance with the grade determined by the official grader. If you perform the grading and grade marking of any lamb carcass or wholesale cut yourself, under section 5 (c) (2) or section 5 (d), you may not grade any such carcass or wholesale cut better than "Utility" and you may not grade mark it better than "50". These limitations also apply to the owner or operator of a commercial freezer or cooler plant if he performs grading and grade marking of carcasses which you delivered to him in accordance with section 5 (d).

(h) *Appeal grading.* If you have a financial interest in any beef, veal, calf or lamb carcass which has been graded and grade marked by an official grader in accordance with this section and you are dissatisfied with the determination of such official grader, you may appeal the grading and grade marking by making an application for appeal grading in the manner provided in the "Rules and Regulations of the Secretary of Agriculture Governing the Grading and Certification of Meats, Prepared Meats, and Meat Products: and Administrator's instructions thereunder" (Code of Federal Regulations, Title 7, Chapter 1, Subchapter C, Part 53, §§ 53.1 to 53.42).

(i) *Private grades or brands.* You are permitted to use a private grading and branding system in addition to that required by this section provided that you identify your private grading and branding system in such a manner as to distinguish it from the official grade marks as specified in Appendixes A, B, and C,

and provided that your private mark or brand is physically separated from the grade marks and provided that you may not use any of the words comprising an official grade mark in your private brand or mark.

SEC. 6. *Additional prohibitions.* You may not—

(a) Place false or misleading information on any invoice, sales slip, memorandum of sale schedule or other record;

(b) Alter, deface, mutilate, or destroy any record specified herein;

(c) Forge or counterfeit any record specified herein;

(d) Acquire, use, transfer or possess a forged, counterfeited, altered, defaced, or mutilated record specified herein;

(e) Wrongfully withhold a record specified herein;

(f) Bribe, hinder, or interfere with authorized Office of Price Stabilization officials; or

(g) Attempt to do any act in violation of this regulation, directly or indirectly, or aid or encourage another to do so.

SEC. 7. *Penalties.* If you violate any provision of this regulation you are subject to the criminal penalties and the civil remedies provided by the Defense Production Act of 1950, as amended.

SEC. 8. *Definitions.* When used in this regulation the term

(a) "Meat" means skeletal meat, that part of striated muscle, with or without attached overlying fat, which is part of a dressed carcass of beef, veal, calf, lamb or pork in good health at the time of slaughter. It does not include variety meat, canned meat or sausage.

(b) "Type of meat" means (1) beef, (2) veal, (3) calf, (4) lamb or (5) pork.

(c) "Beef", "veal", "calf", and "lamb", mean meat graded as such pursuant to the provisions of this regulation and in accordance with the "Official U. S. Standards for Grades of Carcass Beef", the "Official U. S. Standards for Grades of Veal and Calf Carcasses" and the "Official U. S. Standards for Grades of Lamb, Yearling Mutton and Mutton Carcasses" of the United States Department of Agriculture. "Pork" means meat derived from the carcasses of swine.

(d) "Class of meat" means with respect to beef carcasses, "bull".

(e) "Grade of meat" means one of the standard Department of Agriculture grades of beef, veal, calf or lamb, the use of which is required by this regulation.

(f) "Kind of meat" means meat of a given condition, of boning, trimming and/or stage of processing such as bone-in, boneless, trimmed, untrimmed, fresh, frozen, cured, smoked, cooked, dried, etc.

(g) "Cut of meat" means a dressed carcass or any given part thereof.

(h) "Weight range" means the range of weights within which you sell cuts of pork at the same price per pound.

(i) "Seller of meat at wholesale" means every person who regularly sells meat to persons who are not ultimate consumers.

(j) "Ultimate consumer" means an individual who purchases meat for his own consumption or that of his household.

(k) "Civilian buyer" means any buyer other than the United States or any agency thereof.

(l) "Accounting period" means the customary accounting period of a calendar month or a period of at least four weeks and not more than five weeks in length used by you in keeping your books and records, and shall be the same period used by you in making reports, if any, to the United States Department of Agriculture or to the Office of Price Stabilization, pursuant to Distribution Regulation 1, Revision 1.

(m) "You" means any individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof or any other government, or any of the political subdivisions or any agency of the foregoing, provided that no punishment shall apply to the United States or to any such government, political subdivision or agency.

Effective date. The provisions of this revised regulation shall be effective on and after October 6, 1952.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

APPENDIX A—BEEF

1. GRADES

Beef carcasses and the wholesale cuts therein contained derived from steers, heifers, cows, bulls and stags shall be graded in the following uniform grades: Prime, choice, good, commercial, utility, cutter and canner, except that no cow, or bull, or stag carcass or wholesale cut shall be graded prime. In determining the grade of each beef carcass, the "Official U. S. Standards for Grades of Carcass Beef" (Code of Federal Regulations, Title 7, Chapter 1, Subchapter C, Part 53, §§ 53.102 to 53.104) shall be used, and the grade for such carcass shall apply to each wholesale cut derived therefrom.

2. GRADE MARKS

The appropriate grade mark for each grade of beef shall be as follows:

Grade	Grade mark	
	By official graders	By other than official graders when authorized
Prime	Prime	
Choice	Choice	
Good	Good	
Commercial	Commercial	
Utility	Utility	40
Cutter	Cutter	50
Canner	Canner	60
		70

The word "Bull" where applicable shall be stamped on each wholesale cut.

3. APPLICATION OF GRADE MARKS

Grade marks shall be applied in the following manner:

(a) *By official graders.* Grade marks applied by official graders shall be applied in accordance with the procedures specified in Instruction No. 918 (LS-B & G)-3 of the Production and Marketing Administration of the United States Department of Agriculture or any amendment or revision thereof.

(b) *By other than official graders.* Grade marks applied by persons other than official graders shall be stamped (i) with edible violet meat branding fluid, (ii) in numerals at least ½ inch in height, (iii) not more than two inches apart, and (iv) along both sides of the chine bone and continuing down the outside of the round or leg to the beginning of the gambrel cord, and also along the belly on each side of the carcass, across the shoulder and along the fore shank. The grade stamping device shall include only the grade numerals. Class identification ("Bull") shall be made with a hand stamp at least once on each wholesale cut in letters at least one inch in height.

APPENDIX B—VEAL AND CALF

1. GRADES

Veal and calf carcasses and the wholesale cuts therein contained shall be graded in the following uniform grades: Prime, choice, good, commercial, utility and cull. In determining the grade of each such carcass the "Official U. S. Standards for Grades of Veal and Calf Carcasses" (Code of Federal Regulations, Title 7, Chapter 1, Subchapter C, Part 53, §§ 53.107 to 53.111) shall be used and the grade for such carcass shall apply to each wholesale cut derived therefrom, provided that if grading is performed by other than official graders no carcass shall be graded as veal or calf if it weighs more than 275 pounds, skin off, chilled, or 315 pounds, skin on, chilled. Such carcasses shall be graded as beef.

2. GRADE MARKS

The appropriate grade marks for each grade of veal or calf shall be as follows:

Grade	Grade mark	
	By official graders	By other than official graders when authorized
Prime	Prime	1 10
Choice	Choice	1 20
Good	Good	1 30
Commercial	Commercial	40
Utility	Utility	50
Cull	Cull	60

1 Not to be used except when carcass with skin on has been graded by an official grader.

The words "VEAL" or "CALF" where applicable shall be stamped on each wholesale cut.

3. APPLICATION OF GRADE MARKS

Grade marks shall be applied in the following manner:

(a) *By official graders.* Grade marks applied by official graders shall be applied in accordance with the procedures specified in Instruction No. 918 (LS-S & G)-3 of the Production and Marketing Administration of the United States Department of Agriculture or any amendment or revision thereof.

(b) *By other than official graders.* Grade marks applied by other than official graders shall be stamped (i) with edible violet meat branding fluid and (ii) in numerals at least ½ inch in height. A veal or calf carcass sold with the skin on shall be stamped only on the flanks and briskets. Upon removal of the skin, the grade marks shall be stamped not more than two inches apart along both sides of the chine bone and continuing down the outside of the round or leg to the beginning of the gambrel cord, and also not more than two inches apart along the belly on each side of the carcass, across the shoulder and along the shank. The grade stamping device shall include only the grade numerals. Class identification ("Veal" or "Calf") shall be made with a hand stamp at least once on each wholesale cut in letters at least one inch in height.

APPENDIX C—LAMB

1. GRADES

Lamb carcasses and the wholesale cuts therein contained shall be graded in the following uniform grades: Prime, choice, good, utility and cull. In determining the grade of each lamb carcass, the "Official U. S. Standards for Grades of Lamb, Yearling Mutton Carcasses" (Code of Federal Regulations, Title 7, Chapter 1, Subchapter C, Part 53, §§ 53.114 to 53.118) shall be used, and the grade for such carcass shall apply to each wholesale cut derived therefrom.

2. GRADE MARKS

The appropriate grade mark for each grade of lamb shall be as follows:

Grade	Grade Mark	
	By official graders	By other than official graders when authorized
Prime	Prime	
Choice	Choice	
Good	Good	
Utility	Utility	50
Cull	Cull	60

3. APPLICATION OF GRADE MARKS

Grade marks shall be applied in the following manner:

(a) *By official graders.* Grade marks applied by official graders shall be applied in accordance with the procedures specified in Instruction No. 918 (LS-S & G)-3 of the Production and Marketing Administration of the United States Department of Agriculture or any amendment or revision thereof.

(b) *By other than official graders.* Grade marks applied by persons other than official graders shall be stamped (i) with edible violet meat branding fluid, (ii) in numerals at least ½ inch in height, (iii) not more than two inches apart, and (iv) along both sides of the chine bone and continuing down the outside of the round or leg to the beginning of the gambrel cord, and also along the belly on each side of the carcass, across the shoulder and along the shank. The grade stamping device shall include only the grade numerals.

[General Ceiling Price Regulation, Amdt. 36]

GCPR—GENERAL CEILING PRICE REGULATION

PLACE FOR FILING REPORTS UNDER SECTION 6 AND APPLICATIONS UNDER SECTION 7 FOR RETAILERS, WHOLESALERS, SERVICE SUPPLIERS AND SMALL MANUFACTURERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 36 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to the General Ceiling Price Regulation is issued as a part of the plan to delegate to the field offices of the Office of Price Stabilization, the authority to act on reports filed under section 6 and applications filed under section 7 of the GCPR by retailers, wholesalers, sellers of services and small manufacturers. By Delegation of Authority 76, the Director of Price Stabilization has delegated to the Regional Directors of the OPS the authority to act on such reports and applications. The Regional Directors may redelegate their authority to the District Directors. To carry out this plan this amendment provides that such reports and applications are to be filed with the field offices of OPS.

In view of the broad coverage of this amendment, special circumstances have made it impracticable to consult with representatives of the affected industries or trade associations.

AMENDATORY PROVISIONS

The General Ceiling Price Regulation is amended in the following respects:

1. In the second sentence of the third subparagraph of section 6 (a), the phrase "with the Director of Price Stabilization, Washington 25, D. C." is deleted so that the sentence now reads: "Before selling any commodity or service for which you have determined a ceiling price under this section, you must file the report required by paragraph (b) and, in addition, you must observe the following requirements:"

2. In the second sentence of subparagraph (a) (3) of section 6, the phrase "to the Director of Price Stabilization, Washington 25, D. C." is deleted so that the sentence reads: "You may begin sales of the new commodities and services as soon as you have prepared these records and mailed the required report and may continue to sell them unless and until notified by the Director of Price Stabilization that your ceiling prices have been disapproved or that more information is required."

3. A new subparagraph is inserted at the beginning of section 6 (b) to read as follows: "You should file your report with the OPS District Office for the district in which your place of business is located except as follows: (1) If you are a manufacturer and your gross sales of your manufactured commodities for your last complete fiscal year amounted to $250,000 or more, or if you are a new manufacturer who has not completed a fiscal year, but you expect your gross sales of your manufactured commodities to reach $250,000 during your first fiscal year, you should file your report with the Director of Price Stabilization, Washington 25, D. C., and (2) Reports for a group of retail sellers determining uniform ceiling prices under section 12 should be filed in the OPS District Office for the district in which the central office of the group is located, or, if all sellers in the group are not located in the same OPS region, with the Director of Price Stabilization, Washington 25, D. C."

4. In the first sentence of section 7, the phrase "to the Director of Price Stabilization, Washington 25, D. C." is deleted so that the sentence now reads: "If your claim that you are unable to determine your ceiling price for a commodity or service under any of the foregoing provisions of this regulation (which, in the opinion of the Director of Price Stabilization, provides adequate pricing instructions for virtually all transactions), you may apply in writing for the establishment of a ceiling price."

5. A new paragraph is added at the end of section 7 to read as follows: "You should file your application with the OPS District Office for the district in which your place of business is located except as follows: (1) If you are a manufacturer and your gross sales of your manufactured commodities for your last complete fiscal year amounted to $250,000 or more, or if you are a new manufacturer who has not completed a fiscal year, but you expect your gross sales of your manufactured commodities to reach $250,000 during your first fiscal year, you should file your application with the Director of Price Stabilization, Washington 25, D. C., and (2) Applications for a group of retail sellers determining uniform ceiling prices under section 12 should be filed in the OPS District Office for the district in which the central office of the group is located, or, if all sellers in the group are not located in the same OPS region, with the Director of Price Stabilization, Washington 25, D. C."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 11, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

[F. R. Doc. 52-10932; Filed, Oct. 6, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Amdt. 1 to Supplementary Regulation 79]

GCPR, SR 79—ADJUSTMENT OF CEILING PRICES FOR RETAIL SALES OF VEAL, LAMB, AND MUTTON PRODUCTS

YEARLING AND MUTTON

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this Amendment 1 to Supplementary Regulation 79 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment changes Supplementary Regulation 79 to the General Ceiling Price Regulation to conform to changes in Distribution Regulation (DR) 2 and Ceiling Price Regulation (CPR) 92.

For the reasons stated in DR 2, Revision 1 and the Statement of Considerations accompanying Amendment 10 to CPR 92, both of which are incorporated herein, grading and grademarking of yearling mutton and mutton carcasses and cuts are no longer required. Accordingly, this amendment revises the definitions of "lamb" and "mutton" to reflect the termination of grading and grademarking requirements on yearling mutton and mutton.

The method of calculating retail ceiling prices for lamb, yearling mutton and mutton remains the same as it was prior to the issuance of this amendment. The only difference is that the meat currently purchased may or may not have affixed thereto an official grademarking designation or an official identification indicating whether it is lamb, yearling mutton or mutton. In the absence of such designation on the animal carcass or wholesale cut, the designation on the purchase invoice will be the governing factor in making ceiling price calculations.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the Act. In the formulation of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Supplementary Regulation 79 to the General Ceiling Price Regulation is amended in the following respects:

1. Section 12 (a) is amended to read as follows:

(a) "Lamb" means carcasses and meat derived from carcasses of ovine animals, except mutton.

2. Section 12 (b) is amended to read as follows:

(b) "Mutton" means carcasses and meat derived from carcasses defined as mutton by the "Official U. S. Standards for Grades of Lamb, Yearling Mutton and Mutton Carcasses" of the United States Department of Agriculture.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 6, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

[F. R. Doc. 52-10923; Filed, Oct. 6, 1952; 10:47 a. m.]

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 95, Rev. 1]

GCPR, SR 95, REV. 1—CEILING PRICES FOR PROCESSORS AND DISTRIBUTORS OF FLAXSEED FEED PRODUCTS

CERTAIN FEED MIXES CONTAINING FLAXSEED FEED PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 95, Revision 1, to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

There has been a growing practice recently among persons who process agricultural commodities into feeds and feed ingredients, of adding other ingredients, thereby creating a new mixture. Generally, the straight feed normally produced by such processors constitutes at least 80 percent of the weight of the mixture. Processors engaging in this practice have established ceiling prices under the General Ceiling Price Regulation (GCPR) which range substantially above ceiling prices for the straight feed or feed ingredient which constitutes the bulk (frequently as high as 95–98 percent) of the mixture.

Even where the added ingredients are less costly than the straight feed product they replace—and this has usually been the case—the ceiling prices so established for the mixtures have been markedly higher than those of the basic feed products.

The increased prices established for the feeds so mixed have not been justified by their production cost, nor is there justification for the higher prices formula feed manufacturers and feeders are obliged to pay.

Moreover, there is widespread complaint against the distortions caused by the increasing substitutions of such mixtures for the straight feed products customarily produced and sold.

It has become increasingly apparent that action is necessary to prevent serious dislocations in the price structure of feedstuffs and to avoid the inflationary effects of this new practice. The Director has given careful consideration to a number of alternative methods of dealing with the problem. The method used in this amendment with respect to mixes based on flaxseed feed products has been found to be the only practicable one taking into account all the interests involved, including the growers of the agricultural commodities, the processors who have adopted or propose to adopt the practice, the manufacturers of formula feeds, the livestock, poultry and cattle feeders, and the ultimate consumers of beef, pork, poultry, eggs, milk, and other related food commodities.

Due account has been taken, not only of the excessive levels attained in establishing ceiling prices for the mixes under the GCPR but also of the dislocations caused by the substitution of the new mixes for the straight feed product customarily processed and sold.

Ceiling prices for mixtures which are sold in lieu of the straight feed customarily produced will no longer be established under the GCPR. They will instead be based on the ceiling price of the basic ingredient—in this case, flaxseed feed products—plus the cost of the other ingredients and a one dollar mixing allowance. Prices so calculated which do not exceed the processor's ceiling price per ton for the basic ingredient may be taken by the processor as his ceiling price for the mixture without application to OPS. This will normally be the case, since the ingredients added to the basic feed product have in most instances been cheaper than the ceiling prices for the basic feed.

When the mix price calculated under this method exceeds the ceiling price for the basic feed, the processor may apply to OPS for a ceiling price, but until the Director establishes a different ceiling price, the processor may not sell the mix at prices higher than his ceiling price for the basic feed included in the mix. In reviewing such applications under this amendment, the Director will give particular attention to the submission of cost figures for the ingredients.

The Director has recognized that the formula for establishing ceiling prices for mixes generally would not be appropriate in the case of those mixes which may have been produced and sold prior to the time when the practice of substituting mixes for the straight meal began. Accordingly, it has been provided that processors who sold such mixes during the base crop year (July 1950 to June 1951) may continue to use ceiling prices established under the GCPR. However, such GCPR ceiling prices will apply only to deliveries in any quarter of the current crop year (July 1952 to June 1953) which do not exceed 110 percent of the quantities of such product delivered during the same quarter of the base crop year. The 10 percent increase thus allowed is estimated to cover any normal volume increases, but sales during any quarter exceeding this volume must be made at the lower ceiling prices established for the mixes generally.

Provision is also made for limiting the volume of toll crushing to the volume of flaxseed toll-crushed during the base crop year. This provision is deemed necessary, in the light of experience, to prevent the use of toll-crushing as an evasive device. In any event, toll crushing of flaxseed has not customarily been engaged in on an extensive scale, and this limitation is not expected to interfere with normal toll crushing operations.

This amendment applies the new policy on mixes to those based on flaxseed feed products. Similar action is being taken currently on mixes based on cottonseed feed products and soybean feed products.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

Every effort has been made to conform this amendment to existing industry practices. Insofar as any provisions of this amendment may operate to compel changes in those practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this amendment.

In the judgment of the Director of Price Stabilization, the ceiling prices established by this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Supplementary Regulation 95, Revision 1, to the General Ceiling Price Regulation is amended in the following respects:

1. Section 2 of the regulation is amended by adding paragraph (c) which reads as follows:

(c) This supplementary regulation does not apply to deliveries of mixes made no later than October 31, 1952, under "firm contracts" entered into prior to October 3, 1952, for delivery before November 1, 1952. A "firm contract" means a contract which is not subject to adjustment or renegotiation of price or month of delivery.

2. The regulation is amended by adding a new section, section 10, which reads as follows:

SEC. 10. *Mixes.* (a) As used in this regulation:

(1) "Mix" means any mixture at least 80 percent of the weight of which consists of any domestic or imported flaxseed feed product.

(2) "Base crop year" means the period July 1, 1950 to June 30, 1951.

(3) "Current crop year" means the period July 1, 1952, to June 30, 1953.

(4) "Processor" with respect to a lot of a mix means the person who produced that lot.

(b) If you are a processor of a mix which you did not deliver during the base crop year, your ceiling price per ton, bulk, in carload lots, carload shipments or pool carlots, f. o. b. your plant is your "f. o. b. mix price" as determined under paragraph (c) of this section.

(c) Ascertain your "f. o. b. mix price" as follows:

(1) Make the following determinations:

Step 1. Determine for each ingredient in the mix, other than flaxseed feed products, the cost to you of the quantity of such ingredient in one ton of the mix. Such cost may not exceed your supplier's ceiling price to you if you buy such ingredient, and may not exceed your cost of production if you produce it.

Step 2. Ascertain your ceiling price, per ton bulk, in carload lots, carload shipments or pool carlots, f. o. b. your plant of the flaxseed feed product included in the mix. For this purpose use the same ceiling price you would have if you guaranteed the actual protein content of the product included in the mix.

If you include more than one flaxseed feed product in the mix, use the average of the ceiling prices of such flaxseed feed products, per ton, bulk, f. o. b. your plant weighted in accordance with the proportionate weight of each such product to the total weight of all flaxseed feed products in the mix. If you include in your mix any domestic or imported flaxseed feed product of which you are not the processor use under this Step 2 the per ton, bulk, carlot f. o. b. ceiling price that you would have if you were the processor of such flaxseed feed product.

Step 3. Multiply the ceiling price determined under Step 2 by the fraction representing the proportion which the weight of the flaxseed feed product(s) in the mix bears to one ton.

Step 4. Add the results under Steps 1 and 3.

Step 5. Add a $1.00 mixing allowance to the result under Step 4.

(2) The result under Step 5 is your "f. o. b. mix price" if it does not exceed the price established under Step 2. If the result obtained under Step 5 exceeds the price established under Step 2, the Step 2 price is your "f. o. b. mix price" for the mix.

(3) If the result under Step 5 exceeds the price established under Step 2, you may file an application for a different "f. o. b. mix price." You may not, in determining your ceiling price for the mix, use an "f. o. b. mix price" different from that established under paragraph (c) (2) of this section unless and until the Director of Price Stabilization notifies you in writing that you are authorized to do so. Your signed application should be addressed to the Grains and Related Products Branch, Food and Restaurant Division, Office of Price Stabilization, Washington 25, D. C., and must include:

(i) The name and address of your company.

(ii) The location of the plants at which you will produce the mix.

(iii) A list of all the ingredients in the mix, and the quantity of each such ingredient, by weight, per ton of the mix.

(iv) A statement of the cost to you (calculated under paragraph (c) (1) of this section) of the quantity of each ingredient other than flaxseed feed products per ton of the mix, and an explanation of the method and the calculations by which you arrived at such cost.

(v) The ceiling price per ton, bulk, f. o. b. your plant and the protein content of each flaxseed feed product contained in the mix, or (if you are not the processor) what each such ceiling price would be if you were the processor of each such flaxseed feed product.

(4) If you are required to establish your ceiling price for sales and deliveries of the mix in accordance with paragraphs (b) and (c) of this section, you must make and keep for inspection by the Office of Price Stabilization for a period of two years the following records:

(i) Worksheets showing in detail the method and calculations you used in determining the cost to you of the ingredients in the mix under Step 1, paragraph (c) (1) of this section.

(ii) All invoices covering ingredients included in the mix other than flaxseed feed products with identification of those invoices used in calculating your ceiling prices for mixes.

(iii) All other material you used in making the determinations under Step 1, paragraph (c) (1) of this section.

(iv) Original and revised ceiling prices established for each mix and the periods during which they applied.

(d) (1) If you are a processor of a mix which you delivered during the base crop year, your ceiling prices are as follows:

(i) For deliveries during any quarter of the current crop year not in excess of the amount of such mix which you delivered during the same quarter of the base crop year multiplied by 1.10, your ceiling price is the same ceiling price as you establish in accordance with the GCPR and SR 7 to the GCPR.

(ii) For deliveries during any quarter of the current crop year in excess of the amount of such mix which you delivered during the same quarter of the base crop year multiplied by 1.10, your ceiling price is the price established in accordance with paragraphs (b) and (c) of this section.

(2) You may not sell the mix until you have mailed by registered mail, return receipt requested, to the Grains and Related Products Branch, Office of Price Stabilization, Washington 25, D. C., a report of the number of tons of such mix which you delivered during each calendar quarter of the base crop year.

(3) If you establish your ceiling price for a mix under subparagraph (1) (i) of this paragraph, you must make and keep for inspection by the Office of Price Stabilization for a period of two years the records required under the GCPR and SR 7 to the GCPR. If you establish a ceiling price for deliveries under subparagraph (1) (ii) of this paragraph, you must, in addition, keep the records required under paragraph (c) (4) of this section.

(e) In sections 1, 5, 6, 7, and 8 the terms "flaxseed feed product" and "flaxseed feed products" will be deemed to include mixes.

3. The regulation is amended by adding a new section, section 11, which reads as follows:

SEC. 11. *Toll crushing.* (a) You may not perform any toll crushing until you have mailed by registered mail, return receipt requested, to the Office of Price Stabilization, Grains and Related Products Branch, Washington 25, D. C., a report of the quantity of flaxseed you toll crushed during each quarter of the base crop year. Thereafter, you may not, during any calendar quarter of the current crop year, toll crush a greater volume of flaxseed than you toll crushed during the same quarter of the base crop year.

(b) "Toll crush" means to perform the service of processing flaxseed into any flaxseed feed product and/or linseed oil.

(c) If you toll crush you must, in addition to the records required under section 18 of Ceiling Price Regulation 34, keep a record of each sale of your toll crushing service containing the following information:

(1) The name and address of the person to whom you rendered the service;

(2) The date on which you performed the toll crushing;

(3) The quantity of flaxseed which you toll crushed.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C., App. Sup. 2154)

Effective date. This amendment is effective October 7, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

4:00 p. m.]

[F. R. Doc. 52-10933; Filed, Oct. 6, 1952;

[General Overriding Regulation 14, Amdt. 24]

GOR 14—EXCEPTED SERVICES

EXEMPTS INSPECTION FEES AND CHARGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amend-

ment to General Overriding Regulation 14, is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 24 to General Overriding Regulation 14, adds two categories of inspection and testing services to the list of services removed from price stabilization regulations.

The categories of inspection and testing services thus exempted are: (1) nonretail inspection and testing services rendered by non-profit associations, such as lumber grading and inspection services, safety testing of gas or electrical appliances and fire safety inspection services performed, and (2) inspection and testing services to meet governmental health or safety requirements when such services are supplied by members of various service industries, for whom maximum rates and charges are established by state statute, municipal ordinance, or order of a governmental regulatory body, including such services as motor vehicle inspections, warehouse inspections of grain and other agricultural commodities.

With respect to the inspection and testing services supplied by non-profit associations, such services, generally, are provided for the member of the association, and the charges for these services are only sufficient to cover the out-of-pocket expense of providing the services. In some instances, however, the service may be supplied to non-members of the association, but such instances are so infrequent that the exemption includes all inspection and testing services provided by such non-profit associations.

The Director has determined that the administrative burden of retaining control in the broad field of inspection and testing services outweighs the advantages of such control.

In the formulation of this amendment there has been consultation with industry's representatives including trade association representatives to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director the provisions of this amendment are generally fair and equitable and are proper in the administration of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respect:

Paragraph (a) of section 3 is amended by adding at the end thereof the following:

(110) Non-retail inspection and testing service supplied by non-profit associations (including but not limited to such services as lumber grading and inspection, safety testing of gas or electrical appliances and fire safety inspections).

(111) Inspection and testing service in compliance with governmental health or safety requirements when maximum service charges are established by state statute, municipal ordinance, or rule or order of a governmental regulatory body (including but not limited to such services as motor vehicle inspection, inspection and grading of grain and other agricultural commodities).

(Sec. 702, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 24 to General Overriding Regulation 14 shall become effective October 6, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 6, 1952.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

Correction

In F. R. Doc. 50-6222, appearing at page 4634 of the issue for Thursday, July 20, 1950, the following change should be made:

In the list of products under § 202.20 (a), "fuses" should read "fusees".

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Ex Parte MC-7]

PART 1—GENERAL RULES OF PRACTICE

PART 170—COMMERCIAL ZONES AND TERMINAL AREAS

WASHINGTON, D. C., COMMERCIAL ZONE

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 18th day of September A. D. 1952.

It appearing, that on August 6, 1948, the Commission, division 5, made and filed its report, 48 M. C. C. 460, and order on further hearing[1] in the above-entitled proceeding describing the zone adjacent to and commercially a part of Washington, D. C.;

It further appearing, that, by petition, dated July 7, 1952, Jacobs Transfer Company, Inc., seeks redefinition and extension of the said Washington, D. C., commercial zone;

It further appearing, that said petition has been tendered for filing after the expiration of the time provided by Rule 101(e) of the general rules of practice for the filing of such petition;

And it further appearing, that section 203 (b) (8) of the Interstate Commerce Act (49 U. S. C. 303 (b) (8)) and the transportation of passengers and property by motor vehicle, in interstate or foreign commerce, wholly within a municipality, or between contiguous municipalities, or within a zone adjacent to and commercially a part of any such municipality being under consideration, and good cause appearing therefor:

It is ordered, That Rule 101 (e) of the general rules of practice (49 CFR 1.101 (e)) be, and it is hereby, waived;

It is further ordered, That said proceeding be, and it is hereby, reopened for further consideration;

It is further ordered, That § 170.4 *Washington, D. C.*, the order entered in this proceeding on August 6, 1948 (49 CFR 170.4), be, and it is hereby, vacated and set aside and the following revision is hereby substituted in lieu thereof:

§ 170.4 *Washington, D. C.* The zone adjacent to and commercially a part of Washington, D. C., in which transportation by motor vehicle, in interstate or foreign commerce, not under a common control, management, or arrangement for a continuous carriage or shipment to or from a point beyond the zone is partially exempt under section 203 (b) (8) of the Interstate Commerce Act (49 U. S. C. 303 (b) (8)) from regulation, includes and is comprise of all the area bounded by a line as follows:

Beginning at the intersection of MacArthur Boulevard, and Falls Road (Maryland Highway 189) and extending along Falls Road for a distance of about 4.7 miles to its junction with Tuckerman Lane (also called Winters Road), thence easterly over Tuckerman Lane to its junction with Old Georgetown Road (Maryland Highway 187) thence northerly along Old Georgetown Road to its junction with Rockville Turnpike (U. S. Highway 240), thence southerly along Rockville Turnpike, about 0.1 mile, to its junction with Montrose Road, thence easterly along Montrose Road for a distance of about 1.2 miles to its junction with an unnumbered highway; thence northeasterly along such unnumbered highway, about 0.7 mile to its junction with Viers Mill Road (Maryland Highway 586), thence northwesterly along Viers Mill Road about 1 mile, to its junction with an unnumbered highway, thence northeasterly along such unnumbered highway to its junction with Brookville Road (Maryland Highway 97), thence southeasterly along Brookville Road to its junction with Maryland Highway 183, thence northeasterly along Maryland Highway 183 to Colesville, Md., thence southeasterly along Beltsville Road to its junction with Powder Mill Road (Maryland Highway 212), thence easterly over Powder Mill Road to its junction with Montgomery Road, thence northeasterly along Montgomery Road, approximately 0.2 mile, to its junction with an unnumbered highway extending northeasterly to the north of Ammendale Normal Institute, thence along such unnumbered highway for a distance of about 2.2 miles to its junction somewhat north of Virginia Manor, Md., with an unnumbered highway extending easterly through Muirkirk, Md., thence along such unnumbered highway through Muirkirk to its junction, approximately 1.8 miles east of the Baltimore and Ohio Railroad, with an unnumbered highway, thence southwesterly along such unnumbered highway for a distance of about 0.5 mile to its junction with an unnumbered highway, thence southeasterly along such unnumbered highway through Springfield and Ellimeade, Md., to its junction with Defense Highway (U. S. Highway 50), thence southwesterly along Defense Highway approximately 0.8 mile to its junction with Enterprise Road (Maryland Highway 556), thence southerly over Enterprise Road to its junction with Central Avenue (Maryland Highway 214), thence westerly over Central Avenue about 0.5 mile to its crossing of Western Branch, thence southerly down the course of Western Branch to Maryland Highway 202, thence westerly approximately 0.3 mile along Maryland Highway 202 to its junction with White House Road, thence southwesterly along White House Road to its junction with Maryland Highway 221, thence southeasterly along Maryland Highway 221 to its junction with Maryland Highway 4, thence westerly along Maryland Highway 4 to the boundary of Andrews Air Force Base, thence south and west along said boundary to Brandywine Road (Maryland Highway 5), thence northwesterly along Maryland Highway 5 to its junction with Maryland Highway 337, thence southwesterly along Maryland Highway 337 to its junction with Maryland Highway 224, thence southerly along Maryland Highway 224 to a point opposite the mouth of Broad Creek, thence due west across the Potomac River to the west bank thereof, thence southerly along the west bank of the Potomac River to Gunston Cove, thence up the course of Gunston Cove to Pohick Creek, thence up the course of Pohick Creek to Telegraph Road (Virginia Highway 611), thence northeasterly along Telegraph Road to its junction with Back Lick Road (Virginia Highway 617), thence northerly along Back Lick Road through Newington, Springfield, and Springfield Station, Va., to Annandale, Va., thence northerly along Virginia Highway 649, to its junction with Virginia Highway 709, thence northerly along Virginia Highway 709 to its junction with Virginia Highway 650 thence northerly along Virginia Highway 650 to its junction with Virginia Highway 7, thence northwesterly over Virginia Highway 7 to Tysons Corner, Va., thence northeasterly along Virginia Highway 123 to Lewinsville, Va., thence northwesterly along Ash Grove Road (Virginia Highway 694), to Jones Corners, Va., thence northeasterly along Swinks Mill Road (Virginia Highway 685), to Swinks Mill, Va., thence along the course of Scott Run to the Potomac River, thence due north across the river to MacArthur Boulevard, thence northwesterly along MacArthur Boulevard to its junction with Maryland Highway 189, the point of beginning.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 543, as amended, 544, as amended; 49 U. S. C. 302, 303)

And it is further ordered, That this order shall become effective November 12, 1952, and shall continue in effect until the further order of the Commission.

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[No. 13528]

PART 132—POWER BRAKES AND DRAWBARS

POWER BRAKES AND APPLIANCES FOR OPERATING POWER BRAKE SYSTEMS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 25th day of September A. D. 1952.

In the matter of investigation of power brakes and appliances for operating power brake systems, No. 13528.

Upon further consideration of the record in the above-entitled proceeding, and good cause appearing therefor:

It is ordered, That the order heretofore entered herein on September 21, 1945, as amended, requiring respondents to install power brakes and appliances on their cars used in freight service be, and it is hereby, further amended so as not to require the installation of such brakes and appliances on cars that are used exclusively in switching operations and are not used in train movements within the meaning of the Safety Appliance Acts (45 U. S. C., secs. 1 to 16, inclusive).

(Sec. 6, 36 Stat. 299; 45 U. S. C. 15. Interprets or applies secs. 1, 2, 32 Stat. 943, sec. 3, 36 Stat. 298; 45 U. S. C. 8, 9, 12)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 31—PACIFIC REGION

SUBPART—SALTON SEA NATIONAL WILDLIFE REFUGE, CALIFORNIA

HUNTING

Basis and purpose. On the basis of observations and reports of field investigations conducted by representatives of the Fish and Wildlife Service and in accordance with subsection (a) of section 4 of the Migratory Bird Hunting Stamp Act as amended August 12, 1949, 63 Stat. 600; 16 U. S. C. 718d (a), it has been determined that controlled public hunting can be permitted on designated areas of the Salton Sea National Wildlife Refuge, California, without interfering with the purposes for which these refuge lands were acquired.

Since the following regulation is a relaxation of existing restrictions, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, the title of § 31.313 is amended to read *"Hunting permitted on Lea Act lands,"* and the following new section is added:

§ 31.315 *Hunting permitted on refuge lands.* Subject to the requirements of § 31.314 and Parts 18 and 21 of this subchapter, during the 1952–53 season only, migratory waterfowl and coot may be taken in section 21, T. 11 S., R. 13 E., S. B. M., of the Salton Sea National Wildlife Refuge in accordance with the regulations promulgated pursuant to the authority contained in the Migratory Bird Treaty Act (§§ 6.1 to 6.10 of this chapter).

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: September 30, 1952.

O. H. JOHNSON,
Acting Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR Parts 17, 28]

MEAT INSPECTION REGULATIONS; OLEOMARGARINE

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with the provisions of section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Secretary of Agriculture, pursuant to the authority conferred upon him by the Meat Inspection Act, as amended (21 U. S. C. 71–91), and section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) is considering amending the Meat Inspection Regulations (9 CFR Chapter I, Subchapter A) as follows:

1. Paragraph (c) of § 17.8 would be amended by adding the following subparagraph:

(53) Colored oleomargarine or colored margarine packed for retail sale shall be in containers not exceeding one-pound capacity.

(i) The word "oleomargarine" or "margarine" shall appear on each principal display panel of the container in type or lettering at least as large and in at least the same prominence as any other type or lettering appearing on such container.

(ii) A full and accurate statement of all the ingredients contained in such oleomargarine or margarine shall be prominently and informatively displayed contiguous to the word "oleomargarine" or "margarine" wherever such word is displayed on the container. The ingredients shall be shown by their common or usual name and be arranged in the order of their predominance. Collective terms such as "animal fat" and "vegetable fat" shall not be used but the specific fat, oil or stearin shall be shown.

(iii) Each part of the contents of the container shall be enclosed in a wrapper

bearing the word "oleomargarine" or "margarine" in type or lettering not smaller than 20-point type.

(iv) Wrapped quarter pound sticks or similar units of such oleomargarine or margarine packaged together in a container may constitute units for retail sale and they shall be individually wrapped and labeled in accordance with subdivisions (i), (ii), and (iii) of this subparagraph.

2. Section 28.1 would be amended to read as follows:

§ 28.1 *Oleomargarine or margarine; identity; label statement of optional ingredients.* (a) Oleomargarine or margarine is the plastic food which is prepared in accordance with the provisions of subparagraph (1), (2), (3), and (4) of this paragraph.

(1) It is prepared with one or more of the optional fat ingredients named in any one of subdivisions (i), (ii), (iii), (iv) of this subparagraph.

(i) The rendered fat, or oil, or stearin derived therefrom (any or all of which may be hydrogenated), of cattle, sheep, swine, or goats, or any combination of two or more of such articles;

(ii) Any vegetable food fat or oil, or stearin derived therefrom (any or all of which may be hydrogenated), or any combination of two or more of such articles;

(iii) Any combination of ingredients named under subdivisions (i) and (ii) of this subparagraph in such proportion that the weight of the ingredients named under subdivision (i) of this subparagraph either equals the weight of the ingredients named under subdivision (ii) of this subparagraph or exceeds such weight by a ratio not greater than 9 to 1.

(iv) Any combination of ingredients named under subdivisions (i) and (ii) of this subparagraph in such proportion that the weight of the ingredients named under subdivision (ii) of this subparagraph exceeds the weight of the ingredients named under subdivision (i) of this subparagraph by a ratio not greater than 9 to 1;

(2) It contains one of the articles named in subdivisions (i), (ii), (iii), or (iv) of this subparagraph, or a combination of two or more of such articles, intimately mixed with the fat ingredient or ingredients, after such article has been pasteurized and subjected to the action of harmless bacterial starters. The term "milk" as used in this subparagraph means cow's milk.

(i) Cream;

(ii) Milk;

(iii) Skim milk;

(iv) Any combination of dried skim milk and water in which the weight of the dried skim milk is not less than 10 percent of the weight of the water;

(v) Congealing is effected, either with or without contact with water, and the congealed mixture may be worked.

(3) It may contain one or more of the following optional ingredients in addition to the ingredients and articles named in subparagraphs (1) and (2) of this paragraph:

(i) Artificial coloring. For the purpose of this subdivision provitamin A shall be deemed to be artificial coloring.

(ii) Sodium benzoate, or benzoic acid, or a combination of these, in a quantity not to exceed 0.1 percent of the weight of the finished product.

(iii) Vitamin A (with or without any accompanying vitamin D concentrate), in such quantity that the finished oleomargarine or margarine contains not less than 15,000 United States Pharmacopoeia units of vitamin A per pound, as determined by the method prescribed in the Pharmacopoeia of the United States for total biological vitamin A activity. The vitamin A potency prescribed may be furnished by fish liver oil; by concentrates of vitamin A or its fatty acid ester from animal sources; by synthetic vitamin A or its fatty acid esters; by mixtures of synthetic vitamin A or its fatty acid esters; with harmless substances formed during the synthesis of the vitamin A, if the vitamin A or its fatty acid ester constitutes not less than 50 percent of the mixture; by provitamin A; or by any combination of two or more of these. For the purpose of this subdivision the term "fatty acid" may include acetic acid.

(iv) The artificial flavoring diacetyl added as such, or as starter distillate, or produced during the preparation of the product as a result of the addition of citric acid or harmless citrates.

(v) (*a*) Lecithin, in an amount not exceeding 0.5 percent of the weight of the finished oleomargarine or margarine; or (*b*) monoglycerides or diglycerides of fat-forming fatty acids, or a combination of these, in an amount not exceeding 0.5 percent of the weight of the finished oleomargarine or margarine; or (*c*) such monoglycerides and diglycerides in combination with the sodium sulfoacetate derivatives thereof in a total amount not exceeding 0.5 percent of the weight of the finished oleomargarine or margarine; or (*d*) a combination of (*a*) and (*b*) of this subdivision in which the amount of neither exceeds that above stated; or (*e*) a combination of (*a*) and (*c*) of this subdivision in a total amount not exceeding 0.5 percent of the weight of the finished oleomargarine or margarine. The weight of diglycerides in each of ingredients (*b*), (*c*), (*d*), and (*e*) of this subdivision is calculated at one-half actual weight.

(vi) Butter.

(vii) Salt.

(viii) Citric acid incorporated in the fat or oil ingredient used.

(ix) Isopropyl citrates incorporated in the fat or oil ingredient used, in an amount not to exceed 0.02 percent by weight of the finished oleomargine or margarine.

(x) Stearyl citrate incorporated in the fat or oil ingredient in an amount not to exceed 0.15 percent by weight of the finished oleomargarine or margarine.

(4) The finished oleomargarine or margarine shall contain not less than 80 percent fat, as determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," 7th Edition, Page 259, under "Indirect Methods," section 15.111.

(b) (1) When any ingredient named under one of the following specified subdivisions of subparagraphs of paragraph (a) of this section is used, the label shall, except as provided in subparagraph (2) of this paragraph, bear the statement set forth after such specified subdivision:

(i) Subdivision (i), subparagraph (1): "Prepared from Animal Fat," or "Made from Animal Fat," or "Prepared from Meat Fat," or "Made from Meat Fat."

(ii) Subdivision (iii), subparagraph (1): "Prepared from Animal and Vegetable Fats," or "Made from Animal and Vegetable Fats," or "Prepared from Meat Fats and Vegetable Fats," or "Made from Meat Fats and Vegetable Fats."

(iii) Subdivision (iv), subparagraph (1): "Prepared from Vegetable and Animal Fats," or "Made from Vegetable and Animal Fats," or "Prepared from Vegetable and Meat Fats," or "Made from Vegetable and Meat Fats."

(iv) Subdivision (i), subparagraph (3): "Artificially Colored," or "Artificial Coloring Added," or "With Added Artificial Coloring."

(v) Subdivision (ii), subparagraph (3): "Sodium Benzoate (or, as the case may be, 'Benzoic Acid' or 'Sodium Benzoate and Benzoic Acid') Added as a Preservative," or "With Added Sodium Benzoate (or, as the case may be, 'Benzoic Acid' or 'Sodium Benzoate and Benzoic Acid') as a Preservative," stating the percent used.

(vi) Subdivision (iii), subparagraph (3): "Vitamin A Added," or "With Added Vitamin A."

(vii) Subdivision (iv), subparagraph (3): "Artificially Flavored," or "Artificial Flavoring Added," or "With Added Artificial Flavoring."

(viii) Subdivision (viii), subparagraph (3): "Citric Acid Added to Protect Flavor" or "Citric Acid Added as a Preservative."

(ix) Subdivision (ix), subparagraph (3): "Isopropyl Citrate Added to Protect Flavor" or "Isopropyl Citrate Added as a Preservative."

(x) Subdivision (x), subparagraph (3): "Stearyl Citrate Added to Protect Flavor" or "Stearyl Citrate Added as a Preservative."

(2) Where oil is used, the word "oil" may be substituted for "fat" in the label statement. In lieu of the words "animal," "meat," or "vegetable" in any such statement, the common or usual name of the fat ingredient may be used. If two or more of the optional ingredients named in subdivisions (i), (ii), (iii), (iv), (viii), (ix), and (x) of subparagraph (3) of paragraph (a) of this section are used, the words "added" or "with added" need appear only once, either at the beginning or end of the list of such ingredients declared. The declaration of vitamin A may include the number of United States Pharmacopoeia Units which have been added.

(3) Whenever the name "oleomargarine" or "margarine" appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words and statements prescribed in this section showing ingredients used shall immediately and conspicuously precede or follow, or in part precede and in part follow, such name, without intervening written, printed, or other graphic matter.

The primary purpose of the foregoing proposed amendments is to place the definition and standard of identity for oleomargarine or margarine containing animal fats in line with the amended definition and standard of identity for oleomargarine or margarine promulgated by the Food and Drug Administration of the Federal Security Agency following a public hearing held by that organization. The evidence gathered at such public hearing has been carefully reviewed by the Meat Inspection Division. The proposed amendments will also bring into the regulations orders and instructions that were given to the field operating force of the Meat Inspection Division and inspected establishments following the enactment by the 81st Congress of Public Law 459 (Chapter 61, Second Session), (64 Stat. 20 (1950); 15 U. S. C. Sup. 55 (a), 55 (f), 21 U. S. C. Sup. 331 (m), 342 (e), 347) dealing with colored oleomargarine.

Any person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Chief of the Meat Inspection Division, Bureau of Animal Industry, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 15 days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 1st day of October 1952.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-10835; Filed, Oct. 6, 1952; 8:51 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[Operations Reorganization Order No. 6]

HEADS OF APPELLATE, AUDIT, COLLECTION, AND ALCOHOL AND TOBACCO TAX DIVISIONS

DELEGATION OF CERTAIN AUTHORITY RELATING TO OFFERS IN COMPROMISE, APPLICATIONS FOR EXTENSIONS OF TIME TO PAY TAXES, AND CLOSING AGREEMENTS

Pursuant to the authority vested in me as Assistant Commissioner of Internal Revenue, it is directed that:

1. There are hereby delegated to the Head, Appellate Division:

(a) The functions with respect to the acceptance (as evidenced by the signing of Form 7251C) of an offer in compromise of any case arising under the internal revenue laws in which the unpaid amount of the tax (including any interest, penalty, additional amount or addition to the tax) is less than $500.00;

(b) The authority to sign my name to the acceptance of the waiver of the statutory period of limitations for the assessment or collection of tax (Form 872), and as provided on Forms 656 and 656-C, Offer in Compromise. In each case, however, the initials of the Head, Appellate Division, or such other person to whom the Head of the Appellate Division may delegate authority, should appear immediately under the signature, together with the date of such signing;

(c) The function of signing letters granting or denying applications for extensions of time to pay taxes (except estate and gift taxes); and

(d) The functions imposed upon the Commissioner of Internal Revenue under section 3760 of the Internal Revenue Code, including those conferred and imposed upon him by Treasury Department Order No. 146, dated December 20, 1951, with respect to any closing agreement relating to the liability of any person (or the person or estate for whom he acts) respecting any internal revenue tax in any case in which the agreement relates only to tax liability for past taxable periods. The policy with respect to entering into closing agreements under section 3760 of the Internal Revenue Code, as set forth in Mimeograph No. 6383 (C. B. 1949-2, 100) will continue to be followed, unless and until changed by appropriate authority.

2. The function of signing Forms 7878 (Schedule of Accepted Offers in Compromise), relating to offers in compromise which have been accepted in the cases described in subparagraphs (a) of this order, is hereby delegated to the Heads of the Audit, Collection, and Alcohol and Tobacco Tax Divisions.

3. The function of signing letters granting or denying applications for extensions of time to pay estate and gift taxes is hereby delegated to the Head of the Audit Division.

4. The functions delegated by this order to the Heads of the Appellate, Audit, Collection, and Alcohol and Tobacco Tax Divisions may be delegated by each to any other officer or employee in the Bureau of Internal Revenue performing functions under his general supervision and control.

This order shall be effective as of August 11, 1952.

Dated: September 30, 1952.

[SEAL] JUSTIN F. WINKLE,
Assistant Commissioner.

[F. R. Doc. 52-10804; Filed, Oct. 6, 1952; 8:47 a. m.]

DEPARTMENT OF DEFENSE

Office of the Secretary

ORGANIZATION

ARMED FORCES HOUSING AGENCY

I. *Introduction.* Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, there is hereby established, within the Office of the Secretary of Defense the Armed Forces Housing Agency (hereinafter called the "Agency") with the duties and relationships herein outlined.

II. *Definitions.* A. As used in this notice, the term, "family housing and associated matters", is defined as:

1. All family housing wholly or partially under the jurisdiction of the Department of Defense;

2. Family housing privately constructed under Government subsidy or guarantees for occupancy by Department of Defense military or civilian personnel.

3. Any interest of the Department of Defense in non-Government controlled or financed family housing; and

4. Related matters, including supporting facilities, such as utilities and schools, essential to the provision and effective administration of family housing.

III. *Organization.* A. The Armed Forces Housing Agency shall be headed by an Assistant to the Secretary of Defense who shall be the Director thereof and who shall be a civilian appointed by the Secretary of Defense. The Director of the Agency shall report to the Secretary of Defense through the Director of Installations.

B. A Family Housing Advisory Council shall be established to advise the Director of the Agency. This Council shall be composed of the Director, as Chairman, and one representative from each military Department to be appointed by the respective Secretaries of the military Departments.

C. The Director, with the approval of the Secretary of Defense, may appoint a Deputy Director who shall, in the absence or disability of the Director, act for and exercise the powers of the Director.

IV. *Authority.* Within its jurisdiction, as further defined in this notice or as may be further directed by the Secretary of Defense, the Agency shall be the principal agency of the Secretary of Defense responsible for performing the duties set forth in section V, below.

The Director of the Agency shall have authority to take executive action in consonnace with approved plans, programs and policies of the Agency. The Director may, without being relieved of his responsibility therefor, perform any of his duties with or through the aid of such members or officials of the Agency as he may designate. The Director is authorized, after coordination with the Director of Installations, to issue directives in the name of the Secretary of Defense to implement the policies and decisions of the Agency and to supervise their execution. The Director, subject to the policies prescribed by the Secretary of Defense, is authorized to estab-

lish such continuing or temporary committees, as may be necessary to conduct studies, assemble information, make recommendations, and otherwise to assist in carrying out the responsibilities of the Agency.

V. *Duties*—A. *Duties of the Agency.* Subject to the authority and direction of the Secretary of Defense, and in support of other Department of Defense programs, the Agency shall perform the following duties and such other duties as may be directed by the Director of Installations and the Secretary of Defense:

1. Develop policies for the provision and administration of family housing of the Services, both for the Zone of the Interior and overseas, including,

a. Development of criteria and standards to determine the adequacy of housing.

b. Development of criteria for determination of family housing requirements.

c. Development of policy governing the conditions under which Government-financed or subsidized construction is justified.

d. Development of policy regarding the eligibility for family housing and continued occupancy thereof.

e. Development of procedures for fixing charges applicable to housing assigned by the Services on a rental basis.

2. Develop design standards and cost criteria for family housing, both permanent and temporary, including,

a. Development of uniform design standards (within specific geographical areas) applicable to all Services.

b. Development of standardized construction practices.

c. Development of maximum and minimum acceptable space requirements.

d. Development of practicable cost criteria and policy governing unit costs in different geographical areas.

e. Development of policy regarding selection and provision of temporary housing.

f. Development of policy and criteria with respect to conversion, modification and maintenance of existing structures.

3. Develop procedures for the procurement of family housing.

4. Obtain requirements for family housing from the Services; review, approve and assemble these requirements into a single program; and, through normal legislative channels, support the introduction and justification of necessary legislation to expeditiously provide family housing in accordance with the approved requirements.

5. Represent the Department of Defense in dealings with other Executive Departments and Agencies in family housing matters, and act for the Secretary of Defense in connection with statutory family housing responsibilities placed in the Secretary and not otherwise delegated to the Secretaries of the military departments.

6. Conduct continuing studies of family housing conditions and requirements and associated matters, and report the results thereof and action thereon, through the Director of Installations, to the Secretary of Defense.

B. *Duties of the Assistant to the Secretary of Defense.* In addition to his responsibilities as Director of the Armed Forces Housing Agency, the Assistant to the Secretary of Defense shall be the principal advisor and assistant to the Secretary of Defense on defense housing matters.

VI. *Administration.* A. The Director, subject to the approval of the Secretary of Defense and in coordination with the Director of Installations, shall provide for the internal organization of the Agency. He shall establish its procedures and supervise its staff.

B. The Secretary of Defense will provide the Director of the Agency with such personnel, facilities, and other administrative support as the Secretary determines is required by the Agency for the performance of its functions.

C. The Family Housing Advisory Council shall meet at the call of the Chairman.

VII. *Relationships.* A. The Director of the Armed Forces Housing Agency and the staff of the Agency are authorized and expected to communicate directly and expeditiously with other agencies of the Secretary of Defense and the military departments and appropriate subdivisions thereof, concerning any matter within its jurisdiction and in which there exists a mutual interest or responsibility.

B. The Agency shall collaborate with the Office of the Assistant Secretary of Defense (Legal and Legislative Affairs) with respect to pending or proposed legislation on family housing and related matters.

C. The Agency shall collaborate with the Office of the Assistant Secretary of Defense (Manpower and Personnel) on family housing and related matters as they affect morale and establishment of basic allowances.

D. The Agency shall collaborate with the Office of the Assistant Secretary of Defense (Comptroller) on the budgetary and fiscal aspects of family housing and related matters.

E. The Agency shall collaborate with the Munitions Board on the procurement aspects of family housing and related matters.

F. The Agency shall maintain liaison with appropriate Governmental and private agencies on such matters as:

1. Mortgage insurance and related matters pertaining to the Wherry Act, 63 Stat. 570, as amended.

2. Department of Defense interest and jurisdiction regarding low cost housing under the Lanham Act, 54 Stat. 1126, 56 Stat. 11.

3. Determination of critical defense housing areas and Government financing and construction of military housing under the Defense Housing Act of 1951, 65 Stat. 293.

4. Determination, jointly with the Office of Defense Mobilization, as to critical defense housing areas, under 65 Stat. 131.

Such designation does not preclude direct liaison by the military departments with such agencies on operational matters entirely within the jurisdiction of the department concerned.

VIII. *Effective date.* This notice is effective September 25, 1952. The statement of organization "Establishment of Armed Forces Housing Agency" appearing in 17 F. R. 701, January 23, 1952 is rescinded.

For the Secretary of Defense.

MARSHALL S. CARTER,
Brigadier General, U. S. Army,
Director, Executive Office of
the Secretary.

SEPTEMBER 25, 1952.

[F. R. Doc. 52-10798; Filed, Oct. 6, 1952; 8:45 a. m.]

ORGANIZATION

RESPONSIBILITIES AND RELATIONSHIPS IN INTERNATIONAL SECURITY AFFAIRS

I. *Purpose.* It is the purpose of this directive (notice) to bring up to date existing instructions within the Department of Defense relating to international security affairs, to define the responsibilities of the Department of Defense and the Secretary of Defense in this area, and to define pertinent relationships among the elements of the Department of Defense. It is the intention to have one official, the Assistant to the Secretary of Defense for International Security Affairs, be responsible to the Secretary of Defense for the coordination of all matters related to international security affairs as defined in paragraph II of this directive.

II. *Definition.* The term "international security affairs" includes all matters heretofore covered under the terms "mutual security assistance", "North Atlantic Treaty affairs", "foreign military affairs", politico-military affairs", "administration of occupied areas", "foreign economic defense affairs", and other similar international programs which are of concern to the Department of Defense.

The position of Assistant to the Secretary of Defense for International Security Affairs was originally established by Presidential directive of December 19, 1950. The term "international security affairs" as used in the Presidential directive is less broad than the term as used in this directive (notice). Wherever the term "Department of Defense" appears in this directive, it includes all departments, boards and agencies within the Department.

III. *Department of Defense responsibilities with reference to international security affairs.* With reference to the government as a whole the responsibility of the Department of Defense is to participate in the development of national objectives and U. S. government positions in international security affairs and to support such objectives and positions when established by appropriate authority. The Secretary of Defense (as a statutory member of the National Security Council) and the Joint Chiefs of Staff (as statutory advisors to the President, the National Security Council and the Secretary of Defense on military matters), have responsibilities which are not affected by the terms of this directive (notice).

In addition to its general responsibilities for advice, assistance and support to the government as a whole on international security matters, the Department of Defense has certain specific responsibilities as follows:

A. Furnishes representation on the Senior Staff of the National Security Council. This representative is an official nominated by the Secretary of Defense and appointed by the President. The Senior Staff is responsible to the President for providing staff coordination for matters under the consideration of the National Security Council.

B. Participates with the Office of the Director for Mutual Security and other governmental agencies in the development of United States governmental policy on military assistance defense support, and technical assistance programs and furnishes representation on such activities as may be required pursuant to the Mutual Security Act of 1951, and acts amendatory or supplementary thereto, for the development and coordination of such policy.

C. Furnishes representation for the Department of Defense on inter-agency committees and working groups to develop U. S. governmental positions required for U. S. participation in the United Nations, such as the Joint State-Defense working group on United Nations collective measures, the international control of atomic energy, and the regulation, limitation and balanced reduction of all armaments and armed forces.

D. Furnishes representation on various interdepartmental committees and subcommittees having functions related to international security affairs, such as the Mutual Assistance Advisory Committee, the Interdepartmental Committee on Trade Agreements, the Economic Defense Advisory Committee of the Director for Mutual Security, the Foreign Facilities Committee of the National Production Authority, the Advisory Committee on Export Policy of the Department of Commerce and the Psychological Strategy Board.

E. Furnishes representation as required on North Atlantic Treaty Organizations such as the North Atlantic Council (Secretary of Defense is U. S. Defense member), the North Atlantic Military Committee (Chairman of the Joint Chiefs of Staff is U. S. member), the North Atlantic Planning Board for Ocean Shipping, the Military Representatives Committee, the Standing Group, the Military Standardization Agency, committees and working groups of the NATO International Defense Production Staff and any planning groups in support of the Standing Group.

F. Furnishes representation as required on various other intergovernmental bodies and intergovernmental conferences such as the Organization of American States (Rio Pact), Inter-American Defense Board (Rio Pact), Joint U. S.-Canada Industrial Mobilization Committee, etc.

G. Establishes the U. S. organizational elements abroad required to assist the Department of Defense in the development, review and implementation of international military activities in which the U. S. is concerned. Examples are: regional organizations such as the Defense elements of the staff of the U. S. Special Representative in Europe; the U. S. Commander-in-Chief in Europe (U. S. Cinceur); and country organizations such as the Military Assistance Advisory Groups.

H. The furnishing of representation as outlined in the above paragraphs A through G includes responsibility for providing such U. S. representatives with Department of Defense policy guidance on their respective duties, and when required, providing staff assistance to such representatives.

I. Discharges certain duties related to United States defense support and military assistance programs. Inter alia, the Mutual Security Act of 1951 gives the Secretary of Defense primary responsibility and authority for:

(1) The determination of military end-item requirements:

(2) The procurement of military equipment in a manner which permits its integration with service programs;

(3) The supervision of end-item use by the recipient countries;

(4) The supervision of the training of foreign military personnel;

(5) The movement and delivery of military end-items, and

(6) The establishment of priorities in the procurement, delivery and allocation of military equipment.

J. Provides the Director for Mutual Security with Department of Defense recommendations and positions on defense support and military assistance programs under the Mutual Security Act of 1951 and similar future legislation.

K. Assumes and delegates where appropriate to one of its elements the operational responsibility for certain aspects of U. S. International activities such as the negotiation and administration of base rights agreements.

IV. *Responsibilities of the Assistant to the Secretary of Defense for International Security Affairs (subject to the direction and authority of the Secretary of Defense)*—A. *General.* 1. In consultation with appropriate organizations which have an interest by reason of their statutory and other assigned responsibilities, develops and recommends to the Secretary of Defense the Department of Defense positions on international security affairs. Under the guidance of the Secretary of Defense he shall speak authoritatively for the Department of Defense on international security affairs in dealing with other agencies of government.

2. Coordinates all activities within the Department of Defense related to international security affairs including arrangements for representation for the Department of Defense on interdepartmental and international organizations related to international security affairs, coordinates the work of, provides policy guidance, and arranges for staff support for such representatives. This includes the maintenance of coordination with U. S. military representation on the various boards and commissions operating in the international field such as those interested in hemispheric solidarity.

B. *Specific duties.* 1. Serves as defense member on the National Security Council Senior Staff and provides staff assistance to the Secretary of Defense in his capacity as a member of the National Security Council.

2. Provides or arranges for the provision of representation for the Department of Defense on such organizations as may be established by the President or the Director for Mutual Security pursuant to the Mutual Security Act of 1951, and acts amendatory or supplemental thereto.

3. Develops and recommends Department of Defense views in connection with the preparation of U. S. governmental positions on United Nations matters and provides representation on joint State-Defense and other interagency working groups established to assist in the coordinated development of these views, such as the State-Defense working group on United Nations Regulation of Armament Commission.

4. With reference to the Department of Defense responsibilities under United States defense support and military assistance programs, coordinates all activities of the Department of Defense and represents and speaks for the Department of Defense on matters of policy and program relating to military and defense support assistance to include serving as the point of contact with outside government agencies. This includes the responsibility of providing for, through his own office and other elements of the Department of Defense, the development of appropriate mutual defense assistance policies, plans and programs, guidance to the U. S. Special Representative in Europe, the follow-up of implementation by Military Departments of approved programs, including offshore procurement, and for assistance to the Director of Mutual Security in the presentation of such programs before appropriate budget and legislative officials pursuant to established procedures.

5. With reference to North Atlantic Treaty Affairs develops and recommends the Department of Defense views regarding positions to be taken by the U. S. Government in the North Atlantic Treaty Organization, and keeps the Secretary of Defense and appropriate officials in the departments and agencies of the Department of Defense informed on activities of North Atlantic Treaty Organization.

6. With regard to other international security affairs, such as foreign economic and commercial policy, intergovernmental economic mobilization planning, and economic defense measures, coordinates Department of Defense positions as required on matters referred to the Department of Defense and on matters developed in the Department of Defense for consideration by other agencies of government and by international organizations, and U. S. missions when appropriate.

7. Develops DOD policy guidance for those elements of DOD involved in the administration of occupied areas.

V. *Responsibilities of other elements of the Department of Defense.* It is the

intent of the following paragraphs to continue the relationships and responsibilities of other elements of the Department of Defense as they have existed heretofore insofar as such previous arrangements are not in conflict wih the foregoing portions of this directive.

A. *The Joint Chiefs of Staff.* 1. In general, advises the Secretary of Defense on the military aspects of international security affairs.

2. With regard to the military assistance programs, the Joint Chiefs of Staff will develop and recommend the broad military criteria and policies and the military basis of specific programs as requested by the Secretary of Defense. The Joint Chiefs of Staff will also continue to support and direct the Department of Defense military organizations and agencies overseas, maintained in support of the North Atlantic Treaty Organization except for the responsibility to the Secretary of Defense of the United States Commander-in-Chief in Europe; within the policy control of the Secretary of Defense, the Joint Chiefs of Staff will determine support to, and participation by overseas commands in the Mutual Defense Assistance Program, and will designate executive agents, as appropriate, to carry on any of the military operating responsibilities heretofore assigned.

B. *Munitions Board.* 1. The Munitions Board will advise the Secretary of Defense on the economic and industrial aspects of problems pertaining to International Security Affairs as they may affect the U. S. mobilization planning program, the current U. S. production and procurement programs, and such other activities for which the Board has responsibility.

2. The Munitions Board will be responsible fo revaluating military assistance programs to determine their effect on United States industrial mobilization and current military production programs and for arranging for their integration with Service programs. The Munitions Board will represent the Department of Defense in supporting military assistance and other approved foreign requirements for materials, manpower and facilities before government planning and control agencies.

C. *Other elements of the Office of the Secretary of Defense.* The other elements of the Office of the Secretary of Defense will perform their normal functions in connection with these activities.

D. *The Departments of the Army, Navy and Air Force.* The military departments will carry out such policy, administrative, operational and technical responsibilities as may be assigned by the Secretary of Defense. In connection with the Mutual Defense Assistance Program, the departments will be responsible for the detailed development, refinement, and implementation of their respective portions of the military assistance programs and to this end will continue in effect the present requirement that each Military Department or Agency will establish a single authoritative contact and liaison point as a direct channel to the Office of the Assistant to the Secretary for International Security Affairs.

E. *The U. S. Commander-in-Chief in Europe.* The U. S. Commander-in-Chief in Europe is designated by the Joint Chiefs of Staff and normally communicates with them. In certain matters the Secretary of Defense and the Military Departments communicate directly with the U. S. Cinceur (or his deputy).

F. *Organization of the Special Representative in Europe.* The Special Representative will in accordance with his terms of reference include among his duties the representation of the interests of the Secretary of Defense with respect to North Atlantic Treaty Affairs and the Mutual Security Program. The Deputy to the Special Representative for Defense affairs, appointed with the concurrence of the Secretary of Defense, will be the principal point of Defense Department contact within the area of responsibilty of the Special Representative.

G. *The Chairman of the U. S. Delegation to the Military Staff Committee of the United Nations.* The Senior Representative of the U. S. Delegation to the Military Staff Committee of the United Nations shall be designated as the Chairman. He will have the following duties:

1. Represent, on the U. S. Delegation to the Military Staff Committee, the President, Secretary of Defense, and the Joint Chiefs of Staff.

2. Principal military advisor to the Chief of the U. S. Mission to the United Nations.

3. Spokesman for the U. S. Delegation at all meetings of the United Nations' Military Staff Committee.

4. In accordance with procedures jointly agreed upon between the three Representatives, serve as Administrative head of the Delegation and supervise and coordinate its activities.

VI. *Effective date.* This directive is effective immediately.

For the Secretary of Defense.

MARSHALL S. CARTER,
Brigadier General, U. S. Army,
Director, Executive Office of
the Secretary.

JULY 29, 1952.

[F. R. Doc. 52-10799; Filed, Oct. 6, 1952; 8:46 a. m.]

ORGANIZATION

DIRECTOR OF INSTALLATIONS

I. *Authority and purpose.* This notice is issued pursuant to the authority vested in the Secretary of Defense by section 408 of Public Law 534, 82d Congress, and by the National Security Act of 1947, as amended, for the purpose of creating within the Department of Defense the office of Director of Installations, and of defining the authority and duties of the Director of Installations and his relationships with the military departments, and with offices and agencies of the Office of the Secretary of Defense.

II. *Organization.* A. The Director of Installations (hereinafter called the "Director") shall be appointed by the Secretary of Defense from civilian life and shall be directly responsible to the Secretary of Defense. He shall be a person who has had a substantial amount of experience in the construction of public works of the types constructed by the military departments.

B. With the approval of the Secretary of Defense, the Director may appoint one or more Deputy Directors of Installations who shall, in his absence or disability, act for him and exercise all or a specified portion of his authority.

III. *Authority.* A. Subject to the authority and direction of the Secretary of Defense, the Director shall have authority to take executive action relating to the duties prescribed in Section IV, below, and shall have such further authority as may be conferred upon him from time to time by the Secretary of Defense. The Director may, without being relieved of his responsibility therefor, exercise his authority through such members of his office as he shall designate, provided that in the field of family housing the Director shall exercise his authority through the Director, Armed Forces Housing Agency.

B. There is hereby transferred to the Director the functions, authority and duties relating to public works and relating to the Armed Forces Housing Agency heretofore vested in the Munitions Board or its Chairman by the National Security Act of 1947, as amended, and by the statement of organization "Munitions Board, Organization and Functions" appearing in 17 F. R. 7160, August 6, 1952.

C. The Director is authorized to issue directives to prescribe and implement his policies and decisions, and to supervise their execution. The Director may establish, upon the approval of the Secretary of Defense, such continuing or temporary committees and advisory groups or individuals as he may deem desirable to assist him in carrying out his duties.

IV. *Duties.* Subject to the authority and direction of the Secretary of Defense, and in support of Department of Defense programs, the Director shall, for all Department of Defense public works programs:

A. Maintain direct surveillance over the planning and construction by the military departments of all public works projects.

B. Make such reports to the Secretary of Defense with respect to public works projects under construction by the military departments as he may deem necessary to keep the Secretary currently and fully informed with respect to the status, progress and cost of, and all other pertinent matters concerning such public works projects.

C. Develop Department of Defense policies, and coordinate the activities of the military departments, in establishing offices of record for the following detailed information:

1. Inventory of facilities: (a) In existence, (b) under construction, and (c) authorized and funded but on which construction has not yet started.

2. Utilization of the facilities described in 1, above.

3. Condition of existing facilities described in 1. above.

D. Develop Department of Defense policies and procedures for the computation of requirements for public works programs.

E. Develop uniform design criteria and construction standards for application by the military departments, with special emphasis on reducing unit costs.

F. Resolve conflicts arising from the desire of two or more military departments to acquire or utilize a single installation or adjacent installations where the operations of one Service interfere with the operations of another.

G. Develop and issue to the military departments necessary instructions and guidance for the preparation of public works programs, prescribe the review procedures to be utilized in developing such programs, and recommend to the Secretary of Defense the final programs to be approved by him for presentation to the Congress.

H. For approved public works programs of the Department of Defense to be submitted to the Bureau of the Budget and the Congress, coordinate with the Assistant Secretary of Defense (Legal and Legislative Affairs) in the preparation of authorizing legislation and with the Assistant Secretary of Defense (Comptroller) in the preparation of appropriation requests, and assist in the presentation of such programs before the Committees of Congress.

V. *Administration.* All personnel, funds and records now assigned to or in the possession of the Munitions Board which relate to any of the duties of the Director described above shall, to the extent requested by the Director and approved by the Secretary of Defense, be transferred to the Director. The Secretary of Defense will provide the Director with such additional engineering, clerical, stenographic and other personnel as the Director may require in order adequately to perform his functions.

VI. *Relationships.* A. The Director is authorized to require information from, and communicate directly and expeditiously with, other agencies of the Secretary of Defense and the military departments and appropriate sub-divisions thereof concerning any matter within his jurisdiction.

B. The Director shall generally coordinate with officials and offices of the Department of Defense having an interest in public works programs, and specifically with the officials listed in C, below, and, on matters of particular interest to them, with:

1. The Assistant Secretary of Defense (Manpower and Personnel) on matters affecting morale and basic allowances;

2. The Assistant Secretary of Defense (Legal and Legislative) on legal and legislative matters;

3. The Assistant to the Secretary of Defense for International Security Affairs on foreign public works programs;

4. The Chairman of Armed Forces Medical Policy Council on medical facilities aspects of public works programs.

The Director of Installations will determine, in each case, the formal concurrences, if any, which are required.

C. The following officials of the Department of Defense shall retain their respective responsibilities for the aspects of public works programs listed below:

1. The Assistant Secretary of Defense (Comptroller) shall continue to determine the fiscal aspects of public works programs, budget allocations therefor, and the policies and procedures relating thereto.

2. The Chairman, Munitions Board, shall continue to coordinate and evaluate Department of Defense construction materials requirements, and act as claimant for them and to advise the civilian control agencies on matters involving private industrial expansion projects and programs. He shall advise the Director on the availability of construction materials, and on the availability of existing privately and government owned industrial facilities as well as privately owned "commercial" type facilities, intended to provide services normally rendered by private enterprise, such as laundries, etc.

3. The Chairman of the Research and Development Board shall continue to determine the relative priorities of research and development facilities requirements of the military departments.

4. The Reserve Forces Policy Board shall continue to recommend policies and programs regarding the location, size and type of training facilities for Reserve Forces to be constructed or otherwise procured.

D. The Director shall coordinate his efforts with all executive agencies outside the Department of Defense which have a mutual interest or responsibility with respect to any of his programs.

VII. *Effective date and change in existing directives.* This notice is effective September 20, 1952. All provisions of any other pertinent directives or instructions or segments thereof, to the extent inconsistent with this directive, are rescinded.

For the Secretary of Defense.

MARSHALL S. CARTER,
Brigadier General, U. S. Army,
Director, Executive Office of
the Secretary.

SEPTEMBER 20, 1952.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF ASSOCIATION OF WEST INDIA TRANS-ATLANTIC STEAM SHIP LINES AND ASSOCIATED STEAM SHIP LINES

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

1. Agreement No. 116-1 between the member lines of the Association of West India Trans-Atlantic Steam Ship Lines (Puerto Rico and St. Thomas Section) modifies the basic agreement of that Conference (No. 116) by revising the provision covering infringement or breach of the agreement. Agreement No. 116 covers the trade between Europe and Puerto Rico and St. Thomas, Virgin Islands.

2. Agreement No. 5600-19, between the member lines of the Associated Steam Ship Lines (Manila), modifies the basic agreement of that Conference (No. 5600) to provide that regular meetings will be held as agreed upon by the members and at such time and place designated by the chairman. The agreement presently provides that unless otherwise agreed upon all regular meetings shall be held in the Association's office at 2: 15 p. m., on the second Tuesday of each month. Agreement 5600 covers the trade from the Philippine Islands direct to, or with transhipment at or via ports in Ceylon, India, Pakistan, Malaya, East Indies, Indo-China, Burma, Siam, Hong Kong, China, Korea, Japan, Siberia, United States, Canada, Cuba, Mexico, Central America, Canal Zone, South America, Caribbean Sea ports, the West Indies, Australia and New Zealand.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: October 2, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

National Production Authority

[Suspension Order 21, Docket No. 31]

DAY CO.

SUSPENSION ORDER

This matter came on to be heard upon the respondent's petition for modification of suspension order, dated August 29, 1952, and was argued by counsel. It appearing to the Chief Hearing Commissioner that there exists good grounds for the allowance of said petition and it further appearing that the Office of the General Counsel of National Production Authority had stated in writing that the General Counsel has no objection to the allowance thereof,

It is hereby ordered: That Suspension Order No. 21, heretofore issued in the above-entitled proceeding on August 8, 1952, be, and the same hereby is, modified in the following respects:

A. Paragraph 4 thereof is amended and supplemented by the addition of the following exception thereto: "Except, however, that the respondent may place orders for, and purchase under allotments of the National Production Authority, 1,400 pounds of stainless steel, which product, when obtained, shall be

used by the respondent in completing the construction required under its Order 12372 from the Catalytic Construction Company on Purchase Order AEC 300–4170, bearing priority DOE–1."

B. The respondent, upon the filing with the General Industrial Equipment Division of the National Production Authority of documents evidencing the transfer and delivery of galvanized sheet steel now in the inventory of the respondent to a buyer or buyers having authority to purchase same under allotments issued by the National Production Authority, shall be credited with the tonnage so sold and delivered against the reduction in future allocations provided for under paragraph 2 of the suspension order.

Dated: September 5, 1952.

NATIONAL PRODUCTION AUTHORITY,
WALTER H. FOSTER,
Chief Hearing Commissioner.

[F. R. Doc. 52–10934; Filed, Oct. 6, 1952; 11:17 a. m.]

[Suspension Order 28, Docket No. 40]

TEXAS LAWN SPRINKLER CO. OF DALLAS ET AL.

SUSPENSION ORDER

In the matter of Texas Lawn Sprinkler Company of Dallas, Texas Lawn Sprinkler Company, Inc., M. E. Snoddy and G. W. Kehres.

A hearing having been held in the above-entitled matter on the 27th day of August 1952, before Robert J. Farley, a hearing commissioner of the National Production Authority, on a statement of charges made by the Assistant General Counsel in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628) dated July 21, 1951, and Implementation 1 to NPA General Administrative Order 16–06 (16 F. R. 8799); and

The respondents, Texas Lawn Sprinkler Company of Dallas, Inc., Texas Lawn Sprinkler Company, Inc., M. E. Snoddy, and G. W. Kehres, having been duly apprised of the specific violations charged and having been fully informed of the rules and procedures which govern these proceedings and the administrative action which may be taken; the respondents having filed an answer herein and having been represented by their attorney, Morris Jaffe, 423 Republic Bank Building, Dallas, Tex., and the hearing commissioner having heard all of the evidence,

It is hereby determined:

Findings of fact. 1. The respondent during the period April 5 through June 30, 1951, used copper controlled materials, to wit: copper tubing for the installation of lawn sprinkler systems in construction in violation of section 7 (e) of NPA Order M–12 of April 1, 1951 (16 F. R. 2957), and as amended April 9, 1951 (16 F. R. 3175); and

2. During the period July 9, 1951, through July 31, 1951, the respondents used copper controlled materials, to wit: Copper tubing for the installation of lawn sprinkler systems in construction in violation of section 4 (c) of NPA Order M–4 as amended July 1, 1951 (16 F. R. 6513); and

3. Respondents, on or about August 9, 1951, used copper controlled materials, to wit: Copper tubing for the installation of a lawn sprinkler system in construction in violation of section 6 of NPA Order M–4A of August 3, 1951 (16 F. R. 7703); and

4. Respondents, during the period August 27, 1951, through December 18, 1951, used copper controlled materials, to wit: Copper tubing for the installation of lawn sprinkler systems in construction in violation of section 7 of NPA Order M–4A as amended August 20, 1951 (16 F. R. 8361); and

5. Respondents, during the period April 16, 1951, through August 31, 1951, obtained and used 10,000 feet of copper tubing for the installation of lawn sprinkler systems in violation of sections 7 (e), 11 (a), and 11 (b) of NPA Order M–12 as amended April 9, 1951; section 6 of NPA Order M–4 as amended July 1, 1951; section 6 of NPA Order M–4A of August 3, 1951; and section 7 of NPA Order M–4A as amended August 20, 1951; and

6. Respondents, during the period August 1, 1951, through October 31, 1951, used copper controlled materials, to wit: Copper tubing for the installation of lawn sprinkler systems in construction in violation of section 6 of NPA Order M–4A of August 3, 1951, and section 7 of NPA Order M–4A as amended August 20, 1951; and

7. Respondent, M. E. Snoddy, owning, dominating, and controlling Texas Lawn Sprinkler Company of Dallas, Inc., and Texas Lawn Sprinkler Company, Inc., during the period April 5, 1951, through December 18, 1951, directed and supervised the use of copper controlled materials, to wit: copper tubing for the installation of lawn sprinkler systems in construction in violation of section 7 (e) of NPA Order M–12 of April 1, 1951, and as amended April 9, 1951, section 4 (c) of NPA Order M–4 as amended July 1, 1951; section 6 of NPA Order M–4A of August 3, 1951; section 7 of NPA Order M–4A as amended August 20, 1951; sections 7 (e), 11 (a), and 11 (b) of NPA Order M–12 as amended April 9, 1951; and section 6 of NPA Order M–4 as amended July 1, 1951; and

8. Respondent, G. W. Kehres, purchasing agent for the corporate respondent, certified under section 11 of NPA Order M–12 as amended April 9, 1951, for the purchase of 10,000 feet of copper tubing to be used by the corporate respondents for the installation of lawn sprinkler systems, and the corporate respondents received and used 10,000 feet of copper tubing for the installation of lawn sprinkler systems in construction in violation of section 7 (e) of NPA Order M–12 of April 1, 1951; section 4 (c) of NPA Order M–4 as amended July 1, 1951; section 6 of NPA Order M–4A of August 3, 1951; sections 7, 11 (a), and 11 (b) of NPA Order M–12 as amended April 9, 1951, and section 6 of NPA Order M–4 as amended July 1, 1951.

Conclusion. During the period beginning April 5, 1951, and ending December 18, 1951, the respondents herein violated the provision of National Productive Authority orders, regulations, and directives as hereinbefore cited by the unlawful use of copper tubing for the purposes prohibited by the National Production Authority regulations. That during the period beginning April 16, 1951, and ending October 31, 1951, the respondents violated National Production Authority orders, regulations, and directives as hereinbefore cited by unlawfully obtaining copper tubing for the installation of lawn sprinkler systems. The corporate and individual respondents herein committed acts prohibited by the National Production Authority regulations and orders as hereinbefore cited.

In order to correct the unauthorized acquisition and improper use and disposition of material occasioned by the violations committed herein, and in order to prevent future violations of National Production Authority orders and regulations by this respondent,

It is accordingly ordered:

1. That all priority assistance be withdrawn and withheld from Texas Lawn Sprinkler Company of Dallas, Inc., its successors and assigns, Texas Lawn Sprinkler Company, Inc., its successors and assigns, M. E. Snoddy, and G. W. Kehres, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

2. That all allocations and allotments of controlled materials and materials under control of the National Production Authority be withdrawn and withheld from Texas Lawn Sprinkler Company of Dallas, Inc., its successors and assigns, Texas Lawn Sprinkler Company, Inc., its successors and assigns, M. E. Snoddy, and G. W. Kehres, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

3. That all privileges of self-certification granted by the National Production Authority with respect to controlled materials, and materials under control of the National Production Authority, be withdrawn and withheld from Texas Lawn Sprinkler Company of Dallas, Inc., its successors and assigns, Texas Lawn Sprinkler Company, Inc., its successors and assigns, M. E. Snoddy, and G. W. Kehres, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

4. That respondents, Texas Lawn Sprinkler Company of Dallas, Inc., its successors and assigns, Texas Lawn Sprinkler Company, Inc., its successors and assigns, M. E. Snoddy, and G. W. Kehres, be prohibited from acquiring, using, or disposing of controlled materials and materials under control of the National Production Authority, while the Defense Production Act of 1950, as amended or as hereafter amended or extended remains in effect.

Issued this 27th day of August 1952.

NATIONAL PRODUCTION AUTHORITY,
ROBERT J. FARLEY,
Hearing Commissioner.

[F. R. Doc. 52–10935; Filed, Oct. 6, 1952; 11:17 a. m.]

[Suspension Order 29, Docket No. 38]

DAYTON IRRIGATION SYSTEMS OF DALLAS

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 22d day of August 1952, before H. Bascom Thomas, a hearing commissioner of the National Production Authority, on a statement of charges made by the Assistant General Counsel in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628) dated July 21, 1951, and Implementation 1 to NPA General Administrative Order 16–06 (16 F. R. 8799); and

The respondent, Herbert S. Jack, Sr., d/b/a Dayton Irrigation Systems of Dallas, having been duly apprised of the specific violations charged and having been fully informed of the rules and procedures which govern these proceedings and the administrative action which may be taken; the respondent having filed an answer herein and having been represented by attorney, Charles Romick, 1420 Kirby Building, Dallas, Tex.; and the hearing commissioner having heard all of the evidence,

It is hereby determined:

Findings of fact. 1. The respondent, during the period August 7 through August 16, 1951, used copper controlled materials, to wit: copper tubing for the installation of lawn sprinkler systems in construction in violation of section 6 of NPA Order M–4A of August 3, 1951 (16 F. R. 7703); and

During the period September 16, 1951, through February 1952, the respondent used copper controlled materials, to wit: copper tubing for the installation of lawn sprinkler systems in construction in violation of section 7 of NPA Order M–4A as amended August 20, 1951 (16 F. R. 8361); thereby unlawfully using more than 16,000 feet of copper tubing.

2. Respondent, on or about April 23, 1952, was engaged in the installation of four (4) lawn sprinkler systems using copper controlled materials, to wit: copper pipe and copper tubing in excess of the poundage permissible under Schedule I of NPA Order M–100 of March 6, 1952 (17 F. R. 2012); said poundage being 932 pounds, 678 pounds, 241 pounds, and 678 pounds, respectively.

Conclusion. During the period beginning August 7, 1951, and ending May 1, 1952, the respondent herein violated the provision of National Production Authority orders, regulations, and directives as hereinbefore cited by the unlawful use of copper tubing for purposes prohibited by the National Production Authority regulations.

That during the period beginning April 23, 1952, and ending May 1, 1952, the respondent violated National Production Authority regulations, orders, and directives as hereinbefore cited by unlawfully using in each of four (4) additions to residential construction more copper tubing than was permitted by the said regulations, orders, and directives.

In order to correct the unauthorized and improper use and disposition of material occasioned by the violations committed herein, and in order to prevent future violations of the National Production Authority orders and regulations by this respondent,

It is accordingly ordered:

1. That all priority assistance be withdrawn and withheld from Herbert S. Jack, Sr., d/b/a Dayton Irrigation Systems of Dallas, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

2. That all allocations and allotments of controlled materials and materials under control of the National Production Authority be withdrawn and withheld from Herbert S. Jack, Sr., d/b/a Dayton Irrigation Systems of Dallas, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

3. That all privileges of self-certification granted by the National Production Authority with respect to controlled materials and materials under control of the National Production Authority be withdrawn and withheld from Herbert S. Jack, Sr., d/b/a Dayton Irrigation Systems of Dallas, while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

4. That respondent, Herbert S. Jack, Sr., d/b/a Dayton Irrigation Systems of Dallas, be prohibited from acquiring, using, or disposing of controlled materials and materials under control of the National Production Authority while the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

Issued this 3d day of September 1952.

NATIONAL PRODUCTION AUTHORITY,
H. BASCOM THOMAS,
Hearing Commissioner.

DEFENSE PRODUCTION ADMINISTRATION

[D. P. A. Request No. 46–DPAV–44]

REQUEST TO EXECUTE AND PARTICIPATE IN DEFENSE WAREHOUSEMEN'S ASSOCIATION AGREEMENT OF PHILADELPHIA

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request set forth below to execute and participate in the Defense Warehousemen's Association Agreement of Philadelphia was approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Defense Production Administration, and was accepted by the companies listed below.

This voluntary agreement provides for the formation of a warehousemen's association in the Philadelphia area, to be known as the "Defense Warehousemen's Association of Philadelphia," the sole purpose of which is to furnish public warehousing services and public storage facilities to the Government pursuant to the terms of a contract to be negotiated with the Department of Defense and the Executive Committee of the Association. This voluntary agreement has been approved by the Administrator of the Defense Production Administration and found to be in the public interest as contributing to the national defense.

CONTENTS OF REQUEST

You are requested to execute and participate in the voluntary agreement, a copy of which is enclosed.

In my opinion, such participation will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and representatives of the Administrator of the Defense Production Administration, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary agreement and find it to be in the public interest as contributing to the national defense. You will become a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that your participation therein is within the limits set forth in the voluntary agreement.

Your cooperation in this matter will be appreciated.

Sincerely yours,

HENRY H. FOWLER,
Administrator.

FEDERAL POWER COMMISSION

[Docket No. G–2025]

TENNESSEE GAS TRANSMISSION CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 30, 1952.

On August 6, 1952, Tennessee Gas Transmission Company (Applicant), a Delaware corporation having its principal place of business at Houston, Texas, filed an application pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction, and operation of a sales meter station on its main transmission pipe line near Ashland, Mississippi, for the sale and delivery of natural gas to the City of Ashland for resale in Ashland and environs.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that the application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on September 5, 1952 (17 F. R. 8057).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on October 21, 1952, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 30, 1952.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52–10828; Filed, Oct. 6, 1952; 8:48 a. m.]

[Docket No. G–2069]

PHILADELPHIA ELECTRIC CO.

NOTICE OF APPLICATION

SEPTEMBER 30, 1952.

Take notice that Philadelphia Electric Company (Applicant), a Pennsylvania corporation having its principal place of business at 1000 Chestnut Street, Philadelphia, Pennsylvania, filed on September 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 8,895 feet of 4½-inch pipeline together with appurtenant facilities for the transportation and sale of natural gas, all as hereinafter described.

Applicant proposes to construct and operate a 4½-inch pipeline, approximately 8,860 feet in length, extending from a point of connection with Texas Eastern Transmission Corporation's existing lateral pipeline to a point near the plant of G. and W. H. Corson, Inc. (Corson), together with approximately 35 feet of 4½-inch service-supply pipeline and appurtenant facilities, all in Whitemarsh Township, Montgomery County, Pennsylvania. The transportation and sale of gas proposed to Corson is on an interruptible basis for use in the manufacture of fluxing stone used in manufacturing steel. Annual sales are estimated at 291,000 Mcf.

Applicant estimates the cost of the facilities at $58,243. Financing initially will be by Applicant out of its general funds, with Corson partially reimbursing Applicant for the cost of the facilities by payment of a sum estimated at $24,048.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52–10829; Filed, Oct. 6, 1952; 8:49 a. m.]

[Project No. 2000]

POWER AUTHORITY OF THE STATE OF NEW YORK

NOTICE OF AMENDMENT TO APPLICATION

OCTOBER 1, 1952.

Public notice is hereby given that the Power Authority of the State of New York on September 22, 1952, filed an amendment to its previously filed application under the Federal Power Act (16 U. S. C. 791a–825r) for a license to construct a hydroelectric project in the International Rapids Section of the St. Lawrence River, Project No. 2000. The amendment modifies its application for license so as to describe the proposed project in conformity with section 8 of the applications dated June 30, 1952, of the Governments of the United States and Canada to the International Joint Commission for an order of approval for certain works in connection with the St. Lawrence Seaway and Power Project, of which the navigation features would be constructed by Canada, and bringing up-to-date certain legal and engineering information contained in the application for license.

The modified project would include the Long Sault Dam, the portion of the Barnhart Island powerhouse to be located within the United States and to have an installation of about 1,100,000 horsepower; the portion of the Iroquois control dam to be located within the United States, and appurtenant works and facilities. The maximum normal pool level would be at elevation 238 feet for initial operation and at elevation 242 feet after a test period of 10 years or less.

Any protest against approval of the application as amended or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted before October 31, 1952, to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52–10847; Filed, Oct. 6, 1952 8:51 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Doc. 7, Region II]

CALIFORNIA

RESTORATION ORDER UNDER FEDERAL POWER ACT

SEPTEMBER 30, 1952.

Pursuant to the following-listed determinations of the Federal Power Commission and in accordance with Order No. 427, § 2.22 (a) (4), of the Director, Bureau of Land Management, approved August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn or reserved for power purposes, are hereby opened to disposition under the public-land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and as to DA–677, DA–703, DA–731, DA–734 and DA–744 subject to the stipulation that, if and when the lands are needed for development, any structures or improvements located thereon that may be found to interfere with such development will be removed or located without expense to the United States, its licensees or permittees; as to DA–675 subject to the stipulation that such land shall not be used so as to increase silt in the Exchequer Reservoir Project No. 88; as to DA–734 subject to the stipulation that the locator and his successors and assignees shall by means of substantial dikes or other adequate structures confine all their mine tailings and other debris in such a manner that it shall not be carried by storm water or otherwise into the water resource of the region; and as to DA–755 subject to the stipulations that:

(a) In the conduct of mining operations upon the subject lands, the locator or locators, their heirs, executors, grantees, assignees, independent contractors or successors shall maintain by means of adequate structures, and confine all tailings and debris from such operations within the bounds of said lands; and

(b) The locators further promise and agree to forego any claim for damages from the United States, its licensees, or permittees arising from any and all power developments at any time.

DA–759–California..	Project No. 105 of Nov. 22, 1920..	....do....	California: T. 6 S., R. 24 E., M. D. M., sec. 21, SW¼NE¼, SE¼NW¼, NE¼SW¼, containing 120 acres within the Sierra National Forest.

The character of the above-described lands outside the national forests and the relatively level tracts included in DA–154 and DA–667 is rough, mountainous, non-agricultural land, of which small, scattered portions may possibly be considered suitable for cabin-site purposes except as to DA–675, DA–731, DA–734, DA–736 and DA–755, which contain some evidence of being mineral in character, and DA–677, which is primarily valuable as a public camp ground. It is unlikely that any of the above-described lands will be classified for homestead or desert land entry.

The lands described shall be subject to application by the State of California for a period of ninety days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways, as provided by section 24 of the Federal Power Act, as amended.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m., P. s. t., on the 91st day after the date of publication. At that time the said lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Land Office at Sacramento, California.

[SEAL] L. T. HOFFMAN,
Regional Administrator.

OFFICE OF DEFENSE MOBILIZATION

[CDHA 81]

FINDING AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951

OCTOBER 6, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations and the availability of housing and community facilities and services for such defense workers and military personnel in the area set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139, 82d Cong., 1st sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that said area is a critical defense housing area.

Hutchinson, Kansas, area. (The area consists of all of Reno County, Kansas.)

HENRY H. FOWLER,
Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54–188]

EASTERN UTILITIES ASSOCIATES ET AL.

ORDER AUTHORIZING RENEWAL OF OUTSTANDING PROMISSORY NOTES

October 1, 1952.

In the matter of Eastern Utilities Associates, and its subsidiary companies; File No. 54–188.

Eastern Utilities Associates ("EUA"), a registered holding company, has filed an application in connection with the Amended Reorganization Plan No. 4 filed by it and its subsidiary companies pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act"). Said application seeks the

approval of this Commission of the issuance by EUA to The First National Bank of Boston of $9,094,000 principal amount of 2¼ percent promissory notes to mature one year from October 19, 1952, or such other date, not later than October 19, 1953, as the Commission may deem proper under the circumstances. Such notes will be issued under a loan agreement with said bank which permits presently outstanding notes in the amount of $9,094,000 to be renewed from year to year for a period of two years from October 19, 1951. The original notes evidencing the loan were approved by this Commission in this proceeding by order, dated August 17, 1950, and the proceeds therefrom were used by EUA primarily to purchase certain shares of capital stock of its subsidiary, Fall River Electric Light Company, then held by others. By order, dated September 21, 1951, the Commission authorized the renewal of such notes for a period of one year, from October 19, 1951. It is contemplated by EUA that the notes presently outstanding under said loan agreement will be retired by the financing proposed in said Amended Reorganization Plan No. 4.

Appropriate notice of said filing and order giving all interested persons an opportunity for a hearing having been given pursuant to the act, and the Commission not having received a request for a hearing with respect to said application within the period specified in said notice, or otherwise, and not have ordered a hearing thereon; and

The Commission finding that the proposal to renew said notes for a period of one year from October 19, 1952, satisfies the applicable provisions of the act and the rules promulgated thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that the application insofar as it proposes the issuance of notes maturing not later than one year from October 19, 1952, be granted and that the Commission's order herein become effective forthwith:

It is ordered, Pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935, that the application insofar as it proposes the issuance of notes maturing not later than one year from October 19, 1952, be, and the same hereby is, granted and that this order become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

AMERICAN POWER & LIGHT CO. AND ELECTRIC BOND AND SHARE CO.

ORDER DIRECTING PAYMENT OF FINAL ALLOWANCES OF FEES AND EXPENSES

OCTOBER 1, 1952.

American Power & Light Company ("American"), a registered holding company and a former subsidiary of Electric Bond and Share Company "Bond and Share"), also a registered holding company, having heretofore filed jointly with Bond and Share a plan and amendments thereto for compliance with section 11 (b) of the Public Utility Holding Company Act of 1935, pursuant to section 11 (e) of the act, and the Commission having entered its findings and opinion and order approving said plan, as amended (Holding Company Act Release Nos. 9359-A and 9389, dated September 22, 1949, and October 4, 1949, respectively), and said plan, as amended, having provided that American would pay such fees and expenses incurred in connection with said plan or proceedings with respect to said plan as the Commission should approve, subject to the right of American to seek judicial review of any such order, and said plan having since been consummated and carried out in accordance with its terms; and

The Commission having, by said order of October 4, 1949, reserved jurisdiction to determine the reasonableness and appropriate allocation of all fees, expenses and other remuneration incurred in connection with said plan, as amended; and

Applications for allowances of fees and reimbursements of expenses having been filed, a public hearing having been held, the Commission having on December 26, 1951, issued an interim order (Holding Company Act Release No. 10971) permitting American to make certain payments with respect to fees and reimbursement of expenses; and

The Commission having considered the record and having this day filed its findings and opinion herein; on the basis of said findings and opinion:

It is ordered, That the payment by American of the following fees and disbursements, including fees and disbursements relating to the plan filed on September 6, 1946, less such amounts as have heretofore been paid, be, and hereby is, approved, and American be, and hereby is, directed to make payment of such amounts herein authorized as have not already been paid. The fees of certain of the claimants have been reduced to the extent of payments made to them by counsel and included in the expenses allowed to such counsel.

	Fees	Expenses
Root, Ballantine, Harlan, Bushby & Palmer	$17,050.00	$12,428.22
W. Howard Miller	21,150.00	1,324.77
Gilbert Associates, Inc	23,523.68	1,738.07
Ebasco Services, Inc	22,175.82	427.81
City Bank Farmers Trust Co	57,500.00	
McLean, Southard & Hunt	820.00	86.53
Leo B. Mittelman, Estate of Joseph Nemerov, and H. Paul Shimik	10,000.00	11,417.09
Theodore R. Mackoul	43,900.00	
Alfred J. Kirsh	4,000.00	
Norman S. Nemser	3,500.00	
Robert M. Zeinick	2,000.00	
Harold Barnett	2,500.00	
Shearman & Sterling & Wright	70,000.00	13,092.66
E. Ralph Sterling	5,500.00	230.38
Debevoise, Plimpton & McLean	65,000.00	7,686.74
Reis & Chandler, Inc	28,549.83	1,653.28

It is further ordered, That the applications of George B. Martin and Newman & Bisco and of Hoffman, Bondi, Buchwald & Hoffman and Howard Hilton Spellman be, and the same hereby are, denied.

It is further ordered, That the application of Bond and Share for reimbursement from American for expenses incurred by Bond and Share in the reorganization proceedings of American be, and the same hereby is, denied, and that in so far as any claimants for services rendered to Bond and Share make claim against American for such services such applications be, and the same hereby are, denied.

It is further ordered, That payment by Bond and Share of the following fees and disbursements be, and the same hereby is, approved and Bond and Share be, and hereby is, directed to make payment of such amounts herein authorized as have not already been paid.

	Fees	Expenses
Reid & Priest	$45,000.00	$3,893.77
Simpson Thacher & Bartlett	55,000.00	2,085.64
Drexel & Company (Edward Hopkinson, Jr.)	15,000.00	
Ebasco Services, Inc	141,136.05	

It is further ordered, That to the extent the applications herein exceed the amounts approved as payment of fees and reimbursement of expenses, such applications, and the same hereby are, denied.

By the Commission.

[F. R. Doc. 52-10833; Filed, Oct. 6, 1952; 8:50 a. m.]

[File No. 70-2928]

GRANITE STATE ELECTRIC CO. ET AL.

ORDER AUTHORIZING ISSUANCE TO BANKS OF PROMISSORY NOTES

OCTOBER 1, 1952.

In the matter of Granite State Electric Company, Haverhill Electric Company, Malden Electric Company, Salem Electric Lighting Company, Suburban Gas and Electric Company, Worcester County Electric Company; File No. 70-2928.

The above named public-utility subsidiary companies of New England Electric System ("NEES"), a registered holding company, hereinafter individually referred to as "Granite," "Haverhill," "Malden," "Salem," "Suburban," and "Worcester" and collectively referred to as the "borrowing companies", having filed with this Commission declarations, pursuant to section 7 of the Public Utility Holding Company Act of 1935 and Rule U-42 thereunder, with respect to the following proposed transactions:

The borrowing companies propose to issue to banks, from time to time, but not later than December 31, 1952, unsecured promissory notes in the maximum principal amount of $7,025,000. The borrowing companies further propose that the principal amount of all of their unsecured promissory notes outstanding at any one time during the period from October 1, 1952, to December 31, 1952, will not exceed $7,275,000.

Each of the notes proposed to be issued will be due six months after its issue date and will bear interest at the prime rate of interest at the time of its issuance. It is stated that said prime rate of interest for such notes at the present time is 3 percent. In the event that such interest rate is in excess of 3¼ percent at the time any of the proposed notes are to be issued, the borrowing company will file an amendment to its declaration setting forth therein the name of the bank or banks, the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. The borrowing companies request that such amendment become effective at the end of such period unless the borrowing company or companies concerned are notified by the Commission to the contrary within such period.

Each of the borrowing companies, except Salem, presently has outstanding notes payable to banks or to NEES and each will use the proceeds derived from the notes proposed to be issued to pay off presently outstanding notes maturing during the period from October 1, 1952, to December 31, 1952, or to pay for construction costs during this period or to reimburse its treasury for prior construction expenditures. The following table shows the amount of notes proposed to be issued and the maximum amount to be outstanding at any one time during the above mentioned period by each of the borrowing companies and the use of the proceeds derived therefrom:

Company	Amount of notes—		Use of proceeds to pay—		
	To be issued	To be outstanding	Notes to banks	Notes to NEES	For construction
Granite	$450,000	$550,000	$350,000		$100,000
Haverhill	700,000	700,000		$500,000	200,000
Malden	1,550,000	1,550,000	1,100,000		450,000
Salem	200,000	200,000			200,000
Suburban	1,125,000	1,275,000	1,075,000		150,000
Worcester	3,000,000	3,000,000		900,000	2,100,000
Total	7,025,000	7,275,000	2,525,000	1,400,000	3,100,000

Granite, Haverhill, Salem and Suburban propose to issue all of their notes to The First National Bank of Boston. Malden proposes to issue its notes to The First National Bank of Boston ($1,030,000), First National Bank of Malden ($120,000), Malden Trust Company ($100,000), and Middlesex County National Bank ($300,000). Worcester proposes to issue its notes in the aggregate amount of $3,000,000 to Worcester County Trust Company, The Mechanics National Bank and Guaranty Bank and Trust Company, all of Worcester, Massachusetts, and The First National Bank of Boston.

The declarations further state that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $300 for each of the borrowing companies, or an aggregate of $1,800. The declarations further state that, except for an exemption granted to Granite by the Public Utilities Commission of New Hampshire with respect to the issuance of promissory notes payable in less than twelve months and in an amount not exceeding $600,000, no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice of the filing of the declarations having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declarations be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declarations be, and hereby are, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10831; Filed, Oct. 6, 1952; 8:50 a. m.]

[File No. 70-2931]

AMESBURY ELECTRIC LIGHT CO. ET AL.

NOTICE OF FILING REGARDING ISSUANCE BY SUBSIDIARIES OF PROMISSORY NOTES AND ACQUISITION OF SUCH NOTES BY PARENT COMPANY

OCTOBER 1, 1952.

In the matter of Amesbury Electric Light Company, Athol Gas Company, Attleboro Steam and Electric Company, Beverly Gas and Electric Company, Connecticut River Power Company, Gloucester Electric Company, Northampton Electric Lighting Company, Northern Berkshire Gas Company, Norwood Gas Company, Quincy Electric Light and Power Company, Southern Berkshire Power & Electric Company, Weymouth Light and Power Company, New England Electric System; File No. 70-2931.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and certain of its public-utility subsidiary companies, namely, Amesbury Electric Light Company ("Amesbury"), Athol Gas Company ("Athol"), Attleboro Steam and Electric Company ("Attleboro"), Beverly Gas and Electric Company ("Beverly"), Connecticut River Power Company ("Connecticut"), Gloucester Electric Company ("Gloucester"), Northampton Electric Lighting Company ("Northampton"), Northern Berkshire Gas Company ("Northern Berkshire"), Norwood Gas Company ("Norwood"), Quincy Electric Light and Power Company ("Quincy"), Southern Berkshire Power & Electric Company ("Southern Berkshire") and Weymouth Light and Power Company ("Weymouth"), hereinafter collectively referred to as "the borrowing companies", have filed a joint application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("the act"), and have designated sections 6, 7, 9, 10, and 12 of the act and Rules U-23, U-43, U-45, and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

The borrowing companies propose to issue to NEES, from time to time during the period from October 1, 1952, to December 31, 1952, unsecured promissory notes in an aggregate amount of $9,380,000. Each of the proposed notes will mature July 1, 1953, and will bear interest at the prime rate of interest charged by banks for such notes at the time of the issuance thereof. It is stated that said interest rate for such notes at the present time is 3 percent per annum. In the event that such interest rate is in excess of 3¼ percent per annum at the time any of said promissory notes are to be issued, the borrowing company or companies and NEES will file an amendment to this application-declaration setting forth therein the terms of the note or notes and the rate of interest at least five days prior to the issuance of said note or notes. The borrowing companies and NEES request that such amendment become effective at the end of such period unless the Commission notifies them to the contrary within said period. The proposed notes may be prepaid, in whole or in part, without premium.

The application-declaration states that the proceeds derived from the notes proposed to be issued by the borrowing companies will be used to pay notes payable to NEES, due December 1, 1952, for construction costs, to reimburse the companies' treasuries for prior construction expenditures and for other corporate purposes. The following table sets forth the aggregate amount of notes each borrowing company proposes to issue and the use of the proceeds therefrom:

Company	Amount of notes proposed to be issued	Use of proceeds	
		Notes and advances to NEES	Construction
Amesbury	$515,000	$455,000	$60,000
Athol	60,000	45,000	15,000
Attleboro	495,000	405,000	90,000
Beverly	2,290,000	1,990,000	300,000
Connecticut	750,000		750,000
Gloucester Electric	730,000	655,000	75,000
Northampton	175,000	175,000	
Northern Berkshire	1,280,000	1,080,000	200,000
Norwood	400,000	275,000	125,000
Quincy	930,000	730,000	200,000
Southern Berkshire	905,000	855,000	50,000
Weymouth	850,000	750,000	100,000
Total	9,380,000	7,415,000	1,965,000

The application-declaration further states that incidental services in connection with the proposed note issues will be performed, at cost, by New England Power Service Company, an affiliated service company, such cost being estimated not to exceed $200 for each of the borrowing companies and for NEES, or an aggregate of $2,600. The application-declaration further states that, with the exception of the Public Utilities Commission of New Hamsphire which has jurisdiction over the notes proposed to be issued by Connecticut, no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

The borrowing companies request that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than October 20, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

OGDEN CORP. AND ALLEN & CO.

NOTICE OF APPLICATION FOR AN ORDER EXEMPTING A TRANSACTION INVOLVING AFFILIATED PERSONS

OCTOBER 2, 1952.

Notice is hereby given that Ogden Corporation (hereinafter referred to as "Ogden"), a registered investment company, and Allen & Company (hereinafter referred to as "Allen" have filed an application pursuant to sections 10 (f) and 17 (b) of the Investment Company Act of 1940 for an order of the Commission (1) exempting from the provisions of sections 10 (f) of the act the proposed purchase by Ogden of subscription warrants to purchase 18,711 shares of common stock of Pubco Development, Inc. and (2) exempting from the provisions of section 17 (a) of the act the purchase of such subscription warrants from Allen at $3.08 per warrant.

Allen, which conducts an investment banking business with a principal office at 30 Broad Street, New York, New York, is the owner of 2,723,009 shares of Ogden constituting approximately 80 percent of the 3,399,261 shares of common stock of Ogden which are outstanding. The common stock is the only class of outstanding stock. Ogden, which has a principal office at 33 Pine Street, New York, New York, is a Delaware corporation registered under the Investment Company Act as a closed-end, non-diversified investment Company. Pubco, a New Mexico corporation with its principal office at 424 West Central Avenue, Alberquerque, New Mexico, is primarily engaged in the business of purchasing leasing or otherwise acquiring lands in New Mexico or any other state for the purpose of obtaining and prospecting for gas or oil or other materials. Pubco is not affiliated with Allen. Recently Pubco made an offering of subscription warrants to purchase 605,978 shares of its common stock and filed a registration statement under the Securities Act of 1933 covering the offering. In addition Pubco entered into an underwriting agreement dated July 14, 1952, with Allen pursuant to which Allen agreed to underwrite the offering. The subscription warrant was offered at $3.00 per warrant and entitled the holder to purchase one share of common stock of Pubco at $1 per share between January 1, 1955, and March 31, 1955. Allen agreed to pay $3 per warrant not purchased by the shareholders of Pubco.

On July 21, 1952, Allen entered into an agreement with Ogden pursuant to which Allen agreed to sell and Ogden agreed to purchase at a price of $3.08 for each warrant entitling the holder to purchase one share of common stock, up to 50,000 subscription warrants of Pubco, over and above the first 45,000 subscription warrants which Allen received pursuant to the underwriting agreement.

Allen pursuant to its commitment acquired subscription warrants to purchase 63,711 shares of common stock. Accordingly, Allen proposes to sell to Ogden subscription warrants for 18,711 shares of common stock representing the excess over and above warrants for 45,000 shares to be retained by Allen. The price to Ogden constitutes the same price at which Allen purchased the warrants plus the amount equal to a stock exchange commission in order to cover transfer taxes and other expenses.

Since Allen owns more than 5 percent of the voting securities of Ogden, Allen is an affiliated person of Ogden by reason of 2 (a) (3) (A) of the act and Ogden is an affiliated person of Allen by reason of section 2 (a) (3) (B) of the act. Therefore the proposed transaction is prohibited by sections 10 (f) and 17 (a) of the act unless the Commission by order issued pursuant to sections 10 (f) and 17 (b) of the act exempts the purchase from the prohibition of the act.

The application states that subscription warrants with identical rights but covering shares of common stock already issued by Pubco and now owned by its parent, Public Service Company of New Mexico, were quoted at approximately 3⅜ bid and 3⅞ offered on July 1, 1952. There appears to be an active market for the warrants and since September 8, 1952, warrants have been selling at approximately 6⅞.

All interested persons are referred to said application which is on file at the Washington, D. C. office of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that in order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after October 15, 1952, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than October 14, 1952 at 5:30 p. m., e. s. t., submit in writing to the Commission his views or any additional facts bearing upon the application for the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, N. W., Washington 25 D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 984—WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Notice of proposed rule making with respect to the fixing of salable, surplus, and withholding percentages of walnuts for the 1952–53 marketing year was published in the FEDERAL REGISTER of September 24, 1952 (17 F. R. 8518), pursuant to the provisions of Marketing Agreement No. 105 and Order No. 84 regulating the handling of walnuts grown in California, Oregon, and Washington (7 U. S. C. 601 et seq.). In said notice, in which it was proposed to fix the salable percentage of merchantable walnuts for the 1952–53 marketing year at 80 percent, the surplus percentage at 20 percent, and the withholding percentage at 25 percent, opportunity was afforded interested persons to submit to the Department written data, views, or arguments for consideration prior to the issuance of the final rule. The Walnut Control Board at its meeting in Los Angeles on September 26, 1952, reviewed and confirmed its recommendation of the aforesaid percentages which were adopted at its meeting in San Francisco on August 26, 1952, and which are set forth in the accompanying rule. No other data, views, or arguments were received within the specified period.

After consideration of all relevant matters, such percentages are hereby fixed as follows:

§ 984.204 *Salable, surplus, and withholding percentages for merchantable walnuts during the 1952–53 marketing year.* For merchantable walnuts, during the 1952–53 marketing year, the salable percentage shall be 80 percent, the surplus percentage shall be 20 percent, and the withholding percentage shall be 25 percent.

(Sec. 5, 49 Stat. 753, as amended: 7 U. S. C. and Sup. 608c)

It is hereby found and determined that good cause exists for making this rule effective upon publication in the FEDERAL REGISTER, instead of waiting thirty days after publication, for the reasons that (1) it is desirable that the percentages be fixed prior to any handling of the 1952 crop of walnuts; (2) the handling of 1952 crop walnuts is imminent; and (3) operations of handlers under the marketing agreement and order program will not require prior preparation with respect to the application of the percentages fixed herein.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 146, Interpretation 1]

CPR 146—CEILING PRICES FOR SALES OF WOOL GREASE AND LANOLIN BY MANUFACTURERS AND PROCESSORS

INT. 1—CHANGE IN CONTAINER BASIS OF SALES BY MANUFACTURERS AND PROCESSORS OF WOOL GREASE AND LANOLIN (SECTION 3 (C))

Section 3 (c) of Ceiling Price Regulation 146 states "After the effective date of this regulation, a seller may not convert from a returnable container basis of sales to a non-returnable container basis with respect to a particular purchaser without permission in writing by the Director of Price Stabilization". The application for permission to convert must include a "statement that the change will not result, directly or otherwise, in a net price increase to the purchaser".

Ceiling Price Regulation 36 establishes dollars-and-cents ceiling prices for raw steel drums including the kind generally used to ship wool grease and lanolin. Section 6 (g) defines "raw steel drum" as a used steel drum which has been emptied, but has not been reconditioned for reuse after the last emptying • • •." Under CPR 36, the price at which a purchaser of wool grease and lanolin may sell his used empty drum is considerably less than either the reasonable market value of the drum when it was new or its net invoice cost to the seller of wool grease or lanolin. If a purchaser of wool grease or lanolin pays more for a drum container than he can receive on resale, the monetary difference would constitute, in effect, an indirect increase over the invoice price of the wool grease. Under section 3 (c) of CPR 146, therefore, before a seller can state that a proposed change to a non-returnable container basis will not result, directly or otherwise in a net price increase to the purchaser, he may not charge, or propose to charge, more for a drum than the ceiling price established by section 3 (a) of CPR 36 for the sale of "raw steel drums" by persons other than persons who purchase for resale.

Prior to the effective date of CPR 146, June 9, 1952, sellers of wool grease and lanolin were under the General Ceiling Price Regulation and could not change their container basis of sales. A change by a seller from a returnable to a non-returnable container basis of sales would have involved making the purchaser buy something in addition to the wool grease and lanolin and this would not only have varied the terms or conditions of sale or delivery in effect during the base period but also would have constituted a tie-in agreement in violation of section 18 of the GCPR. Any seller of wool grease and lanolin, desiring to change his returnable base period practice to a nonreturnable container basis of sales with respect to a particular purchaser, may now apply for permission to do so under section 3 (c) of CPR 146.

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 35]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 35—WILMINGTON, DELAWARE MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 41 (16 F. R. 12679), and Redelegation of Authority 21 (17 F. R. 171), this Area Milk Price Regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 63 to the General Ceiling Price Regulation, issued September 19, 1951, authorizes district directors of the Office of Price Stabilization to issue area milk price regulations fixing ceiling prices for milk products for particular milk marketing area within their districts. Such orders may be issued in response to petitions, as has been the case in this instance, or upon a district director's own initiative whenever in his judgment, after verification if deemed desirable, he has accurate and adequate information from a representative portion of the processors and distributors in the area, and where this information indicates that an area regulation would be appropriate.

This area milk price regulation establishes ceiling prices, for sales by processors and distributors of milk products for fluid consumption affecting the area designated as the Wilmington, Delaware, Milk Marketing Area. In general, sales are covered by this regulation if the purchaser is located in this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area, unless the delivery is for resale within the area. Products covered by this regulation are milk products for fluid consumption processed from Class I raw milk. Ceiling prices for milk products not covered by this regulation remain subject to the General Ceiling Price Regulation.

In determining whether an area milk price regulation should be issued OPS is required to consider the historical marketing pattern determining the precise marketing area involved, cost increases or decreases sustained by processors and distributors serving the area and a fair and equitable margin for such processors and distributors in accordance with the Defense Production Act of 1950, as amended.

The milk marketing area created by this regulation and described as the Wilmington, Delaware, Milk Marketing Area comprises all that portion of New Castle County which lies north of a line formed by Route 4 joined to and supplemented by the northerly bounds of the towns of Middletown and Odessa and finally by the course of Appoquinimink Creek.

Calculations were based on data submitted by a representative number of distributors. The regulation is a result of petitions received from 5 of the 13 distributors in the area, representing the greater part of the volume of milk sold in the area. Among those petitioning were large, medium and small dealers. Spot checks were made to determine the accuracy of cost, sales, and volume figures contained in the petitions.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provision of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the District Director of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

This regulation indicates the producer prices for raw milk which are to be the basis for computing future parity adjustments. In the absence of an area milk price regulation, processors and distributors are not required to make a downward adjustment in their own selling prices to pass on to the consumer the

benefit of any reduction, in the price paid to the producer of milk. In this area milk price regulation such downward adjustments are required to be made.

The regulation will thus provide an effective means of maintaining an equitable relationship between the prices paid by processors and distributors and the ceiling prices for their own sales. It is intended that the regulation remain flexible and it is probable that it will be subject to amendment and modification from time to time to adjust for changing conditions within the dairy industry in this area. Such modifications may result from petitions filed by persons described in Supplementary Regulation 63 and in accordance with procedures prescribed therein or by the Office of Price Stabilization upon its own initiative.

In the judgment of the District Director of the Wilmington District Office of Price Stabilization, the provisions of this area milk pricing regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952. The District Director gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

With respect to the simultaneous promulgation of two area milk price regulations for the State of Delaware, it is to be observed that the petitioners have sought the establishment of the particular marketing area which is defined in each of these regulations. Moreover, the information supplied by the petitioners in the Wilmington, Delaware Area and in the lower Delaware Area, makes it manifest in the judgment of the District Director, that separate marketing areas are called for by the circumstances of the milk industry in the lower Counties as contrasted with those in the upper part of the State of Delaware.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk regulation applies.
3. Sellers and sales covered by this area milk price regulation.
4. Ceiling prices of listed items for processors and distributors.
5. Use of competitor's ceiling prices to establish your ceiling prices.
6. Sellers who cannot price under other sections of this regulation.
7. Producer prices.
8. Rounding of fractions.
9. Transfer of business or stock in trade.
10. Prohibitions.
11. Violation.

AUTHORITY: Sections 1 to 11 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, establishes ceiling prices for fluid milk products in the Wilmington, Delaware, Milk Marketing Area for sales by processors and distributors. It provides further that ceiling prices so determined may be adjusted upward, and must be adjusted downward in accordance with future variations in the price paid to producers of milk.

SEC. 2. *Where this area milk price regulation applies.* The area covered by this regulation comprises all of the territory in northern Delaware north of a line which commences at the conjunction of the westerly boundary of Delaware with Route 4 and passes in an easterly direction along Route 4 to the town line of Middletown; thence easterly around the northerly boundary of Middletown to the point where the town line again crosses Route 4; thence still proceeding easterly along Route 4 to the town line of Odessa; thence easterly around the northerly boundary of Odessa to the point where that town line crosses Appoquinimink Creek; and thence along Appoquinimink Creek by its several courses to the Delaware River. This area comprises the greater part of New Castle County which lies north of the above described line, all within the State of Delaware.

SEC. 3. *Sellers and sales covered by this area milk price regulation.* This area milk price regulation covers sales in this marketing area of milk products for fluid consumption processed from Class I raw milk by processors and distributors. Definitions of these terms may be found in sections 3 and 11 (e) of Supplementary Regulation 63 to GCPR. This area milk price regulation also covers sales of milk products to be delivered to a purchaser located in this area, although the seller is located outside of this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area unless the products are resold inside the area.

SEC. 4. *Ceiling prices of listed items for processors and distributors.* (a) Your ceiling prices as of September 30, 1952, for Class I, Grade A pasteurized milk of 3.5 percent butterfat content on a home delivered basis, shall be as follows:

Glass quart container	$0.23½
Glass pint container	.14¼
Glass ½ pint container	.08¼

(b) In order to establish a ceiling price for any unlisted milk item sold by you in quart, pint or half pint containers, you first ascertain the difference which existed between the highest price for the quart, pint, or half pint of milk defined in subsection (a), as established under the GCPR during the period from December 19, 1950, to January 25, 1951, and the highest price similarly established from the quart, pint or half pint milk item for which you seek to establish a ceiling price under this regulation. You then apply this difference to the price of the corresponding quart, pint or half pint of milk listed in subsection (a). The result is your ceiling price under this regulation for the unlisted milk item as of September 30, 1952.

(c) The definition of a milk item is contained in section 11 of SR 63 to GCPR.

SEC. 5. *Use of competitor's ceiling prices to establish your ceiling prices—*(a) *How you determine your ceiling price.* If you cannot determine a ceiling price under section 4, your ceiling price for the sale of any milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same milk product in the same size and type of container by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling price.* You shall not sell any such milk product until you have sent the report required by paragraph (c) of this section by registered mail, return receipt requested, to the District Director of the Office of Price Stabilization who issued this regulation. After OPS has received your reports, as shown by your return postal receipt, you may sell the product at your proposed ceiling price unless you are notified by the District Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling price.* Your report shall state the name and address of your company; the name, address, and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of your business has been engaged in any part of the past 12 months in any capacity in the same or similar business at any other establishment and if so, the trade name and address of each such establishment. Your report should also include the following:

(1) *If you are a processor.* A description of the product you are pricing; the processing involved in the production of that product; the classes of purchasers to whom you will be selling; the ceiling price of your nearest competitor, and your proposed ceiling price to each class of purchaser.

(2) *If you are a distributor.* A description of the product you are pricing; your net invoice cost of the commodity being priced; the names and addresses of your sources of supply; the function performed by them (e. g., processing, distributing, etc.) and the class of purchasers to whom they customarily sell; the classes of purchasers to whom you plan to sell; the ceiling price of your most closely competitive seller; your proposed ceiling price to each class of purchaser; and a statement that your proposed ceiling prices will not exceed the ceiling price your customers paid to their customary sources of supply. A report under this section may be filed on OPS Public Form 122, which may be obtained from the District Director of the Office of Price Stabilization who issued this regulation.

SEC. 6. *Sellers who cannot price under other sections of this regulation—*(a) *How you obtain your ceiling price.* If you cannot determine a ceiling price under section 4 or 5, you must apply to the District Director of the Office of Price Stabilization who issued this regulation for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Director will, as soon as possible after the receipt of the application or the receipt of such additional information as he may request, issue a letter order establishing a ceiling price for the sale by you of that product at the various levels of distribution, and specifying a producer price for milk from which parity adjustments will be computed. You may not sell the milk product until the Director has issued a letter order establishing your ceiling price for the sale of the product.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the product and the nature of your business such as indicated in section 5 (c) (1) or (2) of this regulation; a description of the product, its butterfat content, the type and size of container in which it will be sold and the class of purchaser to whom you intend to sell; your proposed ceiling price and the method used by you to determine it, including the producer price upon which it is based; and the reason you believe the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

SEC. 7. *Producer prices.* (a) The producer price for Class I, Grade A Pasteurized Milk of 3.5 percent butterfat content, upon which the ceiling prices established under this regulation are based, is $6.12 per hundredweight.

(b) The producer price specified in section 7 (a) must be used as the basis for computing parity adjustments of ceiling prices in accordance with section 8 of Supplementary Regulation 63 to the GCPR.

(c) After the determination of your ceiling prices under this regulation you may increase, and you must decrease, the ceiling prices so established by parity adjustments in conformity with section 8 (a) of Supplementary Regulation 63. If your ceiling price was determined under section 5 of this regulation, you shall compute your parity adjustments from the highest price you paid or incurred for your customary purchase of milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary purchase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under Section 6 of this regulation, you shall compute your parity adjustments from the producer price specified in the letter order.

(d) Before putting into effect any increase and upon putting into effect any decrease in any price resulting from your computation of a parity adjustment under this regulation and section 8 of Supplementary Regulation 63 to GCPR you shall report the amount of your parity increase or decrease to the District Director of Delaware, Office of Price Stabilization, 9 East Third Street, Wilmington, Delaware, in conformity with section 8 (b) (4) of SR 63 to GCPR.

SEC. 8. *Rounding of fractions.* Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption so sold during the preceding month or other billing period shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 9. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 10. After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product at a price in excess of the ceiling price established by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 11. *Violation—*(a) *Civil and criminal action.* Persons violating any provision of this regulaton are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director may issue an order fixing ceiling prices for the milk products such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

Effective date. This area milk price regulation is effective October 7, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

WILLARD D. BOYCE,
District Director, District of Delaware, Office of Price Stabilization.

OCTOBER 7, 1952.

[F. R. Doc. 52-10971; Filed, Oct. 7, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 36]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 36—LOWER DELAWARE MILK MARKETING AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 41 (16 F. R. 12679), and Redelegation of Authority 21 (17 F. R. 171), this area milk price regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 63 to the General Ceiling Price Regulation, issued September 19, 1951, authorizes district directors of the Office of Price Stabilization to issue area milk price regulations fixing ceiling prices for milk products for particular milk marketing area within their districts. Such orders may be issued in response to petitions, as has been the case in this instance, or upon a district director's own initiative whenever in his judgment, after verification if deemed desirable, he has accurate and adequate information from a representative portion of the processors and dis-

tributors in the area, and where this information indicates that an area regulation would be appropriate.

This area milk price regulation establishes ceiling prices, for sales by processors and distributors of milk products for fluid consumption affecting the area designated as the Lower Delaware Milk Marketing Area. In general, sales are covered by this regulation if the purchaser is located in this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area, unless the delivery is for resale within the area. Products covered by this regulation are "milk products for fluid consumption" as this term is defined in SR 63 to the General Ceiling Price Regulation. Ceiling prices for milk products not covered by this regulation remain subject to the General Ceiling Price Regulation.

In determining whether an area milk price regulation should be issued OPS is required to consider the historical marketing pattern determining the precise marketing area involved, cost increases or decreases sustained by processors and distributors serving the area and a fair and equitable margin for such processors and distributors in accordance with the Defense Production Act of 1950, as amended.

The milk marketing area created by this regulation and described as the Lower Delaware Milk Marketing Area comprises the entire counties of Kent and Sussex as well as that portion of New Castle County which lies south of a line formed by Route 4 joined to and supplemented by the northerly bounds of the towns of Middletown and Odessa and finally by the course of Appoquinimink Creek.

Calculations were based on data submitted by a representative number of distributors. The regulation is a result of petitions received from 7 of the 11 distributors in the area, representing by far the greater part of the volume of milk sold in the area. Among those petitioning were large, medium, and small dealers. Spot checks were made to determine the accuracy of cost, sales, and volume figures contained in the petitions.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provision of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the District Director of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

This regulation indicates the producer prices for raw milk which are to be the basis for computing future parity adjustments. In the absence of an area milk price regulation, processors and distributors are not required to make a downward adjustment in their own selling prices to pass on to the consumer the benefit of any reduction, in the price paid to the producer of milk. In this area milk price regulation such downward adjustments are required to be made.

The regulation will thus provide an effective means of maintaining an equitable relationship between the prices paid by processors and distributors and the ceiling prices for their own sales. It is intended that the regulation remain flexible and it is probable that it will be subject to amendment and modification from time to time to adjust for changing conditions within the dairy industry in this area. Such modifications may result from petitions filed by persons described in Suplementary Regulation 63 and in accordance with procedures prescribed therein or by the Office of Price Stabilization upon its own initiative.

In the judgment of the District Director of the Wilmington District Office of the Office of Price Stabilization, the provisions of this area milk pricing regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951 and 1952. The District Director gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included meetings of the Lower Delaware Industry Advisory Committee for Milk, and separate conferences with several processors and distributors of milk in Lower Delaware.

With respect to the simultaneous promulgation of two area milk price regulations for the State of Delaware, it is to be observed that the petitioners have sought the establishment of the particular marketing area which is defined in each of these regulations. Moreover, the information supplied by the petitioners in the Wilmington, Delaware Area and in the lower Delaware Area, makes it manifest in the judgment of the District Director, that separate marketing areas are called for by the circumstances of the milk industry in the lower Counties as contrasted with those in the upper part of the State of Delaware.

REGULATORY PROVISIONS

Sec.
1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sellers and sales covered by this area milk price regulation.
4. Ceiling prices of listed items for processors and distributors.
5. Use of competitor's ceiling prices to establish your ceiling prices.
6. Sellers who cannot price under other sections of this regulation.
7. Producer prices.
8. Rounding of fractions.
9. Transfer of business or stock in trade.
10. Prohibitions.
11. Violation.

AUTHORITY: Sections 1 to 11 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this area milk price regulation does.* This area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, establishes ceiling prices for fluid milk products in the Lower Delaware Milk Marketing Area for sales by processors and distributors. It provides further that ceiling prices so determined may be adjusted upward, and must be adjusted downward, in accordance with future variations in the price paid to producers of milk.

SEC. 2. *Where this area milk price regulation applies.* The area covered by this regulation comprises all of the territory in lower Delaware south of a line which commences at the conjunction of the westerly boundary of Delaware with Route 4 and passes in an easterly direction along Route 4 to the town line of Middletown; thence easterly around the northerly boundary of Middletown to the point where the town line again crosses Route 4; thence still proceeding easterly along Route 4 to the town line of Odessa; thence easterly around the northerly boundary of Odessa to the point where that town line crosses Appoquinimink Creek; and thence along Appoquinimink Creek by its several courses to the Delaware River. This area comprises the counties of Sussex and Kent and that portion of New Castle County which lies south of the above described line, all within the State of Delaware.

SEC. 3. *Sellers and sales covered by this area milk price regulation.* This area milk price regulation covers sales in this marketing area of milk products for fluid consumption by processors and distributors. Definitions of these terms may be found in sections 3 and 11 (e) of Supplementary Regulation 63 to GCPR. This area milk price regulation also covers sales of milk products to be delivered to a purchaser located in this area, although the seller is located outside of this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area unless the products are resold inside the area.

SEC. 4. *Ceiling price of listed items for processors and distributors.* (a) Your ceiling prices as of September 1, 1952 for regulation pasteurized milk of 3.5 percent butterfat content on a home delivered basis shall be as follows:

Glass quart container	$0.23½
Glass pint container	.15¼
Glass ½ pint container	.08⅛

(b) In order to establish a ceiling price for any unlisted milk item sold by you in quart, pint or half pint containers, you first ascertain the difference which existed between the highest price for the quart, pint or half pint of milk defined in subsection (a), as established under the GCPR during the period from December 19, 1950, to January 25, 1951, and the highest price similarly established for the quart, pint or half pint milk item for which you seek to establish a ceiling price under this regulation. You then apply this difference to the price of the corresponding quart, pint or half pint of milk listed in subsection (a). The result is your ceiling price under this regulation for the unlisted milk item as of September 1, 1952.

For example, assuming your highest price of a pint of chocolate milk established during the GCPR base period to have been 14 cents and further assuming that the highest price of a pint of milk as defined in subsection (a) and similarly established to have been 12 cents, to arrive at your ceiling price of a pint of chocolate milk, you ascertain the dollar and cent difference between 12 cents and 14 cents and you add this amount (2 cents) to the ceiling price listed in subsection (a), i. e., 15¼ cents. This gives 17¼ cents and would be your ceiling price under this regulation for a pint of chocolate milk. It is to be noted that the figures given in this example are assumed figures.

(c) The definition of a milk item is contained in section 11 of SR 63 to GCPR.

SEC. 5. *Use of competitor's ceiling prices to establish your ceiling prices—*(a) *How you determine your ceiling price.* If you cannot determine a ceiling price under section 4, your ceiling price for the sale of any milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same milk product in the same size and type of container by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling price.* You shall not sell any such milk product until you have sent the report required by paragraph (c) of this section by registered mail, return receipt requested, to the District Director of the Office of Price Stabilization who issued this regulation. After OPS has received your reports, as shown by your return postal receipt, you may sell the product at your proposed ceiling price unless you are notified by the District Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling price.* Your report shall state the name and address of your company; the name, address, and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of your business has been engaged in any part of the past 12 months in any capacity in the same or similar business at any other establishment and if so, the trade name and address of each such establishment. Your report should also include the following:

(1) *If you are a processor.* A description of the product you are pricing; the processing involved in the production of that product; the classes of purchasers to whom you will be selling; the ceiling price of your nearest competitor, and your proposed ceiling price to each class of purchaser.

(2) *If you are a distributor.* A description of the product you are pricing; your net invoice cost of the commodity being priced; the names and addresses of your sources of supply; the function performed by them (e. g., processing, distributing, etc.) and the class of purchasers to whom they customarily sell; the classes of purchasers to whom you plan to sell; the ceiling price of your most closely competitive seller; your proposed ceiling price to each class of purchaser; and a statement that your proposed ceiling prices will not exceed the ceiling price your customers paid to their customary sources of supply. A report under this section may be filed on OPS Public Form 122, which may be obtained from the District Director of the Office of Price Stabilization who issued this regulation.

SEC. 6. *Sellers who cannot price under other sections of this regulation—*(a) *How you obtain your ceiling price.* If you cannot determine a ceiling price under section 4 or 5, you must apply to the District Director of the Office of Price Stabilization who issued this regulation for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Director will, as soon as possible after the receipt of the application or the receipt of such additional information as he may request, issue a letter order establishing a ceiling price for the sale by you of that product at the various levels of distribution, and specifying a producer price for milk from which parity adjustments will be computed. You may not sell the milk product until the Director has issued a letter order establishing your ceiling price for the sale of the product.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the product and the nature of your business such as indicated in section 5 (c) (1) or (2) of this regulation; a description of the product, its butterfat content, the type and size of container in which it will be sold and the class of purchaser to whom you intend to sell; your proposed ceiling price and the method used by you to determine it, including the producer price upon which it is based; and the reason you believe the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

SEC. 7. *Producer prices.* (a) The producer prices which each processor paid for milk or products processed therefrom, in the month of August 1952, are to be used as a basis of computing parity adjustments due to changes in the prices of such commodities or products.

(b) After the determination of your ceiling prices under this regulation you may increase, and you must decrease, the ceiling prices so established by parity adjustments in conformity with section 8 (a) of Supplementary Regulation 63. If your ceiling price was determined under section 5 of this regulation, you shall compute your parity adjustments from the highest price you paid or incurred for your customary purchase of milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary purchase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under section 6 of this regulation, you shall compute your parity adjustments from the producer price specified in the letter order

(c) Before putting into effect any increase and upon putting into effect any decrease in any price resulting from your computation of a parity adjustment under this regulation and section 8 of Supplementary Regulation 63 to GCPR, you shall report the amount of your parity increase or decrease to the District Director of Delaware, Office of Price Stabilization, 9 East Third Street, Wilmington, Delaware, in conformity with section 8 (b) (4) of SR 63 to GCPR.

SEC. 8. *Rounding of fractions.* Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption so sold during the preceding month or other billing period shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 9. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 10. After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product at a price in excess of the ceiling price established by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 11. *Violation—(a) Civil and criminal action.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director may issue an order fixing ceiling prices for the milk products such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

Effective date. This area milk price regulation is effective October 7, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

WILLARD D. BOYCE,
District Director, District of Delaware, Office of Price Stabilization.

OCTOBER 7, 1952.

[General Overriding Regulation 4, Amdt. 8 to Revision 1]

GOR 4—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER SOFT GOODS

SUSPENSION OF HOSIERY

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 4, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds hosiery to the commodities suspended from price control by section 3 of General Overriding Regulation 4, Revision 1. This action is taken in line with the policy of suspending or otherwise relaxing controls on commodities when their selling prices generally are materially below ceiling prices and are not expected to increase significantly in the foreseeable future.

All yarns commonly used in the production of hosiery were suspended from price control on May 20, 1952, after a study which showed that they were selling well below ceiling prices and that there was little prospect of an early rise to ceiling level. Although there has been some firming of yarn prices in recent weeks they are still materially below ceilings and there are no discernible upward pressures presaging an early return to ceiling levels.

Since hosiery is produced directly from the yarn, without going through any intermediate finishing stages as does other apparel, it is the item of apparel most immediately sensitive to changes in cost for the yarns. Hosiery has experienced a more drastic and consistent decline in price than any other major apparel group. According to the latest price data from the Bureau of Labor Statistics of the United States Department of Labor, August 1952 wholesale prices of hosiery were 10.7 percent below the peak wholesale level reached in January 1951. While it is unlikely that the decline will continue much longer since costs are not decreasing, there is no evidence to indicate any strong upward pressure on prices in this area. Many items in this group are currently selling at prices considerably below pre-Korea levels despite increases in certain elements of cost. Retail prices of hosiery have followed the same pattern as wholesale prices. Nylon hosiery prices in June 1952 were 11.5 percent below the June 1951 level and other hosiery for which consumer price data are available were slightly below the June 1951 level, which was at or near the retail peak.

The hosiery industry has long complained of its excess productive capacity, and the labor supply is so great that it has been possible, contrary to prevailing trends, to effect wage cuts in certain areas in the past year. In the absence of major military developments it seems highly unlikely that any shortage of materials will arise. The indications are, therefore, that production of all types of hosiery will be more than adequate to meet consumer demand and that prices will remain at about current price levels.

In view of these considerations, it is the judgment of the Director of Price Stabilization that price controls on sales of hosiery are not required at this time to carry out the purposes of the Defense Production Act of 1950, as amended.

The Director may at any time modify or terminate this suspension if he determines that such action is required in the interest of the stabilization program. In any event, this suspension will be terminated as to any segment of the hosiery industry when controls are reimposed on the principal yarns used by that segment in the manufacture of hosiery.

All records which were required to be prepared and preserved under the applicable ceiling price regulations in effect prior to this amendment must continue to be preserved.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 3 of General Overriding Regulation 4, Revision 1, is amended by adding the following paragraph:

(l) (1) Hosiery, including slipper socks, peds and sockettes, bed socks and foot warmers, but not including articles made for surgical or corrective use such as knitted elastic stockings or stump socks except sales made in the territories and possessions of the United States.

(2) Component parts, such as sock uppers for slipper socks, manufactured exclusively for further processing into or for use as a part of any article of hosiery included in subparagraph (1) of this paragraph, except sales made in the territories and possessions of the United States.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 7, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 7, 1952.

[F. R. Doc. 52-10970; Filed, Oct. 7, 1952; 10:56 a. m.]

[General Overriding Regulation 5, Revision 1, Interpretation 1]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

INT. 1—CATEGORIES IN CPR 7, RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS, AFFECTED BY RECENT EXEMPTIONS AND SUSPENSIONS FROM PRICE CONTROL (ARTICLE III)

Amendments 1 through 4 to GOR 5, Rev. 1, exempt or suspend from price control regulations certain listed commodities. A number of questions have arisen as to the extent to which certain categories of commodities listed in Appendix B of CPR 7 are covered by these exemptions or suspensions. This interpretation is issued to clarify the application of the exemptions or suspensions to those categories.

1. *Radios, television sets, television accessories, phonographs, recorders and related commodities.* Amendment 1 to GOR 5, Rev. 1, which adds sections 102, 103 and 104 to the regulation, suspends from ceiling price regulations certain listed commodities which fall within this general description. It suspends all articles covered by the following categories listed in Appendix B of CPR 7: Categories 871 through 878, 880 through 884, 890 through 893 and 895. It does not suspend Category 894 (phonograph records).

2. *Floor coverings.* Amendment 2 to GOR 5, Rev. 1, which adds section 105 to the regulation, suspends from ceiling price regulations the following floor coverings: "Soft surface floor coverings made entirely of wool or falling within the categories of chenille, wilton, velvet, axminster, and punched felt." This amendment suspends all articles made entirely of wool which are covered by Categories 801, 802, 803, 803 B and 803 C in Appendix B to CPR 7. It also suspends all articles covered by those categories, regardless of the materials of which they are made, (1) if the articles are woven on a carpet loom and are of the axminster, wilton, velvet, or chenille type of weave, or (2) if the articles are punched felt. Handwoven imported oriental rugs which are included in Category 803 D were previously exempted from price controls by Amendment 1 to GOR 5. This exemption is now found in section 5 of GOR 5, Rev. 1.

Inquiries have been received as to the meaning of the term "chenille." This term was used in this suspension action in the technical sense of "true" chenille, i. e., chenille woven on a carpet loom. It was not intended to include what is known in the rug and carpet manufacturing industry as "cotton chenille" such as is found in bath mats, throw rugs and even rugs of larger size which are not woven on a carpet loom. Consequently, none of the articles covered by Category 803 A have been suspended since the chenille rugs covered by that category are cotton chenille only.

3. *Upholstered dual purpose sleeping equipment, metal beds, bedding and bed pillows.* Amendment 3 to GOR 5, Revision 1, which adds sections 106, 107, 108 and 109 to the regulation, suspends from ceiling price regulations certain commodities which fall within this group. It suspends all articles covered by Category 712 (upholstered dual purpose sleeping equipment) except suites composed of such an article and one or more chairs. In Categories 701 and 703 it suspends only metal beds and bunk beds when sold separately. It suspends all articles covered by Category 751. All articles covered by Category 752 (wood and metal cots) and Category 502 G (bed pillows) are suspended. Bed pillows and mattresses covered by Category 306 (infants' bedding and related items) are likewise suspended. The suspension of "mattress pads" covers only those which are, in fact, bedding; the term does not include quilted or similar pads used as mattress protectors. Such pads are covered by Category 505 and are not suspended. Unfinished headboards and bunk beds covered by Category 719 are also suspended.

4. *Jewelry and precious stones.* Precious stones and precious jewelry were previously exempt from ceiling price regulations by section 13 of GOR 5. Amendment 4 to GOR 5, Rev. 1, which amends section 13 of the regulation, adds all other jewelry to the exemption. It exempts all articles covered by Categories 970 through 980, 982, and 983 in Appendix B to CPR 7. It does not exempt articles in Categories 981 (watches), 984 (electric clocks) or 985 (non-electric clocks).

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

TITLE 45—PUBLIC WELFARE

Chapter V—War Claims Commission

Subchapter B—Receipt, Adjudication and Payment of Claims

PART 505—FILING OF CLAIMS AND PROCEDURES THEREFOR

OFFICIAL FORMS

Section 505.3 is hereby amended to read as follows:

§ 505.3 *Official forms.* Official forms are provided for use in the preparation of claims for submission to the Commission for adjudication and such forms are available as prescribed in section 7 of the description of organization (14 F. R. 7819). An official form is provided for each type of claim that may be made under the provisions of sections 5 (a) through (e), 6 (a) through (c), 6 (d), as added by Public Law 303, 82d Congress, 7 (a), or 7 (b), or (c) of the act, as amended, and each such official form is accompanied by printed instructions which explain its proper use, preparation, and execution. The official forms provided for use with respect to each type of claim adjudicable under said sections 5(a) through (e), 6 (a) through (c), 6 (d) as added by Public Law 303, 82d Congress, 7 (a) or 7 (b) or (c) of the act, are designated and identified as follows:

(a) For compensation by living prisoners of war, WCC Form 601—Application for Living Ex-Prisoner of War Benefits.

(b) For compensation by living Philippine prisoners of war, or their survivors, WCC Form 602—Application for Ex-Prisoner of War Allowance.

(c) For compensation by living prisoners of war, arising out of inhumane treatment or forced labor, WCC Form 611—Application for Living Ex-Prisoner of War Compensation for Compulsory Labor and/or Inhumane Treatment.

(d) For compensation by living Philippine prisoners of war, arising out of inhumane treatment or forced labor, WCC Form 612—Application for Living Ex-Prisoner of War Compensation for Compulsory Labor and/or Inhumane Treatment.

(e) For compensation by survivors of deceased prisoners of war, WCC Form 650—Application for Prisoner of War Benefits by Survivors of Deceased Prisoners of War.

(f) For compensation by survivors of deceased prisoners of war, for inhumane treatment and forced labor, WCC Form 660—Application for Survivors of Deceased Ex-Prisoners of War for Compensation for Compulsory Labor and/or Inhumane Treatment.

(g) For detention benefits by living civilian American citizens, WCC Form 501—Application for Living Civilian Detention Benefits.

(h) For detention benefits by survivors of deceased civilian American citizens, WCC Form 550—Application for Detention Benefits by Survivors of Deceased Civilian Prisoners, Internees, Etc.

(i) For reimbursement by a religious organization or the personnel of a religious organization, WCC Form 701—Application for Reimbursement by Religious Organizations or Religious Personnel.

(j) For compensation to any religious organizations or personnel of a religious organization for loss or damage sustained to facilities as a consequence of the war, WCC Form 711—Application by Religious Organization for Compensation for Loss and Damage to Property as a Consequence of World War II.

(Sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. Sup. 2001)

GEORGIA L. LUSK,
Vice Chairman,
War Claims Commission.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

AUTHORIZATION FOR USE OF FREQUENCIES BELOW 25 MC TO NON-GOVERNMENT RADIO STATIONS

In the matter of amendment of § 2.103 (c) of the Commission's rules and regulations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration the matter of amending § 2.103 (c) of the Commission's rules and regulations so as to permit non-Government radio stations to use frequencies below 25 Mc which are not in accordance with the Commission's Table of Frequency Allocations where such use is necessary for coordination with Government stations;

It appearing, that the public interest would be served by permitting non-Government stations to operate on frequencies which are not in accordance with the Commission's Table of Frequency Allocations where such operation is necessary to permit non-Government stations to communicate with or coordinate their operations with Government stations and where the Government agencies involved have indicated their concurrence in such operations; and

It further appearing, that § 2.103 (c) of the Commission's rules now provides that non-Government stations may be assigned to frequencies above 25 Mc exclusively assigned for use by Government stations where such use is necessary for intercommunication with Government stations or where such use by non-Gov-

ernment stations is required for coordination with Government activities; and

It further appearing, that this amendment is issued pursuant to the authority of sections 4 (i), 303 (c), (f) and (r) of the Communications Act of 1934, as amended; and

It further appearing, that the effect of this amendment is minor in nature and therefore compliance with the public rule making proceedings of section 4 (a) of the Administrative Procedure Act is unnecessary; and

It further appearing, that there are applications pending before the Commission which it would be in the public interest to grant at the earliest possible date in order to provide for effective cooperation between Government and non-Government stations and therefore this amendment should be made effective immediately.

It is ordered, That effective immediately, § 2.103 (c) of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Section 2.103 (c) is amended to read as follows:

§ 2.103 *Assignment of frequencies.*

* * *

(c). The use of frequencies in the bands above 25 Mc allocated exclusively to Government stations and the use of frequencies below 25 Mc which may not be in accordance with § 2.104 (a) may be authorized to non-Government stations in those instances where the Commission finds, after consultations with the appropriate Government agency or agencies, that such assignment is necessary for intercommunication with Government stations or where such use by non-Government stations is required for coordination with Government activities.

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards Concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the band 470 to 890 Mcs. for television broadcasting, Docket 8976.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of September, 1952;

The Commission having under consideration its Memorandum Opinion and Notice of Further Rule Making (FCC 52-816) issued August 4, 1952 and published in the FEDERAL REGISTER on August 12, 1952 (17 F. R. 7350), proposing to make the following changes in channel assignments in § 3.606 of the Commission's rules and regulations:

City	Add Channel No.	Delete Channel No.
San Angelo, Tex.	3	6
Temple, Tex.	6	

To accomplish these changes it was proposed to amend the Table of Assignments contained in § 3.606 of the Commission's rules and regulations to read as follows:

Texas:	*Channel No.*
Beaumont-Port Arthur	4—, 6—, 31+, *37.
Corpus Christi	6+, 10—, *16+, 22.
San Angelo	3—, 8+, 17+, *23—.
Temple	6, 16, 22+.

It appearing, that in accordance with the provisions of paragraph 10 of the aforesaid Memorandum Opinion and Notice of Further Rule Making, the time for filing comments therein expired September 3, 1952; and

It further appearing, that a comment supporting the proposed amendment was filed by Bell Broadcasting Company, Temple, Texas, and that no comments opposing the proposed amendment were filed;

It is ordered, that, effective 30 days from the date of publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended to read as follows:

Texas:	*Channel No.*
Beaumont-Port Arthur	4—, 6+, 31+, *37.
Corpus Christi	6+, 10—, *16+, 22.
San Angelo	3—, 8+, 17+, *23—.
Temple	6, 16, 22+.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 10309]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments*, Rules Governing Television Broadcast Stations; Docket No. 10309.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of September 1952;

The Commission having under consideration its Notice of Proposed Rule Making issued August 7, 1952 (FCC 52-851) and published in the FEDERAL REGISTER on August 16, 1952 (17 F. R. 7511), proposing to assign UHF Channel 59 to Fremont, Ohio, a community which is not listed in the Table of Assignments and is not within 15 miles of a community so listed;

It appearing, that in accordance with the provisions of paragraph 5 of the aforesaid Notice of Proposed Rule Making, the time for filing comments therein expired September 15, 1952; and

It further appearing, that no comments opposing the proposed amendment were filed;

It is ordered, That effective 30 days from the publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended as follows:

Add to Table of Assignments under the State of Ohio:

	Channel No.
Fremont	59+

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies Sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary

[F. R. Doc. 52-10876; Filed, Oct. 7, 1952; 8:48 a. m.]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

AVAILABILITY FOR ASSIGNMENT TO NON-GOVERNMENT STATIONS OF FREQUENCIES ASSIGNED TO GOVERNMENT STATIONS

In the matter of amendment of Parts 7 and 8 of the Commission's rules to permit non-Government stations to use frequencies.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration the matter of making available for assignment to non-Government coast and ship stations frequencies assigned to Government radio stations;

It appearing, that the Commission has received applications requesting assignment of such frequencies to non-Government ship radio stations; and

It further appearing, that the non-Government ship radio stations involved perform activities in behalf of the Federal Government and that the frequency usage requested is necessary in connection with the performance of such activities; and

It further appearing, that it would be in the public interest to amend the Commission's rules to permit assignment of Government frequencies to non-Government ship and coast stations under such circumstances and where governmental agencies involved have indicated concurrence in such frequency usage; and

It further appearing, that the effect of these amendments is minor in nature and, therefore, compliance with the public rule making procedures prescribed by section 4 (a) of the Administrative Procedure Act is unnecessary; and

It further appearing, that there are applications now pending before the Commission which it would be in the public interest to grant at the earliest possible date in order to provide for effective cooperation between Government and non-Government stations and therefore these amendments should be made effective immediately;

It is ordered, Under the authority contained in section 4 (i) and sections 303 (c), (f), and (r) of the Communications Act of 1934, as amended, that Parts 7 and 8 of the Commission's rules are amended, effective immediately, as set forth below.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 8.324 (g) is amended by designating the existing text as subparagraph (1) and by adding a new subparagraph (2) to read as follows:

(2) Frequencies assigned to government radio stations are assignable to non-Government ship radio stations for communication with other non-Government stations by telegraphy when such communication is necessary in connection with activities performed in coordination with or in behalf of the Federal Government and where the Commission determines, after consultation with the appropriate government agency or agencies, that such assignment is necessary.

2. Section 8.363 is amended by designating the existing text as paragraph (a) and adding a new paragraph (b) to read as follows:

(b) Frequencies assigned to government radio stations are assignable to non-Government ship radio stations for communication with other non-Government stations by telephony when such communication is necessary in connection with activities performed in coordination with or in behalf of the Federal Government and where the Commission determines, after consultation with the appropriate government agency or agencies, that such assignment is necessary.

3. Section 7.206 (b) (8) is amended by adding a new subdivision (i) to subparagraph (8) to read as follows:

(i) Frequencies assigned to government radio stations are assignable to non-Government coast stations (public or limited) for communication with other non-Government stations by telegraphy when such communication is necessary in connection with activities performed in coordination with or in behalf of the Federal Government and where the Commission determines, after consultation with the appropriate government agency or agencies, that such assignment is necessary.

4. Section 7.304 (f) is amended by designating the existing text as subparagraph (1) and by adding a new subparagraph (2) to read as follows:

(2) Frequencies assigned to government radio stations are assignable to non-Government public coast stations for communication with other non-Government stations by telephony when such communication is necessary in connection with or in behalf of the Federal Government and where the Commission determines, after consultation with the appropriate government agency or agencies, that such assignment is necessary.

5. A new § 7.371 is added to read as follows:

§ 7.371 *Use of United States Government frequencies for telephony.* Frequencies assignable to government radio stations are assignable to non-Government limited coast stations for communication with other non-Government stations by telephony when such communication is necessary in connection with activities performed in coordination with or in behalf of the Federal Government and where the Commission determines, after consultation with the appropriate government agency or agencies, that such assignment is necessary.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY: ROUTES

DEVIATION FROM AUTHORIZED REGULAR ROUTES IN TRANSPORTATION OF UNITED STATES MAIL BY COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 26th day of September A. D. 1952.

The above-entitled matter being under consideration:

It appearing, that the Commission has received inquiries regarding deviation from authorized regular routes in the transportation of the United States mail, under contracts with the Post Office Department, by common and contract motor carriers of property subject to the Interstate Commerce Act;

It further appearing, that in numerous instances motor carriers of property holding authority to operate over regular routes have entered into contracts with the Post Office Department for the transportation of United States mail, and that in carrying out the terms of such contracts the mail is often transported in the same vehicle and at the same time that the carriers' authorized commodities are transported; that picking up or delivering mail at some points, during which authorized commodities (other than mail) are carried in the same vehicle, necessitates deviation for short distances from authorized highways; that such deviation would promote economical operation and improve the service rendered to the Post Office Department and, incidentally, to the public; and that only in special and unusual instances will there exist reasons for denying to any motor carrier of property operating over a regular route which also is transporting United States mail in the same vehicle with authorized commodities, permission to deviate from an authorized highway in the performance of such service, when required;

And it further appearing, that deviation from their authorized regular routes, under the conditions described herein below, by motor carriers of property holding authority from this Commission, is or will be required by public convenience and necessity in the case of common carriers, and consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act in the case of contract carriers, and the Commission so finding; therefore,

It is ordered, that:

§ 211.6 *Deviation from regular routes in the transportation of United States mail by motor carriers of property*—(a) *Conditions.* Common and contract motor carriers of property holding authority to operate over regular routes may deviate from their authorized routes, without obtaining prior authority therefor, in delivering or picking up the United States mail at points within 10 air-line miles of the authorized routes, under contract with the Post Office Department, transporting authorized commodities in the same vehicle with the mail, subject in all instances to the following conditions:

(1) In such case the carrier shall use such other highways as may be required in traveling by the shortest practicable route between the point to be served and the authorized highway to which that point is appurtenant.

(2) The carrier shall give notice to the Commission, by letter setting forth (i) a complete description by highway numbers of the carrier's authorized route between the point where it proposes to leave the authorized highway and point where it proposes to return to such highway, and (ii) a complete description by highway numbers of the proposed deviation route between the point where it proposes to leave its authorized highway and the point where it will return to such highway.

(3) The letter shall state that the carrier filing the notice will continue to furnish reasonable and adequate service at all points it is now authorized to serve, that it will not serve new points or points it is not now authorized to serve except in the transportation of the United States mail, and that such deviation from its authorized route will not enable the carrier to engage in transportation between any points where because of the circuity of its present route, or otherwise such operation is not now practicable.

(4) The right to operate in the manner indicated in this paragraph shall continue only so long as the carrier is performing service authorized under the Interstate Commerce Act and at the same time is transporting United States

mail under contract with the Post Office Department, and only so long as the conditions set forth in this paragraph are observed.

(5) Such further terms, conditions, and limitations as the Commission, in the future, may find it necessary to impose or attach to the exercise of the privileges authorized in this paragraph.

(b) *Irregular-route operations.* If a motor carrier is authorized to operate within a specified area, over irregular routes, in which are located the points to be served in the transportation of United States mail under contract with the Post Office Department, no specific authority is required from this Commission to transport mail and the carrier's authorized commodities in the same vehicle at the same time in such territory.

It is further ordered, that this order shall become effective November 3, 1952, unless prior thereto it is otherwise ordered by this Commission.

Notice of this order shall be given to motor carriers and general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-10885; Filed, Oct. 7, 1952; 8:51 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 921]

HANDLING OF MILK IN SPRINGFIELD, MO., MARKETING AREA

EXTENSION OF TIME FOR FILING BRIEFS

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900) notice is hereby given that the time for filing briefs on the record of the public hearing held at Springfield, Missouri, August 7-8, 1952, with respect to those proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Springfield, Missouri, marketing area which were not disposed of by the decision of the Secretary of Agriculture issued August 20, 1952 (17 F. R. 7743) is hereby extended until October 10, 1952.

Dated: October 2, 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator.

[F. R. Doc. 52-10882; Filed, Oct. 7, 1952; 8:50 a. m.]

[7 CFR Part 924]

[Docket No. AO-225-A2]

HANDLING OF MILK IN DETROIT, MICHIGAN, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Detroit, Michigan, on May 12-16, inclusive, 1952, pursuant to notice thereof which was issued on April 17, 1952 (17 F. R. 3415).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on August 12, 1952, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 16, 1952 (17 F. R. 7500).

The material issues and the findings and conclusions of the recommended decision (17 F. R. 7500; F. R. Doc. 52-9082) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein subject to the following revisions:

1. In the last paragraph of column 1, page 7501 after the phrase "600 pounds of Class I milk per day" delete the word "in" and substitute therefor the phrase "on routes operating wholly or partly within".

2. Delete the last paragraph beginning in column 2, page 7501 and the first paragraph beginning in column 3, page 7501, and substitute therefor the following:

(4) *Class prices.* The order should be amended to provide for the elimination of the butter-cheese formula, an increase of the number of local plants to 9, revision of the supply-demand formula, a Class II price equal to the local plant prices, the same butterfat differentials to handlers on Class I and Class II sales as that now applicable to producers, and an extension of the location adjustment rate schedule applicable to Class I and producer prices.

(a) *Basic formula prices.* The Class I price should be based on a formula representing the highest value for milk for manufacturing as determined by three alternative basic formulas: prices paid dairy farmers at 18 Midwest dairy manufacturing plants, prices paid dairy farmers at 9 Michigan dairy manufacturing plants, and a butter-powder formula price.

3. Delete the third paragraph in column 3, page 7501 and substitute therefor the following:

The butter-cheese formula is obsolete, primarily as a result of changes in the proportionate marketings of butter and cheese and should be deleted from the order. A revised formula designed to measure the value of milk for cheese-making, was introduced at the hearing. Handlers contend that there has not been opportunity for as full a consideration of the formula as the problem warrants. In the circumstances the formula should not be adopted at this time.

4. In column 1, page 7502, insert after the list of plants and locations, the following:

In the event any of the 9 listed plants becomes qualified as a handler plant under the order prices paid for milk delivered to such plant should cease to be included in the average.

5. In column 1, page 7502, delete the paragraph headed "(b) *Class I price*", and substitute therefor the following:

(b) *Class I price.* The Class I price should continue to be determined by adding the Class I differential to the basic formula price of the current month. Two of the handlers proposed the use of the previous month in order that the Class I price might be definitely known early in the month to which it applies. However, other handlers preferred remaining on the present basis in order to keep prices more nearly in line with those in competitive markets.

6. Delete the first 4 sentences of the first paragraph starting in column 2, page 7502, and substitute therefor the following:

The base schedule of the supply-demand adjustment should be revised to reflect the seasonal variation of both production and sales. To measure the normal seasonality the data on Class I sales and on producer receipts for the 3-year period 1948-50 were corrected for trend by 12-month moving averages. (The moving average, of course, involved data during a 6-month period preceding January, 1948 and following December, 1950.) This is the most recent period for which consistent data covering a large proportion of receipts and sales in the market are available. After correction for trend, the data reveal the normal seasonality of receipts and of Class I sales. Dividing the receipts by the sales gives the normal seasonal variation in utilization percentages.

7. In the second paragraph beginning in column 2, page 7502, delete the last sentence and substitute therefor the following: "Experience indicates that there is little likelihood of utilization remaining so close to a change point as to require continuation of the provision for an extra ½ percent change in utilization before a succeeding price change in an opposite direction can become effective".

8. Immediately preceding the section headed "(c) *Class II prices*" near the top of column 3, page 7502, insert the following:

The Class I price differential should be increased by 8 cents per hundredweight to a total of $1.43 in order to preserve the same general level of differentials as has prevailed since the inception of the order.

Producers testified that the Class I and blend prices which had prevailed under the order, inclusive of the supply-demand adjustment, had been no more than sufficient to maintain an adequate supply of milk for the market. In view of this circumstance they asked that any revision of the basic formula prices, the supply-demand adjustment, or other provisions of the order which would tend to lower returns to producers of fluid milk as compared with producers of manufacturing milk should be offset by corresponding increases in the Class I price differential.

The modified schedule of standard utilization percentages described above represents an attempt to develop as accurate a measurement of normal supply-demand relationships in the market as was possible. During the 12-month period August 1951 through July 1952 the average actual relationship of receipts from producers and total Class I sales averaged 2.7 percentage points below the normal percentages. The period during which the order has been in operation is too short to afford conclusive proof of the adequacy of the Class I prices which have prevailed. Clearly, however, this measure which is available tends to support the position that the Class I differential should not be reduced if adequate supplies are to be maintained.

The supply-demand adjustment now included in the order resulted in price increases of 30 cents in November and December, 1951, and in January 1952 and in 15-cent increases during February, August, and September, 1952. The modified supply-demand adjustment would have resulted in 15-cent increases during October, November and December, 1951, and in no further adjustment through August, 1952. The average adjustment during the 11-month period would have been 8 cents lower than those which actually occurred.

The only other significant change affecting returns to producers is that the schedule of location adjustments has been extended from the maximum of 21 cents at 97 miles to a maximum of 26 cents at 137 miles. This change, however, affects only a comparatively small portion of the present shippers and places prospective new shippers in the proper position of receiving the f. o. b. price less the cost of transporting milk from a distant country plant to the marketing area. This change in location adjustments is not, therefore, a significant factor affecting the general level of the Class I price differential.

9. In the second paragraph beginning in column 1, page 7503 delete the phrase "any of the months of August through December (the base-forming period) that the supply-demand adjustment operates to increase the Class I price," and substitute therefor the phrase "any month that total receipts of producer milk are less than 112.5 percent of total Class I utilization."

10. Delete the last two sentences of the third paragraph beginning in column 2, page 7503 and substitute therefor the following: "This proposal was supported on the basis that during any period of actual shortage of producer milk, all producers should be encouraged to maximize production, regardless of previously established bases. They should be paid at the uniform price rather than continuing to be paid at base and excess prices. This objective has considerable merit but an actual shortage of milk in the market would be more specifically indicated whenever producer receipts were less than 112.5 percent of Class I sales than by operation of the supply-demand adjustment. The latter indicates only relative shortages each month as compared with a normal supply, and a specific percentage is a preferable guide to actual shortage."

11. In the fourth line of column 3, page 7503 delete "October" and substitute therefor "November".

12. In column 3, page 7503, delete the paragraph headed "(6) *Administrative provisions*", and substitute therefor the following:

(6) *Administrative provisions.* Additional time should be allowed the handlers and the market administrator for the submission of reports, computation of marketwide prices, and preparation of producer payrolls whenever holidays occur during the first 15 days of the month. In practice, the reporting schedule now contained in the order requires that Saturday be utilized as a working day for the transmission of reports by handlers for the computation of the uniform price by the market administrator's staff and in the preparation of producer payrolls by handlers. Whenever such a working day is lost as a result of holiday, the problem of meeting the dates specified in the order imposes undue hardship on all parties. In such circumstances the order should be amended to provide for postponement of those functions required to be performed after the interruption caused by the holiday.

Section 924.65 of the order requires that handlers be notified on the 11th of the amounts due the producer-equalization fund, the base of any new producer, and similar items of information. This notification involves considerable additional work by the market administrator following computation of the uniform price. The uniform price is also announced on the 11th (unless holidays intervene as explained above) for this is the essential information required by handlers so that they may commence the preparation of their producer payroll. The information specified in § 924.65 can be delayed until the 12th without inconvenience to handlers or producers.

Rulings. Within the period reserved for filing exceptions to the recommended decisions, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of August, 1952 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Detroit, Michigan, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 2d day of October 1952.

C. J. MCCORMICK,
Acting Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Detroit, Michigan, on May 12–16 inclusive, 1952, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 924.6 (b) insert "or of Wayne County" following "Port Huron".

2. In § 924.50 delete the phrase "paragraphs (a), (b), (c) and (d)" and substitute therefore the phrase "paragraphs (a), (b) and (c)".

3. Delete § 924.50 (c).

4. Delete § 924.50 (d) and substitute the following:

(c) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants, except any which meet the qualifications of § 924.6, for which prices have been reported to the market administrator:

Present Operator and Location

Borden Co., Perrinton, Mich.
Carnation Co., Sheridan, Mich.
Carnation Co., Sparta, Mich.
Fairmont Foods Co., Bad Axe, Mich.
Grand Ledge Milk Co., Grand Ledge, Mich.
Kraft Cheese Co., Clare, Mich.
Kraft Cheese Co., Pinconning, Mich.
Nestle Co., Ubly, Mich.
Pet Milk Co., Hudson, Mich.

5. In § 924.51 (a) delete the phrase "plus $1.35" and substitute therefor the phrase "plus $1.43".

6. Delete § 924.51 (b) and substitute therefor the following:

(b) The percentage which total receipts of producer milk by all handlers during the next two preceding months is of total Class I utilization of all handlers during such period shall be computed each month by the market administrator and for the month in which the computation is made the Class I price shall be decreased 15 cents if such percentage is 5.0 percentage points or more above the average of the percentages for the corresponding months in the following schedule and increased 15 cents if such percentage is 5.0 percentage points or more below the average of the percentages for the corresponding months in such schedule and the Class I price shall be decreased or increased an additional 15 cents for each additional full 5 percentage points which such ratio of producer milk receipts to Class I utilization is above or below such average percentage:

Month:	*Percentages*
January	121.3
February	123.1
March	129.6
April	138.1
May	152.6
June	156.3
July	142.9
August	140.1
September	129.6
October	121.7
November	117.5
December	122.3

7. Delete § 924.52 and substitute therefor the following:

§ 924.52 *Class II milk price.* (a) The minimum price per hundredweight to be paid by each handler f. o. b. his plant as described in § 924.6 for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month, which is classified as Class II utilization, shall be the price per hundredweight as described in § 924.50 (c): *Provided*, That for the months of May, June and July, there shall be credited to each handler with respect to butterfat used in the manufacture of butter and skim milk used in the manufacture of non-fat dry milk solids in the handler's plant, or transferred to and so used in a plant not operated by a handler after first allocating such butterfat and skim milk to any uses in such plant other than for the manufacture of butter and non-fat dry milk solids, (1) an amount per pound of butterfat equal to the excess of the Class II price determined under this paragraph over the price determined pursuant to § 924.50 (b) less 9.3 cents, such excess to be multiplied by 0.18, and, (2) an amount per hundredweight of skim milk equal to such excess multiplied by 0.36.

8. Delete § 924.53 and substitute therefor the following:

§ 924.53 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to §§ 924.51 and 924.52, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the producer butterfat differential applicable to milk delivered in the current month.

9. In § 924.60 (c) delete from the tabulation appearing at the end of the section the reference to zone 8 and add the following:

Zone No.	Shortest road distance from Detroit City Hall	Rate per hundredweight
8	More than 97 miles but not more than 105 miles	$0.21
9	More than 105 miles but not more than 113 miles	.22
10	More than 113 miles but not more than 121 miles	.23
11	More than 121 miles but not more than 129 miles	.24
12	More than 129 miles but not more than 137 miles	.25
13	More than 137 miles	.26

10. In § 924.64 (b) delete "§ 924.70 (b)" and in § 924.80 delete "§ 924.70 (b) and (c)" and insert "§ 924.70 (b), (c), and (d)".

11. In § 924.65 delete "11th day" and substitute therefor "12th day".

12. In § 924.70 substitute "on December 1" for previous to "August 1".

13. In the next to the last sentence of § 924.70 (b) delete the phrase "August through December by .8" and substitute therefor the phrase "August and September by .8 and October, November and December by .9".

14. Delete § 924.70 (c) and substitute therefor § 924.70 (c) and § 924.70 (d) as follows:

(c) From the effective date of this part, as amended, amendment through December 1952, each producer shall have the option, upon request to the market administrator, of being paid at the uniform price for all milk delivered.

(d) Whenever total receipts of producer milk by all handlers during the month are less than 112.5 percent of the total Class I utilization of all milk by handlers during such month, all producers and cooperative associations shall be paid the uniform price for all milk delivered.

15. Add a § 924.132, as follows:

§ 924.132 *Special reporting dates.* When a holiday prevents normal business activities on any day except Sunday during the first 15 days of the month, those of the dates specified in §§ 924.22 (j) (2), 924.31 (b), 924.65, 924.80, 924.84, 924.85, 924.86, and 924.87 which follow such holiday shall be postponed by the number of days lost as a result of such holiday.

Order of the Secretary Directing That a Referendum Be Conducted Among the Producers Supplying Milk to the Detroit, Michigan, Marketing Area, and Designation of an Agent To Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Detroit, Michigan, marketing area) who, during the month of August 1952 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of August 1952 is hereby determined to be the representative period for the conduct of such referendum.

George Irvine is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 25th day from the date this referendum order is issued.

[F. R. Doc. 52–10883; Filed, Oct. 7, 1952; 8:50 a. m.]

[7 CFR Part 976]

[Docket No. AO 237–A1]

HANDLING OF MILK IN THE FORT SMITH, ARKANSAS, MARKETING AREA

NOTICE OF HEARING OF PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Correction

In F. R. Doc. 52–10827, appearing on page 8923 of the issue for Saturday, October 4, 1952, the date "October 8, 1952" in the date line should read "October 2, 1952".

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 8]

LIFEBOAT RADIO EQUIPMENT

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 8 of the Commission's rules regarding technical requirements and related provisions for compulsorily provided lifeboat radio equipment; Docket No. 10325.

1. Notice is hereby given of proposed rule making in the above-entitled matter. Proposed amendments to Part 8 of the Commission's rules are set forth in the Appendix below.

2. The proposed amendments would establish detailed technical requirements for compulsorily provided lifeboat radio equipment, both portable and non-portable, and make provision for related matters such as inspection and testing of the equipment. The requirement to provide such equipment stems from the terms of the International Convention for the Safety of Life at Sea, London, 1948 which comes into force November 19, 1952, and regulations of the United States Coast Guard.

3. In general the proposed rules covering lifeboat radio equipment would call for a radiotelegraph transmitter operative alternately on the frequency 500 kc or 8364 kc, with manual and automatic keying; a radiotelegraph receiver for reception on 500 kc and on frequencies between 8266 kc and 8745 kc; a power supply consisting of storage batteries for non-portable equipment and a hand-cranked electric generator for portable equipment; antenna systems; artificial antennas for testing purposes, and grounding conductors.

4. The antenna systems which would be required for the portable equipment consist of a single wire antenna and either a collapsible rod antenna or a collapsible mast. It appears that there must be a compromise of undetermined extent between the necessity for a rather extensive antenna system for effective operation on 500 kc and the practical limitations inherent in portable equipment. Until further information and experience is gained, it is proposed to require that the rod antenna and the mast be of a "maximum practicable height" rather than specifying a required minimum height.

5. Insofar as possible within the terms of the new Safety Convention, provision is proposed to be made for the continued use of non-portable lifeboat radio equipment which heretofore has been installed as compulsory equipment and which may be installed before equipment meeting these proposed new requirements could reasonably be expected to be available.

6. These proposals are issued under authority of sections 303 (c), (e), (f), (g), (r), and 355, 356 and 359 of the Communications Act of 1934, as amended.

7. Any interested person may file with the Commission, on or before October 17, 1952, a written statement or brief in support of, or in opposition to, the proposed amendment. Comments or briefs in reply to the original comments or briefs may be filed within five days from the last day for filing the original comments or briefs. The Commission will consider all comments, briefs, and statements before taking final action.

8. In accordance with § 1.784 of the Commission's rules relating to practice and procedure, an original and 14 copies of all statements, briefs, or comments should be furnished to the Commission.

Adopted: October 1, 1952.

Released: October 2, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 8.519 is deleted.

2. Section 8.520 is amended to read as follows:

§ 8.520 *Lifeboat radio equipment.* (a) Lifeboat radio equipment, portable or non-portable, required by law to be provided, shall comply with applicable requirements of paragraph (b) through (g) of this section.

(b) All lifeboat radio equipment shall include the following components as a minimum:

(1) Antenna(s) for transmitting and receiving, either fixed in usable position in the lifeboat or capable of being quickly placed in usable position by a person in the lifeboat while afloat together with such antenna accessories as are necessary;

(2) An artificial antenna for test purposes;

(3) A transmitter with keying arrangement(s) for the use of radiotelegraphy;

(4) A radio receiver with head receiver;

(5) A power supply of required capacity;

(6) The necessary material or device for a ground connection to the water when the lifeboat is afloat.

(c) Each of the components specified in paragraph (b) of this section shall be of a type of apparatus or shall comprise such items as are approved by the Commission as capable of meeting the provisions of §§ 8.556, 8.557, 8.558 or 8.559, as may be applicable.

(d) Provisions relative to capacity, use and maintenance of storage batteries used as the power supply for lifeboat non-portable radio equipment:

(1) A storage battery power supply of lifeboat radio equipment shall be capable at all times of operating the entire lifeboat radio installation for a period of at least six continuous hours as is stipulated for an emergency power supply in § 8.504 (b).

(2) Storage batteries may be used to operate equipment other than radio except the electric starter and ignition system of a lifeboat motor, provided such additional use will not adversely affect the required capabilities of the battery. All individual circuits connected to the battery shall be independently and properly fused.

(3) Storage batteries shall be kept adequately charged at all times while at sea. The charging of such batteries shall not require their removal from the lifeboats in which they are installed. The necessary charging equipment shall be arranged so as not to interfere with the launching of the lifeboats, and for this purpose shall be easily and quickly removable. The charging circuit for the lifeboat radio storage battery or batteries shall be routed through the main radiotelegraph operating room of the vessel. A device which, during charge of the lifeboat radio battery or batteries, will give a continuous indication of the polarity and the rate of charge, shall be connected in this charging circuit and shall be located in the main radiotelegraph operating room for purposes of frequent observation.

(4) In any installation made on or after November 19, 1952, provisions shall be made to enable charging of the storage battery by means of a generator on the motor lifeboat engine.

(5) Subject to approval of the United States Coast Guard storage batteries

shall be mounted in suitable containers that will provide protection from salt water spray and also allow proper ventilation.

(e) Lifeboat non-portable radio equipment shall be capable of developing by day, over the sea and under normal conditions and circumstances, a r. m. s. radio field intensity of 50 microvolts per meter on the frequency 500 kilocycles at a distance of 25 nautical miles. Ability to meet this requirement may be evidenced in the absence of such other means as will provide a reliable indication that this requirement is met, by a product of the maximum height of antenna above the mean surface of the water expressed in meters and a r. m. s. antenna current on the frequency 500 kilocycles expressed in amperes of not less than 10.

(f) Conditions of fitting of lifeboat radio equipment: (1) Non-portable radio equipment shall be installed in a cabin large enough to accommodate both the equipment and the person using it and arrangements shall be such that the efficient operation of the lifeboat radio installation shall not be interfered with by the motor boat engine while it is running, whether or not a battery is on charge.

(2) The use of metal masts and stays, unless broken by insulators, or of any structure at electrical ground potential at the masthead(s) is not permitted in lifeboat portable or non-portable radio equipment: *Provided, however,* That this limitation shall not prohibit the use of a metal mast or masts used as the antenna.

(g) Inspections and tests of lifeboat radio equipment: (1) Inspections and tests [19] of lifeboat radio equipment shall be conducted by a qualified representative of the licensee at weekly intervals while the ship is at sea and within 24 hours prior to the ship's departure from each port but not necessarily more than once each week. Such tests and inspections may be made with the lifeboat either afloat or not afloat; provided that when the vessel is in a harbor or port of the United States, an authorized representative of the Commission may require the lifeboat to be afloat.

(i) When the lifeboat is afloat there shall be an actual test of the transmitter and receiver to determine that each is in effective operating condition when connected to the antenna system(s).

(ii) When the lifeboat is not afloat, testing may be conducted with the transmitter connected to an artificial antenna.

(iii) Inspections and tests shall include batteries, which are provided as part of the lifeboat radio equipment, to determine their condition, and specific gravity in the case of a lead-acid battery, or voltage under normal load in the case of other type batteries. If required by an authorized representative of the Commission, proof of the batteries' capability shall be made as prescribed in the applicable provisions of § 8.504 (b).

(2) The results of inspections and tests shall be made known to the master of the vessel and shall be entered in the ship's radio station log or in the ship's log if the ship is not provided with a radio station. These entries shall be made available to duly authorized representatives of the Commission upon request.

3. Section 8.524 (a) (4) is amended to read as follows:

(4) *Lifeboat radio equipment.* One electron tube of each type used for normal operation of the radio installation, including neon or any other type of tube or lamp employed as resonance indicator(s): Renewable fuse-cartridges of each type used in connection with the units of the lifeboat radio installation or which are used in circuits connected to the lifeboat radio installation power supply in the amount of at least one-half the number of each size and type in actual use. For each renewable fuse-cartridge in use, there shall be available six spare fuse links of appropriate capacity. For each non-renewable fuse in use, there shall be available six spare fuses of the same type and appropriate capacity. If wire is used, sufficient wire shall be provided to permit six complete fuse replacements. Additionally, non-portable lifeboat radio equipment shall be provided with at least 35 feet of insulated wire suitable for use as antenna wire; 2 antenna insulators; one panel electric light bulb, if used, one screwdriver and one pair of sidecutting pliers.

4. Section 8.525 (b) is amended to read as follows:

(b) Spare parts and auxiliary equipment for the non-portable radio equipment shall be kept in the lifeboat cabin housing the radio equipment. Spare parts and auxiliary equipment for the lifeboat portable radio apparatus shall be so kept as to be convenient for the routine maintenance of the equipment.

5. Section 8.556 is amended to read as follows:

§ 8.556 *General requirements for lifeboat radio equipment.* (a) To be approved by the Commission pursuant to § 8.520, lifeboat radio equipment shall comply with the following general requirements in addition to the applicable specific requirements set forth in §§ 8.557, 8.558 and 8.559, except that equipment to which the provisions of § 8.559 are applicable need not meet the requirements of subparagraphs (1) and (5) of this paragraph.

(1) The design and construction of the radio equipment shall be such that no tools are required to place it in operation for routine tests or for emergency communication.

(2) All component parts used in this installation shall be of acceptable quality for marine service.

(3) A durable nameplate shall be mounted on the equipment or made an integral part thereof showing at least the following:

(i) The type or model number;

(ii) The name of the manufacturer;

(iii) The month and year of manufacture.

(4) Each lifeboat equipment shall be provided with a copy of an instruction manual covering the design, installation, operation and maintenance of the equipment.

(5) Simple instructions which are durable and waterproof and suitable for the use of an unskilled person shall be permanently and conspicuously attached to the control panel or surface of the transmitter, receiver or power supply. These instructions shall contain information together with sketches covering the erection of the antenna(s) and the operation of the equipment for automatic transmission; also information as to manual transmission of the radiotelegraph distress signal "S O S" and the international auto-alarm signal, and a statement that the latter signal is effective only if transmitted on the frequency 500 kc.

6. Section 8.557 is amended to read as follows:

§ 8.557 *Requirements for lifeboat portable radio equipment.* (a) There shall be provided as a single unit a portable buoyant apparatus consisting of a transmitter, receiver, power supply, grounding conductor, a collapsible rod antenna or in lieu thereof a collapsible mast, a single wire antenna, and a line for lowering the apparatus.

(1) The apparatus, as a single unit, shall be of sufficient buoyancy to float in sea water and shall be sufficiently rugged in construction to withstand physical shocks and rough handling. The apparatus shall be deemed to comply with this requirement if, after being dropped into sea water in various positions from a height of at least 20 feet, it can be operated immediately without any repair or adjustment (other than normal antenna circuit tuning) and without departure from required performance. Suitable protection shall be provided for the operating controls, indicating devices and instruments, including the head telephones, against physical harm from accidental or inadvertent blows and from the adverse effects of prolonged exposure to the weather. Operational parts of the apparatus adversely affected by immersion in sea water shall be enclosed so as to provide the necessary protection. Any such enclosure shall be deemed to be water-tight if it can be submerged in sea water so that no part is less than two inches below the surface of the water for a continuous period of two hours without leaking.

(2) The apparatus, as a unit, shall be fitted with durable handles or grips. These shall be so arranged and the distribution of the weight of the apparatus shall be such as to provide for convenient carrying by either one or two persons.

(3) Provision shall be made for securely fastening components of the apparatus, by lashing or other acceptable means, to a lifeboat thwart as may be necessary to enable easy and convenient operation of the lifeboat portable radio equipment.

(4) The apparatus exclusive of the line for lowering shall not weigh more than sixty pounds.

(5) The line for lowering shall consist of not less than 40 feet of 9 thread manila or sisal rope, or the equivalent thereof, which shall be in good condition and securely attached to the apparatus at all times.

(6) Components of the apparatus subject to loss by detachment from the unit for operation or test of the equipment shall be so arranged as to insure their availability at all times.

(7) Each apparatus shall be equipped with a removable plate permanent in character showing clearly the lifeboat radio call sign in letters and characters of the International Morse Code.

(b) (1) The radio transmitter shall comply with the following requirements:

Operating frequencies (kilocycles)	Frequency tolerance	Type of emission	Modulation percentage (average of modulation percentage of positive and negative peaks)	Modulation frequency	Power output (into specified artificial antenna)	Artificial antenna
500	Percent 0.5	A2	Not less than 70.	Not less than 450 nor greater than 1350 cycles per second.	Not less than 0.25 watt.	1 ohm resistance, 75 micromicrofarads capacitance.
500	.5	A2	do	do	Not less than 1.7 watts.	10 ohms resistance, 75 micromicrofarads capacitance.
8364	.2	A2	do	do	Not less than 4 watts.	40 ohms resistance.

(2) The transmitter radio frequency and modulation frequency control circuits shall be pretuned to the required frequencies and shall be of such design and construction that the operating frequencies are maintained within the prescribed tolerances under varying voltages, antenna circuit characteristics, and other normal conditions of adjustment. The frequency control circuit adjustment(s) shall be securely locked to prevent detuning as a result of shock or vibration and shall not be readily available to the person using the transmitter.

(3) Controls shall be provided on the operating panel for efficient transfer of radio frequency energy at each required operating radio frequency to the required antenna. An initial adjustment of these controls shall effectively resonate the antenna circuit at each required operating radio frequency and this condition shall be maintained without further adjustment of these controls during a normal operating period of the transmitter.

(4) Simple and reliable controls shall be provided so that the operator of the transmitter can quickly and conveniently place it in use for: Manual operation on 500 kc, manual operation on 8364 kc, and automatic operation alternately on these two frequencies: *Provided,* That not more than one manual switch adjustment shall be necessary to place the transmitter in operation for automatic transmission. For manual radiotelegraphy the transmitter and receiver including their controls, shall be arranged mechanically and electrically so that they can be operated efficiently and conveniently from the same operating position for communication on the required operating frequencies and so that the time necessary to change from transmission to reception, and vice versa, on these frequencies is as short as possible and in no event more than two seconds. For automatic operation provision shall be made as follows:

(i) On 500 kc for transmission of the international alarm signal followed by the international distress signal "SOS", the letter to be transmitted by means of the International Morse Code in one or more groups, each group consisting of three "SOS" signals.

(ii) On 8364 kc for transmission of the international distress signal "SOS" by means of the International Morse Code in one or more groups, each group consisting of three "SOS" signals followed by a dash of not less than 30 seconds in duration.

(iii) For transmission of the specified signals by automatically changing the operating frequency of the transmitter from 500 kc to 8364 kc and vice versa with a transfer time interval not to exceed one second.

(iv) For completely de-energizing the receiver during such operation of the transmitter.

(v) For testing the required automatic keying arrangement without the generation of radio frequency energy.

(vi) The speed of the automatic transmission of the international distress signal shall be at a rate not in excess of 16 words per minute nor less than 8 words per minute. The alarm signal dashes shall have a duration within the limits of 3.8 to 4.2 seconds and spaces between each of the twelve dashes constituting a series shall have a duration within the limits of 0.8 to 1.2 seconds.

(5) The transmitter shall be equipped with a reliable visual indicator or indicators as may be necessary (such as neon tubes) to indicate antenna circuit resonance at each operating frequency with any antenna provided. Failure of the indicator(s) shall have no adverse effect on the actual operation of the transmitter.

(c) The receiver shall comply with the following requirements:

(1) The receiver shall, when used with a head receiver, be capable without manual tuning of receiving A2 emission over the frequency band 492 kc to 508 kc and shall be capable when manually tuned of receiving A1 and A2 emission on any frequency in the band 8266 and 8745 kc.

(2) The sensitivity of the receiver shall be such that at least 1 milliwatt of audio power is developed in a noninductive load resistor having an ohmic value substantially equal to the value of the impedance of the head receiver at 1,000 cycles per second at a signal to noise power ratio of at least 10 to 1, when the receiver is supplied through the following artificial antennas with the respective radio frequency signals:

Frequency (kilocycles)	Signal strength (microvolts)	Modulation factor	Modulation frequency (cycles per second)	Artificial antenna
500	200	0.3	400	10 ohms resistance and 75 micromicrofarads capacitance.
8364	1000	.8	400	40 ohms resistance.

The noise power present in the output of the receiver when the receiver is adjusted for the reception of type A2 emission on the frequencies 500 kc and 8364 kc shall be determined with an unmodulated input signal of the indicated strength.

(3) The selectivity of the receiver preceding the final detector shall be such that response uniform to within 6 db is obtained over the frequency range 492 to 508 kc.

(4) The audio frequency response of the receiver shall be electrically uniform to within 6 decibels over the range of frequencies between 400 and 1400 cycles per second.

(5) The receiver shall be equipped with only one manually operated volume control.

(d) The power supply shall comply with the following requirements:

(1) The source of power shall be a manually operated electric generator capable of efficiently energizing the lifeboat radio installation. The mechanical power applied to the crank handle(s) or the propelling lever(s) of the generator driving mechanism shall not exceed a maximum of 0.15 horsepower for any required condition of operation of the lifeboat radio installation at any temperature of the generator and its associated driving mechanism between minus 30 degrees and plus 125 degrees Fahrenheit. Under these conditions the speed of rotation of the crank handle(s) shall not be greater than 70 revolutions per minute nor shall the cycles of operation of the propelling lever(s) be greater than 70 cycles per minute. The voltages applied to the radio installation shall not vary from their normal values more than 20 per cent at any generator speed in excess of the normal operating speed which can be manually developed.

(e) The single wire antenna and the collapsible rod antenna or the collapsible mast provided in lieu thereof shall comply with the following requirements:

(1) The collapsible rod antenna shall be of the maximum practicable height as approved by the Commission for each particular type of lifeboat radio apparatus. The collapsible mast provided in lieu of the collapsible rod antenna shall be of the maximum practicable height as approved by the Commission for each

[19] Subject to such limitations as may be imposed by the Administration having jurisdiction at foreign ports. It is necessary that each transmitter for use in lifeboats be licensed by the Commission to insure compliance with the rules and regulations of the Commission, during the required tests with an actual antenna. Operation of a transmitter installed in or for use in a lifeboat is ordinarily authorized by the regular ship station license when it has been described in the application for such license and the authorization has been approved by the Commission. See § 8.68.

particular type of lifeboat radio apparatus and capable of supporting the required single wire antenna.

(2) The single wire antenna shall consist of a length of at least 40 feet of extra-flexible stranded copper wire having a cross-sectional area of not less than 10,000 circular mills together with means for effective insulation of the antenna, means for fastening the wire to the antenna supports, and means for making electrical connection to the transmitter.

(f) The grounding conductor shall comply with the following requirements:

(1) The grounding conductor shall consist of a length of not less than 20 feet of No. 10 bare stranded copper wire or equivalent copper braid effectively weighted at one end for immersion in the sea. This conductor shall be securely fastened to an effective ground terminal on the apparatus.

(g) The artificial antenna shall comply with the following requirements:

(1) The artificial antenna shall provide a reliable load for the transmitter for test purposes, at the frequencies 500 kc and 8364 kc, of approximately the same electrical characteristics as the single wire antenna required by this section.

(2) The artificial antenna shall be housed in a single container and provided with appropriate terminals. If more than two terminals are provided on the artificial antenna, all the terminals shall be properly labeled.

7. Section 8.558 is amended to read as follows:

§ 8.558 *Requirements for lifeboat non-portable radio equipment.* (a) (1) The radio transmitter shall comply with the following requirements:

Operating frequencies (kilocycles)	Frequency tolerance	Type of emission	Modulation percentage (average of modulation percentages of pesitive and negative peaks)	Modulation frequency	Power output (into specified artificial antenna)	Artificial antenna
500	*Percent* 0.5	A2	Not less than 70.	Not less than 450 nor greater than 1350 cycles per second.	Not less than 35 watts.	10 ohms resistance and 100 micromicrofarads capacitance.
8364	.02	A2	do	do	Not less than 50 watts.	40 ohms resistance.

(2) The transmitter radio frequency and modulation frequency control circuits shall be pretuned to the required frequencies and shall be of such design and construction that the operating frequencies are maintained within the prescribed tolerances under varying voltages, antenna circuit characteristics, and other normal conditions of adjustment. The frequency control circuit adjustment(s) shall be securely locked to prevent detuning as a result of shock or vibration and shall not be readily available to the person using the transmitter.

(3) Controls shall be provided on the operating panel for efficient transfer of radio frequency energy at each required operating radio frequency to the required antenna. An initial adjustment of these controls shall effectively resonate the antenna circuit at each required operating radio frequency and this condition shall be maintained without further adjustment of these controls during a normal operating period of the transmitter.

(4) Simple and reliable controls shall be provided so that the operator of the transmitter can quickly and conveniently place it in use for: Manual operation on 500 kc, manual operation on 8364 kc, and automatic operation alternately on these two frequencies; provided that not more than one manual switch adjustment shall be necessary to place the transmitter in operation for automatic transmission. For manual radiotelegraphy the transmitter and receiver, including their controls, shall be arranged mechanically and electrically so that they can be operated efficiently and conveniently from the same operating position for communication on the required operating frequencies and so that the time necessary to change from transmission to reception, and vice versa, on these frequencies is as short as possible and in no event more than two seconds. For automatic operation provision shall be made as follows:

(i) On 500 kc for transmission of the international alarm signal followed by the international distress signal "SOS", the latter to be transmitted by means of the International Morse Code in one or more groups, each group consisting of three "SOS" signals.

(ii) On 8364 kc for transmission of the international distress signal "SOS" by means of the International Morse Code in one or more groups, each group consisting of three "SOS" signals followed by a dash of not less than 30 seconds in duration.

(iii) For transmission of the specified signals by automatically changing the operating frequency of the transmitter from 500 kc to 8364 kc and vice versa with a transfer time interval not to exceed one second.

(iv) The speed of the automatic transmission of the international distress signal shall be at a rate not in excess of 16 words per minute nor less than 8 words per minute. The alarm signal dashes shall have a duration within the limits of 3.8 to 4.2 seconds and spaces between each of the twelve dashes constituting a series shall have a duration within the limits of 0.8 to 1.2 seconds.

(v) For testing and required automatic keying arrangement without the generation of radio frequency energy.

(5) The transmitter shall be equipped with a radio frequency ammeter of suitable range and scale, connected so as to indicate the current in the antenna circuit for each operating frequency

(b) The receiver shall comply with the following requirements:

(1) The receiver shall, when used with a head receiver, be capable without manual tuning of receiving A2 emission over the frequency band 492 kc to 508 kc and shall be capable when manually tuned of receiving A1 and A2 emission on any frequency in the band 8266 to 8745 kc.

(2) The sensitivity of the receiver shall be such that at least 1 milliwatt of audio power is developed in a non-inductive load resistor having an ohmic value substantially equal to the value of the impedance of the head receiver at 1,000 cycles per second at a signal to noise power ratio of at least 10 to 1, when the receiver is supplied through the following artificial antennas with the respective radio frequency signals:

Frequency (kilocycles)	Signal strength (microvolts)	Modulation factor	Modulation frequency (cycles per second)	Artificial antenna
500	25	0.3	400	10 ohms resistance and 100 micromicrofarads capacitance.
8364	100	.3	400	40 ohms resistance.

The noise power present in the output of the receiver when the receiver is adjusted for reception of type A2 emission on the frequencies 500 kc and 8364 kc shall be determined with an unmodulated input signal of the indicated strength.

(3) The selectivity of the receiver preceding the final detector shall be such that response uniform to within 6 db is obtained over the frequency range 492 to 508 kc.

(4) The audio frequency response of the receiver shall be electrically uniform to within 6 decibels over the range of frequencies between 400 and 1400 cycles per second.

(5) The receiver shall be equipped with only one manually operated volume control.

(6) The receiver shall be capable of developing a useful audio power for the purpose of the reception of type A2 emission of at least 6 milliwatts into the non-inductive load resistor prescribed in subparagraph (2) of this paragraph.

(c) The power supply shall comply with the following requirements:

(1) The power supply for the transmitter and the receiver shall consist of a storage battery. The necessary power for the transmitter and receiver, at voltages other than the battery voltages may be obtained by the use of a dynamotor or other suitable device approved by the Commission.

(d) The antenna shall comply with the following requirement:

(1) A single wire inverted L-type for use not less than 20 feet above the water line with a horizontal section of the maximum practicable length.

(e) The artificial antenna shall comply with the following requirements:

(1) The artificial antenna shall provide a reliable load for the transmitter for test purposes at the frequencies 500 kilocycles and 8364 kilocycles, of approximately the same electrical characteristics as the antenna required by paragraph (d) (1) of this section.

(2) The artificial antenna shall be housed in a single container and provided with appropriate terminals. If more than two terminals are provided on the artificial antenna, all the terminals shall be properly labeled.

(f) The ground system shall comply with the following requirements:

(1) The radio installation when installed in a metal hull lifeboat shall be effectively grounded to the hull of the lifeboat. This ground connection shall be physically located in a position where it is inaccessible to the normal movement of occupants or accessories in the lifeboat.

(2) The radio installation when installed in a lifeboat having a non-metallic hull shall be effectively grounded to a bare copper plate of at least six square feet in area located on the hull of the lifeboat below the waterline.

8. Sections 8.559 and 8.560 are deleted.

9. Add a new § 8.559 to read as follows:

§ 8.559 *Transitional provisions for lifeboat non-portable radio equipment.* Any type of non-portable lifeboat radio equipment which complies with the former requirements of § 8.557 prior to revision [20] of that section effective_____, 1952, shall be deemed to comply with the requirements of § 8.520 (c) provided the equipment was installed in a motor lifeboat prior to (one year from effective date of this section) and if the equipment meets the following specific requirements from the respective dates set forth:

Requirement	*Date*
Section 8.558 (a) (1): Transmitter requirement that modulation frequency be not less than 450 cycles per second nor greater than 1350 cycles per second, if equipment installed on or after Nov. 19, 1952	Nov. 19, 1952
Section 8.558 (a) (1): Transmitter requirements applicable to transmission on 8364 kc, if equipment installed on or after November 19, 1952	Nov. 19, 1953
Section 8.558 (a) (1): Transmitter requirement that modulation percentage be not less than 70	Nov. 19, 1952
Section 8.558 (a) (4): Transmitter requirements regarding an automatic keying device for operation on 500 kc and, if installed on or after Nov. 19, 1952, for operation on 8364 kc	Nov. 19, 1953
Section 8.558 (b): Receiver requirements regarding reception on frequencies between 8266 and 8745 kc, if equipment installed on or after Nov. 19, 1952	Do.

[20] Copies of former § 8.557 may be secured without charge upon request addressed to Secretary, Federal Communications Commission, Washington 25, D. C

Requirement	*Date*
Section 8.520 (d) (4): Provision of means for charging the radio battery after the lifeboat is launched, if equipment is installed on or after November 19, 1952	Nov. 19, 1952
Section 8.520 (e): Field strength requirement	Do.

[F. R. Doc. 52-10877; Filed, Oct. 7, 1952; 8:48 a. m.]

FEDERAL POWER COMMISSION

[18 CFR Part 154]

[Docket No. R-124]

REGULATIONS UNDER NATURAL GAS ACT

FILING OF RATE INCREASE APPLICATIONS

SEPTEMBER 30, 1952.

Amendment of general rules and regulations to govern the filing of rate increase applications under the provisions of section 4 (e) of the Natural Gas Act, as amended. Docket No. R-124.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to adopt a general rule to govern the filing of rate increase applications (§ 154.63 (b) (3)) to replace the existing rule governing such filings. The revised § 154.63 (b) (3) is to read as provided in the accompanying attachment, set forth below, which is made a part hereof by reference.

3. This rule is proposed to be issued pursuant to the authority granted to the Federal Power Commission by the Natural Gas Act, as amended, particularly sections 4 and 16 thereof (52 Stat. 822, 830; 15 U. S. C. 717c, 717o).

4. The proposed rule is designed to set forth the requirements for the basic data to be submitted by the natural gas company upon which it relies in support of its application for a rate increase.

5. The Commission proposes to adopt and issue the rule to replace the existing § 154.63 (b) (3) of Part 154—Rate Schedules and Tariffs, of Subchapter E—Regulations Under Natural Gas Act, of Chapter 1—Federal Power Commission, Title 18—Conservation of Power, of the Code of Federal Regulations.

6. Any interested person may submit to the Federal Power Commission, Washington 25, D. C., not later than November 21, 1952, data, views and comments in writing concerning the proposed amendments. An original and 9 copies should be filed of any such submittals.

[SEAL] LEON M. FUQUAY, *Secretary.*

Proposed substitution for existing § 154.63 (b) (3):

(3) (i) *Rate increase applications.* If the proposed change in tariff, contract, or part thereof will result in an increase in rates or charges, there shall be submitted in support thereof statements A to M described in this subparagraph. Where the information submitted does not comply with the requirements of this part, the application is subject to rejection.

(*a*) *Test year.* If the natural gas company has been in operation for 12 months at the time of the filing, the statements shall be based upon a test year consisting of 12 months of most recently available actual experience, adjusted for changes which are known and are measurable with reasonable accuracy at the time of the filing, and which will become effective within six months of the last month of available actual experience. The 12 months of experience shall be adjusted to eliminate nonrecurring items. If the applicant has had less than 12 months' experience, the test year may consist of 12 consecutive months ending not more than one year from filing date.

Adjustments to experience, or estimates where 12 months' experience is not available, shall not include any amounts for facilities in respect to which a certificate of public convenience and necessity must be obtained but which has not been issued at the date of filing, nor shall adjustments or estimates include any amounts for other facilities associated therewith. The bases and procedures, including significant data, used in the derivation of adjustments or estimates shall be submitted in sufficient detail on supporting statements as to permit ready analysis of such adjustments or estimates.

(*b*) *Joint facilities.* If the applicant operates other departments in addition to the natural gas operations involved in the subject application and has allocated to such natural gas operations any of its net investment in joint or other department facilities and the operating, maintenance, or depreciation costs associated therewith, it shall show on the following statements, or the schedules in support thereof, the amounts so allocated together with the methods used in making such allocations: *Provided,* That if such allocations are recorded in applicant's books on the basis of current accounting procedures the submittal may be confined to a brief description of the methods followed.

Statement A—Over-all cost of service. This statement shall summarize the over-all cost of service (operating expenses, depreciation, taxes and return) developed from the supporting statements described below.

Statement B—Rate base and return. This statement shall summarize the over-all rate base from the figures contained in Statements D, E, and F, with an appropriate deduction for Contributions in Aid of Construction, if any. The statement shall also include the claimed rate of return and shall show the application of the claimed rate of return to the over-all rate base.

Statement C—Cost of plant. This statement shall show the balances of the gas utility plant in service by functional classification (§§ 201.301 to 201.322 of subchapter F of this chapter) as of the beginning of the test period, the book additions and reductions during the test period, and the balance at the end of such period. In adjoining columns there shall be shown the adjustments, if any, to the book figures and the total cost of plant claimed. Such adjustments shall be fully and clearly explained.

A supporting statement shall show the same information as described above but by the primary accounts for gas utility plant in service as prescribed in the Commission's Uniform System of Accounts for Natural Gas Companies.

The major plant additions and retirements, together with associated costs, for the test year shall be described and the approximate dates of commercial operation or retirement from service shall be given.

If the cost of any plant other than Plant in Service as defined in the Uniform System of Accounts for Natural Gas Companies is claimed as a part of the rate base, the amount, fully described, shall be included as the last item in the statement and the basis of the claim for inclusion in the rate base shall be clearly set forth.

Statement D—Accrued depreciation, depletion and amortization. This statement shall show the depreciation, depletion and amortization reserves by functional classifications of plant as of the beginning of the test period, the book additions and reductions during the period, together with the balances at the end of the test period. In adjoining columns there shall be shown the adjustments, if any, to the book figures and the total accrued depreciation, depletion and amortization claimed. Such adjustments shall be clearly and fully explained. If it is necessary to allocate an over-all gas plant reserve by functions, a complete explanation of the method, procedures and significant data used in making the allocation shall be set forth.

Statement E—Working capital. This statement shall show the computation of the working capital claimed as a part of the rate base. The statement shall show the respective components of the claimed working capital and be in such detail as to show how the amount of each component was computed. The balances for Materials and Supplies and Prepayments shall be shown for each of the 12 months of the test period.

If the cost of natural gas in storage is claimed as a part of the rate base, a separate supporting schedule shall be submitted showing the quantities and the respective costs of natural gas stored at the beginning of the test period, the input and output in Mcf and associated costs by months, and the balance at the end of the test period.

Statement F—Rate of return.—(1) *Rate of return claimed.* This statement shall show the percentage rate of return claimed. In addition, the following information shall be submitted:

(2) *Cost of debt capital.* (i) Show for each class and series of long-term debt outstanding at date of latest balance sheet:

(a) Description.
(b) Date of issuance and date of maturity.
(c) Interest rate.
(d) Principal amount of issue:
  Gross proceeds.
  Underwriters discount or commission:
    Amount.
    Percent gross proceeds.
  Issuance expense:
    Amount.
    Percent gross proceeds.
  Net proceeds.
  Net proceeds per unit.
(e) Cost of money:
  Yield to maturity based on the interest rate and net proceeds per unit determined by reference to any generally accepted table of bond yields.
(f) Method of sale, whether competitive or negotiated.
(g) If issue is owned by an affiliate, state name and relationship of owner.

(ii) Show weighted average cost of debt capital at date of latest balance sheet as determined from the foregoing detail.

(3) *Cost of preferred stock capital.* (i) Show for each class and series of preferred stock outstanding at date of the latest balance sheet:

(a) Description.
(b) Date of issuance.
(c) If callable, call price.
(d) If convertible, terms of conversion.
(e) Dividend rate.
(f) Par or stated amount of issue.
  Gross proceeds.
  Underwriters discount or commission:
    Amount.
    Percent gross proceeds.
  Issuance expenses:
    Amount.
    Percent gross proceeds.
  Net proceeds.
  Net proceeds per unit.
(g) Cost of money:
  Dividend rate divided by net proceeds per unit.
(h) Whether issue was offered to stockholders through subscription rights or to the public.
(i) If issue is owned by an affiliate, state name and relationship of owner.

(ii) Show weighted average cost of preferred stock capital at date of latest balance sheet as determined by detail submitted under subpart (3) (i) above.

(4) *Cost of common stock capital.* (i) Show for each sale of Common Stock during the five-year period preceding the date of the latest balance sheet:

(a) Number of shares sold.
(b) (1) Gross proceeds at offering price.
  (2) Underwriters discount or commission:
    Amount.
    Percent gross proceeds.
  (3) Proceeds to applicant.
  (4) Issuance expenses:
    Amount.
    Percent gross proceeds.
  (5) Net proceeds.
    Offering price per share.
    Net proceeds per share.
(c) Book value per share at date immediately prior to issuance.
  Closing market price at latest trading date prior to date of issuance.
  Latest published earnings per share available at date of issuance.
  Dividend rate at date of issuance.
(d) Whether issue was offered to stockholders through subscription rights or to the public.

(ii) Submit information respecting any stock dividends, stock splits or changes in par or stated value during five-year period preceding date of latest balance sheet.

(iii) Submit following information on outstanding common stock for the five calendar years preceding the date of the latest balance sheet and by months for the twelve-month period ended that date:

	Average number of shares outstanding	Book value per share	Annual earnings per share [1]	Annual dividend rate per share	Dividends per cent earnings	Market price		Earnings price ratio [2]	Dividend price ratio
						High	Low		
Years:									
1									
2									
3									
4									
5									
Months:									
1									
2									
3									
4									
5									
6									
7									
8									
9									
10									
11									
12									

[1] For monthly figures, show current 12-month average.
[2] Relationship of annual earnings per share to average high-low market value of stock.
[3] Relationship of dividend per share to average high-low market value of stock.

(iv) If the applicant relied upon ratios or other data concerning the common stocks of other companies in reaching its conclusion as to a fair allowance for earnings on common equity, submit the following information respecting the common stock of such other companies:

(a) With respect to recent issuances, the same information as submitted under (3) (i).
(b) With respect to outstanding issues, the same information as submitted under (3) (iii).

(v) Show the earnings per share of common stock which the claimed rate of return would yield.

Statement G—Sales and operating revenues. This statement shall show the revenues from gas sales and other gas operating revenues for the test year at both the old and proposed rates. The operating revenues shall be classified between jurisdictional and nonjurisdictional sales and services. Each sale for resale, each transportation service, and each main line industrial sale shall be shown separately, but other sales, including retail sales, if any, may be grouped and classified as provided in the Commission's Uniform System of Accounts for Natural Gas Companies. For each revenue item shown separately, there shall be shown the points of delivery and the billing determinants (demand, volumes reduced to a common stated pressure base, Btu, etc.).

Statement H—Revenue deductions.—(1) *Operating expenses.* This statement shall show the gas operating expenses according to each pertinent account of the Uniform System of Accounts for Natural Gas Companies (the summary statement shall list the operating expenses by major functional classifications with the details on a supporting schedule). The operating expenses shall be shown by months in separate columns, under appropriate subheadings, as follows: (a) Actual operating expenses as per books, (b) adjustments, if any, to such actual operating expenses, and (c) total claimed operating expenses for the test period. Detailed explanations of the adjustments and the manner of their determinations shall be supplied.

On a separate supporting schedule, the cost of gas purchased shall be detailed for each purchase source of supply in the manner indicated above for all operating expenses. Such detail shall show, in addition, the determinants and the components of the purchase gas costs as between demand costs, commodity costs, etc. For such purchases subject to demand and commodity charges, the details shall show the actual or estimated maximum daily volume taken from each purchase source during the test period and the corresponding maximum daily volume taken within the period. Field purchases of 100,000 Mcf or less annually from individual nonassociated vendors may be grouped by field or production areas.

(2) *Depreciation and amortization expense.* This statement shall show the claimed gas plant depreciation, depletion, and amortization expense for the test period. The amounts of depreciable, depletable and amortizable plant shall be shown by the functions specified in Account 503.1, Depreciation of the Commission's Uniform System of Accounts for Natural Gas Companies, and, if available, for each plant account, together with the rates used in computing these claimed expenses. Any deviation from the rates used in the applicant's last annual report on file with the Commission shall be explained in a footnote showing the rate or rates previously used together with supporting data for the new rate or rates used for this statement.

(3) *Income taxes.* This statement shall show the estimated income taxes and the computation thereof separately as between Federal and State, for the test year as if the proposed rates had been in effect during that period. This statement shall show total of each income tax and the allocation thereof to departments, if any, such as gas, electric, merchandising, etc., as well as to any nonoperating income of the company. If the natural gas company joins in a consolidated tax return, the total estimated tax on a consolidated basis shall be given as well as a full explanation of the method of prorating the tax to the applicant.

Any abnormalities (such as nonrecurring income, losses, deductions, etc.) affecting the income tax for the test year shall be explained and the tax effect thereon set forth.

(4) *Other taxes.* This statement shall show the claimed gas utility taxes, other than Federal or State income taxes, applicable to the test period. The taxes shall be shown by states and by kind of taxes.

Any adjustments to book amounts for the test period shall be fully explained.

Statement I—Allocation of over-all cost of service. This statement shall show the allocation of the over-all cost of service (Statement C), between the jurisdictional and the nonjurisdictional sales and services. The statement shall show the allocation of the operating expenses, depreciation, depletion, amortization, taxes and return, and for each such cost of service item the statement shall show the allocation ratio or ratios used, including the derivation of such ratios, and each amount or group of amounts related thereto. The methods and the procedures used in allocating the costs shall be set forth in such detail as to readily disclose the principles and steps followed. Where a demand factor is used in allocating costs, full details of the classification of costs to that factor and the allocation, such as respective loads on peak days, etc., shall be given. The deliveries to jurisdictional and nonjurisdictional customers on the 5 continuous days of maximum system deliveries during the most recent 12-month period shall be shown. In addition show similar 5-day data under test year operating conditions.

This statement shall include a schedule showing for the test year the company's Gas Account, in the form required by the Commission's Annual Report Form No. 2, page 121.

Statement J—Allocation of cost of service by zones. If the rates on file are zoned or if it is proposed to establish zone rates, the over-all costs shall be further allocated among the existing or proposed rate zones. A detailed description of the methods and procedures used to allocate costs to zones shall be given. Where zones are sought to be established for the first time, the reasons for this establishment and the selecting of the proposed zone boundaries shall be set forth.

Statement K—Comparison of estimated revenues with cost of service. This statement shall consist of a comparison of the total revenues under the proposed tariff from jurisdictional sales with the cost of serving such sales. Where zone rates are in existence or are proposed, this schedule shall also include a comparison by zones.

Statement L—Balance sheet. A balance sheet in the form prescribed by the Commission's Uniform System of Accounts for Natural Gas Companies as of the beginning of the test period and as of the most recent date available.

Statement M—Income statement. An income statement in the form prescribed by the Commission's Uniform System of Accounts for Natural Gas Companies for the test year and for the most recent 12-month period available.

(ii) *Preparation for hearing.* A natural gas company filing for an increase in rates or charges shall be prepared to go forward immediately at a hearing and sustain the burden imposed by the Natural Gas Act of establishing that its proposed rates or charges are just and reasonable.

[F. R. Doc. 52-10856; Filed, Oct. 7, 1952; 8:45 a. m.]

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043, and June 2, 1952; 17 F. R. 3818).

Alva Frocks, Inc., Ridgeland, S. C., effective 9-29-52 to 3-28-53; 15 learners for expansion purposes (cotton wash dresses).

Bear Manufacturing Co., 2301 Front Street, Meridian, Miss., effective 9-25-52 to 9-24-53; 10 percent of the productive factory force or 10 learners, whichever is greater (cotton khaki trousers).

Blue Bell, Inc., Ripley, Miss., effective 9-25-52 to 9-24-53; 10 percent of the productive factory force (work shirts).

Boy Towne Shirt Co., Inc., 233 Market Street Philadelphia, Pa., effective 9-29-52 to 9-28-53; five learners (men's and boys' shirts).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Union Manufacturing Co., Union Point, Ga., effective 9–23–52 to 9–22–53; 5 percent of the productive factory force.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Norwich Knitting Co., Clayton, N. C., effective 9–24–52 to 3–23–53; 30 learners for expansion purposes (knitted underwear and outerwear).

Rice-Stix Factory No. 17, Houston, Miss., effective 10–9–52 to 10–8–53; 5 percent of the productive factory force (men's and boys' shorts).

Strutwear, Inc., Clarksdale, Miss., effective 9–29–52 to 3–28–53; 10 learners for expansion purposes (ladies' slips and panties).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952; 17 F. R. 1500).

Altoona Shoe Co., Inc., 2817 Industrial Avenue, Altoona, Pa., effective 9–16–52 to 9–15–53; 10 percent of the productive factory force.

The following special learner certificates were issued to the school-operated industries listed below:

Campion Academy, Loveland, Colo., effective 9–1–52 to 8–31–53; print shop—compositor, pressman, bindery worker, and related skilled and semiskilled occupations, 7 learners, 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; broom shop—broom maker, stitcher, sorter, binder and related skilled and semiskilled occupations, 6 learners, 150 hours at 55 cents per hour, 125 hours at 60 cents per hour, 125 hours at 70 cents per hour.

Washington Missionary College, Takoma Park, Washington 12, D. C., effective 9–1–52 to 8–31–52; print shop—pressman, compositor and related skilled and semiskilled occupations, 5 learners, 350 hours at 55 cents per hour, 325 hours at 60 cents per hour, 325 hours at 70 cents per hour; bindery shop—machine operator, hand stitcher and related skilled and semiskilled occupations, 2 learners, 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour; clerical—clerk, typist, stenographer, bookkeeper and related clerical occupations, 2 learners, 200 hours at 55 cents per hour, 200 hours at 60 cents per hour, 200 hours at 70 cents per hour.

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

The Carib Co., Inc., Aibonito, P. R., effective 9–10–52 to 3–9–53; 55 learners for expansion purposes; machine stitching (woven and knitted fabric gloves), 240 hours at 30 cents per hour, 240 hours at 38 cents per hour (machine sewn fabric gloves).

Walden Hosiery Mills of Puerto Rico, Inc., Cidra, P. R., effective 9–23–52 to 3–22–53; 18 learners for expansion purposes; knitters, 480 hours, loopers, 480 hours, menders, 240 hours, inspectors, 240 hours; each 30 cents per hour (full fashioned hosiery).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 30th day of September 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

DEFENSE TRANSPORT ADMINISTRATION

UNDERSTANDING OF PRODUCTION AND MARKETING ADMINISTRATION, UNITED STATES DEPARTMENT OF AGRICULTURE, AND DEFENSE TRANSPORT ADMINISTRATION WITH RESPECT TO STORAGE AND WAREHOUSING MATTERS

AMENDMENT OF MEMORANDUM OF AGREEMENT

The memorandum of agreement (16 F. R. 11512) between the Administrator of the Production and Marketing Administration, United States Department of Agriculture, and the Administrator of the Defense Transport Administration, signed by them on October 25 and 24, 1951, respectively, and setting forth the understanding of the Production and Marketing Administration and the Defense Transport Administration as to the general manner in which each agency will perform its respective functions under delegations of authority made pursuant to the Defense Production Act of 1950, as amended, with respect to storage and warehousing matters, is hereby amended in the following respects:

1. Add, at the end of paragraph numbered 2 of said memorandum of agreement, the following new subparagraph "f".

f. Storage and warehousing facilities used in the domestic distribution of commercial fertilizer but not including storage or warehousing facilities operated in whole or in major part as public storage or warehousing facilities.

2. Revise the provisions in paragraph numbered 5 of said memorandum of agreement to read as follows:

5. The terms "food," "domestic distribution," and "commercial fertilizer" as used herein shall have the respective meanings as when used in Executive Order 10161.

Dated: September 30, 1952.

PRODUCTION AND MARKETING ADMINISTRATION,
HAROLD K. HILL,
Acting Administrator.
DEFENSE TRANSPORT ADMINISTRATION,
JAMES K. KNUDSON,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10118, 10119, 10120, 10121, 10320]

PENN JERSEY BROADCASTING CO. ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Penn Jersey Broadcasting Co., Bristol, Pennsylvania, Docket No. 10118, File No. BP–8062; Leroy Bremmer and Dorothy Bremmer, d/b as Atlantic City Broadcasting Co., Atlantic City, New Jersey, Docket No. 10119, File No. BP–8090; Herbert Michels, Albert Spiro and John J. Farina, d/b as Garden State Broadcasting Company, Atlantic City, New Jersey, Docket No. 10120, File No. BP–8112; Press-Union Publishing Company, Atlantic City, New Jersey, Docket No. 10121, File No. BP–8143; Max M. Leon, Inc. (WDAS) Philadelphia, Pennsylvania, Docket No. 10320, File No. BP–8508; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 18th day of September 1952;

The Commission having under consideration the above-entitled application of Max M. Leon, Inc., to change facilties of Station WDAS, Philadelphia, Pennsylvania, from 1400 kc, 250 watts, unlimited time, to 1480 kc, 1 kw, unlimited time; and

It appearing, that said application is mutually exclusive with the application of Penn Jersey Broadcasting Company (Docket No. 10118; File No. BP–8062) for a new station on 1490 kc at Bristol, Pennsylvania; that operating as proposed Station WDAS will not provide satisfactory coverage of the Philadelphia metropolitan area and will involve objectionable mutual interference with Station WHOM, New York, New York; and

It further appearing, that the applicant was advised on August 13, 1952, of the matters set forth in the above paragraph and that the applicant in a letter dated September 4, 1952, recognized the pendency of the conflicting Penn Jersey proposal and admitted the deficiencies of the proposed WDAS operation described in the above paragraph; and

It further appearing, that in a letter dated September 11, 1952, counsel for Station WHOM, New York, New York, requested the Commission to include an issue in the contemplated order designating the WDAS application for hearing pertaining to the nature and character of the program service being rendered by Station WHOM in the area, if any, that might lose primary service from Station WHOM due to the proposed operation of Station WDAS; and

It further appearing, that the applicant, Max M. Leon, Inc., is legally, technically, financially and otherwise qualified to operate Station WDAS, as proposed:

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application of Max M. Leon, Inc., is designated for hearing in the same consolidated proceeding with the other above-captioned applications to commence at 10:00 a. m. on September 22, 1952, in Atlantic City, New Jersey, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

3. To determine whether the operation of the proposed station would involve objectionable interference with Station WHOM, New York, New York, and any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service and the type and character of the program service provided by such other primary services, if any, to such areas and populations.

4. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Penn Jersey Broadcasting Co. (Docket No. 10118; File No. BP–8062) or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine the nature and character of program service being rendered by Station WHOM, New York, New York, in the area, if any, that might lose primary service from Station WHOM due to the proposed operation of WDAS.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to coverage of the Philadelphia metropolitan area.

7. To determine on a comparative basis whether the application of Max M. Leon, Inc. or Penn Jersey Broadcasting Co., if either, should be granted.

It is further ordered, That Atlantic Broadcasting Company, Inc., licensee of Station WHOM, New York, New York, is made a party to this proceeding with respect to the application of Max M. Leon, Inc. only.

[Docket No. 10321]

SOUTHERN BELL TELEPHONE AND TELEGRAPH CO.

ORDER SCHEDULING HEARING

In the matter of the application of Southern Bell Telephone and Telegraph Company. Docket No. 10321, File No. P–C–2964; for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and property of the Harlem Telephone Company, Incorporated.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration an application filed by Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southern Bell Telephone and Telegraph Company of certain telephone plant and property of the Harlem Telephone Company, Incorporated, located in Harlem, Georgia, and furnishing telephone service in parts of Columbia and McDuffie Counties, Georgia, will be of advantage to persons to whom service is to be rendered and in the public interest:

It is ordered, That pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to persons to whom service is to be rendered and in the public interest:

It is further ordered, That the hearing upon the said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 9th day of October 1952, and that a copy of this order shall be served on the Southern Bell Telephone and Telegraph Company, the Harlem Telephone Company, Incorporated, the Governor of Georgia, the Georgia Public Service Commission, and the Postmaster of Harlem, Georgia:

It is further ordered, That within five days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in Columbia and McDuffie Counties, Georgia, and shall furnish proof of such publication at the hearing herein.

Released: September 25, 1952.

[Docket No. 10322]

MARVIN G. GRIGSBY

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In the matter of Marvin G. Grigsby, San Diego, California, Docket No. 10322; application for a restricted radiotelephone operator permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration the application of Marvin G. Grigsby, 1832 1st. Avenue, San Diego, Calif. for a restricted radiotelephone operator permit; and

It appearing, that said licensee, on February 6, 1952, engaged in the operation of the ship radiotelephone station KNFZ aboard the vessel Sun Dial without first having obtained a valid commercial radio operator license or permit authorizing such operation, in violation of section 318 of the Communications Act of 1934, as amended; and

It further appearing, that said licensee, on February 6, 1952, operated the ship radiotelephone station KNFZ on the frequency 2638 kilocycles, which is allocated for ship to ship telephony and primarily for the transmission of safety communications, for the unauthorized purpose of communicating with amateur radio station W6TIY at San Diego, California, in violation of § 8.358 of the Commission's rules; and

It further appearing, that said licensee, on February 6, 1952, while engaged in the operation of his amateur radio station the Sun Dial transmitted a call sign W6BOR, which had not been assigned by proper authority to the station he was operating in violation of § 12.158 of the Commission's rules; and

It further appearing, that the Commission is unable to determine from consideration of the information before it that the public interest would be served by granting Mr. Grigsby the license requested:

It is ordered, That pursuant to section 303 (1) of the Communications Act of 1934, as amended, the above entitled application is hereby designated for hearing in Washington, D. C., at a time to be specified by a subsequent order of the Commission upon the following issues:

1. To determine the applicant's character qualifications to hold a radio operator license.

2. To determine the applicant's use of radio transmitting equipment while not being the holder of a valid radio operator license issued to him by the Commission.

3. To determine whether the applicant transmitted a call sign which had not been assigned by proper authority to the station he was operating.

4. To determine in the light of the evidence adduced under the issues in this proceeding whether it would be in the public interest to grant a restricted radiotelephone operator permit to Mr. Grigsby.

Released: September 29, 1952.

ROY HOFHEINZ (KSOX)

ORDER SCHEDULING ORAL ARGUMENT

In re applications of Roy Hofheinz (KSOX), Harlingen, Texas, File Nos. BMP-5709 and BL-4649; for modification of construction permit and for station license.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration (1) a petition for reconsideration, filed December 3, 1951, by L. B. Wilson, Inc., licensee of Station WCKY, Cincinnati, Ohio, directed against the Commission action of November 14, 1951, granting without hearing the above-entitled application for modification of construction permit for Station KSOX, and also the action of November 28, 1951, authorizing the commencement of program tests by Station KSOX; (2) a similar petition filed December 4, 1951, by McClatchy Broadcasting Company, licensee of KFBK, Sacramento, California; (3) an opposition to the above petitions filed December 20, 1951,[1] by Roy Hofheinz; (4) an answer to the said opposition filed January 2, 1952, by L. B. Wilson, Inc.; (5) a reply to the said opposition filed January 3, 1952, by McClatchy Broadcasting Company; (6) a motion to strike "footnote 1" of the said opposition, filed January 9, 1952, by Roy Hofheinz; (7) a motion to strike certain parts of the answer of L. B. Wilson, Inc., filed January 10, 1952, by L. B. Wilson, Inc.; (8) a petition filed February 7, 1952, by McClatchy Broadcasting Company requesting that the above-entitled application for station license to cover construction permit be designated for hearing; (9) a similar petition filed February 14, 1952, by L. B. Wilson, Inc.; and (10) an opposition to and motion to dismiss the above two petitions, filed February 28, 1952,[2] by Roy Hofheinz;

It appearing, that said oral argument in this matter would be of assistance to the Commission in the disposition of the above-described pleadings:

It is ordered, That oral argument in the above-entitled matter be held before the Commission en banc at the offices of the Commission in Washington, D. C., on the 3d day of November 1952:

It is further ordered, That the Chief of the Broacast Bureau of the Federal Communications Commission participate in this oral argument.

Released: September 29, 1952.

AM AND FM STATIONS

ANNUAL EQUIPMENT PERFORMANCE MEASUREMENTS

SEPTEMBER 25, 1952.

Attention of AM and FM stations is directed to §§ 3.46 (e) and 3.254 of the Commission's rules and regulations. These sections require all standard and FM broadcast stations to make certain performance measurements at yearly intervals, with one such set of measurements being made during the four-month period preceding the date of filing application for renewal of station license. The measurements are not to be submitted to the Commission but are to be retained at the station and be available upon request by any duly authorized representative of the Commission. Because this measuring procedure affords the means of locating and correcting defective equipment, such measurements are necessary for the efficient and proper operation of the station. The Commission has therefore been concerned with the failure of licensees to answer the question in the renewal application as to whether the equipment performance measurements have been made.

Licensees, as well as the Commission, are interested in prompt action, in proper cases, upon applications for renewal of licenses. Aside from the fact that the failure to make timely and proper measurements reflects a lack of diligence on the part of licensees, the additional fact is present that the Commission cannot grant renewal applications in the absence of such measurements but must resort, in many cases, to protracted correspondence. This requires both time and effort placing an unnecessary administrative burden upon the Commission at a period when it must necessarily concentrate on problems much larger in scope. In the interests, therefore, of full operation in the public interest and economy of time for both the Commission and licensees, it is requested that steps be taken by all licensees to insure full and prompt compliance with these regulations.

Adopted: September 24, 1952.

Correction

In F. R. Doc. 52-10732, appearing at page 8929 of the issue for Saturday, October 4, 1952, the following change should be made:

In item 3 of the criteria, "prejudge" should read "prejudice".

INTERSTATE COMMERCE COMMISSION

[Rev. S. O. 562, Taylor's I. C. C. Order 6]

RAILROADS SERVING KANSAS AND MISSOURI

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, those railroads serving the States of Kansas and Missouri, because of work stoppage on the Kansas City Terminal Railway Company, Kansas City, Kansas and Kansas City, Missouri, are unable to transport traffic to or through the terminals in those cities: *It is ordered*, That:

(a) Rerouting traffic: Those railroads serving the States of Kansas and Missouri, which are unable to transport traffic moving to or through the Kansas City, Kansas and Kansas City, Missouri, terminals, because of work stoppage, are hereby authorized to divert such traffic over any available route to expedite the movement, regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroads desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the diversions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 9:00 a. m., October 2, 1952.

(g) Expiration date: This order shall expire at 11:59 p. m., October 31, 1952, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement.

Issued at Washington, D. C., October 2, 1952.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-173]

PHILADELPHIA CO., AND STANDARD GAS AND ELECTRIC CO.

ORDER RELEASING JURISDICTION WITH RESPECT TO EMPLOYMENT OF EXCHANGE AGENT

OCTOBER 2, 1952.

In the matter of Philadelphia Company, and Standard Gas and Electric Company; File No. 54-173.

Standard Gas and Electric Company, a registered holding company, having filed a plan, pursuant to section 11 (e) of the act, providing for the simplification of the corporate structure of the system of Philadelphia Company, its subsidiary and also a registered holding company;

The Commission by order dated August 22, 1952 (Holding Company Act Release No. 11450), having approved Step 4 of said plan and in said order having reserved jurisdiction with respect to the selection and employment by Philadelphia Company of the Exchange Agent provided for in Step 4;

Philadelphia Company having filed an application on September 30, 1952, stating that it has selected Mellon National Bank and Trust Company, Pittsburgh, Pennsylvania, as the Exchange Agent under Step 4;

It appearing to the Commission from said application and the exhibits attached thereto that competitive conditions were maintained by Philadelphia Company in the selection of the Exchange Agent and that it is appropriate to release the jurisdiction heretofore reserved with respect to such matter:

It is ordered, That the jurisdiction heretofore reserved herein with respect to the selection and employment by Philadelphia Company of the Exchange Agent provided for in said plan be, and the same hereby is, released.

By the Commission.

ARKANSAS NATURAL GAS CORP. ET AL.

ORDER APPROVING PLAN

OCTOBER 1, 1952.

In the matter of Arkansas Natural Gas Corporation, Cities Service Company, File No. 54-186; Arkansas Natural Gas Corporation and its subsidiaries and Cities Service Company, respondents, File Nos. 59-93 and 70-1804.

Arkansas Natural Gas Corporation ("Arknat"), a registered holding company and a subsidiary of Cities Service Company ("Cities"), also a registered holding company, having filed a plan, and thereafter an amendment thereto ("the plan") joined in by Cities, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act") providing, among other things, for the simplification of Arknat's corporate structure, the separation of Arknat's utility from its non-utility interests, its merger with its oil subsidiary, and the settlement of claims asserted against Cities and its subsidiaries;

The Commission having by notices and orders dated May 19, 1948, and February 9, 1949, instituted proceedings pursuant to sections 11 (b) (1) and (2), and the Commission having consolidated the proceedings under sections 11 (b) (1) and (2) and 11 (e) of the act;

Public hearings having been held after appropriate notice, at which hearings all interested persons were afforded an opportunity to be heard;

The Commission having been requested to enter an order finding that the plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby, and having been requested that such order contain recitals in accordance with the provisions and requirements of the Internal Revenue Code, as amended;

Arknat and Cities having requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court in accordance with the provisions of subsection (f) of section 18 of the act, to enforce and carry out the terms and provisions of the plan; and

The Commission being duly advised, and having this day issued its findings and opinion, on the basis of said findings and opinion, and pursuant to the applicable provisions of the act and the rules and regulations thereunder

It is ordered, That the said plan be, and hereby is, approved, subject to the terms and conditions contained in Rule U-24 of the general rules and regulations promulgated under the act and to the following additional terms and conditions:

1. The order entered herein shall not be operative to authorize the consummation of the transactions proposed in the plan until a court of competent jurisdiction shall, upon application thereto, enter an order enforcing said plan.

2. Arknat, Arkla, and Cities shall pay only such fees and expenses in connection with the plan and the proceedings relating thereto as the Commission may approve on appropriate application made to it, and jurisdiction is hereby reserved to determine the reasonableness and appropriate allocation of all such fees and expenses.

3. Jurisdiction be and it hereby is further specifically reserved with respect to the following matters:

a. The terms and conditions under which the proposed bonds are to be issued by Arkansas Louisiana Gas Company ("Arkla") and the proposed debentures are to be issued by Arknat;

b. The selection and composition of the first boards of directors of Arkla and of Arkansas Fuel Oil Corporation ("Fuel Oil") upon or after consummation of the plan;

c. The resolution of the problems presented by the continued existence of a minority public interest in Fuel Oil after consummation of the plan;

d. The amendment of Arkla's charter to require an affirmative vote of two-thirds of the stock to amend provisions of such charter granting cumulative voting privileges in the election of directors and conditional pre-emptive rights, and its amendment in such other respects as may be appropriate for the protection of investors; and

e. The entertaining of such further proceedings, entering of such further orders and the taking of such other action as may be necessary or appropriate to effectuate the provisions of section 11 (b) of the act and as may be appropriate in connection with the plan, the transactions incident thereto and the consummation thereof.

It is further ordered, And recited and the Commission finds that:

(1) The issuance and sale by Arknat of $23,000,000 principal amount of its 20-year sinking fund debentures and the exchange of Arknat preferred stock by the holders thereof other than Cities for such debentures, with such cash adjustments as may be appropriate, and the surrender to Arknat by Cities of its holdings of 870,812 shares of the preferred stock of Arknat for retirement and the receipt by Cities in payment therefor of the sum of $10.60 per share, together with an amount equal to unpaid dividends to the date specified for such payment;

(2) The change of the presently outstanding 298,988 shares of common stock of Arkla into 3,801,609 shares of common stock of Arkla of the par value of $5 per share, and the distribution of such common stock by Arknat to the holders of its common and Class A stock

on the basis of one-half share of such common stock of Arkla for each share of common or Class A stock of Arknat, and the distribution by Arknat to such holders of registered or bearer scrip certificates in lieu of fractional interests in such common stock of Arkla, and the distribution by Arknat of full share certificates of such common stock of Arkla in exchange for such scrip certificates when combined in proper amounts and presented at the proper time; and

(3) The merger of Arkansas Fuel Oil Company into Arknat, which will continue as the surviving corporation with the change of its name to Fuel Oil and, as part of such merger, the conversion of the outstanding 3,522,271-¼ shares of Class A stock and the outstanding 4,080,801 shares of common stock of Arknat, together with 147 shares of common stock of Arknat held in reserve for exchange for common stock of a predecessor company, into 3,801,609 shares of common stock of the par value of $5 per share of Fuel Oil in the ratio of one-half share of such common stock of Fuel Oil for each of said shares of Class A stock and common stock of Arknat, and the issuance of registered or bearer scrip certificates in lieu of fractional interests in such common stock of Fuel Oil and of full share certificates of such common stock in exchange for such scrip certificates when combined in proper amounts and presented at the proper time,

all as provided in the plan approved herein, are necessary and appropriate to the integration and simplification of the holding company system of which Cities, Arknat, Arkla and Arkansas Fuel Oil Company are members, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the act within the meaning of sections 371, 373 (a) and 1808 (f) of the Internal Revenue Code, as amended.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2939]

TEXAS UTILITIES CO.

NOTICE REGARDING ACQUISITION OF SECURITIES OF NEWLY ORGANIZED SUBSIDIARY COMPANY

OCTOBER 1, 1952.

In the matter of Texas Utilities Company; File No. 70-2939.

Notice is hereby given that an application has been filed with this Commission by Texas Utilities Company ("Texas Utilities"), an exempt registered holding company, pursuant to the Public Utility Holding Company Act of 1935 ("act"). Sections 9 (a) (2) and 10 of the act have been designated as being applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

On April 5, 1950, the Commission issued its findings, opinion and order granting Texas Utilities and each of its subsidiary companies, as such, an exemption pursuant to section 3 (a) (1) of the act from all the provisions of the act except with respect to section 9 (a) (2) thereof among certain other exceptions.

Texas Utilities proposes to organize a new corporation under the laws of the State of Texas and to acquire for $500 in cash five shares (being all the shares) of the capital stock, par value $100 per share, of such company. The new company would be named Industrial Generating Co.

Texas Power & Light Company ("Texas Power"), a subsidiary company of Texas Utilities, has entered into contracts with the Aluminum Company of America ("Alcoa") under which Texas Power will construct in its service area near Sandow, Texas a new electric generating plant and transmission line for the account of Alcoa, operate such plant and certain lignite mines for Alcoa's account, and exchange emergency and standby power and energy with Alcoa. The Industrial Generating Co., on a non-profit basis, would contract with Texas Power to perform the obligations of Texas Power to Alcoa imposed by the contract between the latter two named companies to operate Alcoa's generating plant. It is stated that the financial statements of Texas Power would be substantially distorted if there is incorporated therein the operating costs of Alcoa's generating plant with the items making up the costs of its regular normal operations. It is submitted that the newly organized company, which would operate Alcoa's generating plant, would avoid such distortion and simplify operations under the operating agreement between Alcoa and Texas Power.

It is represented that no fees or commissions are to be paid in connection with the organization of Industrial Generating Co. and that the transactions here involved are not subject to the jurisdiction of any state commission.

Notice is further given that any interested person may, not later than October 16, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, of any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after October 16, 1952, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-10868; Filed, Oct. 7, 1952; 8:46 a. m.]

[File No. 70-2941]

PHILADELPHIA CO.

NOTICE OF FILING REGARDING PROPOSED STABILIZATION

OCTOBER 2, 1952.

In the matter of Philadelphia Company; File No. 70-2941.

Notice is hereby given that an application has been filed pursuant to the act and to the rules and regulations promulgated thereunder by Philadelphia Company ("Philadelphia"), a registered holding company. The application designates sections 9 and 10 of the act and Rule U-44 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized below:

At the present time Philadelphia owns $6,354,000 principal amount of Twenty Year 3⅜ percent Sinking Fund Debentures, due March 1, 1970, of Equitable Gas Company ("Equitable"), a former utility subsidiary of Philadelphia. This Commission by order dated June 1, 1948, as supplemented by its order of March 14, 1950, has directed Philadelphia to divest itself of all securities of Equitable owned by Philadelphia. Philadelphia has notified the Commission, pursuant to Rule U-44 (c), that it intends to sell these debentures to non-affiliated interests under competitive conditions.

Bids for the debentures will be invited by a newspaper advertisement which will provide that interested persons shall notify Philadelphia of their desire for an opportunity to purchase said debentures. Thereafter Philadelphia will advise all such persons of the conditions of sale and the time for submitting bids, which time shall not be less than twenty-four hours after such advice has been given.

The sale of these debentures is not part of the instant application. Philadelphia in the instant application seeks permission to acquire debentures of Equitable by purchases on the over-the-counter market, if, in the judgment of Philadelphia's officers, such purchases are necessary or advisable to facilitate the intended sale by stabilizing the market price thereof. Purchases by Philadelphia will be made only during the period beginning on the third full business day prior to the opening of bids for the purchase of debentures and ending at the time of such opening.

The filing states that all debentures which are acquired through these stabilization operations will be promptly disposed of by Philadelphia after appropriate notice to the Commission.

It is represented in the application that no fees or commissions or underwriting spread will be paid or allowed except customary brokerage fees or commissions to be paid by Philadelphia in connection with purchases made by it for stabilization purposes. Expenses in connection with such transactions are estimated at $1,000, of which the major portion will be fees and expenses of counsel.

Philadelphia requests that the Commission's order herein become effective

forthwith upon issuance by the Commission.

Notice is further given that any interested person may, not later than October 15, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such application as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Delegation of Authority No. 76]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER SECTIONS 6 AND 7 OF THE GCPR

By virtue of the authority vested in me as Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Delegation of Authority is hereby issued.

1. *Authority to act under sections 6 and 7 of the GCPR.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization:

(a) To act under sections 6 and 7 of the GCPR, in respect to all matters referred to therein pertaining to applications and reports submitted by wholesalers, retailers and suppliers of services;

(b) To act under sections 6 and 7 of the GCPR, in respect to all matters referred to therein pertaining to applications and reports submitted by manufacturers whose total gross sales for the last complete fiscal year of commodities manufactured were less than $250,000, and those submitted by new manufacturers who have not yet completed a fiscal year but who do not expect the total gross sales of their manufactured commodities to reach $250,000 during the first complete fiscal year;

(c) To act on any application or report under sections 6 and 7 of the GCPR, specifically referred for action by the National Office.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This delegation of authority shall take effect on October 11, 1952.

JOSEPH H. FREEHILL, *Acting Director of Price Stabilization.*

OCTOBER 6, 1952.

DIRECTORS OF DISTRICT OFFICES, REGION I, BOSTON, MASS.

REDELEGATION OF AUTHORITY TO ACT ON APPLICATIONS PERTAINING TO CERTAIN ITEMS OF SAUSAGE UNDER SECTIONS 9 AND 10 OF GCPR, SR 34, REVISED

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization No. I, and pursuant to Delegation of Authority No. 35, Amendment 1 (17 F. R. 8201) this amendment to Redelegation of Authority No. 19 (17 F. R. 98) is hereby issued.

1. *Authority to act under section 10 of Revised Supplementary Regulation to the GCPR.* Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region I, to accept filings under section 10 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation.

2. *Authority to act under section 9 of Revised Supplementary Regulation to the GCPR.* Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region I, to request further information, pursuant to section 9 of Revised Supplementary Regulation 34, to the General Ceiling Price Regulation, with respect to any ceiling price granted, reported or proposed pursuant to Supplementary Regulation 34 to the General Ceiling Price Regulation, issued June 12, 1951, or to Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, except as to an adjusted ceiling price requested under section 5 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, and at any time to disapprove or revise, pursuant to section 9 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, any such granted, reported, or proposed ceiling price in order to bring it in line with the general level of prices prevailing under Revised Supplementary Regulation 34.

This Amendment 1 to Redelegation of Authority No. 19 shall take effect as of September 24, 1952.

[Region VIII, Redelegation of Authority No. 28, Amdt. 2]

DIRECTORS OF DISTRICT OFFICES, REGION VIII, MINNEAPOLIS, MINN.

REDELEGATION OF AUTHORITY TO TAKE CERTAIN ACTIONS UNDER DR 1, REVISION 1

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization Region VIII, pursuant to Amendment 2 to Delegation of Authority No. 11, Revision 1, dated September 15, 1952 (17 F. R. 8312), this Amendment 2 to Redelegation of Authority No. 28 (17 F. R. 2585) is hereby issued.

1. Section 1 (b) of Redelegation of Authority No. 28 is amended to read as follows:

(b) To deny, request further information, or take such other action as the National Office may direct with respect to applications made under sections 15 (a), 16, 19 (a), or 19 (b) (1), (2), and (4) of Distribution Regulation 1, Revision 1, by persons who are, wish to be, or desire an adjustment as Class 2 or Class 2A slaughterers.

2. Section 1 (c) of Redelegation of Authority No. 28 is amended to read as follows:

(c) To grant, deny, request further information, or take such other action as the National Office may direct with respect to applications made by Class 2 or Class 2A slaughterers under sections 9, 13, 14, 15 (b), 19 (b) (3), or 19 (b) (5) of Distribution Regulation 1, Revision 1.

This Amendment 2 to Redelegation of Authority No. 28 shall take effect as of September 24, 1952.

LOUIS G. DENAYER,
Acting Regional Director, Region VIII.

DIRECTORS OF DISTRICT OFFICES, REGION XII, SAN FRANCISCO, CALIF.

REDELEGATION OF AUTHORITY TO TAKE CERTAIN ACTIONS UNDER DR 1, REVISION 1

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization No. XII, pursuant to Delegation of Authority 11, Revision 1, as amended (17 F. R. 2145, 7195, 8312), Redelegation of Authority No. 38, as amended (17 F. R. 2947, 4132, 4866, 7798) is amended to read as follows:

Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region XII:

(a) To request further information or to take other appropriate action with respect to statements, reports, notices or forms filed by Class 2 or Class 2A slaughterers under sections 9 (a), 12 (f) or 17 (b), or with respect to certificates filed under section 12 (e), of Distribution Regulation 1, Revision 1.

(b) To deny, request further information, or take such other action as the National Office may direct with respect to applications made under sections 15 (a), 16, 19 (a), or 19 (b) (1), (2), and (4) of Distribution Regulation 1, Revision 1, by persons who are, wish to be, or desire an adjustment as Class 2 or Class 2A slaughterers.

(c) To grant, deny, request further information or take such other action as the National Office may direct with respect to applications made by Class 2 or Class 2A slaughterers under sections 9, 13, 14, 15 (b), 19 (b) (3), or 19 (b) (5) of Distribution Regulation 1, Revision 1.

(d) To grant, deny, request further information or take other appropriate action with respect to applications made under section 12 (c) of Distribution Regulation 1, Revision 1.

(e) To grant relief, pursuant to section 19 of Distribution Regulation 1, Revision 1, in the form of registration as a Class 2 slaughterer, to a person who, prior to December 16, 1951, filed an application under section 4 of the old Distribution Regulation 1, issued February 9, 1951, and who meets the criteria for registration specified in that section.

(f) To take appropriate action with respect to Class 2 or Class 2A slaughterers under sections 8 (b), 9 (b) and 20 (d) of Distribution Regulation 1, Revision 1.

(g) To grant relief, pursuant to section 19 (c) of Distribution Regulation 1, Revision 1, in the form of permission to a registered Class 2 or Class 2A slaughterer to have swine slaughtered for him temporarily by a Class 1 slaughterer, where and for so long as epidemic conditions make such relief necessary. This paragraph is effective for the duration of the epidemic of vesicular exanthema in existence on August 1, 1952.

This amendment shall take effect as of September 28, 1952.

[Vesting Order 19027]

KARL ALBRECHT

In re: Stock owned by and debt owing to the personal representatives, heirs, next of kin, legatees and distributees of Karl Albrecht, deceased. F-28-31992.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Karl Albrecht, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947 were residents of Germany, are and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Ten (10) shares of no par value common capital stock of Parmelee Transportation Company, 300 North Desplaines Street, Chicago 6, Illinois, a corporation organized under the laws of the State of Delaware, evidenced by a certificate numbered NC 09117, dated October 8, 1930, registered in the name of Karl Albrecht, and presently in the custody of Schroder Trust Company, 57 Broadway, New York 15, New York, together with all declared and unpaid dividends thereon,

b. That certain debt or other obligation of Schroder Trust Company, 57 Broadway, New York 15, New York, arising out of the receipt of cash dividends derived from the shares of stock described in the aforesaid subparagraph 2-a hereof, constituting the sum of money on deposit with said Schroder Trust Company, in an account, entitled Karl Albrecht, maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of Karl Albrecht, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons referred to in subparagraph 1 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 1, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General,
Director, Office of Alien Property.

FEDERAL REGISTER

VOLUME 17 · NUMBER 198

Washington, Thursday, October 9, 1952

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 722—COTTON

PROCLAMATION RELATING TO NATIONAL MARKETING QUOTA AND NATIONAL ACREAGE ALLOTMENT FOR THE 1953 CROP OF UPLAND COTTON

Sec.
722.401 Basis and purpose.
722.402 Findings and determinations with respect to a national marketing quota for the 1953 crop of upland cotton.
722.403 National acreage allotment for the 1953 crop of upland cotton.

AUTHORITY: §§ 722.401 to 722.403 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 342, 344, 347, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1342, 1344, 1347.

§ 722.401 *Basis and purpose.* (a) This proclamation is issued to announce findings made by the Secretary of Agriculture with respect to the total supply and the normal supply of upland cotton for the marketing year beginning August 1, 1952, and to proclaim whether, upon the basis of such findings, a national marketing quota and a national acreage allotment for the 1953 crop of upland cotton are required under the provisions of the Agricultural Adjustment Act of 1938, as amended. Section 342 of the said act provides, in part, that, whenever during any calendar year the Secretary determines that the total supply of upland cotton for the marketing year beginning in such calendar year will exceed the normal supply for such marketing year, the Secretary shall proclaim such fact and a national marketing quota shall be in effect for the crop of upland cotton produced in the next calendar year. Whenever a national marketing quota is proclaimed, the Secretary is required by section 344 (a) of the said act to determine and proclaim a national acreage allotment for the crop of upland cotton to be produced in the next calendar year. The act further provides that the proclamation with respect to a national marketing quota shall be made not later than October 15 of the calendar year in which the determinations relating thereto are made.

(b) The term "cotton" and the data appearing in § 722.402 do not include extra long staple cotton covered by section 347 (a) of the said act or similar types of such cotton which are imported.

(c) The terms "total supply," "carry-over," and "normal supply," as they relate to all cotton, are defined in section 301 of the said act as follows:

"Total supply" of cotton for any marketing year shall be the carry-over at the beginning of such marketing year, plus the estimated production of cotton in the United States during the calendar year in which such marketing year begins and the estimated imports of cotton into the United States during such marketing year.

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand in the United States at the beginning of such marketing year, not including any part of the crop which was produced in the United States during the calendar year then current.

"Normal supply" of cotton for the marketing year shall be the estimated domestic consumption of cotton for any marketing year for which such normal supply is being determined, plus the estimated exports of cotton for such marketing year, plus 30 per centum of the sum of such consumption and exports as an allowance for carry-over.

(d) The findings and determinations made by the Secretary are contained in § 722.402 and have been made on the basis of the latest available statistics of the Federal Government. Prior to making such findings and determinations, notice was published in the FEDERAL REGISTER (17 F. R. 8159) that the Secretary was preparing to examine the supply situation to determine if quotas were required under the act and that any interested person might express his views in writing with respect thereto, postmarked not later than 20 days from the date of publication of the notice, which was September 10, 1952. All written expressions submitted pursuant to such notice have been duly considered in connection with making the findings and determinations.

§ 722.402 *Findings and determinations with respect to a national marketing quota for the 1953 crop of upland cotton—(a) Total supply.* The total

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

supply of upland cotton for the marketing year beginning August 1, 1952 (in terms of running bales or the equivalent), is 16,451,000 bales, consisting of (1) a carry-over on August 1, 1952, of 2,682,000 bales, (2) estimated production from the 1952 crop of 13,684,000 bales, and (3) estimated imports into the United States during the marketing year beginning August 1, 1952, of 85,000 bales.

(b) *Normal supply.* The normal supply of upland cotton for the marketing year beginning August 1, 1952 (in terms of running bales or the equivalent), is 18,083,000 bales, consisting of (1) estimated domestic consumption for the marketing year beginning August 1, 1952, of 9,410,000 bales, (2) estimated exports during the marketing year beginning August 1, 1952, of 4,500,000 bales, and (3) 30 percent of the sum of subparagraphs (1) and (2) of this paragraph as an allowance for carry-over, or 4,173,000 bales.

(c) *National marketing quota.* It is hereby determined and proclaimed that the total supply of upland cotton for the marketing year beginning August 1, 1952, will not exceed the normal supply for such marketing year. Therefore, a national marketing quota shall not be in effect for the crop of upland cotton produced in the calendar year 1953.

§ 722.403 *National acreage allotment for the 1953 crop of upland cotton.* It is hereby determined and proclaimed that a national acreage allotment shall not be in effect for the crop of upland cotton produced in the calendar year 1953.

Done at Washington, D. C., this 6th day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 722—COTTON

PROCLAMATION RELATING TO NATIONAL MARKETING QUOTA AND NATIONAL ACREAGE ALLOTMENT FOR 1953 CROP OF EXTRA LONG STAPLE COTTON

Sec.
722.1001 Basis and purpose.
722.1002 Findings and determinations with respect to a national marketing quota for the 1953 crop of extra long staple cotton.
722.1003 National acreage allotment for the 1953 crop of extra long staple cotton.

AUTHORITY: §§ 722.1001 to 722.1003 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 347, 371, 52 Stat. 38, as amended, 66 Stat. 760; 7 U. S. C. 1301, 1347, 1371.

§ 722.1001 *Basis and purpose.* (a) The regulations contained in §§ 722.1001 to 722.1003 are issued to announce that no national marketing quota shall be in effect for the 1953 crop of extra long staple cotton and that no national acreage allotment for such crop will be established under the provisions of Title III of the Agricultural Adjustment Act of 1938, as amended. The term "extra long staple cotton" as used herein means the kinds of cotton described in section 347 (a) of the Agricultural Adjustment Act of 1938, as amended.

(b) Section 347 (b) of the Agricultural Adjustment Act of 1938, as amended, provides that whenever during any calendar year, not later than October 15, the Secretary of Agriculture determines that the total supply of extra long staple cotton for the marketing year beginning in such calendar year will exceed the normal supply thereof for such marketing year by more than 8 per centum, the Secretary shall proclaim such fact and a national marketing quota shall be in effect for the crop of such cotton produced in the next calendar year. Whenever a national marketing quota is proclaimed under the cotton marketing quota provisions of the act, the Secretary is also required by the act to determine and proclaim a national acreage allotment for the crop to be produced in the next calendar year.

(c) Section 371 (b) of the act authorizes the Secretary of Agriculture to dispense with marketing quotas for any agricultural commodity to which the provisions of Title III of the act are applicable if he finds after appropriate investigation that such action is necessary to meet a national emergency or an increase in export demand for the commodity.

(d) Pursuant to section 371 (b) of the act, an investigation has been made to determine whether marketing quotas should be proclaimed for the 1953 crop of extra long staple cotton. On the basis of that investigation, it is hereby found and determined that it is necessary, in order to meet the present national emergency, that marketing quotas should not be proclaimed for the 1953 crop of extra long staple cotton. Accordingly, § 722.1002 states that no marketing quotas will be in effect for the 1953 crop of extra long staple cotton, and § 722.1003 states that no national acreage allotment will be in effect for the 1953 crop of such cotton.

(e) Prior to taking the action herein, public notice was given (17 F. R. 8160) in accordance with the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary was preparing to determine whether marketing quotas are required for the 1953 crop of extra long staple cotton. The notice also stated that the Secretary had under consideration the matter of dispensing with marketing quotas under the applicable provisions of the act. All written submissions which were received within the period stated in the notice have been considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 722.1002 *National marketing quota for the 1953 crop of extra long staple cotton.* The total supply of extra long staple cotton described in section 347 (a) of the Agricultural Adjustment Act of 1938, as amended, for the marketing year beginning August 1, 1952, exceeds the normal supply of such cotton for such marketing year by more than 8 per centum. However, pursuant to section 371 (b) of the act, it has been determined that no national marketing quota shall be in effect for the crop of such cotton produced in 1953.

§ 722.1003 *National acreage allotment for the 1953 crop of extra long staple cotton.* A national acreage allotment shall not be in effect for the crop of extra long staple cotton produced in 1953.

Done at Washington, D. C., this 6th day of October 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5935; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

DEDUCTION OF STATE GASOLINE TAXES

On July 10, 1952, there was published in the FEDERAL REGISTER (17 F. R. 6200) a notice of proposed rule making to conform Regulations 111 (26 CFR Part 29) to the act of May 12, 1951, Public Law 29, 82d Congress, allowing the consumer of gasoline to deduct, for income tax purposes, State taxes on gasoline imposed on the wholesaler and passed on to the consumer. No objection to the rules proposed having been received, the amendments set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.23 (c)–1 the following:

PUBLIC LAW 29, 82D CONGRESS, APPROVED MAY 12, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 23 (c) (3) of the Internal Revenue Code (relating to deduction of retail sales taxes) is hereby amended to read as follows:

(3) *Gasoline and retail sales taxes* In the case of a tax imposed by any State, Territory, District, or possession of the United States, or any political subdivision thereof, upon persons engaged in selling tangible personal property at retail, or upon persons selling gasoline or other motor vehicle fuels either at wholesale or retail, which is measured by the gross sales price or the gross receipts from the sale or which is a stated sum per unit of such property sold, or upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services, if the amount of such tax is separately stated, then to the extent that the amount so stated is paid by the consumer (otherwise than in connection with the consumer's trade or business) to his vendor such amount shall be allowed as a deduction in computing the net income of such consumer as if such amount constituted a tax imposed upon and paid by such consumer.

SEC. 2. The amendment made by this act shall apply to taxable years beginning after December 31, 1950.

PAR. 2. Section 29.23 (c)–1, as amended by Treasury Decision 5458, approved June 15, 1945, is further amended as follows:

(A) By revising the heading and subparagraph (1) of paragraph (b) thereof to read as follows:

(b) *State and local sales and gasoline taxes.* (1) Amounts representing sales or gasoline taxes paid by a consumer of services or tangible personal property are deductible by such consumer as taxes, provided they are not paid in connection with his trade or business. The fact that, under the law imposing it, the incidence of the sales or gasoline tax does not fall on the consumer is immaterial. The requirement of section 23 (c) (3) that the amount of the tax must be separately stated will be deemed complied with where it clearly appears that, at the time of sale to the consumer, the tax was added to the sales price and collected or charged as a separate item. It is not necessary, for the purposes of this section, that the consumer be furnished with a sales slip, bill, invoice, or other statement on which the tax is separately stated. Where the law imposing the sales or gasoline tax for which the taxpayer seeks a deduction contains a prohibition against the seller absorbing the tax, or a provision requiring a posted notice stating that the tax will be added to the quoted price, or a requirement that the tax be separately shown in advertisements or separately stated on all bills and invoices, it is presumed that the amount of the sales or gasoline tax was separately stated at the time paid by the consumer; except that such presumption shall have no application to a gasoline tax imposed upon a whole-

saler unless such provisions of law apply with respect to both the sale at wholesale and the sale at retail.

(B) By adding at the end of paragraph (b) thereof the following new subparagraphs (3) and (4).

(3) For taxable years beginning after December 31, 1950, the term "gasoline tax" means, for purpose of this section, a tax imposed by such authorities upon persons selling gasoline or other motor vehicle fuels either at wholesale or retail, which is measured by the gross sales price or the gross receipts from the sale, or which is a stated sum per unit of the gasoline or fuel sold; but such term does not exclude from the definition of "sales tax", for taxable years beginning before January 1, 1951, a tax imposed by such authorities upon persons selling such products at retail.

(4) In general, the term "consumer" means the ultimate user or purchaser; it does not include a purchaser who acquires the property for resale, such as a retailer.

PAR. 3. The amendments hereby prescribed shall be applicable with respect to taxable years beginning after December 31, 1950.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: October 3, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52-10949; Filed, Oct. 8, 1952; 8:49 a. m.]

[T. D. 5937; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INAPPLICABILITY OF CERTAIN PENALTIES AND ADDITIONS TO TAX

In order to conform Regulations 111 (26 CFR Part 29) to Public Law 907 (81st Cong., 2d Sess.), approved January 2, 1951, and to section 103 of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.145–1 the following:

PUBLIC LAW 907 81ST CONGRESS, 2D SESSION, APPROVED JANUARY 2, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 145 of the Internal Revenue Code (relating to penalties with respect to failure to file returns, pay tax, etc.), is amended by relettering subsection (e) as subsection (f) and by adding after subsection (d) a new subsection (e) as follows:

(e) In the case of taxable years beginning prior to October 1, 1950, and ending after September 30, 1950, the penalties perscribed by this section shall not be applicable if the taxpayer failed to meet the requirements of section 294 (d) (2) (relating to substantial underestimate of estimated tax), by reason of the increase in normal tax and surtax on individuals imposed by section 101 of the Revenue Act of 1950.

* * * * *

SEC. 103. INAPPLICABILITY OF CERTAIN PENALTIES AND ADDITIONS TO TAX (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Penalties for failure to file return.* Section 145 (relating to penalties with respect to failure to file returns, pay tax, etc.) is hereby amended by relettering subsection (f) as subsection (g) and by adding after subsection (e) a new subsection (f) as follows:

(f) In the case of taxable years beginning prior to November 1, 1951, and ending after October 31, 1951, the penalties prescribed by this section for willful failure to make declarations of, or pay, estimated tax shall not be applicable to a failure to take into account the increase in rates of tax imposed on individuals by the Revenue Act of 1951.

* * * * *

PAR. 2. There is inserted immediately preceding § 29.294–1 the following:

PUBLIC LAW 907 (81ST CONGRESS, 2D SESSION, APPROVED JANUARY 2, 1951)

* * * * *

SEC. 2. Paragraph (2) of subsection (d) of section 294 of the Internal Revenue Code is amended by adding at the end of paragraph (2) a new sentence reading as follows: "In the case of taxable years beginning prior to October 1, 1950, and ending after September 30, 1950, the additions to tax prescribed by this subsection shall not be applicable if the taxpayer failed to meet the 80 per centum and 66⅔ per centum requirements of this paragraph by reason of the increase in normal tax and surtax on individuals imposed by section 101 of the Revenue Act of 1950."

SEC. 103. INAPPLICABILITY OF CERTAIN PENALTIES AND ADDITIONS TO TAX (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(b) *Additions to tax.* Section 294 (d) (2) (relating to additions to tax for substantial under-estimates of estimated tax) is hereby amended by adding at the end thereof a new sentence as follows: "In the case of taxable years beginning prior to November 1, 1951, and ending after October 31, 1951, the additions to tax prescribed by this subsection shall not be applicable if the taxpayer failed to meet the requirements of this paragraph by reason of the increase in rates of tax on individuals imposed by the Revenue Act of 1951."

PAR. 3. Section 29.294–1, as amended by Treasury Decision 5855, approved September 13, 1951, is further amended by adding at the end of paragraph (b) the following new undesignated paragraph:

In the case of taxable years beginning before October 1, 1950, and ending after September 30, 1950, or beginning before November 1, 1951, and ending after October 31, 1951, the provisions of this section are subject to the limitations applicable to such years provided in the amendments made to section 294 (d) (2) by Public Law 907 (81st Cong.) and section 103 (b) of the Revenue Act of 1951.

Because of the technical nature of the amendments made by this Treasury decision, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: October 6, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

Subchapter B—Estate and Gift Taxes

[T. D. 5936; Regs. 105]

PART 81—REGULATIONS RELATING TO ESTATE TAX

ESTATE TAX UNDER CHAPTER 3 OF THE INTERNAL REVENUE CODE, AS AMENDED

In order to conform Regulations 105 (26 CFR Part 81) to sections 608, 609, and 610 of the Revenue Act of 1951 (82d Cong., 1st Sess.), approved October 20, 1951, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately after section 501 of the Revenue Act of 1950 (81st Cong., 2d Sess.) and preceding section 302 (c) of the Revenue Act of 1926 (as originally enacted), which precedes § 81.15, the following:

SEC. 608. TRANSFERS WITH INCOME RESERVED (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 7 (b) of the act entitled "An Act to amend certain provisions of the Internal Revenue Code", approved October 25, 1949 (63 Stat. 895), is hereby amended by striking out "January 1, 1950" and inserting in lieu thereof "January 1, 1951".

SEC. 609. TRANSFERS TAKING EFFECT AT DEATH (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Effective with respect to estates of decedents dying after February 10, 1939, section 7 (b) of the act entitled "An Act to amend certain provisions of the Internal Revenue Code", approved October 25, 1949 (63 Stat. 895), is hereby amended by striking out the word "sentence" and inserting in lieu thereof "two sentences" and by inserting immediately preceding the last sentence thereof the following sentence: "The provisions of section 811 (c) (1) (C) of such code shall not apply to a transfer made prior to September 8, 1916." The provisions of section 7 (c) of such act, as amended, shall not apply to an overpayment resulting from the application of this section.

PAR. 2. Section 81.17, as amended by Treasury Decision 5906, approved May 27, 1952, is further amended as follows:

(A) By inserting in the first sentence of paragraph (a) after "of which he has made a transfer" the following "after September 7, 1916".

(B) By adding at the end of paragraph (a) the following: "The provisions of section 811 (c) (1) (C) are not applicable to a transfer made before September 8, 1916."

(C) By striking from the first sentence of paragraph (c) "(whether made before or after the enactment of the Revenue Act of 1916)".

PAR. 3. Section 81.18, as amended by Treasury Decision 5834, approved March 8, 1951, is further amended by striking out "January 1, 1950", wherever it appears therein, and inserting in lieu thereof, "January 1, 1951".

PAR. 4. Section 81.19, as amended by Treasury Decision 5834 is further amended by striking therefrom "January 1, 1950", wherever it appears therein, and inserting in lieu thereof "January 1, 1951".

PAR. 5. There is inserted immediately preceding § 81.25 the following:

SEC. 610. REVERSIONARY INTERESTS IN CASE OF LIFE INSURANCE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

If refund or credit of any overpayment resulting from the application of section 503 of the Revenue Act of 1950 was prevented on October 25, 1950, by the operation of any law or rule of law (other than section 3760 of the Internal Revenue Code, relating to closing agreements, and other than section 3761 of such code, relating to compromises), refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor was filed after October 25, 1949, and on or before October 25, 1950.

Because of the technical nature of the amendments made herein, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: October 6, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

Chapter II—The Tax Court of the United States

PART 701—RULES OF PRACTICE

PART 702—FORMS

MISCELLANEOUS AMENDMENTS

1. a. Section 701.48 is amended by striking subparagraph (3) of paragraph (c).

b. Paragraph (d) is amended to read as follows:

(d) Unless otherwise directed by the Court, the parties shall have 45 days from the date of the filing of the Commissioner's proposed findings of fact within which to file briefs, and 15 days additional within which to file reply briefs. Each brief shall be prepared in the manner and form prescribed in § 701.35, except that instead of following paragraph (e) (3) of that section, the parties shall state whatever exceptions they may have to the findings of the Commissioner so that they may be considered by the Division to which the case is assigned.

2. Section 701.64 is amended to read as follows:

§ 701.64 *Renegotiation of contracts cases.* (a) Except as otherwise prescribed by this section, proceedings for the redetermination of excessive profits under the Renegotiation Acts[1] shall be governed by the existing regulations in this part. Where any of the existing sections (except § 701.48) or the matter contained in the appendix refer to the Commissioner, such regulations and the matter in the appendix, when applied to a proceeding for the redetermination of excessive profits under the Renegotiation Acts, shall refer to the War Contracts Price Adjustment Board (or to the United States when substituted therefor),[2] to the Secretary as defined and used in the Renegotiation Acts, or to the Renegotiation Board. Similarly references to the taxpayer shall refer to the contractor or subcontractor; references to tax shall refer to profits under a contract or subcontract subject to renegotiation, or to excessive profits thereunder, dependent upon context; and references to the determination of a deficiency, or a notice of such determination, shall refer to the order of the Board or the Secretary determining the amount of excessive profits.

(b) (1) A proceeding for the redetermination of excessive profits under the Renegotiation Acts shall be initiated by the filing of a petition, as provided in §§ 701.4, 701.6, and the pertinent parts of § 701.7. (See § 702.2 of this chapter.)

(2) The authority making the determination of excessive profits, i. e., the appropriate Secretary, the War Contracts Price Adjustment Board (or the United States when substituted therefor)[2] or the Renegotiation Board, shall be shown as the respondent.

(3) The petition shall be complete in itself so as fully to state the issues. It shall contain:

(i) A caption in the following form:

THE TAX COURT OF THE UNITED STATES

Petitioner, v. Respondent.	}	Docket No. -------

PETITION

(ii) Proper allegations showing jurisdiction in the Court.

(iii) A statement of the amount of excessive profits determined by the Board or the Secretary, as the case may be, the period for which determined and the amount thereof in controversy. If the determination of excessive profits was made on the basis of a specific contract or contracts, the petition shall identify the contract or contracts and shall state the period covered thereby.

(iv) Clear and concise assignments of each and every error which the petitioner alleges to have been committed by the Board or the Secretary in the determination of excessive profits. Each assignment of error shall be numbered.

(v) Clear and concise numbered statements of the facts upon which the petitioner relies as sustaining the assignments of error. The allegations of fact shall contain a statement of the amount received or accrued during the period in question under the contracts or subcontracts subject to renegotiation, the costs paid or incurred with respect thereto and the profits derived therefrom, the type and character of business done, and any other facts pertinent to a determination of the error alleged.

(vi) A prayer, setting forth relief sought by the petitioner.

(vii) The signature of the petitioner or that of his counsel. (See § 701.4.)

(viii) A verification by the petitioner in accordance with the applicable provision of §701.7 (c) (4) (viii).

(ix) A copy of the notice and a copy of the order determining the amount of excessive profits, which form the basis for the initiation of the proceeding shall be appended to the petition. If a statement has been furnished to the petitioner by the renegotiating authority setting forth the facts upon which the determination of excessive profits was based and the reasons for such determination, a copy of such statement shall also be appended to the petition.

(c) Any claim for the redetermination of an amount of excessive profits greater than the amount shown in the notice of determination shall be made by the respondent in his answer filed under § 701.14, or in an amendment thereto filed under § 701.17 at or before the time of the hearing.

(d) With respect to the matter covered by § 701.60, attention is directed to section 403 (e) (1) of the Renegotiation Act and to section 108 of the Renegotiation Act of 1951.

3. Section 701.65 is added:

§ 701.65 *Bond to stay execution of order of Renegotiation Board—(a) Statute.* The Renegotiation Act of 1951 provides that execution of the order of the Renegotiation Board may be stayed by filing with the Tax Court a bond, approved as to form and in an amount fixed by the Court, within ten days after the filing of the petition. See sections 105 (a) and 108 of the Renegotiation Act of 1951. For forms of bonds see appendix, §§ 702.8a and 702.8b of this chapter.

(b) *Fixing amount of bond.* An application to fix the amount of a bond filed with the petition will be considered prima facie evidence of the proper amount of the bond if it asks that a bond be fixed:

(1) At 112 percent of the full amount of the excessive profits determined in the unilateral order on which the petition is based, or

(2) At 112 percent of an amount equal to the full amount of the excessive profits determined in that order reduced by the credit authorized by section 3806 (b) of the Internal Revenue Code, and is accompanied by a statement from the Director of Internal Revenue[3] for the district in which the return for the tax-

[1] Section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended by section 701, Revenue Act of 1943, and section 108 of the Renegotiation Act of 1951.

[2] Section 201 (h) of the Renegotiation Act of 1951, as amended by section 3, Public Law 576, 82d Congress, 2d Session, approved July 17, 1952.

[3] Internal Revenue Agent in Charge where no Director has been appointed.

able year was filed, showing the amount of the credit to which the petitioner is entitled as a result of the determination.

(3) The Court will consider other applications differing from the above, but the applicant must have in mind the short time allowed by the statute for the approval of the bond.

(c) *Sureties and collateral.* (1) The Tax Court will accept as sureties on such bonds companies holding certificates of authority from the Secretary of the Treasury (See latest U. S. Treasury Form 356).

(2) If collateral is to be deposited as security for a bond, in lieu of a surety, United States Government marketable public securities fully negotiable by the bearer, owned by the petitioner, in a sum equal at their par value to the amount of the bond to be furnished, will be acceptable. A power of attorney and agreement must accompany such securities. See §§ 702.8c and 702.8d of this chapter. For other collateral which may be furnished and documents required therewith, see 31 CFR Part 225 (Treasury Department Circular No. 154, Revised).

4. Delete § 702.8a *Power of attorney and agreement by corporate appellants* and § 702.8b *Power of attorney and agreement by individual appellants.*

5. The following new forms are adopted pursuant to the requirements of § 701.65:

§ 702.8a *Form for bond with corporate surety in renegotiation cases.* The following is a satisfactory form of bond for use in case bond with a corporate surety approved by the Treasury Department is to be furnished to stay the execution of an order of the Renegotiation Board (created by the act of March 23, 1951) involved in a petition to The Tax Court.

THE TAX COURT OF THE UNITED STATES

WASHINGTON, D. C.

Petitioner, v. Respondent.	Docket No. -------

BOND

Know all men by these presents: That we ----------, as principal, and ----------, as surety, are held and firmly bound unto the Renegotiation Board and/or the United States of America, in the sum of $-------- (see § 701.65 (b) as to amount), to be paid to the Renegotiation Board and/or the United States of America, for the payment of which well and truly to be made we bind ourselves and each of us and our successors and assigns, jointly and severally, firmly by these presents.

Signed, sealed and dated this ------ day of ----------, 19----.

Whereas, the Renegotiation Board by its order dated ---------- determined that the above-named principal derived excessive profits from contracts and subcontracts subject to renegotiation, during the fiscal year ended ----------, in the amount of $--------; and

Whereas, said principal has filed or is about to file a petition in The Tax Court of the United States for a redetermination of the amount of the aforesaid excessive profits.

Now, therefore, the conditions of this obligation is such that if the above-named principal shall well and truly pay the amount of profits adjudged by The Tax Court of the United States to be excessive, less any tax credit applicable thereto under section 3806 of the Internal Revenue Code, with interest thereon as required by law, or if said principal, in the event that said proposed proceeding in The Tax Court of the United States is not timely filed, or after filing is dismissed or otherwise concluded without an adjudication by said Court as to the amount of excessive profits, shall well and truly pay the amount of profits determined by the Renegotiation Board to be excessive by its said order dated ---------- less any tax credit applicable thereto under section 3806 of the Internal Revenue Code, with interest thereon as required by law, then this obligation shall be void; otherwise it shall be and remain in full force and effect.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 1, Revision 1, Amdt. 5]

CPR 1—NEW PASSENGER AUTOMOBILES

NEW PRODUCT CEILINGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 5 to Ceiling Price Regulation 1, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment revises the provisions of CPR 1, Revision 1 applying to new products. Delays have been encountered in the processing of applications for the establishment of ceiling prices for new passenger automobiles and items of optional equipment, because of the necessity for requesting additional information from the applicant. The revision of section 10 introduces OPS Public Form 149 for the use of manufacturers seeking to establish ceiling prices for items of extra, special or optional equipment not produced on the base date. It is expected that the use of such forms will greatly expedite the processing of applications covering such new equipment.

In the opinion of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this amendment there has been consultation with the industry representatives, including trade representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

CPR 1, Revision 1, is amended in the following respects:

1. Section 10 is amended to read as follows:

SEC. 10. *Ceiling prices for new products*—(a) *New automobiles.* If you produce a new automobile not a counterpart of any body style, line or series produced or sold on or after the base date, you must apply to the Office of Price Stabilization for an order establishing a ceiling price for your product. Your application must be filed with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and contain the following information:

(1) A description of the new automobile for which a ceiling price is sought, with a statement justifying your classification as a new automobile, not a counterpart, within the meaning of this regulation. This description should give details of the body styles to be produced; the engine, including the manufacturer, number of cylinders, horsepower rating, bore and stroke; wheelbase and overall length; weight; tire size; type of automatic drive, if any; a description of the body styling; any other information you feel pertinent.

(2) A detailed statement of the total unit costs of the automobile as of the time of the application, including your direct materials and labor costs, factory overhead, tool amortization, selling, and general and administrative expense. If any of these costs are estimated this must be indicated, with the basis for arriving at your estimate.

(3) A description of the automobile you manufacture and consider most similar to the new automobile and for which you have a ceiling price, a detailed statement of the total unit costs as of the date of your application pursuant to this section, including your direct materials and labor costs, factory overhead, tool amortization, selling, and general and administrative expense (if any of these costs are estimated this must be indicated, with the basis for arriving at your estimate), and the selling price to each class of purchaser as of the time the application is submitted, for the similar automobile.

(4) If your method of allocating factory overhead, selling, and general and administrative expense reported under subparagraph (2) above is different from your method of allocating such costs reported under subparagraph (3) above, an explanation of why the methods do not conform.

(5) Any proposed suggested list price or factory retail price, discounts and net prices applicable to each class of purchaser, and all extra charges and deductions applicable to such item, such as transportation charges, delivery and handling charges, allowances for excise taxes.

You may indicate in your announcements of such list or retail prices, that the suggested prices incorporated therein reflect suggested markups no higher than those of the most similar commodities manufactured by you in effect during the periods May 24, 1950, to June 24, 1950, or January 26, 1951, to February 24, 1951.

(b) *New extra, optional or special equipment.* If you produce any item of extra, optional or special equipment not produced or sold by you on the base date you must apply to the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., for the establishment of a ceiling price. Your application must be made on OPS Form 149 in duplicate.

(c) *Action on your application.* On the basis of the information submitted the Director will establish ceiling prices for your product in line with ceiling prices established under Section 4 of this regulation.

2. Section 11 (a) (2) is amended to read as follows:

(2) Any proposed suggested list price or factory retail price and the discounts and net prices in effect to all classes of purchasers.

You may indicate in your announcements of such list or retail prices, that the suggested prices incorporated therein reflect suggested markups no higher than those of the most comparable commodities manufactured by you in effect during the periods May 24, 1950, to June 24, 1950, or January 26, 1951, to February 24, 1951.

3. Section 12 is amended by the addition of the following subsection:

(c) Within 10 days after the effective date of this amendment, you are required to file with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., 2 copies of each current bulletin and notice which you issued or caused to be issued to dealers and/or distributors showing current suggested list prices and/or current factory retail prices of all automobiles, and factory-installed special, extra and optional equipment which you sell. Thereafter, in the event you shall issue or cause to be issued any additional bulletins or notices to dealers and/or distributors changing, modifying, correcting or stating new suggested list prices and/or factory retail prices of any automobiles, and factory-installed special, extra or optional equipment which you are then selling, you are required to file with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., 2 copies of such bulletins and/or notices at the time you issue or cause such bulletins or notices to be issued.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 8, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 8, 1952.

[F. R. Doc. 52-11005; Filed, Oct. 8, 1952; 11:05 a. m.]

[Ceiling Price Regulation 22, Amdt. 56]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

MISCELLANEOUS AMENDMENTS CONCERNING REPAIR AND REPLACEMENT PARTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 56 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds a paragraph to section 1 of CPR 22 to give manufacturers the election of determining their ceiling prices under Supplementary Regulation 36 to CPR 22, which is being issued simultaneously herewith, for repair and replacement parts they manufacture, if they also manufacture the assembled article in which such parts are used. They may elect to use Supplementary Regulation 36 for their parts if the ceiling prices for the assembled articles were determined under CPR 22 or Supplementary Regulations 2, 17, or 18, thereto, and if the ceiling prices of the repair and replacement parts are not covered by CPR 30. If they use the supplementary regulation for more than 10 percent of the total number of parts they manufacture, they must use it for all of their repair and replacement parts covered by the supplementary regulation.

Because of the wide coverage of this amendment and its technical nature, it was impracticable to consult formally with industry and trade association representatives, However, a number of individual views, expressed informally to this Agency, were taken into consideration in issuing this amendment.

AMENDATORY PROVISIONS

Ceiling Price Regulation 22 is hereby amended in the following respects:

1. Section 1 is amended by the addition of the following paragraph (c):

(c) You may elect to determine ceiling prices under Supplementary Regulation 36 to this regulation for repair and replacement parts manufactured by you if you are also the manufacturer of the assembled articles in the repair of which such parts are used and ceiling prices for the assembled articles were established under either this regulation or one of the supplementary regulations thereto. This election does not apply, however, to repair and replacement parts covered by CPR 30 (Machinery and Related Manufactured Goods). If you elect to use Supplementary Regulation 36 for more than 10 percent of the total number of repair and replacement parts manufactured by you and listed on your parts price list which was in effect on the date of issuance of Supplementary Regulation 36 (or if you have no parts price list, the total number of repair and replacement parts manufactured by you which you offered for sale on that date), you must use Supplementary Regulation 36 for all of your repair and replacement parts covered by Supplementary Regulation 36.

2. Paragraph (b) (5) of Appendix A is amended by the addition of the following sentence: "However, you may elect to determine ceiling prices under Supplementary Regulation 36 to this regulation for such repair and replacement parts under the conditions set out in that supplementary regulation."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 56 to Ceiling Price Regulation 22 is effective October 13, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 8, 1952.

[F. R. Doc. 52-11004; Filed, Oct. 8, 1952; 4:00 p. m.]

[Ceiling Price Regulation 22, Supplementary Regulation 36]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 36—REPAIR AND REPLACEMENT PARTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation permits manufacturers of repair and replacement parts used in assembled articles, the ceiling prices of which have been determined under CPR 22, or under one of the supplementary regulations thereto, to establish ceiling prices for any of these parts based upon the adjustments previously computed for the assembled articles. This supplementary regulation has no application to repair or replacement parts covered by CPR 30 (Machinery and Related Manufactured Goods).

Ceiling Price Regulation 22, the Manufacturers' General Ceiling Price Regulation, as originally issued, excluded from its coverage repair and replacement parts made by the manufacturer of the assembled articles in which such parts were to be used. These repair and replacement parts remained under the General Ceiling Price Regulation.

This regulation will permit manufacturers of repair and replacement parts affected by it to determine ceiling prices for these parts upon the basis of the same principles as underlie the ceiling prices established for the finished article under CPR 22.

Use of this supplementary regulation is optional until a manufacturer has established ceiling prices under it for 10 percent of the total number of repair and replacement parts he manufactures. Once he has brought 10 percent of such parts under this supplementary regulation, he must, if he wishes to use it for additional repair and replacement parts, use it for all of his repair and replacement parts covered by this supplementary regulation.

Because of the number of repair and replacement parts which may be included within a single assembled article, and for other reasons, it has been decided not to require a manufacturer to make new calculations in order to determine the ceiling prices of his parts but to permit him to use the calculations already made in determining the ceiling price of the assembled article in which the parts are used. Under this supplementary regulation a manufacturer adjusts the prices of his repair and replacement parts in the same manner as he adjusted the price of the assembled articles. That is to say, he uses the same factors or price adjustment ratio. Where the part is used in more than one assembled article and these articles do not all have the same factors or price adjustment ratio, the manufacturer will use the factors or ratios applicable to the best selling group of assembled articles.

Adjusted ceiling prices for repair and replacement parts introduced since the pre-Korean base period, but before the effective date of this supplementary regulation, may be calculated by reference to the adjusted ceiling prices of the base period commodities in accordance with the pricing techniques established by CPR 161 (Consumer Durable Goods Regulation).

Because of the wide coverage of this supplementary regulation and its technical nature, it was impracticable to consult formally with industry and trade association representatives. However, a number of individual views expressed informally to this Agency, were taken into consideration in issuing this supplementary regulation. In the judgment of the Director the provisions of this supplementary regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with all the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. Coverage of this supplementary regulation.
2. Ceiling prices for base period parts.
3. Ceiling prices for new parts.
4. Modification of ceiling prices by the Director of Price Stabilization.
5. Relationship of this supplementary regulation to CPR 22 and CPR 161.
6. Relationship of this supplementary regulation to GOR 20 and GOR 21.
7. Records.
8. Definitions.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SEC. 1. *Coverage of this supplementary regulation.* This supplementary regulation provides a method by which manufacturers who have established ceiling prices for assembled articles under CPR 22, or under one of the supplementary regulations to CPR 22, may establish ceiling prices replacing GCPR ceiling prices for their repair and replacement parts manufactured and sold by them for use in such articles. This supplementary regulation may not be used for repair and replacement parts covered by CPR 30 (Machinery and Related Manufactured Goods). You may elect to use either this supplementary regulation or the GCPR, but if you elect to use this supplementary regulation for more than 10 percent of the total number of repair and replacement parts manufactured by you and listed on your parts price list in effect on the date of issuance of this supplementary regulation (or if you have no parts price list, of the total number of repair and replacement parts manufactured by you which you offered for sale on that date), you must use this supplementary regulation for all of your repair and replacement parts covered by this supplementary regulation.

SEC. 2. *Ceiling prices for base period parts.* (a) You determine your ceiling price for a base period part under this section. A base period part is a repair replacement part which was sold or offered for sale during the same base period as you employed to determine the ceiling price of the assembled article in which it is used.

(b) Your ceiling price for a base period part is your base period price for the part adjusted in the same manner as you adjusted the base period price of the assembled article in which it is used, or if you used SR 2 to CPR 22 to determine the ceiling price of the assembled article, your ceiling price for the part is the GCPR ceiling price adjusted in the same manner you adjusted the GCPR ceiling price of the assembled article. That is to say, you use the same labor cost adjustment factor, materials cost adjustment factor, overhead factors or price adjustment ratio as you used in establishing the ceiling price of the assembled article under CPR 22 or under one of the supplementary regulations to CPR 22. If, however, you computed your materials cost adjustment for the assembled article by Method 2 (Individual Commodity method) or if you use the same part in a number of assembled articles, you will first have to follow the rules laid down in paragraph (c) or (d) of this section, whichever is applicable, before you calculate a ceiling price for the part under this paragraph.

(c) If you used Method 2 (Individual Commodity method) to calculate your materials cost adjustment for the assembled article, divide the materials cost adjustment determined for the assembled article by its base period price. This gives you your materials cost adjustment factor to be used in determining the ceiling price for the part.

(d) If the same part is used in more than one assembled article and these articles do not all have the same factors or price adjustment ratios, determine which portion of your business during the last complete fiscal year ending not later than December 31, 1950 produced the greatest number of assembled articles sold. By "portion of your business" is meant the group of commodities having the same factors or price adjustment ratios. (It may be, depending upon your method of calculating ceiling prices of the assembled commodities, an individual commodity, a product line, a category or a unit of your business.) Then use the factors or ratio applicable to the assembled articles produced in that portion of your business.

EXAMPLES

(a) The No. 2 driveshaft that you manufacture is used in your deluxe outboard motor. You calculated your ceiling price for this motor under CPR 22. Your labor cost adjustment factor for this motor calculated under section 8 was 2.3 percent and your materials cost adjustment factor calculated under Method 1 (section 13 of CPR 22) was 4.8 percent, a total of 7.1 percent. Your base period price for the No. 2 driveshaft was $3.50; $3.50 times 7.1 percent gives you $0.24850; $3.50 plus 0.24850 is $3.749, which when rounded as permitted by section 25 of CPR 22, becomes $3.75. This is your ceiling price under this supplementary regulation for your No. 2 driveshaft.

(b) Assume the same facts as above except that the ceiling price of your deluxe outboard motor was calculated under SR 17 to CPR 22. Assume also that the base period price of the No. 2 driveshaft and the labor and materials cost adjustment factors for the deluxe outboard motor were the same under CPR 22 and SR 17. The 1950 overhead cost adjustment factor was 36.48 percent and the 1951 overhead cost adjustment factor was 38.22 percent. The 1950 overhead period price of the No. 2 driveshaft was $3.50 and the 1951 overhead period price was $3.65. Your labor and materials cost adjustment for the No. 2 driveshaft is $0.24850 ($3.50 times 7.1 percent); $3.50, the 1950 overhead period price of the part, multiplied by 36.48 percent, the 1950 overhead cost adjustment factor is $1.28, which is your total 1950 unit overhead for the No. 2 driveshaft; $3.65, your 1951 overhead period price, multiplied by 38.22 percent, the 1951 overhead cost adjustment factor, gives you $1.40, your total 1951 unit overhead; $1.40 minus $1.28 is $0.12. This is your overhead adjustment. $0.12, your overhead adjustment, and $0.25, your labor and materials cost adjustment, results in a total adjustment of $0.37, which, when added to your base period price of $3.50 gives you a ceiling price under this supplementary regulation for your No. 2 driveshaft of $3.87.

(c) Assume the same facts as (a) above, except that the materials cost adjustment of the deluxe outboard motor was $7.50, computed under section 14 of CPR 22 (Method 2), and the base period price of the motor was $156.45. You derive a materials cost adjustment factor for the No. 2 driveshaft by dividing the materials cost adjustment of $7.50 by the base period price of the motor, $156.45. The result is 4.8 percent. Your ceiling price for your No. 2 driveshaft is then calculated just as in Example (a) above.

(d) Now assume that the facts are the same as in paragraph (a) except your No. 2 driveshaft was designed to be used in your economy, standard and deluxe outboard motors and your materials cost adjustment was calculated separately under Method 2 for each motor. During your last complete fiscal year, ending not later than December 31, 1950, you sold 3,000 economy motors, 4,000 standard motors and 5,000 deluxe motors. You use the factors applicable to

your deluxe motors to calculate the ceiling price of the No. 2 driveshaft.

(e) Lastly, assume you manufacture a plastic knob that had a GCPR ceiling price of $0.024 and which is sold interchangeably as a part for commodities in your product lines "toys", "kitchen utensils" and "hardwares", each of which have separate price adjustment ratios computed under SR 2 to CPR 22 of 102.5, 102, and 101 percent, respectively. You sold 4,000 "toys", 3,000 "kitchen utensils" and 2,000 "hardwares" in the last complete fiscal year ending prior to December 31, 1950. You use the SR 2 price adjustment ratio applicable to toys to determine your new ceiling price for plastic knobs. $0.024 multiplied by 102.5 percent is 0.025 when rounded as permitted by section 25. $0.025 is your ceiling price for this plastic knob under this supplementary regulation.

SEC. 3. *Ceiling prices for new parts.* You determine your adjusted ceiling prices for new repair and replacement parts in accordance with CPR 161 (Consumer Durable Goods Regulation). A new repair or replacement part is one first offered for sale by you since the base period employed by you to determine the ceiling price of the assembled article in which it is used. Sections 3, 4 and 5 of CPR 161 require you to determine a ceiling price by reference to the ceiling price of "comparison commodities". In applying sections 3, 4 and 5, use as the ceiling prices of the "comparison commodities" the adjusted ceiling prices determined under this supplementary regulation.

SEC. 4. *Modification of ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or revise downward ceiling prices proposed to be used, or being used, under this supplementary regulation so as to bring them into line with the level of ceiling prices otherwise established or direct you to continue using your GCPR ceiling prices until further notice.

SEC. 5. *Relationship of this supplementary regulation to CPR 22 and CPR 161.* If you elect to use this supplementary regulation for any of your repair or replacement parts, the provisions of CPR 22 and the supplementary regulations thereto, except their reporting provisions and those provisions which are inconsistent with this supplementary regulation, become applicable to you in establishing your ceiling prices for any base period parts covered by your election. All the provisions of CPR 161, including its reporting provisions, which are not inconsistent with this supplementary regulation become applicable to you, if they are not yet applicable, in establishing your ceiling prices for any new commodities covered by your election. Note that you are not required to file OPS Public Forms 8, 100 or 105 for your base period repair and replacement parts. You are, however, required to file OPS Public Forms 142 to 147 for any new repair or replacement parts where required by CPR 161.

SEC. 6. *Relationship of this supplementary regulation to GOR 20 and GOR 21.* Issuance of this supplementary regulation has no effect upon applications for adjusted ceiling prices under GOR 20 and GOR 21. You may continue to apply under these regulations for the adjustment of your GCPR ceiling prices for repair and replacement parts. If you have already applied for and received adjusted ceiling prices under GOR 20 or GOR 21, you may continue to use them or you may elect to establish ceiling prices for these parts under this supplementary regulation.

SEC. 7. *Records.* With respect to any commodity covered by this supplementary regulation, you shall prepared and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter all records necessary to determine whether you have computed your ceiling prices correctly, including records showing base period prices, or ceiling prices under the General Ceiling Price Regulation if you use a price adjustment ratio computed under SR 2 to CPR 22, and worksheets showing how you computed and applied your cost adjustment factors or price adjustment ratios to the commodities covered by this supplementary regulation.

SEC. 8. *Definitions.* All terms have the same meaning as in CPR 22 except where otherwise noted.

(a) "Assembled article" means a commodity covered by CPR 22 in which the repair and replacement part is designed to be used.

(b) "Base period assembled article" means an assembled article sold or offered for sale during the base period of whatever regulation you used in determining the ceiling price of the assembled article.

(c) "CPR 22" means Ceiling Price Regulation 22.

(d) "Factors" means the labor, materials, and overhead cost adjustment factors determined under CPR 22 or SR 17 or 18 to CPR 22 for your assembled articles.

(e) "GCPR" means General Ceiling Price Regulation.

(f) "Part" means a repair or replacement part covered by this supplementary regulation.

(g) "Price adjustment ratio" is the price adjustment ratio established under SR 2 to CPR 22 for your assembled articles.

(h) "SR 17" means Supplementary Regulation 17 to CPR 22.

(i) "SR 18" means Supplementary Regulation 18 to CPR 22.

Effective date. This supplementary regulation is effective October 13, 1952.

NOTE: The record-keeping and reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 8, 1952.

[F. R. Doc. 52-11003; Filed, Oct. 8, 1952; 4:00 p. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

MISCELLANEOUS AMENDMENTS

1. In § 21.107, paragraph (i) is amended to read as follows:

§ 21.107 *Periodic reports of conduct, progress, and compensation for productive labor.* • • •

(i) *Reductions in subsistence allowance because of unauthorized and excessive absences.* Subsistence allowance will be recovered for unauthorized and excessive absences reported on VA Form 7–1963, 7–1908, or otherwise in an amount representing the subsistence that would be paid for the number of days reported at the rate applicable for the month in which the adjustment is effected. For example: A veteran pursuing on-the-job training is receiving subsistence allowance at the rate of $90 per month. When VA Form 7–1963 is received on May 1, 1949, 5 days of unauthorized absence is reported. Subsistence allowance rate for the succeeding reporting period (May–August) is restricted to the wage differential of $60 per month. VA Form 7–1907c or 7–1907c–1 will be executed to authorize subsistence allowance at zero rate for the period May 1 through May 5, 1949, and at the rate of $60 per month for the remaining applicable period. The following notation will be made on VA Form 7–1907c or 7–1907c–1: "Deduct 5 days for absences." Subsistence allowance will be recovered for reported unauthorized and excessive absences even though it is not possible to make a prospective recovery—as in instances where the veteran has withdrawn from training at the time the action is being taken, or where the veteran's training will terminate prior to the end of the period necessary to effect full recovery. In these circumstances an authorization action will be effected retroactively for the appropriate number of days, with subsistence being awarded at zero rate for the applicable number of days immediately preceding the terminal date of the subsistence allowance award. For example: If in the case shown above the veteran's course was scheduled to be completed on May 3, 1949 (and the veteran has not requested leave), an authorization action will be executed to award subsistence allowance at zero rate for the period April 29 through May 3, 1949. However, in such cases where the closing date of the authorization action to effect recovery would revert to a date in a preceding month other than 30 days in length, subsistence allowance will be awarded at zero rate effective the first of such month for the appropriate number of days to effect full recovery.

2. In § 21.130, paragraphs (a), (b), (c), and (d) (4), (5), and (6) are amended to read as follows:

§ 21.130 *Effective dates.* (a) The beginning date of an authorization of subsistence allowance on account of vocational rehabilitation training shall be the date of entrance or reentrance into vocational rehabilitation training.

(b) All authorization actions entering veterans into vocational rehabilitation training will authorize subsistence allowance at the rate provided for a person without a dependent or dependents, unless satisfactory evidence of dependency is of record which warrants an authorization of subsistence allowance on account of dependency. If satisfactory evidence of dependency existing at the time of entrance into training is received within 1 year of the date of the request therefor, subsistence allowance payable because of the dependency will be authorized to begin as of the date of entrance into training, otherwise, as of date satisfactory evidence is received in the Veterans' Administration.

(c) The beginning date of an increase in subsistence allowance on account of a dependent claimed after entrance into training will be the date the evidence establishing the dependency is received in the Veterans' Administration.

(d) The ending date of an award in which there is to be a reduction or discontinuance of subsistence allowance will be:

• • • • •

(4) Interruption of course, the last day of attendance or the last day in an approved leave status, whichever is applicable.

(5) Discontinuance of course, the last day of attendance or the last day in an approved leave status, whichever is applicable.

(6) Employability determined, the last day of attendance or the last day of approved leave status, whichever is applicable. The 2 months' post rehabilitation pay will be authorized in accordance with the provisions of § 21.133 (h).

• • • • •

3. In the FEDERAL REGISTER of October 18, 1949 (14 F. R. 6333) a new paragraph (f) was added to § 21.133. On November 29, 1949 (14 F. R. 7177) an additional paragraph was added to this section and inadvertently was designated as an amendment of paragraph (f); this new paragraph should have been designated paragraph (g). Paragraph (f) of § 21.133 as added October 18, 1949 is hereby amended to read as set forth below and a new paragraph (h) is added.

§ 21.133 *Rates of subsistence allowance.* • • •

(f) *Active or inactive military or naval service.* (1) When a veteran under Part VII reenters active military or naval service his training status is interrupted by the Veterans' Administration and the authorization of subsistence allowance is therefore not in order. However, a veteran who reenters active military service following the determination of his employability is not precluded from receiving post rehabilitation pay.

(2) Persons hospitalized pending final discharge from the active military or naval forces may not receive subsistence allowance in any amount by reason of the specific prohibition in section 1507, Public Law 346, 78th Congress, as added by Public Law 268, 79th Congress.

(3) Members of the Army Reserve, Naval Reserve, National Guard, Air Force Reserve, Air National Guard, Marine Corps Reserve, Coast Guard Reserve, ROTC, or NROTC, who receive annual training where a single period of training ordinarily does not exceed 60 days, such as "summer camp" or "annual cruise," will not be authorized subsistence allowance during such a period except where leave has been granted concurrently under § 21.261 or § 21.261a.

(4) The receipt of drill pay, flight pay, or commuted rations by members of the Army Reserve, Naval Reserve, National Guard, Air Force Reserve, Air National Guard, Marine Corps Reserve, or Coast Guard Reserve for short periods of training given each week or month and members of the advanced course of NROTC or ROTC who draw commutation in lieu of subsistence while in that specialized training does not preclude the payment of subsistence allowance.

(5) Persons receiving training under Public Law 729, 79th Congress, known as the Navy "Holloway Plan," are not entitled to receive concurrently any benefits under Part VII.

(6) Persons receiving training as a cadet or midshipman at one of the service academies are not entitled to receive concurrently any benefits under Part VII.

(7) The receipt of the Armed Forces retirement or retainer pay by a person not on active duty with such forces is not a bar to the authorization of subsistence allowance.

(g) *Waiver of service-connected disability compensation in order to receive non-service-connected disability pension.* • • •

(h) *Employability determined.* Upon determination of employability of a veteran who has pursued a course of training under Part VII, except under the conditions stated in § 21.281 (c), a lump sum payment of the 2 months' post rehabilitation pay will be authorized. The amount of such payment will be computed on the basis of the rate of subsistence allowance applicable in the individual veteran's case at the time employability was determined, except that for the purpose of this payment the rate shall not be affected by the provisions of paragraph (b) (2) (ii) of this section.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation is effective October 9, 1952.

[SEAL] H. V. STIRLING,
Deputy Administrator.

[F. R. Doc. 52–10957, Filed, Oct. 8, 1952; 8:51 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 8736, 8975, 9175, 8976]

PART 3—RADIO BROADCAST SERVICES

TELEVISION CHANNEL ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

On July 10, 1952, the Commission adopted an order (FCC 52–661) amending, without change in channel assignments, § 3.606 (b) of the Commission's rules and regulations, to provide for the addition of offset carrier identifications for channel assignment numbers. The channel assignments for Bowling Green, Kentucky, and Tiffin, Ohio, should have been listed as follows:

Kentucky: Bowling Green	13, 17+.
Ohio: Tiffin	47+.

However, due to an error in reproduction the numeral 1 in Channel 13 for Bowling Green and the numerals 47+ for Tiffin, Ohio, were inadvertently omitted. *Accordingly, it is ordered,* That § 3.606 (b) is corrected by the change of numeral 3 to numeral 13 in the channel assignment for Bowling Green, Kentucky, and by the addition of numeral 47+ to Tiffin, Ohio.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52–10946; Filed, Oct. 8, 1952; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

COLLAPSIBLE CORPORATIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 212 of the Revenue Act of 1950, approved September 23, 1950, and to section 326 of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately after § 29.117–10, as added by Treasury Decision 5881, approved February 11, 1952, the following:

SEC. 212. TREATMENT OF GAIN TO SHAREHOLDERS OF COLLAPSIBLE CORPORATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Collapsible corporations.* Section 117 (relating to capital gains or losses) is hereby amended by adding after subsection (l) (added by section 211 (a) of this Act) the following new subsection:

(m) *Collapsible corporations*—(1) *Treatment of gain to shareholders.* Gain from the sale or exchange (whether in liquidation or otherwise) of stock of a collapsible corporation, to the extent that it would be considered (but for the provisions of this subsection) as gain from the sale or exchange of a capital asset held for more than 6 months, shall, except as provided in paragraph (3), be considered as gain from the sale or exchange of property which is not a capital asset.

(2) *Definitions.* (A) For the purposes of this subsection, the term "collapsible corporation" means a corporation formed or availed of principally for the manufacture, construction, or production of property, or for the holding of stock in a corporation so formed or availed of, with a view to—

(i) The sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation manufacturing, constructing, or producing the property of a substantial part of the net income to be derived from such property, and

(ii) The realization by such shareholders of gain attributable to such property.

(B) For the purposes of subparagraph (A), a corporation shall be deemed to have manufactured, constructed, or produced property, if—

(i) It engaged in the manufacture, construction, or production of such property to any extent,

(ii) It holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, or produced the property, or

(iii) It holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, or produced by the corporation.

(3) *Limitations on application of subsection.* In the case of gain realized by a shareholder upon his stock in a collapsible corporation—

(A) This subsection shall not apply unless, at any time after the commencement of the manufacture, construction, or production of the property, such shareholder (i) owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation, or (ii) owned stock which was considered as owned at such time by another shareholder who then owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation;

(B) This subsection shall not apply to the gain recognized during a taxable year unless more than 70 per centum of such gain is attributable to the property so manufactured, constructed, or produced; and

(C) This subsection shall not apply to gain realized after the expiration of three years following the completion of such manufacture, construction, or production.

For the purposes of subparagraph (A), the ownership of stock shall be determined in accordance with the rules prescribed by paragraphs (1), (2), (3), (5), and (6) of section 503 (a), except that, in addition to the persons prescribed by paragraph (2) of that section, the family of an individual shall include the spouses of that individual's brothers and sisters (whether by the whole or half blood) and the spouses of that individual's lineal descendants.

(b) *Effective date.* The amendment made by this section shall be applicable to taxable years ending after December 31, 1949, but shall apply only with respect to gain realized after such date. The determination of the tax treatment of gains realized prior to January 1, 1950, shall be made as if this section had not been enacted and without inferences drawn from the fact that the amendment made by this section is not expressly made applicable to gains realized prior to such date and without inferences drawn from the limitations contained in section 117 (m), added to the Internal Revenue Code by this section.

SEC. 326. COLLAPSIBLE CORPORATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Definitions with respect to collapsible corporations.* Section 117 (m) (2) (relating to definitions with respect to collapsible corporations) is hereby amended to read as follows:

(2) *Definitions.* (A) For the purposes of this subsection, the term "collapsible corporation" means a corporation formed or availed of principally for the manufacture, construction, or production of property, for the purchase of property which (in the hands of the corporation) is property described in subsection (a) (1) (A), or for the holding of stock in a corporation so formed or availed of, with a view to—

(i) The sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the net income to be derived from such property, and

(ii) The realization by such shareholders of gain attributable to such property.

(B) For the purposes of subparagraph (A), a corporation shall be deemed to have manufactured, constructed, produced, or purchased property, if—

(i) It engaged in the manufacture, construction, or production of such property to any extent,

(ii) It holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, produced, or purchased the property, or

(iii) It holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, produced, or purchased by the corporation.

(b) *Limitations on application of section 117 (m).* Subparagraphs (A), (B), and (C) of section 117 (m) (3) (relating to the limitations on the application of section 117 (m)) are hereby amended to read as follows:

(A) This subsection shall not apply unless, at any time after the commencement of the manufacture, construction, or production of the property, or at the time of the purchase of the property described in subsection (a) (1) (A) or at any time thereafter, such shareholder (i) owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation, or (ii) owned stock which was considered as owned at such time by another shareholder who then owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation;

(B) This subsection shall not apply to the gain recognized during a taxable year unless more than 70 per centum of such gain is attributable to the property so manufactured, constructed, produced, or purchased; and

(C) This subsection shall not apply to gain realized after the expiration of three years following the completion of such manufacture, construction, production, or purchase.

(c) *Effective date.* The amendments made by this section shall be applicable to taxable years ending after August 31, 1951, but shall be applicable only with respect to gains realized after such date. The determination of the tax treatment of gains realized prior to September 1, 1951, shall be made as if this section had not been enacted and without inferences drawn from the fact that the amendments to section 117 (m) made by this section are not expressly made applicable to gains realized prior to September 1, 1951, and without inferences drawn from the limitations contained in section 117 (m), as amended by this section.

§ 29.117–11 *Collapsible corporations*—(a) *In general.* With respect to taxable years ending after December 31, 1949, but only with respect to gain realized after such date, and subject to the limitations contained in paragraph (c) of this section, the entire gain from (1) the actual sale or exchange of stock of a collapsible corporation, (2) amounts distributed in complete or partial liquidation of a collapsible corporation which are treated, under section 115 (c), as payment in exchange for stock, and (3) a distribution made by a collapsible corporation which, under section 115 (d), is treated, to the extent it exceeds the basis of the stock, in the same manner as a gain from the sale or exchange of property, shall be considered as gain from the sale or exchange of property which is not a capital asset.

(b) *Determination of collapsible corporation.* (1) With respect to taxable years ending after December 31, 1949, but only with respect to gain realized after such date, a collapsible corporation is defined by section 117 (m) (2) (A) to be a corporation formed or availed of principally for the manufacture, construction, or production of property, or for the holding of stock in a corporation so formed or availed of, with a view to (i) the sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation manufacturing, constructing, or producing the property of a substantial part of the net income to be derived from such property, and (ii) the realization by such shareholders of gain attributable to such property. With respect to taxable years ending after August 31, 1951, but only with respect to gain realized after such date, the definition of a collapsible corporation under section 117 (m) (2) (A) is expanded to include a corporation formed or availed of principally for the purchase of property which (in the hands of the corporation) is property described in section 117 (a) (1) (A), or for the holding of stock in a corporation so formed or availed of, with a view to (i) the sale or exchange of stock by its shareholders (whether in liquidation or otherwise), or a distribution to its shareholders, prior to the realization by the corporation purchasing the property of a substantial part of the net income to be derived from such property, and (ii) the realization by such shareholders of gain attributable to such property.

(2) See paragraph (d) of this section for a description of the facts which will ordinarily be considered sufficient to establish whether or not a corporation is a collapsible corporation under the rules of this section. See paragraph (e) of this section for examples of the application of section 117 (m).

(3) Under section 117 (m) (2) (A), the corporation must be formed or availed of with a view to the action therein described, that is, the sale or exchange of its stock by its shareholders, or a distribution to them, prior to the realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the net income to be derived from such property, and the realization by the shareholders of gain attributable to such property. This requirement is satisfied in any case in which such action was contemplated by those persons in a position to determine the policies of the corporation, whether by reason of their owning a majority of the voting stock of the corporation or otherwise. The requirement is satisfied whether such action was contemplated unconditionally, conditionally, or as a recognized possibility. If the corporation was so formed or availed of, it is immaterial that a particular shareholder was not a shareholder at the time of the manufacture, construction, production, or purchase of the property, or if a shareholder at such time, did not share in such view, and any gain of such shareholder on his stock in the corporation shall be treated in the same manner as gain of a shareholder who did share in such view. See, however, the limitation contained in paragraph (c) (2) of this section. The existence of a bona fide business reason for doing busines in the corporate form does not, by itself, negate the fact that the corporation may also have been formed or availed of with a view to the action described in section 117 (m) (2) (A).

(4) A corporation is formed or availed of with a view to the action described in section 117 (m) (2) (A) if the requisite view existed at any time during the manufacture, production, construction, or purchase referred to in that section. Thus, if the sale, exchange, or distribution is attributable solely to circumstances which arose after the manufacture, construction, production, or purchase (other than circumstances which reasonably could be anticipated at the time of such manufacture, construction, production, or purchase), the corporation shall, in the absence of compelling facts to the contrary, be considered not to have been so formed or availed of. However, if the sale, exchange, or distribution is attributable to circumstances present at the time of the manufacture, construction, production, or purchase, the corporation shall, in the absence of compelling facts to the contrary, be considered to have been so formed or availed of.

(5) The property referred to in section 117 (m) (2) (A) is that property or the aggregate of those properties with respect to which the requisite view existed. In order to ascertain the property or properties as to which the requisite view existed, reference shall be made to each property as to which, at the time of the sale, exchange, or distribution referred to in section 117 (m) (2) (A), there has not been a realization by the corporation manufacturing, constructing, producing, or purchasing the property of a substantial part of the net income to be derived from such property. However, where any such property is a unit of an integrated project involving several properties similar in kind, the determination whether the requisite view existed shall be made only if a substantial part of the net income to be derived from the project has not been realized at the time of the sale, exchange, or distribution, and in such case the determination shall be made by reference to the aggregate of the properties constituting the single project.

(6) A corporation shall be deemed to have manufactured, constructed, produced, or purchased property if it (i) engaged in the manufacture, construction, or production of property to any extent, or (ii) holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, produced, or purchased the property, or (iii) holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, produced, or purchased by the corporation. Thus, under subdivision (i) of this subparagraph, for example, a corporation need not have originated nor have completed the manufacture, construction, or production of the property. Under subdivision (ii) of this subparagraph, for example, if an individual were to transfer property constructed by him to a corporation in exchange for all of the capital stock of such corporation, and such transfer qualifies under section 112 (b) (5), then the corporation would be deemed to have constructed the property, since the basis of the property in the hands of the corporation would, under section 113 (a) (8), be determined by reference to the basis of the property in the hands of the individual. Under subdivision (iii) of this subparagraph, for example, if a corporation were to exchange property constructed by it for property of like kind constructed by another person, and such exchange qualifies under section 112 (b) (1), then the corporation would be deemed to have constructed the property received by it in the exchange, since the basis of the property received by it in the exchange would, under section 113 (a) (6), be determined by reference to the basis of the property constructed by the corporation.

(7) In determining whether a corporation is a collapsible corporation by reason of the purchase of property, it is immaterial whether the property is purchased from the shareholders of the corporation or from persons other than such shareholders. The property, however, must be property which, in the hands of the corporation, is property of a kind described in section 117 (a) (1) (A). Section 117 (a) (1) (A) describes the following property: Stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business. The determination whether property is of a kind described in section 117 (a) (1) (A) shall be made without regard to the fact that the corporation is formed or availed of with a view to the action described in section 117 (m) (2) (A).

(8) Section 117 (m) is applicable whether the shareholder is an individual, a trust, an estate, a partnership, a company, or a corporation.

(c) *Limitations on application of section*—(1) *General.* This section shall apply only to the extent that the recognized gain of a shareholder upon his stock in a collapsible corporation would be considered, but for the provisions of this section, as gain from the sale or exchange of a capital asset held for more than six months. Thus, if a taxpayer sells at a gain stock of a collapsible corporation which he has held for six months or less, this section would not, in any event, apply to such gain. Also, if it is determined, under provisions of law other than section 117 (m), that a sale or exchange at a gain of stock of a collapsible corporation which has been held for more than six months results in ordi-

nary income rather than long-term capital gain, then this section (including the limitations contained herein) has no application whatsoever to such gain.

(2) *Stock ownership rules.* (i) This section shall apply in the case of gain realized by a shareholder upon his stock in a collapsible corporation only if the shareholder, at any time after the actual commencement of the manufacture, construction, or production of the property, or at the time of the purchase of the property described in section 117 (a) (1) (A) or at any time thereafter, (a) owned, or was considered as owning, more than 10 percent in value of the outstanding stock of the corporation, or (b) owned stock which was considered as owned at such time by another shareholder who then owned, or was considered as owning, more than 10 percent in value of the outstanding stock of the corporation.

(ii) The ownership of stock shall be determined in accordance with the rules prescribed by section 503 (a) (1), (2), (3), (5), and (6), except that, in addition to the persons prescribed by section 503 (a) (2), the family of an individual shall include the spouses of that individual's brothers and sisters, whether such brothers and sisters are by the whole or the half blood, and the spouses of that individual's lineal descendants.

(iii) For the purpose of this limitation, treasury stock shall not be considered as outstanding stock.

(iv) It is possible, under this limitation, that a shareholder in a collapsible corporation may have gain upon his stock in that corporation treated differently from the gain of another shareholder in the same collapsible corporation.

(3) *Seventy-percent rule.* (i) This section shall apply to the gain recognized during a taxable year upon the stock in a collapsible corporation only if more than 70 percent of such gain is attributable to the property referred to in section 117 (m) (2) (A). If more than 70 percent of such gain is so attributable, then all of such gain is subject to this section, and, if 70 percent or less of such gain is so attributable, then none of such gain is subject to this section.

(ii) For the purpose of this limitation, the gain attributable to the property referred to in section 117 (m) (2) (A) is the excess of the recognized gain of the shareholder during the taxable year upon his stock in the collapsible corporation over the recognized gain which the shareholder would have if the property had not been manufactured, constructed, produced, or purchased. In the case of gain on a distribution in partial liquidation or a distribution described in section 115 (d), the gain attributable to the property shall not be less than an amount which bears the same ratio to the gain on such distribution as the gain which would be attributable to the property if there had been a complete liquidation at the time of such distribution bears to the total gain which would have resulted from such complete liquidation.

(iii) Gain may be attributable to the property referred to in section 117 (m) (2) (A) even though such gain is represented by an appreciation in the value of property other than that manufactured, constructed, produced, or purchased. Where, for example, a corporation owns a tract of land and the development of one-half of the tract increases the value of the other half, the gain attributable to the developed half of the tract includes the increase in the value of the other half.

(4) *Three-year rule.* This section shall not apply to that portion of the gain of a shareholder that is realized more than three years after the actual completion of the manufacture, construction, production, or purchase of the property to which such portion is attributable.

(d) *Application of section.* (1) (i) Whether or not a corporation is a collapsible corporation shall be determined under the rules of paragraph (b) of this section on the basis of all the facts and circumstances in each particular case. Subparagraphs (2) and (3) of this paragraph set forth those facts which will ordinarily be considered sufficient to establish that a corporation is or is not a collapsible corporation. The facts set forth in the subparagraphs (2) and (3) of this paragraph are not exclusive of other facts which may be controlling in any particular case. For example, if the facts in subparagraph (2) of this paragraph, but not the facts in subparagraph (3) of this paragraph, are present, the corporation may nevertheless not be a collapsible corporation if there are other facts which clearly establish that the rules of paragraph (b) of this section are not satisfied. Similarly, if the facts in subparagraph (3) of this paragraph are present, the corporation may nevertheless be a collapsible corporation if there are other facts which clearly establish that the corporation was formed or availed of in the manner described in paragraph (b) of this section, or if the facts in subparagraph (3) of this paragraph are not significant by reason of other facts, such as the fact that the corporation is subject to the control of persons other than those who were in control immediately prior to the manufacture, construction, production, or purchase of the property.

(ii) See paragraph (c) of this section for provisions which make section 117 (m) inapplicable to certain shareholders of collapsible corporations.

(2) The following facts will ordinarily be considered sufficient (except as otherwise provided in subparagraphs (1) and (3) of this paragraph) to establish that a corporation is a collapsible corporation:

(i) A shareholder of the corporation sells or exchanges his stock, or receives a liquidating distribution, or a distribution described in section 115 (d);

(ii) Upon such sale, exchange, or distribution, such shareholder realizes gain attributable to the property described in subdivisions (iv) and (v) of this subparagraph; and

(iii) At the time of the manufacture, construction, production, or purchase of the property described in subdivisions (iv) and (v) of this subparagraph, such activity was substantial in relation to the other activities of the corporation which manufactured, constructed, produced, or purchased such property.

The property referred to in subdivisions (ii) and (iii) of this subparagraph is that property or the aggregate of those properties which meet the following two requirements:

(iv) The property is manufactured, constructed, or produced by the corporation or by another corporation stock of which is held by the corporation, or is property purchased by the corporation or by such other corporation which (in the hands of the corporation holding such property) is property described in section 117 (a) (1) (A) (relating to stock in trade, inventories, and property held primarily for sale to customers); and

(v) At the time of the sale, exchange, or distribution described in subdivision (i) of this subparagraph, the corporation which manufactured, constructed, produced, or purchased such property has not realized a substantial part of the net income to be derived from such property.

In the case of property which is a unit of an integrated project involving several properties similar in kind, the rules of this paragraph shall be applied to the aggregate of the properties constituting the single project rather than separately to such unit. Under the rules of this paragraph, a corporation shall be considered a collapsible corporation by reason of holding stock in other corporations which manufactured, constructed, produced, or purchased the property only if the activity of the corporation in holding stock in such other corporations is substantial in relation to the other activities of the corporation.

(3) The absence of any of the facts set forth in subparagraph (2) of this paragraph or the presence of the following facts will ordinarily be considered sufficient (except as otherwise provided in subparagraph (1) of this paragraph) to establish that a corporation is not a collapsible corporation:

(i) In the case of a corporation subject to the rules of subparagraph (2) of this paragraph only by reason of the manufacture, construction, production, or purchase (either by the corporation or by another corporation the stock of which is held by the corporation) of property which is property described in section 117 (a) (1) (A), the amount (both in quantity and value) of such property is not in excess of the amount which is normal—

(*a*) For the purpose of the business activities of the corporation which manufactured, constructed, produced, or purchased the property if such corporation has a substantial prior business history involving the use of such property and continues in business, or

(*b*) For the purpose of an orderly liquidation of the business if the corporation which manufactured, constructed, produced, or purchased such property has a substantial prior business history involving the use of such property and is in the process of liquidation.

(ii) In the case of a corporation subject to the rules of subparagraph (2) of this paragraph with respect to the manufacture, construction, or production (either by the corporation or by another corporation the stock of which is held by the corporation) of property, the amount of the unrealized net income from such property is not substantial in relation to the amount of the net income realized (after the completion of a material part of such manufacture, construction, or production, and prior to the sale, exchange, or distribution referred to in subparagraph (2) (i) of this paragraph) from such property and from other property manufactured, constructed, or produced by the corporation.

(e) *Examples.* The following examples will illustrate the application of this section:

Example (*1*). On January 2, 1951, A formed the W corporation and contributed $50,000 cash in exchange for all of the stock thereof. The W corporation borrowed $900,000 from a bank, the loan being guaranteed by the Federal Housing Authority, and used $800,000 of such sum in the construction of an apartment house on land which it purchased for $50,000. The apartment house was completed on December 31, 1951. On December 31, 1951, the corporation, having determined that the fair market value of the apartment house, separate and apart from the land, was $900,000, made a distribution (permitted under the applicable State law) to A of $100,000. At this time, the fair market value of the land was $50,000. As of December 31, 1951, the corporation has not realized any earnings and profits. It is assumed for the purpose of this example that the distribution is treated as a distribution described in section 115 (d). In 1952, the corporation began the operation of the apartment house and received rentals therefrom. The corporation has since continued to own and operate the building. The corporation reported on the basis of the calendar year and cash receipts and disbursements.

Since A received a distribution of the type described in section 115 (d) and realized a gain attributable to the building constructed by the corporation, since, at the time of such distribution, the corporation has not realized a substantial part of the net income to be derived from such building, and since the construction of the building was a substantial activity of the corporation, the W corporation is considered a collapsible corporation under (d) (2) of this section. Since the provisions of section 117 (m) (3) do not prohibit the application of section 117 (m) (1) to A, a gain of $50,000 to A (excess of $100,000 received over $50,000 basis of the stock) is, accordingly, considered ordinary income under section 117 (m) (1). In the event of the existence of additional facts and circumstances in the above case, the corporation, notwithstanding the above facts, might not be considered a collapsible corporation. See (b) and (d) (1) of this section. If the distribution were in fact not of the type described in section 115 (d) but resulted in ordinary income to A, then section 117 (m) (1) would have no application to this case.

Example (*2*). On January 2, 1950, B formed the X corporation and became the sole shareholder thereof. This corporation completed the construction of an office building in 1950. Immediately after the completion of the building, the corporation sold this building at a gain of $50,000, included this entire gain in its return for 1950, and distributed this entire gain (less taxes) to B. The corporation completed the construction of a second office building in June 1951. In August 1951, B sold the entire stock of the X corporation at a gain of $12,000, which gain is attributable to the second building. In view of the fact that B sold stock of the X corporation and realized a gain attributable to the second office building, that, at the time of such sale, the corporation had not realized a substantial part of the net income to be derived from such building, and that the construction of such building during the time of such construction was a substantial activity of the corporation, the X corporation is considered a collapsible corporation under (d) (2) of this section. Since the provisions of section 117 (m) (3) do not prohibit the application of section 117 (m) (1) to B, the gain of $12,000 to B is, accordingly, considered ordinary income.

Example (*3*). The facts in this example are the same as in example (2), except that the following facts are shown: B was the president of the X corporation and active in the conduct of its business. The second building was constructed as the first step in a project of the X corporation for the development for rental purposes of a large suburban center involving the construction of several buildings by the corporation. The sale of the stock by B was caused by his retiring from all business activity as a result of illness arising after the second building was constructed. Under these additional facts, the corporation is not considered a collapsible corporation. See (b) and (d) (1) of this section.

Example (*4*). On January 2, 1947, C formed the Y corporation and became the sole shareholder thereof. The Y corporation has been engaged solely in the business of producing motion pictures and licensing their exhibition. On January 2, 1952, C sold all of the stock of the Y corporation at a gain. The Y corporation has produced one motion picture each year since its organization and prior to January 2, 1952, it has realized a substantial part of the net income to be derived from each of its motion pictures except the last one made in 1951. This last motion picture was completed September 1, 1951. As of January 2, 1952, no license had been made for its exhibition. The fair market value on January 2, 1952, of this last motion picture exceeds the cost of its production by $50,000. A material part of the production of this last picture was completed on January 1, 1951, and between that date and January 2, 1952, the corporation had realized net income of $500,000 from other motion pictures produced by it. The corporation has consistently distributed to its shareholder its net income when received (after adjustment for taxes).

Although the corporation is within (d) (2) of this section with respect to the production of property, the amount of the unrealized net income from such property ($50,000) is not substantial in relation to the amount of the net income realized, after the completion of a material part of the production of such property and prior to sale of the stock, from such property and other property produced by the corporation ($500,000). Accordingly, the Y corporation is within (d) (3) (ii) of this section, and is not considered a collapsible corporation.

Example (*5*). The facts are the same as in example (4) except that C sold all of his stock to D on February 1, 1951. On January 2, 1952, D sold all of the Y corporation stock at a gain, the gain being attributable to the picture completed September 1, 1951, and not released by the corporation for exhibition. In view of the change of control of the corporation, the provisions of (d) (3) (ii) are not significant at the time of the sale by D, and the Y corporation would be considered a collapsible corporation on January 2, 1952. See (b) and (d) (1) of this section.

[F. R. Doc. 52-10953; Filed, Oct. 8, 1952; 8:51 a. m.]

[26 CFR Part 86]

ESTATE AND GIFT TAXES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 1029 and 3791 of the Internal Revenue Code (53 Stat. 157, 467; 26 U. S. C. 1029, 3791) and pursuant to the provisions of Public Law 814, 81st Congress, approved September 23, 1950.

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 108 (26 CFR Part 86) to certain provisions of Parts I, II and III of Title III of the Revenue Act of 1950 (Pub. Law 814, 81st Cong.), approved September 23, 1950, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 86.12 the following:

SEC. 302. EXEMPTION OF CERTAIN ORGANIZATIONS FOR PAST YEARS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Trade or business not unrelated.* For any taxable year beginning prior to January 1, 1951, no organization shall be denied exemption under paragraph (1), (6), or (7) of section 101 of the Internal Revenue Code on the grounds that it is carrying on a trade or business for profit if the income from such trade or business would not be taxable as unrelated business income under the provisions of Supplement U of the Internal Revenue Code, as amended by this Act, or if such trade or business is the rental by such organization of its real property (including personal property leased with the real property).

(b) *Period of limitations.* In the case of an organization which would otherwise be exempt under section 101 of the Internal Revenue Code were it not carrying on a trade or business for profit, the filing of the information return required by section 54 (f) of the Internal Revenue Code (relating to returns by tax-exempt organizations) for any taxable year beginning prior to January 1, 1951, shall be deemed to be the filing of a return for the purposes of section 275 of the Internal Revenue Code (relating to period of limitation upon assessment and collection). In the case of such an organization which was, by the provisions of section 54 (f) of the Internal Revenue Code, specifically not required to file such information return, for the purposes of the preceding sentence a return shall be deemed to have been filed at the time when such return should have been filed had it been so required. The provisions of this subsection shall not apply to a taxable year of such an organization with respect to which, prior to September 20, 1950, (1) any amount of tax was assessed or paid,

or (2) a notice of deficiency under section 272 of the Internal Revenue Code was sent to the taxpayer.

(c) *Denial of deductions.* A gift or bequest to an organization prior to January 1, 1951, for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals) otherwise allowable as a deduction under section * * * 1004 (a) (2) (B), or 1004 (b) (2) or (3), of the Internal Revenue Code, may not be denied under such sections if a denial of exemption to such organization for the taxable year of the organization in which such gift or bequest was made is prevented by the provisions of subsections (a) or (b) of this section.

SEC. 162. NET INCOME INTERNAL REVENUE CODE AS AMENDED BY SECTION 321, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The net income of the estate or trust shall be computed in the same manner and on the same basis as in the case of an individual, except that—

(a) Subject to the provisions of subsection (g), there shall be allowed as a deduction (in lieu of the deduction for charitable, etc., contributions authorized by section 23 (o) any part of the gross income, without limitation, which pursuant to the terms of the will or deed creating the trust, is during the taxable year paid or permanently set aside for the purposes and in the manner specified in section 23 (o), or is to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, or for the establishment, acquisition, maintenance or operation of a public cemetery not operated for profit. Where any amount of the income so paid or set aside is attributable to gain from the sale or exchange of capital assets held for more than six months, proper adjustment of the deduction otherwise allowable under this subsection shall be made for any deduction allowable to the trust under section 23 (ee);

* * * * *

(g) *Rules for application of subsection (a) in the case of trusts.*

* * * * *

(2) *Operations of trusts—(A) Limitation on charitable, etc., deduction.* The amount otherwise allowable under subsection (a) as a deduction shall not exceed 15 per centum of the net income of the trust (computed without the benefit of subsection (a)) if the trust has engaged in a prohibited transaction, as defined in subparagraph (B) of this paragraph.

(B) *Prohibited transactions.* For the purposes of this paragraph the term "prohibited transaction" means any transaction after July 1, 1950, in which any trust while holding income or corpus which has been permanently set aside or is to be used exclusively for charitable or other purposes described in subsection (a)—

(i) Lends any part of such income or corpus, without receipt of adequate security and a reasonable rate of interest, to;

(ii) Pays any compensation from such income or corpus, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(iii) Makes any part of its services available on a preferential basis to;

(iv) Uses such income or corpus to make any substantial purchase of securities or any other property, for more than an adequate consideration in money or money's worth, from;

(v) Sells any substantial part of the securities or other property comprising such income or corpus, for less than an adequate consideration in money or money's worth, to; or

(vi) Engages in any other transaction which results in a substantial diversion of such income or corpus to;

the creator of such trust; any person who has made a substantial contribution to such trust; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of the trust or who has made a substantial contribution to the trust; or a corporation controlled by any such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all classes of stock of the corporation.

(C) *Taxable years affected.* The amount otherwise allowable under subsection (a) as a deduction shall be limited as provided in subparagraph (A) only for taxable years subsequent to the taxable year during which the trust is notified by the Secretary that it has engaged in such transaction, unless such trust entered into such prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such corpus or income.

(D) *Future charitable, etc., deductions of trusts denied deduction under subparagraph (C).* If the deduction of any trust under subsection (a) has been limited as provided in this paragraph, such trust, with respect to any taxable year following the taxable year in which notice is received of limitation of deduction under subsection (a), may, under regulations prescribed by the Secretary, file claim for the allowance of the unlimited deduction under subsection (a), and if the Secretary, pursuant to such regulations, is satisfied that such trust will not knowingly again engage in a prohibited transaction, the limitation provided in subparagraph (A) shall not be applicable with respect to taxable years subsequent to the year in which such claim is filed.

(E) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section * * * 1004 (a) (2) (B), or 1004 (b) (2) or (3), shall be allowed as a deduction if made in trust and, in the taxable year of the trust in which the gift or bequest is made, the deduction allowed the trust under subsection (a) is limited by subparagraph (A). With respect to any taxable year of a trust in which such deduction has been so limited by reason of entering into a prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such income or corpus, and which taxable year is the same, or prior to the, taxable year of the trust in which such prohibited transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(F) *Definition.* For the purposes of this paragraph the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

(3) *Cross reference.* For disallowance of certain charitable, etc., deductions otherwise allowable under subsection (a), see section 3813.

* * * * *

SEC. 322. EFFECTIVE DATE OF PART II (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (section 221, inserting subsection (g) in section 162 of the Internal Revenue Code) shall be applicable only with respect to taxable years beginning after December 31, 1950, except that subsection (g) (2) (E) of section 162 of the Internal Revenue Code, added by section 321 (a) of this Act, shall apply only with respect to gifts or bequests (as defined in section 162 (g) (2) (F) of the Internal Revenue Code) made on or after January 1, 1951.

* * * * *

SEC. 331. EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101, (6) AND DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Chapter 38 is hereby amended by inserting at the end thereof the following new sections:

"SEC. 3813. REQUIREMENTS FOR EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101 (6) AND FOR DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS.

(a) *Organizations to which section applies.* This section shall apply to any organization described in section 101 (6) except—

(1) A religious organization (other than a trust);

(2) An educational organization which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on;

(3) An organization which normally receives a substantial part of its support (exclusive of income received in the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101 (6)) from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public;

(4) An organization which is operated, supervised, controlled, or principally supported by a religious organization (other than a trust) which is itself not subject to the provisions of this section; and

(5) An organization the principal purposes or functions of which are the providing of medical or hospital care or medical education or medical research.

(b) *Prohibited transactions.* For the purposes of this section, the term "prohibited transaction" means any transaction in which an organization subject to the provisions of this section—

(1) Lends any part of its income or corpus, without the receipt of adequate security and a reasonable rate of interest, to;

(2) Pays any compensation, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(3) Makes any part of its services available on a preferential basis to;

(4) Makes any substantial purchase of securities or any other property, for more than adequate consideration in money or money's worth, from;

(5) Sells any substantial part of its securities or other property, for less than an adequate consideration in money or money's worth, to; or

(6) Engages in any other transaction which results in a substantial diversion of its income or corpus to;

the creator of such organization (if a trust); a person who has made a substantial contribution to such organization; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of such trust or who has made a substantial contribution to such organization; or a corporation controlled by such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all classes of stock of the corporation.

(c) *Denial of exemption to organizations engaged in prohibited transactions*—(1) *General rule.* No organization subject to the provisions of this section which has engaged in a prohibited transaction after July 1, 1950, shall be exempt from taxation under section 101 (6).

(2) *Taxable years affected.* An organization shall be denied exemption from taxation under section 101 (6) by reason of paragraph (1) only for taxable years subsequent to the taxable year during which it is notified by the Secretary that it has engaged in a prohibited transaction, unless such organization entered into such prohibited transaction with the purpose of diverting corpus or income of the organization from its exempt purposes, and such transaction involved a substantial part of the corpus or income of such organization.

(d) *Future status of organization denied exemption.* Any organization denied exemption under section 101 (6) by reason of the provisions of subsection (c), with respect to any taxable year following the taxable year in which notice of denial of exemption was received, may, under regulations prescribed by the Secretary, file claim for exemption, and if the Secretary, pursuant to such regulations, is satisfied that such organization will not knowingly again engage in a prohibited transaction, such organization shall be exempt with respect to taxable years subsequent to the year in which such claim is filed.

(e) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section * * * 1004 (a) (2) (B), or 1004 (b) (2) or (3), shall be allowed as a deduction if made to an organization which, in the taxable year of the organization in which the gift or bequest is made, is not exempt under section 101 (6) by reason of the provisions of this section. With respect to any taxable year of the organization for which the organization is not exempt pursuant to the provisions of subsection (c) by reason of having engaged in a prohibited transaction with the purpose of diverting the corpus or income of such organization from its exempt purposes and such transaction involved a substantial part of such corpus or income, and which taxable year is the same, or prior to the, taxable year of the organization in which such transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(f) *Definition.* For the purposes of this section, the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

* * * * *

SEC. 332. TECHNICAL AMENDMENTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * *

(g) *Amendment of section 1004 (a).* Section 1004 (a) (2) (B) is hereby amended by striking out "legislation;" and inserting in lieu thereof the following: "legislation. For disallowance of certain charitable, etc., deductions otherwise allowable under this subparagraph, see sections 3813 and 162 (g) (2);".

(h) *Amendment of section 1004 (b).* Section 1004 (b) is hereby amended by adding at the end thereof the following new paragraph:

For disallowance of certain charitable, etc., deductions otherwise allowable under paragraphs (2) and (3), see sections 3813 and 162 (g) (2).

SEC. 333. EFFECTIVE DATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Subsections (c) and (d) of section 3813 * * * of the Internal Revenue Code, added by section 331 of this Act, shall apply with respect to taxable years beginning after December 31, 1950, and subsection (e) of section 3813 of the Internal Revenue Code shall apply only with respect to gifts or bequests (as defined in section 3813 of the Internal Revenue Code) made on or after January 1, 1951.

PAR. 2. Section 86.13, as amended by Treasury Decision 5902, approved May 27, 1952, is further amended as follows:

(A) By adding a headnote to paragraph (a) thereof to read as follows: (a) *In general.";*

(B) By inserting immediately following the period at the end of paragraph (a) the following: "For disallowance of certain charitable gifts otherwise allowable as deductions hereunder see paragraph (b) of this section."; and

(C) By amending paragraph (b) thereof to read as follows:

(b) *Disallowance of certain charitable, etc., deductions.* (1) No deduction with respect to a gift made on or after January 1, 1951, to any trust or organization described in subparagraph (2) of paragraph (a) of this section which would otherwise be allowable under such paragraph shall be allowed if (i) the gift is made in trust and, for income tax purposes for the taxable year of the trust in which the gift is made, the deduction otherwise allowable to such trust under section 162 (a) is limited by section 162 (g) (2) (A) by reason of the trust having engaged in a prohibited transaction described in section 162 (g) (2) (B); or (ii) the gift is made to any such organization subject to section 3813 which, for its taxable year in which the gift is made, is not exempt from income tax under section 101 (6) by reason of having engaged in a prohibited transaction described in section 3813 (b).

(2) For the purpose of section 162 (g) (2) (E) and section 3813 (e), the term "gift" includes any gift, contribution, or other disposition.

(3) Part 29 of this chapter, relating to the income tax, contains the rules for the determination of the taxable year of the trust for which the deduction under section 162 (a) is limited by section 162 (g) (2) and for the determination of the taxable year of the organization for which an exemption is denied under section 3813 (c). See §§ 29.162–3 (b) and 29.3813–1 of this chapter. Such taxable year must begin after December 31, 1950. Generally, such taxable year is a taxable year subsequent to the taxable year during which the trust or organization has been notified by the Commissioner that it has engaged in a prohibited transaction. However, if the trust or organization after December 31, 1950, and during or prior to the taxable year entered into the prohibited transaction for the purpose of diverting its corpus or income from the purposes described in section 162 (a) or from its exempt purposes, as the case may be, and such transaction involves a substantial part of such income or corpus, then the deduction of the trust under section 162 (a) for such taxable year is limited by section 162 (g) (2), or the exemption of the organization for such taxable year is denied under section 3813 (c), whether or not the organization has previously received notification by the Commissioner that it is engaged in a prohibited transaction. In certain cases, the limitation of section 162 (g) may be removed or the exemption may be reinstated for certain subsequent taxable years under the rules set forth in §§ 29.162–3 (b) and 29.3813–2, of this chapter.

(4) In cases in which prior notification by the Commissioner is not required in order to limit the deduction of the trust under section 162 (g) (2) or to deny exemption of the organization under section 3813, the deduction otherwise allowable under paragraph (a) of this section shall not be disallowed in respect to gifts made during the same taxable year of the trust or organization in which such prohibited transaction occurred or in a prior taxable year unless the donor or a member of his family was a party to the prohibited transaction. For the purpose of the preceding sentence, the members of the donor's family include only his brothers and sisters, whether by whole or half blood, spouse, ancestors, and lineal descendants.

PAR. 3. Section 86.14 is amended by adding at the end thereof the following: "For further limitations in the case of gifts made on or after January 1, 1951, see § 86.13 (b), relating to gifts to certain trusts and organizations engaged in a prohibited transaction described in section 162 (g) (2) (B) or 3813 (b)."

[26 CFR Part 143]

TAX WITH RESPECT TO TRANSPORTATION OF PROPERTY

MATERIAL EXCAVATED IN COURSE OF CONSTRUCTION WORK

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 3472 and 3791 of the Internal Revenue Code (53 Stat. 423 and 467, 55 Stat. 722; 26 U. S. C. 3472, 3791).

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

In order to conform Regulations 113 (26 CFR Part 143), relating to the tax on the amount paid for the transportation

of property, to section 495 of the Revenue Act of 1951, approved October 20, 1951, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 143.10 the following:

SEC. 495. TRANSPORTATION OF MATERIAL EXCAVATED IN THE COURSE OF CONSTRUCTION WORK (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951)

(a) *Amendment of section 3475.* Section 3475 (relating to tax on transportation of property) is hereby amended by adding at the end thereof the following: "The tax imposed by this section shall not apply to the transportation of earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project and transported to any place within, or adjacent to, the boundaries of such project." • • •

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of enactment of this Act for transportation on or after such first day.

PAR. 2. Section 143.13 (a), as amended by Treasury Decision 5826, approved January 12, 1951, is further amended by redesignating subdivision (iii) in the first sentence of subparagraph (7) as subdivision (iv) and by inserting after subdivision (ii) the following: (iii) to an amount paid for the transportation of material excavated within the boundaries of, and in the course of, a construction project, where the transportation is to any place within, or adjacent to, the boundaries of such project (see § 143.16);".

PAR. 3. Immediately following § 143.15, there is inserted the following new section:

§ 143.16 *Excavated material.* (a) The tax does not apply to an amount paid on or after November 1, 1951, for the transportation, originating on or after that date, of earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project and transported to any place within, or adjacent to, the boundaries of such project.

(b) To come within the exemption it is necessary that two conditions be met, namely, (1) that the property be earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project, and (2) that the transportation of the excavated material be within the boundaries of the construction project or to a place adjacent thereto.

(c) In determining the boundaries of a construction project, consideration will be given to the type of construction operation which is involved and the area which is required to perform and carry out the necessary work. For example, in the case of a road-building operation, the boundaries of the project would embrace the area covered by the length and width of the roadway, plus any adjoining right-of-way. In the case of the construction of an airport, the boundaries would include the outermost limits of the airport.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 962]

FRESH PEACHES GROWN IN GEORGIA

ORDER DIRECTING THAT REFERENDUM BE CONDUCTED; DESIGNATION OF REFERENDUM AGENTS TO CONDUCT SUCH REFERENDUM; AND DETERMINATION OF REPRESENTATIVE PERIOD

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 62, as amended (7 CFR, Part 962), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the producers who, during the calendar year 1952 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the State of Georgia, in the production of peaches for market to determine whether such producers favor the termination of the said amended marketing agreement and order. D. K. Young and G. A. Nahstoll of the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity to each of the aforesaid producers to cast his ballot, in the manner herein authorized, relative to the aforesaid termination of the amended marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such producers, bona fide engaged in marketing fresh peaches grown in the State of Georgia or in rendering services for or advancing the interests of the producers of such peaches, may vote for the producers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such producers.

(2) By determining the time of commencement and termination of the period of the referendum and by giving public notice, as prescribed in (a) (3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to D. K. Young, Chief, Southeastern Marketing Field Office, Fruit and Vegetable Branch, Room 631, 50 Seventh Street NE., Atlanta 5, Georgia, and the time prior to which such ballots must be postmarked.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of Georgia; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each producer whose name and address are known; and (iii) by such other means as said referendum agents or any of them may deem advisable.

(4) By conducting meetings of producers and arranging for balloting at the meeting places, if said referendum agents or any of them determine that voting shall be at meetings. At each such meeting, balloting shall continue until all of the producers who are present, and who desire to do so, have had an opportunity to vote. Any producer may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to producers at the meeting; and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot, and inquiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a) (3) hereof.

(8) By appointing any county agricultural agent, and by authorizing the chairman of the State Production and Marketing Administration committee to appoint any member or members of a PMA county committee, in the State of Georgia, and by appointing any other persons deemed necessary or desirable, to assist the said referendum agents in performing their duties hereunder. Each such person so appointed shall serve without compensation and may be authorized, by the said referendum agents or any of them, to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8) hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements herein set forth; and shall forward to D. K. Young, Chief, Southeastern Marketing Field Office, Fruit and Vegetable Branch, Room 631, 50 Seventh Street NE., Atlanta 5, Georgia, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each producer to whom a ballot form was given;

(ii) A register containing the name and address of each producer from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agent was posted and, if the notice was mailed to producers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by D. K. Young of all ballots cast in accordance with the provisions hereof, he shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and shall forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(c) Each referendum agent and appointee pursuant hereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the aforesaid amended marketing agreement and order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Washington, D. C., and at the Southeastern Marketing Field Office, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Room 631, 50 Seventh Street NE., Atlanta 5, Georgia.

Ballots to be cast in the referendum may be obtained from any referendum agent, and any appointee hereunder.

Done at Washington, D. C., this 6th day of October 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 53110]

WHITE OR IRISH POTATOES, OTHER THAN CERTIFIED SEED

TARIFF-RATE QUOTA

SEPTEMBER 29, 1952.

The tariff-rate quota for white or Irish potatoes, other than certified seed potatoes, pursuant to Item 771 (second), Part I, Schedule XX, of the General Agreement on Tariffs and Trade (T. D. 51802), for the 12-month period beginning September 15, 1952, is 13,315,000 bushels of 60 pounds each.

The estimate of the production of white or Irish potatoes, including seed potatoes, in the United States for the calendar year 1952 made by the United States Department of Agriculture, as of September 1, 1952, was 337,685,000 bushels.

In accordance with the third proviso to the aforesaid Item 771, the 1,000,000 bushels prescribed in the second proviso is increased by the amount by which such estimated production is less than 350,000,000 bushels, which amount is 12,315,000 bushels.

[SEAL] FRANK DOW,
Commissioner of Customs.

ALASKA

ORDER OF TRANSFER OF JURISDICTION OF INTEREST

OCTOBER 2, 1952.

Whereas, the Office of Territories, Department of the Interior, made application, Anchorage 020550, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the lands hereinafter described, for a public works project (Chugiak School), which was approved under section 4 of the act, and

Whereas, notice of the proposed transfer of jurisdiction was published in the FEDERAL REGISTER September 10, 1952 (17 F. R. 8161), and no protest to the transfer was filed within the time allowed.

Now, therefore, by virtue of the authority contained in section 7 of the Public Works Act of August 24, 1949, supra, and pursuant to section 2.56 of Delegation Order No. 427, of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Jurisdiction of interest in and to the following described lands is hereby transferred to the Office of Territories, Department of the Interior:

T. 15 N., R. 1 W., Seward Meridian, Sec. 17, Lots 1, 2 and 3.

Any subsequent conveyance which may be made of the lands to a public body under authority of the act of August 24, 1949, supra, the instrument of conveyance shall contain a provision reserving a right-of-way for ditches and canals constructed under authority of the United States, and reserving also to the United States (1) all fissionable source materials in the lands, together with the right of the United States to enter upon the land and prospect for, mine and remove such materials in accordance with the act of August 1, 1946 (60 Stat. 755; 43 U. S. C. 1801), (2) all oil and gas and other mineral deposits in the lands together with the rights of the United States, its agents, representatives, lessees or permittees, to prospect for, mine and remove the same under such regulations as the Secretary may prescribe, (3) a right-of-way for the construction of railroads, telegraph and telephone lines in accordance with the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 305), (4) a right-of-way for roads, highways, tramways, trails, bridges, and appurtenant structures constructed by or under authority of the United States or of any State created out of the Territory of Alaska, in accordance with the act of July 24, 1947 (61 Stat. 418; 48 U. S. C. 321d), and (5) such other reservations, covenants, terms, and conditions as may be deemed proper by the Office of Territories, as well as those which may be required for the protection of the Department of the Interior or any agency thereof.

LOWELL M. PUCKETT,
Regional Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

STEAMSHIP CONFERENCES USING CONTRACT/NON-CONTRACT RATES

NOTICE OF ORAL ARGUMENT

By notice appearing in the FEDERAL REGISTER of July 31, 1952 (17 F. R. 7020), the Board announced that it had under consideration a proposed rule of procedure relating to steamship freight conferences using contract/non-contract rates in the export or import trade of the foreign commerce of the United States. All persons interested in the proposed rule were requested to file written statements and comments thereon, which have been received, and certain parties have requested oral argument.

Notice is hereby given that oral argument will be heard by the Board at Washington, D. C., on October 16, 1952, beginning at 10 o'clock a. m., in Room 4821, Department of Commerce Building, with respect to: (1) Whether the Board has power to require advance filing of the initiation or modification of contract/non-contract rate systems before the latter go into effect, and (2) whether the

Board should require a 60-day or other advance filing requirement.

Other matters which have been presented in the statements and comments of interested parties will receive due consideration by the Board but do not require oral argument.

Parties are requested to notify the Secretary, Federal Maritime Board, Washington 25, D. C., immediately whether they will participate in the oral argument, and if so, the amount of time desired for argument.

Dated: October 6, 1952.

By order of the Federal Maritime Board.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3914]

OHIO EDISON CO.

ORDER PERMITTING EXCHANGE OF UTILITY ASSETS

OCTOBER 3, 1952.

Ohio Edison Company ("Ohio Edison"), a registered holding company and a public utility company, has filed an application-declaration, with amendments thereto, pursuant to sections 9, 10, and 12 (d) of the act and Rule U-44 promulgated thereunder, with respect to certain proposed transactions which are summarized as follows:

Ohio Edison proposes to acquire from Columbus and Southern Ohio Electric Company ("Columbus and Southern"), a non-affiliated public utility company, certain electric distribution and related facilities, serving approximately 1500 retail customers located in Madison, Franklin, Fayette and Union Counties, Ohio. The properties to be conveyed by Columbus and Southern have an estimated gross original cost of approximately $526,000 and an estimated applicable reserve for depreciation of approximately $89,000, which amounts Ohio Edison proposes to record on its books.

In exchange for such properties, Ohio Edison proposes to transfer to Columbus and Southern certain electric distribution and related facilities, serving approximately 1300 retail customers located in Delaware and Franklin Counties, Ohio. A determination of the original cost of these properties, among others, is being made but is not yet completed.

As part of the exchange, Ohio Edison will receive from Columbus and Southern a cash adjustment of approximately $28,200 to reflect the slightly higher value, based on revenues, attributable to the properties to be conveyed by Ohio Edison.

It is stated that the proposed transactions by integrating the properties with closer sources of supply will result in operating economies.

The filing indicates that the transactions proposed by Ohio Edison and Columbus and Southern have been approved by the Public Utilities Commission of Ohio. It is represented that the accounting entries with respect to the proposed acquisition and disposition will be made in accordance with and subject to the requirements of the Uniform System of Accounts of the Federal Power Commission, which system of accounts requires that within six months from the date of acquisition or disposition of properties the proposed journal entries giving effect to the transactions and reflecting the original cost of the properties must be submitted to that Commission for approval. The filing further indicates that when the original cost and accrued depreciation of the properties proposed to be acquired and disposed of are finally determined, Ohio Edison will eliminate and debit amount includible in Account 100.5, Electric Plant Acquisition Adjustments, under the aforementioned system of accounts, with a contra entry to earned surplus or any credit amount by a contra entry to its depreciation reserve.

It is estimated that the expenses to be incurred by Ohio Edison in connection with the proposed transactions will aggregate $6,200, consisting of $1,200 to Commonwealth Services, Inc., $3,000 to J. S. Hartt, independent engineer, $1,500 to Winthrop, Stimson, Putnam & Roberts, counsel for the company, and $500 for miscellaneous expenses. It is requested that the Commission's order herein become effective upon issuance.

Said application-declaration, with the amendments thereto, having been filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect to said joint application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to all the transactions proposed in said application-declaration, as amended, including the proposed acquisition and disposition of electric distribution and related facilities by Ohio Edison, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[File No. 812-803]

COMMONWEALTH FUND INDENTURE OF TRUST AND TRUSTEED FUNDS, INC.

NOTICE OF APPLICATION

OCTOBER 3, 1952.

In the matter of Commonwealth Fund Indenture of Trust, Plans C and D and Trusteed Funds, Inc.; File No. 812-803.

Notice is hereby given that an application has been filed for an order under section 6 (c) of the Investment Company Act of 1940 exempting from the provisions of section 22 (d) of the act the proposed offering of indentures of trust, Plan C of Commonwealth Fund Indenture of Trust, Plans C and D ("Commonwealth") otherwise than at a current public offering price described in the prospectus. Commonwealth is a diversified open-end management company registered under the Investment Company Act of 1940. Its principal underwriter is Trusteed Funds, Inc. ("Trusteed"), a Massachusetts corporation, with offices at 33 State Street, Boston, Massachusetts.

The public offering price of the indentures of trust, Plan C of Commonwealth is the sum of the net asset value of such shares and a sales load which varies according to the amount invested. The sales load is 8.1178 percent of the net asset value (7½ percent of the offering price) except where the initial amount sold is $25,000 or more, said sales load then being reduced to 4.1714 percent of the net asset value (4 percent of the offering price). Such securities are presently sold in units of either $1,000 or any higher sum that is a multiple of $500.

Trusteed now proposes to permit past purchasers of indentures of trust, Plan C to purchase additional and new Plan C holdings in multiples of not less than $100. The sales load for the additional purchases is to be 8.1178 percent of the net asset value (7½ percent of the offering price), except in those instances where the initial purchase or the aggregate holdings at the time of the purchase of additional indentures of trust, Plan C is $25,000 or more, the sales load then to be only 4.1714 per cent of the net asset value (4 percent of the offering price).

For additional details on the matters of fact and law involved, all interested persons are referred to the application, and to the registration statements of Commonwealth on file in the office of the Commission in Washington, D. C.

Notice is further given that an order granting appropriate relief from the provisions of section 22 (d) of the Investment Company Act of 1940, upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after October 22, 1952, unless a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than October 21, 1952, at 5:30 p. m., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 34, as amended, Section 20 (c), Special Order 15]

PEOPLES GAS LIGHT AND COKE CO.

PRICES FOR COLLECTION AGENCY SERVICES SUPPLIED

Statement of considerations. The ceiling price for collection agency services supplied to The Peoples Gas Light and Coke Company, 122 South Michigan Avenue, Chicago 3, Illinois, by its collection agents is adjusted by this Special Order pursuant to section 20 (c) of Ceiling Price Regulation 34, as amended.

This section authorizes the Director of Price Stabilization to adjust ceiling prices of sellers of an essential non-retail service as to which there is a limited supply available. In order to obtain an adjustment under this section, the buyer must demonstrate that he is purchasing an essential non-retail service as to which there is a limited supply available from sellers thereof who are too numerous to make recourse by them to section 20 (b) of Ceiling Price Regulation 34, as amended, practicable. The purchaser must further demonstrate that these sellers are threatening to discontinue supplying him with such service, and in addition, the applicant must agree to absorb any price increase over his sellers' existing ceiling prices, and must so state in his application. The buyer may not apply for or obtain an increase in his suppliers' ceiling prices for the service supplied to him, which would bring the proposed increased ceiling prices in excess of the price he would be required to pay to other suppliers of the same service. The buyer's application must also show the nature and extent of the sellers' direct labor and material cost increases incurred by them since their ceiling prices for that service were established. These cost increases will be considered by the Office of Price Stabilization in determining the amount of price increase which may be granted. Where practicable the purchaser must state the names and addresses of the sellers and the ceiling prices of each seller.

It appears from information submitted in the application that applicant maintains arrangements for the collection of gas bill payments with numerous neighborhood merchants and businesses. The Director of Price Stabilization has determined that the supply of such service is limited; that the increased ceiling prices for collection agency service will not exceed the prevailing prices at which the applicant could purchase the same service; that the applicant's suppliers are threatening to discontinue supplying such service because their ceiling prices are below prevailing rates; that the applicant has agreed to absorb any price increases and will not pass on such increases in the form of increased prices to others; and that the sellers of collection agency service to the applicant are too numerous to make recourse to paragraph 20 (b) of Ceiling Price Regulation 34 practicable. The increased ceiling prices reflect the direct labor and material cost increases incurred by these sellers since their ceiling prices for the service were established, and such increases will not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 20 (c) of Ceiling Price Regulation 34, as amended, this Special Order is hereby issued.

1. The application of The Peoples Gas Light and Coke Company, 122 South Michigan Avenue, Chicago 3, Illinois (hereinafter referred to as The Company) for an adjustment of the ceiling prices which sellers may charge applicant for collection agency service is granted as follows:

On and after the effective date of this Special Order, the ceiling price for collection agency service to The Company by the firms listed below shall be as follows:

$0.04 per bill payment handled to and including 400 such payments per month.
$0.03 per bill payment handled for all over 400 per month.
Minimum compensation—$5.00 per month.

2. The Company may pay to the sellers listed above the increased price determined under paragraph 1 of this Special Order provided that it shall absorb the increase over the former ceiling price and shall not pass on such increase in rates in the form of increased prices to others.

3. Copies of this order shall be provided by The Company to the firms listed above. A copy of this order shall be kept at the place of business of each of these firms and another copy shall be filed by each seller of collection agency service with the appropriate District Office of the Office of Price Stabilization with which each of the firms has filed or is required to file a statement of its ceiling prices under section 18 of Ceiling Price Regulation 34.

4. All requests in the application of The Company not granted herein are denied.

5. All provisions of Ceiling Price Regulation 34, as amended, except as changed by the pricing provisions of this Special Order shall remain in effect.

6. This Special Order or any provisions thereof may be revoked, suspended or amended by the Director of Price Stabilization at any time.

Effective date. This order shall become effective October 4, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 3, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27442]

SCRAP RUBBER FROM NEW ORLEANS, LA., TO BARBERTON, OHIO

APPLICATION FOR RELIEF

OCTOBER 6, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent W. P. Emerson, Jr.'s tariff I. C. C. No. 376, pursuant to fourth-section order No. 15101.

Commodities involved: Scrap rubber, viz: tires or tubes, old, worn out, or similar old worn out rubber articles, carloads.

From: New Orleans, La.

To: Barberton, Ohio.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed

to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

[F. R. Doc. 52-10938; Filed, Oct. 8, 1952; 8:47 a. m.]

[4th Sec. Application 27443]

PREFABRICATED OR PORTABLE HOUSES FROM BATON ROUGE, LA. TO MICHIGAN AND OHIO

APPLICATION FOR RELIEF

OCTOBER 6, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent W. P. Emerson, Jr.'s tariff I. C. C. No. 378, pursuant to fourth-section order No. 16101.

Commodities involved: Houses or garages, wooden, prefabricated or portable, carloads.

From: Baton Rouge, La.

To: Points in Michigan and Ohio.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27444]

FERTILIZER FROM MOREHEAD CITY, N. C., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

OCTOBER 6, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1316.

Commodities involved: Fertilizer materials and urea, carloads.

From: Morehead City, N. C. (applicable on import and intercoastal traffic).

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1316, Supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27445]

RUBBER FROM TEXAS AND LOUISIANA TO DUNKIRK, N. Y.

APPLICATION FOR RELIEF

OCTOBER 6, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariffs I. C. C. Nos. 3967 and 3906.

Commodities involved: Rubber, artificial, synthetic or neoprene, carloads.

From: Points in Texas and Louisiana.

To: Dunkirk, N. Y.

Grounds for relief: Competition with rail carriers ,circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, Supp. 163; F. C. Kratzmeir, Agent, I. C. C. No. 3906, Supp. 145.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27446]

SUPERPHOSPHATE FROM THE SOUTHWEST TO HUTCHINSON, TOPEKA, AND JUNCTION CITY, KANS.

APPLICATION FOR RELIEF

OCTOBER 6, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Superphosphate (acid phosphate), other than ammoniated, carloads.

From: Specified points in the Southwest.

To: Hutchinson, Topeka, and Junction City, Kans.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3919, Supp. 125; F. C. Kratzmeir, Agent, I. C. C. No. 3908, Supp. 121; F. C. Kratzmeir, Agent, I. C. C. No. 3967, Supp. 164; F. C. Kratzmeir, Agent, I. C. C. No. 3906, Supp. 146.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53114]

PART 23—ENFORCEMENT OF CUSTOMS AND NAVIGATION LAWS

NARCOTIC DRUGS AND MARIHUANA

The Secretary of the Treasury, by Treasury Department Order No. 157[1] transferred to the Commissioner of Customs the functions relating to notice and demand to produce order forms for marihuana under section 2593 of the Internal Revenue Code (26 U. S. C. 2593). The said Treasury Department order authorizes the Commissioner of Customs to delegate such functions to subordinates of the Bureau of Customs. Accordingly, § 23.9, Customs Regulations of 1943 (19 CFR 23.9), is hereby amended by deleting the parenthetical matter at the end of paragraph (l) and by adding new paragraph (m) reading as follows:

§ 23.9 *Narcotic drugs and marihuana.*

* * *

(m) The functions relating to the notice and demand to produce order forms for marihuana under section 2593 of the Internal Revenue Code (26 U. S. C. 2593) may be performed by collectors of customs, supervising customs agents, and other officers of the customs.

(R. S. 161, secs. 584, 624, 46 Stat. 748, as amended, 759; 5 U. S. C. 22, 19 U. S. C. 1584, 1624. Reorganization Plan No. 26 of 1950; 3 CFR 1950 Supp., Ch. III)

[SEAL] FRANK DOW, *Commissioner of Customs.*

Approved: October 1, 1952.

E. H. FOLEY, *Acting Secretary of the Treasury.*

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

COMBAT DUTY PAY

A new § 536.60 is added to Part 536, as follows:

§ 536.60 *Claims for combat duty pay under Title VII, Public Law 488, 82d Congress, by former members now separated, retired, or deceased.* Individuals who are now separated or retired and who are entitled to combat pay, not previously paid, will forward their claims to The Adjutant General, Department of the Army, Washington 25, D. C., on DD Form 667. The Adjutant General will make a determination of facts on the form and forward same with any related documents to the Military Pay Division, Finance Center, U. S. Army, Indianapolis 49, Indiana, for processing for payment. Claims on behalf of deceased members, incompetent members, or members who for any reason are unable to submit their own claims, may be submitted by the legal representative or a member of the immediate family of such person. The claim should be accompanied by a letter explaining the reason the former member is unable to submit his own claim, and in the case of deceased veterans the letter should include the name and address of the veteran's next of kin in the following order: Wife, if no wife, children, if no wife or child, parents. If there are no living relatives of the foregoing categories, then the names and addresses of the veteran's brothers and sisters should be stated.

[AR 35-1270, August 13, 1952] (Pub. Law 488, 82d Cong.)

[General Ceiling Price Regulation, Supplementary Regulation 63, Amdt. 5 to Area Milk Price Regulation 12]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 12—SAN FRANCISCO DISTRICT, CALIFORNIA

PRESERVATION OF DIFFERENTIAL BETWEEN PRICES FOR STANDARD MILK ESTABLISHED ACCORDING TO STATE MINIMUM PRICES AND PRICES FOR MILK OTHER THAN STANDARD MILK

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), the Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 41 of the Director of Price Stabilization (16 F. R. 12679) this Amendment 5 to Area Milk Price Regulation 12 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Quoted in the Statement of Considerations for Amendment 3 to AMPR 12 are certain provisions in the Defense Production Act Amendments of 1952 pertaining to the relationship between OPS ceiling prices and minimum prices established by a State regulatory body. Amendment 3 added subsection (c) to Section 1 of AMPR 12 to eliminate any conflict between OPS ceiling prices established by AMPR 12 and minimum prices established by the State of California Bureau of Milk Control.

Information in the hands of the Regional Director establishes that increases in State minimum prices which the State of California Bureau of Milk Control has effected have been within the limits of allowable cost increases as prescribed by Supplementary Regulation 63. Adjustments on margins of fluid milk items other than standard milk have therefore been appropriate. This amendment makes it permissible that State minimum prices for standard milk be used as the reference point for the computation of ceiling prices on other kinds of fluid milk. Such computation is made on the basis of each seller's base period differentials above or below the level of standard whole milk prices. If any future State ordered increase in minimum prices does not fall within Supplementary Regulation 63 criteria, this provision will be revoked and appropriate action will be taken to maintain proper ceiling levels on kinds of fluid milk other than standard.

The functions and territorial coverage of the San Francisco District Office have recently been taken over by the San Francisco Regional Office. Accordingly, AMPR 12 is further amended by substituting a reference to the San Francisco Regional Office in each place where a reference to the San Francisco District Office previously appeared.

In the judgment of the Regional Director the provisions of this amendment to Area Milk Price Regulation No. 12 in Region XII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951, and the Defense Production Act Amendments of 1952.

The Regional Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director consulted the industry involved to the fullest extent practicable prior to the issuance of this amendment to Area Milk Price Regulation No. 12.

AMENDATORY PROVISIONS

Area Milk Price Regulation 12 is amended in the following respects:

1. Subsection (c) of Section 1, as added to the regulation by Amendment 3, is amended by adding the following sentence: "The prices for standard milk so determined shall be the base prices for the computation, pursuant to section 3 of the appendices of this regulation, of prices for standard milk sold in remote areas and of prices for milk other than standard (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk), and, further, shall be the base prices for calculation, pursuant to section 1 (a) (2) above, of prices for sales to types of purchasers other than those specified in the appendices of this regulation."

2. Wherever in the text of the regulatory provisions the phrase "San Francisco District Office" appears there is substituted therefor the phrase "San Francisco Regional Office."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 5 to Area Milk Price Regulation 12 under Supplementary Regulation 63 to the General Ceiling Price Regulation is effective as of October 1, 1952.

JAMES P. KEENE, JR.,
Acting Regional Director,
San Francisco Regional Office.

OCTOBER 9, 1952.

[F. R. Doc. 52-11049; Filed, Oct. 9, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Amdt. 2 to Area Milk Price Regulation 14]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 14—SACRAMENTO DISTRICT, CALIFORNIA

ELIMINATION OF CONFLICT WITH STATE MINIMUM PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 2 to Area Milk Price Regulation 14 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 106 (b) of the Defense Production Act Amendments of 1952 amends paragraph 3 of subsection (d) of section 402 of the Defense Production Act of 1950, as amended, so as to provide that "Where a State regulatory body is authorized to establish minimum and/or maximum prices for sales of fluid milk, ceiling prices established for such sales under this title shall (1) not be less than the minimum prices, or (2) be equal to the maximum prices, established by such regulatory body, as the case may be." Section 111 of the Defense Production Act Amendments of 1952 adds to section 402 of the Defense Production Act of 1950, as amended, a new subsection providing "(1) No rule, regulation, order, or amendment thereto issued under this title shall fix a ceiling on the price paid or received on the sale or delivery of any material in any State below the minimum sales price of such material fixed by the State law (other than any so-

called 'fair trade law') now in effect, or by regulation issued pursuant to such law." This Amendment 2 to AMPR 14 eliminates any conflict between OPS ceiling prices established by AMPR 14 and minimum prices established by the State of California Bureau of Milk Control.

The State of California Bureau of Milk Control has issued orders effective October 1, 1952, which increase processors' and distributors' margins on whole milk in the marketing areas covered by AMPR 14. Information in the hands of the Regional Director establishes that these increases are within the limits of allowable cost increases as prescribed by Supplementary Regulation 63. Adjustments on margins of fluid milk items other than standard milk are, therefore, appropriate. This amendment makes it permissible that State minimum prices for standard milk be used as the reference point for the computation of ceiling prices on other kinds of fluid milk. Such computation is made on the basis of each seller's base period differentials above or below the level of standard whole milk prices. If any future State ordered increase in minimum prices does not fall within Supplementary Regulation 63 criteria, this provision will be revoked and appropriate action will be taken to maintain proper ceiling levels on kinds of fluid milk other than standard.

The functions and territorial coverage of the Sacramento District Office have recently been taken over by the San Francisco Regional Office. Accordingly, AMPR 14 is further amended by substituting a reference to the San Francisco Regional Office in each place where a reference to the Sacramento District Office previously appeared.

The Sutter-Yuba Marketing Area, which originally comprised the California counties of Sutter and Yuba, has been extended by the California State Bureau of Milk Control to include the county of Colusa. It is deemed appropriate that OPS Marketing Areas coincide with marketing areas established by the State Bureau of Milk Control unless violation of Supplementary Regulation 63 criteria results. No such violation results from the inclusion of Colusa County in the Sutter-Yuba Marketing Area. Appendix II of AMPR 14 is therefore amended to indicate that the Sutter-Yuba Marketing Area comprises the counties of Sutter, Yuba and Colusa, California.

The California State Bureau of Milk Control has issued State marketing orders establishing minimum prices for standard milk in the Calaveras-Tuolumne Marketing Area and the Amador-El Dorado Marketing Area. These areas had not previously been covered by either State minimum price orders nor OPS area milk price regulations. Information in the hands of the Regional Director establishes that the minimum prices set by the State for these areas are within the limits of allowable increases over GCPR prices as prescribed by Supplementary Regulation 63. Corresponding adjustments of prices for fluid milk items other than standard milk are also within the criteria of Supplementary Regulation 63. Therefore, Appendix V covering Calaveras-Tuolumne Marketing Area and Appendix VI covering the Amador-El Dorado Marketing Area are added to the regulation.

In the case of the Shasta-Tehama Marketing Area, the currently ordered increase in processors' and distributors' margins is the first to be issued by the State Bureau of Milk Control since the General Ceiling Price Regulation freeze period. Appendix VII is added to give recognition to the increased margins required by the State Bureau of Milk Control for the area. Such increases are within Supplementary Regulation 63 limitations.

In the judgment of the Regional Director the provisions of this amendment to Area Milk Price Regulation No. 14 in Region XII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951, and the Defense Production Act Amendments of 1952.

The Regional Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director consulted the industry involved to the fullest extent practicable prior to the issuance of this amendment to Area Milk Price Regulation No. 14.

AMENDATORY PROVISIONS

Area Milk Price Regulation 14 is amended in the following respects:

1. Section 1 is amended by adding the following subsection thereto:

(c) If a ceiling price otherwise established by this regulation is lower than an applicable corresponding minimum price established by the State of California Bureau of Milk Control, then the ceiling price shall be the minimum price established by the State of California Bureau of Milk Control. The prices for standard milk so determined shall be the base prices for the computation, pursuant to section 3 of the appendices of this regulation, of prices for standard milk sold in remote areas and of prices for milk other than standard (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk), and, further, shall be the base prices for calculation, pursuant to section 1 (a) (2) above, of prices for sales to types of purchasers other than those specified in the appendices of this regulation.

2. Wherever in the text of the regulatory provisions the phrase "Sacramento District Office" appears there is substituted therefor the phrase "San Francisco Regional Office"; and in section 3 (a), for the parenthetical sentence "(The 'Sacramento District Office', as used in this regulation, means the Sacramento District Office of the Office of Price Stabilization located at 1330 Jay Street, Sacramento, California.)" there is substituted the parenthetical sentence "(The 'San Francisco Regional Office', as used in this regulation, means the San Francisco Regional Office of the Office of Price Stabilization located at 870 Market Street, San Francisco, California.)"

3. The introductory statement to Appendix II—Sutter-Yuba Marketing Area, is amended to read: "This appendix covers milk and cream (including sour cream) in the Sutter-Yuba Marketing Area, comprising the counties of Sutter, Yuba, and Colusa, California."

4. Appendix V—Calaveras-Tuolumne Marketing Area, Appendix VI—Amador-El Dorado Marketing Area, and Appendix VII—Shasta-Tehama Marketing Area, which appear hereafter, are added to the regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to Area Milk Price Regulation 14 under Supplementary Regulation 63 to the General Ceiling Price Regulation is effective as of October 1, 1952.

JAMES P. KEENE, JR.
Acting Regional Director,
San Francisco Regional Office.

OCTOBER 9, 1952.

APPENDIX V—CALAVERAS-TUOLUMNE MARKETING AREA

This appendix covers milk and cream (excluding sour cream) in the Calaveras-Tuolumne Marketing Area.

1. For standard milk (including homogenized) ceiling prices are as follows:

Size of container	Wholesale, f. o. b. purchaser's business location	Retail store, carry-out	Retail, home-delivered
Bulk milk, per gallon	$0.72		
Gallon bottle	.80	$0.90	$0.90
Half-gallon container	.40	.45	.45
Quart container	.20	.225	.225
Pint container	.115	.14	.14
Third-quart or three quarter-pint container	.082		
Half-pint container	.066		

2. For the following items the ceiling price is the base period price plus the following additions:

Type of sale	Container size: Per gallon bulk	½ gallon	Quart	Pint	½ pint
Half and half	$0.24	$0.12	$0.06	$0.03	$0.015
Table cream	.40	.20	.10	.05	.025
All-purpose cream	.64	.32	.16	.08	.04
Whipping cream	.72	.36	.18	.09	.045
Other retail sales of standard milk (including homogenized)		.05	.025		

The "other retail sales" referred to above are retail sales f. o. b. distributor's processing plant or producer's ranch.

3. For standard milk (including homogenized) sold in remote areas where the retail store carry-out base period price was in excess of 20 cents per quart or the retail home-delivered base period price was in excess of 20 cents per quart, the ceiling price for all kinds of sales shall be the applicable price provided in subdivision 1, above, plus an amount proportionate (according to container size) to either of such excesses.

For other kinds of fluid milk (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk) the ceiling price shall be the ceiling price as hereinbefore provided for standard milk in the same sized container plus or minus, as the case may be, the dollars-and-cents difference between the seller's base period prices for such kind of milk and standard milk. Ceiling prices so determined under this subdivision shall be reported in accordance with section 3 of this regulation.

4. The prices herein provided are based upon a producer paying price of $5.78 per hundredweight of milk containing 3.8 percent milk fat for Class 1 fluid milk purchased f. o. b. processor's plant, subject to the deductions and additions set forth in Provision 1 of Section A of Article I, of Calaveras-Tuolumne Marketing Area Order No. 2 issued by the State of California Bureau of Milk Control effective October 1, 1952.

5. "Calaveras-Tuolumne Marketing Area" means that area as defined in said Calaveras-Tuolumne Order No. 2.

APPENDIX VI—AMADOR-EL DORADO MARKETING AREA

This appendix covers milk and cream (excluding sour cream) in the Amador-El Dorado Marketing Area.

1. For standard milk (including homogenized) ceiling prices are as follows:

Size of container	Wholesale, f. o. b. purchaser's business location	Retail store, carry-out	Retail, home-delivered
Bulk milk, per gallon	$0.74		
Gallon bottle	.80	$0.90	$0.90
Half-gallon container	.40	.45	.45
Quart container	.20	.225	.225
Pint container	.12	.14	.14
Third-quart or three quarter-pint container	.084		
Half-pint container	.067		

2. For the following items the ceiling price is the base period price plus the following additions:

Type of sale	Container size: Per gallon bulk	½ gallon	Quart	Pint	½ pint
Half and half	$0.24	$0.12	$0.06	$0.03	$0.015
Table cream	.40	.20	.10	.05	.025
All-purpose cream	.64	.32	.16	.08	.04
Whipping cream	.72	.36	.18	.09	.045
Other retail sales of standard milk (including homogenized)		.05	.025		

The "other retail sales" referred to above are retail sales f. o. b. distributor's processing plant or producer's ranch.

3. For standard milk (including homogenized) sold in remote areas where the retail store carry-out base period price was in excess of 20¢ per quart or the retail home-delivered base period price was in excess of 20¢ per quart, the ceiling price for all kinds of sales shall be the applicable price provided in subdivision 1, above, plus an amount proportionate (according to container size) to either of such excesses.

For other kinds of fluid milk (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk) the ceiling price shall be the ceiling price as hereinbefore provided for standard milk in the same sized container plus or minus, as the case may be, the dollars-and-cents difference between the seller's base period prices for such kind of milk and standard milk. Ceiling prices so determined under this subdivision shall be reported in accordance with section 3 of this regulation.

4. The prices herein provided are based upon a producer paying price of $5.63 per hundredweight of milk containing 3.8 percent milk fat for Class 1 fluid milk purchased f. o. b. processor's plant, subject to the deductions and additions set forth in Provision 1 of Section A of Article I, of Amador-El Dorado Order No. 2 issued by the State of California Bureau of Milk Control effective October 1, 1952.

5. "Amador-El Dorado Marketing Area" means that area as defined in said Amador-El Dorado Order No. 2.

APPENDIX VII—SHASTA-TEHAMA MARKETING AREA

This appendix covers milk and cream (excluding sour cream) in the Shasta-Tehama Marketing Area.

1. For standard milk (including homogenized) ceiling prices are as follows:

Size of container	Wholesale, f. o. b. purchaser's business location	Retail store, carry-out	Retail, home-delivered
Bulk milk, per gallon	$0.74		
Gallon bottle	.80	$0.90	$0.90
Half-gallon container	.40	.45	.45
Quart container	.20	.225	.225
Pint container	.12	.14	.14
Third-quart or three quarter-pint container	.084		
Half-pint container	.067		

2. For the following items the ceiling price is the base period price plus the following additions.

Type of sale	Container size: Per gallon bulk	½ gallon	Quart	Pint	½ pint
Half and half	$0.16	$0.08	$0.04	$0.02	$0.01
Table cream	.24	.12	.06	.03	.015
All-purpose cream	.40	.20	.10	.05	.025
Whipping cream	.40	.20	.10	.05	.025
Other retail sales of standard milk (including homogenized)		.05	.025		

The "other retail sales" referred to above are retail sales f. o. b. distributor's processing plant or producer's ranch.

3. For standard milk (including homogenized) sold in remote areas where the retail store carry-out base period price was in excess of 20¢ per quart or the retail home-delivered base period price was in excess of 20¢ per quart, the ceiling price for all kinds of sales shall be the applicable price provided in subdivision 1, above, plus an amount proportionate (according to container size) to either of such excesses.

For other kinds of fluid milk (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk) the ceiling price shall be the ceiling price as hereinbefore provided for standard milk in the same sized container plus or minus, as the case may be, the dollars-and-cents difference between the seller's base period prices for such kind of milk and standard milk. Ceiling prices so determined under this subdivision shall be reported in accordance with section 3 of this regulation.

4. The prices herein provided are based upon a producer paying price of $5.72 per hundredweight of milk containing 3.8 percent milk fat for Class 1 fluid milk purchased f. o. b. processor's plant, subject to the deductions and additions set forth in Provision 1 of Section A of Article I, of Shasta-Tehama Order No. 22 issued by the State of California Bureau of Milk Control effective February 1, 1952.

5. "Shasta-Tehama Marketing Area" means that area as defined in said Shasta-Tehama Order No. 22.

[F. R. Doc. 52-11050; Filed, Oct. 9, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Amdt. 3 to Area Milk Price Regulation 15]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 15—FRESNO DISTRICT, CALIFORNIA

ELIMINATION OF CONFLICT WITH STATE MINIMUM PRICES

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 3 to Area Milk Price Regulation 15 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 106 (b) of the Defense Production Act Amendments of 1952 amends paragraph 3 of subsection (d) of section 402 of the Defense Production Act of 1950, as amended, so as to provide that "Where a State regulatory body is authorized to establish minimum and/or maximum prices for sales of fluid milk, ceiling prices established for such sales under this title shall (1) not be less than the minimum prices, or (2) be equal to the maximum prices, established by such regulatory body, as the case may be." Section 111 of the Defense Production Act Amendments of 1952 adds to section 402 of the Defense Production Act of 1950, as amended, a new subsection providing "(1) No rule, regulation, order, or amendment thereto issued under this title shall fix a ceiling on the price paid or received on the sale or delivery of any material in any State below the minimum sales price of such material fixed by the State law (other than any so-called 'fair trade law') now in effect, or by regulation issued pursuant to such law." This Amendment 3 to AMPR 15 eliminates any conflict between OPS ceiling prices established by AMPR 15 and minimum prices established by the State of California Bureau of Milk Control.

The State of California Bureau of Milk Control has issued orders effective October 1, 1952, which increase processors' and distributors' margins on whole milk in both the Fresno County Marketing Area and the Madera-Merced Marketing Area. Information in the hands of the Regional Director establishes that these increases are within the limits of allowable cost increases as prescribed by Supplementary Regulation 63. Adjustments or margins of fluid milk items other than standard milk are, therefore appropriate. This amendment makes it permissible that State minimum prices

be used as the reference point for the computation of ceiling prices on other kinds of fluid milk. Such computation is made on the basis of each seller's base period differentials above or below the level of standard whole milk prices. If any future State ordered increase in minimum prices does not fall within Supplementary Regulation 63 criteria, this provision will be revoked and appropriate action will be taken to maintain proper ceiling levels on kinds of fluid milk other than standard.

The functions and territorial coverage of the Fresno District Office have recently been taken over by the San Francisco Regional Office. Accordingly, AMPR 15 is further amended by substituting a reference to the San Francisco Regional Office in each place where a reference to the Fresno District Office previously appeared.

In the judgment of the Regional Director the provisions of this amendment to Area Milk Price Regulation No. 15 in Region XII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended by the Defense Production Act Amendments of 1951, and the Defense Production Act Amendments of 1952.

The Regional Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amened; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director consulted the industry involved to the fullest extent practicable prior to the issuance of this amendment to Area Milk Price Regulation No. 15.

AMENDATORY PROVISIONS

Area Milk Price Regulation 15 is amended in the following respects:

1. Section 1 is amended by adding the following subsection thereto:

(c) If a ceiling price otherwise established by this regulation is lower than an applicable corresponding minimum price established by the State of California Bureau of Milk Control, then the ceiling price shall be the minimum price established by the State of California Bureau of Milk Control. The prices for standard milk so determined shall be the base prices for the computation, pursuant to section 3 of the appendices of this regulation, of prices for standard milk sold in remote areas and of prices for milk other than standard (such as buttermilk, chocolate drink, non-fat milk, and special grades of milk), and, further, shall be the base prices for calculation, pursuant to section 1 (a) (2) above, of prices for sales to types of purchasers other than those specified in the appendices of this regulation.

2. Wherever in the text of the regulatory provisions of this regulation the phrase "Fresno District Office" appears there is substituted therefor the phrase "San Francisco Regional Office"; and in section 3 (a) for the parenthetical sentence "(The 'Fresno District Office', as used in this regulation, means the Fresno District Office of the Office of Price Stabilization located at 1550 Van Ness Avenue, Fresno 21, California.)" there is substituted the parenthetical sentence "(The 'San Francisco Regional Office', as used in this regulation, means the San Francisco Regional Office of the Office of Price Stabilization located at 870 Market Street, San Francisco, California.)"

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to Area Milk Price Regulation 15 under Supplementary Regulation 63 to the General Ceiling Price Regulation is effective as of October 1, 1952.

JAMES P. KEENE, Jr.,
Acting Regional Director,
San Francisco Regional Office.

OCTOBER 9, 1952.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Salary Procedural Regulation 2, Revised]

SPR 2—PROCEDURAL REQUIREMENTS REGARDING ENFORCEMENT OF GENERAL SALARY STABILIZATION REGULATIONS, GENERAL SALARY ORDERS, AND DETERMINATIONS

PURPOSE

This regulation sets forth the procedures with respect to the enforcement of General Salary Stabilization Regulations and General Salary Orders issued by the Salary Stabilization Board, and of determinations of the Office of Salary Stabilization.

REGULATORY PROVISIONS

Sec.
1. Definitions.
2. Investigations, inspection authorizations and subpenas.
3. Preliminary letter, conferences and settlements.
4. Disallowance sanctions.
5. Enforcement by disallowance proceedings.
6. Criminal penalties for contraventions.
7. Injunctions and orders enforcing compliance.
8. Effective date.

AUTHORITY: Sections 1 to 8 issued under section 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *Definitions.* (a) "Act" means the Defense Production Act of 1950 and any amendments thereto.

(b) *"Commission"* means the National Enforcement Commission within the Economic Stabilization Agency. (Economic Stabilization Agency General Order No. 18, 17 F. R. 6925).

(c) "Board" means the Salary Stabilization Board.

(d) "Office" means the Office of Salary Stabilization (which includes the National Office in Washington, D. C., and the Regional Offices).

(e) "Chairman of the Board" as used in this regulation means the Chairman of the Salary Stabilization Board and the head of the Office.

(f) "Vice Chairman" as used in this regulation means the Vice Chairman of the Salary Stabilization Board, who in the absence of the Chairman of the Board is the head of the Office.

(g) "Executive Director" means the Executive Director of the Office.

(h) "Chief Counsel" means the Chief Counsel of the Office.

(i) "Regulations" and "Orders" mean the General Salary Stabilization Regulations and General Salary Orders of the Board.

(j) "Determination" means the written decision of the Office upon an application for the approval of a proposed adjustment in the salary or other compensation of one or more employees subject to the jurisdiction of the Board.

(k) "Contravention" means a violation of the act or of any regulation, order or determination issued thereunder.

(l) "Respondent" means a person named in a complaint as an alleged contravener.

(m) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

SEC. 2. *Investigations, inspection authorizations and subpoenas.*—(a) *Investigations.* (1) The Chairman of the Board, the Vice Chairman, the Executive Director, the Chief Counsel, each Regional Director within his area, and any other person designated by the Chairman of the Board is authorized to make, or cause to be made, such investigations, inspections or inquiries as may be necessary or appropriate, in their discretion, relating to the enforcement of the act and the regulations, orders or determinations issued thereunder. No investigation, inspection or inquiry shall be made until the scope and purpose thereof have been defined by the Chairman of the Board or other competent authority designated by the Chairman of the Board and it is assured that no adequate and authoritative data are available from any Federal or other responsible agency.

(b) *Inspection authorizations and subpoenas.* (1) The Chairman of the Board, the Vice Chairman, the Executive Director, the Chief Counsel, or any other person designated by the Chairman of the Board, may issue inspection authorizations and subpoenas in connection with any investigation relating to enforcement of the act and regulations, orders and determinations issued thereunder. No inspection authorization or subpoenas shall be issued until the scope and purpose thereof have been defined by the Chairman of the Board or other competent authority designated by the Chairman of the Board and it is assured that no adequate and authoritative data are available from any Federal or other responsible agency.

SEC. 3. *Preliminary letter, conferences and settlements.* (a) Whenever there appears to be a contravention, a preliminary letter shall be forwarded to the alleged contravener briefly setting forth the nature of the alleged contravention.

(b) Within ten (10) days from the date of receipt of the letter by the alleged contravener, the alleged contravener may request a conference concerning the alleged contravention.

(c) In the event that a conference is requested, the Office shall notify the alleged contravener of the time and place of such conference. At such conference the alleged contravener may appear in person or by attorney and may present appropriate information and arguments.

(d) The alleged contravener may submit a proposal for settlement at any time. Every settlement shall provide assurance of prompt and full compliance thereafter with the act and regulations and orders issued thereunder. All settlements shall be subject to approval by the Chief Counsel and shall be submitted to the Commission for its approval or disapproval in conformity with the provisions of section 8.1 of General Procedural Regulation No. 1, Revised (17 F. R. 7737) and any other applicable regulations issued by the Economic Stabilization Agency.

SEC. 4. *Disallowance sanctions.* (a) Whenever any salary or other compensation has been paid in contravention of the regulations and orders issued pursuant to the act, or determinations made thereunder, the salary or other compensation payment shall be disallowed for one or more of the purposes of:

(1) Calculating deductions or the basis for determining gain under the Revenue Laws of the United States;

(2) Determining costs and expenses under any contract made by or on behalf of the United States, either directly or indirectly;

(3) Establishing any maximum price pursuant to the act; and

(4) Determining the costs or expenses of any person for the purpose of any other law or regulation.

(b) The amount paid or accrued in violation of the Act or regulations, orders or determinations made thereunder which may be disallowed and disregarded shall be the entire amount of salary or other compensation paid or accrued and not merely the amount paid or accrued in excess of the legal maximum of such salary or other compensation; provided that where extenuating and mitigating circumstances exist, of the character described in paragraph (c) of this section, less than the entire amount of such payments or accruals may be disregarded and disallowed; provided further that the general policy shall be to disallow and disregard an amount at least equal to that portion of any payment or accrual in excess of whatever payment was permissible under the governing regulation, order, or determination.

(c) Extenuating and mitigating circumstances which may be taken into account include:

(1) Prompt and voluntary disclosure of possible violation;

(2) Prompt and full cooperation with investigating and other officials;

(3) Prompt remedying of violation of applicable rules, regulations, or orders;

(4) The prompt adoption of adequate measures to prevent repetition of any violation of applicable rules, regulations, or orders;

(5) Inadvertent rather than intentional and wilful violations;

(6) Such other factors as may be appropriate in the particular case.

SEC. 5. *Enforcement by disallowance proceedings.*—(a) *Disallowance proceedings.* Whenever it has been determined that any salary or other compensation has been paid in contravention of the regulations and orders issued under the act, the extent to which any such salary or other compensation payment shall be disregarded by the executive departments and other governmental agencies in determining the costs or expenses of any employer for the purposes of any other law or regulation shall be prescribed in accordance with the provisions of section 405 (b) of the act. Any salary or other compensation paid in contravention of the act, regulations, orders, and determinations issued thereunder may be disallowed in whole or in part for one or more of the purposes set forth in section 4 (a).

(b) *Institution of disallowance proceedings.* Whenever the Office has reason to believe that any person has paid salaries or other compensation in contravention of the act or regulations and orders issued pursuant thereto, or determinations made thereunder, it shall institute disallowance proceedings to ascertain whether a contravention has occurred, and to determine the amount to be certified to and disregarded by the executive departments and other government agencies.

(c) *Parties to disallowance proceedings.* Within the meaning of this regulation the term "parties" shall mean the Chief Counsel, to whom a delegation of authority for this purpose is hereby made, or the representative of the Chief Counsel, the person alleged to have contravened the act or regulations and orders issued pursuant thereto, or determinations made thereunder, and to the extent permitted the person intervening in any enforcement proceedings.

(d) *Complaint and answer.* (1) Whenever it appears that any person has contravened the act or regulations and orders issued pursuant thereto, or determinations made thereunder and the matter is not disposed of by settlement under section 3 (d) of this regulation, the Chief Counsel shall issue a complaint and cause the original thereof and one copy to be filed with the Commission and copies to be served upon all the parties.

(2) The complaint shall set forth (i) a concise statement of the nature of the alleged contravention and the facts alleged to constitute the contravention, (ii) the sanctions applicable thereto, (iii) that the respondent has the right to submit a written answer, together with any pertinent documents in support thereof, (iv) that the respondent has the right to a hearing before the Commission as provided in section 5 (e) hereof, and (v) that where no answer to the complaint is filed the right to a hearing shall be deemed to have been waived.

(e) *Hearings.* (1) The Commission is hereby authorized, designated, and appointed to hold and conduct all hearings that may be required upon any complaint issued by the Office and a delegation of authority is hereby made authorizing the Commission to perform this function and all other functions with respect to determinations as to violations or contraventions of the act, or any regulation or order or directive heretofore or hereafter promulgated thereunder, and the certification and transmission of such determinations to the same extent that the Commission is authorized to perform said functions by Economic Stabilization Agency General Order No. 18 (17 F. R. 6925).

(2) In all proceedings before the Commission the parties shall be governed by the procedures set forth in the applicable provisions of General Procedural Regulation No. 1, Revised (17 F. R. 7737) and any other regulations issued by the Economic Stabilization Agency.

SEC. 6. *Criminal penalties for contraventions.* (a) Whenever the Office has reason to believe that any person has wilfully violated any provision of section 405, Title IV, of the act or any regulation or order issued pursuant to Title VII of the act, it may certify the facts to the Attorney General who may, in his discretion, cause appropriate proceedings to be brought. Any person who wilfully pays or receives any salary or other compensation in contravention of the act or any regulation or order issued pursuant thereto shall upon conviction thereof, be subject to a fine or to imprisonment or both as set forth in section 409 of the act.

(b) Whenever the Office believes that any person has wilfully performed any act prohibited or wilfully fails to perform any act required by the provisions of section 705, Title VII, of the act or any rule, regulation or order issued pursuant thereto concerning testimony, inspection or the production of books, records or other documentary evidence, it may certify the facts to the Attorney General who may, in his discretion, cause appropriate proceedings to be brought. Any person who wilfully performs any act prohibited or wilfully fails to perform any act required by the provisions of section 705, Title VII, of the act, or any rule, regulation or order issued pursuant thereto shall, upon conviction thereof, be subject to a fine or imprisonment, or both, as set forth in section 705.

SEC. 7. *Injunctions and orders enforcing compliance.* (a) Whenever any person has engaged in or is about to engage in any acts or practices which constitute or will constitute a violation of the act or a contravention of any of the regulations or orders issued pursuant to Title IV or Title VII of the act, application may be made to any district court of the United States or any United States court of any territory or other place subject to the jurisdiction of the United States, for an order enjoining such acts or prac-

tices or for an order enforcing compliance with the regulations and orders in question.

(b) Whenever the Office has reason to believe that any person has paid salaries or other compensation in contravention of the act or the regulations, orders and determinations made thereunder, it may certify the facts to the Attorney General who may, in his discretion, seek an order enjoining such acts or practices or an order enforcing compliance with the regulations, orders and determinations in question.

SEC. 8. *Effective date.* This regulation is effective upon publication in the Federal Register.

NOTE: Requirements of this regulation with respect to information to be supplied in connection with answers, petitions, etc., have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JUSTIN MILLER,
Chairman.

Chapter XVII—Housing and Home Finance Agency

[CR 3, Amdt.]

CR 3—RELAXATION OF RESIDENTIAL CREDIT CONTROLS: REGULATION GOVERNING PROCESSING AND APPROVAL OF EXCEPTIONS AND TERMS FOR CRITICAL DEFENSE HOUSING AREAS

Housing and Home Finance Agency Regulation CR 3 (originally issued at 16 F. R. 3835, May 2, 1951, and last amended at 17 F. R. 6585, July 18, 1952) issued pursuant to sections 601 through 605 and section 704 of Pub. Law 775, 81st Cong. (64 Stat. 813, 814, 815, 816), as amended, sections 501, 502, and 902 of Executive Order 10161, September 9, 1950 (15 F. R. 6106), sections 101, 102 and 611 of Pub. Law 139, 82d Congress (65 Stat. 392), paragraph 3 of Executive Order 10296, October 2, 1951 (16 F. R. 10103), and the approval and authorization of the Board of Governors of the Federal Reserve System of HHFA Regulation CR 1 (16 F. R. 3834), May 2, 1951); is hereby amended as follows:

1. Section 1 entitled *Statement of purpose* is amended to read as follows:

SECTION 1. *Statement of purpose.* In order to reduce serious inflationary pressures and to assist in limiting the volume of new residential construction to a level which could have been maintained with the materials and labor available in the light of national defense requirements, restrictions on residential real estate credit (applicable where construction was started after noon of August 3, 1950) were imposed, with the concurrence of the Housing and Home Finance Administrator, by Regulation X (Chapter XV of this title) issued by the Board of Governors of the Federal Reserve System (hereinafter called the "Board"). Related credit restrictions (applicable to both new and old residential property) were contained in regulations of the Federal Housing Commissioner and the Administrator of Veterans' Affairs. Actions restricting residential credit were taken under the authority of Title VI of the Defense Production Act of 1950, approved September 8, 1950, and amendments thereto and of Executive Order 10161, issued September 9, 1950. In order to assist the provision of housing needed for in-migrant defense workers or military personnel and their families where the failure to provide such housing would impede national defense activities, residential credit restrictions were relaxed or modified in critical defense housing areas designated by the Housing and Home Finance Administrator.

In addition thereto, and pursuant to the provisions of Title I of the Defense Housing and Community Facilities and Services Act of 1951, approved September 1, 1951, and of Executive Order 10296, dated October 2, 1951, the Director of Defense Mobilization was authorized, upon a finding that certain conditions set forth in the Defense Housing and Community Facilities and Services Act of 1951 exist, to designate specified areas as critical defense housing areas. The Housing and Home Finance Administrator was also authorized under said Defense Housing and Community Facilities and Services Act of 1951 and under paragraph number 3 of Executive Order 10296, upon such a finding and designation by the Director of Defense Mobilization, to suspend or relax residential real estate credit restrictions imposed under the authority of the Defense Production Act of 1950, as amended.

The purpose of this regulation, issued by the Housing and Home Finance Administrator, was to prescribe uniform conditions and procedures under which exceptions from credit restrictions were made available in the designated critical defense housing areas in order to assure that the housing for which such exceptions were granted (whether or not such housing was financed with Government assistance) would meet the needs of the in-migrant defense workers or military personnel and their families. This procedure for granting exceptions from credit restrictions was in addition to other programs of the Housing and Home Finance Agency designed to assist in meeting such needs in critical defense housing areas. The approval of an application under this regulation (or under Housing and Home Finance Agency Regulation CR 2 which concerned exceptions from credit terms for areas affected by the Savannah River, Paducah (Kentucky), and Idaho Reactor Testing Station installations of the Atomic Energy Commission) was required as a condition to the approval by the Federal Housing Administration of an application for mortgage insurance under the provisions of Title IX (National Defense Housing Insurance) of the National Housing Act, as amended.

On September 15, 1952, following certification by the Secretary of Labor that new non-farm housing starts had fallen below an annual rate of 1,200,000 units for three consecutive months, the Board of Governors of the Federal Reserve System and Housing and Home Finance Administrator acting simultaneously pursuant to the provisions of Title I of the Defense Production Act Amendments of 1952, approved June 30, 1952, providing for a period of residential credit control relaxation upon such a certification by the Secretary of Labor, announced respectively, the suspension of restrictions on residential real estate credit imposed by Regulation X and a relaxation of related credit restrictions in the regulations of the Federal Housing Commissioner and the Administrator of Veterans' Affairs.

2. Section 9 entitled *Where and how builders should apply* and section 14 entitled *Where and how applications should be made*, are amended by adding an additional undesignated paragraph at the end of each reading as follows:

No application will be accepted under the provisions of this section after October 9, 1952. Any applicant whose application was submitted under the provisions of this regulation on or before October 9, 1952, and who has not commenced construction of defense housing under this regulation may elect to be released from the obligations, conditions and restrictions arising out of, or incurred by the execution of, such application and from the terms and provisions of this regulation. To obtain such release, the applicant will be required to file in writing with the local FHA office in which the application was filed a written notice of his intention to withdraw the application filed by him, and, if the application has been approved, such written notice must include a statement that the applicant is surrendering the quota of defense housing allocated to him in the approved application. An applicant who does not elect to be released will have his application processed or treated as provided elsewhere in this regulation and the housing covered by such an approved application will be eligible (if otherwise eligible) for FHA mortgage insurance under Title IX of the National Housing Act and for the special benefits provided in Title III of that Act in connection with purchases by the Federal National Mortgage Association of mortgages covering defense housing programmed by the Housing and Home Finance Administrator. Any applicant who prior to October 10, 1952, has commenced construction of the programmed defense housing described in his approved application, or any applicant whose application was filed prior to October 10, 1952, and who does not elect to be released from the obligations, conditions and restrictions arising out of, or incurred by the execution of, such application and from the terms and provisions of this regulation, shall continue to be bound by all of the obligations, conditions, restrictions and liabilities arising out of or resulting from the execution of the application and from the terms and provisions of this regulation. After October 9, 1952, applications relating to the construction of programmed defense housing may be filed with the local office of the FHA serving the particular critical defense housing area in which the proposed defense housing is to be located, under appropriate regulations of the FHA.

3. Section 18 entitled *Approval of special credit exceptions* and section 19 entitled *Conditions and requirements* are herewith deleted.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 80 to Schedule A]

[Rent Regulation 2, Amdt. 78 to Schedule A]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

PENNSYLVANIA AND WYOMING

These amendments are issued as a result of joint certification(s) pertaining to critical defense housing areas by the Secretary of Defense and the Director of Defense Mobilization under section 204 (1) of the Housing and Rent Act of 1947, as amended, and a determination as to the relaxation of real estate construction credit controls under section 204 (m) of said act.

Effective October 8, 1952, Schedule A of Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 8th day of October 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

No. 199——2

1. Item 267 (Pittsburgh, Pennsylvania, Defense-Rental Area) of Schedule A is amended so that for Class B housing accommodations in the City of New Castle, Lawrence County, Pennsylvania, and in any incorporated municipality in said county in which rent stabilization terminated on September 30, 1952, in accordance with the provisions of section 204 (f) (1) of the Housing and Rent Act of 1947, as amended, the maximum rent date is September 30, 1952, and the effective date of regulation is October 8, 1952.

2. Item 368 (Casper, Wyoming, Defense-Rental Area) of Schedule A is amended so that for Class B housing accommodations in the City of Casper in Natrona County, Wyoming, the maximum rent date is September 30, 1952, and the effective date of regulation is October 8, 1952.

[Rent Regulation 1, Amdt. 19 to Schedule B]

[Rent Regulation 2, Amdt. 20 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREAS OR PORTIONS THEREOF

CINCINNATI, OHIO, DEFENSE RENTAL AREA

Effective October 13, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 8th day of October 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

1. A new item 64 is added to Schedule B of Rent Regulation 1—Housing, reading as follows:

64. Provisions relating to Hamilton County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area (Item 227 of Schedule A):

With respect to housing accommodations in Hamilton County, Ohio, section 141 of this regulation is changed to read as follows:

SEC. 141. *Alternate adjustment for increase in costs and prices.* The present maximum rent for the housing accommodation does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable housing accomodations on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947 for the housing accommodation or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however*, That the Director shall give appropriate consideration to orders issued under sections 157 or 162 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director.

All provisions of this regulation insofar as they are applicable to Hamilton County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this item 64 of Schedule B.

2. A new item 70 is added to Schedule B of Rent Regulation 2, reading as follows:

70. Provisions relating to Hamilton County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area (Item 227 of Schedule A):

With respect to housing accommodations in Hamilton County, Ohio, section 138 is added to this regulation to read as follows:

SEC. 138. *Alternate adjustment for increases in costs and prices.* The present maximum rent for the room does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable rooms on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation, for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the room or comparable rooms, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however*, That the Director shall give appropriate consideration to orders issued under section 157 or 160 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director.

All provisions of this regulation insofar as they are applicable to Hamilton County, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area, are amended to the extent necessary to carry into effect the provisions of this item 70 of Schedule B.

[Rent Regulation 1, Amdt. 20 to Schedule B]

[Rent Regulation 2, Amdt. 21 to Schedule B]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREAS OR PORTIONS THEREOF

PENNSYLVANIA AND WYOMING

Effective October 8, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 8th day of October 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

1. A new item 65 is added to Schedule B of Rent Regulation 1 and a new item 71 is added to Schedule B of Rent Regulation 2, reading as follows:

Provisions relating to the City of New Castle in Lawrence County, Pennsylvania, and to any incorporated municipality in said county in which rent stabilization terminated on September 30, 1952, portions of the Pittsburgh, Pennsylvania Defense-Rental Area (Item 267 of Schedule A):

Section 91 et seq. of this regulation, relating to the establishment of maximum rents shall be applicable instead of section 81, et seq. relating to the establishment of maximum rents.

All provisions of this regulation insofar as they are applicable to the territory to which this item of Schedule B relates, are amended to the extent necessary to carry into effect the provisions of this item of Schedule B.

2. A new item 66 is added to Schedule B of Rent Regulation 1 and a new item 72 is added to Schedule B of Rent Regulation 2, reading as follows:

Provisions relating to the City of Casper in Natrona County, Wyoming in the Casper, Wyoming Defense-Rental Area (Item 368 of Schedule A):

Section 91, et seq. of this regulation, relating to the establishment of maximum rents shall be applicable instead of section 81, et seq. relating to the establishment of maximum rents.

All provisions of this regulation insofar as they are applicable to the territory to which this item of Schedule B relates, are amended to the extent necessary to carry into effect the provisions of this item of Schedule B.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

FORT CLAYTON, COROZAL, AND CURUNDU ARMY RESERVATIONS, AND ALBROOK AIR FORCE BASE, CANAL ZONE

CROSS REFERENCE: For amendment to the tabulation in § 21.3, insofar as it relates to Fort Clayton, Corozal, and Curundu Army Reservations, and Albrook Air Force Base, see Canal Zone Order 29 in Appendix to this chapter, *infra*.

Appendix—Canal Zone Orders

[Canal Zone Order 29]

FORT CLAYTON, COROZAL, AND CURUNDU ARMY RESERVATIONS, AND ALBROOK AIR FORCE BASE, CANAL ZONE

SETTING APART OF RESERVATIONS; BOUNDARIES; CONDITIONS AND LIMITATIONS

By virtue of the authority vested in the President of the United States by section 5 of title 2 of the Canal Zone Code, as amended by section 1 of Act September 26, 1950, 64 Stat. 1038, and delegated to me by Executive Order No. 9746 of July 1, 1946, as amended by Executive Order No. 10101 of January 31, 1950, and after consultation with the Secretary of the Air Force in the case of Albrook Air Force Base, it is ordered as follows:

SECTION 1. *Setting apart of reservations; boundaries.* The areas of land in the Canal Zone hereinafter described as Fort Clayton Army Reservation (one parcel), Corozal Army Reservation (four parcels), Curundu Army Reservation (one parcel), and Albrook Air Force Base (five parcels), are hereby set apart and assigned as follows: Fort Clayton, Corozal, and Curundu Army Reservations to the uses and purposes of Army reservations, and to be under the control and jurisdiction of the Secretary of the Army, subject to the provisions of section 2 of this order; and Albrook Air Force Base to the uses and purposes of an Air Force reservation, and to be under the control and jurisdiction of the Secretary of the Air Force, subject to the provisions of section 2 of this order.

FORT CLAYTON ARMY RESERVATION

Beginning at monument No. 55, which is a 1½-inch iron pipe set in concrete, located on the eastern portion of the Canal Zone-Republic of Panama boundary, between monuments Nos. 88 and 89, the geodetic position of which, referred to the Canal Zone triangulation system, is in latitude 9°01' N. plus 6,041.0 feet and longitude 79°31' W. plus 3,586.9 feet from Greenwich.

Thence from said initial point by metes and bounds:

Due West, 218.6 feet, to monument No. 1, which is a 1½-inch iron pipe set in concrete, located on a hillside in an open field;

S. 89° 59' W., 249.6 feet to monument No. 2, which is a 1½-inch iron pipe set in concrete, located on the eastern bank of a branch of the Rio Abajo;

Due West, 7,113.7 feet, through monuments Nos. 3, 4 and 5, which are 1½-inch iron pipes set in concrete, to monument No. 6, which is a ½-inch copper plug set in a 10-inch square concrete block, located on top of a high hill, west of the east fork of the Rio Cardenas, the distances being 1,266.4 feet, 839.2 feet, 2,055.2 feet and 2,952.9 feet, successively, from beginning of the course;

N. 89° 59' W., 3,864.6 feet, through monument No. 7, which is a 1½-inch iron pipe set in concrete, to monument No. 8, which is a 1½-inch iron pipe set in concrete, located on the side of a high hill, the distances being 2,504.1 feet and 1,360.5 feet, successively, from begining of the course.

N. 89° 57' W., 1,225.0 feet, to monument No. 9, which is a 1½-inch iron pipe set in concrete, located on the easterly side of the trail along the east bank of Rio Cardenas;

S. 89° 46' W., 200.3 feet, to monument No. 10, which is a 1½-inch iron pipe set in concrete, located on the west bank of the Rio Cardenas;

N. 89° 55' W., 413.3 feet, to monument No. 11, which is a 1½-inch iron pipe set in concrete, located on a small hill;

N. 89° 57' W., 1,255.1 feet, to monument No. 12, which is a 1½-inch iron pipe set in concrete, located on the edge of a high hill, 20 feet north of the boundary trail;

N. 89° 56' W., 172.7 feet, to monument No. 13, which is a 1½-inch iron pipe set in concrete, located on the above mentioned hill and on the north side of the boundary trail;

N. 89° 47' W., 1,231.5 feet, to monument No. 14, which is a 1½-inch iron pipe set in concrete, located in the rock bed of the east fork of the Rio Guanabano;

Due West, 874.6 feet, to monument No. 15, which is a 1½-inch iron pipe set in concrete, located on the southern slope of a steep rocky hill, north of the boundary trail;

N. 89° 56' W., 2,131.6 feet, to monument No. 16, which is a 1½-inch iron pipe set in concrete, located on the west bank of the west fork of the Rio Guanabano;

N. 89° 49' W., 1,015.2 feet, to monument No. 17, which is a 1½-inch iron pipe set in concrete, located about 20 feet west of the Panama-Cruces Trail;

N. 89° 58' W., 1,417.1 feet, to monument No. 18, which is a 1½-inch iron pipe set in concrete, located on the west side of the Chiva-Chiva Trail, 15 feet south of the wire fence of the various Canal Zone Farm Leases;

N. 89° 44' 30" W., 961.8 feet, to monument No. 19, which is a 2-inch iron pipe set in concrete, located on the east bank of the Rio Camaron;

N. 89° 54' 10" W., 331.2 feet, to monument No. 19–1, which is a 2-inch iron pipe;

N. 89° 56' 40" W., 1,498.0 feet, to monument No. 19–2, which is a 12-inch square concrete monument;

N. 00° 35' E., 504.0 feet, to monument No. 19–3, which is a 3-inch iron pipe set in concrete;

N. 21° 00' W., 410.0 feet, to monument No. 19–4, which is a 12-inch square concrete monument;

Due West, 506.0 feet, through monuments Nos. 19–5 and 19–6, which are 12-inch square concrete monuments, to monument No. 19–7, which is a 12-inch square concrete monument, the distances being 206.0 feet, 115.0 feet and 185.0 feet, successively, from beginning of the course;

S. 22° 31' W., 406.0 feet, to monument No. 19–8, which is a 12-inch square concrete monument;

S. 07° 27' W., 514.9 feet, through monument No. 19–9, which is a 12-inch square concrete monument, to monument No. 19–10, which is a 12-inch square concrete monument, the distances being 322.4 feet and 192.5 feet, successively, from beginning of the course;

N. 89° 52' W., 2,127.7 feet, through monuments Nos. 21, which is a 1½-inch iron pipe set in concrete, and 22, which is an 8-inch square concrete monument, to monument No. 22–A, which is an 8-inch square concrete monument, located on the easterly bank of the Caimitillo Arm of Miraflores Lake, the distances being 1,314.9 feet, 794.9 feet and 17.9 feet, successively, from beginning of the course. The geodetic position of monument No. 22–A is in latitude 9°02' N. plus 19.8 feet and longitude 79°36' W. plus 728.8 feet;

Southerly and northeasterly, along the 55 foot contour on the easterly bank of the Caimitillo Arm of Miraflores Lake to monument No. 22–B, which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 9°01' N. plus 4,575.6 feet and longitude 79°35' W. plus 5,555.9 feet;

N. 82° 25' 30" E., 50.6 feet, to monument No. 22–C, which is a 3-inch iron pipe set in concrete, located on the 55 foot contour on the easterly bank of the Caimitillo Arm of Miraflores Lake;

Southerly, along the above mentioned 55 foot contour, to monument No. 23, which is a ⅜-inch brass plug set in an 8-inch square concrete monument, located 100 feet northerly and at right angles from the centerline of Gaillard Highway pavement, the geodetic position of which is in latitude 9°00' N. plus 5,494.7 feet and longitude 79°35' W. plus 5,833.0 feet;

Southerly and southeasterly, along a line parallel to, and 100 feet from the centerline of Gaillard Highway pavement to monument "X", which is a 2½-inch iron pipe set in concrete, located beside a cyclone fence, near the most westerly gate of the Post of Fort Clayton, the geodetic position of which is in latitude 9°00' N. plus 2,312.7 feet and longitude 79°35' W. plus 3,795.3 feet;

S. 33° 35' 00" W., 70.4 feet, to monument "A", which is a 2½-inch iron pipe set in concrete, located at the corner of the above mentioned cyclone fence;

S. 57° 00' 10" E., 1,123.4 feet, along the above mentioned cyclone fence, to monument "B", which is a 2½-inch iron pipe set in concrete;

S. 54° 29' 40" E., 187.3 feet, along the above mentioned cyclone fence, to monument "C", which is a 2½-inch iron pipe set in concrete;

S. 35° 38' 10" E., 279.7 feet, along the above mentioned cyclone fence, to monument "D", which is a 2½-inch iron pipe set in concrete;

S. 35° 38' 30" E., 675.0 feet, along the above mentioned cyclone fence, to monument "E", which is a 2½-inch iron pipe set in concrete;

S. 52° 42' 00" E., 25.9 feet, along the above mentioned cyclone fence, to monument "F", which is a 2½-inch iron pipe set in concrete;

S. 35° 38' 20" E., 1,239.8 feet, along the above mentioned cyclone fence, to monument "G", which is a 2½-inch iron pipe set in concrete;

S. 35° 39' 00" E., 766.1 feet, along the above mentioned cyclone fence, to monument "H", which is a 2½-inch iron pipe set in concrete;

S. 35° 39' 00" E., 932.8 feet, along the above mentioned cyclone fence, to monument "I", which is 2½-inch iron pipe set in concrete;

S. 34° 14' 10" E., 320.4 feet, along the above mentioned cyclone fence, to monument "J", which is a 2½-inch iron pipe set in concrete;

S. 35° 11' 00" E., 407.9 feet, to monument "K", which is a 2½-inch iron pipe set in concrete, located at the corner of a cyclone fence;

S. 33° 50' 40" E., 210.7 feet, along the above mentioned cyclone fence, to monument "L", which is a 2½-inch iron pipe set in concrete;

S. 85° 43' 30" E., 36.5 feet, along the above mentioned cyclone fence, to monument "M", which is a 2½-inch iron pipe set in concrete;

N. 71° 23' 40" E., 24.3 feet, along the above mentioned cyclone fence, to monument "N", which is a 2½-inch iron pipe set in concrete, located 100 feet from the centerline of the Gaillard Highway pavement, at the top of the right bank of the Rio Cardenas.

Southeasterly, along a line parallel to, and 100 feet from the centerline of the Gaillard Highway pavement, to monument No. 26–A, which is a brass plug in an 8-inch square concrete post, the geodetic position of which is in latitude 8°59' N. plus 2,542.4 feet and longitude 79°34' W. plus 4,995.3 feet;

N. 47° 17' 10" E., 813.2 feet, through monuments Nos. 26–1, which is a 2-inch iron pipe set in concrete, and 26–2, which is a 2½-inch iron pipe set in concrete, to monument No. 27, which is a brass plug in an 8-inch square concrete post, the distances being 236.1 feet, 337.3 feet and 239.8 feet, successively, from beginning of the course;

N. 28° 48' 50" E., 1,832.7 feet, through monuments Nos. 27–1, 27–2, 27–3, 27–4, 27–5, 27–6, and 27–7, which are 2½-inch iron pipes set in concrete, to monument No. 27–8, which is a brass plug in an 8-inch square concrete post, the distances being 140.4 feet, 258.5 feet, 202.6 feet, 312.0 feet, 452.9 feet, 212.9 feet, 150.3 feet and 103.1 feet, successively, from beginning of the course;

N. 20° 39' 40" E., 1,005.4 feet, through monuments Nos. 28, 28–1 and 28–2, which are 2½-inch iron pipes set in concrete, to monument No. 29, which is a brass plug in an 8-inch square concrete post, the distances being 348.1 feet, 306.0 feet, 151.2 feet and 200.1 feet, successively, from beginning of the course;

N. 20° 03' 20" W., 576.2 feet, through monument No. 29–1, which is a 2½-inch iron pipe set in concrete, to monument No. 30, which is a brass plug set in the upstream curb, near the southeast corner of the unused concrete bridge across the Rio Cardenas, the distances being 516.3 feet and 59.9 feet, successively, from beginning of the course;

Upstream, along the left bank of the Rio Cardenas, to monument No. 31, which is a 2-inch iron pipe set in concrete, located on the right bank of the Rio Dos Bocas, the geodetic position of which is in latitude 9°00' N. plus 900.8 feet and longitude 79°34' W. plus 3,399.0 feet;

Upstream, in an easterly direction, along the right bank of the Rio Dos Bocas, to monument No. 32, which is a 2-inch iron pipe set in an 8-inch square concrete post, located westerly from the C–8 Road, the geodetic position of which is in latitude 9°00' N. plus 958.7 feet and in longitude 79°34' W. plus 754.0 feet;

S. 36° 09' 30" E., 78.0 feet, to monument No. 33, which is a 2-inch iron pipe set in an 8-inch square concrete post, located easterly from the C–8 Road, on the right bank of the Rio Dos Bocas;

Upstream, in an easterly direction, along the right bank of the Rio Dos Bocas, to monument No. 34, which is a 2½-inch iron pipe set in an 8-inch square concrete post, located 100 feet southerly from the centerline of the C–12 Road, the geodetic position of which is in latitude 9°00' N. plus 1,507.6 feet and in longitude 79°33' W. plus 4,994.6 feet;

Northwesterly, parallel to, and 100 feet from the centerline of the C–12 Road, to monument No. 35, which is a 3-inch iron pipe set in an 8-inch square concrete post, the geodetic position of which is in latitude 9°00' N. plus 1,639.7 feet and in longitude 79°33' W. plus 5,253.7 feet;

N. 16° 05' 00" E., 130.4 feet, to monument No. 41, which is a 2-inch iron pipe, located on the northerly side of the C–12 Road, at the southwest corner of the gasoline storage area;

N. 09° 00' 00" E., 921.0 feet, through monument No. 40, which is a 2-inch iron pipe, to monument No. 39, which is a 2-inch iron pipe, located at the northwest corner of the gasoline storage area, the distances being 601.0 feet and 320.0 feet, successively, from beginning of the course;

Due North, 4,419.5 feet, through monuments Nos. 38 to 25 inclusive, which are 2-inch iron pipes, to monument No. 24, which is a 3-inch iron pipe, the distances being 527.2 feet, 567.5 feet, 190.5 feet, 188.5 feet 226.4 feet, 315.0 feet, 281.4 feet, 199.1 feet, 290.6 feet, 382.3 feet, 106.9 feet, 383.5 feet, 355.6 feet, 278.8 feet and 126.2 feet, successively, from beginning of the course;

Due East, 8,000.1 feet, through monuments Nos. 23 to 4 inclusive, which are 2-inch iron pipes, to monument No. 3, which is a 2-inch iron pipe, the distance being 134.5 feet, 591.3 feet, 196.0 feet, 571.9 feet, 384.3 feet, 744.4 feet, 142.7 feet, 870.9 feet, 461.7 feet, 290.7 feet, 519.1 feet, 449.3 feet, 327.5 feet, 385.0 feet, 101.5 feet, 299.9 feet, 171.9 feet, 360.9 feet, 302.0 feet, 220.2 feet and 474.4 feet, successively, from beginning of the course;

N. 89° 59' 20" E., 616.1 feet, through monuments Nos. 2, which is a 1½-inch iron pipe, and 1, which is a 2-inch iron pipe, to monument "E", which is a brass plug set in a 10-inch square concrete post, located on the Canal Zone-Republic of Panama boundary, in the center of the Rio Curundu, the geodetic position of which is in latitude 9°01' N., plus 1,046.6 feet and longitude 79°32' W. plus 2,469.6 feet, the distances being 427.7 feet, 64.0 feet and 124.4 feet, successively, from beginning of the course;

N. 63° 30' 00" E., 6,611.6 feet, along the Canal Zone-Republic of Panama boundary, through monuments Nos. E–1 to E–21 inclusive, (monuments E–1, E–18 and E–21 are iron rail; monuments E–2, E–3, E–4, E–6, E–7, E–8, E–9, E–10, E–12, E–14, E–15, E–16, E–17, E–19 and E–20 are 2-inch iron pipes set in concrete; E–5, E–11 and E–13 are square concrete posts) to monument "F", which is a square concrete post, the geodetic position of which is in latitude 9°01' N. plus 3,996.4 feet and longitude 79°31' W. plus 2,564.4 feet, the distances being 179.2 feet, 99.6 feet, 156.7 feet, 500.0 feet, 500.0 feet, 313.8 feet, 500.0 feet, 500.0 feet, 500.0 feet, 150.0 feet, 25.0 feet, 475.0 feet, 212.0 feet, 54.8 feet, 42.5 feet, 372.9 feet, 500.0 feet, 500.0 feet, 381.5 feet, 300.0 feet, 160.0 feet and 238.6 feet, successively, from beginning of the course;

N. 26° 31' W., 411.3 feet, to Canal Zone-Republic of Panama boundary monument No. 90, which is a 4-inch iron pipe with a brass cap;

N. 26° 32' W., 1112.7 feet, to Canal Zone-Republic of Panama boundary monument No. 89 which is a 4-inch iron pipe with a brass cap;

N. 26° 30' W., 766.0 feet, to monument No. 55, the point of beginning.

The directions of the lines refer to the true meridian. The area of Fort Clayton Army Reservation is 4782.8 acres, more or less, and is as shown on Canal Zone Government Drawing No. 6116–34, entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu, and Albrook Air Force Base, Canal Zone", scale 1:10,000, dated May 29, 1952, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

COROZAL ARMY RESERVATION

PARCEL NO. 1 (EAST OF GAILLARD HIGHWAY)

Beginning at monument No. 19, which is a 2-inch iron pipe, located on a hillside, easterly from the Army Finance Office in the Post of Corozal, the geodetic position of which is in latitude 8°59' N. plus 390.9 feet and longitude 79°34' W. plus 580.9 feet. Monument No. 19 is on the westerly boundary of Albrook Air Force Base (Parcel No. 2).

Thence from said initial point by metes and bounds:

N. 01° 26' 30" W., 1,563.8 feet, along the westerly boundary of Albrook Air Force Base (Parcel No. 2), through monuments Nos. 20, 21 and 22, which are 2-inch iron pipes, to monument No. 23, which is an 8-inch square concrete post, further described as old Curundu Military Reservation boundary monument No. 33, on top of Corozal Hill, the distances being 384.3 feet, 583.5 feet, 360.2 feet and 235.8 feet, successively, from beginning of the course;

S. 60° 09' 30" W., 2,524.3 feet, through monuments Nos. 33–1 and 33–2, which are 2-inch iron pipes, located on opposite sides of the C–8 Road, 33–3 and 33–4, which are 2½-inch iron pipes, to monument No. 37, which is an 8-inch square concrete post, the distances being 1,044.3 feet, 64.6 feet, 598.5 feet, 391.8 feet and 425.1 feet, successively, from beginning of the course;

S. 47° 58' 20" W., 178.8 feet, to monument "A", which is an 8-inch square concrete monument, located on the southwesterly side of the short street in front of the Chapel in the Post of Corozal;

N. 49° 04' 30" W., 42.4 feet, to monument B–1, which is a brass plug, located in the southwesterly curb of the short street in front of the Chapel in the Post of Corozal;

N. 76° 19' 20" W., 23.8 feet, to monument A–3, which is a brass plug in the curb on the southeasterly side of Hospital Road;

S. 48° 20' 50" W., 189.9 feet, to monument A–2, which is a brass plug in the southeasterly curb of Hospital Road;

S. 09° 01' 50" W., 5.2 feet, to monument A–1, which is a brass plug in the easterly curb of Gaillard Highway;

S. 43° 53' 30" E., 70.8 feet, to monument "B", which is a 3-inch iron pipe set in concrete, located on the easterly side of Gaillard Highway, northwesterly from the Army Telephone Exchange building;

S. 40° 55' 30" E., 542.8 feet, along the easterly side of Gaillard Highway to monument 47–A, which is a 3-inch iron pipe, located 10.0 feet northwesterly from the prolongation of the northwesterly edge of the concrete pavement of a street extending northeasterly from Corozal Railroad Station to the Post of Corozal Theater;

Northeasterly, along a line parallel to and 10.0 feet from the northwesterly edge of the above mentioned street pavement to monument 47–E, which is a 3-inch iron pipe located 65 feet southwesterly from the centerline of the concrete pavement of the 26 foot wide street extending from the Post of Corozal Theater to the Army Finance Building,

the geodetic position of which is in latitude 8°59' N. plus 906.0 feet and longtitude 79°34' W. plus 1,509.1 feet;

S. 25° 42' 40" E., 50.0 feet, to monument 47–F, which is a 3-inch iron pipe;

S. 36° 34' 00" E., 145.2 feet, to monument 47–G, which is a 3-inch iron pipe;

N. 46° 26' 20" E., 26.0 feet, to monument 47–H, which is a 3-inch iron pipe located 39.0 feet southwesterly from the centerline of the concrete pavement of the 26 foot wide street extending from the Post of Corozal Theater to the Army Finance Building;

Southeasterly, along a line parallel to, and 39.0 feet southwesterly from the centerline of the pavement of the above mentioned street, to monument No. 17–A, which is a 3-inch iron pipe, located on the southerly side of a cyclone fence, on the westerly boundary of Albrook Air Force Base (Parcel No. 2), the geodetic position of which is in latitude 8°59' N. plus 247.0 feet and longitude 79°34' W. plus 838.5 feet;

N. 73° 51' 30" E., 51.8 feet, along the above mentioned cyclone fence, to monument No. 18, which is a brass plug in a concrete road pavement near the Army Finance Office;

N. 58° 02' 30" E., 244.7 feet, along the above mentioned cyclone fence and its prolongation, to monument No. 19, the point of beginning.

PARCEL NO. 1–A (EAST OF GAILLARD HIGHWAY)

Beginning at monument "J," which is a 3-inch iron pipe set in concrete, located on the outside of a cyclone fence on the northeasterly side of Gaillard Highway and northeasterly from the spur railroad track leading to the Army Quartermaster Warehouse in the Post of Corozal, the geodetic position of which, referred to the Canal Zone triangulation system, is in latitude 8°58' N. plus 4,872.5 feet and longitude 79°34' W. plus 1,925.2 feet.

Thence from said initial point by metes and bounds:

Southeasterly, along the outside of the above mentioned cyclone fence, on the northeasterly side of Gaillard Highway, along the following courses:

S. 45° 17' 00" W., 19.0 feet, to monument "K," which is a 3-inch iron pipe set in concrete;

S. 29° 49' 00" E., 77.2 feet, to monument "L," which is a 3-inch iron pipe set in concrete;

S. 31° 51' 30" E., 243.7 feet, to monument "M," which is a 3-inch iron pipe set in concrete;

S. 33° 02' 50" E., 292.9 feet, to monument "N," which is a 3-inch iron pipe set in concrete;

S. 34° 03' 10" E., 312.7 feet, to monument "O," which is a 2½-inch iron pipe set in concrete;

S. 34° 50' 10" E., 382.5 feet, to monument "P," which is a 3-inch iron pipe set in concrete;

S. 34° 12' 30" E., 339.4 feet, crossing the entrance roads to Gate No. 8 of the Post of Corozal, to monument "Q," which is a 2-inch iron pipe, located back of the curb on the northeasterly side of Gaillard Highway;

N. 15° 38' 40" W., 95.3 feet, to monument "R," which is a 2-inch iron pipe;

N. 26° 38' 20" E., 93.9 feet, to monument "S," which is a 2-inch iron pipe, located inside a cyclone fence;

N. 67° 10' 50" E., 143.8 feet, to monument "T," which is a 2-inch iron pipe;

N. 17° 03' 00" E., 150.4 feet, to monument "U," which is a 2-inch iron pipe;

N. 09° 14' 50" E., 111.1 feet, to monument "V", which is a 3-inch iron pipe;

N. 13° 56' 20" W., 216.1 feet, to monument "W", which is a 2½-inch iron pipe;

N. 38° 43' 20" W., 125.7 feet, to monument "X", which is a 2-inch iron pipe;

N. 50° 36' 20" W., 166.0 feet, to monument "Y", which is a 2-inch iron pipe;

N. 60° 03' 00" W., 978.0 feet, through monument "Z", which is a 2-inch iron pipe, to monument "J", the point of beginning, the distances being 167.3 feet and 810.7 feet, successively, from beginning of the course.

PARCEL NO. 1–B (EAST OF GAILLARD HIGHWAY)

Beginning at monument "A", which is a 2-inch iron pipe, located on the easterly side of a macadam road and southerly from the diesel power plant, the geodetic position of which is in latitude 8°58' N. plus 4,085.6 feet and 79°34' W. plus 783.0 feet from Greenwich.

Thence from said initial point by metes and bounds:

N. 22° 20' 00" W., 159.2 feet, to monument "B", which is a 2½-inch iron pipe, located northwesterly from the diesel power plant;

N. 58° 20' 00" E., 72.1 feet, along the northwesterly side of the diesel power plant to monument "C", which is a 2-inch iron pipe;

S. 31° 36' 00" E., 111.9 feet, along the northeasterly side of the diesel power plant to monument "D", which is a 2-inch iron pipe;

S. 58° 15' 00" W., 45.9 feet, along the southeasterly side of the diesel power plant, to monument "E", which is a 2-inch iron pipe;

S. 31° 36' 00" E., 51.4 feet, to monument "F", which is a 2-inch iron pipe;

S. 65° 10' 00" W., 52.2 feet, to monument "A", the point of beginning.

PARCEL NO. 2 (WEST OF GAILLARD HIGHWAY)

Beginning at monument "A", which is a 3-inch iron pipe set in concrete, located on the easterly bank of the Rio Grande, approximately 800 feet southerly from the junction of the Rio Cardenas, the geodetic position of which is in latitude 8°59' N. plus 2,353.3 feet and longitude 79°34' W. plus 5,915.7 feet.

Thence from said initial point by metes and bounds:

Due East, 24.6 feet, to monument "B", which is a 2-inch iron pipe set in concrete;

S. 54° 11' 30" E., 668.4 feet, to monument "E", which is a 1½-inch iron pipe set in concrete, located at the northeasterly side of a cyclone fence;

S. 49° 58' 30" E., 1,289.4 feet, along the above mentioned cyclone fence, to monument "G", which is a 3-inch iron pipe set in concrete;

S. 23° 20' 30" E., 139.0 feet, along the above mentioned cyclone fence, to monument "H", which is a 3-inch iron pipe set in concrete;

S. 18° 50' 20" E., 173.1 feet, along the above mentioned cyclone fence, to monument "I", which is a 3-inch iron pipe set in concrete;

N. 74° 18' 00" E., 20.9 feet, along the above mentioned cyclone fence, to monument "J", which is a 3-inch iron pipe set in concrete;

S. 23° 00' 30" E., 83.0 feet, along the above mentioned cyclone fence, to monument "K", which is a brass plug set in a concrete platform;

S. 29° 02' 00" W., 4.9 feet, through the above mentioned cyclone fence, to monument "L", which is a 3-inch iron pipe set in concrete;

S. 38° 11' 30" E., 149.9 feet, along the above mentioned cyclone fence, to monument "M", which is a brass plug set in a concrete platform;

S. 53° 12' 50" E., 145.3 feet, to monument "N", which is a 3-inch iron pipe set in concrete;

N. 37° 55' 30" E., 235.4 feet, to monument "O", which is a 3-inch iron pipe set in concrete, located on the northeasterly side of a cyclone fence, on the southwesterly side of the Panama Railroad tracks;

S. 57° 11' 30" E., 231.7 feet, along the above mentioned cyclone fence, to monument "P", which is a brass plug in the pavement of the north entrance road to the Quartermaster Area;

S. 53° 23' 00" E., 423.3 feet, along the above mentioned cyclone fence, to monument "Q", which is a 3-inch iron pipe set in concrete;

S. 49° 42' 30" E., 250.3 feet, along the above mentioned cyclone fence, to monument "R", which is a 3-inch iron pipe set in concrete;

S. 22° 44' 20" E., 74.0 feet, to monument "S", which is a 3-inch iron pipe set in concrete;

S. 46° 01' 40" E., 161.5 feet, along the above mentioned cyclone fence, on the westerly side of Barth Road, to monument "T", which is a 3-inch iron pipe set in concrete;

S. 41° 28' 20" E., 200.2 feet, along the above mentioned cyclone fence, to monument "U", which is a 3-inch iron pipe set in concrete;

S. 37° 31' 30" E., 261.9 feet, along the above mentioned cyclone fence, to monument "V", which is a 3-inch iron pipe set in concrete;

S. 32° 47' 40" E., 998.5 feet, to monument "W", which is a 3-inch iron pipe set in concrete, located on the easterly side of a cyclone fence, on the westerly side of Barth Road;

S. 34° 02' 20" E., 301.7 feet, along the above mentioned cyclone fence, to monument "X", which is a brass plug set in a concrete pavement;

N. 58° 08' 10" E., 23.4 feet, along the above mentioned cyclone fence, to monument "Y", which is a brass plug set in a concrete pavement;

S. 32° 57' 00" E., 256.6 feet, along the above mentioned cyclone fence, to monument "Z", which is a brass plug set in the westerly curb of Barth Road;

S. 31° 45' 00" E., 557.2 feet, along the above mentioned cyclone fence, to monument Z–1, which is a 3-inch iron pipe set in concrete;

S. 30° 08' 20" E., 78.0 feet, along the above mentioned cyclone fence, to monument Z–2, which is a 3-inch iron pipe set in concrete;

N. 89° 59' 20" W., 3,290.3 feet, through monuments Nos. 13–1, 2, 13–2, 1, "O" which are 2½-inch iron pipes set in concrete, and 14, which is a 6-inch cast iron pipe, to an unmarked and unnumbered point on the +10 foot contour on the easterly bank of the Panama Canal, the geodetic position of said unmarked point is in latitude 8°58' N. plus 3,880.6 feet and longitude 79°34' W. plus 4,769.7 feet, the distance being 1,078.5 feet, 601.5 feet, 500.0 feet, 414.6 feet, 500.0 feet 187.9 feet and 7.8 feet successively, from beginning of the course;

In a northerly direction, following the +10 foot contour (except where drainage ditches extend inland from the shore line) along the easterly bank of the Panama Canal and the left bank of the Rio Grande, to monument "A", the point of beginning.

The directions of the lines refer to the true meridian.

The total area of Corozal Army Reservation is 279.3 acres, more or less (Parcel No. 1, East of Gaillard Highway is 43.6 acres, more or less; Parcel No. 1–A, East of Gaillard Highway is 12.0 acres, more or less; Parcel No. 1–B, East of Gaillard Highway is 0.3 acre, more or less and Parcel No. 2, West of Gaillard Highway is 223.4 acres, more or less), and is as shown on Canal Zone Government Drawing No. 6116–34, entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu, and Albrook Air Force Base, Canal Zone",[1] scale 1 : 10,000, dated May 29, 1952, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

CURUNDU ARMY RESERVATION

Beginning at monument No. 34, which is a 2½-inch iron pipe, located southeasterly from Albrook Air Force Gate No. 13, and 50 feet southwesterly from the centerline of the C–12 Road, the geodetic position of which is in latitude 8°59' N. plus 3,350.6 feet and longitude 79°33' W. plus 2,189.4 feet. Monument No. 34 is on the easterly boundary of Albrook Air Force Base (Parcel No. 2).

[1] Filed as part of the original document.

Thence from said initial point by metes and bounds:

S. 70° 02' 20" W., 70.1 feet, to monument No. 35, which is a 2½-inch iron pipe, located near the northeast corner of the Deer Park;

S. 15° 28' 20" E., 127.4 feet, along the eastern fence line of the Deer Park, to monument No. 36, which is a 1½-inch iron pipe, located at the southeast corner of the Deer Park;

S. 45° 43' 50" W., 149.8 feet, along the southerly fence line of the Deer Park, to monument No. 37, which is a 1½-inch iron pipe, located at the southwesterly corner of the Deer Park;

S. 39° 15' 30" E., 171.9 feet, to monument No. 38, which is a 1½-inch iron pipe;

S. 39° 15' 10" E., 111.9 feet, to monument No. 39, which is a 1½-inch iron pipe;

S. 39° 15' 30" E., 50.7 feet, to monument No. 40, which is a 1½-inch iron pipe;

S. 15° 28' 50" W., 739.4 feet, through monuments Nos. 41, 42, and 43, which are 1½-inch iron pipes, to monument No. 44, which is a 1½-inch iron pipe, the distances being 215.5 feet, 117.0 feet, 192.2 feet and 214.7 feet, successively, from beginning of the course;

S. 15° 28' 40" W., 972.1 feet, through monument No. 45, which is a 1½-inch iron pipe, to monument No. 46, which is a 1½-inch iron pipe, the distances being 669.0 feet and 303.1 feet, successively, from beginning of the course;

S. 28° 47' 50" E., 1,149.0 feet, through monument No. 47, which is a 1½-inch iron pipe, to monument No. 48, which is a 1½-inch iron pipe, the distances being 692.4 feet and 456.6 feet, successively, from beginning of the course.

S. 24° 35' 30" E., 104.3 feet, to monument No. 49, which is a 1½-inch iron pipe;

S. 14° 00' 20" E., 350.3 feet, along the westerly side of an improved drain, through monument No. 50, which is a 1½-inch iron pipe, to monument No. 51, which is a 1½-inch iron pipe, the distances being 238.2 feet and 112.1 feet, successively, from beginning of the course;

S. 02° 25' 30" E., 303.4 feet, along the westerly side of the above mentioned improved drain, to monument No. 52, which is a 1½-inch iron pipe;

S. 21° 38' 00" E., 171.3 feet, along the westerly side of the above mentioned improved drain, to monument No. 53, which is a 1½-inch iron pipe;

S. 34° 12' 30" E., 326.6 feet, along the westerly side of the above mentioned improved drain, to monument No. 54, which is a brass plug in a concrete road pavement;

S. 17° 11' 50" W., 451.3 feet, along the westerly side of the above mentioned improved drain, to monument No. 55, which is a 1½-inch iron pipe;

S. 66° 17' 30" W., 77.1 feet, along the northerly side of the above mentioned improved drain, to monument No. 56, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

S. 73° 27' 50" E., 148.1 feet, along the northerly side of an improved drain, to monument No. 57, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

N. 48° 48' 20" E., 67.3 feet, along the southeasterly side of an improved drain, to monument No. 58, which is a 1½-inch iron pipe;

N. 64° 44' 40" E., 444.5 feet, along the above mentioned improved drain, to monument No. 59, which is a 1½-inch iron pipe;

N. 80° 37' 20" E., 631.5 feet, along the above mentioned improved drain and its prolongation, to monument No. 60, which is a 2-inch iron pipe, located on the southerly side of an improved drain at its head;

N. 48° 30' 00" E., 342.4 feet, along the above mentioned improved drain, to monument No. 61, which is a 2-inch iron pipe;

N. 72° 13' 40" E., 145.4 feet, along the above mentioned improved drain, to monument No. 62, which is a 2-inch iron pipe, located at the intersection of two improved drains;

S. 06° 52' 50" W., 541.3 feet, along the easterly side of an improved drain, to monument No. 63, which is a 1½-inch iron pipe;

S. 09° 14' 30" W., 241.4 feet, along the easterly side of the above mentioned improved drain, to monument No. 64, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

N. 61° 37' 40" E., 262.2 feet, along the northwesterly side of an improved drain, to monument No. 65, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

S. 68° 53' 50" E., 859.8 feet, along the northerly side of an improved drain, to monument No. 66, which is a 1½-inch iron pipe;

S. 11° 09' 00" W., 247.5 feet, along the easterly side of the above mentioned improved drain to monument No. 67, which is a 1½-inch iron pipe;

S. 64° 55' 30" E., 47.7 feet, to monument No. 68, which is a brass plug in the westerly edge of the concrete pavement of the Curundu Road;

S. 20° 49' 00" W., 676.2 feet, to monument No. 69, which is a 2-inch iron pipe, located at the corner of a cyclone fence on the westerly side of Curundu Road;

Along the above mentioned cyclone fence, with the following courses, to its intersection with the boundary line of the old Curundu Military Reservation:

S. 20° 48' 10" W., 587.0 feet, to monument No. 70, which is a 2-inch iron pipe;

S. 15° 51' 10" W., 1,319.8 feet, to monument No. 71, which is a 1½-inch iron pipe;

S. 19° 23' 30" W., 116.0 feet, to monument No. 72, which is a 2-inch iron pipe;

S. 26° 28' 20" W., 86.8 feet, to monument No. 73, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

N. 52° 01' 20" W., 192.3 feet, to monument No. 74, which is a brass plug in a concrete road pavement;

N. 49° 48' 50" W., 445.3 feet, to monument No. 75, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

S. 42° 32' 20" W., 129.4 feet, to monument No. 76, which is a 1½-inch iron pipe;

S. 35° 27' 30" W., 186.8 feet, to monument No. 77, which is a 1½-inch iron pipe;

S. 18° 49' 50" W., 786.7 feet, to monument No. 78, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

S. 52° 14' 00" W., 33.8 feet, to monument No. 79, which is a 1½-inch iron pipe, located on the original Curundu Military Reservation boundary;

The above described boundary line from monument No. 34 to monument No. 79 inclusive, is common with the easterly boundary of Albrook Air Force Base (Parcel No. 2).

N. 89° 24' 40" E., 410.0 feet, to monument No. 54, which is a copper plug, set in the centerline on the top of the closed concrete box culvert which contains the Rio Curundu;

N. 51° 33' 20" E., 609.3 feet, along the centerline of the above mentioned concrete box culvert, to monument "A," which is a 3-inch iron pipe set in concrete;

N. 62° 22' 30" E., 61.0 feet, along the centerline of the above mentioned concrete box culvert, to monument "B," which is a brass plug set in a concrete sidewalk;

N. 47° 20' 20" E., 134.6 feet, along the centerline of the above mentioned concrete box culvert, to monument "C," which is a brass plug set in the headwall of the above mentioned concrete box culvert;

In a generally northeasterly direction, along the centerline of the Rio Curundu and the Canal Zone-Republic of Panama boundary, to an unmarked and unnumbered point, located 32 feet northeasterly from the centerline of the Road to Bella Vista near Albrook Air Force Gate No. 12, the geodetic position of which is in latitude 8°58' N. plus 4,057.3 feet and longitude 79°32' W. plus 3,082.6 feet. The above mentioned unnumbered point is located at the southeast corner of Albrook Air Force Base (Parcel No. 4).

N. 34° 52' 20" W., 77.1 feet, along a line parallel to, and 32 feet northeasterly from the centerline of the road to Bella Vista, to monument No. 1, which is a 2-inch iron pipe set in concrete;

Westerly, along a line parallel to, and 32 feet northerly from the centerline of the road to Bella Vista, to monument "A", which is a brass plug set in a concrete monument, located 25 feet easterly from the centerline of Curundu Road, the geodetic position of which is in latitude 8°58' N. plus 4,714.3 feet and longitude 79°32' W. plus 4,797.3 feet;

Northerly, along a line parallel to, and 25 feet easterly from the centerline of Curundu Road, to monument "B", which is a 2-inch iron pipe set in concrete, located 10 feet westerly from the centerline of a railroad, the geodetic position of which is in latitude 8°58' N. plus 5,263.5 feet and longitude 79°32' W. plus 4,845.0 feet;

Northerly along a line parallel to, and 10 feet westerly from the centerline of the above mentioned railroad, to monument "C", which is a 2-inch iron pipe set in concrete, located 25 feet westerly from the centerline of Warehouse Road, the geodetic position of which is in latitude 8°58' N. plus 5,920.2 feet and longitude 79°32' W. plus 4,877.6 feet;

N. 00° 08' 40" W., 322.6 feet, to monument "D", which is a 2-inch iron pipe set in concrete, located 25 feet westerly from the centerline of Warehouse Road;

N. 65° 59' 30" E., 1,390.5 feet, along a line 99 feet northerly of the Air Force Warehouse Building line, through monuments "E", "F", and "G", which are 2-inch iron pipes set in concrete, to monument "H", which is a 2-inch iron pipe set in concrete, the distances being 223.6 feet, 387.6 feet, 423.1 feet and 356.2 feet, successively, from beginning of the course;

N. 65° 59' 00" E., 141.0 feet, to monument "I", which is a 2-inch iron pipe set in concrete;

N. 65° 59' 30" E., 199.2 feet, to monument "J", which is a 2-inch iron pipe set in concrete;

N. 65° 59' 40" E., 140.7 feet, through monument "K", which is a 2-inch iron pipe set in concrete, located on the right bank of the Rio Curundu, to an unmarked and unnumbered point, located on the Canal Zone-Republic of Panama boundary, in the center of the Rio Curundu, the geodetic position of which is in latitude 8°59' N. plus 956.7 feet and longitude 79°32' W. plus 2,869.1 feet, the distances being 116.2 feet and 24.5 feet, successively, from beginning of the course;

The above described boundary line, from unnumbered point located in the centerline of the Rio Curundu near Gate, No. 12 through monuments No. 1, and "A" to "K" inclusive, to unnumbered point described in the above paragraph, is common with the southerly, westerly and northerly boundary of Albrook Air Force Base (Parcel No. 4).

Northerly, along the centerline of the Rio Curundu, on the Canal Zone-Republic of Panama boundary, to an unmarked point called No. 72, the geodetic position of which is in latitude 8°59' N. plus 4,948.6 feet and longitude 79°32' W. plus 3,316.4 feet. Point No. 72 is located at the southeast corner of Albrook Air Force Base (Parcel 1).

Due West, 1,564.5 feet, through monuments Nos. 71 to 67 inclusive, which are 2-inch iron pipes, to monument No. 66, which is a 2-inch iron pipe, the distances being 32.0 feet, 364.4 feet, 370.7 feet, 387.9 feet, 854.1 feet and 55.4 feet, successively, from beginning of the course;

S. 87° 37' 40" W., 1,856.0 feet, through monuments Nos. 65 to 61 inclusive, which are 2-inch iron pipes, to monument No. 60, which is a brass plug in a concrete monu-

ment, being further identified as triangulation station "Cedro", the distances being 865.9 feet, 107.8 feet, 415.7 feet, 284.1 feet, 90.5 feet and 92.0 feet, successively, from beginning of the course;

S. 25° 38' 50'' W., 681.5 feet, to monument No. 59, which is a 2-inch iron pipe;

S. 75° 35' 10'' W., 378.5 feet, to monument No. 58, which is a 2-inch iron pipe;

S. 10° 51' 50'' W., 645.2 feet, to monument No. 57, which is a 2-inch iron pipe;

S. 80° 01' 40'' W., 558.9 feet, to monument No. 56, which is a 2-inch iron pipe, located 50 feet northeasterly from the centerline of the C–12 Road;

N. 47° 54' 50'' W., 153.9 feet, crossing the C–15 Road to monument No. 55, which is a 2-inch iron pipe, located 50 feet northeasterly from the centerline of the C–12 Road;

N. 15° 30' 20'' E., 1,004.3 feet, along the westerly side of the C–15 Road, through monument No. 54, which is a 1½-inch iron pipe, to monument No. 53, which is a 1½-inch iron pipe, located 40 feet westerly from the centerline of the C–15 Road, the distances being 728.4 feet and 275.9 feet, successively, from beginning of the course;

N. 49° 28' 30'' W., 835.5 feet, through monument No. 52, which is a 1½-inch iron pipe, to monument No. 51, which is a 1½-inch iron pipe, the distances being 320.2 feet and 515.3 feet, successively, from beginning of the course;

N. 49° 51' 50'' W., 103.0 feet, to monument No. 50, which is a 2-inch iron pipe;

N. 64° 36' 20'' W., 1,184.6 feet, through monuments Nos. 49 and 48, which are 2-inch iron pipes, to monument No. 47, which is a 2-inch iron pipe, the distances being 551.0 feet, 565.8 feet and 67.8 feet, successively, from beginning of the course;

N. 37° 28' 00'' W., 198.1 feet, to monument No. 46, which is a 1½-inch iron pipe;

S. 70° 16' 30'' W., 389.5 feet, to monument No. 45, which is a 2-inch iron pipe;

N. 68° 32' 30'' W., 115.5 feet, to monument No. 44, which is a 2-inch iron pipe, located 50 feet easterly from the centerline of the C–12 Road;

In a northwesterly direction, parallel to, and 50 feet from the centerline of the C–12 Road, to monument No. 43, which is a 1½-inch iron pipe, located 1.5 feet from the face of a cyclone fence around the Gasoline Storage Area, the geodetic position of which is in latitude 9°00' N. plus 1,483.6 feet and longitude 79°33' W. plus 4,740.7 feet;

S. 69° 07' 00'' W., 20.4 feet, along the above mentioned cyclone fence, to monument No. 42, which is a 1½-inch iron pipe, located at the southeast corner of the Gasoline Storage Area on the prolongation of the cyclone fence bordering the C–12 Road;

Northwesterly, along the face of the above mentioned cyclone fence, and its prolongation, to monument No. 41, which is a 2-inch iron pipe, located at the southwest corner of the Gasoline Storage Area, the geodetic position of which is in latitude 9°00' N. plus 1,765.0 feet and longitude 79°33' W. plus 5,217.6 feet. Monument No. 41 is on the easterly boundary of Fort Clayton Army Reservation;

The above described boundary line from point No. 72 through monuments Nos. 71 to 41 inclusive, is common with the southerly boundary of Albrook Air Force Base (Parcel No. 1).

S. 16° 05' W., 130.4 feet, to monument No. 35, which is a 3-inch iron pipe set in an 8-inch square concrete post, located 100 feet southerly and at right angles from the centerline of the C–12 Road;

Southeasterly, along a line parallel to, and 100 feet southerly from the centerline of the C–12 Road, to monument No. 34, which is a 2½-inch iron pipe set in an 8-inch square concrete post, located on the right bank of the Rio Dos Bocas, the geodetic position of which is in latitude 9°00' N. plus 1,507.6 feet and longitude 79°33' W. plus 4,994.6 feet;

The above-described boundary line from monument No. 41 through monument No. 35 to monument No. 34 is common with a part of the easterly boundary of Fort Clayton Army Reservation;

Southerly, along a line parallel to, and 100 feet westerly from the centerline of the C–12 Road, to monument No. 34–A, which is a 2-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59' N. plus 5,777.0 feet and longitude 79°33' W. plus 4,419.1 feet;

S. 87° 45' 40'' W., 846.3 feet, through monument No. 34–B, which is a 1½-inch iron pipe set in concrete, and monument No. 34–C, which is a 2-inch iron pipe set in concrete, to monument No. 34–D, which is a 2-inch iron pipe set in concrete, the distances being 253.7 feet, 320.0 feet and 272.6 feet, successively, from beginning of the course;

S. 02° 34' 40'' W., 174.3 feet, to monument No. 34–E, which is a 2-inch iron pipe set in concrete;

S. 23° 27' 20'' E., 316.8 feet, through monument No. 34–F, which is a 2-inch iron pipe set in concrete, to monument No. 34–G, which is a 2-inch iron pipe set in concrete, the distances being 124.8 feet and 192.0 feet, successively, from beginning of the course;

S. 42° 03' 50'' E., 382.3 feet, through monument No. 34–H, which is a 2-inch iron pipe set in concrete, to monument No. 34–I, which is a 2-inch iron pipe set in concrete, the distances being 138.5 feet and 243.8 feet, successively, from beginning of the course;

S. 54° 22' 40'' E., 496.5 feet, to monument No. 34–J, which is a 2-inch iron pipe set in concrete;

N. 88° 56' 40'' E., 44.7 feet, to monument No. 34–K, which is a 2-inch iron pipe set in concrete;

N. 88° 56' 10'' E., 266.1 feet, to monument No. 34–L, which is a 2-inch iron pipe set in concrete, located at right angles and 100 feet southwesterly from the centerline of the C–12 Road;

S. 38° 28' 30'' E., 152.2 feet, to monument No. 32–A, which is a 3-inch iron pipe set in concrete, located on the northerly boundary of Albrook Air Force Base (Parcel No. 2) at right angles to, and 100 feet southwesterly from the centerline of C–12 Road;

N. 33° 38' 50'' E., 51.7 feet, to monument No. 33, which is a 2-inch iron pipe, located at right angles to, and 50 feet southwesterly from the centerline of the C–12 Road, and is the most northerly point on the boundary of Albrook Air Force Base (Parcel No. 2);

Southeasterly, along a line parallel to, and 50 feet southwesterly from the centerline of the C–12 Road, through monument No. 33–A, which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59' N. plus 4,317.7 feet and longitude 79°33' W. plus 3,512.1 feet, and monument No. 33–D, which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59' N. plus 4,107.6 feet and longitude 79°33' W. plus 3,028.1 feet, to monument No. 34, the point of beginning.

The above described boundary line from monument No. 32–A, through monuments Nos. 33, 33–A, 33–D to monument No. 34, is common with the northerly boundary of Albrook Air Force Base (Parcel No. 2).

Excluded from the above reservation are two isolated areas, hereinafter described as Parcel No. 3 and Parcel No. 5 of Albrook Air Force Base.

The directions of the lines refer to the true meridian.

The area of Curundu Army Reservation is 787.2 acres, more or less, and is as shown on Canal Zone Government Drawing No. 6116–34, entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu and Albrook Air Force Base, Canal Zone",[1] scale 1:10,000, dated May 29, 1952, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

[1] Filed as part of the original document.

ALBROOK AIR FORCE BASE

PARCEL NO. 1

Beginning at monument No. 41, which is a 2-inch iron pipe, located at the southwest corner of the Gasoline Storage Area, and on the prolongation of the cyclone fence which borders the C–12 Road, the geodetic position of which is in latitude 9°00' N. plus 1,765.0 feet and longitude 79°33' W. plus 5,217.6 feet. Monument No. 41 is on the easterly boundary of Fort Clayton Army Reservation, and on the northerly boundary of the Curundu Army Reservation.

Thence from said initial point by metes and bounds:

Southeasterly, along the face of the above mentioned cyclone fence, on the northeasterly side of the C–12 Road, to monument No. 42, which is a 1½-inch iron pipe, located on the prolongation of the fence line at the southeast corner of the Gasoline Storage Area, the geodetic position of which is in latitude 9°00' N. plus 1,476.4 feet and longitude 79°33' W. plus 4,759.8 feet;

N. 69° 07' 00'' E., 20.4 feet, to monument No. 43, which is a 1½-inch iron pipe, located 50 feet northeasterly of the centerline of the C–12 Road and 18 inches from the above mentioned cyclone fence;

Southeasterly, parallel to, and 50 feet from, the centerline of the C–12 Road, to monument No. 44, which is a 2-inch iron pipe, the geodetic position of which is in latitude 8°59' N. plus 5,579.6 feet and longitude 79°33' W. plus 4,236.2 feet;

S. 68° 32' 30'' E., 115.5 feet, to monument No. 45, which is a 2-inch iron pipe;

N. 70°16'30'' E., 389.5 feet, to monument No. 46, which is a 1½-inch iron pipe;

S. 37° 28' 00'' E., 198.1 feet, to monument No. 47, which is a 2-inch iron pipe;

S. 64° 36' 20'' E., 1,184.6 feet, through monuments Nos. 48 and 49, which are 2-inch iron pipes, to monument No. 50, which is a 2-inch iron pipe, the distances being 67.8 feet, 565.8 feet and 551.0 feet, successively, from beginning of the course;

S. 49° 51' 50'' E., 103.0 feet, to monument No. 51, which is a 1½-inch iron pipe;

S. 49° 28' 30'' E., 835.5 feet, through monument No. 52, which is a 1½-inch iron pipe, to monument No. 53, which is a 1½-inch iron pipe, located 40 feet westerly from the centerline of the C–15 Road, the distances being 515.3 feet and 320.2 feet, successively, from beginning of the course;

S. 15° 30' 20'' W., 1,004.3 feet, along the westerly side of the C–15 Road, through monument No. 54, which is a 1½-inch iron pipe, to monument No. 55, which is a 2-inch iron pipe, located northeasterly and 50 feet from the centerline of the C–12 Road, the distances being 275.9 feet and 728.4 feet, successively, from beginning of the course;

S. 47° 54' 50'' E., 153.9 feet, crossing the C–15 Road, to monument No. 56, which is a 2-inch iron pipe, located northeasterly, and 50 feet from the centerline of the C–12 Road;

N. 80° 01' 40'' E., 558.9 feet, to monument No. 57, which is a 2-inch iron pipe;

N. 10° 51' 50'' E., 645.2 feet, to monument No. 58, which is a 2-inch iron pipe;

N. 57° 35' 10'' E., 378.5 feet, to monument No. 59, which is a 2-inch iron pipe;

N. 25° 38' 50'' E., 681.5 feet, to monument No. 60, which is a brass plug in a concrete monument, being further identified as triangulation station "Cedro";

N. 87° 37' 40'' E., 1,856.0 feet, through monuments Nos. 61, 62, 63, 64, and 65, which are 2-inch iron pipes, to monument No. 66, which is a 2-inch iron pipe, the distances being 92.0 feet, 90.5 feet, 284.1 feet, 415.7 feet, 107.8 feet and 865.9 feet, successively, from beginning of the course;

Due East, 1,564.5 feet, through monuments Nos. 67, 68, 69, 70 and 71, which are 2-inch iron pipes, to an unmarked point called No. 72, which is on the Canal Zone-Republic of Panama boundary in the center of the Rio Curundu, the geodetic position of which is in latitude 8°59' N. plus 4,948.6 feet and longitude 79°32' W. plus 3,318.4 feet, the distances being 55.4 feet, 354.1 feet, 387.9 feet, 370.7 feet, 364.4 feet and 32.0 feet, successively, from beginning of the course;

The above described boundary line from monument No. 41 to unmarked point No. 72, is common with the northerly boundary of Curundu Army Reservation.

Northerly, along the centerline of the Rio Curundu, which is the Canal Zone-Republic of Panama boundary line, to monument "E", which is a brass plug set in a 10-inch square concrete post, the geodetic position of which is in latitude 9°01' N. plus 1,046.6 feet and longitude 79°32' W. plus 2,469.6 feet. Monument "E" is also on the southern boundary of Fort Clayton Army Reservation;

S. 89° 59' 20'' W., 616.1 feet, through monuments Nos. 1, which is a 2-inch iron pipe, and 2, which is a 1½-inch iron pipe, to monument No. 3, which is a 2-inch iron pipe, the distances being 124.4 feet, 64.0 feet and 427.7 feet, successively, from beginning of the course;

Due West, 8,000.1 feet, through monuments Nos. 4 to 23 inclusive, which are 2-inch iron pipes, to monument No. 24, which is a 3-inch iron pipe, the geodetic position of which is in latitude 9°01' N., plus 1,046.5 feet and longitude 79°33' W. plus 5,073.6 feet, the distances being 474.4 feet, 220.2 feet, 302.0 feet, 360.9 feet, 171.9 feet, 299.9 feet, 101.5 feet, 385.0 feet, 327.5 feet, 449.3 feet, 519.1 feet, 290.7 feet, 461.7 feet, 870.9 feet, 142.7 feet, 744.4 feet, 384.3 feet, 571.9 feet, 196.0 feet, 591.3 feet and 134.5 feet, successively, from beginning of the course;

Due South, 4,419.5 feet, through monuments Nos. 25 to 38 inclusive, which are 2-inch iron pipes, to monument No. 39, which is a 2-inch iron pipe, located at the northwest corner of the Gasoline Storage Area, the distances being 126.2 feet, 278.8 feet, 355.6 feet, 383.5 feet, 106.9 feet, 382.3 feet, 290.6 feet, 199.1 feet, 281.4 feet, 315.0 feet, 226.4 feet, 188.5 feet, 190.5 feet, 567.5 feet and 527.2 feet, successively, from beginning of the course;

S. 09° 00' W., 921.0 feet, through monument No. 40, which is a 2-inch iron pipe, to monument No. 41, the point of beginning, the distances being 320.0 feet and 601.0 feet, successively, from beginning of the course. The above described boundary line from monument "E" to monument No. 41 inclusive, is common with a part of the southerly and easterly boundary of Fort Clayton Army Reservation.

PARCEL NO. 2

Beginning at monument No. 2, which is a 1½-inch iron pipe located on the northeasterly side of Gaillard Highway, opposite Diablo Crossing, the geodetic position of which is in latitude 8°58' N. plus 3,010.7 feet and longitude 79°34' W. plus 663.5 feet.

Thence from said initial point by metes and bounds:

S. 64° 22' 50'' E., 483.6 feet, through monument No. 3, which is a 1½-inch iron pipe, to monument No. 4, which is a 1½-inch iron pipe, the distances being 177.2 feet and 306.4 feet, successively, from beginning of the course;

N. 44° 36' E., 102.3 feet, to monument No. 5, which is a 1½-inch iron pipe;

N. 09° 44' 20'' W., 1,883.2 feet, through monuments Nos. 6, 7, 8 and 9, which are 1½-inch iron pipes, to monument No. 10, which is a 1½-inch iron pipe, located inside of the cyclone fence surrounding the water tanks northerly from Diablo Crossing, the distances being 523.9 feet, 442.9 feet, 410.2 feet, 297.7 feet and 208.5 feet, successively, from beginning of the course;

N. 49° 31' 30'' E., 117.1 feet, to monument No. 11, which is a 1½-inch iron pipe, located on the outside of the above mentioned cyclone fence;

N. 31° 47' W., 307.1 feet, along the above mentioned cyclone fence and its prolongation, to monument No. 12, which is a 2-inch iron pipe;

N. 22° 19' 50'' W., 257.5 feet through monument No. 13, which is a 2-inch iron pipe, to monument No. 14, which is a 2-inch iron pipe, the distances being 33.0 feet and 224.5 feet, successively, from beginning of the course;

N. 21° 28' W., 296.9 feet, to monument No. 15, which is a 2-inch iron pipe;

N. 10° 10' 00'' W., 261.1 feet, to monument No. 16, which is a 2-inch iron pipe;

N. 26° 10' 20'' W., 455.5 feet, to monument No. 17, which is a 2-inch iron pipe, located on the prolongation of a cyclone fence;

N. 73° 51' 30'' E., 219.8 feet, along the prolongation of, and along the face of the above mentioned cyclone fence, through monument No. 17–A, which is a 3-inch iron pipe, located on the southerly boundary of Corozal Army Reservation (Parcel No. 1), to monument No. 18, which is a brass plug in a concrete road pavement near the Army Finance Office, the distances being 168.0 feet and 51.8 feet, successively, from beginning of the course;

N. 58° 02' 30'' E., 244.7 feet, along the above mentioned cyclone fence and its prolongation, to monument No. 19, which is a 2-inch iron pipe;

N. 01° 26' 30'' W., 1,563.8 feet, through monuments Nos. 20, 21 and 22, which are 2-inch iron pipes, to monument No. 23, which is an 8-inch square concrete post, further described as old Curundu Military Reservation boundary monument No. 33, located on top of Corozal Hill, the distances being 384.3 feet, 583.5 feet, 360.2 feet and 235.8 feet, successively, from beginning of the course.

The above described boundary line from monument No. 17–A to monument No. 23 inclusive, is common with the easterly boundary of Corozal Army Reservation (Parcel No. 1);

N. 60° 03' 20'' E., 1,485.1 feet, through monuments Nos. 24, 25, 26, and 27, which are 2-inch iron pipes, to monument No. 28, which is a 2-inch iron pipe, the distances being 497.2 feet, 202.0 feet, 229.1 feet, 225.5 feet and 331.3 feet, successively, from beginning of the course;

N. 33° 39' 20'' E., 1,623.6 feet, through monuments Nos. 29, 30 and 31, which are 2-inch iron pipes, to monument No. 32, which is a 2-inch iron pipe, the distances being 265.5 feet, 249.1 feet, 299.9 feet and 809.1 feet, successively, from beginning of the course;

N. 33° 38' 50'' E., 708.1 feet, through monument No. 32–A, which is a 3-inch iron pipe set in concrete, located on the westerly boundary of Curundu Army Reservation, to monument No. 33, which is a 2-inch iron pipe, located at right angles to, and 50 feet southwesterly from the centerline of the C–12 Road, the distances being 656.4 feet and 51.7 feet, successively, from beginning of the course;

Southeasterly, along a line parallel to, and 50 feet southwesterly from the centerline of the C–12 Road, through monument No. 33–A, which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59' N. plus 4,317.7 feet and longitude 79°33' W. plus 3,512.1 feet, and monument No. 33–D, which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59' N. plus 4,107.6 feet and longitude 79°33' W. plus 3,028.1 feet, to monument No. 34, which is a 2½-inch iron pipe, located near the northeast corner of Deer Park;

S. 70° 02' 20'' W., 70.1 feet, to monument No. 35, which is a 2½-inch iron pipe, located near the northeast corner of Deer Park;

S. 15° 28' 20'' E., 127.4 feet, along the eastern fence line of the Deer Park, to monument No. 36, which is a 1½-inch iron pipe, located at the southeast corner of the Deer Park;

S. 45° 43' 50'' W., 149.8 feet, along the southerly fence line of the Deer Park, to monument No. 37, which is a 1½-inch iron pipe, located at the southwesterly corner of the Deer Park;

S. 39° 15' 30'' E., 171.9 feet, to monument No. 38, which is a 1½-inch iron pipe;

S. 39° 15' 10'' E., 111.9 feet, to monument No. 39, which is a 1½-inch iron pipe;

S. 39° 15' 30'' E., 50.7 feet, to monument No. 40, which is a 1½-inch iron pipe;

S. 15° 28' 50'' W., 739.4 feet, through monuments Nos. 41, 42 and 43, which are 1½-inch iron pipes, to monument No. 44, which is a 1½-inch iron pipe, the distances being 215.5 feet, 117.0 feet, 192.2 feet and 214.7 feet, successively, from beginning of the course;

S. 15° 28' 40'' W., 972.1 feet through monument No. 45, which is a 1½-inch iron pipe, to monument No. 46, which is a 1½-inch iron pipe, the distances being 669.0 feet and 303.1 feet, successively, from beginning of the course;

S. 28° 47' 50'' E., 1,149.0 feet, through monument No. 47, which is a 1½-inch iron pipe, to monument No. 48, which is a 1½-inch iron pipe, the distances being 692.4 feet and 456.6 feet, successively from beginning of the course.

S. 24° 35' 30'' E., 104.3 feet, to monument No. 49, which is a 1½-inch iron pipe;

S. 14° 00' 20'' E., 350.3 feet, along the westerly side of an improved drain, through monument No. 50, which is a 1½-inch iron pipe, to monument No. 51, which is a 1½-inch iron pipe, the distances being 238.2 feet and 112.1 feet, successively, from beginning of the course;

S. 02° 25' 30'' E., 303.4 feet, along the westerly side of the above mentioned improved drain, to monument No. 52, which is a 1½-inch iron pipe;

S. 21° 38' 00'' E., 171.3 feet, along the westerly side of the above mentioned improved drain, to monument No. 53, which is a 1½-inch iron pipe;

S. 34° 12' 30'' E., 326.6 feet, along the westerly side of the above mentioned improved drain, to monument No. 54, which is a brass plug in a concrete road pavement;

S. 17° 11' 50'' W., 451.3 feet, along the westerly side of the above mentioned improved drain, to monument No. 55, which is a 1½-inch iron pipe;

S. 66° 17' 30'' W., 77.1 feet, along the northerly side of the above mentioned improved drain, to monument No. 56, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

S. 73° 27' 50'' E., 148.1 feet, along the northerly side of an improved drain, to monument No. 57, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

N. 48° 48' 20'' E., 67.3 feet, along the southeasterly side of an improved drain, to monument No. 58, which is a 1½-inch iron pipe;

N. 64° 44' 40'' E., 444.5 feet, along the above mentioned improved drain, to monument No. 59, which is a 1½-inch iron pipe;

N. 80° 37' 20'' E., 631.5 feet, along the above mentioned improved drain and its prolongation, to monument No. 60, which is a 2-inch iron pipe, located on the southerly side of an improved drain at its head;

N. 48° 30' 00'' E., 342.4 feet, along the above mentioned improved drain, to monument No. 61, which is a 2-inch iron pipe;

N. 72° 13' 40'' E., 145.4 feet, along the above mentioned improved drain, to monument No. 62, which is a 2-inch iron pipe, located at the intersection of two improved drains;

S. 06° 52' 50'' W., 541.3 feet, along the easterly side of an improved drain, to monument No. 63, which is a 1½-inch iron pipe;

S. 09° 14' 30'' W., 241.4 feet, along the easterly side of the above mentioned improved drain, to monument No. 64, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

N. 61° 37' 40'' E., 262.2 feet, along the northwesterly side of an improved drain, to

monument No. 65, which is a 1½-inch iron pipe, located at the intersection of two improved drains;

S. 68° 53′ 50″ E., 859.8 feet, along the northerly side of an improved drain, to monument No. 66, which is a 1½-inch iron pipe;

S. 11° 09′ 00″ W., 247.5 feet, along the easterly side of the above mentioned improved drain, to monument No. 67, which is a 1½-inch iron pipe;

S. 64° 55′ 30″ E., 47.7 feet, to monument No. 68, which is a brass plug set in the westerly edge of the concrete pavement of Curundu Road;

S. 20° 49′ 00″ W., 676.2 feet, to monument No. 69, which is a 2-inch iron pipe, located at the corner of a cyclone fence on the westerly side of Curundu Road;

Along the above mentioned cyclone fence, with the following courses, to its intersection with the boundary line of the old Curundu Military Reservation:

S. 20° 48′ 10″ W., 587.0 feet, to monument No. 70, which is a 2-inch iron pipe;

S. 15° 51′ 10″ W., 1,319.8 feet, to monument No. 71, which is a 1½-inch iron pipe;

S. 19° 23′ 30″ W., 116.0 feet, to monument No. 72, which is a 2-inch iron pipe;

S. 26° 28′ 20″ W., 86.8 feet, to monument No. 73, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

N. 52° 01′ 20″ W., 192.3 feet, to monument No. 74, which is a brass plug in a concrete road pavement;

N. 49° 48′ 50″ W., 445.3 feet, to monument No. 75, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

S. 42° 32′ 20″ W., 129.4 feet, to monument No. 76, which is a 1½-inch iron pipe;

S. 35° 27′ 30″ W., 186.8 feet, to monument No. 77, which is a 1½-inch iron pipe;

S. 18° 49′ 50″ W., 786.7 feet, to monument No. 78, which is a 1½-inch iron pipe, located at the corner of the above mentioned cyclone fence;

S. 52° 14′ 00″ W., 33.8 feet, to monument No. 79, which is a 1½-inch iron pipe, located on the original Curundu Military Reservation boundary;

The above described boundary line, from monument No. 32–A to monument No. 79 inclusive, is common with the westerly boundary of Curundu Army Reservation;

S. 89° 09′ 00″ W., 417.3 feet, to monument Z–1, which is a brass plug set in the concrete pavement located northeasterly from the Civil Affairs Building;

S. 69° 21′ 20″ W., 403.3 feet, to monument "Z", which is a 2½-inch iron pipe, located northwesterly from the Civil Affairs Building;

S. 25° 29′ 40″ W., 226.6 feet, to monument "Y", which is a 3-inch iron pipe set in concrete, located southwesterly from the Civil Affairs Building;

S. 20° 18′ 10″ E., 254.1 feet, to monument "X", which is a 2½-inch iron pipe set in concrete, located 15 feet northerly from the north edge of the Gaillard Highway pavement;

S. 67° 02′ 00″ W., 308.7 feet, to monument "W", which is a 3-inch iron pipe set in concrete, located on the outside of a cyclone fence near the southeast corner of the hangar;

S. 54° 38′ 10″ W., 65.7 feet, along the above mentioned cyclone fence, to monument "V", which is a 3-inch iron pipe set in concrete;

S. 49° 14′ 20″ W., 154.6 feet, along the above mentioned cyclone fence to monument "U", which is a 3-inch iron pipe set in concrete;

S. 85° 23′ 00″ W., 57.4 feet, along the above mentioned cyclone fence, to monument "T", which is a 3-inch iron pipe set in concrete;

S. 39° 04′ 50″ W., 836.2 feet, along the above mentioned cyclone fence, to monument "S", which is a 3-inch iron pipe set in concrete;

S. 05° 12′ 40″ E., 20.4 feet, along the above mentioned cyclone fence, to monument "R," which is a 3-inch iron pipe set in concrete;

S. 40° 17′ 50″ W., 378.4 feet, through the above mentioned cyclone fence, to monument "Q," which is a 3-inch iron pipe set in concrete, located inside the above mentioned cyclone fence, and 30 feet northwesterly from the northwesterly edge of the Gaillard Highway pavement;

Southwesterly, along a line parallel to, and 30 feet from the northwesterly edge of Gaillard Highway pavement, passing through to the outside of the above mentioned cyclone fence, to monument "P," which is a 3-inch iron pipe set in concrete, located 1.5 feet from the outside of the above mentioned cyclone fence, the geodetic position of which is in latitude 8°57′ N. plus 4,796.5 feet and longitude 79°33′ W. plus 3,406.7 feet;

Westerly, parallel to, and 1.5 feet from the face of the above mentioned cyclone fence, to monument "M," which is a 3-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°57′ N. plus 4,887.1 feet and longitude 79°33′ W. plus 4,153.0 feet;

N. 45° 40′ 40″ W., 265.2 feet, along the above mentioned cyclone fence, to monument "L," which is a 3-inch iron pipe set in concrete;

N. 34° 35′ 40″ W., 305.1 feet, along the above mentioned cyclone fence, to monument "K," which is a 3-inch iron pipe set in concrete;

N. 26° 57′ 30″ W., 300.2 feet, along the above mentioned cyclone fence, to monument "J," which is a 3-inch iron pipe set in concrete;

N. 20° 14′ 30″ W., 791.0 feet, along the above mentioned cyclone fence, to monument "I," which is a 3-inch iron pipe set in concrete;

N. 32° 45′ 40″ W., 507.7 feet, to monument "H," which is a 3-inch iron pipe set in concrete, located beside the above mentioned cyclone fence, northwesterly from Albrook Air Force Gate No. 2;

N. 32° 46′ 20″ W., 995.4 feet, along the above mentioned cyclone fence, through monument "G", which is a 3-inch iron pipe set in concrete, to monument "F", which is a 3-inch iron pipe set in concrete, the distances being 254.6 feet and 740.8 feet, successively, from beginning of the course;

N. 87° 49′ 10″ W., 29.2 feet, along the above mentioned cyclone fence, to monument D–2, which is a round iron corner post of the above mentioned cyclone fence;

N. 32° 43′ 50″ W., 647.3 feet, along the face of the above mentioned cyclone fence, to monument D–1, which is the first iron "I" post in the above mentioned cyclone fence, located southeasterly from Gate No. 1, of Albrook Air Force Base;

N. 41° 33′ 40″ W., 158.8 feet, to monument "D", which is a 3-inch iron pipe set in concrete, located on the northeasterly side of Gaillard Highway, and is old Curundu Military Reservation boundary monument No. 51;

N. 32° 49′ 50″ W., 514.0 feet, to monument "C", which is a brass plug in the edge of the Gaillard Highway third lane widening strip, southeasterly from the Diablo Crossing;

N. 25° 35′ 50″ W., 39.0 feet, along the edge of the pavement widening strip, to monument "B", which is an iron rod set in concrete, located at an angle in the above mentioned widening strip;

N. 32° 49′ 50″ W., 362.7 feet, along the edge of the pavement widening strip and its prolongation, to monument "A", which is a brass plug set in the pavement on the east side of Diablo Crossing;

N. 57° 53′ 30″ E., 46.4 feet, to monument No. 2, the point of beginning.

PARCEL NO. 3

Beginning at monument "W", which is a 2-inch iron pipe set in concrete, located 25 feet from the centerline of the C–12 Road and 25 feet from the centerline of the Engine Test Valley Road, the geodetic position of which is in latitude 8°59′ N. plus 427.1 feet and longitude 79°32′ W. plus 5,975.0 feet;

Thence from said initial point by metes and bounds:

In a northerly direction, approximately 1,280 feet, along a line parallel to, and 25 feet westerly from the centerline of the Engine Test Valley Road, to monument "X", which is a 2-inch iron pipe set in concrete, the geodetic position of which is in latitude 8°59′ N. plus 1,620.1 feet and longitude 79°32′ W. plus 5,556.5 feet;

N. 33° 19′ 00″ W., 1,461.3 feet, to an unmarked point called X–1;

S. 56° 41′ 00″ W., 641.9 feet, to monument "Y", which is a 2-inch iron pipe set in concrete, located 25 feet northeasterly from the centerline of the C–12 Road;

In a southeasterly direction, approximately 2,275 feet, along a line, parallel to, and 25 feet northeasterly from the centerline of the C–12 Road, to monument "W", the point of beginning.

PARCEL NO. 4

Beginning at monument No. 1, which is a 2-inch iron pipe set in concrete, located on the right bank of, and 77.1 feet westerly from the centerline of the Rio Curundu, the geodetic position of which is in latitude 8°58′ N. plus 4,120.5 feet and longitude 79°32′ W. plus 3,126.7 feet, further described as being 32 feet northeasterly from the centerline of the Road to Bella Vista near Albrook Air Force Gate No. 12. Monument No. 1 is on the easterly boundary of Curundu Army Reservation.

Thence from said initial point by metes and bounds:

Westerly, along a line parallel to, and 32 feet northerly from the centerline of the Road to Bella Vista, to monument "A", which is a brass plug set in a concrete monument, located 25 feet easterly from the centerline of Curundu Road, the geodetic position of which is in latitude 8°58′ N. plus 4,714.3 feet and longitude 79°32′ W. plus 4,797.3 feet.

Northerly, along a line parallel to, and 25 feet easterly from the centerline of Curundu Road, to monument "B", which is a 2-inch iron pipe set in concrete, located 10 feet westerly from the centerline of a railroad, the geodetic position of which is in latitude 8°58′ N. plus 5,263.5 feet and longitude 79°32′ W. plus 4,845.0 feet;

Northerly, along a line parallel to, and 10 feet westerly from the centerline of the above mentioned railroad, to monument "C", which is a 2-inch iron pipe set in concrete, located 25 feet westerly from the centerline of Warehouse Road, the geodetic position of which is in latitude 8°58′ N. plus 5,920.2 feet and longitude 79°32′ W. plus 4,577.6 feet;

N. 00° 08′ 40″ W., 321.6 feet, to monument "D", which is a 2-inch iron pipe set in concrete, located 25 feet westerly from the centerline of Warehouse Road;

N. 65° 59′ 30″ E., 1,390.5 feet, along a line, 99 feet northerly of the Air Force Warehouse Building line, through monuments "E", "F" and "G", which are 2-inch iron pipes set in concrete, to monument "H", which is a 2-inch iron pipe set in concrete, the distances being 223.6 feet, 387.6 feet, 423.1 feet and 356.2 feet, successively, from beginning of the course;

N. 65° 59′ 00″ E., 141.0 feet, to monument "I", which is a 2-inch iron pipe set in concrete;

N. 65° 59′ 30″ E., 190.2 feet, to monument "J", which is a 2-inch iron pipe set in concrete;

N. 65° 59′ 40″ E., 140.7 feet, through monument "K", which is a 2-inch iron pipe set in concrete, located on the right bank of the Rio Curundu, to an unmarked and unnumbered point, located on the Canal Zone-Republic of Panama boundary, in the center of the Rio Curundu, the geodetic position of which is in latitude 8°59′ N. plus 956.7 feet and longitude 79°82′ W. plus 2,869.1 feet, the distances being 116.2 feet and 24.5 feet, successively, from beginning of the course;

Southerly, along the centerline of the Rio Curundu, on the Canal Zone-Republic of Panama boundary, to an unmarked and unnumbered point, located 32 feet northeasterly from the centerline of the Road to Bella Vista, near Albrook Air Force Gate No. 12, the geodetic position of which is in latitude 8°58′ N. plus 4,057.3 feet and longitude 79°32′ W. plus 3,082.6 feet;

N. 34° 52′ 20″ W., 77.1 feet, parallel to, and 32 feet from the centerline of the Road to Bella Vista, to monument No. 1, the point of beginning.

The above described boundary line from monument No. 1 through monument "K" to unnumbered point in the centerline of the Rio Curundu, and from unnumbered point in the centerline of the Rio Curundu near Gate No. 12 to monument No. 1, is common with a part of the easterly boundary of Curundu Army Reservation.

PARCEL NO. 5

Beginning at monument "A", which is a 2-inch iron pipe set in concrete, located on the westerly side of the Engine Test Valley Road, the geodetic position of which is in latitude 8°59′ N. plus 3,486.8 feet and longitude 79°32′ W. plus 4,924.0 feet.

Thence from said initial point by metes and bounds:

S. 76° 29′ 20″ E., 275.0 feet, to monument "B", which is a 2-inch iron pipe set in concrete;

N. 13° 30′ 30″ E., 740.0 feet, to monument "C", which is a 2-inch iron pipe set in concrete;

N. 76° 29′ 40″ W., 275.0 feet, to monument "D", which is a 2-inch iron pipe set in concrete;

S. 13° 30′ 20″ W., 739.9 feet, to monument "A", the point of beginning.

The directions of the lines refer to the true meridian.

The total area of Albrook Air Force Base is 2,697.8 acres, more or less, (Parcel No. 1 is 1,403.9 acres, more or less; Parcel No. 2 is 1,158.8 acres, more or less; Parcel No. 3 is 31.8 acres, more or less; Parcel No. 4 is 98.6 acres, more or less, and Parcel No. 5 is 4.7 acres, more or less) and is as shown on Canal Zone Government Drawing No. 6116–34, entitled "Map Showing U. S. Army and U. S. Air Force Reservations—Fort Clayton, Corozal, Curundu, and Albrook Air Force Base, Canal Zone", scale 1:10,000, dated May 29, 1952, on file in the Office of the Governor of the Canal Zone, Balboa Heights, C. Z.

GENERAL

The surveys over the boundaries of the Fort Clayton Corozal and Curundu Army Reservations and the Albrook Air Force Base, were made in January 1946, November and December, 1950, January, August, September and December, 1951, and March and April 1952, and are recorded in Field Books numbered M–384, M–425, M–426, M–463, M–476, M–477, M–480, M–483, M–485, M–488 and M–492, and the geodetic positions of all points, referred to the Panama-Colon datum of the Canal Zone triangulation system, are on file in the office of the Surveys Branch, Engineering and Construction Bureau, The Panama Canal Company. Any change in geodetic position of monuments describing the boundary of the old Curundu Military Reservation is due to recomputation of positions based on better controlled net-work and is not to be construed as the movement of monuments to new positions, with the exception of revisions agreed to by all concerned.

SEC. 2. *Conditions and limitations.* The reservations established by section 1 of this order shall be subject to the following conditions and limitations:

(a) The areas comprising these reservations shall continue to be subject to the civil jurisdiction of the Government of the Canal Zone in conformity with the provisions of the Canal Zone Code as amended and supplemented.

(b) Personnel and equipment of the Canal Zone Government and of the Panama Canal Company shall be permitted free access to these reservations to carry out necessary operations of such agencies in, or in the vicinity of, these reservations, in connection with the public health and sanitation, drainage, surveys, aids to navigation, power transmission and distribution, telephone service, water and sewerage facilities, et cetera; to inspect, maintain, repair, modify, or replace facilities or installations of such agencies within or adjacent to these reservations; and to install any additional services or utilities that are necessary to be installed through or upon, or in the vicinity of, these reservations.

(c) A right-of-way, through Curundu Army Reservation, over a strip of land 10 feet each side of the centerline of the railroad tracks, between monument "B" (Parcel No. 4) of Albrook Air Force Base and monument No. 68 (Parcel No. 2) of Albrook Air Force Base, is reserved for the Air Force.

SEC. 3. This order supersedes (1) Executive Order No. 3207 of December 30, 1919, which established Curundu Military Reservation, including Fort Clayton, the Panama Arsenal, the Engineer Depot, the Post of Corozal, and Albrook Field, (2) Executive Order No. 6713 of May 21, 1934, which corrected the description of the said reservation, (3) Canal Zone Order No. 26 of March 18, 1952, which revised the boundary of Parcel No. 1 of said reservation, (4) Canal Zone Order No. 27 of April 18, 1952, which revised the boundary of Parcel No. 1 of said reservation and created new Parcels Nos. 1–A and 1–B.

(Sec. 4, 37 Stat. 561; 2 C. Z. Code 5, 48 U. S. C. 1305)

FRANK PACE, JR.,
Secretary of the Army.

SEPTEMBER 26, 1952.

[F. R. Doc. 52–10962; Filed, Oct. 9, 1952; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards Concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

1. The Commission has before it for consideration its "Notice of Further Rule Making" (FCC 52–817) issued in these proceedings on August 4, 1952. The Commission stated in the Memorandum Opinion accompanying the above Notice that upon reconsideration it had determined that it was in error in concluding in the "Sixth Report and Order" that "it was necessary to leave Lafayette without any VHF assignment in order to make one available to Alexandria, Louisiana." In the Memorandum Opinion the Commission reaffirmed the decision to assign Channel 5 to Alexandria, but pointed out that such assignment could be accomplished without depriving Lafayette, Louisiana of a VHF assignment. In order to correct the Sixth Report and to assign a VHF channel to Lafayette, the Commission proposed in the aforesaid Notice of Further Rule Making to make the following changes in the channel assignments:

City	Channel, delete—	Number, add—
Baton Rouge, La	10	2
New Orleans, La	*2	*8
Mobile, Ala	5	10
Lafayette, La		10

2. The Commission therefore proposed to amend the table of assignments contained in § 3.606 of the Commission's rules and regulations to read as follows:

Channel No.

Alabama:
Mobile 5+, 10+, *12, 48+.
Louisiana:
Baton Rouge 2, 28, *34, 40–.
Lafayette 10, 38–, 67
New Orleans 4+, 6+, *8, 20–, 32+, 61.

3. The Commission also stated in the above notice that during the pendency of this matter applications would not be processed for television stations on Channel 10 in Baton Rouge, Channel 2 in New Orleans, Channel 8 in Mobile and Channel 5 in Alexandria.

4. Camellia Broadcasting Company, Inc., Lafayette, Louisiana filed a comment on August 26, 1952 supporting the proposed assignment of VHF Channel 10 in Lafayette.

5. On September 3, 1952, Alexandria Broadcasting Company, an applicant for a television station on Channel 5 in Alexandria, Louisiana, filed a comment in response to the above Notice of Further Rule Making. Alexandria Broadcasting Company supports the Commission's proposed assignments but urges that since the Commission has reaffirmed the assignment of Channel 5 to Alexandria, the processing of applications for that channel should not be upheld during the pendency of this proceeding.

6. James A. Noe, New Orleans, Louisiana, filed a comment in the above-entitled proceeding on August 25, 1952. James A. Noe urges that while the pro-

posed changes in channel assignments "would satisfy the demand for a VHF channel in Lafayette without depriving any other community of such a channel, it would not provide for the maximum or most efficient distribution of the VHF channels in the area." James A. Noe submits that these objectives could be realized by a different rearrangement of channel assignments which would also afford an additional VHF assignment to New Orleans. This would be accomplished by assigning Channel 3 to Baton Rouge, Louisiana in place of Channel 2 as proposed by the Commission, and by assigning both channels 2 and 8 to New Orleans rather than substituting Channel 8 for Channel 2 in that community as proposed by the Commission. James A. Noe urges that under these proposed assignments no city would be deprived of a VHF assignment nor would the number of assignments to any city be reduced, while all separation requirements would be met. It is pointed out that New Orleans has a population of almost 700,000 within its metropolitan area and is the twenty-second largest market in the United States, and it is urged that an additional VHF channel in New Orleans might permit the authorization of two new VHF stations in that community without the necessity of a comparative hearing. Finally, James A. Noe contends that "in any event, New Orleans eventually would be better supplied with television broadcasting service than the Commission's present proposal contemplates."

7. On September 5, 1952, Lamar Life Insurance Company, Jackson, Mississippi filed an opposition entitled "Comments on the 'Comments and Counter-proposal of James A. Noe' ". Lamar Life Insurance Company points out that it has before the Commission a "Petition for Reconsideration or Rehearing" of the Commission's action in its "Sixth Report and Order" deleting VHF Channel 3 from the assignments to Jackson, Mississippi. That petition for reconsideration requests that VHF Channel 3 be reassigned to Jackson. In its opposition to the James A. Noe comment, Lamar Life Insurance Company submits that this comment represents an attempt to change substantially the substance and effect of the Commission's Lafayette rule making proposal. Lamar contends that the Commission proposed to conduct rule making proceedings for the limited and sole purpose of providing a VHF television channel assignment to Lafayette, while the James A. Noe comment was offered "for the exclusive and sole purpose of trying to secure the assignment of an additional VHF channel to New Orleans." Lamar maintains that the Table of Assignments may be amended in only two ways: (1) By the timely filing of a petition for reconsideration; or (2) by the filing of a petition for rule making to amend the table. Lamar argues that the time for filing a petition for reconsideration, 20 days from the effective date of the order, has passed and that, accordingly, James A. Noe could not file a petition for reconsideration at this date. Further, it was argued that if the James A. Noe comments are intended to be a petition to amend the Table of Assignments, the one year waiting period prescribed by § 3.609 of Commission's rules precludes consideration of the request at this time. Lamar Life Insurance Company points out that the proposal of James A. Noe conflicts with its own petition for reconsideration seeking the assignment of VHF Channel 3 to Jackson, Mississippi since the assignment of Channel 3 to Baton Rouge would not meet the required minimum separation to a co-channel assignment at Jackson.

8. On August 29, 1952, a joint comment and proposal was filed in the above-entitled proceeding by Baton Rouge Broadcasting Company, Inc. and Air Waves, Inc., both of Baton Rouge, Louisiana. This joint comment urges the adoption of a proposal which would achieve "all of the desired results set forth in the aforesaid notice and making possible at the same time the addition of a second VHF channel in Baton Rouge, all of which can be accomplished without reducing the total number of assignments to any city." It was pointed out that Baton Rouge has a population of 125,629, is the capital of the State of Louisiana, and is its third largest city. The proposed assignments suggested by the joint comments are as follows:

City	Add Channel	Delete Channel
Lake Charles, La	10	7
Lafayette, La	7	
Baton Rouge, La	2, 13	10
Mobile, Ala	3	8
New Orleans, La	*8	*2
Pensacola, Fla	13	3
Biloxi, Miss	10	13

It was also urged as an alternative proposal that the following assignments could be made thereby also permitting an additional assignment to Baton Rouge and Lake Charles, La.:

City	Add Channel	Delete Channel
Lake Charles, La	10, 12	7
Lafayette, La	7	
Baton Rouge, La	2, 13	10
Mobile, Ala	3	8
New Orleans, La	*8	*2
Pensacola, Fla	13	3
Biloxi, Miss	10	13
Little Rock, Ark	12	11
Shreveport, La	11	12

It should be noted that in both of the above proposals suggested by Baton Rouge Broadcasting Company, Inc. and Air Waves, Inc., Channel 3 would be assigned to Mobile, Alabama. This assignment would not meet the required minimum spacing to the assignment of Channel 3 in Jackson, Mississippi. Accordingly, these proposals would also preclude a grant of the petition for reconsideration of Lamar Life Insurance Company seeking the assignment of Channel 3 to Jackson, Mississippi. On September 15, 1952, Calcasieu Broadcasting Company, Lake Charles, Louisiana, filed a "Comment to Proposal of Baton Rouge Broadcasting Company, Inc. and Air Waves, Inc." Calcasieu Broadcasting Company notes that one of the alternative proposals of Baton Rouge Broadcasting Company, Inc. and Air Waves, Inc. would permit the additional assignment of VHF Channel 12 to Lake Charles, Louisiana. It was stated that there are presently pending two mutually exclusive applications for the one VHF Channel, Channel 7, presently assigned to Lake Charles. These are the applications of Calcasieu Broadcasting Company and of Sowela TV, Inc. It was urged that the adoption of the alternative proposal "would make possible the establishment of two VHF commercial television stations in Lake Charles, without a hearing instead of only one station after a lengthy and costly hearing." Accordingly, Calcasieu Broadcasting Company supports the proposal of Baton Rouge Broadcasting Company, Inc. and Air Waves, Inc.

9. The proposal filed in this proceeding by Baton Rouge Broadcasting Company, Inc., and Air Waves, Inc., is designed to add an additional channel to Baton Rouge, Louisiana, and alternatively, to Baton Rouge and Lake Charles, Louisiana. Insofar as this proposal requests an immediate assignment to Baton Rouge or Lake Charles of a channel not previously assigned to that community, it cannot be entertained at this time. The request for an additional channel in Baton Rouge or Lake Charles was not timely made in a petition for reconsideration of the Sixth Report, and such a request may not be considered during the one-year waiting period prescribed by § 3.609 of the rules. Nor can we accept the argument that the proposal should, nevertheless, be considered since it would make possible the assignment of an additional channel to Baton Rouge at the end of the one-year period prescribed by § 3.609 of the rules. The Commission has made changes in the Assignment Table only on its own motion or on timely petitions filed for reconsideration where necessary to correct errors in the Sixth Report. And in correcting errors, the Commission has sought to keep the resulant changes in the Assignment Plan to a minimum. (See, for example, our Memorandum Opinion and Order issued in Docket 10244 FCC 52–1039.)

10. Such limitation upon Commission action and the further limitation prescribed by § 3.609 for the consideration of new proposals to amend the Table of Assignments are essential to the prompt establishment of a nationwide television service. For stability in the channel Assignment Plan is necessary to permit applicants to make all necessary preparations for the submission of applications for television channels, and upon appropriate authorization therefor to construct television stations. In addition, as we pointed out in the Sixth Report, the information and experience which we will acquire during this one-year waiting period will be of great value in determining future policy in channel assignments. Moreover, this one-year period permits the Commission to devote the maximum attention to the processing of television applications. In the present case the method proposed by the Commission for correcting the erroneous deletion of a channel from Lafayette necessarily effects changes in the channels in certain communities, but the Baton Rouge proposal would effect changes in several additional communities. To the extent that the Baton Rouge proposal would make such additional changes in the final assignment plan which are not required in order to correct the Lafayette error, it would unnecessarily disrupt the stability of the Assignment Table. For the reasons above stated, we consider such disruption highly undesirable.

11. The proposal filed by James A. Noe is subject to some of the same infirmities as the Baton Rouge proposal reviewed above. It, too, is designed to effect the assignment of an additional channel at this time to a community other than Lafayette; and we would not, under any circumstances, entertain such a proposal prior to the expiration of the one-year waiting period. The James A. Noe proposal, however, differs from the Baton Rouge proposal in that it suggests channel changes only in those communities where the Commission's proposed rule would also make changes. But if this fact should lead us to consider the Noe proposal on its merits, we should, nevertheless, be constrained to deny it. In the Sixth Report the Commission assigned to New Orleans 3 VHF channels and 4 UHF channels, with one of the VHF channels reserved for education. We are of the view that the assignment of a second VHF channel to Jackson is to be preferred over the assignment of a fourth VHF channel to New Orleans. The City of New Orleans is, of course, more important that the City of Jackson in terms of size, population and economic factors; and the number of assignments which we made to New Orleans as compared to Jackson is, in fact, based on those differences. Nevertheless, Jackson is a large and important community with a population of 98,000 persons in the city proper and a population of 142,000 persons within the metropolitan area. We have determined as a principle of assignment, followed consistently throughout the Sixth Report in the consideration of counterproposals filed in the television proceeding, that we would assign a second VHF channel to a city of the size and importance of Jackson before we would assign a fourth VHF channel to any city. The James A. Noe counterproposal must be denied. We are this day, by a separate Memorandum Opinion and Order, granting the petition for reconsideration seeking the assignment of Channel 3 to Jackson.

12. None of the comments filed in this proceeding opposed the assignment of an additional VHF channel to Lafayette. We are of the view that the assignments proposed in our Notice of Further Rule Making should be adopted. Alexandria Broadcasting Company has urged that the suspension of the processing of applications for television station on Channel 5 in Alexandria, Louisiana should not be continued. The Commission suspended the processing of applications for Channel 5 in Alexandria because of the pendency of the instant rule making proceeding. Since we have finally determined by our action herein to assign Channel 10 in Lafayette no further purpose would be served by the continued suspension of processing of applications for Channel 5 in Alexandria and such applications will again be processed.

13. In view of the foregoing: *It is ordered*, That, effective 30 days from the date of publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended to read as follows:

	Channel No.
Alabama:	
Mobile	5+, 10+, *42, 48+.
Louisiana:	
Baton Rouge	2, 28, *34, 40—.
Lafayette	10, 38—, 67—.
New Orleans	4+, 6+, *8, 20—, 26, 32+, 61.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: September 25, 1952.

Released: September 30, 1952.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] T. J. SLOWIE,
Secretary.

PART 7—STATIONS ON LAND IN THE MARITIME SERVICE

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

SPECIAL REQUIREMENTS FOR RADIOTELEPHONE TRANSMITTERS

In the matter of amendment of §§ 7.137 and 8.137 of the Commission's rules.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of September 1952;

The Commission having under consideration the provisions of §§ 7.137 and 8.137 of its rules regarding the requirements that certain coast and ship stations operating on frequencies above 30 Mc utilize transmitters which have been type accepted and include provision for automatically limiting modulation;

It appearing, that several of such stations, whose current authorization expires November 1, 1952, utilize transmitters which do not meet the above requirements, and will thereby be precluded from continued operation unless the transmitters are replaced or modified; and

It further appearing, that the requirements referred to were incorporated into the Commission's rules, effective July 23, 1951, and that it would be desirable to permit a further amortization period for equipment investments; and

It further appearing, that on January 1, 1955 a further equipment requirement will become applicable to many of such stations in that they must then be capable of operation on at least three radio channels and licensees may again be required to replace, modify or add to equipment; and

It further appearing, that it would be in the public interest to amend the Commission's rules to permit the continued licensing of such stations until January 1, 1955, subject to a condition that no harmful interference be caused thereby to the service of any other station by reason of unauthorized emissions; and

It further appearing, that because of the necessity of avoiding interruption of the service of such stations the rule amendments herein ordered are urgent in nature and compliance with the public rule making procedures provided for in section 4 (a) of the Administrative Procedure Act is impracticable, and for the same reason and because those amendments relieve a restriction, they may be made effective immediately;

It is ordered, Under authority of sections 303 (c), (e), (f), and (r) of the Communications Act of 1934, as amended, that, effective immediately, Parts 7 and 8 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

1. Section 8.137 is amended as follows:

a. The last sentence of paragraph (a) is amended to read as follows: "This requirement, however, shall not apply (1) to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature; nor (2) to any transmitter capable of operation exclusively at a frequency or frequencies above 30 Mc which was first authorized in a particular station license for use in the Maritime Mobile Service granted in behalf of a particular licensee prior to November 1, 1952, when that transmitter is authorized in a ship station license or a marine utility station license granted in behalf of the same licensee and having a date of expiration not later than December 31, 1954."

b. Subparagraph (1) of paragraph (c) is amended by adding new sentences at the end of subparagraph (1) to read as follows: "This requirement, however, shall not apply to any transmitter capable of operation exclusively at a frequency or frequencies above 30 Mc which was first authorized in a particular station license for use in the Maritime Mobile Service granted in behalf of a particular licensee prior to November 1, 1952, when that transmitter is authorized in a ship station license or a marine utility station license granted in behalf of the same licensee and having a date of expiration not later than December 31, 1954. In the event the operation of any such transmitter causes harmful interference to the service of any station, by reason of unauthorized emission, the Commission may, in its discretion, require that the use of such transmitter be discontinued until it has been type accepted pursuant to the foregoing provisions of this subparagraph."

2. Section 7.137 (b) (1) is amended by adding the following sentences at the end of subparagraph (1): "This require-

ment, however, shall not apply to any transmitter capable of operation exclusively at a frequency or frequencies above 30 Mc which was first authorized in a particular station license for use in the Maritime Mobile Service granted in behalf of a particular licensee prior to November 1, 1952, when that transmitter is authorized in a coast station license or a marine utility station license granted in behalf of the same licensee and having a date of expiration not later than December 31, 1954. In the event the operation of any such transmitter causes harmful interference to the service of any station, by reason of unauthorized emission, the Commission may, in its discretion, require that the use of such transmitter be discontinued until it has been type accepted pursuant to the foregoing provisions of this subparagraph."

[F. R. Doc. 52-10984; Filed, Oct. 9, 1952; 8:49 a. m.]

[Docket No. 9898]

PART 11—INDUSTRIAL RADIO SERVICES

PART 16—LAND TRANSPORTATION RADIO SERVICES

RELAY STATIONS

In the matter of a new policy on licensing of relay stations in the Industrial and Land Transportation Radio Services, Parts 11 and 16, respectively; Docket No. 9898.

These proceedings were instituted on February 17, 1951, by a Notice of Proposed Rule Making (Docket No. 9898) with respect to a revision of Part 11, Rules Governing Industrial Radio Services, and Part 16, Rules Governing Land Transportation Radio Services, to permit licensing of Mobile Relay Stations in these Services in certain situations where it appeared that no other satisfactory solution to an applicant's communication problem was possible. As a result of the comments filed in that proceeding, the Commission, on August 15, 1951, released a Report and Order making final certain parts of the proposal. Concurrently, with the issuance of the aforesaid Report and Order, a Further Notice of Proposed Rule Making was issued in the matter in which the following questions were designated for hearing:

(a) To determine under what circumstances, if any, Mobile Relay Stations should be licensed under Parts 11 and 16 of the Commission's rules for the purpose of providing extended-range point-to-mobile communications; and,

(b) To determine under what circumstances, if any, Operational Fixed (Control) Stations, associated with Mobile Relay Stations licensed under Parts 11 and 16 of the Commission's rules, should be permitted to operate on frequencies allocated to the Mobile Service.

The hearing was held on May 26, 1952, before Commissioner Bartley. Witnesses appeared on behalf of the Rural Electrification Administration, the National Rural Electric Cooperative Association, the National Committee for Utilities Radio, the Central Committee on Radio Facilities of the American Petroleum Institute, the Association of American Railroads, National Bus Communications, Inc., the Hawaiian Sugar Planters Association and Motorola, Inc.

Entwined in both issues is the problem of point-to-point operation on mobile service frequencies. However, there is one very important difference. Issue A would enlarge the class of persons eligible for mobile relay operations and, unless controlled carefully, would tend to emasculate by indirection the Commission's oft repeated general policy of prohibiting use of mobile service frequencies for fixed service operations. Issue B, on the other hand, would not, theoretically at least, increase the number of persons who could qualify since it relates only to the manner in which a system may be used once one has been obtained.

At this point we would like to comment briefly on a line of reasoning that ran through the testimony of most of the witnesses. It relates to the implications inherent in their testimony that failure to extend the use of mobile relay systems to encompass these point-to-point operations would be wasteful of spectrum space since, instead of using two frequencies per conversation, three or four would be needed. What such reasoning loses sight of is the fact that the additional frequencies used are those allocated to the fixed service and, as all of the witnesses know, mobile service frequencies are much more congested than those of the fixed service. Furthermore, presently known techniques limit the amount of spectrum space that can be used for mobile operations. Until, therefore, the demands for mobile service are satisfied it is extremely misleading to lump together frequencies available for both services without distinguishing between them. That the parties were aware of the mobile problem is apparent since all were agreed that all use of mobile service frequencies for fixed operations should be on a no interference basis to the mobile use.

At present, all Fixed Control Stations licensed in the Industrial and Land Transportation Service are required to operate on frequencies allocated to the fixed services. Since every mobile relay system requires the use of at least two mobile service frequencies, it had been proposed in the Notice of Proposed Rule Making issued February 7, 1951, to permit persons eligible for mobile relay systems to use one of these frequencies for control purposes.

Upon reconsideration, however, it was believed that the adoption of such a rule might discriminate in favor of those who could qualify for Mobile Relay Stations as against users of conventional systems who still would be limited to fixed frequencies for control purposes. Furthermore, there was some question as to whether such use would add to the already heavy communication burden borne by frequencies necessary primarily for mobile operations. Accordingly, it was decided to afford interested persons an opportunity to be heard specifically on the question.

All comments filed and all persons present at the hearing favored the adoption of a rule which would permit use of the frequency assigned to the mobile station for control purposes in mobile relay systems. Testimony on this point was to the effect that mobile service frequency utilization would be substantially unchanged by the increase in air time on the mobile station frequency because permitting both sides of a two-way conversation on this frequency instead of only one side does not sacrifice usable air time of other licensees due to the short intervals involved. As to the possibility that such use might be discrimination of a sort, the Commission, upon re-examination of the question, does not believe that as a practical matter any discrimination in fact exists. To be eligible for a mobile relay system, an applicant must make an extensive showing of need. This entitles him to use two frequencies, a use that is justified by the economic and operational considerations unique to such systems. Since the use of one of these frequencies for control purposes would not materially increase the air time of that frequency, no substantial injury is caused to those persons who do not qualify for mobile relay. It appears, therefore, that to deny such use would simply be the imposition of an artificial limitation for no valid reason. Accordingly, we are amending Parts 11 and 16, Rules Governing Industrial and Land Transportation Radio Services, respectively, as shown in the attached Appendix, to permit use of the mobile station frequency for control purposes in mobile relay systems.

In this connection, however, we wish to make the following observations. All mobile relay systems require at least two mobile service frequencies. While it is true that a number of so-called conventional systems also require two mobile frequencies, there is an important distinction between the two. No conventional system involves the simultaneous transmission of a single message on more than one fixed service frequency and one mobile service frequency at a time. In the case of most, if not all, mobile relay systems, each conversation will now appear simultaneously on both of the mobile service frequencies. The only justification for this extravagance in spectrum usage is operational necessity. The Commission, therefore, will continue to scrutinize carefully all applications for mobile relay systems to make certain that the applicant, in fact, has a substantial requirement for prompt mobile-to-mobile communication over ranges greater than can be realized consistently by direct communication. We will take every precaution to guard against the possibility of using mobile relay systems in cases where the chief reason for the system is the cost that would be involved in setting up a two-way control link on fixed service frequencies.

A basic feature of the original proposal was to restrict the use of Mobile Relay Stations to those situations where an applicant could show a substantial requirement for extended range mobile-to-mobile communications greater than that obtainable by direct car-to-car communications. While this met with the approval of most of those interested, the railroads asked that the concept be expanded to permit eligibility for a mobile relay system in those cases where a person has a requirement for extending the range between his control station and his mobile units. The Association of American Railroads presented extensive testimony in support of this position. They were joined by the representative of National Bus Communications, Inc. and to a lesser extent by the representative of the Central Committee on Radio Facilities of the American Petroleum Institute.

Basically, the argument of the railroads is that while there is some need in Railroad Radio Service for the mobile-to-mobile type of communication, particularly in freight yards where cars are moved about by yard engines, the greater needs are on mainline operations in the point-to-train type of service. In present practice the mainline radio system consists of a series of base stations on or along the characteristically long, narrow railroad right-of-way. These stations are controlled locally or remotely by wire or carrier from a railroad wayside office or offices open twenty-four hours daily. These base stations are so spaced that each will provide direct communication with trains within its radial range of about five to twenty miles, dependent upon whether it is located in flat, rolling or mountainous terrain and other factors. However, on many railroads the distances between the aforementioned wayside offices is often so great that one or more intermediate base stations may be required to provide full radio coverage. It would be exceedingly costly if each of these intermediate stations had to be individually manned. While it is possible to control these intermediate stations remotely by wire or carrier circuits, these methods ordinarily are not as reliable as control by radio. In this connection, the railroads point out that since it is general practice to utilize two frequencies on roads employing both end-to-end and point-to-train communication, the use of one of these frequencies to relay traffic automatically at these stations would not increase the number of frequencies required.

Since almost every licensee and potential licensee has at one time or another some occasion to communicate with distant mobile units, a blanket eligibility proviso permitting anyone to qualify for mobile relay if he can show a requirement to extend the range between his base station and his mobile units is entirely impracticable. It would be tantamount to taking all restrictions off the use of mobile relay stations. All present at the hearing agreed that indiscriminate licensing of mobile relay systems was not desirable, but that it should be secondary to conventional operations. There just are not enough frequencies to permit such a thing to happen in all services. Not only would the numbers of frequencies required be increased, but the frequency assignment problem also is increased by the fact that the two frequencies which are assigned must be fairly widely separated—something on the order of half a megacycle at least with more separation being desirable. Since frequencies are allocated, in general, on a block basis and many of the blocks are too narrow to give the necessary separation, we would be faced with the prospect of imperfect utilization or a general re-allocation proceeding if Mobile Relay ever becomes the typical system design. Both alternatives are highly undesirable.

The Commission is of the opinion, however, that railroad and possibly bus operations differ sufficiently from those of most other users of radio to warrant separate consideration. The railroad industry has little or no occasion for long range train-to-train communication and so cannot qualify for mobile relay stations under present rules. By expanding the concept, however, to permit them to be eligible for the purpose of extending point-to-train communications, many wayside wire line circuits used for control purposes could be eliminated. In many parts of the country, this would result in substantial improvement in reliability of communications, an important consideration in safe and efficient railroad operation. However, the Commission believes that such systems should be limited in scope in order that the true purpose will be to facilitate mobile service operations and not a desire to substitute VHF point-to-point for microwaves. There are frequencies available for point-to-point operations and they should be used if that is the requirement.

While everything in the preceding paragraph could apply to the intercity bus industry, since they are in fact precluded from any form of mobile relay operation because there are no mobile service frequencies above 47 Mc suballocated to the Intercity Bus Service (see Report and Order of August 15, 1951, p. 4, Docket No. 9898), no provision is made for this industry at this time. As to the petroleum industry, while they demonstrated a sound need for the use of a mobile frequency for control purposes in mobile relay systems, we are of the opinion that their operations do not require extension of the mobile relay concept for the purpose of extending the range of point-to-mobile communications.

The Commission, therefore, is prepared to issue authorizations on a developmental basis in the Railroad Radio Service for the purpose of extending the range of point-to-train communications in mainline operations. This action enlarges only the scope of eligibility for mobile relay systems in the Railroad Radio Service. All technical considerations governing mobile relay operations currently found in the rules governing the Railroad Radio Service will be equally applicable to the new operations. In addition, it will be noted that the frequency assignment plan promulgated by the Association of American Railroads and used by the Commission in making assignments provides for the use of two and only two mobile service frequencies by each of the nation's railroads for mainline operations. During this developmental program either or both of these frequencies will have to be used in any mobile relay system applied for. No other frequencies will be assigned.

In view of the foregoing considerations and determinations, and pursuant to the authority contained in section 4 (i), 301 and 303 of the Communications Act of 1934, as amended, it is ordered this 24th day of September 1952, that:

1. The foregoing report is adopted.

2. Part 11, Industrial Radio Services, and Part 16, Land Transportation Radio Services, are amended as set forth below, effective November 3, 1952.

3. The proceedings in Docket 9898 are terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, as amended, 1082, as amended; 47 U. S. C. 301, 303)

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary,

1. a. Section 11.7 *Relay stations,* is amended by deleting the present paragraph (b) (7) and by substituting the following:

(b) *Mobile relay stations.* • • •

(7) An operational fixed (control) station associated with one or more mobile relay stations may be assigned any frequency available for assignment to operational fixed stations or, at the option of the applicant, the mobile service frequency assigned to the associated mobile station. Use of the mobile service frequency by such operational fixed (control) stations is subject to the condition that harmful interference shall not be caused to stations of other licensees operating in the mobile service in accordance with the table of frequency allocations as set forth in Part 2 of the Commission's rules.

b. Add a new paragraph (b) (10) as follows:

(10) A base station which is used intermittently as an operational fixed (control) station for one or more associated mobile relay stations of the same licensee will be authorized to operate only on the mobile service frequencies assigned to the associated mobile relay station and/or mobile station. Special authority for such dual station classification and use must be shown in the instrument of station authorization.

2. a. Section 16.355 *Relay stations* is amended by deleting the present paragraph (b) (7) and by substituting the following:

(b) *Mobile relay stations.* • • •

(7) An operational fixed (control) station associated with one or more mobile relay stations may be assigned any frequency available for assignment to operational fixed stations or, at the option of the applicant, the mobile service frequency assigned to the associated mobile station. Use of the mobile service frequency by such operational fixed (control) stations is subject to the condition that harmful interference shall not be caused to stations of other licensees operating in the mobile service in accordance with the table of frequency allocations as set forth in Part 2 of this chapter.

6. Add a new paragraph (b) (10) as follows:

(10) A base station which is used intermittently as an operational fixed (control) station for one or more associated mobile relay stations of the same licensee will be authorized to operate only on the mobile service frequencies assigned to the associated mobile relay station and/or mobile station. Special authority for such dual station classification and use must be shown in the instrument of station authorization.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 95—CAR SERVICE

[S. O. 891]

SUBSTITUTION OF STOCK CARS FOR BOX CARS TO TRANSPORT FRUIT AND VEGETABLE CONTAINERS AND BOX SHOOKS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 6th day of October A. D. 1952.

It appearing, that fruit and vegetable containers, box shooks and other packing material are now moving in box cars from origins in the States of Washington, Oregon and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona; that the substitution of stock cars for such box cars will release the box cars for other and more essential transportation; in the opinion of the Commission an emergency exists requiring immediate action to prevent a shortage of equipment: It is ordered, that:

§ 95.891 *Substitution of stock cars for box cars to transport fruit and vegetable containers and box shooks—Transportation of fruit and vegetable containers, box shooks or other packaging or packing materials.* (a) Any common carrier by railroad subject to the Interstate Commerce Act transporting fruit and vegetable containers, box shooks or other packaging or packing materials, in carloads, from origins located in the States of Washington, Oregon and California, to destinations in the States of Washington, Oregon, California, Nevada and Arizona may, at their option, furnish and transport not more than two (2) stock cars (Southern Pacific Series 70300–77775) in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car.

(b) *Application.* The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 12:01 a. m., October 8, 1952.

(d) *Expiration date.* This section shall expire at 11:59 p. m., December 31, 1952, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] GEORGE W. LAIRD, *Acting Secretary.*

[F. R. Doc. 52-10981; Filed, Oct. 9, 1952; 8:48 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

MEANS BY WHICH MIGRATORY GAME BIRDS MAY BE TAKEN

Basis and purpose. On the basis of investigations and information received relating to serious depredations to agricultural crops occurring or likely to occur in certain areas of California, it has been determined that these depredations may be alleviated by reducing, in a portion of the State, the distance limitation between feed and where a hunter is stationed and shortening the specified period of time that must elapse between the placing or presence of feed which is likely to attract certain migratory birds to a hunting area and the opening date of the hunting season for such birds.

Since the following amendatory regulation is a relaxation of existing restrictions applicable to the hunting of waterfowl, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001 et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, the first paragraph of section 6.3 (b) of the regulations under the Migratory Bird Treaty Act (40 Stat. 755; 16 U. S. C. 704) is amended to read as follows:

(1) Waterfowl, coot, gallinules, doves, and pigeons may not be taken under any circumstances by the aid of salt, or shelled, shucked, or unshucked corn, wheat or other grains, or other feed similarly used to lure, attract, or entice such birds to, on, or over the area where hunters are attempting to take them. In addition, such birds may not be taken within one-half mile of any place where salt, or shelled, shucked, or unshucked corn, wheat, or other grains, or other feed of similar use in attracting such birds is placed, exposed, deposited, distributed, scattered, or present at any time during or within two weeks prior to the open season on such birds: *Provided*, That during the 1952 waterfowl season in the California counties of Glenn, Butte, Colusa, Sutter, Yuba, Placer (west of a line running north and south through the city of Auburn), Yolo, Solano, Sacramento, Contra Costa, San Joaquin, Stanislaus, Merced, Madera, and Fresno the two-weeks period specified herein shall be reduced to two days and the one-half mile limitation reduced to 300 yards.

(Secs. 3, 4, 40 Stat. 755, as amended; 16 U. S. C. 704, 705)

Dated: October 6, 1952.

VERNON D. NORTHROP, *Acting Secretary of the Interior.*

[F. R. Doc. 52-10963; Filed, Oct. 9, 1952; 8:45 a. m.]

Subchapter C—Management of Wildlife Conservation Areas

PART 31—PACIFIC REGION

SUBPART—FORT PECK GAME RANGE, MONTANA

HUNTING

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service and of the Montana Fish and Game Commission, it has been determined that the public hunting of waterfowl can be permitted on additional lands of the Fort Peck Game Range without interfering with the primary purpose of the refuge.

Inasmuch as the following regulation is a relaxation of existing regulations applicable to the Fort Peck Game Range, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 31.127 is revised to read as follows:

§ 31.127 *Area open to hunting.* The lands of the United States in the following portions of T. 26 N., R. 41 E., M. P. M., as designated by posting by the officer in charge, shall be open to the public hunting of migratory waterfowl and coots:

Sec. 3, all,
Sec. 10, W½ west of the road to the dam.
Sec. 15, NW¼, and portions of the NE¼ and the N½SW¼,
Sec. 16, NE¼, and portions of the NW¼ and the SE¼.

(45 Stat. 1224; 16 U. S. C. 715i)

Dated: October 3, 1952.

O. H. JOHNSON, *Acting Director.*

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 692]

RAILROAD, RAILWAY EXPRESS AND PROPERTY MOTOR TRANSPORT INDUSTRY IN PUERTO RICO

NOTICE OF POSTPONEMENT OF HEARING

On August 30, 1952, there was published in the FEDERAL REGISTER a notice of hearing on the minimum wage recommendations of Special Industry Committee No. 12 for Puerto Rico for a number of specified industries in Puerto Rico. Said notice stated that the hearing on the recommendations of the Committee for the Railroad, Railway Express and Property Motor Transport Industry in Puerto Rico would be held on October 14, 1952. Notice is hereby given that the hearing on the recommendations of the Committee for this industry is postponed until November 18, 1952, in Room 5406, Department of Labor Building, Washington 25, D. C. In all other respects, the hearing shall be governed by the provisions of the original notice of hearing published in the FEDERAL REGISTER on August 30, 1952.

Signed at Washington, D. C., this 6th day of October 1952.

WM. R. MCCOMB, *Administer, Wage and Hour Division.*

[F. R. Doc. 52-10994; Filed, Oct. 9, 1952; 8:52 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

REALLOCATION OF FREQUENCIES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 2.104 (a) of the rules and regulations with respect to the allocation of frequencies between 450–460 Mc; Docket No. 10323.

1. Notice is hereby given of proposed rule making in the above entitled matter, as set forth below.

2. It is proposed to amend § 2.104 (a) of Part 2 of the Commission's rules to reallocate the frequencies in the band 450–460 Mc in such a manner as to make possible greater flexibility in their assignment and use by a majority of the services involved. This is to be achieved by providing greater separation between the frequencies assignable to a particular service. The total number of frequencies available to each of the five services allocated space in this band is not changed.

3. A series of field tests conducted by interested persons appears to demonstrate that frequencies in this part of the spectrum are suitable for land mobile communication systems, at least in urban areas. It also appears, however, that the direct mobile-to-mobile range is quite short when compared to that obtained with similar installations in the 25–50 Mc and 152–174 Mc bands. One method of overcoming this disadvantage is to permit automatic relaying between the mobile units via a mobile relay station. Since it is necessary to transmit and receive simultaneously at such relay locations, the present allocation makes it difficult to consider making provision for this type of operation by those who eventually may desire it, due to the small separation in frequencies presently obtainable. The proposed change in allocations makes future consideration of this solution more practical.

4. The type of service offered by some communications carriers in the Domestic Public Land Mobile Radio Service requires that the base station transmit continuously during a two-way conversation. Lack of adequate frequency separation between the base station and mobile station frequencies in the present Domestic Public Land Mobile Service band 458–460 Mc is a factor which has retarded development of public service in this band. The proposed change in allocations would appear to eliminate this factor.

5. Commercial equipment suitable for land mobile service in the 450–460 Mc band is now becoming available in quantity. Since a change in allocations of the type proposed will require that many of the existing users of the band ultimately change frequency, the change should be made as quickly as possible to minimize the inconvenience and cost involved, if it is to be made at all. Although some changes in frequency assignments will be necessary if the proposal is adopted, a study of the Commission's frequency assignment lists indicates that the proposal, in its present form, will result in the fewest number of changes consistent with the objectives of the proposal.

6. Permittees and licensees of stations in the band 450–460 Mc will be allowed one year from the date of final action on these proposed rules to change frequency in any case where the presently assigned frequency becomes unavailable for continued use as a result of these proposed allocation changes.

7. Effective immediately, and until the proceedings in this docket are terminated, station authorizations other than Class 1 Experimental will be granted subject to the condition that the applicant change frequency, as may be necessary, no later than 90 days after the termination of these proceedings. Accordingly, it would appear to be unwise to make large scale investment in equipment on these frequencies during this period.

8. If this proposed rule making is made final in its present form, it will be necessary to amend Parts 4, 6, 10, 11, and 16 to reflect the change in allocations. This will be accomplished by a series of separate actions.

9. Authority for this rule proposal is vested in the Commission by sections 4 (i), 303 (c), (f), (g) and (h) of the Communications Act of 1934, as amended.

10. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before October 20, 1952, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

11. In accordance with the provisions of § 1.784 of the Commission rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: September 24, 1952.

Released: September 29, 1952.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE, *Secretary.*

1. Change the Commission's Table of Frequency Allocations, § 2.104 (a) as follows:

a. Delete the entries in column 11 opposite the frequency band 450–460 Mc in column 7.

b. Substitute the following entries in lieu thereof:

Band, Mc	Service	Class of station	Frequency	Nature (of services and of stations)
7	8	9	10	11
450-460 (NG1, 22).....	Land mobile..	(a) Base; (b) land mobile.	450.05 450.15 450.25 450.35 450.45 450.55 450.65 450.75 450.85 450.95	Remote pickup broadcast base; remote pickup broadcast mobile.
			451.05 451.15 451.25 451.35 451.45 451.55 451.65 451.75 451.85 451.95	Industrial.
			452.05 452.15 452.25 452.35 452.45 452.55 452.65 452.75 452.85 452.95	Land transportation.
			453.05 453.15 453.25 453.35 453.45 453.55 453.65 453.75 453.85 453.95	Public safety.
			454.05 454.15 454.25 454.35 454.45 454.55 454.65 454.75 454.85 454.95	Domestic public.
			455.05 455.15 455.25 455.35 455.45 455.55 455.65 455.75 455.85 455.95	Remote pickup broadcast base; remote pickup broadcast mobile.
			456.05 456.15 456.25 456.35 456.45 456.55 456.65 456.75 456.85 456.95	Industrial.
			457.05 457.15 457.25 457.35 457.45 457.55 457.65 457.75 457.85 457.95	Land transportation.

NOTICES

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[P. & S. Docket No. 1847]

NORTHWEST OKLAHOMA CATTLEMEN'S ASSOCIATION, INC.

NOTICE OF HEARING REGARDING BRAND INSPECTION AUTHORIZATION

On December 30, 1948, there was published in the FEDERAL REGISTER (13 F. R. 8736) an authorization for inspection of livestock issued by the Secretary of Agriculture to The Northwest Oklahoma Cattlemen's Association, Inc., under section 317 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 217a), granting to The Northwest Oklahoma Cattlemen's Association, Inc., the authority to charge and collect at stockyards subject to the provisions of the Packers and Stockyards Act (7 U. S. C. 181 et seq.) reasonable and nondiscriminatory fees for the inspection of brands, marks, and other identifying characteristics of livestock originating in or shipped from the Counties of Beaver, Cimarron, Ellis, Dewey, Harper, Major, Roger Mills, Texas, Woods, and Woodward, in the State of Oklahoma, for the purpose of determining the ownership of such livestock. On August 26, 1949, there appeared in the FEDERAL REGISTER (14 F. R. 5328) a complaint and notice of hearing issued by the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, alleging that it might be in the public interest to revoke the authorization granted. The complaint and notice of hearing, which was based upon an informal complaint filed with the Director of the Livestock Branch, alleged that:

1. Branding or marking livestock as a means of establishing ownership is not required by statutes of the State of Oklahoma;

2. The practice of branding or marking, or both branding and marking, livestock as a means of establishing ownership does not prevail by custom in the State of Oklahoma to an extent that would warrant the charging or collecting of fees for mandatory inspection;

3. Inspection under such authorization interferes with the orderly and expeditious handling of animals at posted stockyards;

4. Delays incident to such inspection cause shrinkage of livestock and loss of revenue to the shipper; and

5. The respondent is not equipped to perform the inspection in a manner which will be of value to the markets and shippers in that adequate records are not available to respondent to permit trained personnel to follow efficient procedures.

A hearing inquiring into the truth of said allegations was held at Woodward, Oklahoma, on November 1, 2 and 3, 1949.

On February 21, 1951, the Judicial Officer of the Department of Agriculture, after consideration of the evidence obtained at said hearing, ordered that the hearing be reopened in order to obtain additional information with respect to the facts alleged in the complaint and notice of hearing and the question of whether it would be in the public interest to revoke said authorization.

Pursuant to the said order issued by the Judicial Officer on February 21, 1951, the hearing was ordered reopened. Notice is hereby given that the hearing in this matter will be held on October 27, 1952, at 10:00 o'clock a. m., c. s. t., in the District Court Room, Court House, Woodward, Oklahoma. At such time any interested person desiring to be heard may present his views either in person or by attorney.

Done at Washington, D. C., this 7th day of October 1952.

[SEAL] AGNES B. CLARKE,
Hearing Clerk.

DEPARTMENT OF THE TREASURY

Bureau of Narcotics

[T. D. No. 46]

DISTRICT SUPERVISORS AND AGENTS

DELEGATION OF FUNCTIONS

The Secretary of the Treasury, by Treasury Department Order No. 157,[1] transferred to the Commissioner of Narcotics the functions relating to notice and demand to produce order forms for marihuana under section 2593 of the Internal Revenue Code (26 U. S. C. 2593) and authorized the delegation of such functions to subordinates of the Bureau of Narcotics. Accordingly, the Commissioner of Narcotics hereby delegates such functions to the district supervisors and agents of the Bureau of Narcotics.

This delegation of functions shall take effect upon publication in the FEDERAL REGISTER.

[SEAL] H. J. ANSLINGER,
Commissioner of Narcotics.

Approved: October 1, 1952.

E. H. FOLEY,
Acting Secretary of the Treasury.

[F. R. Doc. 52-10956; Filed, Oct. 9, 1952; 8:46 a. m.]

Office of the Secretary

[Treasury Department Order No. 157]

COMMISSIONER OF CUSTOMS AND COMMISSIONER OF NARCOTICS

DELEGATION OF FUNCTIONS

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, there are hereby transferred to the Commissioner of Customs and the Commissioner of Narcotics, to be exercised by either of them separately, the functions relating to notice and demand to produce order forms for marihuana under section 2593 of the Internal Revenue Code.

The functions herein transferred may be delegated by the Commissioner of Customs and the Commissioner of Narcotics to subordinates in their respective bureaus.

Dated: October 1, 1952.

[SEAL] E. H. FOLEY,
Acting Secretary of the Treasury.

FEDERAL POWER COMMISSION

[Docket No. G-1556]

SOUTHERN CALIFORNIA GAS CO.

ORDER GRANTING APPLICATION FOR REHEARING

OCTOBER 2, 1952.

On September 4, 1952, Southern California Gas Company filed its application for a rehearing of the Commission's order issued August 6, 1952, denying the Company's application for authority to transfer $3,000,000 from the reserve for possible tax deficiencies to earned surplus and authorizing the Company to transfer such amount to Account 258, Other Reserves. The Company's application also asks that the Commission stay its order issued August 6, 1952, pending rehearing and review.

As stated in the previous order the application to transfer the sum of $3,000,000 from the reserve for possible tax deficiencies to earned surplus was filed in the form of a letter dated April 18, 1952. Upon the basis of such letter application the Commission issued its order on August 6, 1952, without a hearings.

The Commission's order issued August 6, 1952, while it denies the Company's application to make the transfer to surplus and authorizes the transfer to Account 258, does not require action on the part of the Company, and therefore it does not appear necessary in order to maintain the status quo to stay such order pending rehearing or review.

The Commission finds:

(1) Good cause exists for granting rehearing of the Commission's order issued August 6, 1952, to make the determinations set forth in (A) below.

(2) No good cause has been shown for staying the order issued August 6, 1952, pending rehearing or review.

The Commission orders:

(A) Rehearing of the Commission's order issued August 6, 1952, be and it hereby is granted to determine whether Southern California Gas Company's application to transfer $3,000,000 from the reserve for possible tax deficiencies to earned surplus shall be authorized, and, if not, the proper accounting for such amount.

(B) A hearing shall be held at a time and place to be fixed hereafter by Commission order.

(C) Stay of the Commission's order of August 6, 1952, pending rehearing or review be and it hereby is denied.

Date of issuance: October 6, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10977; Filed, Oct. 9, 1952; 8:47 a. m.]

[Docket No. G-1736]

OHIO FUEL GAS CO.

ORDER FIXING DATE OF HEARING

OCTOBER 2, 1952.

On August 10, 1951, the Ohio Fuel Gas Company (Ohio Fuel) filed with the Commission a proposed tariff, designated "FPC Gas Tariff, First Revised Volume No. 1, of the Ohio Fuel Gas Company," increasing the then effective rates and charges to Ohio Fuel's interstate wholesale customers. On September 6, 1951, pending a hearing and the Commission's decision upon the question of the lawfulness of the proposed rates, the Commission issued an order suspending such proposed tariff until February 10, 1952, and until such further time thereafter as the same might be made effective in the manner prescribed by the Natural Gas Act.

By order issued February 8, 1952, upon the application of Ohio Fuel, the Commission permitted the substitution of a proposed First Revised Sheet No. 6 to said FPC Gas Tariff, First Revised Volume No. 1, superseding Original Sheet No. 6 contained in said FPC Gas Tariff, First Revised Volume No. 1, and suspended such revised sheet until February 10, 1952, and until such further time thereafter as the same might be made effective in the manner prescribed by the Natural Gas Act.

By order issued February 26, 1952, the increased rate tariff became effective, under bond, subject to the refund of any portion of the increased rates and charges found by the Commission not to be justified.

The Commission finds: It is necessary and appropriate to carry out the provisions of the Natural Gas Act, and it is in the public interest, that these proceedings be set for hearing and that the procedure hereinafter prescribed shall be followed at such hearing.

The Commission orders:

(A) A public hearing be held commencing on November 17, 1952, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the lawfulness of the rates, charges and classifications contained in the aforesaid FPC Gas Tariff, First Revised Volume No. 1 and First Revised Sheet No. 6 to said FPC Gas Tariff, First Revised Volume No. 1, filed by the Ohio Fuel Gas Company.

(B) The order of procedure at the public hearing referred to in paragraph (A) hereof shall be:

(i) Pursuant to the provisions of section 4 (e) of the Natural Gas Act, Ohio Fuel shall go forward with the burden of proof imposed upon it, presenting its justification with respect to the issues referred to in paragraph (A) hereof;

(ii) After Ohio Fuel has so presented its justification, other parties and participants, including Commission staff counsel, may conduct as much of their cross-examination with respect to Ohio Fuel's justification as they are then prepared to undertake. Thereupon, if request therefor is made, the Presiding Examiner shall recess the hearing to a date to be fixed by further order of the Commission, in order to permit such preparation for the remainder of such cross-examination as the facts and circumstances may warrant.

(C) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: October 6, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-10978; Filed, Oct. 9, 1952; 8:47 a. m.]

[Docket Nos. G-1903, G-2042]

LOPENO GAS CO.

ORDER FIXING DATE OF HEARING

OCTOBER 3, 1952.

On September 5, 1952, Lopeno Gas Company (Applicant), a Texas corporation having its principal place of business at Dallas, Texas, filed an application in Docket No. G-2042, for an order pursuant to section 7 (b) of the Natural Gas Act authorizing and approving the abandonment of a portion of its facilities, and in Docket No. G-1903, for amendment of a Presidential Permit granted on July 18, 1952, pursuant to Executive Order No. 8202, dated July 13, 1939, authorizing the construction, operation, maintenance, and connection of facilities for the importation of natural gas from the United States into Mexico, all as more fully described in said application on file with the Commission and open to public inspection.

Applicant proposes to abandon a portion of the facilities authorized by order of the Commission issued on August 4, 1952, in Docket No. G-1977, consisting of two parallel 8-inch pipe lines supported from the International Bridge between the United States and Mexico, at Roma, Texas. Applicant has represented to the Commission that said pipe lines are not required for the service proposed in its application filed in Docket No. G-1977, and that the Starr County Bridge Company has requested the removal of said lines on account of the additional weight imposed thereby upon the cables of said bridge. Applicant further represents that it has contracted for the services of a contractor for immediate removal of said lines, and that Compania Mexicana de Gas, S. A., which owns connecting 8-inch pipe lines on the Mexican side of said bridge proposes to remove its portion of the lines contemporaneously with removal by Applicant of its lines.

Applicant has requested that its application in Docket No. G-2042 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure [18 CFR 1.32 (b)] for noncontested proceedings, and this proceeding is a proper one for disposition under the aforementioned rule, provided no request to be heard, protest, or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on September 19, 1952 (17 F. R. 8443).

The Commission finds: It is reasonable and in the public interest, and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and Commission's rules of practice and procedure, a hearing be held on October 13, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by said application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by § § 1.8 and 1.37 (f) [18 CFR 1.8 and 1.37 (f)] of the said rules of practice and procedure.

Date of issuance: October 6, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2068]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

OCTOBER 6, 1952.

Take notice that Texas Gas Transmission Corporation (Applicant), a Delaware corporation, having its principal place of business at 416 West Third Street, Owensboro, Kentucky, filed on September 12, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas facilities and the sale of natural gas for resale as hereinafter described.

Applicant proposes to construct and operate a metering station on its pipe line now serving Boonville, Indiana, for the purpose of selling natural gas to Boonville Natural Gas Corporation for resale in the unincorporated town of Chandler, Warwick County, Indiana, and environs, in quantities not to exceed 200 Mcf a day, with total annual sales for the 1953-54 season estimated at 17,900 Mcf. Applicant estimates the cost of the facilities at $3,126, and proposes to accomplish the financing out of cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 24th day of October 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

OFFICE OF DEFENSE MOBILIZATION

[Defense Manpower Policy No. 4, Notification 58]

PLACEMENT OF PROCUREMENT WITH THE PETROLEUM AND PETROLEUM PRODUCTS INDUSTRY

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its findings and recommendation in the matter of placement of procurement with the petroleum and petroleum products industry. These recommendations have been reviewed within the Office of Defense Mobilization to determine their relationship to other policies affecting procurement for which this Office has responsibility and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to exempt the petroleum and petroleum products industry from the application of Defense Manpower Policy No. 4.

OFFICE OF DEFENSE MOBILIZATION,
HENRY H. FOWLER,
Director.

FINDINGS AND RECOMMENDATION OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE PETROLEUM AND PETROLEUM PRODUCTS INDUSTRY UNDER DEFENSE MANPOWER POLICY NO. 4

In accordance with Section III, Paragraph 8 of Defense Manpower Policy No. 4, a Notice was published in the FEDERAL REGISTER of September 10, 1952 (17 F. R. 8165), that the Surplus Manpower Committee proposed to recommend to the Director of Defense Mobilization that the petroleum and petroleum products industry be exempted from the application of Defense Manpower Policy No. 4. Inasmuch as no objections have been received, the Committee makes the following findings and recommendation:

FINDINGS

The Committee finds:

1. That all purchases of petroleum and petroleum products for the Department of Defense are made by the Armed Services Petroleum Purchasing Agency;

2. That presently notified surplus labor areas are in locations where refining capacity is inadequate for supply of local requirements or where no refining facilities exist and that placement of additional Government contracts in these areas would not change the status of employment but would necessitate further importation of finished products from refineries located in other than surplus labor areas to offset the quantities supplied to the Government;

3. That requests for proposals for petroleum and petroleum products have repeatedly been forwarded by the Armed Services Petroleum Purchasing Agency to possible contractors in notified surplus labor areas, and in no case has a proposal been received or an award been made under the provisions of Defense Manpower Policy No. 4.

4. That the administrative burden and cost involved in the implementation of Defense Manpower Policy No. 4 so far as procurement of petroleum and petroleum products is concerned cannot be justified in view of the negative results obtained.

RECOMMENDATION

The Committee therefore recommends that the Director of Defense Mobilization conclude that it is in the public interest to exempt the petroleum and petroleum products industry from the application of Defense Manpower Policy No. 4, and that the Director so notify the Secretary of Defense and the Administrator of General Services Administration.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Chairman,
Surplus Manpower Committee.

Approved:

HENRY H. FOWLER,
Director,
Office of Defense Mobilization.

ECONOMIC STABILIZATION AGENCY

Office of the Administrator

[Determination No. 142]

NEW CASTLE, PENNSYLVANIA, CRITICAL DEFENSE HOUSING AREA

APPROVAL OF EXTENT OF RELAXATION OF CREDIT CONTROLS

SECTION 1. *Authority.* This action is taken pursuant to the authority conferred by the Housing and Rent Act of 1947, as amended (Pub. Law 129, 80th Cong., as amended by Pub. Laws 422 and 464, 80th Cong., Pub. Laws 31, 574 and 880, 81st Cong.; and Pub. Laws 8, 69, and 96, 82d Cong.); and more particularly section 204 (m) of Public Law 96; and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong.; as amended by Pub. Law 96, 82d Cong.); and Executive Order 10161 of September 9, 1950 and Executive Order 10276 of July 31, 1951; and as implemented by Economic Stabilization Agency Order No. 9 of July 31, 1951.

SEC. 2. *Determination.* In view of the joint determination and certification by the Acting Secretary of Defense and the Director of Defense Mobilization, dated October 3, 1952, that the New Castle, Pennsylvania, area (the area consists of Lawrence County; and that portion of the borough of Ellwood City located

within Beaver County; all in Pennsylvania) is a critical defense housing area, and in view of the suspension of Regulation X on September 16, 1952, by the Board of Governors of the Federal Reserve System and announcement of a period of residential credit control relaxation by such Board, with the concurrence of the Housing and Home Finance Administrator, effective on that same date (17 F. R. 8350), it is hereby determined, after due consideration of relevant factors, that real estate construction credit controls have been relaxed in the New Castle, Pennsylvania, critical defense housing area to the extent necessary to encourage construction of housing for defense workers and military personnel.

ROSS S. SHEARER,
Acting Administrator.

OCTOBER 3, 1952.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 705—AGRICULTURAL CONSERVATION PROGRAM; HAWAII

SUBPART—1953

The United States Department of Agriculture offers every farmer in the Territory of Hawaii an opportunity to improve and conserve the fertility of his land through participation in the 1953 Agricultural Conservation Program.

Under this program, part of the costs of the conservation practices is defrayed by the Government and this represents the Nation's interest in what happens to its basic resources.

Payment will be made for performance of recommended practices at approved rates to the extent of the individual farm allowance and available funds. Developed under the provisions of the Soil Conservation and Domestic Allotment Act the program is designed to meet local conservation needs.

Information contained in this subpart outlines the general provisions of the 1953 Agricultural Conservation Program for Hawaii and specifications and rates of payment for practices.

CONTROL OF FUNDS

Sec.
705.201 Amount of assistance.
705.202 Adjustments.
705.203 Allocation.

APPROVAL OF CONSERVATION PRACTICES

705.205 Selection of practices.
705.206 Adaptation of practices and rates of assistance.
705.207 Pooling agreements.
705.208 Prior notice to State Office.
705.209 Program year and technical aid.
705.210 Practice specifications.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

705.211 Practice 1: Constructing continuous terraces and/or diversion ditches to control the flow of water on sloping farm land.
705.212 Practice 2: Constructing field interception ditches and/or outlet channels for disposing of, diverting, or collecting water to control erosion or for impounding purposes.
705.213 Practice 3: Constructing individual terraces around coffee, fruit, and nut trees.
705.214 Practice 4: Establishing a protective sod lining in waterways.
705.215 Practice 5: Building erosion control dams or stone or vegetative barriers to prevent or heal the gullying of farm land and reduce runoff of water.
705.216 Practice 6: Constructing permanent riprap or revetment of stone to control erosion of stream banks, gullies, dam faces, or water courses.
705.217 Practice 7: Contour farming of intertilled crops on nonterraced land.
705.218 Practice 8: Planting orchards on the contour.
705.219 Practice 9: Maintaining a permanent vegetative cover in nonterraced orchards to prevent erosion.
705.220 Practice 10: Planting leguminous crops for use as green manure, stubble mulch, or cover.
705.221 Practice 11: Planting adapted nonlegumes for green manure, stubble mulch cover, or filter strip.
705.222 Practice 12: Organic manuring of fields with compost or dehydrated peat moss.
705.223 Practice 13: Seeding or planting in prepared land or in unprepared and depleted range land adapted grasses, legumes, or other forage plants for establishing or improving permanent pastures.
705.224 Practice 14: Applying ground limestone or its equivalent where soil analysis shows the need.
705.225 Practice 15: Applying potash or phosphate.
705.226 Practice 16: Clearing suitable land to permit conservation of other land in the farm.
705.227 Practice 17: Clearing suitable new land for permanent pasture.
705.228 Practice 18: Controlling weeds in established pasture or range land by grubbing out, or poisoning of undesirable plants.
705.229 Practice 19: Applying sugarcane mill refuse to cane fields harvested or started in fallow during the program year.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Code of Federal Regulations

REVISED BOOKS

Title 32, containing the regulations of the Department of Defense and other related agencies has been completely revised and reissued as two books as follows:

Parts 1–699 ($5.00)

Part 700 to end ($5.25)

Title 32A, containing NPA, OPS, and other regulations undpr the Defense Production Act together with the amended text of the act and related Executive orders:

Chapter I to end ($6.50)

These books contain the full text of regulations in effect on December 31, 1951

Order from
Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Sec.
705.230 Practice 20: Applying coffee pulp and/or husks around coffee trees.
705.231 Practice 21: Applying organic mulch material to land in truck crops, fruit and nut trees, or pineapples.
705.232 Practice 22: Deferred grazing.
705.233 Practice 23: Producing during 1953 seed of grass and/or legumes for use in range or pasture improvement or for cover cropping or green manuring.
705.234 Practice 24: Construction of dams, pits, or ponds for livestock water, including the enlargement of inadequate structures.
705.235 Practice 25: Installation of pipelines for livestock water.
705.236 Practice 26: Construction of permanent artificial watersheds and/or storage tanks for accumulating livestock water.
705.237 Practice 27: Construction of permanent fences to obtain better distribution of grazing on range or pastureland, or to protect farm woodland from grazing.
705.238 Practice 28: Constructing or enlarging dams, pits, and ponds to impound surface water for irrigation.
705.239 Practice 29: Reorganizing farm irrigation systems to conserve water and prevent erosion.
705.240 Practice 30: Leveling land for more efficient use of irrigation water or to prevent erosion.
705.241 Practice 31: Construction or enlargement of open permanent farm drainage ditches.
705.242 Practice 32: Planting forest trees and shrubs on farm land for forestry purposes, windbreaks, or erosion control.
705.243 Practice 33: Maintaining a stand of trees and shrubs in windbreaks, planted between January 1, 1948, and January 1, 1953.
705.244 Practice 34: Building temporary check dams of materials such as rock, wire, wood, or brush supplemented by vegetative cover of close-growing grasses or legumes.
705.245 Practice 35: Preventing cattle trail gullies.

PAYMENTS

705.256 Division of payments.
705.257 Increase in small payments.
705.258 Payments limited to $3,500.

GENERAL PROVISIONS RELATING TO PAYMENT

705.261 Maintenance of practices.
705.262 Practices defeating purposes of programs.
705.263 Depriving others of payment.
705.264 Filing of false claims.
705.265 Payment computed and made without regard to claims.
705.266 Assignments.
705.267 Practices carried out with State or Federal aid.
705.268 Compliance with regulatory measures.

APPLICATION FOR PAYMENT

705.271 Person eligible to file applications.
705.272 Time and manner of filing applications and information required.

APPEALS

705.276 Appeals.

BULLETINS, INSTRUCTIONS, AND FORMS

705.277 Bulletins, instructions and forms.

DEFINITIONS

705.281 Definitions.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

705.286 Authority.
705.287 Availability of funds.
705.288 Applicability.

AUTHORITY: §§ 705.201 to 705.288 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q.

CONTROL OF FUNDS

§ 705.201 *Amount of assistance.* The State Office will determine the amount of assistance for each farm, taking into consideration the needs of other farms in the State as well as the conservation work for which assistance is most needed in 1953 to enable the farm to make the maximum contribution to production needed in the defense effort.

§ 705.202 *Adjustments.* If the total estimated earnings under the program exceed the total funds available for pay-

ments the assistance will be reduced equitably.

§ 705.203 *Allocation.* The amount of funds available for conservation practices under this program is $182,000. This amount does not include the amount set aside for administrative expenses and the amount required for size-of-payment adjustments in § 705.257.

APPROVAL OF CONSERVATION PRACTICES

§ 705.205 *Selection of practices.* Practices included in the 1953 program are only those which by maintaining or increasing soil fertility, controlling and preventing soil erosion caused by wind or water, encouraging conservation and better agricultural use of water, conserving and increasing range and pasture forage, or conserving or improving farm woodland, assist in making possible the production of agricultural commodities needed in the defense effort. The practices included are those which will not be carried out in the desired volume on the basis of relative conservation needs unless assistance is given therefor.

§ 705.206 *Adaptation of practices and rates of assistance.* In order to encourage the performance of practices which are needed most, the State Office may designate from the practices listed in this subpart those practices which will be applicable on designated groups of farms.

§ 705.207 *Pooling agreements.* Producers in any local area may agree in writing, with approval of the State Office, to perform designated amounts of practices which the State Office determines are necessary to conserve or improve the agricultural resources of the community. For purposes of payment, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms of the producers who performed the practices.

§ 705.208 *Prior notice to State Office.* The State Office requires notification, in advance, of the farmer's intentions to participate in the 1953 program and of his designation of practices to be used. Intentions may be filed on Form ACP-201-Hawaii (52), by letter to the Honolulu or Hilo office of the Production and Marketing Administration, or by telephone or personal contact with authorized PMA farm checkers, but must be submitted on or before September 30, 1953. Information must include a description of the practice(s) and extent of the performance anticipated.

§ 705.209 *Program year and technical aid.* (a) Payment will be made at the rates specified and within the limitations set forth in this subpart for carrying out during the period from January 1, 1953, to December 31, 1953, inclusive, the conservation practices included in this subpart which are approved for a farm, except that farmers, who before December 31, 1952, (1) complete all practices for which they will make claim for payment under the 1952 program, or (2) have carried out practices to the maximum extent of their allowance under the 1952 program, may enroll and perform practices under the 1953 program any time after September 30, 1952. No payment will be made under the 1953 program for any part of a practice carried out for payment under the 1952 program.

(b) Of the permanent-type conservation practices authorized under this subpart, the Soil Conservation Service is responsible for the technical phases of the permanent-type practices contained in §§ 705.211, 705.212, 705.214 through 705.216, 705.234, 705.236, and 705.238 through 705.241. In addition the Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 705.217 and 705.218 if guidelines must be established under the 1953 program. This responsibility shall include (1) a finding that the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and lay-out work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land). Also, in areas where the State Office, the designated representative of the Soil Conservation Service in the area, and the Forest Service representative having jurisdiction of farm forestry in the area determine that there is a need for making a prior determination that land to be cleared under § 705.226 or § 705.227 is suitable for clearing for the purpose of the practice, the Soil Conservation Service technician shall have the responsibility for such prior determination of suitability. The practices listed in this paragraph are not considered to be the only permanent-type practices in the program. However, it is hereby determined that they are the only practices in the 1953 program for which the Soil Conservation Service has been delegated responsibility for the technical phases under Secretary's Memorandum 1278.

(c) The Forest Service is responsible for the technical phases of the practices contained in §§ 705.242 and 705.243. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through the State Office, determining compliance in meeting these specifications.

§ 705.210 *Practice specifications.* Minimum specifications which practices must meet to be eligible for assistance are set forth in this subpart. Additional specifications may be secured from PMA area office or SCS territorial office in Honolulu.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

§ 705.211 *Practice 1. Constructing continuous terraces and/or diversion ditches to control the flow of water on sloping farm land.* Credit will be allowed, provided the structures are properly laid out and constructed in accordance with detailed specifications provided by the State Office (see Practice Specification No. 1—Revised), adequately protected against siltation, overflowing, or washing, and supplied with outlets and waterways for the discharge of accumulated water. If the land terraced is planted to clean-tilled crops, the crop rows must follow contour lines on all slopes greater than 2 percent and less than 20 percent. Diversion ditches should be used on slopes between 16 percent and 20 percent. Only bench-type terraces will be recognized as effective on cultivated land of 20 percent or more slope. With soils of very light texture appropriate filter strips immediately above each terrace channel are required where slope conditions threaten heavy siltation during rainstorms. No payment will be allowed for reconstructing old terraces.

Maximum assistance. (a) $2 per 100 linear feet of terrace constructed in clear soil.

(b) $4 per 100 linear feet of terrace constructed in very rocky soil or exposed rocky substratum.

(c) $8 per 100 linear feet for bench terraces.

(d) $0.10 per cubic yard of earth moved in ditch construction.

§ 705.212 *Practice 2: Constructing field interception ditches and/or outlet channels for disposing of, diverting, or collecting water to control erosion or for impounding purposes.* Channels exceeding ½ percent in grade must be protected against erosion damage by adequate sod or other lining. Outlets must be protected to discharge water without gullying. The amount of material moved in channel construction shall be that which is determined by direct measurement of ridge or berm material above normal ground level or that determined by prior and subsequent sectional surveys. Payment will be allowed only once and that for the year of construction. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. $0.10 per cubic yard of material moved.

§ 705.213 *Practice 3: Constructing individual terraces around coffee, fruit, and nut trees.* Terrace ridge should be not less than 5 feet long and high enough to provide catchment capacity of not less than 3 cubic feet. Terrace ridge should be of firmly packed soil or rock set in soil. Wherever possible orchard land should be protected by permanent vegetative cover.

Maximum assistance. $1 per 100 linear feet of terrace.

§ 705.214 *Practice 4: Establishing a protective sod lining in waterways.* This practice will be applicable to waterways built or reshaped in the program year and used for removing excess water from farm land that is contoured, terraced, and/or trash mulched. Satisfactory sod lining (dense enough to prevent soil cutting) must be established before credit may be given for this practice. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. $0.75 per 1,000 square feet of surface established by shaping and seeding or sodding.

§ 705.215 *Practice 5: Building erosion control dams or stone or vegetative barriers to prevent or heal the gullying of farm land and reduce runoff of water.* Receipts or invoices showing purchase of pipe and/or flume material, and receipts or records showing payment for labor will be required by inspectors as evidence of accomplishment under (d) and (f) of this section. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) $0.14 per cubic yard of earth moved in the construction of the dams, wings, and walls.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and/or flume material delivered to the farm.

(e) $1.50 per cubic yard of rock used, for rock or rock and brush dams.

(f) 80 percent of the cost of constructing stone barriers for diverting and spreading surface runoff.

(g) $0.25 per 100 linear feet for planting single line vegetative barriers to impede the flow of surface runoff.

(h) $1.50 per 1,000 square feet for planting suitable permanent massed vegetative barriers.

§ 705.216 *Practice 6: Constructing permanent riprap or revetment of stone to control erosion of stream banks, gullies, dam faces, or water courses.* Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. $0.50 per square yard of exposed riprap surface.

§ 705.217 *Practice 7: Contour farming of intertilled crops on nonterraced land.* Credit will be given for farming intertilled crops planted during the program year on the contour on nonterraced land of 2 percent or more slope. However, no credit will be given if payment is authorized for the practice contained in § 705.218 on the same land in the same year. Credit will not be given for this practice on land under furrow irrigation. Credit will not be given for this practice on land of 6 percent or more slope, unless adequate ditching or terracing protection is provided in accordance with specifications in this subpart covering such practices. If the land is not promptly put into another crop, the crop residue must be left standing, or a cover crop established.

Maximum assistance. (a) $3 per acre per year where all cultural operations (plowing, harrowing, planting, and cultivating) are on the contour or where cultivating space between contour planted rows is furrowed to a depth not less than 6 inches.

(b) $1 per acre per year where only planting and cultivating are on the contour.

§ 705.218 *Practice 8: Planting orchards on the contour.* Credit will be given for planting orchards on the contour on land having more than 2 percent slope. The land must be protected by at least one of the following: terracing, ditching, ridging, or vegetative cover.

Maximum assistance. $5 per acre.

§ 705.219 *Practice 9: Maintaining a permanent vegetative cover in nonterraced orchards to prevent erosion.* If cover is mowed residue must be left on the land. Where mowing is impractical moderate grazing may be employed but not to the extent of endangering the vegetative cover.

Maximum assistance. $1 per acre.

§ 705.220 *Practice 10: Planting leguminous crops for use as green manure, stubble mulch, or cover.* In order to qualify, a good stand and a good growth of the leguminous crops must be grown and left on the land or turned under during the program year. Receipts or invoices showing purchase of seed, or records of collecting, will be required by inspectors as evidence of seed used. In case of mixed seeding with acceptable nonlegumes, see § 705.221 (Practice 11), the ratio of one-third of the required poundage of legume seed for unmixed plantings to two-thirds of the required poundage of nonlegume seed for unmixed plantings shall provide the basis for determining eligibility and payment. Any of the following crops or any other locally-adapted crops approved by the State Office may be used.

	Minimum seeding rate (pounds per acre)
(a) Pigeon peas	30
(b) Velvetbeans	50
(c) Field beans	30
(d) Purple vetch	20
(e) Clover	5
(f) Kudzu	8
(g) Crotelaria juncea	10
(h) Crotalaria spectabilis	10
(i) Cowpeas	30

Maximum assistance. 50 percent of the cost of seed at the farm, but not in excess of $5 per acre of area planted.

§ 705.221 *Practice 11: Planting adapted nonlegumes for green manure, stubble mulch, cover, or filter strip.* Para grass (Panicum purpurascens), molasses grass, Rhodes grass, feather fingergrass, acceptable small grains and other nonlegumes determined by the State Office as suitable for this purpose, are eligible for payment. In order to qualify, a good stand and a good growth must be secured during the program year and be left on the land or turned under. Acreage harvested for seed or hay is not eligible for assistance. Receipts or invoices showing purchase of seed, or records of collecting, will be required by inspectors as evidence of seed used. In case of mixed seeding with acceptable legumes, see § 705.220 (Practice 10) for ratio specifications.

Maximum assistance. 50 percent of the cost of seed at the farm, but not in excess of $5 per acre of area actually planted.

§ 705.222 *Practice 12: Organic manuring of fields with compost or dehydrated peat moss.* Farm compost must consist of agricultural waste material protected against leaching. In order to qualify, compost volume must be determined by county agent or PMA farm checker prior to spreading. To qualify as "compost" organic material must be decomposed to the extent that (a) there is no readily detectable heat of oxidation in the compost pile, (b) there is no readily detectable odor of any of the original materials employed, and (c) the original nature of organic material used is indistinguishable. In order for dehydrated peat moss to qualify, the farmer must provide analysis of the product and receipted bills showing amounts purchased and price. Analysis must show not less than 75 percent organic matter on the dry basis and a water absorbing ratio of not less than 7:1.

Maximum assistance. (a) Farm compost—$4 per cubic yard in the composting pit or pile.

(b) Dehydrated peat moss—50 percent of the cost at warehouse, but not in excess of $25 per acre.

§ 705.223 *Practice 13: Seeding or planting in prepared land or in unprepared and depleted range land adapted grasses, legumes, or other forage plants for establishing or improving permanent pastures.* Applicable only to ranches of 1,000 acres or less in size. The seed must be well distributed over the area sown to insure a good stand at maturity. No area seeded shall be grazed until grass and/or legumes are established. Receipts or invoices showing purchase of seed, or records of collecting, will be required by inspectors as evidence of seed used. Any of the locally adapted crops approved by the State Office may be used but must be seeded at not less than the minimum seeding rates per acre prescribed by the State Office. The use of Koa haole under this practice is restricted to coastal areas of Maui between Kihei and Kaupo. In order to meet the minimum requirements, slips or stools of grasses may be planted in continuous rows.

Maximum assistance. 50 percent of the cost of seed at the farm, but not in excess of $5 per acre actually planted.

§ 705.224 *Practice 14: Applying ground limestone or its equivalent where soil analysis shows the need.* Lime material must contain at least 80 percent calcium carbonate equivalent and be fine enough to pass through a 20 mesh screen and must be evenly applied to the land. Receipts or invoices showing the purchase of lime, properly dated and signed by the vendor, will be required as evidence by the farm inspector at the time of inspection.

Maximum assistance. 60 percent of the average cost delivered to the farm.

§ 705.225 *Practice 15: Applying potash or phosphate.* Payment will be made for applying potash or phosphate to grasses or legumes (excluding all crops for sale) or to green manure or cover crops in orchards (excluding all crops for sale). Payment will be made only for the application of phosphate (P_2O_5) and potash (K_2O) separately or in mixed form, and for not more than 100 pounds of each ingredient per acre. Application of phosphate or potash to the soil may be made to a growing scrop or at the time of seeding a new crop. Application must be made at a time so that the eligible crop will receive the principal benefit of the material. Receipts or invoices showing the purchase and analysis of the fertilizer used, properly dated and signed by the vendor, will be required as evidence by the farm inspector at the time of inspection.

Maximum assistance. (a) Potash—$3 per 100 pounds of available K_2O.

(b) Superphosphate or ammo-phos (16–20–0 analysis)—$6.10 per 100 pounds of available P_2O_5.

(c) Ammo-phos (11–48–0 analysis)—$5.46 per 100 pounds of available P_2O_5.

(d) Raw rock phosphate—$3.90 per 100 pounds of P_2O_5 content.

§ 705.226 *Practice 16: Clearing suitable land to permit conservation of other land in the farm.* This practice is applicable only where clearing is necessary for the adoption, on not less than equal acreage, of a better soil conserving cropping system, reforestation, or retirement from cultivation of severely eroded lands (but not lands in common rotation). No payment will be made for clearing a stand of merchantable timber. Records of labor and equipment used in the clearing operation will be required as evidence of cost.

Maximum assistance. 50 percent of the cost of the clearing operation, but not in excess of $10 per acre cleared.

§ 705.227 *Practice 17: Clearing suitable new land for permanent pasture.* This practice is applicable only to ranches of 1,000 acres or less in size and to land which has undergone no clearing operation within the past 25 years while under control of the present operator; or within 10 years in the case of a recent change in ownership or tenancy, except where the State Office determines otherwise. This practice is applicable only where clearing is necessary for the establishment of perennial legumes and grasses which must be established as soon as practicable and within the program year. No payment will be made for clearing a stand of merchantable timber. Records of labor and equipment used in the clearing operation will be required as evidence of cost.

Maximum assistance. 50 percent of the cost of the clearing operation, but not in excess of $10 per acre cleared.

§ 705.228 *Practice 18: Controlling weeds in established pasture or range land by grubbing out, or poisoning of undesirable plants.* Payment will be made only once for "grubbing" on the same land during 1953 regardless of the number of times weeds are removed during the year. Payments for poisoning will be repeated for each application made according to accepted practices. Receipts or invoices showing purchase and analysis of poisons used will be required by inspectors as evidence.

Maximum assistance. (a) $0.50 per acre per year for grubbing.

(b) 50 percent of the average cost of State Office approved chemicals, but not in excess of $1 per acre per application.

§ 705.229 *Practice 19: Applying sugarcane mill refuse to cane fields harvested or started in fallow during the program year.* Eligible materials will include separately or in any combination, cane leaf trash, soil washings, bagasse, and filter cake. Records of volume transported and identity as well as areas of fields treated will be required by inspectors before determining payments.

Maximum assistance. 50 percent of the hauling expense, but not in excess of $15 per acre treated.

§ 705.230 *Practice 20: Applying coffee pulp and/or husks around coffee trees.* Payment will be made for not more than 5 tons of pulp (unfermented weight) and/or husks applied per acre. Satisfactory evidence of the quantity of pulp applied will be required.

Maximum assistance. $2 per ton for mill produced pulp requiring truck hauling.

§ 705.231 *Practice 21: Applying organic mulch material to land in truck crops, fruit and nut trees, or pineapples.* Organic material must be of a fibrous nature and shredded, chopped, or crushed. Material such as sugarcane bagasse, cane leaf trash, pineapple trash, tree fern stumps, coarse grasses, coffee husks, sawdust and wood shavings as well as macadamia nut husks and shells will be eligible. The mulch must be thick enough to completely cover the surface of soil areas treated. Receipts or invoices showing purchase of materials and cost of transportation will be required by inspectors as evidence of compliance.

Maximum assistance. (a) 50 percent of the cost of material at the farm, but not in excess of $25 per acre treated with materials secured from outside the farm.

(b) $5 per acre treated with materials, other than pineapple trash produced on the farm.

(c) $2.50 per acre treated with pineapple trash produced on the farm.

§ 705.232 *Practice 22: Deferred grazing.* Payment will not be made on more than 25 percent of the grazing land in the unit, except that the State Office, with approval of the ACP Branch, may waive the percentage limitation for any local area where deferment of a larger area is necessary to conserve range resources, nor on any part of the deferred area which is cut for hay. For payment purposes, the deferment period may not be less than 12 months, credit being given for deferment time originating in the previous year for which payment was not made under the 1952 program. The following conditions must be observed in order to qualify for payment:

(a) The land on which the practice is carried out must be kept entirely free from grazing during the period.

(b) The range land in the farm must not be grazed to such extent as to injure the forage, tree growth, or watershed.

(c) This practice shall not be applicable to land which normally is not used for grazing during the period in which livestock is removed.

(d) Rested area must have a vegetative cover of forage crop acceptable to the State Office.

Maximum assistance. $1 per acre for the acreage deferred.

§ 705.233 *Practice 23: Producing during 1953 seed of grass and/or legumes for use in range or pasture improvement or for cover cropping or green manuring.* Receipts or invoices showing purchase of seed and other materials used and records of production expenses including harvest, will be required by inspectors as evidence of cost. The following species or others approved by the State Office will qualify for credit:

Kaimi clover (Desmodium canum).
Spanish clover (Desmodium uncinatum).
Crotalaria juncea.
Purple vetch.
Pigeon peas.
Canary grass.
Clovers.
Paspalum dilatatum.
Feather fingergrass (Chloris virgata).
Rhodes grass.
Bromegrass.
Australian bluegrass.
Guinea grass.
Orchard grass.
Ryegrass.
Mesquite grass.

Maximum assistance. 50 percent of the cost of production, but not in excess of $25 per acre.

§ 705.234 *Practice 24: Construction of dams, pits, or ponds for livestock water, including the enlargement of inadequate structures.* The development must contribute to a better distribution of grazing or better pasture management. No assistance will be given for cleaning or maintaining an existing structure. Receipts or invoices showing purchase of material used in construction will be required by inspectors as evidence of cost. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) $0.14 per cubic yard of material moved.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the cost of fencing materials, pipe, and seeding or sodding the dam and filter strips.

§ 705.235 *Practice 25: Installation of pipelines for livestock water.* The project must contribute to a better distribution of grazing. Receipts or invoices showing purchase of pipe used will be required to determine cost.

Maximum assistance. 50 percent of the average cost of pipe at the farm, except that the payment for pipe in excess of 2 inches in diameter may not exceed the payment which may be made for 2-inch pipe.

§ 705.236 *Practice 26: Construction of permanent artificial watersheds and/or storage tanks for accumulating livestock water.* The project must contribute to a better distribution of grazing. No payment will be made if part of the water impounded or supplied is used for irrigation or domestic purposes. Receipts or invoices showing purchase of materials used will be required to determine cost. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) 50 percent of the cost of material used, other than concrete and rubble masonry.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

§ 705.237 *Practice 27: Construction of permanent fences to obtain better distribution of grazing on range or pastureland, or to protect farm woodland from grazing.* No payment may be made for the maintenance of existing fences or for construction of boundary fences. Required fencing of forest reserve land is not eligible. Any fencing necessary to the working of cattle (including pens and corrals) is ineligible. Receipts or invoices showing purchase of materials will be required to determine cost.

Maximum assistance. (a) 50 percent of the average cost at the farm of posts, wire, poles, lumber, staples, or other similar fencing materials used.

(b) $0.10 per linear foot of rock wall, minimum dimensions of which shall be: Height, 4 feet; base width, 36 inches; and top width, 24 inches.

§ 705.238 *Practice 28: Constructing or enlarging dams, pits, and ponds to impound surface water for irrigation.* No assistance will be given for material moved in cleaning or maintaining a reservoir. Receipts or invoices showing purchase of materials used will be required by inspectors as evidence of cost. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) $0.14 per cubic yard of earth material moved.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and outlet gates.

(e) 50 percent of the average cost of seeding or sodding dams or filter strips.

(f) 50 percent of the average cost of materials, other than concrete and rubble masonry, used in permanent structures, including soil sealing.

§ 705.239 *Practice 29: Reorganizing farm irrigation systems to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of conveying water to and in the fields) must be carried out in accordance with a written plan approved by the State Office. Receipts or invoices showing purchase of materials or equipment and records of labor employed will be required by inspectors as evidence of installation costs. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) $0.14 per cubic yard of earth material moved in the construction or enlargement of permanent ditches, dikes, or laterals. No assistance will be given for cleaning a ditch.

(b) Lining ditches or reservoirs:

(1) 50 percent of the average cost of approved material used, other than concrete and rubble masonry.

(2) $12 per cubic yard of concrete used.

(3) $7 per cubic yard of rubble masonry used.

(c) Constructing or installing siphons, flumes, drop boxes or chutes, weirs, diversion gates, and pipe. No assistance will be given for repairs or replacements of existing structures.

(1) 50 percent of the average cost of material used in permanent structures, other than concrete and rubble masonry but excluding forms.

(2) $12 per cubic yard of concrete used.

(3) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and fittings used for sprinkler irrigation. No assistance will be given for repairs or replacements of existing structures. Total assistance for portable pipe and fittings under this item shall not exceed $500 per farm.

§ 705.240 *Practice 30: Leveling land for more efficient use of irrigation water or to prevent erosion.* No assistance will be given for floating or for carrying out this practice on land for which assistance for leveling was given under a previous program. Not applicable to land for which no irrigation water is available. Receipts or records showing expense of labor used will be required by inspectors as evidence of earth moving costs. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. 50 percent of the average cost of earth moving, but not in excess of $10 per acre.

§ 705.241 *Practice 31: Construction or enlargement of open permanent farm drainage ditches.* No payment will be made for material moved in cleaning or maintaining a ditch. Receipts or invoices showing purchase of seed or materials and records of labor employed and soil moved will be required by inspectors as evidence of construction work costs. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

Maximum assistance. (a) $0.10 per cubic yard of material moved.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of seed or planting materials for establishing suitable cover for protection against erosion on ditch banks and right-of-way.

§ 705.242 *Practice 32: Planting forest trees and shrubs on farm land for forestry purposes, windbreaks, or erosion control.* Plantings must be protected from fire and grazing. For recommended species and planting specifications see State Office.

Maximum assistance. $2 per 100 trees or shrubs planted.

§ 705.243 *Practice 33: Maintaining a stand of trees and shrubs in windbreaks, planted between January 1, 1948, and January 1, 1953.* Trees and shrubs must be of types suited to windbreak purposes. For recommended species and planting specifications see State Office. Plants must be protected from fire and grazing.

Maximum assistance. $2 per 100 trees or shrubs replanted.

§ 705.244 *Practice 34: Building temporary check dams of materials such as rock, wire, wood, or brush supplemented by vegetative cover of close-growing grasses or legumes.*

Maximum assistance. $0.10 per linear foot of dam crest.

§ 705.245 *Practice 35: Preventing cattle trail gullies.* Diversion of cattle from use of trails worn in pasture and/or range land at grades in excess of 6 percent must be effective so as to permit regrowth of vegetation in the old trails.

Maximum assistance. $1 per 1,000 linear feet of cattle trails so protected.

PAYMENTS

§ 705.256 *Division of payments*—(a) *Conservation practice payments.* The payment earned in carrying out practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the State Office determines the producers contributed to the carrying out of the practices. In making this determination, the State Office shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, assuming that each contributed equally, unless it is established to the satisfaction of the State Office that their respective contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance of producer.* In the case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of Part 716 of this chapter (ACP–122).

§ 705.257 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to $0.71 or less shall be increased to $1.

(b) Any payment amounting to more than $0.71 but less than $1 shall be increased by 40 percent.

(c) Any payment amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of payment computed:	Increase in payment
$1 to $1.99	$0.40
$2 to $2.99	.60
$3 to $3.99	1.20
$4 to $4.99	1.60
$5 to $5.99	2.00
$6 to $6.99	2.40
$7 to $7.99	2.80
$8 to $8.99	3.20
$9 to $9.99	3.60
$10 to $10.99	4.00
$11 to $11.99	4.40
$12 to $12.99	4.80
$13 to $13.99	5.20
$14 to $14.99	5.60
$15 to $15.99	6.00
$16 to $16.99	6.40
$17 to $17.99	6.80
$18 to $18.99	7.20
$19 to $19.99	7.60
$20 to $20.99	8.00
$21 to $21.99	8.20
$22 to $22.99	8.40
$23 to $23.99	8.60
$24 to $24.99	8.80
$25 to $25.99	9.00
$26 to $26.99	9.20
$27 to $27.99	9.40
$28 to $28.99	9.60
$29 to $29.99	9.80
$30 to $30.99	10.00
$31 to $31.99	10.20
$32 to $32.99	10.40
$33 to $33.99	10.60
$34 to $34.99	10.80
$35 to $35.99	11.00
$36 to $36.99	11.20
$37 to $37.99	11.40
$38 to $38.99	11.60
$39 to $39.99	11.80
$40 to $40.99	12.00
$41 to $41.99	12.10
$42 to $42.99	12.20
$43 to $43.99	12.30
$44 to $44.99	12.40
$45 to $45.99	12.50
$46 to $46.99	12.60
$47 to $47.99	12.70
$48 to $48.99	12.80
$49 to $49.99	12.90
$50 to $50.99	13.00
$51 to $51.99	13.10
$52 to $52.99	13.20
$53 to $53.99	13.30

Amount of payment computed—Continued	Increase in payment
$54 to $54.99	$13.40
$55 to $55.99	13.50
$56 to $56.99	13.60
$57 to $57.99	13.70
$58 to $58.99	13.80
$59 to $59.99	13.90
$60 to $185.99	14.00
$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 705.258 *Payments limited to $2,500.* The total of all payments made in connection with the 1953 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $2,500. All or any part of any payment which has been or otherwise would be made to any person under the 1953 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means designed to evade, or which has the effect of evading, the provisions of this section.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 705.261 *Maintenance of practices.* Any payment for the performance of approved conservation practices under the 1953 program will be subject to the condition that the person to whom the payment is made will maintain such practices in accordance with good farming practices. If the State Office determines that any conservation practice carried out under previous agricultural conservation programs is not maintained in accordance with good farming practices, or the effectiveness of any such practice is destroyed during the 1953 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1953 practice rate or, if the practice is not offered in 1953, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice after the payment has been increased in accordance with the provisions of § 705.257.

§ 705.262 *Practices defeating purposes of programs.* If the State Office finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1953 or any previous program, it may withhold, or require to be refunded, all or any part of any payment which has been or would otherwise be made to such person under the 1953 program.

§ 705.263 *Depriving others of payment.* If the State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part the amount of any payment which has been or would otherwise be made to him in connection with the 1953 program.

§ 705.264 *Filing of false claims.* If the State Office finds than any producer has knowingly filed claim for payment under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 705.265 *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 705.266 and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 718 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 705.266 *Assignments.* Any person who may be entitled to any payment in connection with the 1953 program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1953. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70–Insular Region. These forms may be obtained from the State Office or from any office of the Agricultural Extension Service.

§ 705.267 *Practices carried out with State or Federal aid.* The assistance for any practice shall not be reduced because it is carried out with materials or services furnished by the ACP Branch or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total assistance for any practice performed shall be reduced for purposes of payment by the value of the aid, as determined by the State Office. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 705.268 *Compliance with regulatory measures.* Producers who carry out conservation practices for assistance under the 1953 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance of the practices in keeping with applicable laws and regulations. The producer who receives assistance for the practice shall be responsible to the Federal Government for any losses it may sustain because the producer infringes on the rights of others, or fails to comply with applicable laws.

APPLICATION FOR PAYMENT

§ 705.271 *Persons eligible to file applications.* An application for payment with respect to a farm may be made by any producer who is entitled to share in the payment determined for the farm.

§ 705.272 *Time and manner of filing applications and information required.* (a) Payment will be made only upon application submitted on the prescribed form to the State Office. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if it is not submitted to the State Office by May 1, 1954. At least 2 weeks' notice to the public shall be given of the expiration of any time limit established for filing other prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by making copies available to the press.

(b) Any farmer wishing to apply for payment who has not been contacted by the State Office should communicate with the Production and Marketing Administration, 303 Dillingham Building, Honolulu, T. H., 140 Federal Building, Hilo, Hawaii, T. H., or any office of the Agricultural Extension Service, before May 1, 1953.

(c) If an application for a farm is filed within the time prescribed, any producer on the farm who did not sign the application may subsequently apply for his share of the payment, provided he does so on or before December 31, 1954.

APPEALS

§ 705.276 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The State Office shall notify him of its decision in writing within 30 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the State Office, he may, within 15 days after the decision is forwarded to or made available to him, request the Director, ACP Branch, to review the decision of the State Office. Written notice of any decision rendered under this section by the State Office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 705.277 *Bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1953 program, and forms will be available in the State Office. Requests for information concerning the Agricultural Conservation Program, as well as inquiries of any other nature with respect to the program, may be directed to the Production and Marketing Administration, 303 Dillingham Building, Honolulu, T. H., or the Production and Marketing Administration, Room 140, Federal Building, Hilo, Hawaii, T. H.

DEFINITIONS

§ 705.281 *Definitions.* For the purposes of the 1953 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch, Production and Marketing Administration.

(c) "ACP Branch" means the Agricultural Conservation Programs Branch of the Production and Marketing Administration.

(d) "State" means the Territory of Hawaii.

(e) "State Office" means the Office of the Production and Marketing Administration in Honolulu, Territory of Hawaii.

(f) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof.

(g) "Producer" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(h) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also: (1) Any other adjacent or nearby farm or range land which the State Office, in accordance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(i) "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind-erosion hazard to the community.

(j) "Orchard land" means the acreage in planted fruit trees, nut trees, coffee trees, papaya trees, banana plants, or vineyards.

(k) "Pasture land" means farm land, other than range land, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(l) "Range land" means any land which produces or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 705.286 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q).

§ 705.287 *Availability of funds.* (a) The provisions of the 1953 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments herein provided is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1953 program will not be available for the payment of applications filed in the county office after December 31, 1954.

§ 705.288 *Applicability.* (a) The provisions of the 1953 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by the Territory of Hawaii or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the ACP Branch; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 8th day of October 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–11034; Filed, Oct. 10, 1952; 8:53 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 931—MILK IN THE CEDAR RAPIDS-IOWA CITY, IOWA, MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

§ 931.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR, Supps. 900.1 et seq.), a public hearing was held at Cedar Rapids, Iowa, on August 7, 1952, upon a proposed amendment to the tentative marketing agreement and to the order regulating the handling of milk in the Cedar Rapids-Iowa City marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as hereby amended, and all of the terms and conditions of said order as hereby amended, will tend to effectuate the declared policy of the act.

(2) The parity prices for milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk and the minimum prices specified in the order, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order effective not later than October 16, 1952. Any delay beyond October 16, 1952, in the effective date of this order amending the order

will seriously disrupt the orderly marketing of milk for the Cedar Rapids-Iowa City marketing area. The changes effected by this order amending the order do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order effective October 16, 1952 (see sec. 4c, Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order amending the order, which is marketed within the Cedar Rapids-Iowa City marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the Cedar Rapids-Iowa City marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period (June 1952), were engaged in the production of milk for sale in the Cedar Rapids-Iowa City marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cedar Rapids-Iowa City marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Delete § 931.50 (a) and substitute:

(a) *Class I milk.* The price for Class II milk for the previous delivery period plus the following premiums during the delivery periods indicated:

December through April	$0.85
May, June	.65
July through November	1.15

Provided, That for any delivery period prior to January 1, 1954, the Class I price shall be not less than the price established per hundredweight for Class I milk under Order No. 44, as amended, regulating the handling of milk in the Quad Cities marketing area, minus 15 cents.

2. In the list of plants in § 931.50 (b) (1) insert "Carnation Co., Waverly, Iowa."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 8th day of October 1952, to be effective on and after the 16th day of October 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-11037; Filed, Oct. 10, 1952; 8:54 a. m.]

[Lemon Reg. 456]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.563 *Lemon Regulation 456*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on October 8, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 12, 1952, and ending at 12:01 a. m., P. s t., October 19, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 225 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 455 (17 F. R. 8895) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753; as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 9th day of October 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-11065; Filed, Oct. 10, 1952; 9:02 a. m.]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

ESTABLISHMENT OF SALABLE AND SURPLUS PERCENTAGES FOR 1952–53 CROP YEAR

Notice was published in the September 19, 1952, issue of the FEDERAL REGISTER (17 F. R. 8441) that the Secretary of Agriculture was considering a proposed rule to establish a salable percentage of 100 and a surplus percentage of zero in connection with dried prunes which are produced in California during the 1952–53 crop year. These percentages were recommended by the Prune Administrative Committee in accordance with the provisions of Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR, 1951 Supp., Part 993), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto. No such written data, views, or arguments were filed within the period provided therefor.

After consideration of all matters pertaining thereto, including the recommendations of the Prune Administrative Committee, it is hereby found by me on behalf of the Secretary of Agriculture that to establish a salable percentage of

100 and a surplus percentage of zero, as hereinafter provided, will tend to effectuate the declared policy of the act, and it is, therefore, ordered, that such salable and surplus percentages shall be as follows:

§ 993.203 *Dried prune salable tonnage and surplus tonnage regulation for the 1952–53 crop year.* The salable percentage of dried prunes produced in California for the crop year beginning August 1, 1952, and ending July 31, 1953, shall be 100 percent, and the surplus percentage of such dried prunes for said crop year shall be zero percent.

It is hereby found that delaying the effective date of this order for 30 days after its publication (see section 4(c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) is impracticable, unnecessary, and contrary to the public interest in that deliveries of dried prunes to handlers by producers and dehydrators for the 1952–53 crop year have begun; the salable and surplus percentages of 75 and 25, respectively, established for the 1951–52 crop year remain effective under provisions of the marketing agreement and order until the percentages established by this order become effective; and it is necessary in order to avoid confusion and to relieve handlers of the continuing obligation under such 1951–52 regulation that this order be made effective as promptly as practicable. In these circumstances, this order must be made effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 8th day of October 1952, to become effective on the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch.

[F. R. Doc. 52-11035; Filed, Oct. 10, 1952; 8:53 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 14]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC CATEGORIES

MISCELLANEOUS AMENDMENTS

This supplement: (1) Recodifies our interpretations of "nonacrobatic operation" and "limited acrobatic maneuvers"; (2) recodifies our policies relating to "accelerated service test for aircraft" and makes the policies applicable to larger aircraft only; (3) recodifies our rules regarding "changes of engines", makes the provisions policies rather than rules, and revises one paragraph; (4) recodifies our rules relating to the "approval of materials, parts, processes, and appliances", and adds our policies regarding such approval; (5) deletes our policies regarding "weighing procedure for new production aircraft not falling within the transport category", and recodifies our policies regarding "weight and balance limitations for flight tests"; (6) alters references contained in our policies regarding "allowable bending moments of stable sections in the plastic range"; (7) alters our policies regarding "new float designs"; (8) alters our policies regarding alternate standards for water loads; (9) adds interpretations of "approved tire rating", and alters our policies regarding tires "satisfactory for use on civil aircraft"; and (10) deletes our policies regarding "approval of seats and berths, and their installations", adds interpretations of "approved seats and berths", and adds policies concerning "proof of strength for seats and berths and their installations".

Substantive rule alterations are minor and do not impose additional burdens upon interested persons. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be unnecessary, and therefore is not required.

1. Sections 3.6–1 and 3.6–2, published on April 14, 1951, in 16 F. R. 3278, are amended by substituting "§ 3.20" for "§ 3.6", "§ 3.20 (a) (1)" for "§ 3.6 (a) (1)", "§ 3.20 (a) (2)" for "§ 3.6 (a) (2)", "§ 3.20–1" for "§ 3.6–1", and "§ 3.20–2" for "§ 3.6–2".

2. Section 3.19–1, published on April 14, 1951, in 16 F. R. 3279, is amended by substituting "§ 3.16–1 *Accelerated service tests for aircraft having a maximum certificated take-off weight of more than 6000 pounds*" for "§ 3.19–1 *Accelerated service test for aircraft*", by rearranging paragraph (a) to read (b) and paragraph (b) to read (a), and by deleting from the footnote to subparagraph (d) (1) the words "for small, simple airplanes" and inserting in lieu thereof the words "wherever possible".

3. Section 3.23–1, published on April 14, 1951, in 16 F. R. 3281, is amended by substituting "§ 3.19" for "§ 3.23" and "§ 3.19–1" for "§ 3.23–1", by substituting "policies" for "rules" in § 3.19–1, and by revising paragraph (b) to read:

(b) Aircraft alterations involving weight or speed changes beyond those set forth above will be approved by the Administrator, if the applicant shows compliance with the applicable airworthiness requirements.

4. Section 3.31–1, published on April 14, 1951, in 16 F. R. 3281, is deleted, and in lieu thereof new § 3.18–1 and § 3.18–2 are adopted to read:

§ 3.18–1 *Approval of aircraft materials, parts, processes, and appliances (CAA rules which apply to § 3.18).* Aircraft materials, parts, processes, and appliances made the subject of Technical Standard Orders shall be approved upon the basis and in the manner prescribed in Part 514[1] of this title, Technical Standard Orders — C-Series — Aircraft Components.

§ 3.18–2 *Application of the Technical Standard Orders (TSO) System; C Series (CAA policies which apply to § 3.18).*—(a) *Purpose of Technical Standard Orders.* Technical Standard Orders are a means by which the Administrator adopts and publishes the specifications for which authority is provided in § 3.18 (a).

(b) *Applicability of Technical Standard Order requirements.* (1) The applicability of and effective dates for TSO items are set forth in each TSO.

(2) Each Technical Standard Order sets forth the conditions under which materials, parts, processes, and appliances approved by the Administrator prior to establishment of an applicable TSO, may continue to be used in aircraft.

(3) The establishment of a Technical Standard Order for any product does not preclude the possibility of establishing the acceptability of a similar product as part of an aircraft, engine, or propeller, under the type certification or modification procedures, if there is established a level of safety equivalent to that provided in the Civil Air Regulations as implemented by the appropriate Technical Standard Order and the product is identified as part of the airplane, engine, or propeller.

(c) *Administration of the Technical Standard Order (TSO) system.* The principles which apply in administering the Technical Standard Order system are as follows:

(1) Technical Standard Orders will reference performance provisions of recognized government specifications, or established industry specifications which have been found acceptable by the CAA. If no satisfactory specification exists, the Orders will include criteria prepared by the Administrator. In preparing criteria of this type, the Administrator will give consideration to recommendations made by the industry.

(2) Minimum performance requirements established by the Civil Aeronautics Administration and published in Technical Standard Orders will serve as a means by which materials, parts, processes, and appliances intended for use in certificated aircraft will be accepted.

(3) TSO's set forth the minimum requirements for safety. Every effort will be made by the CAA to keep the requirements at the minimum levels of safety and TSO's will not be used to set forth "desirable" standards.

(4) It will be the responsibility of the person submitting a statement of conformance to the CAA, certifying that his product meets the requirements of the TSO, to conduct the necessary tests demonstrating compliance therewith. This person will be held responsible for maintaining quality control adequate to assure that products which he guarantees to meet the requirements of a TSO do, in fact, meet these standards. The CAA will not formally approve such products as meeting the requirements of TSO's nor exercise direct inspection control over them. The statement of conformance with the provisions of a Technical

[1] Part 514 is available only through the Federal Register where it appeared on October 12, 1951, 16 F. R. 10403. Copies of individual TSO's contained therein are available upon application to the Aviation Information Office, Civil Aeronautics Administration, Department of Commerce, Washington 25, D. C.

Standard Order normally will be accepted by the CAA as sufficient indication that the applicable requirements have been fulfilled.

Any TSO item which is modified must continue to comply with the requirements of the TSO; and the person authorizing the modification will be responsible for such compliance.

(d) *Numbering of Technical Standard Orders.* Each Technical Standard Order will be assigned a designation consisting of the letters "TSO," a series code letter "C" indicating aircraft materials, parts, processes, and appliances, and a serial number to be assigned in sequence for each of the TSO's issued in the "C" series, e. g., TSO–C–1, "Smoke Detectors." Revisions are indicated by the addition of letters a, b, c, etc., after the number.

5. Section 3.71–1, published on April 14, 1951, in 16 F. R. 3282, is deleted, and § 3.71–2 is renumbered § 3.71–1.

6. Sections 3.174–3 and § 3.174–7, published on April 14, 1951, in 16 F. R. 3285, are amended by substituting "1943" for "1948" in § 3.174–3 (a), and "ANC–5" for "ANC–5a" in § 3.174–3 (a) (1) and § 3.174–7 (c).

7. Section 3.265–1 (b), published on April 14, 1951, in 16 F. R. 3288, is amended to read:

(b) New float designs which are submitted for approval should be investigated for the structural design requirements of this part.

8. Section 3.265–2, published on April 14, 1951, in 16 F. R. 3289, is amended to read:

§ 3.265–2 *Water loads; alternate standards (CAA policies which apply to §§ 3.10 and 3.265).* ANC–3 provides a level of safety equivalent to, and may be applied in lieu of, § 3.265.

9. Section 3.362–1, published on April 14, 1951, in 16 F. R. 3289, is amended to read:

§ 3.362–1 *Approved tire rating (CAA interpretations which apply to § 3.362).* An approved tire rating is a rating assigned by the Tire and Rim Association or by the Administrator.

§ 3.362–2 *Tire rating standards (CAA policies which apply to § 3.362).* Approved tire ratings or experimental tire ratings assigned by the Tire and Rim Association may be used in determining whether a tire is satisfactory for use on civil aircraft.

10. Section 3.390–1, published on April 14, 1951, in 16 F. R. 3291 is deleted, and §§ 3.390–1 and 3.390–2 are added to read:

§ 3.390–1 *Approved seats and berths (CAA interpretations which apply to § 3.390).* An approved seat or berth is one which complies with the pertinent requirements in the Civil Air Regulations as implemented by TSO–C25 "Aircraft Seats and Berths".

§ 3.390–2 *Proof of strength for seats and berths and their installations (CAA policies which apply to § 3.390).* (a) Proof of compliance with strength and deformation requirements for seats and berths, approved as a part of the type design, and for all seat and berth installations, may be shown by one of the following methods:

(1) Structural analysis alone when the structure conforms with conventional types for which existing methods of analysis are known to be reliable.

(2) A combination of structural analysis and static load tests to limit loads.

(3) Static load tests alone when such tests are carried to ultimate loads.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, 62 Stat. 1216; 49 U. S. C. 551, 553)

This supplement shall become effective October 31, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

TITLE 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 604—POLICIES OF THE UNITED STATES EMPLOYMENT SERVICE

OCCUPATIONAL TESTING

Notice is hereby given that § 604.10 (a) is amended to read as follows:

§ 604.10 *Occupational testing.* • • •

(a) To use objective tests and related techniques for the measurement of skills, aptitudes, and interests when such use will contribute to sound employment counseling and placement of applicants by local employment offices.

(Sec. 12, 48 Stat. 117; 29 U. S. C. 49k)

Signed at Washington, D. C., this 6th day of October 1952.

ROBERT C. GOODWIN,
Director of the Bureau of Employment Security.

[F. R. Doc. 52–10993; Filed, Oct. 10, 1952; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter C—Claims and Accounts

PART 836—CLAIMS AGAINST THE UNITED STATES

CLAIMS FOR COMBAT PAY

Sections 836.151 to 836.155 are added to Part 836 as follows:

Sec.
836.151 Purpose.
836.152 Claims from separated or retired personnel.
836.153 Claims on behalf of deceased or incompetent members.
836.154 Appeals.
836.155 Forms.

AUTHORITY: §§ 836.151 to 836.155 issued under secs. 701–707, Pub. Law 488, 82d Cong.
DERIVATION: AFL 173.3.

§ 836.151 *Purpose.* Sections 836.151 to 836.155 prescribe the procedure to be followed by former members of the Air Force or their beneficiaries in making application for combat duty pay as authorized by the Combat Duty Pay Act of 1952 (secs. 701–707, Pub. Law 488, 82d Cong.).

§ 836.152 *Claims from separated or retired personnel.* Persons who are separated or retired and who are entitled to combat pay not previously paid will forward their claims to the Air Adjutant General, Headquarters United States Air Force, Attention: Personnel Records Service Division, Washington 25, D. C., on DD Form 667. The Air Adjutant General or subordinates acting in his behalf will forward the DD Form 667, completed as to determination of facts, to the Military Pay Division, Air Force Finance Center, Denver 5, Colorado, for processing for payment.

§ 836.153 *Claims on behalf of deceased or incompetent members.* Claims on behalf of deceased members, incompetent members, or members who for any reason are unable to submit their own claims, may be submitted by the legal representative or a member of the immediate family of such person. DD Form 667, forwarded as stated in § 836.152, should be accompanied by a letter explaining the reason the former member is unable to submit his own claim, and in the case of deceased veterans the letter should include the name and address of the veteran's next of kin in the following order: Wife; if no wife, children; if no wife or children, parents. If there are no living relatives of the foregoing categories, then the names and addresses of the deceased veteran's brothers and sisters should be stated.

§ 836.154 *Appeals.* The Air Adjutant General, or subordinates acting in his behalf, will notify each person out-of-service for whom an unfavorable determination has been made. This notification will advise the individual of his right to submit further information and evidence.

§ 836.155 *Forms.* DD Form 667, Claim for Combat Pay, may be obtained from local post offices, or from Headquarters United States Air Force, Personnel Records Service Division, Washington 25, D. C.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force, Air Adjutant General.

[F. R. Doc. 52–10990; Filed, Oct. 10, 1952; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 24, Amdt. 20]

CPR 24—CEILING PRICES OF BEEF SOLD AT WHOLESALE

RECORD OF CLASS OF BUYER AND SELLER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this Amendment 20 to Ceiling Price Regulation 24 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation (CPR) 24, and accompanying amendments to CPRs 92 and 101, discontinue the requirement of recording the class of buyer and seller on each record of a sale, transfer, purchase or receipt covered by these regulations and substitute, instead, a much simpler record keeping requirement. Symbols are no longer mandatory and records may be in the form of a card file, alphabetical list, or in some other suitable form. In whatever form maintained, the record must permit an objective determination of the legality of each sale, delivery, transfer or receipt.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 24, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 24 is amended as follows:

Section 9 (a) (5) is amended to read as follows:

(5) A suitable record of the class of buyer or recipient and the class of seller or transferor. This record may be in the form of a card file, alphabetical list, your existing method of recording or in some other suitable form, provided it clearly shows the correct class of buyer or recipient and seller or transferor with regard to each sale, transfer, purchase, or receipt of beef.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 15, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52–11170; Filed, Oct. 10, 1952; 11:18 a. m.]

[Ceiling Price Regulation 34, Amdt. 10 to Supplementary Regulation 3]

CPR 34—SERVICES

SR 3—APPROVAL OF CERTAIN AUTOMOTIVE AND FARM TRACTOR REPAIR SERVICE FLAT RATE MANUALS

INTERIM MODIFICATIONS OR SUPPLEMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 10 to Supplementary Regulation 3 to Ceiling Price Regulation 34, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment provides for approval of interim modifications or supplements of a minor or routine character covering time allowances for operations or combinations of operations contained in an edition of or supplement to a flat rate manual or labor schedule previously specifically approved by OPS or published prior to January 26, 1951, which it would be impracticable or uneconomic to withhold from the repair trade until such time as it becomes feasible to include them in a new edition of, or major supplement to, the manuals or schedules affected. Such minor or routine changes and supplemental time allowances are customarily released by manufacturers in the form of manufacturers' service bulletins, or supplemental dated pages for insertion in loose-leaf type binders. Irrespective of any such interim approval, however, a new edition of or major supplement to a flat rate manual or labor schedule published thereafter may include all modifications or time allowances submitted to OPS for approval as provided by this supplementary regulation.

A new section is added to the supplementary regulation authorizing such interim approval and specifying the information required in an application therefor. Approvals will be granted by Special Order and published in the Federal Register, since such interim modification or establishment of time allowances will ordinarily apply to a number of sellers using the manuals or labor schedules.

The character of the approval granted by this amendment made it impracticable and unnecessary to consult formally with representatives of the industry and trade associations, although in each instance representatives of the publishers of the manuals were consulted and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Supplementary Regulation 3 to Ceiling Price Regulation 34 is amended by adding a new section 5 to read as follows:

SEC. 5. *Approval of minor or routine interim modifications of or supplements to approved manuals and schedules.* (a) Any publisher of a flat rate manual or labor schedule approved under section 2, as amended, of this supplementary regulation or published prior to January 26, 1951 who wishes to issue minor or routine modification of or supplement to such manual or schedule of the nature customarily issued by the publisher as an interim matter pending publication of a new edition of his flat rate manual or labor schedule, may apply under this section for an order approving the use of such interim modification or supplement.

(b) The application should be addressed to the Director, Office of Price Stabilization, Washington 25, D. C., and should include:

(1) The name and address of the applicant;

(2) The name and edition of the manual or labor schedule being modified or supplemented, and the operation or combination of operations which are to be modified or added by the supplement;

(3) Two copies of the part of the manufacturers' service bulletin which contains the proposed modification or supplement reprinted page or other method by which the users of the manual or schedule will be notified of the approved change in time allowance.

(c) If the application is approved, OPS will issue and publish in the Federal Register a special order, subject to such terms and conditions as OPS shall deem to be appropriate, approving such interim modifications or supplements.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 10 to Supplementary Regulation 3 to Ceiling Price Regulation 34 shall be effective October 15, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52–11171; Filed, Oct. 10, 1952; 11:19 a. m.]

[Ceiling Price Regulation 168, Amdt. 1]

CPR 168—CEILING PRICES FOR SITKA SPRUCE AND WEST COAST HEMLOCK MANUFACTURED AND SOLD IN ALASKA

TABLE OF ESTIMATED WEIGHTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 168 is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 21 of Ceiling Price Regulation 168 refers to the Table of Estimated Weights, Appendix B of the regulation. This table is to be used to determine the charge which may be made in the ceiling

price for lumber sold on a delivered basis. Inadvertently, however, and through a clerical error, this appendix was omitted from the regulation. This amendment, therefore, adds Appendix B, Table of Estimated Weights, to the regulation.

Because consultation with industry representatives, including trade association representatives, was had in the formulation of Ceiling Price Regulation 168, further consultation was not practicable. In the opinion of the Director, this amendment is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

1. A new appendix, Appendix B, is added to Ceiling Price Regulation 168 following Appendix A, as follows:

APPENDIX B—TABLE OF ESTIMATED WEIGHTS

In arriving at transportation charges and delivered prices (sec. 21), the use of the following estimated weights (even if higher than actual weights) is permitted:

SITKA SPRUCE WEIGHT SCHEDULE

(Including comparative weight for west coast hemlock)

Flooring	Finished thickness	Weight per M b. m. dry, pounds
1 x 3 and 4"	$25/32$"	1,800
1 x 6"	$25/32$"	1,900
$5/4$ x 3 and 4"	$1\ 1/16$"	2,000
$5/8$ x 4"	$9/16$"	1,400

Square edge flooring—add 200 pounds.
Hemlock same weight as Sitka Spruce.

Ceiling, all patterns	Finished thickness	Weight per M b. m. dry, pounds
$3/8$ x 4"	$7/16$"	1,000
$5/8$ x 4"	$9/16$"	1,200
$5/8$ x 6"	$9/16$"	1,300
1 x 4"	$1\ 1/16$"	1,500
1 x 6"	$1\ 3/32$"	1,700

Ceiling worked $25/32$" net—deduct 100 pounds from flooring weight.
Hemlock same weight as Sitka Spruce.

Drop siding, rustic, clear shiplap	Finished thickness	Weight per M b. m. dry, pounds
1 x 4", pat. 119, 121	$3/4$"	1,300
1 x 4", pat. 120, 122	$3/4$"	1,400
1 x 4", pat. 106	$3/4$"	1,700
$5/8$ x 6", pat. 105, 106, 115, 117 and V rustic.	$9/16$"	1,300
1 x 6", pat. 107, 113, 115, 117, 124	$3/4$"	1,500
1 x 6", pat. 103, 108, 111, 114, 118	$3/4$"	1,600
1 x 6", pat. 101, 104, 105, 106, 112 and rustic.	$3/4$"	1,700
1 x 6", pat. 102, 109, 110, 116 and V rustic.	$3/4$"	1,800
1 x 8", pat. 116, and shiplap	$3/4$"	1,900

8" width—add 100 pounds to 6" pat.
Hemlock same weight as Sitka spruce.

Stepping	Finished thickness	Weight per M b. m. dry, pounds
$5/4$ x 10 and 12"	$1\ 1/16$"	2,200
$5/4$ x 10 and 12"	$1\ 3/16$"	2,300

Hemlock same weight as Sitka Spruce.

Clears and ship decking	Weight M b. m. dry, S4S Std., pounds	Weight M b. m. green, S4S Std., pounds
1 x 2"	1,700	2,200
1 x 3 and 4"	1,800	2,400
1 x 5" and wider	1,900	2,600
$1\ 1/4$ x 2"	1,900	2,400
$1\ 1/4$ x 3 and 4"	2,000	2,600
$1\ 1/4$" x 5" and wider	2,100	2,800
$1\ 1/2$" x 2"	2,000	2,500
$1\ 1/2$" x 3 and 4"	2,100	2,700
$1\ 1/4$" x 5" and wider	2,200	2,900
2 x 2"	1,800	2,300
2 x 3 and 4"	1,900	2,500
2 x 5" and wider	2,000	2,700
3 x 3 and 3 x 4"	2,400	2,700
3 x 5, 3 x 6, and 3 x 8"	2,500	2,800
3 x 10 and 3 x 12"	2,600	2,900
4 x 4, 4 x 5, 4 x 6 and 4 x 8"	2,600	2,900
4 x 10 and 4 x 12"	2,700	3,000
6 x 6"	2,700	3,000
6 x 8"	2,800	3,100
6 x 10"	2,800	3,100
6 x 12"	2,800	3,100
8 x 8"	2,800	3,100
8 x 10"	2,900	3,200
8 x 12"	2,900	3,200
10 x 10"	2,900	3,200
10 x 12"	2,900	3,200
12 x 12"	3,000	3,300

S. L. or S2S & M, deduct 100 pounds.
Hemlock, dry, add 100 pounds.
Hemlock, green, add 400 pounds.

Clears	Weight M b. m. dry, S1S or S2S only, pounds	Weight M b. m., green, S1S or S2S only, pounds
1" surfaced to $7/16$"	1,200	1,550
1" surfaced to $1/2$"	1,300	1,750
1" surfaced to $9/16$"	1,500	2,000
1" surfaced to $5/8$"	1,700	2,200
1" surfaced to $11/16$"	1,900	2,400
1" surfaced to $3/4$"	2,000	2,550
1" surfaced to $25/32$"	2,100	2,750
1" surfaced to $13/16$"	2,200	2,850
$1\ 1/4$" surfaced to $1\ 1/16$"	2,300	3,000
$1\ 3/8$" surfaced to $1\ 3/32$"	2,250	2,950
$1\ 1/2$" surfaced to $1\ 5/16$"	2,350	3,100
$1\ 5/8$" surfaced to $1\ 13/32$"	2,350	3,050
2" surfaced to $1\ 25/32$"	2,200	2,850
2" surfaced to $1\ 29/32$"	2,400	3,150
$2\ 1/4$" surfaced to $2\ 1/32$"	2,250	2,950
$2\ 1/2$" surfaced to $2\ 3/16$"	2,300	3,000
$2\ 3/4$" surfaced to $2\ 3/8$"	2,350	3,050
3" surfaced to $2\ 5/8$"	2,750	3,050
4" surfaced to $3\ 5/8$"	2,900	3,200

Hemlock, dry, add 100 pounds.
Hemlock, green, add 400 pounds.

Casing and base	Finished thickness	Weight per M b. m. dry, pounds
1 x 3 to 12"	$25/32$"	1,900
$5/8$ x 4, 5, 6, and 8"	$9/16$"	1,600

Hemlock same weight as Sitka Spruce.

Bevel and bungalow siding	Finished thickness	Weight per M b. m. dry, pounds
$1/2$" x 4" and 6"	$1/2$" x $3/16$"	800
$3/4$" x 8" and 10"	$3/4$" x $7/16$"	1,100

Hemlock same weight as Sitka Spruce.

Lath and shingle bands	Weight per 51 pieces green, pounds	Weight per M pieces dry, pounds
4' lath	750	500
4' fence lath	1,050	800
$3/4$" x $1\ 1/2$" x $10\ 1/2$" shingle bands	600	450

Hemlock lath, green, add 250 pounds; dry, deduct 100 pounds.
Hemlock fence, green, add 350 pounds; dry, deduct 100 pounds.

Box and factory lumber	Weight M b. m. S2S dry, pounds	Weight M b. m., rough	
		Dry, pounds	Green, pounds
$4/4$ x 5 and wider	$13/16$" 2,000	2,800	3,500
$5/4$ x 5 and wider	$1\ 1/32$" 2,200	2,800	3,500
$6/4$ x 5 and wider	$1\ 1/32$" 2,300	2,800	3,500
$8/4$ x 5 and wider	$1\ 25/32$" 2,400	2,800	3,500
$10/4$ x 5 and wider	$2\ 1/32$" 2,500	2,900	3,500
$12/4$ x 5 and wider	$2\ 1/4$" 2,500	2,900	3,500

Hemlock, S2S dry:
Surfaced $1\ 3/16$" add 300 pounds.
Surfaced $1\ 1/32$", add 200 pounds.
Surfaced $1\ 1/32$", add 150 pounds.
Surfaced $1\ 25/32$", add 100 pounds.
Surfaced $2\ 1/32$", add 100 pounds.
Surfaced $2\ 1/4$", add 400 pounds.
Hemlock, rough dry, add 200 pounds; rough green, add 500 pounds.

Log cabin siding	Clear or common	
	Weight per M b. m. dry, pounds	Weight per M b. m. green, pounds
2 inches	1,700	2,000
3 inches	2,000	2,300

Hemlock same weight as Sitka Spruce.

Boards and shiplap	Finished thickness	Weight per M b. m. dry, pounds	Weight per M b. m. green, pounds
$4/4$ x 2, and wider, rough or S1E.		2,800	3,300
$5/4$, $6/4$ x 2 and wider, rough or S1E.		2,800	3,300
$5/4$ and $6/4$ S1S or S2S	$1\ 1/32$"	2,400	2,800
1 x 2" S4S	$25/32$"	1,800	2,200
1 x 3 and 4" S4S	$25/32$"	2,000	2,400
1 x 6" and wider S4S	$25/32$"	2,100	2,500
1 x 6" and wider, S1S or S2S.		2,200	2,600

$5/4$ and $6/4$ S4S standard—Add 200 pounds to weight of 1" of same width.
S1L—D and N or C. N.—100 pounds less than S4S.
Surfaced to 3/4"—100 pounds less than $25/32$".
Surfaced to 13/16"—add 100 pounds to $25/32$".
Hemlock, dry, rough or S2S, add 100 pounds; green, rough or S1E, add 500 pounds.
Hemlock, dry, surfaced, add 100 pounds; green, surfaced, add 400 pounds.

Dimension, plank and small timbers	Weight M b. m. S4S, standard		Weight M b. m. CM and S1S of S2S Standard	
	Dry	Green	Dry	Green
2 x 2"	1,900	2,200	-------	-------
2 x 3"	2,000	2,400		
2 x 4"	2,100	2,500	1,800	2,150
2 x 6"	2,150	2,550	1,950	2,300
2 x 8"	2,150	2,550	2,000	2,400
2 x 10"	2,200	2,600	2,050	2,450
2 x 12"	2,200	2,600	2,050	2,500
3 x 3"	2,300	2,600	-------	-------
3 x 4"	2,300	2,600	1,950	2,250
3 x 6"	2,500	2,800	2,250	2,500
3 x 8"	2,500	2,800	2,300	2,600
3 x 10"	2,500	2,800	2,350	2,650
3 x 12"	2,500	2,800	2,400	2,700
4 x 4"	2,400	2,700	-------	-------
4 x 6"	2,500	2,800	2,300	2,600
4 x 8"	2,500	2,800	2,400	2,700
4 x 10"	2,600	2,900	2,450	2,750
4 x 12"	2,600	2,900	2,500	2,800
5 x 5"	2,600	2,900	-------	-------
5 x 6"	2,600	2,900	2,350	2,650
5 x 8"	2,600	2,900	2,450	2,750
5 x 10"	2,600	2,900	2,500	2,800
5 x 12"	2,600	2,900	2,550	2,850

Hemlock, dry, add 100 pounds; green, add 400 pounds.

Timbers	Weight M b. m. S1S or S4S standard, green, pounds
6 x 6 to 6 x 16"	2,900
6 x 18 to 6 x 24"	3,000
8 x 8 to 8 x 16"	3,000
8 x 18 to 8 x 24"	3,100
10 x 10 to 10 x 16"	3,000
10 x 18 to 10 x 24"	3,100
12 x 12 to 12 x 24"	3,100
14 x 14 to 14 x 24"	3,100
16 x 16 to 16 x 24"	3,100
18 x 18 to 18 x 24"	3,200
20 x 20 to 20 x 24"	3,200
22 x 22 to 22 x 24"	3,200
24 x 24"	3,200
Rough green	3,300

Hemlock, green, S1S or S4S standard, add 400 pounds.

Dimension, surfaced	Weight M b. m. S4S 3/4" off by indicated width, green
2 x 2"—1/4" off each way	2,550
2 x 3"—3/4" off each way	2,650
2 x 4"—3/4" off each way	2,750
2 x 6"—3/4" off each way	2,800
2 x 8"—3/4" off each way	2,850
2 x 8"—1/2" off by 1/2" off in width	2,750
2 x 10"—3/4" off each way	2,850
2 x 10"—1/2" off by 1/2" off in width	2,750
2 x 12"—3/4" off each way	2,850
2 x 12"—3/4" off by 1/2" off in width	2,800

Hemlock, green, add 400 pounds.

Plank and timbers surfaced	Weight M b. m., green, 3/4" off each way
3 x 3	2,800
3 x 4	2,850
3 x 6, 3 x 8, and 3 x 10	2,950
3 x 12	3,000
4 x 4	2,950
4 x 6	3,000
4 x 8, 4 x 10, and 4 x 12	3,050
6 x 6	3,050
6 x 8 and 6 x 10	3,100
6 x 12	3,150
8 x 8, 8 x 10, and 8 x 12	3,150
10 x 10 and 10 x 12	3,150
12 x 12	3,200

Hemlock, green, add 400 pounds.

SHIPPING WEIGHT FORMULA FOR SIZES NOT LISTED

When lumber is surfaced to a nonstandard size, or where the established weights are not specifically listed established weights for transportation are computed by applying to the appropriate average rough weight shown below, a percentage factor determined by the ratio of the area of the rough to the surfaced sizes. The resulting weight should then be rounded to the nearest 50 pounds.

	Pounds
Rough green clears	3,500
Rough dry 1" clears	2,700
Rough dry, clears over 1" and under 3" in thickness	2,800
Rough dry, clears 3" and thicker deduct 200 pounds from corresponding green weight.	
Rough green, all other grades	3,300
Rough dry, all other grades under 3" in thickness	2,800
Rough or surfaced dry 3" and over in thickness, deduct 200 pounds from corresponding green weight.	

Hemlock, rough green, all grades, add 500 pounds.
Hemlock, rough dry, all grades, add 100 pounds.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 168 is effective October 15, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

[Ceiling Price Regulation 34, Amdt. 1 to Supplementary Regulation 24]

CPR 34—SERVICES

SR 24—LINEN SUPPLIERS LOCATED IN NEW YORK CITY AREA: SALES OF CERTAIN LINEN SUPPLY SERVICES TO SMALL COMMERCIAL USERS

CLARIFICATION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 1 to Supplementary Regulation 24 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 1 to Supplementary Regulation 24 to Ceiling Price Regulation 34 clarifies the coverage of this supplementary regulation to indicate clearly that it applies only when both the buyer and the seller of linen supply services are located in the New York City Area (the counties of New York, Kings, Queens, Bronx, Richmond, Nassau, Suffolk and Westchester in New York State). If either the buyer or seller is located outside of the New York City Area, the transaction continues to fall within the provisions of Ceiling Price Regulation 34.

If a buyer or seller has several places of business, some of which are within the New York City Area, the ceiling prices established by this supplementary regulation apply to sales or purchases made to and by those places of business only. Thus, there are two criteria for the applicability of this Supplementary Regulation 24: the location of buyer and seller, and the volume of linen supply services purchased by the buyer.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Supplementary Regulation 24 to Ceiling Price Regulation 34 is amended in the following respects:

1. The second sentence of section 1 is amended by inserting after the word "purchasers" the phrase "located in the New York City Area" so that the new sentence reads as follows: "It establishes dollars and cents ceiling prices for your sales of linen supply services listed in Appendix A to all commercial purchasers located in the New York City Area which are small accounts."

2. Subparagraph (a) (3) of section 4 is amended by inserting after the word "establishments" the phrase "located in the New York City Area" so that the new subparagraph reads as follows:

(3) If a commercial purchaser operates more than one establishment, all of these establishments located in the New York City Area for which linen supply services listed in Appendix A were purchases during the period specified in paragraph (b) of this section shall, for the purposes of this supplementary regulation, be considered a single purchaser for the purpose of determining whether the commercial purchaser is a large account.

3. Paragraph (c) of section 5 is amended by adding at the beginning thereof the following new subparagraph:

(5) This paragraph sets forth the information that your application must contain. If the purchaser operates more than one establishment, all of such establishments located in the New York City Area shall be considered a single purchaser. Data which relates to any establishments outside of the New York City Area operated by the purchaser cannot be used as a basis for redesignation and therefore the information submitted under this section must be limited to establishments located in the New York City Area.

4. Paragraph (b) of section 8 is amended by adding at the end thereof the following new sentence: "For the purposes of this regulation the term 'commercial purchaser' refers only to such purchasers located in the New York City Area."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 is effective October 15, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[Ceiling Price Regulation 51, Amdt. 7]

CPR 51—FOOD PRODUCTS SOLD IN PUERTO RICO

CEILING PRICES FOR MILK

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 51 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment increases by one cent per quart the ceiling prices for cow's milk at all levels of distribution determined under Article 5 of Ceiling Price Regulation 51. Under the regulation the prices of milk are frozen to the weighted average prices received by the seller on 75 percent of sales by dollar volume during the period from January 15, 1952, to February 15, 1952, inclusive.

In the period between 1948 and the issuance of the General Ceiling Price Regulation prices for fresh milk in Puerto Rico were frozen under directive of the General Supplies Administration, a territorial governmental agency. The General Ceiling Price Regulation therefore also froze these prices until the inclusion in Ceiling Price Regulation 51 of Article 5 which established ceiling prices for cow's milk.

Producers have incurred cost increases both in labor and materials used prior to the subsequent freeze order and have requested adjustment of their ceil-

ing prices to take account of these increases. It has been determined by the Office of Price Stabilization that an increase in ceiling prices for milk is necessary in order to enable producers to receive their pre-Korean margins on sales of milk. In determining the amount of the increase to be granted in this regulation, studies were made of costs of representative groups of large, medium and small producers.

Although distributors also sustained certain cost increases after the freeze order was issued, it has been determined that they have compensated the increased costs by shifting to higher priced milk, i. e., homogenized, on which an added markup is received.

The Director has consulted the advisory committees for the cow's milk industry to the fullest extent practicable prior to the issuance of this amendment and has given due consideration to their recommendations. In the judgment of the Director, this amendment is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Paragraph (b) of section 5.1 of Ceiling Price Regulation 51 is amended to read as follows:

(b) *Ceiling prices.* Your ceiling prices for sales of raw milk, pasteurized milk, and pasteurized-homogenized milk for fluid consumption, are the weighted average prices you received on 75 percent of your sales by dollar volume, for fluid consumption, of raw milk, pasteurized milk, or pasteurized-homogenized milk, respectively, in the same size container to purchasers of the same class during the period from January 15, 1952, to February 15, 1952, inclusive, plus an increase computed at the rate of one cent per quart. On sales at retail in containers of less than a quart the increase on the total quantity sold shall be rounded to the nearest cent. For example: If you sell one pint of milk, the increase is one half cent which rounded to the nearest cent results in an increase of one cent. However, if you sell two pints of milk, then the increase results in an increase of one cent for the two pints.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 15, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52-11173; Filed, Oct. 10, 1952; 11:20 a. m.]

[Ceiling Price Regulation 74, Amdt. 15]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

RECORD OF CLASS OF BUYER AND SELLER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this Amendment 15 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in Ceiling Price Regulation (CPR) 74:

1. This amendment conforms CPR 74 to the wholesale veal, lamb and beef regulations by requiring records to be kept clearly showing the correct class of buyer, receiver, seller or transferor with regard to each sale, transfer, purchase or receipt of pork.

2. This amendment, and companion amendments to CPRs 92 and 101, also permit sellers who began doing business prior to April 30, 1951, to qualify as hotel supply houses or combination distributors, as the case may be, on the basis of their sales made from January 1, 1951, to April 30, 1951, for the reasons stated in the Statement of Considerations accompanying Amendment 19 to CPR 24. That Statement of Considerations is therefore incorporated in this amendment.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 74, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended in the following respects:

1. Section 11 (a) is amended by adding immediately following section 11 (a) (4) and immediately before the first unnumbered paragraph of section 11 (a) the following new subparagraph:

(5) A suitable record of the class of buyer or recipient and the class of seller or transferor. This record may be in the form of a card file, alphabetical list, your existing method of recording or in some other suitable form, provided it clearly shows the correct class of buyer or recipient and seller or transferor with regard to each sale, transfer, purchase, or receipt of pork.

2. Section 46 (c) is amended by deleting the last undesignated paragraph and substituting the following therefor:

Any statement filed in accordance with the similar provisions of CPR 24, 92 or 101 shall also satisfy the requirements for filing under this section. If no sales were made in 1950 but sales were made between January 1, 1951, and April 30, 1951, the sales made during this four-month period of 1951 may be reported in lieu of those specified herein for the year 1950.

3. Section 47 (c) is amended by deleting the last undesignated paragraph and substituting the following therefor:

Any statement filed in accordance with the similar provisions of CPR 24, 92 or 101 shall also satisfy the requirements for filing under this section. If no sales were made in 1950 but sales were made between January 1, 1951, and April 30, 1951, the sales made during this four-month period of 1951 may be reported in lieu of those specified herein for the year 1950.

4. Section 60 (d) is amended to read as follows:

(d) "Combination distributor" means any establishment which does not sell to ultimate consumers more than 50 percent of the total volume, by weight, of all meats, including sausage, variety meats and edible by-products, sold or delivered by it; and which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951 to April 30, 1951, not less than 25 percent of the total volume by weight of all meats including sausage, variety meats and edible by-products sold or delivered by it, excluding sales to defense procurement agencies.

5. Section 60 (g) is amended to read as follows:

(g) "Hotel supply house" means any establishment which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951 to April 30, 1951, not less than 70 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it, excluding sales to defense procurement agencies.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 15, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52-11174; Filed, Oct. 10, 1952; 11:20 a. m.]

[Ceiling Price Regulation 92, Amdt. 11]

CPR 92—LAMB, YEARLING AND MUTTON PRODUCTS SOLD AT WHOLESALE

RECORD OF CLASS OF BUYER AND SELLER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this amendment to Ceiling Price Regulation 92 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in Ceiling Price Regulation (CPR) 92:

1. This amendment eliminates the requirement of recording by the use of symbols the class of buyer, seller, transferor or recipient on each record of a sale, transfer, purchase or receipt of lamb.

2. This amendment also permits sellers who did not engage in business in 1950 but were in business prior to April 30, 1951 to qualify as hotel supply houses or combination distributors, as the case may be.

The reasons for both of these actions are explained in the statements of consideration accompanying amendment 20 to CPR 24 and amendment 15 to CPR 74 and therefore those statements of consideration are incorporated in this amendment.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

AMENDATORY PROVISIONS

CPR 92 is amended in the following respects:

1. Section 6 (b) is amended by substituting the following for the last undesignated paragraph thereof:

A statement filed by you in accordance with the similar provisions of Ceiling Price Regulation 24, 74, or 101 shall also satisfy the requirement of filing under this section. If no sales were made in 1950 but sales were made between January 1, 1951, and April 30, 1951, the sales made during this four-month period of 1951 may be reported in lieu of those specified herein for the year 1950.

2. Section 9 (a) (2) is amended to read as follows:

(2) A suitable record of the class of buyer or recipient and the class of seller or transferor. This record may be in the form of a card file, alphabetical list, your existing method of recording or in some other suitable form, provided it clearly shows the correct class of buyer or recipient and seller or transferor with regard to each sale, transfer, purchase, or receipt of lamb.

3. The definition of combination distributor in section 50 is amended to read as follows:

"Combination distributor" means any establishment which does not sell to ultimate consumers more than 50 percent of the total volume, by weight, of all meats, including sausage, variety meats and edible by-products, sold or delivered by it; and which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951, to April 30, 1951, not less than 25 percent of the total volume by weight of all meats including sausage, variety meats and edible by-products sold or delivered by it, excluding sales to defense procurement agencies.

4. The definition of hotel supply house in section 50 is amended to read as follows:

"Hotel supply house" means any establishment which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951, to April 30, 1951, not less than 70 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it, excluding sales to defense procurement agencies.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 15, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[Ceiling Price Regulation 101, Amdt. 9]

CPR 101—CEILING PRICES OF VEAL SOLD AT WHOLESALE

RECORD OF CLASS OF BUYER AND SELLER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order 2, this Amendment 9 to Ceiling Price Regulation 101 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in Ceiling Price Regulation (CPR) 101:

1. This amendment eliminates the requirement of recording by the use of symbols the class of buyer, seller, transferor or recipient on each record of a sale, transfer, purchase or receipt of veal.

2. This amendment also permits sellers who did not engage in business in 1950 but were in business prior to April 30, 1951, to qualify as hotel supply houses or combination distributors, as the case may be.

The reasons for both of these actions are explained in the statements of considerations accompanying Amendment 20 to CPR 24 and Amendment 15 to CPR 74 and therefore those statements of considerations are incorporated in this amendment.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of the act.

AMENDATORY PROVISIONS

CPR 101 is amended in the following respects:

1. Section 10 (a) (2) is amended to read as follows:

(2) A suitable record of the class of buyer or recipient and the class of seller or transferor. This record may be in the form of a card file, alphabetical list, your existing method of recording or in some other suitable form, provided it clearly shows the correct class of buyer or recipient and seller or transferor with regard to each sale, transfer, purchase, or receipt of veal.

2. The first paragraph of section 21 (a) is amended to read as follows:

SEC. 21. *Schedule II, fabricated veal cuts*—(a) *Sales of fabricated veal cuts by a hotel supply house to purveyors of meals or sales by a ship supplier to ship operators.* No hotel supply house shall make sales to purveyors of meals until such selling establishment shall have filed a statement, in duplicate, with the appropriate District Office of the Office of Price Stabilization showing:

(1) The total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it during 1950, excluding sales to defense procurement agencies; (2) the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it during 1950 to purveyors of meals; (3) the percentage obtained by dividing the figure derived in (2) by the figure derived in (1). If no sales were made in 1950 but sales were made between January 1, 1951, and April 30, 1951, the sales made during this four-month period of 1951 may be reported in lieu of those specified herein for the year 1950. A statement filed by you in accordance with the similar provisions of CPR 24, 74 or 92 shall also satisfy the requirement of filing under this section.

3. The first paragraph of section 21 (b) is amended to read as follows:

(b) *Sales of fabricated veal cuts by a combination distributor or a peddler truck seller to purveyors of meals.* No combination distributor shall make sales to purveyors of meals until such selling establishment shall have filed a statement, in duplicate, with the appropriate District Office of the Office of Price Stabilization showing:

(1) The total volume by weight of all meats including sausage, variety meats, and edible by-products, sold or delivered by it during 1950, excluding sales to defense procurement agencies; (2) the total volume by weight of all meats, including sausage, variety meats, and edible by-products, sold or delivered by it during 1950 to purveyors of meals; (3) the percentage obtained by dividing the figure derived in (2) by the figure derived in (1). If no sales were made in 1950 but sales were made between January 1, 1951, and April 30, 1951, the sales made during this four-month period of 1951 may be reported in lieu of those specified herein for the year 1950. A statement filed by you in accordance with the similar provisions of CPR 24,

74 or 92 shall also satisfy the requirement of filing under this section.

4. Section 50 (d) is amended to read as follows:

(d) "Combination distributor" means any establishment which does not sell to ultimate consumers more than 50 percent of the total volume, by weight, of all meats, including sausage, variety meats and edible by-products, sold or delivered by it; and which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951, to April 30, 1951, not less than 25 percent of the total volume by weight of all meats including sausage, variety meats and edible by-products sold or delivered by it, excluding sales to defense procurement agencies.

5. Section 50 (g) is amended to read as follows:

(g) "Hotel supply house" means any establishment which sold or delivered to purveyors of meals during the year 1950, or if no sales were made in 1950, during the period from January 1, 1951, to April 30, 1951, not less than 70 percent of the total volume by weight of all meats, including sausage, variety meats and edible by-products, sold or delivered by it, excluding sales to defense procurement agencies.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 15, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52-11176; Filed, Oct. 10, 1952; 11:20 a. m.]

[Ceiling Price Regulation 137, Amdt. 2]

CPR 137—CEILING PRICES FOR SALES OF BULK SUPERPHOSPHATE

REVISION OF CEILING PRICE FOR LAKE CHARLES, LOUISIANA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 137 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment effects an increase in the ceiling price per unit of APA for sales of run-of-the-pile pulverized superphosphate at the production point of Lake Charles, Louisiana.

A ceiling price of $0.94 per unit of available phosphoric acid for ordinary superphosphate when sold in bulk to other fertilizer manufacturers now prevails at Lake Charles under Ceiling Price Regulation 137. The establishment of this price was arrived at by grouping Lake Charles with other Gulf Coast production points in Louisiana and Texas, who receive shipments of the basic raw material, phosphate rock, by barge from sources of supply in Florida.

Additional information received since the issuance of Ceiling Price Regulation 137 discloses that shipments of phosphate rock to Lake Charles are not made by barge and therefore a superphosphate producer at that production point does not enjoy the same low freight costs as are available to producers operating plants at other Gulf Coast production points. Freight costs for phosphate rock constitute nearly 25 percent of the current selling price of superphosphate at Lake Charles and accordingly is a very substantial item to be considered in establishing a fair and equitable ceiling price for that area.

Shreveport, Louisiana, is the closest competitive inland production point to Lake Charles. The ceiling price established by this amendment reflects the difference in incoming freight costs for phosphate rock from the same area of supply, Florida, to Shreveport and to Lake Charles.

In the formulation of this amendment there has been consultation with industry representatives to the extent practicable and consideration has been given to their recommendations. In view of the corrective nature of the amendment, special circumstances have rendered consultation with trade association representatives impracticable.

AMENDATORY PROVISIONS

Section 3 (a) of Ceiling Price Regulation 137 is amended by changing the ceiling price for ordinary pulverized superphosphate at the production point of Lake Charles, Louisiana, from $0.94 per unit of available phosphoric acid to $1.015 per unit of available phosphoric acid.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 2 to Ceiling Price Regulation 137 is effective October 15, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

[F. R. Doc. 52-11180; Filed, Oct. 10, 1952; 11:23 a. m.]

[General Overriding Regulation 6, Amdt. 7]

GOR 6—EXEMPTIONS RELATING TO SPECIFIC NONPROFIT ORGANIZATIONS

SALES BY ASSOCIATION OF JUNIOR LEAGUES OF AMERICA, INC., AND AFFILIATED JUNIOR LEAGUES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 6 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 6 adds certain sales to those exempted by the regulation from any price regulations issued by the Office of Price Stabilization. The sales here exempted are sales by the Junior Leagues chartered by the Association of Junior Leagues of America, Inc. These are nonprofit organizations which sell used, waste and damaged goods, handmade articles made by handicapped persons or members of the Junior Leagues, and used personal articles consigned to the Junior Leagues for sale. Sales are made by the Thrift and Gift Shops of the Junior Leagues. The affiliated Junior Leagues operate throughout the United States and conduct a program of rehabilitation and training for underprivileged persons. These organizations also provide a selling outlet for merchandise made by handicapped persons which, together with other activities, further the fulfillment of the organizations' philanthropic and charitable purposes.

These organizations receive donations from members of the public of various types of merchandise, such as apparel, furniture and household appliances which are sold either in the condition received or as reconditioned. In addition, handmade articles made by members of the Junior Leagues and by handicapped persons, and merchandise received on consignment are sold through the Thrift and Gift shops. With respect to the consignment sales, a small amount of the proceeds of such sales is returned to the consignors of the articles and the balance is used to defray the administrative, charitable and educational expenses of the organizations.

Generally, the considerations stated in support of General Overriding Regulation 6 and the amendments thereto are likewise applicable to the sales here referred to. In the judgment of the Director of Price Stabilization the exemptions provided for by this amendment will not impair the carrying out of the Defense Production Act of 1950, as amended, and it is accordingly not necessary for ceilings to be applied to these sales.

To the extent practicable under the circumstances, the Director has consulted with persons involved prior to the issuance of this amendment and has given consideration to their recommendations.

AMENDATORY PROVISION

General Overriding Regulation 6 is amended as follows: By adding the following new section numbered 11:

SEC. 11. *Sales by Association of Junior Leagues of America, Inc. and affiliated Junior Leagues.* No price regulation issued by the Office of Price Stabilization applies to sales by the Junior Leagues chartered by the Association of Junior Leagues of America, Inc. of used, waste or damaged goods donated by members of the public to those organizations and sold in the condition received or as reconditioned by the organizations, of articles handmade by handicapped persons or members of Junior Leagues, and of used personal articles consigned to the Junior Leagues for sale by the organizations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to General Overriding Regulation 6 is effective October 10, 1952.

TIGHE E. WOODS,
Director of Price Stabilization.

OCTOBER 10, 1952.

Chapter XIV—General Services Administration

BERYL REGULATION: PURCHASE PROGRAM FOR DOMESTICALLY PRODUCED BERYL ORE

Sec.
1. Basis and purpose.
2. Participation in the Program.
3. Duration of the Program.
4. Inspection and acceptance.
5. Price.
6. Government purchase depots.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2093; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1951 Supp., E. O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *Basis and purpose.* The purpose of this regulation is to encourage expansion in the production of beryl ore by small producers by providing a uniform price scale, and the establishment of Government purchase depots for such ore. It is issued pursuant to Delegation of Authority from the Defense Materials Procurement Administrator[1] of even date with this regulation. In accordance with the Program described herein as authorized by the Defense Production Administration, the Administrator of General Services will buy domestically produced beryl ore containing not less than eight percent (8%) beryllium oxide (BeO) by weight, in accordance with the terms and conditions set forth herein. For the purpose of this regulation, domestically produced beryl ore means beryl ore produced within the continental United States.

[1] See F. R. Doc. 52-11031, Defense Materials Procurement Agency, in the Notices section, *infra*.

SEC. 2. *Participation in the Program.* (a) Any producer whose total anticipated or actual production of domestically produced beryl ore is less than twenty-five (25) short dry tons per calendar year shall be eligible to participate in this Program. Producers whose total annual production exceeds twenty-five (25) short dry tons may negotiate for the sale of their production of domestically produced beryl ore.

(b) Any producer wishing to participate in the Program shall give notice to the Regional Director of the General Services Administration having jurisdiction over the Government purchase depot located nearest to the producer. Such notice shall be in the form of a letter, postcard or telegram, postmarked or dated by the telegraph office not later than June 30, 1953, and shall state: (1) That the producer has read this regulation and accepts its terms and conditions, (2) that the producer desires to participate in the Program and will offer domestically produced beryl ore to the Government pursuant thereto, and (3) location of beryl deposit. The notice must be signed and a return address given. Any eligible producer giving notice in the required form will be sent a certificate authorizing delivery of beryl ore which conforms to the requirements of this regulation.

SEC. 3. *Duration of the Program.* This Program shall terminate and be of no further force and effect at the close of business June 30, 1955, or when deliveries under the Program total fifteen hundred (1,500) short dry tons, whichever first occurs.

SEC. 4. *Inspection and acceptance.* (a) All offers of beryl ore to the Government under this Program shall be delivered f. o. b. Government purchase depot located nearest to the producer.

(b) Ores containing less than eight percent (8%) beryllium oxide (BeO) shall not be accepted.

(c) Beryl ores acceptable under this Program shall be in the form of clean crystals, cobbed free of waste.

(d) Shipments of beryl ore weighing less than five hundred (500) pounds shall be inspected only at the Government purchase depot; shipments weighing in excess of five hundred (500) pounds but not in excess of two thousand (2,000) pounds may be inspected at the place of production or at such other place as may be mutually agreed upon by the producer and the Government: *Provided, however,* That such inspection shall not be made beyond a three hundred (300) mile radius of the Government purchase depot to which the producer will ship.

(e) Except as provided in paragraph (f) of this section, inspection shall be on the basis of visual inspection by the Government whose decision as to the acceptability of the ore (including grade and other requirements) shall be final.

(f) Shippers of lots of beryl ore weighing in excess of five hundred (500) pounds may request the Government to sample and analyze such lots for the purpose of establishing the actual beryllium oxide (BeO) content. If the Government determines, from visual inspection, that sampling and analysis are justified, the Government shall arrange for sampling and analysis. The cost of sampling and analysis shall be for the account of the producer.

(g) The Government may reject any shipment failing to meet the requirements of this regulation, and all costs to the Goverment, in case of rejection, shall be borne by the producer.

SEC. 5. *Price.* (a) Shipments accepted by the Government on the basis of visual inspection shall be purchased at the rate of $400 per short dry ton (20 cents per pound avoirdupois).

(b) Shipments accepted on the basis of sampling and chemical analysis shall be purchased on the basis of short ton units of contained beryllium oxide (BeO) as follows:

Beryllium oxide (BeO) content:	Price per unit
8.0% to 8.9% inclusive	$40
9.0% to 9.9% inclusive	45
10.0% and over	50

SEC. 6. *Government purchase depots.* The purchase depots for the purposes of this Program shall be located at:

1. Franklin, N. H.: Under the jurisdiction of Regional Director, General Services Administration, 620 Post Office and Courthouse, Boston, 9, Mass.

2. Spruce Pine, N. C.: Under the jurisdiction of Regional Director, General Services Administration, 50 Whitehall Street SW., Atlanta 3, Ga.

3. Custer, S. Dak.: Under the jurisdiction of Regional Director, General Services Administration, 1800 Federal Office Building, 911 Walnut Street, Kansas City 6, Mo.

Dated: October 7, 1952.

JESS LARSON,
Administrator.

[F. R. Doc. 52-11032; Filed, Oct. 10, 1952; 8:52 a. m.]

Chapter XVII—Housing and Home Finance Agency

[CR 2, Amdt.]

CR 2—RESIDENTIAL CREDIT CONTROLS: REGULATION GOVERNING PROCESSING AND APPROVAL OF EXCEPTIONS AND TERMS FOR AREAS AFFECTED BY SAVANNAH RIVER (S. C. AND GA.) PADUCAH (KY.), AND REACTOR TESTING STATION (IDAHO) INSTALLATIONS OF THE ATOMIC ENERGY COMMISSION

MISCELLANEOUS AMENDMENTS

Housing and Home Finance Agency Regulation CR 2 (originally issued at 16 F. R. 2232, March 10, 1951, and last amended at 17 F. R. 1721, February 27, 1952) issued pursuant to sections 601 through 605 and section 704 of Pub. Law 775, 81st Congress (64 Stat. 813, 814, 815, 816), as amended, sections 501, 502, and 902 of Executive Order 10161, September

9, 1950 (15 F. R. 6106), sections 101, 102 and 611 of Pub. Law 139, 82d Congress (65 Stat. 293), paragraph 3 of Executive Order 10296, October 2, 1951 (16 F. R. 10103) and the approval and authorization of the Board of Governors of the Federal Reserve System of HHFA Regulation CR 1 (16 F. R. 3834, May 2, 1951); is hereby amended as follows:

1. Section 1 *Statement of purpose,* is amended to read as follows:

SECTION 1. *Statement of purpose.* In order to reduce serious inflationary pressures and to assist in limiting the volume of new residential construction to a level which could have been maintained with the materials and labor available in the light of national defense requirements, restrictions on residential real estate credit (applicable where construction was started after noon of August 3, 1950) were imposed, with the concurrence of the Housing and Home Finance Administrator, by Regulation X (Chapter XV of this title) issued by the Board of Governors of the Federal Reserve System (hereinafter called the "Board"). Related credit restrictions (applicable to both new and old residential property) were contained in regulations of the Federal Housing Commissioner and the Administrator of Veterans' Affairs. Actions restricting residential credit were taken under the authority of Title VI of the Defense Production Act of 1950, approved September 8, 1950, and amendments thereto and of Executive Order 10161, issued September 9, 1950. The Housing and Home Finance Administrator made surveys with respect to the housing needs within the areas affected by the Savannah River, Paducah (Kentucky), and Idaho Reactor Testing Station installations of the Atomic Energy Commission and designated such areas, with the concurrence of the Board and in accordance with section 6 (p) of such Regulation X chapter XV of this title) as areas in which exceptions from residential real estate credit restrictions were to be granted in order to help provide the housing needed to support the development and operation of the three installations. Such exceptions were granted in accordance with this regulation.

In addition to the authority and actions referred to above, and pursuant to the provisions of Title I of the Defense Housing and Community Facilities and Services Act of 1951, approved September 1, 1951, and of Executive Order 10296, issued October 2, 1951, the Director of Defense Mobilization was authorized, upon a finding that certain conditions set forth in the Defense Housing and Community Facilities and Services Act of 1951 exist, to designate specified areas as critical defense housing areas for purposes of that act. Under such authority, the Director of Defense Mobilization designated the areas affected by the Savannah River, Paducah (Kentucky) and Idaho Reactor Testing Station installations of the Atomic Energy Commission to be critical defense housing areas for purposes of that act. The Housing and Home Finance Administrator was also authorized under said Defense Housing and Community Facilities and Services Act of 1951 and under paragraph 3 of Executive Order 10296, upon such a finding and designation by the Director of Defense Mobilization, to suspend or relax residential real estate credit restrictions imposed under the authority of the Defense Production Act of 1950, as amended.

The purpose of this regulation, issued by the Housing and Home Finance Administrator, was to prescribe uniform conditions and procedures under which such exceptions from residential real estate credit restrictions were made available in order to assure that the housing for which such exceptions were granted (whether or not such housing was financed with Government assistance) would meet the needs of the persons employed or stationed at the three installations and of certain other defense workers, military personnel and persons displaced from their homes by defense activities. This procedure for granting exceptions from credit restrictions was in addition to other programs of the Housing and Home Finance Agency designed to assist in meeting housing needs in critical defense housing areas.

The approval of an application under this regulation (or under Housing and Home Finance Agency Regulation CR 3 which concerned exceptions from credit restrictions in all other critical defense housing areas) was required as a condition to the approval by the Federal Housing Administration of an application for mortgage insurance under the provisions of Title IX (National Defense Housing Insurance) of the National Housing Act, as amended.

On September 15, 1952, following certification by the Secretary of Labor that new non-farm housing starts had fallen below an annual rate of 1,200,000 units for three consecutive months, the Board of Governors of the Federal Reserve System and Housing and Home Finance Administrator acting simultaneously pursuant to the provisions of Title I of the Defense Production Act Amendments of 1952, approved June 30, 1952, providing for a period of residential credit control relaxation upon such a certification by the Secretary of Labor, announced respectively, the suspension of restrictions on residential real estate credit imposed by Regulation X and a relaxation of related credit restrictions in the regulations of the Federal Housing Commissioner and the Administrator of Veterans' Affairs.

2. Section 7 *Where and how to apply,* is amended by adding an additional paragraph at the end of the section reading as follows:

No application will be accepted under the provisions of this section after October 10, 1952, except that applications may be submitted up to and including October 20, 1952, with respect to needed rental housing appearing in the area program schedules announced by the Housing and Home Finance Administrator (pursuant to section 5 of this regulation) prior to September 16, 1952. Any applicant whose application was submitted under the provisions of this section on or before October 10, 1952 (or on or before October 20, 1952, with respect to programmed rental housing announced by the Housing and Home Finance Administrator prior to September 16, 1952) and who has not commenced construction of defense housing under this regulation may elect to be released from the obligations, conditions and restrictions arising out of, or incurred by the execution of, such application and from the terms and provisions of this regulation. To obtain such release, the applicant will be required to file in writing with the appropriate local office of the Housing and Home Finance Agency at Aiken, South Carolina, Paducah, Kentucky, or Idaho Falls, Idaho, in which the application was filed, a written notice of his intention to withdraw the application filed by him, and, if the application has been approved, such written notice must include a statement that the applicant is surrendering the quota of defense housing allocated to him in the approved application. An applicant who does not elect to be released will have his application processed or treated as provided elsewhere in this regulation and the housing covered by such an approved application will be eligible (if otherwise eligible) for FHA mortgage insurance under Title IX of the National Housing Act and for the special benefits provided in Title III of that Act in connection with purchases by the Federal National Mortgage Association of mortgages covering defense housing programmed by the Housing and Home Finance Administrator. Any applicant who prior to October 11, 1952, has commenced construction of the programmed defense housing described in his approved application, or any applicant whose application was filed prior to October 11, 1952 (or on or before October 20, 1952, with respect to programmed rental housing announced by the Housing and Home Finance Administrator prior to September 16, 1952), and who does not elect to be released from the obligations, conditions and restrictions arising out of, or incurred by the execution of, such application and from the terms and provisions of this regulation, shall continue to be bound by all of the obligations, conditions, restrictions and liabilities arising out of or resulting from the execution of the application and from the terms and provisions of this regulation. After October 10, 1952 (or after October 20, 1952, with respect to programmed rental housing announced by the Housing and Home Finance Administrator prior to September 16, 1952) applications relating to the construction of programmed defense housing may be filed with the local office of the FHA serving the particular critical defense housing area in which the proposed defense housing is to be located, under appropriate regulations of the FHA.

3. Section 12 *Certificates of eligibility for financing, pursuant to excepted credit terms, of owner-occupied housing,* is amended by having paragraph (a) of section 12 read as follows:

(a) The Atomic Energy Commission or any officer or employee of the Commission designated by it (herein collectively referred to as the "Commission") is hereby authorized to certify (by the issuance of appropriate certificates of ownership eligibility) persons who shall be eligible to finance the construction or purchase of family dwellings for their own occupancy under suspended or relaxed residential credit terms made available for the Savannah River, Paducah, and Idaho Reactor Testing Station areas by the Board of Governors of the Federal Reserve System, the Federal Housing Commissioner and the Administrator of Veterans' Affairs. Such certificates of ownership eligibility shall be issued only for one- and two-family dwelling properties (whether existing or to be built) located in the three areas described in section 3 of this regulation and shall be issued in accordance with program schedules announced prior to September 16, 1952, for sales-type houses prescribed by the Housing and Home Finance Administrator from time to time pursuant to section 5 of this regulation. Such certificates (which will not exceed the number authorized by the HHFA in the program schedules announced prior to September 16, 1952) shall be granted by the Commission only to (1) persons whom the Commission determines to be essential, in-migrant personnel employed (or to be employed) in permanent positions by the Commission or its contractors and (2) persons who have been or are about to be displaced from their homes (whether owned or rented by them) as a result of the acquisition (by purchase or condemnation) of land in one of the three areas described in section 3 of this regulation for an installation of the Atomic Energy Commission or its contractors. No person shall be eligible to receive such a certificate unless he is in need of a family dwelling and has declared his intention to occupy at least one family dwelling unit in the property, the construction or purchase of which is financed pursuant to such a certificate of ownership eligibility. Such delegation of authority to the Commission to issue certificates of ownership eligibility shall terminate on January 1, 1953.

4. Section 13 *Housing for persons employed by, stationed at, or displaced from their home by, installations of the Department of Defense,* is amended by having the first paragraph of paragraph (c) *Over-occupied housing,* of section 13 read as follows:

(c) *Owner-occupied housing.* With respect to housing built or sold for owner-occupancy, the Department of Defense is hereby authorized to certify, by the issuance of appropriate certificates of ownership eligibility within the number authorized by the Housing and Home Finance Agency, persons who shall be eligible to finance the construction or purchase of family dwellings for their own occupancy under suspended or relaxed residential credit terms announced for the three areas referred to in section 3 of this regulation. Such certificates of ownership eligibility shall be issued only for one- and two-family dwelling properties (whether existing or to be built) located in the three areas and shall be issued in accordance with program schedules announced prior to September 16, 1952, for sales-type housing prescribed by the Housing and Home Finance Administrator pursuant to section 5 of this regulation. Such certificates of ownership eligibility shall be granted only to (1) persons whom the Department of Defense determines to be military personnel stationed at, or essential in-migrant defense workers employed by, a listed Defense Department installation and (2) persons who have been or are about to be displaced from their homes (whether owned or rented by them) as a result of the acquisition on or after November 1, 1950 (by purchase or condemnation) of land in one of the three areas described in section 3 of this regulation for such a listed Defense Department installation. No person shall be eligible to receive such a certificate unless he is in need of a family dwelling and has declared his intention to occupy at least one family dwelling unit in the property, the construction or purchase of which is financed pursuant to such a certificate of ownership eligibility. Such delegation of authority to the Department of Defense to issue certificates of ownership eligibility shall terminate on January 1, 1953.

5. Section 14 *Housing for persons employed by defense plants or agencies, other than AEC or Defense Department installations, or for persons engaged in defense-supporting service activities,* is amended by having the first paragraph of paragraph (c) *Owner-occupied housing,* of section 14 read as follows:

(c) *Owner-occupied housing.* With respect to housing built or sold for owner occupancy, the local or regional office or representative of the Housing and Home Finance Agency will certify, by the issuance of certificates of ownership eligibility, persons who shall be eligible to finance the construction or purchase of family dwellings for their own occupancy under suspended or relaxed residential credit terms announced for the three areas referred to in section 3 of this regulation. Such certificates of ownership eligibility will be issued only for one- and two-family dwelling properties (whether existing or to be built) located in the three areas and will be issued in limited numbers in accordance with program schedules announced prior to September 16, 1952, for sales-type housing prescribed by the Housing and Home Finance Administrator pursuant to section 5 of this regulation. Such certificates of ownership eligibility will be issued only to persons who are found by the Housing and Home Finance Agency to be eligible for occupancy in accordance with the standards set out in paragraph (a) of this section. Any person who is eligible for the acquisition of housing under the standards set out in paragraph (a) of this section may apply for a certificate of ownership eligibility to the local or regional office or representative of the Housing and Home Finance Agency for the particular area.

NOTE: No person is eligible for such a certificate unless his employer, or the defense-supporting service activity in which the applicant is engaged, appears on a defense activity list included in the area program announced for the area.

Each person applying for such a certificate of ownership eligibility is required to declare his intention to occupy at least one family dwelling unit in the property, the construction or purchase of which is financed pursuant to such a certificate. Each person receiving a certificate of ownership eligibility is required to comply with all applicable provisions of this regulation and is hereby also required to comply with such conditions and provisions governing the use, expiration and cancellation of such certificate received by him as may appear thereon.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter G—Marine Regattas or Marine Parades

[CGFR 52-48]

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS DURING MARINE REGATTAS OR MARINE PARADES

PERMISSIBLE STATE REGULATION OF MARINE REGATTAS OR MARINE PARADES

• The purpose of the following new regulation is to clarify the status of the marine regattas or marine parades on navigable waters of the United States which could be controlled by State authorities. It is hereby found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act is unnecessary because the new regulation is a relaxation of requirements applicable to marine regattas or marine parades.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), as well as the statute cited with the regulation below, the following new regulation is prescribed which shall become effective on the date of publication of this document in the FEDERAL REGISTER:

Part 100 was amended by adding a new § 100.30, reading as follows:

§ 100.30 *Permissible state regulation of marine regattas or marine parades.* (a) In the exercise of his discretion as provided in section 1 of the act of April 28, 1908, as amended (sec. 1, 35 Stat. 69, as amended; 46 U. S. C. 454), the Commandant has determined that the regulations in this part shall not be applicable to a marine regatta or a marine parade occurring on the interior waters of a state if:

(1) The state directs and controls the operation of such a marine regatta or marine parade in a manner such as to insure the safety of life on navigable

waters during a marine regatta or marine parade; and,

(2) The state submits to the Commander of the Coast Guard district in which the marine regatta or marine parade is to occur its complete plans for regulation of such regatta or parade, such plans to be submitted at least two weeks before the occurrence of such regatta or parade.

(b) Upon the completion of his study of the plans and at least one week before the occurrence of a marine regatta or marine parade, the Commander of the Coast Guard district will notify the state which submitted the plans:

(1) That the plans are approved and the regulations in this part shall not be applicable to such regatta or parade; or,

(2) That the interest of safety of life on the navigable waters require specific change or changes in the plans before they can be approved; or,

(3) That the plans are not approved, with reasons for such disapproval, and that the regulations in this part are applicable to the marine regatta or marine parade.

(Sec. 1, 35 Stat. 69, as amended; 46 U. S. C. 454)

Dated: October 7, 1952.

[SEAL] A. C. RICHMOND,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter B—Merchant Marine Officers and Seamen

[CGFR 52-49]

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

EXAMINATION FOR LICENSE AS DECK OFFICER OF OCEAN OR COASTWISE STEAM OR MOTOR VESSELS; INTERNATIONAL AND INLAND RULES OF THE ROAD

The purpose of the following amendment to the regulations is to correct the lists of subjects for deck officers of ocean or coastwise steam or motor vessels to agree with the type of questions presently used in examinations for all grades of ocean and coastwise licenses. It is hereby found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act is unnecessary.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), as well as the statutes cited with the regulations below, the following amendment to the regulations is prescribed which shall become effective on the date of publication of this document in the FEDERAL REGISTER:

Section 10.05-45 (b) is amended by correcting Table 10.05-45 (b)—Subjects for Deck Officers of Ocean or Coastwise Steam or Motor Vessels, as follows:

a. Subject "28. International and Inland Rules of the Road" shall be applicable to: Master: Ocean, coastwise, coastwise limited 300 miles, sail, yachts; chief mate: Ocean, coastwise, coastwise limited 600 miles; second mate: Ocean, coastwise, coastwise limited 600 miles; and third mate: Ocean, coastwise.

b. Subject "29. International Rules of the Road" is deleted.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4427, 4438, 4439, 4440, as amended, 49 Stat. 1544, 1545, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391a, 404, 405, 224, 226, 228, 367, 50 U. S. C. App. 1275)

Dated: October 7, 1952.

[SEAL] A. C. RICHMOND,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9808]

PART 3—RADIO BROADCAST SERVICES

EFFECTIVE DATE OF AMENDMENTS; CONTINUANCE

In the matter of amendment of §§ 3.191, 3.291, 3.591, 3.655 and 3.790 of the Commission's rules and regulations; Docket No. 9808.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of October 1952;

The Commission having under consideration its Report and Order adopted May 14, 1952, in this proceeding; its Order of August 27, 1952, postponing until October 2, 1952, the effective date of the amendments to its rules and regulations adopted on May 14, 1952; petitions filed by National Broadcasting Company, Inc. and National Association of Radio and Television Broadcasters requesting further postponement of the effective date of the amendments to the rules; and petitions in opposition to postponement of the effective date filed by Honorable Harry R. Sheppard and Gordon P. Brown; and

It appearing, that the Commission also has before it petitions seeking reconsideration of the Report and Order of May 14, 1952, and petitions in opposition thereto, which have not been determined;

It is ordered, That the effective date of the amendments to §§ 3.191, 3.291, 3.591, 3.655 and 3.790 of the Commission's rules and regulations adopted on May 14, 1952, be, and it is hereby, stayed for a further period to, and including, October 31, 1952.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: October 2, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-11021; Filed, Oct. 10, 1952; 8:50 a. m.]

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST SERVICE

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket 9175; utilization of frequencies in the band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

1. The Commission has before it a Petition for Reconsideration or Rehearing filed by Lamar Life Insurance Company on June 20, 1952, requesting the Commission to reconsider "* * * its 'Sixth Report and Order' in the above entitled and numbered proceedings and upon reconsideration of said 'Sixth Report and Order' to (1) amend or modify Reference Point (e) used in locating or defining the Northern boundary of Zone II as fixed by paragraph 3.610 (A) (1) (iii) of said Sixth Report and Order by modifying said Reference Point (e) so that the location or coordinates of said Reference Point (e) when so modified or amended will be North Latitude 30° 05' 00" and West Longitude 90° 38' 30", thus placing Jackson, Mississippi North and outside of Zone III and including that city in Zone II, and (2) to assign or allocate VHF Television Channel 3 for use in the operation of a commercial television station at Jackson; or if the Commission should decline or refuse to assign VHF Television Channel 3 to and for such use at Jackson on the ground or claim that such assignment would not meet or comply with the minimum separation requirements between Jackson and some other city to which said VHF Television Channel 3 was assigned or allocated, (3) then and in that event petitioner requests and petitions the Commission to set aside its Sixth Report and Order adopted April 11, 1952, and released April 14, 1952, and thereafter to issue a definite and adequate notice of issues to be inquired into and on which evidence will be received; to hold a hearing thereafter in accordance with said notice and permit Petitioner and other interested parties to participate fully therein to the end that they may be permitted to show that (a) said Sixth Report and Order is arbitrary, capricious and legally invalid, (b) that Petitioner and other parties were never given adequate or legal notice with respect to any proposal to establish Zones I, II and III as set out in said Sixth Report and Order, (c) that Petitioner and other parties were never given adequate or legal notice that the Commission would depart substantially from the minimum separation requirements proposed by it for adoption through its Third Notice of Further Proposed Rule Making in these proceedings and (d) permit Petitioner and other parties in and to these proceedings to show that Petitioner was led to believe that the proposals as to minimum separations as proposed in the Commission's Third Notice of Further Proposed Rule-Making could be relied upon and would be followed in the allocation or assignment of television channels to various cities of the country, contrary to what the Commission did in its Sixth Report and Order."

2. In the Third Notice the Commission proposed to assign Channels 3, 10, 15, *21 to Pensacola, Florida, Channels 3, 12, *19 and 25 to Jackson, Mississippi, and Channels 10 and 25 to Albany, Georgia.

3. In its final decision in the Sixth Report and Order the Commission stated:

In the Third Notice the Commission proposed the assignment of Channel 3 to Pensacola and to Jackson at a separation of 218 miles; and the assignment of Channel 10 to Pensacola, and to Albany at a separation of 199 miles. Since these separations are below the minimum for Zone III we are required to delete one assignment of Channel 3 and one assignment of Channel 10 to provide the requisite separations.

With respect to Channel 10 we are presented with the choice of deleting that channel from Pensacola or Albany. The City of Pensacola with a population of 43,000 is somewhat larger than the City of Albany. In the Third Notice two VHF and 2 UHF channels were proposed to be assigned to Pensacola, and only one VHF and one UHF channel were proposed to be assigned to Albany. In view of the fact that Channel 10 is the only channel proposed for Albany we believe that the deletion of that channel from Pensacola and the assignment to Albany is warranted. In replacement for Channel 10 in Pensacola we are assigning UHF Channel 46. With respect to Channel 3 we are presented with the choice of deleting that channel from Pensacola or from Jackson. The City of Jackson has a population of 98,000 and the standard metropolitan area has a population of 142,000. In the Third Notice we proposed the assignment of two VHF and two UHF channels to Jackson. Since our decision herein has deleted Channel 10 from Pensacola, there remains assigned to that city only one VHF channel. It is our view that the deletion of the second channel assigned to Jackson is to be preferred to the deletion of the only remaining VHF channel assigned to Pensacola. In replacement for VHF Channel 10 in Jackson we are assigning UHF Channel 47.

4. Jackson, Mississippi, was determined to be in Zone III where the minimum co-channel VHF mileage separations of 220 miles obtained on the basis of the designation of a certain portion of the Gulf Coast Area as Zone III. This Gulf Coast area was designated as a separate zone for the reasons set out in the Sixth Report and Order as follows:

As we have pointed out in the Third Notice, in certain areas of the country, particularly the Gulf Coast area, high levels of tropospheric propagation may be expected. In such areas greater separations are necessary to compensate for the reduction in service areas that is caused by the interference resulting from the high level of tropospheric propagation. We have carefully re-examined the record and the comments that have been filed pursuant to the Third Notice and we have determined that only the Gulf Coast area should, by rule, be treated differently from other areas which may be affected by a high level of tropospheric propagation. In reaching this conclusion we are aware that wide separations will have to be maintained in other areas as well to protect against the effects of high levels of tropospheric propagation. We believe, however, that these situations can be considered on a case-to-case basis, and we have attempted to take care of this problem on such a basis in establishing the Table of Assignments in this proceeding.

5. With respect to the manner of designating the Gulf Coast area the Commission stated:

We have designated the Gulf Coast area as Zone III. Zone III consists of that portion of the United States located south of a line, drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29½° and 45½°; North American datum), beginning at a point on the east coast of Georgia and the 31st parallel and ending at the United States-Mexico border, consisting of arcs drawn with a 150 mile radius from the following specified points:

	North latitude	West longitude
(a)	29°40′	83°24′
(b)	30°07′	84°12′
(c)	30°31′	86°30′
(d)	30°48′	87°58′30″
(e)	30°23′	90°12′
(f)	30°04′30″	93°19′
(g)	29°46′	95°05′
(h)	28°43′	96°39′30″
(i)	27°52′30″	97°32′

When any of the above lines pass through a city, the city shall be considered to be located in Zone II. A map of Zone III is included in the rules adopted herein.

The Commission also pointed out that:

In establishing Zone III we are taking into account the fact that we do not have sufficient data at this time to determine exactly at what point the effects of the high level of propagation in the Gulf need no longer be considered in establishing minimum assignment spacings. We believe, however, that the figure we have chosen provides an adequate margin of safety and yet does not prevent assignments that could appropriately be made at this time.

6. Petitioner alleges here that the Commission erred in its designation of the portion of the United States which shall constitute the Gulf Coast area or Zone III. The engineering statement in support of the petition for reconsideration states:

We have examined the criteria for determining the boundary of Zone III as set forth in paragraph 3.610 (A) (1) (iii) of the Sixth Report. The Northern limits of Zone III are defined by arcs with radii of 150 miles drawn about reference points located near the Gulf Coast. The reference points and their distances from the Coast are as follows:

Reference point	North latitude	West longitude	Approximate north from Gulf Coast	Distances minimum to Gulf Coast
			Miles	*Miles*
(A)	29°40′	83°24′	10	2
(B)	30°07′	84°12′	2	2
(C)	30°31′	86°30′	9	9
(D)	30°48′	87°58′30″	39	39
(E)	30°23′	90°12′	88	48
(F)	30°04′30″	93°19′	22	22
(G)	29°46′	95°05′	43	38
(H)	28°43′	96°39′30″	34	30
(I)	27°52′30″	97°32′	----------	26

It is noted that Reference Point (e) is located well to the east of a point midway between Reference Points (d) and (f). It is further noted that Reference Point (e) should be moved south to follow the contour of the coast line.

In view of the above comments it is believed that Reference Point (e) should be moved to the West and to the South so as better to satisfy the proposed requirement that the Gulf Coast area extend 150 miles inland from the Gulf of Mexico. It is herein proposed that the location of Reference Point (e) be amended so as to show the following coordinate position:

Reference point	North latitude	West longitude	Approximate north from Gulf Coast	Distances minimum to Gulf Coast
			Miles	*Miles*
(E)	30°05′	90°38′30″	65	59

The proposed change, which affects only one Reference Point, will result in Zone III conforming more nearly to the 150 mile distance from the Gulf Coast suggested by the Federal Communications Commission and will permit a more equitable distribution of television services. In particular, it would permit the assignment of Channel 3 to both Jackson, Mississippi, and to Pensacola, Florida, which was not possible using the proposed separations and the proposed Reference Point (e).

7. In establishing the boundaries of Zone II the Commission attempted to keep all points on the boundary line dividing Zones II and III at least 150 miles away from every point on the Gulf Coast itself. In order to establish a line of readily describable accuracy the Commission defined this boundary by means of a series of arcs of 150 miles in radius drawn from specified points selected at appropriate spacings along the Gulf Coast and inland penetrations of Gulf waters. The boundary line which was thus established in nearly all cases achieved the objective of keeping the points on the boundary line at least 150 miles from every point on the Gulf Coast and inland penetrations of Gulf waters. The effect of this objective in the establishment of the boundary line, of course, was to make every point on the boundary line be more than 150 miles away from other points on the Gulf Coast. In general, however, every point on the Gulf Coast was no more than 185 miles away from the boundary.

8. Petitioner here calls our attention to the fact that Reference Point (e) because of the irregularities of the shore line of the Gulf Coast area particularly

the form of the peninsula at the southern end of Louisiana creates a situation where some points on the Gulf Coast are as far away as 240 miles from the boundary of Zone III. The petitioner claims in effect that the Commission should take into consideration the unusual situation whereby, because of the irregularities in the Gulf Coast shore line near Reference Point (e), the boundary of Zone III has been placed farther north from the Gulf Coast relatively than any other part of the boundary line separating Zones II and III. It indicates this by calculating the distance of the Reference Point north from the Gulf Coast at the Louisiana Peninsula and noting that Reference Point (e) so measured is 45 miles farther north from the Gulf Coast than any other Reference Point. Petitioner suggests that this be corrected by placing Reference Point (e) 33 miles to the south and 11 miles to the west. Reference Point (e) would still be 22 miles farther north from the outermost extremity of the coast than any other Reference Point. The adoption by the Commission of Reference Point (e) as proposed by petitioner would make the boundaries of Zone III more closely approximate the outline of the shore of the Gulf Coast.

9. We have reconsidered our determination with respect to the boundaries of Zone III and we have decided it is reasonable to accept the reference point proposed by petitioner. Such action places Jackson, Mississippi, outside of Zone III and includes that city in Zone II. The assignment of Channel 3 to Jackson would meet the required separations for VHF assignments in Zone II.

10. In order to assign Channel 3 to Jackson, Mississippi, it is necessary to designate the carrier frequency offset which may in addition require changes in the carrier frequency offset of existing asignments on Channel 3. An examination of these assignments in the area adjacent to Jackson shows that the most feasible offset designations to adopt are:

City:	*Carrier frequency offset designation*
Jackson, Miss.	3+
Pensacola, Fla. (formerly 3+)	3—

11. We are aware that the assignment of Channel 3 to Jackson, Mississippi, conflicts with certain proposals filed pursuant to the Commission's "Memorandum Opinion and Notice of Further Rule Making" (FCC 52–817) issued in this proceeding on August 4, 1952. The Commission in the above Memorandum Opinion and Notice of Further Rule Making proposed to correct the Sixth Report and Order by assigning Channel 10 to Lafayette, Louisiana. James A. Noe filed a comment suggesting an alternative means of assigning Channel 10 to Lafayette thereby making possible an additional VHF assignment to New Orleans, Louisiana. In accomplishing such proposed assignments, James A. Noe, among other things, would assign Channel 3 to Baton Rouge, Louisiana. This assignment would not meet the required minimum spacing to the assignment of Channel 3 at Jackson, Mississippi. A joint comment was filed pursuant to the above Memorandum Opinion and Notice of Further Rule Making by Baton Rouge Broadcasting Company, Inc., and Air Waves, Inc., proposing an alternative means of assigning a VHF channel to Lafayette making possible the assignment of an additional channel to Baton Rouge, Louisiana. This would be accomplished among other things, by assigning Channel 3 to Mobile, Alabama. The assignment of Channel 3 at Mobile would not meet the minimum required spacing to the co-channel assignment to Jackson, Mississippi. Concurrently with the issuance of the instant memorandum opinion and order, the Commission is issuing its final report and order in the aforesaid rule making proceeding for the assignment of Channel 10 in Lafayette. In that report and order the Commission has rejected the conflicting comments of James A. Noe and Baton Rouge Broadcasting Company, Inc., and Air Waves, Inc. for the reasons there stated.

12. In view of the foregoing, the petition of Lamar Life Insurance Company is hereby granted: *And it is ordered*, That effective 30 days after publication in the FEDERAL REGISTER § 3.610 (a) (1) (iii), including Appendix I, Figure 2 thereof, and § 3.606 of the Commission's rules and regulations are amended as follows:

1. Section 3.610 (a) (1) (iii) is amended to read as follows:

(iii). Zone III[1] consists of that portion of the United States located south of a line, drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29½° and 45½°; North American datum), beginning at a point on the east coast of Georgia and the 31st parallel and ending at the United States-Mexican border, consisting of arcs drawn with a 150 mile radius to the north from the following specified points:

	North latitude	*West longitude*
(a)	29°40′00″	83°24′00″
(b)	30°07′00″	84°12′00″
(c)	30°31′00″	86°30′00″
(d)	30°48′00″	87°58′30″
(e)	30°03′00″	90°38′30″
(f)	30°04′30″	93°19′00″
(g)	29°46′00″	95°05′00″
(h)	28°43′00″	96°39′30″
(i)	27°52′30″	97°32′00″

When any of the above arcs pass through a city, the city shall be considered to be located in Zone II. (See Appendix I, Figure 2.)

2. In § 3.606, *Table of assignments*, make the following changes:

	Channel No.
Florida:	
Pensacola	3—, 15—, *21, 46.
Mississippi:	
Jackson	3+, 12+, *19+, 25—, 47.

In view of the action taken herein, it is unnecessary to consider the alternative relief requested by the petitioner.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Adopted: September 25, 1952.

Released: September 30, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 10326]

NETWORKS AND LICENSEES OF BROADCAST STATIONS

ANNUAL FINANCIAL REPORT FORM

In the matter of amendment of FCC Form 324, Annual Financial Report (Including Associated Data) for Networks and Licensees of Broadcast Stations; Docket No. 10326.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend FCC Form 324 in the manner indicated by the proposed revision attached as an appendix to this notice.[1]

3. The proposed revision of Schedules 10–A and 10–B (Employees and Their Compensation) of Annual Report Form 324 is being handled under separate proposed rule making.

4. A conference was held on June 10, 1952, among staff representatives of the Federal Communications Commission, representatives of the Budget Bureau, and the Committee on Radio Broadcasting of the Advisory Council on Federal Reports. The changes which have been made in the proposed form represent substantially the consensus of the aforementioned conferees.

5. The principal changes proposed to be effected by the attached revision are as follows:

(a) The instructions with respect to the balance sheet and associated schedules have been clarified.

(b) Schedule 1 (the balance sheet) has been revised. However, if the respondent prepares for other purposes, a detailed balance sheet as of December 31 of the calendar year showing substantially the same data required in Schedule 1, provision is made in the instructions for the respondent, if he so elects, to file such a balance sheet in lieu of the one provided in Schedule 1.

(c) Present Schedule 1A, Analysis of Notes and Accounts Payable, Note 1 to present Schedule 7, Analysis of Broadcast Expenses, and present Schedule 9, Analysis of Time Devoted to Networks, have been deleted.

(d) Schedule 1B, Contingent Amounts, has been deleted and provision made for supplying these data, if any, as footnotes to the balance sheet.

(e) Provision has been made in proposed Schedule 6, Analysis of Broadcast Expenses, for the segregation therein of expenditures for film rentals, film purchases, and other film expense.

(f) A new form of verification has been inserted. Various other minor and editorial changes have been made.

6. The proposed amendment is issued under authority of sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the manner set forth herein may file with the Commission, on or before November 3, 1952, a written statement or brief setting forth his comments. At the same time, persons favoring the amendment as proposed may file statements in support thereof. Replies to such comments may be filed within ten days from the last day for filing original comments. The Commission will consider all comments that are received before taking final action in the matter.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments filed shall be furnished to the Commission.

Adopted: October 1, 1952.

Released: October 2, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Home Loan Bank Board

[24 CFR Part 161]

[No. 5540]

DEFINITION OF WHO ARE INSURED MEMBERS FOR PURPOSES OF INSURANCE OF ACCOUNTS

NOTICE OF PROPOSED RULE MAKING

OCTOBER 7, 1952.

Whereas by Resolution No. 5524, dated September 26, 1952, the Home Loan Bank Board provided for a hearing on October 31, 1952, upon certain amendments to the rules and regulations for the Federal Savings and Loan System with respect to the purchase of loans by Federal savings and loan associations beyond their regular lending area and

Whereas it is deemed advisable to consider at the same time an amendment to § 161.2 of the rules and regulations for insurance of accounts (24 CFR 161.2) which, as it would relieve a restriction and is called for by reason of the enactment of Public Law 558 of the 82d Congress, approved July 16, 1952, would not require 30 days' notice as provided in § 108.12 of the general regulations of the Home Loan Bank Board (24 CFR 108.12).

Resolved, that pursuant to Part 108 of the general regulations of the Home Loan Bank Board (24 CFR Part 108) and § 167.1 of the rules and regulations for insurance of accounts (24 CFR 167.1) an amendment of § 161.2 of the rules and regulations for insurance of accounts (24 CFR 161.2) to read as hereinafter set forth is hereby proposed.

Resolved further, that a hearing will be held on October 31, 1952, at 10 o'clock in the forenoon in Room 827, Federal Home Loan Bank Board Building, 101 Indiana Avenue NW., Washington, D. C., before the Home Loan Bank Board, a member thereof, or a hearing officer designated by the Board, for the purpose of receiving evidence, oral views and arguments on said proposed amendment of the rules and regulations for insurance of accounts, if written notice of intention to appear at said hearing is received by the Secretary to the Home Loan Bank Board at least five days before said date. If no such written notice of intention to appear has been received by the Secretary to the Board at least five days before the date set for the hearing, the hearing will be dispensed with. Whether or not a hearing is held, written data, views or arguments on said proposed amendment which are received by the Secretary to the Home Loan Bank Board on or before October 27, 1952, or prior to the conclusion of the hearing, if held, will be considered by the Home Loan Bank Board in connection with its consideration of the proposed amendment of the said rules and regulations.

§ 161.2 *Insured member.* An "insured member" may be an individual, a partnership, an association, or a corporation holding an insured account. Each officer, employee, or agent of the United States, of any State of the United States, of the District of Columbia, of any Territory of the United States, of Puerto Rico, of the Virgin Islands, of any county, of any municipality, or of any political subdivision thereof, herein called "public unit", having official custody of public funds and lawfully investing the same in an insured account is an insured member in such custodial capacity separate and distinct from any other officer, employee, or agent of the same or any public unit having official custody of public funds and lawfully investing the same in the same insured institution in custodial capacity. Each valid trust estate invested by the fiduciary in an insured account is an insured member separate and distinct from any other valid trust estate invested by the same or another fiduciary in the same insured institution. If the owner or the beneficiary of any such trust estate has any other investment in the same insured institution, held in a different capacity and right, he is, as to such investment, an insured member separate and distinct from such trust estate. In the event the funds of more than one trust estate are invested by the fiduciary in one insured account in an insured institution and the interest of each particular trust estate in such insured account is disclosed upon the records of the insured institution or upon the records of the fiduciary maintained in good faith and in the regular course of business, each such trust estate will be considered as a separate insured account as disclosed upon such records. In the event a fiduciary invests in one insured account funds of more than one trust estate which are commingled, each such trust estate in such insured account will be considered as a separate insured account for an amount determined by apportioning the total amount in the insured account to the trust estates having an interest therein upon the same ratio as the interest of such trust estates in the total commingled fund out of which the investment was made by the fiduciary.

Resolved further, that this hearing may be consolidated with the hearing provided for in the aforesaid Resolution No. 5524 of the Board (17 F. R. 8708).

(Sec. 402, 48 Stat. 1256, as amended; 12 U. S. C. 1725. Interprets or applies sec. 401, 48 Stat. 1255, Pub. Law 558, 82d Cong.; 12 U. S. C. 1724)

By the Home Loan Bank Board.

[SEAL] J. FRANCIS MOORE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 205]

CLASS I MOTOR CARRIERS OF PROPERTY

REPORT OF MAN-HOURS PAID FOR AND COMPENSATION OF DRIVERS AND HELPERS

SEPTEMBER 30, 1952.

The Commission, Division 1, having under consideration the matter of statistical reports to be filed by Class I Motor Carriers of Property has approved a modification of the Quarterly Report of Revenues, Expenses, and Statistics to include data with respect to hours and compensation of Drivers and Helpers, to be compiled and reported in the manner set forth in the attached form.[1]

It is intended that each carrier shall report actual man-hours paid for during one pay period in each quarter and that the sum of the man-hours reported for the four quarters be used as a basis for estimating total man-hours paid for Drivers and Helpers required by Schedule 9002–A in the annual report.

Any interested party may, on or before November 10, 1952, file with the Commission written views or arguments to be considered in this connection, and may request oral argument thereon. Unless otherwise decided, after consideration of representation so received, an order will be entered requiring reports to be filed,

[1] Filed as part of the original document.

commencing with the period January 1, 1953 to March 31, 1953 (both dates inclusive).

[49 CFR Part 205]

CLASS I MOTOR CARRIERS OF PASSENGERS

REPORT OF MAN-HOURS PAID FOR AND COMPENSATION OF DRIVERS

SEPTEMBER 30, 1952.

The Commission, Division 1, having under consideration the matter of statistical reports to be filed by Class I Motor Carriers of Passengers, has approved modification of the Quarterly Report of Revenues, Expenses, and Statistics to include data with respect to hours and compensation of Drivers, to be compiled and reported in the manner set forth in the attached form.[1]

It is intended that each carrier shall report the actual man-hours paid for during one pay period in each quarter and that the sum of the man-hours reported for the four quarters be used as a basis for estimating total man-hours paid for Drivers required by Schedule 9002–B in the annual report.

Any interested party may, on or before November 10, 1952, file with the Commission written views or arguments to be considered in this connection, and may request oral argument thereon. Unless otherwise decided, after consideration of representation so received, an order will be entered requiring reports to be filed, commencing with the period January 1, 1953 to March 31, 1953 (both dates inclusive).

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 52–45]

APPROVAL OF EQUIPMENT AND CORRECTION OF PRIOR DOCUMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited below with each item of equipment: *It is ordered,* That:

(a) All the approvals listed in this document which supersede approvals published in the FEDERAL REGISTER dated July 31, 1947, are prescribed and shall be in effect for a period of 5 years from July 31, 1952, unless sooner canceled or suspended by proper authority; and,

(b) All the other approvals listed in this document (which are not covered by paragraph (a) above) are prescribed and shall be effective for a period of 5 years from date of publication in the FEDERAL REGISTER, unless sooner canceled or suspended by proper authority; and,

(c) The correction to an approval published in a prior document shall be made as set forth below.

BUOYANT CUSHIONS, NONSTANDARD

NOTE: Approved for use on motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.008/512/0, 15'' x 15'' x 2'' rectangular buoyant cushion, 20 oz. kapok, unsupported plastic cover and straps, dwg. dated May 1, 1952, manufactured by Wilber & Son, 590 Howard Street, San Francisco, Calif.

Approval No. 160.008/515/0, 15'' x 15'' x 2'' rectangular buoyant cushion, 20 ounce kapok, unsupported plastic cover and straps, manufactured by Atlantic-Pacific Manufacturing Corp., Brooklyn, N. Y., for Neptune Specialties, Inc., 52 Clark Street, Brooklyn 2, N. Y.

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 25.4–1, 160.008)

GAS MASKS, SELF-CONTAINED BREATHING APPARATUS, AND SUPPLIED-AIR RESPIRATORS

Approval No. 160.011/22/1, Type WUG–N1 Universal Gas Mask, Bureau of Mines Approval No. 1443, Willson Catalog No. 49, P. 50, manufactured by Willson Products, Inc., Reading, Pa. (Supersedes Approval No. 160.011/22/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.011/23/1, Type WUG–N2 Universal Gas Mask, Bureau of Mines Approval No. 1445, Willson Catalog No. 49, P. 50, manufactured by Willson Products, Inc., Reading, Pa. (Supersedes Approval No. 160.011/23/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.011/24/1, Type WIG–G4 Ammonia Gas Mask, Bureau of Mines Approval No. BM–1425, Willson Catalog No. 49, P. 54, manufactured by Willson Products, Inc., Reading, Pa. (Supersedes Approval No. 160.011/24/0 published in the FEDERAL REGISTER dated July 31, 1947.)

(R. S. 4405, 4417a, 4426, 4491, 49 Stat. 1544, 54 Stat. 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 489, 50 U. S. C. 1275; 46 CFR 61.16, 77.18, 95.17, 114.18, 160.011)

WINCHES, LIFEBOAT

Approval No. 160.015/62/0, Type B135M lifeboat winch, approved for a maximum working load of 13,500 pounds pull at the drums (6,750 pounds per fall), identified by general arrangement dwg. No. 2105–8 dated January 28, 1952, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J.

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 33.10–5, 59.3a, 60.21, 76.15a, 94.14a, 160.015)

LADDERS, EMBARKATION-DEBARKATION (FLEXIBLE)

Approval No. 160.017/1/1, Type 8 PL embarkation-debarkation ladder, chain suspension, wood ears, dwg. dated March 5, 1952, manufactured by H. K. Metal Craft Mfg. Co., 3775–3789 Tenth Avenue at Two Hundred and Third Street, New York 34, N. Y. (Supersedes Approval No. 160.017/1/0 published in the FEDERAL REGISTER July 31, 1947.)

Approval No. 160.017/13/0, Type 8 PL–S embarkation-debarkation ladder, chain suspension, steel ears, dwg. dated March 1, 1952, manufactured by H. K. Metal Craft Mfg. Co., 3775–3789 Tenth Avenue at Two Hundred and Third Street, New York 34, N. Y.

(R. S. 4405, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 59.63, 76.56a, 94.55a, 113.47a, 160.017)

SEA ANCHORS, LIFEBOAT

Approval No. 160.019/11/0, Type JF lifeboat sea anchor, U. S. C. G. dwg. No. MMI–562 and specification dated November 1, 1943, revised August 24, 1944, manufactured by Samuel Fassman Co., 164 Liberty Avenue, Brooklyn 12, N. Y.

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 33.15–1, 33.15–5, 59.11, 76.14, 160.019)

LIFE FLOATS

Approval No. 160.027/10/1, 7.0' x 3.5' (10'' x 10'' body section), elliptical, solid balsa wood life float, 10-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/10/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.027/11/1, 8.5' x 4.0' (11'' x 11'' body section), elliptical, solid balsa wood life float, 15-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/11/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.027/12/1, 9.0' x 5.5' (12'' x 12'' body section), elliptical, solid balsa wood life float, 20-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/12/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.027/13/1, 10.0' x 5.5' (12'' x 12'' body section), elliptical, solid balsa wood life float, 25-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/13/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.027/14/1, 11.5' x 7.0' (14'' x 14'' body section), elliptical, solid balsa wood life float, 40-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/14/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.027/15/1, 13.0' x 8.5' (16'' x 16'' body section), elliptical, solid balsa wood life float, 60-person capacity, dwg. No. G–331, dated December 13, 1943, revised June 5, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.027/15/0 published in the FEDERAL REGISTER dated July 31, 1947.)

DAVITS, LIFEBOATS

Approval No. 160.032/109/1, telescopic gravity davit, type TG–9.5, approved for maximum working load of 1,900 pounds per set (950 pounds per arm), using 1 part falls, identified by arrangement dwg. No. 3237 dated May 26, 1950, and revised April 11, 1952, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.032/109/0 published in the FEDERAL REGISTER dated March 21, 1951.)

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 474, 481, 489, 1333, 50 U. S. C. 1275; 46 CFR 160.032)

MECHANICAL DISENGAGING APPARATUS, LIFEBOAT

Approval No. 160.033/4/1, Rottmer type size C releasing gear, approved for maximum working load of 18,300 pounds per set (9,150 pounds per hook), identified by general arrangement dwg. No. 1498–5 dated January 8, 1951, and revised June 9, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.033/4/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.033/26/1, Rottmer type size 297 releasing gear, approved for maximum working load of 39,800 pounds per set (19,900 pounds per hook), identified by assembly dwg. No. 1895–10 dated November 22, 1948, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.033/26/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.033/27/1, Rottmer type size 298 releasing gear, approved for maximum working load of 27,700 pounds per set (13,850 pounds per hook), identified by arrangement dwg. Nos. 3367–3 dated November 13, 1951, and 3372–4 dated November 1, 1951, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.033/27/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.033/28/1, Rottmer type size 299 releasing gear, approved for maximum working load of 15,720 pounds per set (7,860 pounds per hook), identified by arrangement dwg. No. 3372–6 dated December 11, 1951, manufactured by Welin Davit & Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.033/28/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.033/39/1, Rottmer type S–1 releasing gear, approved for maximum working load of 21,300 pounds per set (10,650 pounds per hook), identified by hoist gear assembly dwg. No. M–115–1 dated October 25, 1949, and revised June 6, 1952, manufactured by Marine Safety Equipment Corp., Point Pleasant, N. J. (Supersedes Approval No. 160.033/39/0 published in the FEDERAL REGISTER dated May 10, 1950.)

Approval No. 160.033/44/0, type T–9.5 releasing gear, approved for maximum working load of 1,900 pounds per set (950 pounds per hook), identified by hoist and release gear dwg. No. 3237–2 dated June 8, 1950, and revised July 14, 1950, for use on all vessels other than ocean and coastwise, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J.

(R. S. 4405, 4417a, 4426, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 33.10–15, 33.10–20, 59.68, 76.62, 94.59, 160.033)

LIFEBOATS

Approval No. 160.035/26/1, 26.0' x 8.75' x 3.75' steel oar-propelled lifeboat, 50-person capacity, identified by general arrangement dwg. No. G–2650 dated April 2, 1952, and revised June 13, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.035/26/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 160.035/194/2, 35.0' x 12.33' x 5.25' steel hand-propelled lifeboat, 135-person capacity, identified by construction and arrangement dwg. No. 1871 dated April 9, 1952, manufactured by Welin Davit and Boat Division of Continental Copper & Steel Industries, Inc., Perth Amboy, N. J. (Supersedes Approval No. 160.035/194/1 published in the FEDERAL REGISTER dated October 29, 1948.)

Approval No. 160.035/213/1, 12.0' x 4.4' x 1.9' steel oar-propelled lifeboat, 6-person capacity, identified by general arrangement dwg. No. G–1206–S dated April 25, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y. (Supersedes Approval No. 160.035/213/0 published in the FEDERAL REGISTER dated April 1, 1948.)

Approval No. 160.035/236/0, 16.0' x 5.8' x 2.42' steel oar-propelled lifeboat, 13-person capacity, identified by general arrangement dwg. No. G–1613 dated April 28, 1952, manufactured by C. C. Galbraith & Son, Inc., 99 Park Place, New York 7, N. Y.

Approval No. 160.035/285/0, 18.0' x 5.75' x 2.42' aluminum oar-propelled lifeboat, 16-person capacity, identified by construction and arrangement dwg. No. 18–4 dated October 24, 1951, and revised June 6, 1952, manufactured by Marine Safety Equipment Corp., Point Pleasant, N. J.

Approval No. 160.035/288/0, 26.0' x 9.0' x 3.83' steel, oar-propelled lifeboat, 53-person capacity, identified by general arrangement and construction dwg. No. 49R–2658 dated January 15, 1952, and revised July 14, 1952, manufactured by Lane Lifeboat & Davit Corp., 8920 Twenty-sixth Avenue, Brooklyn 14, N. Y.

(R. S. 4405, 4417a, 4426, 4481, 4488, 4491, 4492, 35 Stat. 428, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 396, 474, 474, 481, 489, 490, 1333, 50 U. S. C. App. 1275; 46 CFR 33.01–5, 59.13, 76.16, 94.15, 113.10, 160.035)

KITS, FIRST-AID

Approval No. 160.041/4/0, First-aid Kit, Model No. H–24, dwg. No. H–24–K revised July 11, 1952, submitted by A. E. Halperin Co., Inc., 75–87 Northampton Street, Boston 18, Mass.

(R. S. 4405, 4417a, 4488, 4491, 49 Stat. 1544, 54 Stat. 346, 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 481, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 160.041)

VALVES, SAFETY

Approval No. 162.001/5/1, Style HRC–MS–1 carbon steel body pop safety valve, 350 p. s. i. maximum pressure, 450° F. maximum temperature, dwg. No. B–33675 dated Aug. 22, 1941, and G–33675 dated July 16, 1952, approved for sizes 2'', 2½'', 3'', 3½'' and 4'', manufactured by the Crosby Steam Gage & Valve Co., 43 Kendrick Street, Wrentham, Mass. (Supersedes Approval No. 162.001/5/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/6/1, Style HRD–MS–2 carbon steel body pop safety valve, 450 p. s. i. maximum pressure, 650° F. maximum temperature, dwg. No. B–33676 dated July 18, 1952, and G–33676 dated July 18, 1952, approved for sizes 1½'', 2'', 2½'', 3'', 3½'' and 4'', manufactured by the Crosby Steam Gage & Valve Co., 43 Kendrick Street, Wrentham, Mass. (Supersedes Approval No. 162.001/6/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/7/1, Style HRD–MS–3 carbon steel body pop safety valve, 500 p. s. i. maximum pressure, 650° F. maximum temperature, dwg. No. B–33677 dated July 18, 1952, and G–33677 dated July 18, 1952, approved for sizes 1½'', and 2'', manufactured by the Crosby Steam Gage & Valve Co., 43 Kendrick Street, Wrentham, Mass. (Supersedes Approval No. 162.001/7/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/8/1, Style HRSA–MS–3 carbon steel body pop safety valve, 500 p. s. i. maximum pres-

[1] Filed as part of the original document.

sure, 750° F. maximum temperature, dwg. No. D–33678, dated July 16, 1952, and G–33678 dated July 16, 1952, approved for sizes 1½" and 2", manufactured by the Crosby Steam Gage & Valve Co., 43 Kendrick Street, Wrentham, Mass. (Supersedes Approval No. 162.001/8/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/53/1, Type 38SV alloy steel pop safety valve, 1,500 p. s. i. maximum pressure, 1050° F. maximum temperature, dwg. Nos. B31432–2, Alt. 2 dated May 9, 1952, and C32258–1 undated, approved for sizes 1½", 2", 2½", 3" and 4", manufactured by Foster Engineering Co., 835 Lehigh Avenue, Union, New Jersey. (Supersedes Approval No. 162.001/53/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/56/1, Type 1451 Consolidated bronze body pop safety valve, 300 p. s. i. maximum pressure, 450° F. maximum temperature, dwg. No. 3VL953 dated July 28, 1952, approved for 2½" size, manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/56/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.001/60/1, Type 1426 Consolidated duplex carbon steel body pop safety valve, 300 p. s. i. maximum pressure for sizes 3" and 4", and 600 p. s. i. maximum pressure for sizes 2" and 2½", 650° F. maximum temperature, dwg. No. 3VK953 dated June 13, 1952, approved for sizes 2", 2½", 3" and 4", manufactured by Manning, Maxwell & Moore, Inc., Stratford, Conn. (Supersedes Approval No. 162.001/60/0 published in the FEDERAL REGISTER dated July 31, 1947.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 52.65)

BOILERS, HEATING

Approval No. 162.003/21/1, Model MSCH, Size 28–260, waste heat boiler, heat recovery silencer type, fitted with spark arrester, steel construction, dwg. Nos. B–476A revised July 24, 1952, and B–743 revised July 24, 1952, maximum design pressure 30 p. s. i., approval limited to bare boiler, manufactured by the Maxim Silencer Co., Hartford, Conn. (Supersedes Approval No. 162.003/21/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.003/26/1, Model 400 hot water heating boiler, forced circulation coil type, dwg. No. L–33, dated July 17, 1952, maximum design pressure 30 p. s. i., approval limited to bare boiler, manufactured by Preferred Utilities Mfg. Corp., 1860 Broadway, New York 23, N. Y. (Supersedes Approval No. 162.003/26/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.003/27/1, Model 800T hot water heating boiler, forced circulation coil type, dwg. No. L–33, dated July 17, 1952, maximum design pressure 30 p. s. i., approval limited to bare boiler, manufactured by Preferred Utilities Mfg. Corp., 1860 Broadway, New York 23, N. Y. (Supersedes Approval No. 162.003/27/0 published in the FEDERAL REGISTER dated July 31, 1947.

(R. S. 4405, 4417a, 4418, 4426, 4433, 4434, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 412, 489, 1333, 50 U. S. C. App. 1275; 46 CFR Part 52)

FIRE EXTINGUISHERS, PORTABLE, HAND, CARBON-TETRACHLORIDE TYPE

Approval No. 162.004/21/1, General Quick Aid Fire Guard Model 85 HD, 1-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT–185–XJ, Rev. B dated January 21, 1952, name plate dwg. No. AT–185–1D dated March 3, 1952, no revision, manufactured by the General Detroit Corp., 2272 East Jefferson Avenue, Detroit 7, Mich. (Supersedes Approval No. 162.004/21/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.004/22/1, General Quick Aid Fire Guard Model 95 HD, 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT–195–XJ, dated March 28, 1952, no revision, name plate dwg. No. AT–195–1D, dated March 3, 1952, no revision, manufactured by the General Detroit Corp., 2272 East Jefferson Avenue, Detroit 7, Mich. (Supersedes Approval No. 162.004/22/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.004/23/2, General Quick Aid Fire Guard Model 85 HD, 1-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT–185–XJ, Rev. B dated January 21, 1952, name plate dwg. No. AT–185–1D, dated March 3, 1952, no revision, manufactured by the General Pacific Corp., 1501 East Washington Boulevard, Los Angeles 21, Calif. (Supersedes Approval No. 162.004/23/1 published in the FEDERAL REGISTER dated October 2, 1948.)

Approval No. 162.004/54/0, General Quick Aid Fire Guard Model 95 HD, 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. BT–195–XJ, dated March 28, 1952, no revision, name plate dwg. No. AT–195–ID, dated March 3, 1952, no revision, manufactured by the General Pacific Corp., 1501 East Washington Boulevard, Los Angeles 21, Calif.

Approval No. 162.004/65/0, Badger's CTC (Symbol PY), 1-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–15791 dated June 17, 1949, no revision, name plate dwg. No. A–16174, Rev. 4 dated January 8, 1952, manufactured for Badger Fire Extinguisher Co., 626 Somerville Avenue, Somerville 43, Mass., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

Approval No. 162.004/66/0, Badger's CTC (Symbol PY), 1½-qt. carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–16164 dated November 22, 1950, no revision, name plate dwg. No. A–16237, Rev. 4 dated January 8, 1952, manufactured for Badger Fire Extinguisher Co., 626 Somerville Avenue, Somerville 43, Mass., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

Approval No. 162.004/67/0, Gorham (Symbol PY), 1-qt. carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–15791 dated June 17, 1949, no revision, name plate dwg. No. A–15759, Rev. No. 6 dated January 5, 1952, manufactured for Gorham Fire Equipment Co., 30 India Wharf, Boston, Mass., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

Approval No. 162.004/68/0, Gorham (Symbol PY), 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–16164 dated November 22, 1950, no revision, name plate dwg. No. A–15760, Rev. No. 6 dated January 5, 1952, manufactured for Gorham Fire Equipment Co., 30 India Wharf, Boston, Mass., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

Approval No. 162.004/69/0, Kidde VL No. 6 (Symbol PY), 1-qt. carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–15791 dated June 17, 1949, no revision, name plate dwg. No. A–16158, Rev. No. 3 dated July 17, 1951, manufactured for Walter Kidde & Co., Inc., Belleville 9, N. J., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

Approval No. 162.004/70/0, Kidde VL No. 5 (Symbol PY), 1½-quart carbon-tetrachloride type hand portable fire extinguisher, assembly dwg. No. B–16164 dated November 22, 1950, no revision, name plate dwg. No. A–16159, Rev. No. 3 dated July 16, 1951, manufactured for Walter Kidde & Co., Inc., Belleville 9, N. J., by the Pyrene Manufacturing Co., 560 Belmont Avenue, Newark 8, N. J.

(R. S. 4405, 4417a, 4426, 4479, 4491, 4492, 49 Stat. 1544, 54 Stat. 165, 166, 346, 1028, and sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 375, 391a, 404, 463a, 472, 489, 490, 526g, 526p, 1333, 50 U. S. C. 1275; 46 CFR 25.5–1, 26.3–1, 27.3–1, 34.25–1, 61.13, 77.13, 95.13, 114.15)

VALVES, SAFETY (FOR STEAM HEATING BOILERS)

Approval No. 162.012/9/0, Cat. No. 2501 pop safety valve, bronze body, for steam heating boilers and unfired steam generators, dwg. No. A–24144, Rev. B, dated April 22, 1948, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
¾	189
1	324
1¼	351
1½	495
2	711
2½	900

manufactured by the Crane Co., 836 S. Michigan Avenue, Chicago 5, Ill.

Approval No. 162.012/10/0, Series 70 pop safety valve, cast iron body enclosed spring standard outlet for steam heating boilers and unfired steam generators, dwg. No. P–20119, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
1	400
1¼	659
1½	1,366
2	1,989
2½	2,497
3	3,000
4	5,112

manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa.

Approval No. 162.012/11/0, Series 70E pop safety valve, cast iron body exposed spring standard outlet for steam heating boilers and unfired steam generators, dwg. No. P–20120, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
1	400
1¼	659
1½	1,366
2	1,989
2½	2,497
3	3,000
4	5,112

manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa.

Approval No. 162.012/12/0, Series 72 pop safety valve, cast iron body enclosed spring expanded outlet for steam heating boilers and unfired steam generators, dwg. No. P–20119, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
1	400
1¼	659
1½	1,366
2	1,989
2½	2,497
3	3,000
4	5,112

manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa.

Approval No. 162.012/13/0, Series 72E pop safety valve, cast iron body exposed spring expanded outlet for steam heating boilers and unfired steam generators, dwg. No. P–20120, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
1	400
1¼	659
1½	1,366
2	1,989
2½	2,497
3	3,000
4	5,112

manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa.

Approval No. 162.012/14/0, Series 5 pop safety valve, bronze body, for steam heating boilers and unfired steam generators, dwg. No. D–5L–2½, dated December 14, 1948, approved for a maximum pressure of 30 p. s. i. in the following sizes and capacities:

Size (Inches):	Capacity (pounds/hour) at 30 p. s. i.
¾	219
1	306
1¼	576
1½	1,060
2	1,070

manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa.

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 375, 391a, 392, 404, 411, 489, 367, 1333, 50 U. S. C. App. 1275; 46 CFR 52.65)

VALVES, PRESSURE VACUUM RELIEF AND SPILL

Approval No. 162.017/64/0, Figure 100 pressure vacuum relief valve, atmospheric pattern, weight-loaded poppets, all bronze construction, dwg. No. 100–A, dated January 12, 1951, approved for sizes 2½", 3" and 4", manufactured by the Mechanical Marine Co., Inc., 17 Battery Place, New York 4, N. Y.

Approval No. 162.017/66/0, Figure 120 pressure only relief and spill valve, atmospheric pattern, weight-loaded poppet, all bronze construction, dwg. No. 120–A, dated January 12, 1951, approved for size 6", manufactured by the Mechanical Marine Co., Inc., 17 Battery Place, New York 4, N. Y.

Approval No. 162.017/67/0, Figure 130 pressure vacuum relief valve, enclosed pattern, weight-loaded poppets, all bronze construction, dwg. No. 130–A, revised February 7, 1951, approved for sizes 3", 4", 5" and 6", manufactured by the Mechanical Marine Co., Inc., 17 Battery Place, New York 4, N. Y.

(R. S. 4405, 4417a, 4491, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 375, 391a, 489, 50 U. S. C. App. 1275; 46 CFR 162.017)

INDICATORS, BOILER WATER LEVEL, SECONDARY TYPE

Approval No. 162.025/6/1, Figure 4312, secondary boiler water level indicator, remote reading wall-mounted type, 700 p. s. i. maximum pressure, dwg. Nos. EL–912–108, revision A, dated February 23, 1952, EL–13021, revision E, dated June 16, 1952, and EL–14269, dated July 22, 1952, manufactured by Yarnall-Waring Co., Chestnut Hill, Philadelphia 18, Pa. (Supersedes Approval No. 162.025/6/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.025/30/1, Figure 4314, secondary boiler water level indicator, remote reading panel-mounted type, 700 p. s. i. maximum pressure, dwg. Nos. EL–912–108, revision A, dated February 23, 1952, EL–13021, revision E, dated June 16, 1952, and EL–14269, dated July 22, 1952, manufactured by Yarnall-Waring Co., Chestnut Hill, Philadelphia 18, Pa. (Supersedes Approval No. 162.025/30/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.025/31/1, Figure 4316, secondary boiler water level indicator, remote reading wall-mounted type, 1500 p. s. i. maximum pressure, dwg. Nos. EL–912–109, revision B, dated May 12, 1952, EL–13003 dated October 11, 1944, EL–12975 dated February 21, 1949, and EL–14269 dated July 22, 1952, manufactured by Yarnall-Waring Co., Chestnut Hill, Philadelphia 16, Pa. (Supersedes Approval No. 162.025/31/0 published in the FEDERAL REGISTER dated July 31, 1947.)

Approval No. 162.025/32/1, Figure 4318, secondary boiler water level indicator, remote reading panel-mounted type, 1500 p. s. i. maximum pressure, dwg. Nos. EL–912–109, revisions B, dated May 12, 1952, EL–13003 dated October 11, 1944, EL–12975 dated February 21, 1949 and EL–14269 dated July 22, 1952, manufactured by Yarnall-Waring Co., Chestnut Hill, Philadelphia 18, Pa. (Supersedes Approval No. 162.025/32/0 published in the FEDERAL REGISTER dated July 31, 1947.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR Part 52)

INCOMBUSTIBLE MATERIALS

Approval No. 164.009/10/2, Fiberglas Insulation Type TW–MC, glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG 3610–1493, FP2569, dated Nov. 10, 1947, and National Bureau of Standards Test Report No. TG 10210–1624:FP2806, dated Aug. 9, 1949, modified by Owens-Corning Fiberglas Corporation letter dated July 9, 1952, approved in a 2 to 3½ pounds per cubic foot density, manufactured by Owens-Corning Fiberglas Corp., Toledo 1, Ohio. (Supersedes Approval No. 164.009/10/1 published in the FEDERAL REGISTER dated Aug. 24, 1951, and Approval No. 164.009/19/0 published in the FEDERAL REGISTER dated Oct. 7, 1949.)

(R. S. 4405, 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 1028, sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 369, 375, 391a, 404, 463a, 50 U. S. C. 1275; 46 CFR 164.009)

CORRECTION TO PRIOR DOCUMENT

In FEDERAL REGISTER Volume 17, Number 139, of the issue for Thursday, July 17, 1952, 17 F. R. 6568, under the heading "Buoys, Life, Ring, Cork or Balsa Wood," Approval No. 160.009/40/0 shall be corrected by changing the name of the manufacturer from "George Broom & Sons" to "George Broom's Sons."

Dated: October 7, 1952.

[SEAL] A. C. RICHMOND,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

[CGFR 52–46]

TERMINATION OF APPROVAL OF EQUIPMENT

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and in compliance with the authorities cited below, the following approvals of equipment are terminated for the reasons set forth in notes with each item of equipment:

BUOYANT CUSHIONS, KAPOK, STANDARD

NOTE: The following approval is terminated because the manufacturer is no longer in business.

Termination of Approval No. 160.007/74/0, Standard kapok buoyant cushion, U. S. C. G. Specification Subpart 160.007, manufactured by Distin Boat Co., Inc., Saranac Lake, N. Y. (Approved FEDERAL REGISTER dated October 2, 1948.)

(R. S. 4405, 4491, 54 Stat. 164, 166, as amended; 46 U. S. C. 375, 489, 526e, 526p; 46 CFR 25.4–1, 160.007)

VALVES, SAFETY

NOTE: The following approvals are terminated because they do not comply with the requirements of power boiler safety valves.

Termination of Approval No. 162.001/85/0, Cat. No. 2501, Crane Co. pop safety valve, bronze body and bonnet, enclosed spring, single lifting lever, screwed inlet and outlet, maximum working pressure 30 p. s. i., dwg. No. A–24144, Rev. B, approved for sizes 1½'' and 2'' diameters, sizes ¾'', 1'', and 1¼'' diameter are approved only for heating boiler service, manufactured by Crane Co., 836 South Michigan Avenue, Chicago 5, Ill. (Approved FEDERAL REGISTER dated July 1, 1948.)

Termination of Approval No. 162.001/87/0, Series 70, cast iron body pop safety valve, enclosed spring, expanded outlet, maximum working pressure 30 p. s. i., maximum temperature 450° F., limited to installation on heating boilers and evaporators, not permitted on power boilers, dwg. No. P–20119, approved for sizes 1½'', 2'', 2½'', 3'', and 4'', manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa. (Approved FEDERAL REGISTER dated August 28, 1948.)

Termination of Approval No. 162.001/88/0, Series 70E, cast iron body pop safety valve, exposed spring, expanded outlet, maximum working pressure 30 p. s. i., maximum temperature 450° F., limited to installation on heating boilers and evaporators, not permitted on power boilers, dwg. No. P–20120, approved for sizes 1½'', 2'', 2½'', 3'', and 4'', manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa. (Approved FEDERAL REGISTER dated August 28, 1948.)

Termination of Approval No. 162.001/89/0, Series 72 cast iron body pop safety valve, enclosed spring, standard outlet, maximum working pressure 30 p. s. i., maximum temperature 450° F., limited to installation on heating boilers and evaporators, not permitted on power boilers, dwg. No. P–20119, approved for sizes 1½'', 2'', 2½'', 3'', and 4'', manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa. (Approved FEDERAL REGISTER dated August 28, 1948.)

Termination of Approval No. 162.001/90/0, Series 72E cast iron body pop safety valve, exposed spring, standard outlet, maximum working pressure 30 p. s. i., maximum temperature 450° F., limited to installation on heating boilers and evaporators, not permitted on power boilers, dwg. No. P–20120, approved for sizes 1½'', 2'', 2½'', 3'', and 4'', manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa. (Approved FEDERAL REGISTER dated August 28, 1948.)

Termination of Approval No. 162.001/100/0, Series 5, bronze body pop safety valve, enclosed spring, screwed inlet and outlet, 30 pounds per square inch maximum pressure, 366° F. maximum temperature, limited to installation on heating boilers and evaporators, not permitted on power boilers, dwg. No. D–5L–2½, approved for sizes ¾'', 1'', 1¼'', 1½'', 2'', 2½'', and 3'', manufactured by Marine & Industrial Products Co., 3731 Filbert Street, Philadelphia 4, Pa. (Approved FEDERAL REGISTER dated Feb. 19, 1949.)

(R. S. 4405, 4417a, 4418, 4426, 4433, 4491, 49 Stat. 1544, 54 Stat. 346, and sec. 5 (e), 55 Stat. 244, 245, as amended; 46 U. S. C. 367, 375, 391a, 392, 404, 411, 489, 1333, 50 U. S. C. App. 1275; 46 CFR 52.65)

INCOMBUSTIBLE MATERIALS

NOTE: The following approval is terminated because the incombustible material has been incorporated with Approval No. 164.009/10/2.

Termination of Approval No. 164.009/19/0, Fiberglas Insulation Type TW–MC–611, glass wool insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG 10210–1624:FP2806, dated August 9, 1949, approved in a 2 pound per cubic foot density, manufactured by Owens-Corning Fiberglas Corp., Toledo 1, Ohio. (Approved FEDERAL REGISTER dated October 7, 1949.)

(R. S. 4405, 4417a, 4426, 49 Stat. 1384, 1544, 54 Stat. 1028, sec. 5 (e), 55 Stat. 244, as amended; 46 U. S. C. 367, 369, 375, 391a, 404, 463a, 50 U. S. C. 1275; 46 CFR 164.009)

CONDITIONS OF TERMINATION OF APPROVAL

The termination of approvals of equipment made by this document shall be made effective upon the thirty-first day after the date of publication of this document in the FEDERAL REGISTER. Notwithstanding this termination of approval on any item of equipment, such equipment in service before the effective date of termination of approval may be used so long as it is in good and serviceable condition.

Dated: October 7, 1952.

[SEAL] A. C. RICHMOND,
Rear Admiral, U. S. Coast Guard, Acting Commandant.

[CGFR 52–47]

COAST GUARD PORT SECURITY CARDS

The United States Coast Guard is authorized to issue Coast Guard Port Security Cards as one means of identification of persons regularly employed on vessels or on waterfront facilities or of persons having regular public or private business connected with the operation, maintenance, or administration of vessels, their cargoes, or waterfront facilities. The practice is to limit the validity of these Coast Guard Port Security Cards to 2 years from date of issuance. It is not deemed appropriate or necessary to require the rescreening of holders of Coast Guard Port Security Cards and the reissuance of such cards at this time. By virtue of the authority vested in me as Commandant, United States Coast Guard, by 33 CFR 6.10–7 in Executive Order 10173, as amended by Executive Orders 10277 and 10352 (15 F. R. 7005, 7007, 7008, 16 F. R. 7537, 7538, 17 F. R. 4607), notice is given to holders of Coast Guard Port Security Cards (Form CG 2514) that the period of validity of such cards issued on or before June 30, 1952, 2 years from date of issue as shown on the reverse side thereof, is hereby extended for two additional years. New Coast Guard Port Security Cards will not be issued, and Coast Guard personnel and others concerned shall honor such outstanding cards issued on or before June 30, 1952, unless sooner surrendered or canceled by proper authority, for a period of 4 years from date of issue.

Dated: October 7, 1952.

[SEAL] A. C. RICHMOND,
Rear Admiral, U. S. Coast Guard, Acting Commandant.

OREGON

NOTICE OF FILING OF PLAT OF SURVEY

OCTOBER 2, 1952.

Notice is hereby given that the plat of dependent resurvey and extension survey of T. 39 S., R. 27 E., Willamette Meridian, Oregon, accepted September 13, 1951, will be officially filed in the Land Office, Portland, Oregon, effective at 10:00 a. m., on the 35th day after the date of this notice.

The above plat represents (1) a retracement and reestablishment of the original township boundary and subdivisional lines as shown by plat approved November 15, 1881, designed to restore the corners in their original locations according to the best available evidence, (2) relottings of previously surveyed lands in sections 10, 14, 15, 22, 23, 26, 27, 34, 35, and 36, as shown by plat approved November 15, 1881, and (3) an extension of surveys over the dry bed of Guano Lake in the above-described sections.

In terms of the subsisting plat of survey, the lands in the above-described sections are now described as follows:

WILLAMETTE MERIDIAN

T. 39 S., R. 27 E.,
Sec. 10, Lots 7 to 21 inclusive,
Sec. 14, Lots 5 to 20 inclusive,
Sec. 15, Lots 5 to 20 inclusive,
Sec. 22, Lots 5 to 20 inclusive,
Sec. 23, Lots 5 to 20 inclusive,
Sec. 26, Lots 5 to 20 inclusive,
Sec. 27, Lots 2 to 17 inclusive,
Sec. 34, Lots 3 to 18 inclusive,
Sec. 35, Lots 3 to 18 inclusive,
Sec. 36, Lots 3 and 4.

The area described aggregates 5,796.62 acres.

Public Water Reserve No. 107

By order of April 17, 1926 (Interpretation No. 211 of November 19, 1934—No. 1218080), certain lands in section 34 were included in this withdrawal. The above plat shows relottings of previously surveyed lands in this section as shown by plat approved November 15, 1881. In terms of the subsisting plat of survey, the withdrawn lands are now described as follows:

WILLAMETTE MERIDIAN

T. 39 S., R. 27 E.,
Sec. 34, Lots 11 to 18 inclusive.

The area described aggregates 321.52 acres.

All of the above-described lands are within the exterior boundaries of Grazing District No. 1.

The lands will not be available for filing of applications under the public land laws, including the mining laws, until an order opening them to such application and entry is published in the FEDERAL REGISTER.

Anyone having a valid settlement or other right to any of the lands initiated prior to the survey of the lands should assert the same within 3 months from the date on which the plats are officially filed, by filing an application under the appropriate public land law setting forth all facts relevant thereto.

All inquiries relating to these lands should be addressed to the Manager, Land Office, Portland 18, Oregon.

FRANCES A. PATTON,
Manager.

Southwestern Power Administration

[SPA General Order 83]

CHIEF, DIVISION OF ADMINISTRATION ET AL.

DELEGATIONS OF AUTHORITY WITH RESPECT TO EXECUTION OF CONTRACTS

AUGUST 27, 1952.

SECTION 1. *Revocation.* SPA General Order No. 66, August 14, 1951 (16 F. R. 9666) is revoked.

SEC. 2. *Contracts and leases.* The following authority, with respect to contracts and leases, is redelegated pursuant to, and subject to the provisions of, Order No. 2509, as amended.

.01 *Contractual authority.* (a) The Chief, Division of Administration, and the Supply Officer may, irrespective of the amount involved, enter into contracts for construction, supplies, or services, including, but not limited to, contracts for land surveys, contracts for architectural, structural, or electrical plans or designs, and contracts for the procurement of transformers and oil circuit breakers.

(b) The Chief, Procurement Section, may, irrespective of the amount involved, enter into contracts for services or supplies except contracts for land surveys, contracts for architectural, structural, or electrical plans or designs, and contracts for the procurement of transformers and oil circuit breakers.

.02 *Change orders.* With respect to contracts entered into by them, any of the officials named in subsection .01 of this section may issue change orders and extra work orders pursuant to such contracts, enter into modifications of such contracts, and terminate such contracts when legally permissible; but a change order to a construction contract (Standard Form No. 23), involving an estimated increase or decrease of more than $500.00, must be approved in writing by the Administrator.

.03 *Leases.* The Chief, Division of Administration, the Supply Officer, and the Chief, Procurement Section, may exercise the authority of the Administrator with respect to leases.

SEC. 3. *Effective date.* This order shall be effective on and from September 30, 1952.

JAMES V. ALFRIEND,
Acting Administrator.

SIDNEY LIVESTOCK COMMISSION CO.

DEPOSTING OF STOCKYARD

It has been ascertained that the Sidney Livestock Commission Company, Sidney, Nebraska, originally posted on January 10, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it no longer meets the area requirements. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which no longer meets the area requirements of the act and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 8th day of October 1952.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

Federal Maritime Board

[Docket No. M–55 (Sub. No. 1)]

BAREBOAT CHARTERS OF GOVERNMENT-OWNED, WAR-BUILT, DRY-CARGO VESSELS AUTHORIZED UNDER PUB. LAW 591, 81ST CONG., IN EFFECT ON JUNE 30, 1952

ANNUAL REVIEW

In accordance with section 3 (e) of Public Law 591, 81st Congress, an annual review has been made of bareboat charters of government-owned, war-built, dry-cargo vessels authorized under said law and in effect on June 30, 1952.

By order of the Board, dated July 2, 1952, the Federal Maritime Board tentatively found that conditions exist justifying the continuance of the following charters under the conditions previously certified by the Federal Maritime Board:

TABLE I

Charterer	Vessel	Docket No.	Date vessel delivered
Luckenbach-Gulf Steamship Co., Inc.	Pine Bluff Victory	M–14	Mar. 28, 1951
	Wayne Victory	M–14	Apr. 23, 1951
	Red Oak Victory	M–50	Feb. 11, 1952
Pacific Atlantic Steamship Co.	Jeremiah S. Black	M–43	May 1, 1951
	Elmer A. Sperry	M–43	Feb. 15, 1951
	Thomas Nuttall	M–43	Oct. 27, 1951
Pope & Talbot, Inc.	Pere Marquette	M–42	Feb. 23, 1951
	Albert S. Burleson	M–42	Apr. 10, 1951
	M. M. Guhin	M–42	Apr. 2, 1951
Alaska Steamship Co.	Coastal Monarch	M–11	Aug. 9, 1948
	Sailors Splice	M–11	Apr. 27, 1949
	Coastal Rambler	M–11	Aug. 18, 1948
	Lucidor	M–11	Dec. 16, 1948
	Palisana	M–11	Do.
	Flemish Knot	M–11	July 26, 1948
	Square Knot	M–11	July 6, 1948
	Square Sinnet	M–11	Aug. 1, 1948
	Ring Splice	M–11	Jan. 14, 1949
	John H. Quick	M–31	June 4, 1951
	George D. Prentice	M–31	July 2, 1951
	Tarleton Brown	M–24	Apr. 3, 1951
Coastwise Line	John W. Burgess	M–24	Apr. 13, 1951
	Charles Crocker	M–30	May 28, 1951
	Lightning	M–27	Apr. 16, 1951
American President Lines	Shooting Star	M–32	May 23, 1951
	Anchorage Victory	M–20	Mar. 7, 1951
	Cuba Victory	M–51	Feb. 20, 1952
Farrell Lines	Vanderbilt Victory	M–52	Apr. 18, 1952
	Brigham Victory	M–52	Apr. 22, 1952
Grace Line, Inc.	Gunners Knot	M–9	Sept. 15, 1946
	Coastal Nomad	M–9	Dec. 23, 1946
	Coastal Adventurer	M–9	Jan. 21, 1947
	Anchor Hitch	M–9	Jan. 3, 1947
	Roswell Victory	M–21	Oct. 31, 1951
Lykes Bros. Steamship Co.	Cedar Rapids Victory	M–21	Dec. 5, 1951
	Denison Victory	M–35	Oct. 8, 1951
	Drake Victory	M–35	Nov. 2, 1951
	Barre Victory	M–37	Nov. 30, 1951
	Cape Horn	M–36	Sept. 14, 1951
Mississippi Shipping Co.	Contest	M–10	Apr. 27, 1947
Pacific Far East Line	Flying Dragon	M–10	May 8, 1947
	Surprise	M–10	Dec. 20, 1948
	Trade Wind	M–10	Jan. 20, 1949
	Fleetwood	M–10	Dec. 27, 1948
	Flying Scud	M–10	Dec. 10, 1948
	Sea Serpent	M–27	Mar. 28, 1951
	Bucyrus Victory	M–26	Aug. 17, 1951
	Lindenwood Victory	M–34	July 27, 1951
Prudential Steamship Corp.	Clarksville Victory	M–45	Jan. 29, 1952
South Atlantic Steamship Line	Anniston Victory	M–33	July 18, 1951
	High Point Victory	M–33	Aug. 30, 1951

Notice of the foregoing order was served on all interested parties and was published in the FEDERAL REGISTER on July 10, 1952.

Since the date of the Board's tentative findings, notices of termination have been received with respect to the following vessels:

TABLE II

Charterer	Vessel	Docket No.	Date vessel delivered
Pope & Talbot, Inc.	Pere Marquette	M–42	Feb. 23, 1951
American President Lines	Cuba Victory	M–51	Feb. 20, 1951
Farrell Lines	Vanderbilt Victory	M–52	Apr. 18, 1952
	Brigham Victory	M–52	Apr. 22, 1952
Lykes Bros. Steamship Co.	Roswell Victory	M–21	Oct. 31, 1951
	Cedar Rapids Victory	M–21	Dec. 5, 1951
	Denison Victory	M–35	Oct. 8, 1951
	Drake Victory	M–35	Nov. 2, 1951
	Barre Victory	M–37	Nov. 30, 1951
Pacific Far East Line	Bucyrus Victory	M–26	Aug. 17, 1951
South Atlantic Steamship Line	Anniston Victory	M–33	July 18, 1951
	High Point Victory	M–33	Aug. 30, 1951

A protest was subsequently filed on behalf of the Committee for the Promotion of Tramp Shipping opposing the continuance of certain charters. On July 29, 1952, the Board ordered a hearing (Docket No. M–55) on the charters placed in issue by the Committee for the Promotion of Tramp Shipping. These charters will be the subject of a report by the Board to be issued at a later date. No objections to the tentative findings of the Board were filed with respect to the following charters:

TABLE III

Charterer	Vessel	Docket No.	Date vessel delivered
Luckenbach-Gulf Steamship Co.	Pine Bluff Victory	M–14	Mar. 28, 1951
	Wayne Victory	M–14	Apr. 23, 1951
Alaska Steamship Co.	Red Oak Victory	M–50	Feb. 11, 1952
	Coastal Monarch	M–11	Aug. 9, 1948
	Sailors Splice	M–11	Apr. 27, 1949
	Coastal Rambler	M–11	Aug. 18, 1948
	Lucidor	M–11	Dec. 16, 1948
	Palisana	M–11	Do.
	Flemish Knot	M–11	July 26, 1948
	Square Knot	M–11	July 6, 1948
	Square Sinnet	M–11	Aug. 1, 1948
	Ring Splice	M–11	Jan. 14, 1949

Mississippi Shipping Co.	Cape Horn	M–36	Sept. 14, 1951
Pacific Far East Line	Contest	M–10	Apr. 27, 1947
	Flying Dragon	M–10	May 8, 1947
	Surprise	M–10	Dec. 20, 1948
	Trade Wind	M–10	Jan. 20, 1949
	Fleetwood	M–10	Dec. 27, 1948
	Flying Scud	M–10	Dec. 10, 1948
	Sea Serpent	M–27	Mar. 28, 1951

Findings, certifications, and recommendations. On the basis of evidence considered by the Board, the Federal Maritime Board finds and hereby certifies to the Secretary of Commerce that conditions exist justifying the continuance of the charters listed in Table III, above, upon the conditions originally certified by the Federal Maritime Board.

Dated: October 3, 1952.

By order of the Board.

[SEAL] A. J. WILLIAMS, *Secretary.*

[F. R. Doc. 52–11038; Filed, Oct. 10, 1952; 8:54 a. m.]

National Production Authority

[Suspension Order 33; Docket No. 26]

MARDIGIAN CORP.

SUSPENSION ORDER

A hearing having been held in the above-entitled matter on the 5th day of August 1952, before Harrison W. Ewing, a hearing commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority, and an answer thereto, in accordance with National Production Authority General Administrative Order 16–06 (16 F. R. 8628), and Implementation 1 to National Production Authority General Administrative Order 16–06 (16 F. R. 8799), redesignated as R. P. 1—Rules of Practice Before Hearing Commissioners (16 F. R. 8894), and upon a stipulation of facts with annexed exhibits, and affidavit filed herein on behalf of the respondents; and

The respondents, Mardigian Corporation, a corporation, and Edward Mardigian, as president and treasurer of said Mardigian Corporation and individually, and Rudolph Stonisch, as vice president of said Mardigian Corporation and individually, having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings; and the said respondents, Mardigian Corporation, a corporation, and Edward Mardigian and Rudolph Stonisch as officers of said corporation and individually, being represented by Messrs. Kramer and Mellen, attorneys at law, of Detroit, Mich.; and evidence having been offered and received in respect to the charges; and the hearing commissioner being advised in the premises, it is hereby determined:

Findings of fact. 1. The respondent, Mardigian Corporation, is, and during the period covered by the charges herein was, a manufacturing corporation organized and existing under the laws of the State of Michigan, and having its principal office and place of business at Detroit, Mich.

2. The business of said Mardigian Corporation includes, and during said period included, the production of aluminum cooking utensils, otherwise known as cook ware, from aluminum in controlled forms, and also includes and included the manufacture, both on Government defense contracts and for civilian use, of products made from materials other than aluminum. Aluminum is the only controlled material used by said respondent in the manufacture of cooking utensils. No aluminum has been or is presently used by said corporation in manufacturing products required by said Government defense contracts or in manufacturing said other products for civilian use.

3. During the month of January 1951, said Mardigian Corporation committed acts prohibited by section 26.25 (b), of National Production Authority Order M–7, as amended December 1, 1950 (15 F. R. 8576), in that the said Mardigian Corporation used 278,289 pounds of aluminum in manufacture, while lawfully entitled to use only 185,557 pounds thereof, and thereby used during said month 92,732 pounds of aluminum in excess of the quantity permitted by said regulation.

4. During the calendar quarter year beginning April 1, 1951, said Mardigian Corporation committed acts prohibited by section 5 (c) of National Production Authority Order M–7, as amended March 9, 1951 (16 F. R. 2337), March 31, 1951 (16 F. R. 2922), April 16, 1951 (16 F. R. 3118), April 20, 1951 (16 F. R. 3510), and June 1, 1951 (16 F. R. 5259), in that the said Mardigian Corporation used 803,934 pounds of aluminum in manufacture, while lawfully entitled to use only 452,295 pounds thereof, and thereby used during said period 351,639 pounds of aluminum in excess of the quantity permitted by said regulation.

5. During the calendar quarter year beginning July 1, 1951, said Mardigian Corporation committed acts prohibited by section 4 (a), of National Production Authority Order M–47A, dated July 1, 1951 (16 F. R. 6029), as amended August 2, 1951 (16 F. R. 7679), in that the said Mardigian Corporation used 452,584 pounds of aluminum in manufacture or assembly, while lawfully entitled to use only 347,920 pounds thereof, and thereby used during said period 104,664 pounds of aluminum in excess of the quantity permitted by said regulation.

6. Said Mardigian Corporation committed acts prohibited by section 19 (f), of CMP Regulation No. 1, as amended July 12, 1951 (16 F. R. 6800), August 1, 1951 (16 F. R. 7610), August 22, 1951 (16 F. R. 8548), October 1, 1951 (16 F. R. 10082), and November 23, 1951 (16 F. R. 11860), in that the said Mardigian Corporation, having received an authorized production schedule and an allotment of 139,238 pounds of aluminum for use during the fourth quarter of 1951, used said allotment to place orders for a total of 294,570 pounds of aluminum, a controlled material, and thereby placed controlled material orders for said quarter for 155,332 pounds of aluminum in excess of said allotment.

7. During the fourth quarter of 1951 said Mardigian Corporation committed acts prohibited by section 1 of Direction 3, issued June 25, 1951 (16 F. R. 6032), to CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended July 12, 1951 (16 F. R. 6800), August 1, 1951 (16 F. R. 7610, August 14, 1951 (16 F. R. 8109), August 22, 1951 (16 F. R. 8548), September 17, 1951 (16 F. R. 9518), October 1, 1951 (16 F. R. 10082), and November 23, 1951 (16 F. R. 11860), in that the said Mardigian Corporation placed orders during the said fourth quarter of 1951 which requested delivery in the months of October 1951 and November 1951, of controlled materials, to wit: aluminum in excess of the amounts allowable in any 1 month during said quarter, and in greater amounts than was permitted by the aforesaid regulations, and in greater amounts and on earlier dates than was required to fulfill its authorized production schedule for said fourth quarter of 1951.

8. Said Mardigian Corporation committed acts prohibited by section 23 (a) and (b) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), and as amended July 12, 1951 (16 F. R. 6800), August 1, 1951 (16 F. R. 6800), August 22, 1951 (16 F. R. 8548), October 1, 1951 (16 F. R. 10082), November 23, 1951 (16 F. R. 11860), January 5, 1952 (17 F. R. 201), and March 31, 1952 (17 F. R. 2847), in that during the period from May 3, 1951, to July 10, 1952, said Mardigian Corporation failed to maintain accurate records of all allotments received, of pro-

curement pursuant to all allotments, and of the subdivision of all allotments among its direct secondary consumers, and failed to segregate and keep separately by allotment numbers, and to file in such manner that they could be segregated regularly, and made available for inspection, all documents on which it relied as entitling it to receive or make an allotment or to accept delivery or to deliver controlled materials or Class A products.

9. During the period beginning July 1, 1951, and ending September 30, 1951, said Mardigian Corporation committed acts prohibited by section 1 of CMP Regulation No. 5, dated July 17, 1951 (16 F. R. 6936), as amended August 10, 1951 (16 F. R. 7989), in that the said Mardigian Corporation used the procedure provided in said CMP Regulation No. 5 to obtain MRO (Maintenance, Repair, and Operating) materials in excess of 20 percent of its MRO quota, and obtained materials for MRO purposes costing $84,338.00 when it was not permitted to exceed a cost of $44,250.30 for such materials.

10. There is no evidence tending to show that, as charged respectively in charges numbered 2, 4, 6, 8, 10, 12, and 14 in the statement of charges in the above-entitled proceeding, the individual respondents named in said charges, or any of them, directed and supervised, or participated in, any of the acts or omissions recited in the foregoing findings of fact, numbered from 3 to 9, inclusive, or that said individual respondents or any of them had actual knowledge of any of said acts or omissions.

Conclusions. 1. During the various periods respectively shown by the foregoing findings of fact, the above-named Mardigian Corporation violated the orders and regulations of the National Production Authority, cited respectively in said findings of fact as follows:

(a) By using in manufacture and assembly for civilian use a total of 549,035 pounds of controlled materials, namely aluminum, in excess of the quantities and total permitted by the orders and regulations of the National Production Authority cited in said respective findings of fact and applicable during said respective periods;

(b) By placing controlled materials orders during and for the fourth quarter of 1951 for 155,332 pounds of aluminum in excess of its allotment for said period;

(c) By placing orders during the fourth quarter of 1951 which requested delivery of controlled materials, namely, aluminum, in the months of October 1951 and November 1951 in excess of the amounts permitted by said regulations in any 1 month of said quarter, and by placing orders which requested delivery of controlled materials, namely, aluminum, in the months of October 1951 and November 1951 in greater amounts and on earlier dates than was required to fulfill its authorized production schedule for said fourth quarter of 1951.

(d) By failing during the period from May 3, 1951, to July 10, 1952, to maintain accurate records of all allotments received, of procurement pursuant to all allotments, and of the subdivision of all allotments among its direct secondary consumers, and by failing to segregate and keep separately by allotment numbers, and to file in such manner that they could be segregated readily and made available for inspection, all documents on which it relied as entitling it to receive or make an allotment or to accept delivery or to deliver controlled materials or Class A products.

(e) By using the procedure provided in CMP Regulation No. 5, as amended August 10, 1951, to obtain during the third quarter of 1951 MRO (Maintenance, Repair, and Operating) materials in excess of 20 percent of its MRO quota, to wit: by obtaining materials during said quarter for MRO purposes costing $84,338.00 when it was not permitted to exceed a cost for such materials of $44,250.83.

2. The evidence does not establish that any of the individuals named as officers of said corporation and individually in charges nos. 2, 4, 6, 8, 10, 12, and 14 supervised and directed, as stated in said charges, or participated in any manner in the acts, omissions, and violations recited in the foregoing conclusions and further covered by findings of fact numbered 3 to 9, inclusive.

In order to correct the unauthorized use of aluminum shown by the violations found herein, and in order to prevent future violations by the respondent, Mardigian Corporation, of regulations, orders, and directives of the National Production Authority,

It is accordingly ordered:

1. That the allocations and allotments of aluminum to Mardigian Corporation, a corporation, for the fourth quarter of 1952, now apparently totaling 532,500 pounds, are hereby recalled and ordered to be modified and reduced by deducting and withholding therefrom 274,518 pounds.

2. That the allocation and allotments of aluminum projected to be made to the Mardigian Corporation, a corporation, for the first quarter of 1953, estimated to total 487,500 pounds are hereby directed to be modified and reduced by deducting and withholding therefrom 274,517 pounds.

3. That except in the event that said Mardigian Corporation received additional allotment or additional allotments or allocations, and excepting such aluminum as said corporation may require to fill orders rated 10–A, B, C, E, and Z–2, B–5 and DX, said Mardigian Corporation shall not use in civilian production more than 257,982 pounds of aluminum during the fourth quarter of 1952, nor more than 213,983 pounds of aluminum during the first quarter of 1953.

4. That said Mardigian Corporation is hereby ordered and required forthwith to report and return to the control of the National Production Authority any aluminum which it may have ordered, or of which it has received actual delivery under authority of its said allotments for the fourth quarter of 1952, in excess of the quantity which it is entitled to receive and use under the preceding paragraph of this order.

As to each and all of the corporate officers of said Mardigian Corporation named officially and individually as respondents in the statement of charges herein, this proceeding is hereby terminated and closed.

Issued at Cleveland, Ohio, this 26th day of September 1952.

NATIONAL PRODUCTION AUTHORITY,
By HARRISON W. EWING,
Hearing Commissioner.

DEFENSE MATERIALS PROCUREMENT AGENCY

[Delegation No. 15]

ADMINISTRATOR OF GENERAL SERVICES

DELEGATION OF AUTHORITY TO PURCHASE BERYL ORE OF DOMESTIC ORIGIN

1. Pursuant to the authority vested in me as Defense Materials Procurement Administrator by Executive Order No. 10281 of August 28, 1951 (16 F. R. 8789), and the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., and Pub. Laws 69, 96 and 429, 82d Cong.), and other applicable law, I hereby delegate to the Administrator of General Services the authority to purchase, for Government use and resale, beryl ore, of domestic origin, under the terms, conditions and policies set forth in regulations of even date herewith prescribed by the Administrator of General Services for the administration of the functions hereby delegated.

2. The functions delegated hereby shall be carried out in accordance with such policies as may be established by the Defense Materials Procurement Administrator.

3. The authority hereby delegated may be redelegated to officers and employees of the General Services Administration, with or without authority for further redelegation.

4. This delegation is effective as of the date hereof.

Dated: October 7, 1952.

JESS LARSON,
Defense Materials Procurement Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1460]

NATIONAL ALFALFA DEHYDRATING AND MILLING CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 7th day of October A. D. 1952.

The Philadelphia-Baltimore Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, $1 Par Value, of National Alfalfa Dehydrating and Milling Company, a security registered and listed on the Midwest Stock Exchange and on the New York Curb Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to October 28, 1952, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[File No. 54–191]

STANDARD GAS AND ELECTRIC CO. AND PHILADELPHIA CO.

ORDER APPROVING PLAN

OCTOBER 1, 1952.

Standard Gas and Electric Company ("Standard"), a registered holding company, and Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard, having filed an application pursuant to section 11 (e) of the act for approval of a plan, as amended, providing for the liquidation and dissolution of Standard or for its ceasing to have any interest in system companies;

Step I of the said plan providing for the retirement of the Prior Preference Stock of Standard through the allocation to the holders thereof of common stocks of operating utility subsidiaries of Standard, and Step I–A dealing with a joint proposal filed by Standard and Standard Power and Light Corporation ("Power"), a registered holding company of which Standard and Philadelphia are subsidiaries, for the settlement of all claims between Standard and Power except for Power's holdings of stock of Standard;

Public hearings having been duly held after appropriate notice with respect to Steps I and I–A, at which hearings all interested persons were afforded an opportunity to be heard;

Standard and Power having requested that the Commission's order approving Steps I and I–A, at which hearings all cordance with the requirements of the Internal Revenue Code, as amended, including Supplement R and section 1808 (f) thereof;

Standard and Power having further requested the Commission, pursuant to section 11 (e) of the act, to apply to a United States District Court to enforce and carry out the terms and provisions of Steps I and I–A of the plan; and

The Commission having considered the entire record in this matter and having this day filed its Findings and Opinion herein finding that Steps I and I–A are necessary to effectuate the provisions of section 11 (b) of the act and are fair and equitable to the persons affected thereby;

It is ordered, On the basis of the record herein and said Findings and Opinion, pursuant to section 11 (e) and other applicable provisions of the act, that said Steps I and I–A be and they hereby are approved, subject to the terms and conditions contained in Rule U–24 of the general rules and regulations promulgated under the act and to the following additional terms and conditions:

1. That this order shall not be operative to authorize the consummation of the transactions proposed in Steps I and I–A until an appropriate United States District Court shall, upon application thereto, enter an order enforcing Steps I and I–A;

2. That Standard and Power shall pay only such fees and expenses in connection with Steps I and I–A and the proceedings relating thereto as the Commission may approve on appropriate application made to it, and jurisdiction hereby is specifically reserved to determine the reasonableness and appropriate allocation of all fees and expenses and other remuneration incurred or to be incurred in connection with the plan, the transactions incident thereto, and the proceedings thereon and related thereto;

3. That prior to the distribution by Standard of the shares of common stock of Oklahoma Gas and Electric Company ("Oklahoma") and of Wisconsin Public Service Corporation ("Wisconsin"), pursuant to Step I, Standard shall secure from those companies a commitment, in a form satisfactory to and to be filed with the Commission, that Wisconsin and its subsidiaries, on the one hand, and Oklahoma and its subsidiaries, on the other, shall not at any time have, as an officer or director, a person who is also an officer or director of any company presently or formerly in the Power holding company system;

4. That the 31,000 shares of common stock of Duquesne Light Company ("Duquesne") to be acquired by Power pursuant to Step I–A shall be held by Power subject to the Commission's Order, dated June 19, 1942, requiring Power to liquidate and dissolve.

5. That the exchange agent provided for in Step I shall not make any exchanges until further order of this Commission with respect to securities held by Mrs. Mayme E. O'Hara and any other person to be specified by this Commission.

6. That jurisdiction be, and it hereby is, specifically reserved with respect to the following matters:

a. The selection and composition of the boards of directors of Oklahoma, Wisconsin and Duquesne;

b. The supervision of efforts to locate holders of securities to be exchanged under the provisions of Steps I and I–A;

c. The appropriateness of the accounting entries to be made by Standard and Power in recording the transactions incident to the consummation of Steps I and I–A;

d. The selection of the exchange agent provided for in Step I, Standard not to appoint an exchange agent until it has notified the Commission of the agent proposed to be employed and the manner by which such proposed agent was selected and the Commission has entered a further order herein releasing jurisdiction with respect to the agent proposed to be employed;

e. The terms, conditions, and procedures under which the exchange agent may buy or sell any shares for the purpose of carrying out the provisions of Step I;

f. The participation in the exchange of securities pursuant to Step I by Mrs. Mayme E. O'Hara or any officer or director of Standard or Power and their families or associates; and

g. The entertaining of such further proceedings, entering of such further orders and the taking of such further action as may be necessary or appropriate in connection with Steps I and I–A, the transactions incident thereto, and the consummation thereof.

It is further ordered and recited, That all steps and transactions involved in the consummation of Steps I and I–A, including particularly the transfers, conveyances, exchanges, issuances, expenditures, investments, distributions and receipts hereinafter described and recited in subparagraphs I through VIII below, are hereby authorized and approved and are necessary or appropriate to the integration or simplification of the holding company system of which Standard and Power are members, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the act, all in accordance with the meaning and requirements of Supplement R of the Internal Revenue Code, as amended, and section 1808 (f) thereof, the stock and other securities and other property to be transferred, conveyed, exchanged, issued, distributed and received upon such transactions, and the expenditures and investments to be made, being specified and itemized as follows:

I. The issuance and sale by Wisconsin to Standard of 218,070 shares of the Common Stock of Wisconsin, and the payment by Standard to Wisconsin, as consideration therefor of the sum of $2,600,000 in cash: *Provided*, That the authorization and approval of such issuance and sale hereby granted shall be subject to the further action of this Commission upon the application-declaration relating, among other things, to such issuance and sale, filed by Wisconsin, Standard and Menominee and Marinette Light and Traction Company ("Menominee") in File No. 70–2932.

II. The execution and delivery by and between Wisconsin and Menominee, on

the one hand, and Standard, on the other, of an agreement relating to Federal income and excess profits taxes for the periods in which Wisconsin and/or Menominee were included in consolidated Federal tax returns filed for Standard and other companies in the Standard system, in the form filed as an amended exhibit in this proceeding, the payment by Wisconsin and Menominee, respectively, to Standard of the sums provided therein by the initial cash payment therein provided and by the execution by Wisconsin and Menominee (or by Wisconsin alone, if Wisconsin shall so determine) and delivery by them or it to Standard of the promissory notes provided for by said agreement, the distribution to Standard by Wisconsin and Menominee of such rights as Standard may acquire under said agreement to receive any refunds of consolidated Federal income and excess profits taxes and the performance by Wisconsin, Menominee and Standard of the acts and obligations on their parts to be performed under said agreement; provided that the authorization and approval hereby granted of the execution and delivery of such agreement and of the payment and distribution aforesaid shall be subject to the further action of this Commission upon the application-declaration relating, among other things, to such action, filed by Wisconsin, Standard and Menominee in File No. 70–2932.

III. The execution and delivery by and between Duquesne, Allegheny County Steam Heating Company ("Allegheny") and Cheswick and Harmar Railroad Company ("Cheswick"), on the one hand, and Philadelphia, on the other, of agreements relating to Federal income and excess profits taxes for the periods (ending on or prior to December 31, 1950) in which Duquesne, Allegheny, and/or Cheswick were included in consolidated Federal tax returns filed for Standard and other companies in the Standard system, in the forms filed as amended exhibits in this proceeding and heretofore approved in this order, the distribution to Philadelphia by Duquesne, Allegheny and Cheswick of such rights as Philadelphia may acquire under said agreements to receive any refunds of consolidated Federal income and excess profits taxes and the performance by Duquesne, Allegheny, Cheswick, and Philadelphia of the acts and obligations on their parts to be performed under said agreements.

IV. The transfer and payment by Standard to the holders of its 368,348 shares of $7 Prior Preference Stock (the term "holders of $7 Prior Preference Stock" wherever used in this order shall include and be applicable to Power to the extent of its holdings of such stock), in exchange for and retirement of each share presently outstanding and all dividends accrued and in arrears thereon to the effective date of the exchange, of 4.7 shares of Common Stock of Wisconsin, 2.9 shares of Common Stock of Oklahoma and 2.1 shares of Common Stock of Duquesne, together with cash in the amount computed as dividend adjustments under section 4 of Step I, scrip certificates to be issued and delivered in lieu of fractional shares as provided in Step I, and the transfer and delivery by the holders of said $7 Prior Preference Stock of Standard of said shares in exchange for said shares of Common Stock of Wisconsin, Oklahoma, and Duquesne, and/or scrip certificates therefor, and said cash.

V. The transfer and payment by Standard to the holders of its 100,000 shares of $6 Prior Preference Stock, in exchange for and retirement of each share presently outstanding and all dividends accrued and in arrears thereon to the effective date of the exchange, of 4.4 shares of Common Stock of Wisconsin, 2.6 shares of Common Stock of Oklahoma and 1.8 shares of Common Stock of Duquesne, together with cash in the amount computed as dividend adjustments under section 4 of Step I, scrip certificates to be issued and delivered in lieu of fractional shares as provided in Step I and the transfer and delivery by the holders of said $6 Prior Preference Stock to Standard of said shares in exchange for said shares of Wisconsin, Oklahoma and Duquesne and/or scrip certificates therefor, and said cash.

VI. The transfer and delivery by Standard to the exchange agent provided for by Step I, of the cash and 2,171,236 shares of Common Stock of Wisconsin (to be represented by Certificates Nos. 1046, 1068, 1069 and 1072 registered in the name of Standard), 1,328,210 shares of Common Stock of Oklahoma (to be represented by Certificates Nos. CNO 1949 and CNO 6303 registered in the name of Standard), and 953,531 shares of Common Stock of Duquesne (to be represented by Certificate No. PU1 registered in the name of Standard) referred to in subparagraphs IV and V above; the transfer of said certificates for said Common Stock of Wisconsin, Oklahoma and Duquesne to, and the registration of said stock in the name of said exchange agent or its nominees; the transfer and delivery by said exchange agent to said holders of $7 Prior Preference Stock and $6 Prior Preference Stock of Standard, upon the exchanges specified above, of said Common Stock of Wisconsin, Oklahoma and Duquesne (by certificates issued against, and upon transfer by said agent of part of the shares represented by, such certificates so to be registered in the name of said exchange agent or its nominees), scrip certificates for fractional interests in said Common Stocks, and cash; the issuance and delivery by said exchange agent to such holders of $7 and $6 Prior Preference Stock of Standard upon such exchanges, in lieu of any fractional shares of Common Stock of Wisconsin, Oklahoma or Duquesne to which they would otherwise be entitled, of scrip certificates for fractional shares of Wisconsin, Oklahoma and Duquesne Common Stock as provided in Step I; the transfer of such scrip certificates upon the sale thereof for the account of the holders of such scrip certificates; the transfer and delivery by said exchange agent to holders of such scrip certificates of shares of Common Stock to which they are entitled upon presentation (within the period provided in the plan, as amended, and said scrip certificates) of scrip certificates aggregating one or more full shares; the sale, transfer and delivery by said exchange agent, after the expiration of twelve months from the effective date of the exchange, of said shares of Common Stock of Wisconsin, Oklahoma and Duquesne held in respect of said scrip certificates, as well as additional shares of said Common Stocks estimated to be required to provide for fractional share interests in respect of certificates for Prior Preference Stock of Standard then remaining unexchanged, and the purchase by, and transfer and delivery to, said exchange agent of additional shares of said Common Stocks as required for adjustments under section 6 of Step I; the transfer and delivery to said exchange agent by the holders thereof of the aforesaid $7 and $6 Prior Preference Stock of Standard in the exchanges above described; the transfer and delivery to said exchange agent of said scrip certificates by the holders thereof in exchange for shares of Common Stock of Wisconsin, Oklahoma or Duquesne and/or cash; the payment by said exchange agent to such holders of $7 and $6 Prior Preference Stock of Standard and/or scrip certificates, at the time of delivery and transfer by it of shares of Common Stock of Wisconsin, Oklahoma or Duquesne as above provided and/or at the time of surrender of said scrip certificates after the expiration of twelve months from the effective date of the exchange, of any amounts received by said exchange agent as dividends upon the shares so delivered or upon the portions of the shares previously held in respect of said scrip certificates, plus their pro rata share, if any, of the proceeds of sale of any shares held for such scrip certificates and so sold, less any taxes which may have been imposed or paid on said dividends; and the transfer and delivery by said exchange agent to Standard of the certificates for the $7 and $6 Prior Preference Stock of Standard received by the exchange agent upon such exchanges.

VII. Upon the expiration of five years from the effective date of the exchange under Step I, (a) the transfer and delivery by said exchange agent to Standard of all certificates for shares of stock of Wisconsin, Oklahoma or Duquesne, as the case may be, and all cash deposited by Standard with the exchange agent as above provided or received by the exchange agent upon the sale of shares of such Common Stocks held in respect of scrip certificates or received by the exchange agent as dividends or otherwise upon any full shares of Common Stocks of Wisconsin, Oklahoma or Duquesne and which is then held by said exchange agent in respect of $7 or $6 Prior Preference Stock of Standard not theretofore surrendered for exchange or in respect of outstanding scrip certificates, or, (b) in the event that Standard shall then have been liquidated and dissolved, the sale, transfer and delivery by said exchange agent of said shares of Common Stock of Wisconsin, Oklahoma and Duquesne so held, and the delivery by the exchange agent of the cash received upon such sale or sales, together with any other cash received and held by it as aforesaid, to the exchange agent or other agent provided for by Step II of the plan, as amended, for distribution to the holders or former holders of Common Stock of Standard who may be entitled to receive the residual assets of Standard under said Step II.

VIII. The transfer and delivery by Standard to Power of 31,000 shares of Common Stock of Duquesne (to be represented by Certificate No. PU2 registered in the name of Standard) in exchange for, and in complete retirement and cancellation of, the unsecured promissory note of Standard, dated April 10, 1946, in the principal amount of $983,930 presently held by Power, and the transfer and delivery by Power to Standard of said promissory note in exchange for said 31,000 shares of Common Stock of Duquesne.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Region V, Redelegation of Authority No. 27, Revision 1, Correction]

DIRECTORS OF DISTRICT OFFICES, REGION V, ATLANTA, GA.

REDELEGATION OF AUTHORITY TO ACT UNDER CPR 98, AS AMENDED

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization Region V, Atlanta, Georgia, pursuant to Delegation of Authority 53, as amended (17 F. R. 1236, 17 F. R. 5971), this correction of Redelegation of Authority No. 27, Revision 1, is hereby issued.

Due to a typographical error, the designation of the appropriate delegation of authority set forth in the authorization paragraph is incorrect. Accordingly, the first paragraph of Redelegation of Authority No. 27, Revision 1, is corrected to read as follows:

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, Region V, Atlanta, Georgia, pursuant to Delegation of Authority 53, as amended (17 F. R. 1236, 5971), this correction to Redelegation of Authority No. 27, Revision 1, is hereby issued.

This correction is effective as of September 15, 1952.

GEORGE D. PATTERSON, Jr., *Director of Regional Office V.*

[Region VII, Redelegation of Authority No. 27, Amdt. 1]

DIRECTORS OF DISTRICT OFFICES, REGION VII, CHICAGO, ILL.

REDELEGATION OF AUTHORITY TO ACT ON APPLICATIONS PERTAINING TO CERTAIN ITEMS OF SAUSAGE UNDER SECTIONS 9 AND 10 OF GCPR, SR 34, REVISED

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization No. VII, pursuant to Delegation of Authority No. 35, Amendment 1 (17 F. R. 8201), this Amendment 1 to Redelegation of Authority No. 27 is hereby issued.

1. *Authority to act under section 10 of Revised Supplementary Regulation to the GCPR.* Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Indianapolis, Indiana, and Milwaukee, Wisconsin, to accept filings under section 10 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation.

2. *Authority to act under section 9 of Revised Supplementary Regulation to the GCPR.* Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Indianapolis, Indiana, and Milwaukee, Wisconsin, to request further information, pursuant to section 9 of Revised Supplementary Regulation 34, to the General Ceiling Price Regulation, with respect to any ceiling price granted, reported or proposed pursuant to Supplementary Regulation 34 to the General Ceiling Price Regulation, issued June 12, 1951, or to Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, except as to an adjusted ceiling price requested under section 5 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, and at any time to disapprove or revise, pursuant to section 9 of Revised Supplementary Regulation 34 to the General Ceiling Price Regulation, any such granted, reported, or proposed ceiling price in order to bring it in line with the general level of prices prevailing under Revised Supplementary Regulation 34.

3. The authority hereby redelegated is to be exercised concurrently with the National Office and the Regional Director, Region VII.

This redelegation of authority shall take effect on October 9, 1952.

R. EMMET HARTNETT,
Acting Director of Region Office No. VII.

[Delegation of Authority 53, Delegation of Authority Under CPR 98, Amdt. 2]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER SECTION 47 (B), CPR 98, AS AMENDED

By virtue of the authority vested in the Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131, 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Amendment 2 to Delegation of Authority 53 is hereby issued.

Delegation of Authority 53 is amended by redesignating the present paragraph 4 as paragraph 5 and adding a new paragraph, designated paragraph 4, to read as follows:

4. *Authority under section 47 (b) of Ceiling Price Regulation 98, as amended.* Authority is hereby delegated to the Directors of Regional Offices of the Office of Price Stabilization to accept state-

ments or published lists of factors affecting prices and of extras filed under section 47 (b) of Ceiling Price Regulation 98, as amended, to request further information in connection with such filings, and to take all steps necessary to assure that such filings are corrected in accordance with section 47 (b) of Ceiling Price Regulation 98. The authority herein delegated may be redelegated to the Directors of District Offices of the Office of Price Stabilization.

Effective date. This amendment is effective October 11, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 10, 1952.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27447]

CAUSTIC SODA FROM ANNISTON AND LENSANTO, ALA., TO POINTS IN MID-SOUTH, SOUTH, AND SOUTHEAST

APPLICATION FOR RELIEF

OCTOBER 8, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariffs I. C. C. Nos. 1172 and 1295.

Commodities involved: Liquid caustic soda, in tank-car loads.

From: Anniston and Lensanto, Ala.

To: Ashland, Catlettsburg, and Louisville, Ky., Cincinnati, Ohio, and specified points in Virginia, Florida, Mississippi, and Tennessee.

Grounds for relief: Competition with rail carriers, circuitous routes, market competition, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1172, Supp. 125; C. A Spaninger, Agent, I C. C. No. 1295, Supp. 8.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[4th Sec. Application 27448]

CRUDE OIL FROM WATFORD CITY, N. DAK., TO POINTS IN MINNESOTA AND WISCONSIN

APPLICATION FOR RELIEF

OCTOBER 8, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Great Northern Railway Company.

Commodities involved: Crude petroleum oil, in tank-car loads.

From: Watford City, N. Dak.

To: St. Paul, Minneapolis, Minnesota Transfer, Refinery Spur, St. Paul Park, and Duluth, Minn., and Superior, Wis.

Grounds for relief: Competition with rail carriers and to maintain grouping.

Schedules filed containing proposed rates: GN Ry. tariff I. C. C. No. A-8168, Supp. 62.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

RUBBER TIRES FROM CAMDEN, N. J., TO THE SOUTH

APPLICATION FOR RELIEF

OCTOBER 8, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to his tariff I. C. C. No. A-911.

Commodities involved: Tires, rubber, pneumatic, and parts, carloads.

From: Camden, N. J.

To: Specified points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Manpower Policy 9]

UTILIZATION OF THE HANDICAPPED IN THE MOBILIZATION PROGRAM

Preface. This statement has been recommended by the interagency Manpower Policy Committee and the national Labor-Management Manpower Policy Committee of the Office of Defense Mobilization. It is issued for information and guidance to labor and management concerned with defense production and assigns to Government agencies the responsibility for providing assistance and leadership in the fields of action required of them.

I. *Introduction.* Achieving the goals of national mobilization and maintenance of a strong civilian economy require full and effective utilization of our manpower resources. Among these resources are approximately two million handicapped individuals, now unemployed and in many cases supported at public expense, who, with proper rehabilitation, training and placement can make valuable contributions as members of the labor force and as self-supporting citizens. Providing the opportunity for handicapped individuals to contribute to mobilization programs and to become economically independent is an important aspect of our national defense, both for present and future needs. On the one hand, it makes available additional needed manpower resources and on the other it extends to handicapped workers the opportunity to work at jobs for which they are qualified.

Great progress has been made during the past decade and more recently under the leadership of the President's Committee on Employment of the Physically Handicapped toward a better understanding of the contribution which handicapped persons can make when properly prepared and selectively placed. The excellent support given by labor, management and the public to the President's Committee's program indicates a wider interest and an improving understanding of the employment capabilities of handicapped workers. The performance record of handicapped workers when properly placed during World War II was highly satisfactory. Moreover, as a result of that experience, new insights and techniques have been developed through which a progressively better job in the rehabilitation, training and placement of handicapped workers can be done.

Many handicapped persons are available for employment without the need for extensive physical and mental rehabilitation services. However, a large percentage of the two million handicapped persons previously mentioned have disabilities which, because of their nature or severity, will involve rehabilitation services before they can enter the labor force. Thanks to the great strides made in recent years in scientific knowledge relating to various disabilities, it is now possible to rehabilitate a great many of these people and bring them into productive work. Communities throughout the country, if they make maximum use of the many and varied resources available within their communities and to their communities, can make very appreciable progress in dealing with this problem.

Because of the vital importance of making full use of handicapped persons in our defense mobilization program, the Office of Defense Mobilization appointed a special Task Force in May 1951, to make recommendations for improved and accelerated rehabilitation and placement of handicapped persons. The completed report of the Task Force constitutes a valuable source document for all those engaged in serving or employing handicapped persons.

Most of the actions recommended by the Task Force must be taken in the communities where handicapped persons live and in the establishments where they can be employed. They constitute a program of voluntary action to which labor, management and Government can all make significant contributions. Consequently, an intensified program for getting more handicapped workers into productive employment should be developed in each local community using the

knowledge, facilities and resources, both public and private, which are available locally.

II. *Purpose.* It is the purpose of this Manpower Policy to direct attention to the importance of increasing the opportunities for employment and effective utilization of handicapped workers in the mobilization program and to stimulate voluntary action by management, labor and Government to modify unnecessary restrictions which limit the employment and utilization of handicapped workers in both private and public employment.

III. *Statement of policy.* It is the Policy of the Federal Government:

1. To promote the employment and effective utilization of the handicapped in public employment;

2. To encourage labor and management to adopt policies and practices which will promote the employment and effective utilization of the handicapped in private employment;

3. In cooperation with appropriate agencies of the States provide advice, assistance and encouragement to local communities in their programs for getting more handicapped workers into productive employment.

4. To encourage voluntary action to provide the rehabilitation services necessary to prepare handicapped persons for suitable employment.

To aid in providing increased employment opportunities and more effective utilization of the handicapped in the national mobilization program it is recommended:

1. That all employers re-examine their personnel hiring policies with particular attention to the physical standards required for employment and take any steps which may be necessary to insure that qualified handicapped applicants are considered and employed along with other workers on the basis of their ability to perform the job.

2. That all employers and others engaged in the selection of trainees give full consideration to the potential capacity of handicapped persons to perform the job for which training is being conducted and accord them equal opportunity in selection.

3. That employers give full consideration to the skills and abilities of handicapped workers in the community before bringing in workers from other areas. Special efforts should be made to locate and utilize handicapped workers having critical skills.

4. That each community organize local community-wide programs for locating, rehabilitating and employing its disabled citizens. This includes a survey of the local handicapped population and the community's resources for dealing with disabilities; selection and training of special rehabilitation and placement teams; insuring that information on available workers is made available to employers; strengthening of community committees on employment of the handicapped which are representative of labor, management and other interested groups, in cooperation with state Governor's committees on employment of the handicapped; and coordination of community efforts with the manpower activities of Area Defense Mobilization Committees and Area Labor-Management Manpower Committees in localities where these Committees exist.

5. That critical appraisal be made of Workmen's Compensation Laws by each each State Government:

a. With a view to taking constructive corrective action if such laws are impeding employment of the handicapped.

b. With a view to reducing the time-lag between injury of a worker and his referral for rehabilitation and placement.

6. That each community carry out an aggressive program of public information directed toward removal of barriers to employment of the handicapped and to encourage their employment on jobs for which they are qualified. This program should be carried out through local citizens' committees representative of labor, management and other interested groups cooperating with Labor-Management Manpower Committees wherever they exist and in cooperation with the State Governors' Committees on employment of the handicapped.

IV. *Assignment of responsibility.* It is recognized that labor and management share the primary responsibility for action designed to achieve the objectives of this policy. However, the Federal Government, through its appropriate agencies and in cooperation with labor, management, state and local agencies and private groups can effectively achieve the objectives of this policy by providing assistance and leadership in the following fields of action:

A. The Department of Labor shall:

1. Furnish advice and assistance to the Federal-State system of public employment offices and other appropriate agencies in facilitating the training and placement of handicapped persons in suitable jobs.

2. In cooperation with the Federal Security Agency, upon request from appropriate State and local officials, assist in planning and conducting a demonstration of how a community can organize for identifying, rehabilitating and employing the handicapped. Through such demonstrations, a pattern of action should be developed which other communities may consider and profitably use.

3. Emphasize programs of occupational and industrial research as a basis for further improvement of existing selective placement techniques.

4. Intensify its assistance to State employment security agencies in training selective placement personnel to strengthen the effectiveness of placement work for the disabled.

B. The Federal Security Agency shall:

1. Furnish advice and assistance to the Federal-State program of vocational rehabilitation and other appropriate agencies in providing rehabilitation services for disabled persons who can be made employable.

2. In cooperation with the Department of Labor, upon request from appropriate state and local officials, assist in planning and conducting a demonstration of how a community can organize for identifying, rehabilitating and employing the handicapped. Through such demonstrations, a pattern of action should be developed which other communities may consider and profitably use.

3. Cooperate with State Vocational Rehabilitation Agencies in arranging for specialized training for community-selected rehabilitation and placement teams.

4. Provide leadership in further investigation of the need for a program of graduate training for medical and vocational rehabilitation personnel required to strengthen the effectiveness of rehabilitation work for the disabled.

5. In cooperation with other Federal and State agencies, conduct a national inventory of existing physical facilities for rehabilitation as a basis for orderly planning by communities, States and the Federal Government.

C. The Civil Service Commission shall:

1. Exercise leadership in assuring that the Government, as an employer, makes full utilization of handicapped persons.

D. The Veterans' Administration shall:

1. In connection with the rehabilitation of veterans who have a war incurred disability, make their resources available in aiding communities to develop programs, to the extent consistent with the Veterans' Administration responsibility to such veterans.

E. The Health Resources Advisory Committee of the Office of Defense Mobilization shall:

1. Develop a national plan for the recruitment of additional students in the

medical and allied fields most urgently needed in rehabilitation.

F. The Department of Labor, the Federal Security Administration, the Civil Service Commission, the Veterans' Administration, and all other Federal Agencies shall:

1. Continue and intensify their efforts to assist the President's Committee on Employment of the Physically Handicapped in its nationwide, year-round educational and promotional program for promoting the acceptance of the physically handicapped in employment.

V. This policy shall take effect on October 14, 1952.

OFFICE OF DEFENSE MOBILIZATION,
HENRY H. FOWLER,
Director.

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Amdt. 1 to Supplementary Regulation 6, Revision 1]

CPR 22—MANUFACTURERS' GENERAL CEILING PRICE REGULATION

SR 6—CEILING PRICES FOR MANUFACTURERS FOR THE SALE OF PAINTS, VARNISHES AND LACQUERS

POSTPONEMENT OF EFFECTIVE DATE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization General Order No. 2, this Amendment 1 to Revision 1 of Supplementary Regulation 6 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

After the issuance of Revision 1 of Supplementary Regulation 6 to Ceiling Price Regulation 22 on August 13, 1952, some question arose as to whether paints, varnish and lacquer manufacturers were required to submit new filings even though they had reported under the original Supplementary Regulation 6 or Ceiling Price Regulation 22 and did not intend to invoke any of the new optional methods contained in the revision. Also, a few manufacturers who intend to retain certain calculations under their original filings and submit certain other calculations newly provided for in the revision similarly were uncertain as to the precise extent of the filings they would be required to submit.

The Office of Price Stabilization considered it practicable to issue an interpretation prior to the mandatory effective date of the revision (October 13, 1952) clarifying the filing requirements. Unfortunately, the issuance of such an interpretation has been unavoidably delayed. Therefore, this amendment postpones the mandatory effective date of the revision 30 days to November 13, 1952.

Essentially, according to that interpretation, manufacturers will be required to submit new filings only where (1) they are for the first time establishing ceiling prices pursuant to Ceiling Price Regulation 22, or revised Supplementary Regulation 6; (2) they are availing themselves of one or more of the optional methods provided in the revision which they previously had not used, and for which filings are specified; or (3) they are recalculating ceiling prices under either Ceiling Price Regulation 22 or the revision pursuant to a method for which a report or filing is specified.

However, manufacturers who have previously filed under Ceiling Price Regulation 22 or the original Supplementary Regulation 6 and who are not recalculating any of their ceiling prices need not make any new filings under the revision.

AMENDATORY PROVISIONS

The last paragraph (effective date) of Revision 1 of Supplementary Regulation 6 to Ceiling Price Regulation 22 is amended to read as follows:

Effective date. The effective date of this supplementary regulation is November 13, 1952, or such earlier date between August 13, 1952, and November 13, 1952, as you may select. If you select such earlier date, this supplementary regulation becomes effective as to you upon that date for all your commodities covered by this supplementary regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This Amendment 1 to Supplementary Regulation 6 is effective October 10, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 10, 1952.

[F. R. Doc. 52-11023; Filed, Oct. 10, 1952; 4:02 p. m.]

[Ceiling Price Regulation 69, Revision 1, Amdt. 6]

CPR 69—FOOD PRODUCTS SOLD IN THE TERRITORY OF HAWAII

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 6 to Ceiling Price Regulation 69, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 1.7 (a) of Ceiling Price Regulation 69, Revision 1, requires every seller, except at retail, of commodities listed in the regulation to supply the purchaser with a statement of the ceiling prices of the commodities at the time of delivery. At the time CPR 69, Revision 1, was originally issued, Section 1.7 (b) of this regulation also required retailers to post their ceiling and selling prices. Having recently determined that it was no longer necessary or desirable that retailers post their ceiling prices in addition to selling prices, the Office of Price Stabilization amended Section 1.7 (b) to eliminate this requirement. This amendment amends Section 1.7 by eliminating the requirement that wholesalers furnish a written statement of ceiling prices to retailers.

Section 2.5 of CPR 69, Revision 1, is in effect a duplication of section 1.7 (a). Section 2.5, however, has another more important purpose, which is to prevent a double markup being taken where commodities are sold by one wholesaler to another wholesaler. The section requires that the primary wholesaler furnish any wholesaler purchasing from him a written statement of the direct cost and his wholesale ceiling price. Most secondary wholesalers in the territory, however, purchase for their own chains of retail stores rather than for resale at the wholesale level. However, the primary wholesaler has no way of knowing which of the purchases are for resale at wholesale and has, therefore, been compelled to indicate the ceiling prices of as many as 40 or 50 items on each invoice. The OPS feels that in view of the limited amount of double wholesaling which takes place, the burden should be upon the secondary wholesaler to obtain from the primary wholesalers a statement of the primary wholesalers ceiling price, which under the section becomes the ceiling price of the secondary wholesaler. Section 2.5, therefore, is changed by this amendment to require that a primary wholesaler furnish the necessary information to a secondary wholesaler only when requested to furnish the information by the secondary wholesaler. This will substantially ease the burden on the primary wholesaler and will in no way impair the effectiveness of the price control program in the Territory of Hawaii.

Article V of CPR 69, Revision 1, establishes ceiling prices for the sale of certain dry grocery items at retail. The markups provided for in this article are based on surveys made by the OPS among retail groceries. Article V as it is now written, however, does not clearly apply only to retail groceries. Since the Industry Advisory Committee had no representatives of the drug industry and since the ceiling prices established by this regulation are based on a survey of the retail grocery industry and did not take into account the markups in drug stores, section 5.1 is amended to make clear that that article of the regulation does not apply to sales by drug stores of commodities listed in the regulation. Combination establishments selling both groceries and drugs, however, will continue to be covered by this article of the regulation.

The nature of this amendment to CPR 69, Revision 1, has rendered consultation with the industry, including trade association representatives, unnecessary and impracticable. In the opinion of the Director, this amendment is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

1. Section 1.7 (a) of Ceiling Price Regulation 69, Revision 1, is deleted and Section 1.7 (b) is renumbered to read "Section 1.7."

2. Section 2.5 is amended to read as follows:

SEC. 2.5. *Sales to other wholesalers.* If you are not a primary wholesaler, your ceiling price for the sale of a listed commodity at wholesale is the ceiling price of the primary wholesaler in the Territory of Hawaii. A primary wholesaler shall, upon request by the buyer, furnish any wholesaler purchasing from him a written statement of the wholesale ceiling price determined in accordance with this regulation and every subsequent purchaser making sales to other wholesalers shall, upon request, furnish to the buyer a statement of the primary wholesaler's ceiling price.

3. Section 5.1 is amended to read as follows:

SEC. 5.1. *What this article does.* This article of the regulation fixes ceiling prices for the items listed in Table 5A (Grocery Products) and Table 5B (Perishables) in Section 5.5 of this article, when sold at retail by any person other than the manufacturer, the processor, or a drug store, in the Territory of Hawaii. Sales of listed commodities by combination drug and grocery stores, however, are covered by this article.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup., 2154)

Effective date. This Amendment 6 to Ceiling Price Regulation 69, Revision 1, is effective October 18, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[F. R. Doc. 52-11232; Filed, Oct. 13, 1952; 12:03 p. m.]

[Ceiling Price Regulation 91, Amdt. 2]

CPR 91—WRITING PAPER AND OTHER FINE PAPERS

CHANGE IN METHOD OF DETERMINING CEILING PRICES FOR NEW GRADES UNDER APPENDIX C AND OTHER REVISIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 91 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes two revisions in Ceiling Price Regulation 91. It clarifies the differential for packing jumbo rolls of chemical wood pulp onionskin and manifold papers and related grades by making the differential read "For jumbo rolls: Minus $0.45 from above prices per 1000 sheets".

This amendment also changes Appendix C, paragraph (e) to direct a manufacturer of a new grade of fine paper related to another grade produced by the same manufacturer to determine his maximum base price for the new grade by applying to its current unit direct cost, the same percentage markup he obtains on the current unit direct cost of the most comparable grade of fine paper. This is a more precise technique for setting an in-line ceiling price for new products under Appendix C. Paragraph (e) (1), as presently constituted, provides that the dollar-and-cent unit net profit margin of the most comparable grade is added to the total unit cost of the new grade. This amendment substitutes a percentage markup for the dollar-and-cent markup and substitutes current unit direct costs for total costs, the latter often being incapable of precise calculation. Ceiling prices approved under paragraph (e) prior to the effective date of this amendment are not affected by its issuance.

In view of the corrective nature of these changes in Ceiling Price Regulation 91 and the consultation had with individual members of the industry, it was not practical nor necessary to consult with the Industry Advisory Committee.

AMENDATORY PROVISIONS

Ceiling Price Regulation 91 is hereby amended in the following respects:

1. In Appendix B—Chemical Wood Pulp Writing Papers, paragraph (c) *Chemical wood pulp onionskin and manifold papers and related grades*, subparagraph (2) (ii) *Packing*, change the wording re jumbo rolls to read:

For jumbo rolls: Minus $0.45 from above prices per 1,000 sheets.

2. In Appendix C, Other Fine Papers, change paragraph (e) and subparagraph (1) thereto to read:

(e) The maximum base price for a new related grade of other fine paper which cannot be priced under Appendices A or B, or for a grade of other fine paper which was not delivered or offered for delivery by the manufacturer during the periods in (c) or (d) above, shall be a price in line with the maximum base price established by this regulation for the most comparable grade of fine paper. The most comparable grade of fine paper shall be one of the grades listed in Appendices A or B or a grade for which you have determined a maximum base price under paragraph (d) of this Appendix C. The most comparable grade of fine paper shall be one which is manufactured by you for the same general use or uses as the grade being priced, and which you are currently producing at a current unit direct cost which is closer to the current unit direct cost of the grade being priced than is the current unit direct cost of any other comparable grade listed under Appendices A or B, or, as the case may be, of any grade for which a maximum base price has been determined under paragraph (d) of this Appendix C.

(1) A maximum base price shall be in line only if the percentage markup over current unit direct cost used in computing that price is no greater than the percentage markup on the current unit direct cost of the most comparable grade of writing or other fine paper. Current unit direct cost in such case shall be computed on the basis of cost prevailing at the time when such in-line price is being determined and in accordance with the manufacturer's method of determining current unit direct costs. The identical method must be used in computing the two current unit direct costs being compared.

(2) A ceiling price proposed by a seller resulting from his maximum base price under paragraph (e) must be reported to and confirmed by the Director of Price Stabilization, Washington, D. C. If this confirmation is not obtained prior to the time of making the sale, you must agree to refund to the purchaser any amount paid in excess of the confirmed ceiling price. Your report must set forth the relevant facts including the following:

(i) Trade and grade name, if any, and description of the grade being priced.
(ii) Sample of the paper.
(iii) Proposed end use.
(iv) Detailed direct labor and raw material costs and ceiling price data on that grade and on the most comparable grade (including trade and grade name, if any) with which the price comparison was made.

(3) For the purpose of this subparagraph (e) current unit direct cost is defined as follows:

Current unit direct cost is the sum of the direct labor cost and the direct materials cost applicable to a single unit of the commodity. The direct materials cost shall be computed upon the basis of current replacement prices. The direct labor cost shall be computed upon the basis of current wage rates. The method used for computing the current unit direct cost for the new commodity and for the comparison commodity shall be the same in every respect.

(4) Ceiling prices for related grades previously established by this paragraph (e) are not affected by the issuance of this amendment.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective October 18, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

[Ceiling Price Regulation 156, Amdt. 1]

CPR 156—FABRICATED STRUCTURAL STEEL, MISCELLANEOUS AND ORNAMENTAL IRON, AND VESSEL SHOP PRODUCTS FOR FIELD ASSEMBLY OR ERECTION

CLARIFYING AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 156 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling Price Regulation 156 covers a wide range of fabricated products. When it was issued, the Office of Price Stabilization was aware that some clarification would be necessary after some experience with its operation. Requests for interpretation have shown the need for specific clarifying amendments.

A number of fabricators during the base period obtained their material direct from the mills and paid mill prices but computed their selling price on the basis of higher warehouse material costs. They treated the difference as part of their customary markup. Some of these fabricators have asked the Office of Price Stabilization for an interpretation as to how to treat this additional sum. This amendment indicates that the total markup includes the difference between mill and warehouse price, and that this total figure must be reduced under section 4, as amended by this amendment.

The definition contained in the regulation for "field assembly or erection" has caused difficulty in interpretation. The definition has been reworded and a number of typical field operations have been listed which illustrate the coverage of the regulation. This clarification will contribute to a better understanding of the regulation by industry.

The general paragraph in appendix A which defines "fabricated structural steel, miscellaneous and ornamental iron and vessel shop products", has been expanded to indicate more clearly the exclusions under this regulation.

The amendment also redefines several of the product definitions under appendix A where the intent has not been clear to industry. Three product listings have been added which, while covered by the general definitions, were omitted in the listings.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 156 is amended in the following respects:

1. Section 4 (c) is amended by adding a new subparagraph, numbered (3), to read as follows:

(3) Where it was your base period practice to obtain your material direct from the mills but your selling price was figured on the basis of warehouse material costs, this difference must be added to your base period profit markup before making the 10 per cent reduction to determine your revised markup.

EXAMPLE: Assume a base period markup of 15 percent, or $5,000, and a material cost of $20,000 at warehouse prices against an actual mill cost to you of $16,500. The difference of $3,500 is added to the markup of $5,000 making a total actual markup of $8,500. This is then reduced by 10 percent in determining your revised markup.

2. Section 15 (b) is amended to read as follows:

(b) "For field assembly or erection" refers to products which are shipped from a fabricator's plant in a condition which requires assembling or erecting operations in the field, or at locations other than at the fabricator's plant, to complete the product. It also refers to products which are completely or partially assembled at the fabricator's plant but for which the fabricator must assume responsibility for field modifications, field installation or field installation changes to accomplish the purpose for which the product was designed. The term does not include products which are completely assembled at a fabricator's plant and for which additional field operations by the fabricator will not be required after installation or erection.

The following are examples of "field assembly or erection" operations as defined in this paragraph:

(i) Assembling structural and plate members to form a bridge, building, tower, furnace or gate structure.

(ii) Assembling a vessel, tank, boiler, autoclave or heat exchanger; assembling components of such products, and, where necessary to complete the product, assembling with the product internals, fittings and fixtures, protective coverings and linings, etc.

(iii) Assembling and joining penstock, syphon or industrial piping components.

(iv) Assembly or additional fabrication on weldments and components or on miscellaneous fabrication.

(v) Field modification of products by the fabricator to meet installation or performance guarantees.

3. Appendix A is amended in the following respects:

a. The first paragraph of Appendix A is amended to read as follows:

The term "fabricated structural steel, miscellaneous and ornamental iron, and vessel shop products" includes any product in the following classifications which are (1) fabricated principally from ferrous or nonferrous structural shapes, plates, bars, sheets, pipe-mill products or tubing, and (ii) custom-engineered and custom-fabricated. It includes any such product even though other materials are added (i. e., brick to a coke oven, stirring mechanism to autoclave, etc.). It does not include sheet metal shop products such as sheet metal duct work, flues and breechings, gutters, downspouts, etc. Also not included are any standardized product lines, or any products made to the fabricator's specifications, sold from established price lists, or made on a production line basis.

b. The item beginning "Boiler drums * * *" is amended to read as follows:

Boilers, power, industrial and marine, 100 p. s. i. and higher working pressure; including boiler drums, shells and headers, commonly made by fabricators; but excluding packaged units and low pressure heating units under 100 p. s. i. working pressure.

c. The item beginning "Heat exchangers, industrial * * *", is amended to read as follows:

Heat exchangers, industrial and marine, including superheaters, air preheaters, and economizers, commonly made by fabricators, such as heat exchangers for refineries, power plants, paper mills, chemical, sugar and plastic plants.

d. The item beginning "Penstocks * * *" is amended to read as follows:

Penstocks, turbine casings, turbine casing extensions and syphons.

e. The item beginning "Weldments * * *" is amended to read as follows:

Weldments and component parts commonly made by fabricators, except when made as components of machinery by the machinery manufacturers.

4. Appendix A is further amended by adding the following new items:

Conveyor and handling system steel work, industrial; excluding standard conveyor units or combinations of such units.

Fabrication—Miscellaneous, consisting of one or more forming, cutting or joining operations on structural shapes, plates, bars and other related products when performed by fabricators, who are regularly engaged in fabricating any of the other products listed in this Appendix A.

Spray booths.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 156 is effective October 18, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[Ceiling Price Regulation 162, Amdt. 1]

CPR 162—BEET PULP PRODUCTS

IMPORTED BEET PULP PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 162 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment removes importers of beet pulp products from the scope of Ceiling Price Regulation 162 and restores the applicability of Ceiling Price Regulation 31 to sales of imported beet pulp products by importers.

CPR 162 gave importers the same ceiling prices as those applicable to processors located in the ports of entry. Importers who had made overseas purchases while CPR 31 governed their ceiling prices were, when CPR 162 was issued, subjected to the new ceiling prices at ports of entry, which in some instances were substantially lower than the CPR 31 ceilings. The resultant hardship is eliminated by this amendment which again makes CPR 31 applicable.

Note has been taken also of the fact that, owing to the structure of the basing point system of pricing for processors of domestic beet pulp products, there is a considerable disparity among ceiling prices for imported beet pulp products depending on the port of entry used. In the East coast area, for example, which includes the basing point, Boston, and ports as far south as Miami, the ceiling prices vary by the amounts of the freight out of Boston to the particular port of entry—which range as high as $22.00.

This disparity, as well as the hardship already mentioned, is eliminated by this amendment.

Owing to the need for prompt action and the special nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and comply with all the applicable provisions of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 162 is amended as follows:

1. Section 1 (a) is amended to read as follows:

SECTION 1. *What this regulation does*—(a) *Coverage.* This regulation establishes ceiling prices for domestic beet pulp products. For the products and sellers covered, this regulation supersedes the General Ceiling Price Regulation and Supplementary Regulation 60 to the General Ceiling Price Regulation.

2. Section 1 (c) is amended to read as follows:

(c) *Sales not covered.* This regulation does not apply to:

(1) Export sales and sales for export. These sales are covered by Ceiling Price Regulation 61.

(2) Sales of imported beet pulp products. These sales are covered by Ceiling Price Regulation 31.

3. Section 5 is rescinded in its entirety.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective October 18, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[General Overriding Regulation 2, Revision 1, Amdt. 3]

GOR 2—SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

CERTIFICATION BY SUBCONTRACTORS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to General Overriding Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 3 to General Overriding Regulation 2, Revision 1 (GOR 2, Rev. 1) amends section 31 by revoking the present requirement that defense contractors and subcontractors state their ceiling prices and by substituting in its place a requirement that subcontractors certify that their price does not exceed the ceiling price.

GOR 2, Rev. 1 covers all matters of a special and overriding nature applying to sales to the United States, its agents, and suppliers and was issued by the Office of Price Stabilization (OPS) on July 21, 1952 after months of consultation with affected Government agencies in Washington and in the various procurement offices of the Department of Defense throughout the country.

As originally issued, section 31 of GOR 2, Rev. 1 required certain defense contractors and subcontractors for commodities to be delivered to defense agencies, and persons performing services on such commodities, to state their ceiling prices, both in the offer or bid and in the contract or subcontract, if the commodities or services were not exempted from price control. It has been the practice of the Department of Defense and other Federal agencies to require prime contractors to certify that their contract prices were not in excess of ceiling prices. This is still in effect today. However, there was and is no similar requirement with respect to subcontracts. Nor was there any requirement, at either the prime contract or subcontract level, that the supplier state his actual ceiling price.

As stated in the Statement of Considerations accompanying the regulation, it was felt that contracting negotiators and officers of Defense Agencies, as well as prime contractors and subcontractors could often use to good advantage information as to the ceiling price of the seller. It was also felt that knowledge of the ceiling price of suppliers would help them, as purchasers, to avoid violations and to assist in carrying out the stabilization effort. And finally, it was felt that the requirement would call the attention of the seller to the existence of price ceilings and would tend to counteract the impression that persons dealing with the Government directly, or as subcontractors, are for this reason exempt from price control.

After the issuance of GOR 2, Rev. 1, certain problems encountered by defense contractors and subcontractors in complying with section 31 were called to the attention of the Office of Price Stabilization. As a result, Amendment 1 was issued on September 2, 1952, suspending section 31 and postponing its effective date until October 16, 1952. This action was taken to enable OPS to study these problems and to relieve affected persons from the necessity of complying with the section's requirements during the suspension period.

Since then a number of suppliers have represented to OPS that compliance with section 31 would be costly, difficult, and, in some cases, impossible. The majority stated they were presently including in their offers and contracts a certification that the quoted price does not exceed the ceiling price, and that they had no objection to a certification requirement of this type.

Careful consideration has been given to the views expressed by affected parties and procurement agencies. The fact that some time and some expense would be required in order to comply with section 31 was of course anticipated when the regulation was issued. However, it was necessary to review these problems in the light of the additional facts and information presented. It is only fair to say that those problems now appear to be larger and more complex than was originally contemplated.

This is not to say that section 31 is so burdensome as to preclude compliance or that the difficulties are widespread. This is indicated by the fact that practically all objections were received from one industry.

Nevertheless, in accordance with its policy of reducing and keeping to the minimum all reports, records, and notices required by OPS regulations and orders, it has been decided to revoke section 31 as presently constituted and to replace it with a new section designed to complement and extend a similar provision now required by the Department of Defense and other Federal agencies in prime contracts. This new section simply requires subcontractors for commodities to be delivered to Defense Agencies, including persons performing services on such commodities, to certify in the offer, bid, and contract that the price quoted or specified does not exceed the ceiling price. In this connection, the terms "offer" or "bid" are deemed to include the term "proposal" as that term is used by the Department of Defense to describe an offer obtained in negotiated procurement. For technical reasons, this certification cannot be given in the circumstances covered by section 52 of GOR 2, Rev. 1, and an exception has been made with respect to any offer, bid, or contract submitted or entered into in accordance with that section. An exception has also been made with respect to oral offers, bids, and contracts.

In the formulation of this amendment there has been consultation with other Government agencies and industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 31 of General Overriding Regulation 2, Revision 1, is amended to read as follows:

SEC. 31. *Defense subcontracts.* (a) Where there is knowledge or reason to believe that a commodity, subject to an OPS ceiling price regulation, will ultimately be delivered to a Defense Agency, either in the same form or as a component, part, assembly, or subassembly of another commodity, every offer or bid submitted to a subcontractor, and every subcontract, covering such commodity, must contain a statement by the offeror or contractor that the price quoted in the offer or bid, or specified in the contract, does not exceed the applicable ceiling price established by the Office of Price Stabilization. Where there is knowledge or reason to believe that a service will be supplied in connection with the production, manufacture, processing, distribution, or packaging of a commodity which will ultimately be delivered to a Defense Agency, either in the same form or as a component, part, assembly, or subassembly of another commodity, every offer or bid submitted to a subcontractor, and every subcontract, covering such service, must contain a statement by the offeror or contractor that the price quoted in the offer or bid, or specified in the contract, does not exceed the applicable ceiling price established by the Office of Price Stabilization.

(b) This section 31 does not apply to the following:

(1) Any offer, bid, or contract submitted or entered into in accordance with section 52 of this general overriding regulation;

(2) Any oral offer or bid; and

(3) Any oral contract.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to General Overriding Regulation 2, Revision 1 is effective October 16, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[F. R. Doc. 52-11239; Filed, Oct. 13, 1952; 4:01 p. m.]

[General Overriding Regulation 32, Special Order 3]

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 3—SELLERS OF CIGARETTES IN MINNESOTA

CEILING PRICES RAISED TO CONFORM WITH MINNESOTA UNFAIR TRADE PRACTICES ACT

Statement of considerations. This special order raises the ceiling prices of Minnesota cigarette sellers above those previously established under regulations of the Office of Price Stabilization (OPS) where necessary to conform to the minimum prices required to be charged by the Minnesota Unfair Trade Practices Act. This special order does not presently affect the ceiling prices of Minnesota cigarette sellers which are at or above the minimum prices required by that Act on the effective date of this special order. Provision is also made for the adjustment of ceiling prices of cigarette sellers subject to the Minnesota Unfair Trade Practices Act in the event of a change in the minimum prices computed pursuant to that Act and for the establishment of ceiling prices for new brands of cigarettes sold in Minnesota.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (1) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the Commissioner of the Department of Business Research and Development for the State of Minnesota that the Minnesota Unfair Trade Practices Act was in effect and enforced on June 30, 1952, and on July 31, 1952 (the date of the application); that the Act has not been held invalid by any court of competent jurisdiction; and that the ceiling prices of some cigarette sellers in the State of Minnesota are lower than the minimum sales prices required to be charged by that Act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32 this special order is hereby issued.

1. Ceiling prices of cigarette sellers subject to the Minnesota Unfair Trade Practices Act which are below the minimum sales prices computed pursuant to that Act, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices.

2. If the minimum prices for brands of cigarettes sold in Minnesota on July 31, 1952 (the date of the application by the Commissioner of the Department of Business Research and Development for the State of Minnesota, hereinafter referred to as the Commissioner, under GOR 32) are increased after that date pursuant to the Minnesota Unfair Trade Practices Act, such higher minimum prices shall become ceiling prices as hereinafter specified in this paragraph, upon the sending of a report by the Commissioner by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for the various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other cigarette seller subject to the Minnesota Unfair Trade Practices Act whose ceiling prices would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold in Minnesota on July 31, 1952, are decreased after that date pursuant to the Minnesota Unfair Trade Practices Act, the ceiling prices of the sellers affected by paragraph 1 hereof shall be established at the new required minimum prices. However, where such lower minimum prices are below the ceiling prices in effect immediately prior to the date of this special order these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in Minnesota after July 31, 1952, those cigarette sellers subject to the Minnesota Unfair Trade Practices Act who are unable to compute ceiling prices for the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for such new brands the minimum sales prices computed for them in accordance with the Minnesota Unfair Trade Practices Act. These prices will be established as ceiling prices for such cigarette sellers upon the sending of a report by the Commissioner by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of the cigarettes and the minimum sales prices required to be charged for them in accordance with the Minnesota Unfair Trade Practices Act and will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a cigarette seller subject to the Minnesota Unfair Trade Practices Act whose ceiling prices would be affected by the Commissioner's filing the report set forth in paragraph 2 or 3 hereof, from filing such report in his own behalf. The individual seller may use as his ceiling prices the minimum prices required by the Minnesota Unfair Trade Practices Act upon his mailing of such report unless and until such seller is notified by the Office of Price Stabilization that the reported prices are disapproved or that further information is required. In the event of a request for further information, reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "Minnesota Unfair Trade Practices Act" means that Act as amended up to June 30, 1952 (Chapter 116 of the Laws of 1937, as amended by Chapter 403 of the Laws of 1939 and Chapter 326 of the Laws of 1941, all of which are now codified in the 1945 Minnesota Statutes as part of Section 325.01, Sections 325.02 through 325.07, part of Section 325.48, and Sections 325.49 and 325.52) insofar as such Act applies to the sale of cigarettes.

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective October 14, 1952.

NOTE: The reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[F. R. Doc. 52-11234; Filed, Oct. 13, 1952; 12:03 p. m.]

[General Overriding Regulation 32, Special Order 4]

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 4—RETAIL AND WHOLESALE GROCERS IN MONTANA

CEILING PRICES RAISED TO CONFORM WITH MONTANA UNFAIR TRADE PRACTICES ACT

Statement of Considerations. This special order raises the ceiling prices of Montana retail and wholesale grocers where necessary to conform with the minimum prices established by the Montana Unfair Trade Practices Act.

This special order is issued pursuant to General Overriding Regulation 32 which implemented section 402 (1) of the Defense Production Act of 1950, as amended. Section 402 (1) provides that no rule, regulation, order or amendment thereto issued under Title IV of the Act shall fix a ceiling on the price paid or received on the sale or delivery of any material in any State below the minimum sales price of such material fixed by the State law (other than any so-called "fair trade law") now in effect, or by regulation issued pursuant to such law. GOR 32 provides that the Director of Price Stabilization may issue an order permitting a particular seller or group of sellers to raise their ceiling prices to the minimum level of prices established for them by the State law or regulation in effect on June 30, 1952, and as of the date of the application, if it is proved to his satisfaction that the ceiling prices of such seller or group of sellers for the specific material or materials in a State are below that minimum level.

The Montana Trade Commission has petitioned for adjustment under GOR 32 of ceiling prices established by regulations of the Office of Price Stabilization for various classes of retail and wholesale grocers and for wholesale tobacco distributors. The Commission requests that OPS ceiling prices be adjusted to permit wholesale tobacco distributors in Montana their present list price less eight percent for sales of case lots or multiples thereof and their present list price less five percent for sales of less than case lots. The Commission further requests that OPS ceiling prices be adjusted to permit wholesale grocers in Montana a markup of five percent on the lower of invoice or replacement cost for sales of certain commodities. Finally, the Commission requests that OPS ceiling prices be adjusted to permit retail grocers doing business in certain counties a markup of ten percent on the lower of invoice or replacement cost for sales of certain commodities and, in the case of chain stores classified under Group 4 in CPR 15 which perform a "wholesale function", a markup of 15½ percent on the lower of invoice or replacement cost for sales of certain commodities. It appears from the petition and the supporting documents that the Montana Unfair Trade Practices Act was enforced and in effect on June 30, 1952, and on September 8, 1952 (the date of the petition); that certain cost survey reports and orders made pursuant to the Act were enforced and in effect on June 30, 1952, and on September 8, 1952; that neither the Act nor the cost survey reports and orders have been held invalid by any court of competent jurisdiction; and that certain ceiling prices fixed by OPS are lower than the minimum selling prices fixed under the Montana Act for certain retail and wholesale grocers. However, it cannot clearly be determined from the petition or from the supplementary documents filed therewith what minimum selling prices have been fixed by the Montana Act for wholesale tobacco distributors.

In view of the foregoing, the Director is required under section 402 (1) of the Defense Production Act to raise the ceiling prices for retail and wholesale grocers for the materials covered by the petition but further information is necessary before ceiling prices for wholesale tobacco distributors can be raised. Therefore, pursuant to section 5 of GOR 32, it is ordered that:

1. Despite the provisions of Ceiling Price Regulation 14 ceiling prices for wholesale grocers in the State of Montana may be computed as follows:

A. Ceiling prices for wholesalers who are classified as "retailer-owned cooperative wholesalers" (Class 1) under CPR 14 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.05 for the following food commodities: breakfast cereals, lard, canned milk, oleomargarine, shortening (hydrogenated), shortening (other), and canned soups.

B. Ceiling prices for wholesalers who are classified as "cash-and-carry wholesalers" (Class 2) under CPR 14 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.05 for the following food commodities: lard, canned milk, shortening (hydrogenated), and shortening (other).

C. Ceiling prices for wholesalers who are classified as "service wholesalers" (Class 3) under CPR 14 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.05 for the following food commodity: canned milk.

2. Despite the provisions of Ceiling Price Regulations 15 and 16 ceiling prices for retail grocers in the counties of Ravalli, Missoula, Mineral, Sanders, Lake, Flathead, Lincoln, Beaverhead, Broadwater, Deer Lodge, Gallatin, Granite, Jefferson, Lewis and Clark, Madison, Park, Powell, Silver Bow, Glacier, Toole, Liberty, Hill, Blaine, Pondera, Teton, Chouteau, Cascade, Meagher, Judith Basin, Fergus, Petroleum, Wheatland, Golden Valley, Musselshell, Rosebud, Sweet Grass, Stillwater, Yellowstone, Treasure, Carbon, Big Horn, Phillips, Valley, Daniels, Sheridan and Roosevelt in the State of Montana may be computed as follows:

A. Ceiling prices for retailers who are classified as Group 1 retailers under CPR 16 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.10 for the following food commodity: shortening (hydrogenated).

B. Ceiling prices for retailers who are classified as Group 2 retailers under CPR 16 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.10 for the following food commodity: shortening (hydrogenated).

C. Ceiling prices for retailers who are classified as Group 3 retailers under CPR 15 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.10 for the following food commodities: canned milk and shortening (hydrogenated).

D. Ceiling prices for retailers who are classified as Group 4 retailers under CPR 15 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.10 for sales for which they do not perform the "wholesale function" or by 1.155 for sales for which they perform the "wholesale function" in addition to the retail function, for the following food commodities: lard, canned milk, shortening (hydrogenated), and shortening (other).

3. Wholesale tobacco distributors in Montana must continue to determine ceiling prices under the General Ceiling Price Regulation and other applicable ceiling price regulations of the Office of Price Stabilization.

4. This Special Order may be modified, amended, or revoked by the Director of Price Stabilization at any time.

A copy of this Order has been filed with the Recording Secretary of the Office of Price Stabilization at Washington, D. C., where it may be examined by the public.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This order shall become effective October 14, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[F. R. Doc. 52-11240; Filed, Oct. 13, 1952; 4:01 p. m.]

[General Overriding Regulation 32, Special Order 5]

GOR 32—ADJUSTMENTS OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 5—SELLERS OF CIGARETTES IN NEW JERSEY

CEILING PRICES RAISED TO CONFORM WITH NEW JERSEY UNFAIR CIGARETTE SALES ACT OF 1952

Statement of considerations. This special order raises the ceiling prices of New Jersey cigarette sellers above those previously established under regulations of the Office of Price Stabilization (OPS) where necessary to conform to the minimum prices required to be charged by the New Jersey Unfair Cigarette Sales Act of 1952. This action does not presently affect ceiling prices of New Jersey cigarette sellers which are at or above the minimum prices required by that Act on the effective date of this special order. Provision is also made for the adjustment of ceiling prices of cigarette sellers subject to the New Jersey Unfair Cigarette Sales Act in the event of a change in the minimum prices computed pursuant to that Act and in some instances for the establishment of ceiling prices for new brands of cigarettes sold in New Jersey.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (1) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above-noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the State Supervisor of the Cigarette Tax Bureau of the State of New Jersey that the New Jersey Unfair Cigarette Sales Act was in effect and enforced on June 30, 1952, and on August 7, 1952 (the date of the certificate included in the application); that the Act has not been held invalid by any court of competent jurisdiction; and that the ceiling prices of some cigarette sellers in the State of New Jersey are lower than the minimum sales prices required to be charged by that Act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32 this special order is hereby issued.

1. Ceiling prices of cigarette sellers subject to the New Jersey Unfair Cigarette Sales Act of 1952, hereinafter referred to as the New Jersey Act, which

are below the minimum sales prices computed pursuant to that Act, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices.

2. If the minimum prices for brands of cigarettes sold in New Jersey on August 7, 1952 (the date of the certificate submitted by the State Supervisor of the Cigarette Tax Bureau of the State of New Jersey, hereinafter referred to as State Supervisor, under GOR 32), have increased after that date pursuant to the New Jersey Act, such higher minimum prices shall become ceiling prices as hereinafter specified in this paragraph, upon the sending of a report by the State Supervisor by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other seller subject to the New Jersey Act whose ceiling prices would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold in New Jersey on August 7, 1952, are decreased after that date pursuant to the New Jersey Act, ceiling prices of the sellers affected by paragraph 1 hereof shall be established at the new required minimum prices. However, where such lower minimum prices are below the ceiling prices in effect immediately prior to the date of this special order, these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in New Jersey after August 7, 1952, the cigarette sellers subject to the New Jersey Act who are unable to compute ceiling prices for the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for such new brands the minimum sales prices computed for them in accordance with the New Jersey Act. These prices will be established as ceiling prices for such cigarette sellers upon the sending of a report by the State Supervisor by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of the cigarettes and the minimum sales prices required to be charged for them in accordance with the New Jersey Act and will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a cigarette seller subject to the New Jersey Act whose ceiling prices would be affected by the State Supervisor's filing the report set forth in paragraph 2 or 3 hereof, from filing such report in his own behalf. The individual seller may use as his ceiling prices the minimum prices required by the New Jersey Act upon his mailing of such report unless and until such seller is notified by the OPS that the reported prices are disapproved or that further information is required. In the event of a request for further information, the reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "New Jersey Unfair Cigarette Sales Act of 1952" means that Act as amended up to June 30, 1952 (Chapter 247, P. L. 1952).

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective October 14, 1952.

NOTE: The record-keeping and reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

[General Overriding Regulation 32, Special Order 6]

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAW

SO 6—SELLERS OF CIGARETTES IN WISCONSIN

CEILING PRICES RAISED TO CONFORM WITH THE WISCONSIN UNFAIR SALES ACT

Statement of considerations. This special order raises the ceiling prices of Wisconsin cigarette sellers above those previously established under regulations of the Office of Price Stabilization (OPS) where necessary to conform to the minimum prices required to be charged by the Wisconsin Unfair Sales Act. This action does not presently affect ceiling prices of Wisconsin cigarette sellers which are at or above the minimum prices required by that Act on the effective date of this special order. Provision is also made for the adjustment of ceiling prices of cigarette sellers subject to the Wisconsin Unfair Sales Act in the event of a change in the minimum prices computed pursuant to that Act and in some instances for the establishment of ceiling prices for new brands of cigarettes sold in Wisconsin.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (1) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above-noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the Counsel for the Wisconsin State Department of Agriculture that the Wisconsin Unfair Sales Act was in effect and enforced on June 30, 1952, and in effect on July 25, 1952 (the date of the certificate included in the application); that the Act has not been held invalid by any court of competent jurisdiction; and that the ceiling prices of some cigarette sellers in the State of Wisconsin are lower than the minimum sales prices required to be charged by that Act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32 this special order is hereby issued.

1. Ceiling prices of cigarette sellers subject to the Wisconsin Unfair Sales Act, hereinafter referred to as the Wisconsin Act, which are below the minimum sales prices computed pursuant to that Act, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices.

2. If the minimum prices for brands of cigarettes sold in Wisconsin on July 25, 1952 (the date of the certificate submitted by the Counsel for the Wisconsin State Department of Agriculture, hereinafter referred to as the Department of Agriculture, under GOR 32) have increased after that date pursuant to the Wisconsin Act, such higher minimum prices shall become ceiling prices as hereinafter specified in this paragraph, upon the sending of a report by the Department of Agriculture by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for the various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other seller subject to the Wisconsin Act whose ceiling prices would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold in Wisconsin on July 25, 1952, are decreased after that date pursuant to the Wisconsin Act, ceiling prices of the sellers affected by paragraph 1 hereof shall be established at the new required minimum prices. However, where such lower minimum prices are below the ceiling prices in effect immediately prior to the date of this special order, these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in Wisconsin after July 25, 1952, the cigarette sellers subject to the Wisconsin Act who are unable to compute ceiling prices for the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for such new brands the minimum sales prices computed for them in accordance with the Wisconsin Act. These prices will be established as ceiling prices for such cigarette sellers upon the sending of a report by the Department of Agriculture by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of the cigarettes and the minimum sales prices required to be charged for them in accordance with the Wisconsin Act and will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a cigarette seller subject to the Wisconsin Act whose ceiling prices would be affected by the filing of the report set forth in paragraph 2 or 3 hereof by the Department of Agriculture, from filing such report in his own behalf. The individual seller may use as his ceiling prices the minimum prices required by the Wisconsin Act upon his mailing of such report unless and until such seller is notified by the OPS that the reported prices are disapproved or that further information is required. In the event of a request for further information, the reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "Wisconsin Unfair Sales Act" means that Act as amended up to June 30, 1952 (Section 100.30 of Chapter 100 of the Wisconsin Statutes 1951).

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective October 14, 1952.

NOTE: The record-keeping and reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

OCTOBER 13, 1952.

Chapter XIX—Maritime Administrator, Department of Commerce

[APR-1]

APR-1—APPEALS PROCEDURE FOR SHIPYARD CONSTRUCTION PROJECTS UNDER REVISED CMP REGULATION 6

This regulation is hereby adopted for the purpose of prescribing procedures by which contractors for shipyard construction projects may appeal from decisions of the Maritime Administration, on their applications for adjustments or exceptions under the provisions of Revised CMP Regulation 6.

Sec.
1. Purpose.
2. Grounds for appeal.
3. Filing appeals.
4. Decisions.
5. Hearings.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816 as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799 as amended; 50 U. S. C. App. Sup. 2071.

SECTION 1. *Purpose.* This regulation prescribes the procedure to be followed by contractors for shipyard construction projects in appealing from decisions of the Division of Ports and Facilities, Office of Property and Supply, Maritime Administration, with respect to applications for adjustment or exception to provisions of Revised CMP Regulation 6, in accordance with NPA Delegation 14.

SEC. 2. *Grounds for appeal.* (a) Any person who has filed with the Division of Ports and Facilities, Office of Property and Supply, Maritime Administration, an application for adjustment or exception requesting relief from provisions of Revised CMP Regulation 6 may appeal to the Chief, Program Planning Office, Maritime Administration from the decision on the application upon the ground that such decision works an unreasonable or exceptional hardship upon him not suffered generally by others, or that its enforcement would not be in the public interest or in the interest of national defense.

(b) If a person has new and substantial facts to submit which were not included in his application for adjustment or exception, he should apply to the Chief, Division of Ports and Facilities, Office of Property and Supply, Maritime Administration for reconsideration of his application for adjustment or exception on the basis of these new facts. Then, if the reconsideration does not result in a decision satisfactory to him, he may file an appeal on the grounds stated in paragraph (a) of this section.

SEC. 3. *Filing appeals.* (a) An appeal is instituted by filing a written notice signed by the appellant or his authorized representative, setting forth:

(1) The name, address, and business of the appellant.

(2) The nature of the action appealed from.

(3) The grounds of appeal.

(4) A request for a hearing, if the appellant desires a hearing.

(b) The notice of appeal must be filed with the Chief, Program Planning Office, Maritime Administration, Washington 25, D. C., within 45 days after the date of the decision.

SEC. 4. *Decisions.* (a) In any case in which the Chief, Program Planning Office determines that relief is justified, he will grant appropriate relief to the extent permitted by the availability of materials.

(b) The decision of the Chief, Program Planning Office shall be final.

(c) Every party of record to an appeal will be notified in writing of the decision.

(d) The Chief, Program Planning Office will not be required to furnish written opinions.

SEC. 5. *Hearings.* (a) In his discretion, the Chief, Program Planning Office may hold a hearing on any appeal, either upon his own initiative, or upon request of the appellant. If a hearing is to be held, the Chief, Program Planning Office will fix the date, time and place, and will notify the appellant thereof.

(b) Hearings before the Chief, Program Planning Office will be informal and public unless otherwise ordered by him. The appellant need not be represented by counsel, but he may be if he desires. If he is represented by counsel but is not present at the hearing, the appellant will notify the Chief, Program Planning Office in writing that he has authorized counsel to represent him at the hearing and has furnished counsel with the information necessary for presenting the appellant's case.

This regulation shall become effective upon publication in the FEDERAL REGISTER.

Dated: October 9, 1952.

[SEAL] EARL W. CLARK,
Acting Maritime Administrator.

[F. R. Doc. 52-11153; Filed, Oct. 13, 1952; 8:59 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

a. In § 127.19 *Special delivery (Exprés) service* insert in alphabetical order "Morocco, Tangier (International Zone, British Post Office only)" in the list of countries appearing in paragraph (a).

b. In § 127.305 *Morocco, Tangier (International Zone)* amend paragraph (a) (4) to read as follows:

(4) *Special delivery.* Accepted through the British Post Office only. Fee 20 cents. (See § 127.19.)

c. In § 127.318 *Nigeria* make the following changes:

1. Amend paragraph (a) (5) to read as follows:

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 25 cents per half ounce. Air letter sheets, 10 cents each. Other regular-mail articles, 54 cents for the first 2 ounces and 34 cents for each additional 2 ounces. (See §§ 127.20 and 127.20a.)

2. In paragraph (b) (1), insert between the table of surface parcel rates and the tabulated information thereunder in subdivision (i), a new subdivision (ii) to read as follows:

(ii) Air parcels. Rates: $1.25 first 4 ounces; $0.65 each additional 4 ounces, or fraction thereof.

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

[F. R. Doc. 52-11041; Filed, Oct. 13, 1952; 8:45 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Federal Security Agency

PART 104—CONSTRUCTION OF SCHOOL FACILITIES IN AREAS AFFECTED BY FEDERAL ACTIVITIES

SUBPART C—DEADLINE FOR APPLICATIONS FOR PAYMENTS AND ORDER OF CERTIFICATIONS FROM FUNDS AVAILABLE FOR FISCAL YEAR 1953

Part 104 is amended by adding Subpart C, §§ 104.27 to 104.35, inclusive.

Whereas, §§ 104.20 and 104.21 of Subpart B fixed a date on or before which all complete applications for payments out of funds then available for the fiscal year 1952 should be filed, and

Whereas, it is desired to provide for the allocation of funds made available subsequent to June 30, 1952, or which may remain unallocated under the terms of §§ 104.18 through 104.26, inclusive, now, therefore, Part 104 is amended by the addition of Subpart C, §§ 104.27 to 104.35, inclusive, as follows:
